RECEIVED

STATE OF

MISSISSIPPI

OFFICE OF THE ATTORNEY GENERAL
JANUARY 2, 1915

PROCEEDINGS OF
TRANSIT COMMISSION

49 Lafayette Street
Borough of Manhattan, City of New York

Proceedings for Wednesday, January 3, 1923

Present: George McAneny, Chairman; John F. O'Ryan, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1—R. T. 7600, 7601, 7603

Route No. 52, Sections Nos. 1 & 3—Report by Chief Engineer as to Status of Construction of Section No. 2 and Storage Yard of Flushing Line in Connection with Contracts Pending Before Board of Estimate and Apportionment—Approval Resolution

A report by the Chief Engineer dated December 30, 1922, with respect to the status of Section No. 2 and the storage yard of the Queensboro Subway Rapid Transit Railroad Extension to Flushing in connection with the contracts pending before the Board of Estimate and Apportionment for the construction of Sections Nos. 1 and 3 of Route No. 52, was presented.

The following resolution was adopted:

Resolved, That the proposed communication prepared and now submitted by Counsel, which, if adopted will effect the recommendation of the Chief Engineer, as contained in his communication dated December 30, 1922, with respect to the status of Section No. 2 and the storage yard of the Queensboro Subway Rapid Transit Railroad Extension be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 3, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission is in receipt of the following report dated December 30, 1922, from its Chief Engineer:

"We have been informally advised that the Board of Estimate and Apportionment is holding up the approval of contracts for Sections Nos. 1 and 3 of Route No. 52, pending information as to whether the proposed bridge over the Flushing River will properly care for highway as well as rapid transit requirements and the status of the storage yard for this route. For your information, I wish to advise you of the following:

Section No. 3 of Route No. 52 was intended to be put under contract first, because it is subway construction and will take the longest of any part of this line to build. The contract time has been fixed as two years.

Section No. 1 was intended to be put under contract next, with an allowance of one year for completion, because it includes the approach to the storage yard

425249

in the Flushing Meadows, which is required at the earliest possible moment. It is proposed to use the excavated material of Section No. 3 to complete the grading of the yard. The track laying contract would complete this yard ready for train storage.

Section No. 2, which includes the bridge over the Flushing River, can be completed in about a year and a half from the time that the contract therefor is let.

We have had conferences with Mr. Tuttle, Chief Engineer of the Board of Estimate, Mr. Byrnc, Chief Engineer of the Department of Plant and Structures, Mr. Morris, Chief Engineer of the Long Island Railroad Company, and Mr. Powell, Engineer of the Topographical Bureau of Queens, on some of the details of construction and property questions which are involved in the construction of the combined highway and rapid transit bridge and its approaches over the Flushing River and the Long Island Railroad property and right-of-way. Progress is being made on these matters. There is no doubt that with fair cooperation Section No. 2 can be put under contract in time so as to be completed simultaneously with the rest of the line and yard.

Attached hereto is a print of our Drawing No. 29, File No. 4501, being a sketch of that portion of Section No. 2 in the vicinity of the Flushing River and showing the plan and profile of the combination rapid transit and highway bridge over the Flushing River. It is respectfully recommended that this be transmitted to the Board of Estimate for its information."

The Transit Commission accordingly submits this matter for the consideration of your Honorable Board in connection with the proposed contracts for the construction of this rapid transit railroad extension.

TRANSIT COMMISSION.
By GEORGE McANENY,
Chairman.

2—R. T. 6892

Route No. 8, Section No. 2—Report by Chief Engineer Recommending Approval of Lump Sum Price for Furnishing and Laying Gas Pipes at First Avenue and 14th Street—Approval Resolution

A report by the Chief Engineer dated December 26, 1922, recommending the establishment of a lump sum price, as described below, was approved and the following resolution was adopted:

Whereas, The Chief Engineer of the Commission in pursuance of Article XII of the Contract, dated July 12, 1920, between the City of New York, acting by the Transit Construction Commissioner, and Patrick McGovern for the completion of construction of part of the 14th Street-Eastern Rapid Transit Railroad, known as Section 2, Route 8, having subject to the approval of the Commission agreed with the Contractor upon the following supplementary schedule item:

Item 77-GG (c)—For furnishing and laying 18", 20" and 24" gas pipes, including excavation therefor, backfilling, repaving and all incidental work, labor and material in connection with the restoration of the gas mains removed by the Degnon Contracting Company in connection with underpinning of the elevated railway column at southeast corner of First Avenue and 14th Street, the lump sum of..... \$1,671.06

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

3—R. T. 7525

Routes Nos. 5 & 20—Report by Chief Engineer Recommending Extension of Time to December 19, 1922, within which to Complete Contract for Completion of Construction and Station Finish at Broadway and Canal Street Stations—Approval Resolution

A report by the Chief Engineer dated December 30, 1922, recommending an extension of time to Jacob Schlesinger, Inc., to and including December 19, 1922, within which to

complete the work under the contract for the completion of construction and station finish at the Broadway and Canal Street Stations, Routes Nos. 5 and 20, was presented.

The following resolution was adopted:

Whereas, The contract dated March 22, 1922, between The City of New York, acting by this Commission and Jacob Schlesinger, Inc., for the completion of construction and station finish, Routes Nos. 5 and 20, Broadway and Canal Street Stations, requires the completion of all work thereunder within six (6) months from the date of the delivery of said contract, which contract was delivered on March 23, 1922, the last date for completion therefor being September 23, 1912; and

Whereas, It is provided in Article LXV in said contract that "in case the contractor shall be actually and necessarily delayed by reason of any labor strike * * * or by any interference of public authority or by the suspension of the whole or any part of the work * * * then the said date for completion shall * * * be extended by resolution of the Commission to a date later than the expiration of said period of six (6) months * * *"; and

Whereas, The Chief Engineer of this Commission by communication dated December 30, 1922, has reported that the work under said contract was completed on December 19, 1922; that the delay in the completion of said work was attributable to the delay by the operating company in making the necessary arrangements to permit the contractor to proceed with the work at various locations on account of interference with traffic; difficulties encountered in procuring necessary material owing to railroad and coal strikes; unforeseen leaks which developed during the installation of the drainage system and encountering certain construction which was not contemplated and in view of such facts recommends that the time of the said contractor under said contract be extended to and including December 19, 1922.

Resolved, That the said report and recommendation be and the same hereby is approved; that the time of the said Jacob Schlesinger, Inc., within which to complete the work under said contract be and the same hereby is extended to and including December 19, 1922, provided, however, that such extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited as security for the faithful performance of said contract.

4—R. T. 7427

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of Coal Requirements for Month of January, 1923—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application dated December 16, 1922, from the Interborough Rapid Transit Company requesting approval of the purchase of 56,000 tons of coal from the Berwind-White Coal Mining Company and 14,000 tons from the Consolidation Coal Company, at \$7.50 per gross ton alongside the Company's docks, which coal is required for the month of January, 1923, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated December 22, 1922, stating that the price is reasonable and recommending that the application be approved, was also presented.

The following resolution was adopted:

Whereas, The Transit Commission is in receipt of the following communication dated December 16, 1922, addressed to the Secretary of this Commission by Frank Hedley, President and General Manager of Interborough Rapid Transit Company:

"On December 12th I telephoned Commissioner Harkness with regard to this Company's coal requirements for the month of January, 1923, which I advised him would amount to approximately 70,000 tons.

As you are aware the Commission approved on November 14, 1922, the purchase of 100,000 tons of coal to meet the requirements to December 31st, as

per my letter of November 6th, 1922. We have investigated the situation with respect to open market coal in the harbor, and find that the prices at present for coal of as good a quality as the Interborough standard range from \$8.00 per ton upward.

However, we had an oral understanding with the Berwind-White Coal Mining Company that they would accept an order for 80% of our January requirements, at the same price as approved by the Commission, in November, viz: \$7.50 per gross ton delivered alongside the Company's power house docks.

The Consolidation Coal Company has also agreed to deliver the remaining 20% of our January requirements, at the same price of \$7.50 per gross ton.

As you are aware, it is absolutely essential that we have for our winter supply of coal a grade of coal that is equal to the standard grade that we have used in our power houses for a number of years previous to the recent difficulties in the coal market, and deliveries from the two Companies above mentioned will fulfill these requirements.

I therefore request your approval for this Company to purchase 56,000 tons of coal from the Berwind-White Coal Mining Company, and 14,000 tons from the Consolidation Coal Company, at \$7.50 per gross ton alongside Company's docks, which today is over 50c per ton less than the price at which the same quality of coal is selling in the harbor."

; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated December 22, 1922, reported that the above mentioned companies produce a grade of coal which has been found to be most suitable for Interborough Rapid Transit Company's purposes; that the quantity of coal to be purchased for the period is reasonable; that the price proposed is reasonable and recommend that the proposal of Interborough Rapid Transit Company, as set forth in said communication, be approved.

Resolved, That the said report and recommendation be and the same hereby is approved and that the said application of Interborough Rapid Transit Company be and hereby is approved.

5—R. T. 6481

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Alterations of Certain Motor and Trailer Elevated Cars so as to Permit Operation of Queens Lines—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Assigning Work Order No. MCR-10—Approval Resolution

An application dated November 29, 1922, from the New York Municipal Railway Corporation requesting the approval of alterations to motor cars Nos. 1400 to 1439 inclusive and trailer cars Nos. 1 to 6 and 8 to 21 inclusive at a cost of \$18,000, so as to permit the operation of the cars on the Queens Lines, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer recommending that the application be approved from an engineering standpoint, was also presented.

A report by the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated December 27, 1922, classifying the work as a Replacement and assigning Work Order No. MCR-10, was also presented.

The following resolution was adopted:

Whereas, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, Lindley M. Garrison, as Receiver of said New York Municipal Railway Corporation, has, by communication dated November 29, 1922, requested the approval of this Commission to the altering of certain elevated type cars to permit operation of said cars on the Queensboro Lines; and

Whereas, By communication dated December 8, 1922, the Engineer of Equipment and Operation and the Chief Engineer have reported that the cars to be altered are motor cars Nos. 1400 to 1439 inclusive and trailer cars Nos. 1 to 6 and 8 to 21 inclusive; that the work includes removal of the present contact shoe beams and the installation of new shoe beams and shoes, removal of the trolley boards and restoring the roof canvas, re-locating the pneumatic trip cocks, and certain adjustments and alterations to the car bodies and trucks to reduce the overall height of the cars; that the cost of such work is estimated at \$18,000 and all the details of the proposed changes have been submitted to the Engineer, and recommend, from an engineering standpoint, that the application of the said Receiver be approved; and

Whereas, By communication dated December 27, 1922, the Auditor of Rapid Transit Costs and the Assistant Chief Accountant have reported with respect to said application and recommend that the entire work be classified as a Replacement to be paid for out of moneys of the Depreciation Fund for Existing Railroads made available by retirements from service (inclusive of the retirements to be made by this job, estimated at \$10,000), and that Work Order No. MCR-10 be assigned thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the application of said Receiver aforesaid be and the same hereby is approved, upon condition that the work thereby contemplated shall be classified as a Replacement and shall be paid for out of moneys of the Depreciation Fund for Existing Railroads made available by retirements from service (inclusive of the retirements to be made by this job, estimated at \$10,000) and as to which this Commission assigns Work Order No. MCR-10.

6—R. T. 6481

Contract No. 4—Communication from New York Municipal Railway Corporation Requesting Consideration of Plans for Experimental Train of Articulated Car Units—Report by Chief Executive Officer Recommending Action be Deferred—Report Approved

A communication dated October 24, 1922, from the New York Municipal Railway Corporation, by W. S. Menden, General Manager for Lindley M. Garrison, Receiver, requesting consideration of plans for a proposed experimental subway train known as "Type D", made up of articulated car units, was presented.

A report by the Chief Executive Officer dated January 3, 1923, recommending that decision be deferred without prejudice to be considered again in connection with the purchase of equipment for the operation of the Fourteenth Street-Eastern Line, was approved.

7—Gen. 1772, R. T. 6694, 6695

Contracts Nos. 3 & 4—Report by Chief Executive Officer Recommending that Operating Companies Submit Plans, Specifications and Estimates of Cost for Installing Complete Signal System on Mile of Local Track—Approval Resolution

A report by the Chief Executive Officer dated January 3, 1923, as described below, was approved and the following resolution was adopted:

Whereas, The Chief Executive Officer has, by communication dated January 3, 1923, reported and recommended with respect to the automatic train control for the protection of local tracks of rapid transit lines as follows:

"A committee, consisting of the Chief Engineer, the Consulting Engineer, Engineer of Equipment and Operation, and the Chief Executive Officer have been conducting an investigation into the possibility and advisability of installing complete signal control for the local tracks of rapid transit lines. I forward herewith the report of the Engineer of Equipment and Operation, dated December 26, giving the results of these investigations, with his recommendation.

The committee met this morning and considered this report, and has agreed upon the following recommendation. This recommendation looks to the next logical step to be taken in this matter. Our investigations to date indicate the possibility of establishing such a signal control. There remains to be determined the desirability of such installation. It is our judgment that as a first step toward

per my letter of November 6th, 1922. We have investigated the situation with respect to open market coal in the harbor, and find that the prices at present for coal of as good a quality as the Interborough standard range from \$8.00 per ton upward.

However, we had an oral understanding with the Berwind-White Coal Mining Company that they would accept an order for 80% of our January requirements, at the same price as approved by the Commission, in November, viz: \$7.50 per gross ton delivered alongside the Company's power house docks.

7—Gen. 1772, R. T. 6694, 6695

Contracts Nos. 3 & 4—Report by Chief Executive Officer Recommending that Operating Companies Submit Plans, Specifications and Estimates of Cost for Installing Complete Signal System on Mile of Local Track—Approval Resolution

A report by the Chief Executive Officer dated January 3, 1923, as described below, was approved and the following resolution was adopted:

Whereas, The Chief Executive Officer has, by communication dated January 3, 1923, reported and recommended with respect to the automatic train control for the protection of local tracks of rapid transit lines as follows:

"A committee, consisting of the Chief Engineer, the Consulting Engineer, Engineer of Equipment and Operation, and the Chief Executive Officer have been conducting an investigation into the possibility and advisability of installing complete signal control for the local tracks of rapid transit lines. I forward herewith the report of the Engineer of Equipment and Operation, dated December 26, giving the results of these investigations, with his recommendation.

The committee met this morning and considered this report, and has agreed upon the following recommendation. This recommendation looks to the next logical step to be taken in this matter. Our investigations to date indicate the possibility of establishing such a signal control. There remains to be determined the desirability of such installation. It is our judgment that as a first step toward

this each of the roads should work out the plans, specifications and estimates of costs for a complete installation on the controlling mile of their respective systems, submitting these details to the Commission. It will then be practicable for the Commission to determine whether or not to order the installation of these experimental mile sections; or to determine that the cost predicated on these plans will be so great as to make it seem undesirable to go further with the work. Assuming that the experimental mile sections are ordered and installed, the third and final step would then be, after further study and observation, to determine whether or not the installation should be made throughout the whole system. Your committee therefore makes the following recommendation:

Recommendation: That the Interborough Company and the New York Consolidated Railroad Company each be required to prepare plans, specifications and an estimate of cost for completely signalling a mile of track on their elevated systems with a speed control system of signals, with automatic stops, designed to safeguard the operation of the trains on the local tracks without reducing the capacity of the existing maximum operation. In each case this mile shall be the mile controlling the operation of their elevated systems. These plans, specifications and estimates shall be submitted not later than April 15, 1923.

It is proposed that this signal project be worked out with the existing type of speed control signals. But if the companies so desire the project may be developed with a new type of signal, on the assumption that it may be ordered for the whole system."

Resolved, That the said report and recommendation be and the same hereby is approved.

8—Cases 2182, 2218, 2306, 2662

Interborough Rapid Transit Company—Increased Number of Directors—Resolution Nominating Directors Approved

The Secretary presented a communication from the Interborough Rapid Transit Company, dated December 28, 1922, requesting the Commission to nominate three candidates for election to the Board of Directors of the Interborough Rapid Transit Company, pursuant to its Plan of Readjustment.

The Commission approved and ordered filed a resolution nominating Abel E. Blackmar, for a term ending September, 1925, William W. Niles, for a term ending September, 1924, and Herman A. Metz, for a term ending September, 1923, said resolution directing the Secretary of the Commission to notify the individuals named of their nomination and to advise the Interborough Rapid Transit Company of the same.

The papers presented and approved were as follows:

INTERBOROUGH RAPID TRANSIT COMPANY
165 Broadway

New York, December 28, 1922.

TRANSIT COMMISSION OF THE STATE OF NEW YORK,
49 Lafayette Street,
New York City.

Gentlemen:

This will serve to formally advise you that as the result of action taken at an adjourned special meeting of the stockholders of Interborough Rapid Transit Company, held on December 28, 1922, the number of directors of the Company was duly increased from fifteen to eighteen. At the same meeting a By-law was duly adopted providing that directors need not be stockholders. Certificates to this effect will be filed in the office of the Clerk of the County of New York and in the office of the Secretary of State, to-morrow morning, December 29, 1922. There are thus three vacancies.

As contemplated by the Interborough Plan of Readjustment dated May 1, 1922, and the Voting Trust Agreement with respect to the capital stock of the Interborough Rapid Transit Company dated October 1, 1922, these three vacancies are to be filled by persons designated by the Transit Commission. A special meeting of the Board of Directors of the Company has been called for Friday, December 29th at 2 P. M. at the Company's

[January 3, 1923

offices, for the purpose of filling these vacancies, for organization, for the election of officers, and for such other business as may properly come before the meeting.

Will you, therefore, please forward to me not later than noon to-morrow, December 29, 1922, your written nomination or designation of the three individuals whom you shall select to be your representatives on the Board of Directors of this Company, indicating in such designation the term or class to which each nominee is to belong—that is, one to be of the class whose term will expire in 1923, one of the class whose term will expire in 1924 and one of the class whose term will expire in 1925. Will you also please arrange to have your nominees present in the anteroom at the offices of this Company, 165 Broadway, Borough of Manhattan, New York City, at 2 P. M. to-morrow, so that they may take their places as soon as elected directors.

Will you kindly acknowledge receipt of this communication, by bearer.

Very truly yours,

H. M. FISHER,
Secretary.

December 28, 1922.

MR. H. M. FISHER, Secretary,
INTERBOROUGH RAPID TRANSIT COMPANY,
165 Broadway, New York City.

Dear Sir:

Receipt is acknowledged of your letter of December 28th, notifying the Transit Commission that the adjourned special meeting of the Interborough stockholders, held December 28th, had increased the number of directors from 15 to 18, and also adopted a by-law providing that the directors need not be stockholders; also requesting the Transit Commission to name three directors in accordance with the Plan of Readjustment and voting trust agreement dated May 1, 1922.

I shall bring this matter to the attention of the Commission immediately and notify you to-morrow of its action.

Very truly yours,

JAMES B. WALKER,
Secretary.

Whereas, The holders of securities of the Interborough Rapid Transit Company have consented to a certain Plan of Readjustment, which has been approved by the Transit Commission, and the stockholders of said company, pursuant to the Voting Trust Agreement dated May 1, 1922, executed in pursuance of said plan, have increased the number of directors from fifteen to eighteen and adopted a by-law providing that the three additional directors need not be stockholders, and have requested the Transit Commission to name three directors in accordance with said Plan of Readjustment and said Voting Trust Agreement, now, therefore,

Resolved, In consideration of the premises, the Transit Commission hereby nominates as Directors and as representatives of the public of the City of New York, upon the Board of Directors of the Interborough Rapid Transit Company, the following persons:

Abel E. Blackmar, No. 865 Park Place, Brooklyn, N. Y., to serve for a term ending September, 1925.

William W. Niles, Bainbridge Avenue and 206th Street, Bronx, N. Y., to serve for a term ending September, 1924.

Herman A. Metz, No. 38 West 74th Street, Manhattan, to serve for a term ending September, 1923.

Further Resolved, That the Secretary of the Transit Commission be and he hereby is authorized to notify said persons of their nomination and to advise the Interborough Rapid Transit Company of the same.

Dated, New York, January 3, 1923.

TRANSIT COMMISSION,
By JAMES B. WALKER,
Secretary.

MR. H. M. FISHER, Secretary,
Interborough Rapid Transit Company,
165 Broadway, New York City.

Dear Sir:

Your letter of December 28, 1922, advising the Transit Commission of the action of the stockholders of the Interborough Rapid Transit Company in increasing the

January 3, 1923]

8

members of the directors of the company from fifteen to eighteen, and of the amendment of the company's by-laws in certain respects, in order to permit the nomination by the Transit Commission of three persons as directors to represent the public of the City of New York as members of your board, was received in due course.

The Commission recognizing that the action taken by your company, as aforesaid, as that contemplated by the Interborough's Plan of Readjustment dated May 1, 1922, and the Voting Trust Agreement incidental to the said Plan of Readjustment with respect to the capital stock, has nominated at a meeting held this date, the following persons to be elected as directors of the Interborough Company in pursuance to the agreement aforesaid.

To serve one year:

Herman A. Metz, 38 West 74th Street, New York.

To serve two years:

William W. Niles, Bainbridge Avenue and 206th Street, New York.

To serve three years:

Abel E. Blackmar, 865 Park Place, Brooklyn.

Each of these nominees has been notified of his selection by the Commission and has been informed that a meeting of your board for general purposes will be held at 11 o'clock to-morrow morning.

Enclosed is a certified copy of the resolution adopted by the Commission. Kindly acknowledge receipt.

Very truly yours,
TRANSIT COMMISSION,
By JAMES B. WALKER,
Secretary.

HON. ABEL E. BLACKMAR,
865 Park Place,
Brooklyn, N. Y.

Dear Sir:

I am directed by the Transit Commission to notify you that you have been nominated by it as a representative of the public of the City of New York as director of the Interborough Rapid Transit Company, to serve for the term ending September, 1925, in accordance with the Plan of Readjustment and a certain Voting Trust Agreement dated May 1, 1922.

I enclose a certified copy of the resolution of the Commission making your appointment. Kindly acknowledge receipt of the enclosure.

Very truly yours,
JAMES B. WALKER,
Secretary.

HON. WILLIAM W. NILES,
Bainbridge Ave. and 206th Street,
Bronx, New York City.

Dear Sir:

I am directed by the Transit Commission to notify you that you have been nominated by it as a representative of the public of the City of New York as director of the Interborough Rapid Transit Company, to serve for the term ending September, 1924, in accordance with the Plan of Readjustment and a certain Voting Trust Agreement dated May 1, 1922. I enclose a certified copy of the resolution of the Commission making your appointment. Kindly acknowledge receipt of the enclosure.

Very truly yours,
JAMES B. WALKER,
Secretary.

HON. HERMAN A. METZ,
No. 38 West 74th Street,
New York City.

Dear Sir:

I am directed by the Transit Commission to notify you that you have been nominated by it as a representative of the public of the City of New York as director of the Interborough Rapid Transit Company, to serve for the term ending September, 1923, in accordance with the Plan of Readjustment and a certain Voting Trust Agreement dated

[January 3, 1923

May 1, 1922. I enclose a certified copy of the resolution of the Commission making your appointment. Kindly acknowledge receipt of the enclosure.

Very truly yours,
 JAMES B. WALKER,
 Secretary.

9—Case 2300

**The Long Island Railroad Company—Foot Subway at 84th Street (Digby Street)
 —Report and Opinion Approved—Resolution Authorizing Certificate of
 Performance of Work, and Certificate of Performance of Work Approved**

The Secretary presented a report and opinion by Carleton S. Cooke, Assistant Counsel to the Commission, designated to conduct the hearing on final accounting herein, dated December 19, 1922, recommending that the Commission accept and approve the accounting and report of its Civil Engineer, and adopt a resolution authorizing a certificate of performance of work; and a certificate of performance of work.

The Commission approved and ordered said report and opinion filed and adopted and ordered filed a resolution in Case No. 2300, authorizing a certificate of performance of work, and approved the certificate of performance of work.

10—Case 2638

**South Brooklyn Railway Company, Prospect Park & South Brooklyn Railroad
 Company—Manner of Carrying 14th Avenue, etc., Across—Report and Opin-
 ion by Chief Executive Officer Approved—Final Order and Determination
 Adopted.**

The Secretary presented a report and opinion by Lincoln C. Andrews, Chief Executive Officer designated to conduct the hearing herein, dated January 2, 1923, recommending that the Commission find and determine that 14th Avenue, Dahill Road (West Street) and Cortelyou Road, in the Borough of Brooklyn, be carried across the tracks of the South Brooklyn Railway Company and the Prospect Park & South Brooklyn Railroad Company substantially at grade as shown on a map marked Exhibit No. 6 at the hearing of December 20, 1922.

The Commission approved and ordered filed said report and opinion of the Chief Executive Officer and adopted and ordered filed a Final Order and Determination in Case No. 2638, directing that the above mentioned streets be carried across the railroad properties affected substantially at grade as shown on a map or plan marked Exhibit No. 6 at the hearing of December 20, 1922, and entitled, "Map showing the locality and laying out of 14th Avenue, Dahill Road (West Street) and Cortelyou Road, across the right of way of the Prospect Park & South Brooklyn Railroad Company and establishing grades thereon," dated February 9, 1921.

11—Case 2666

**New York & Putnam Railroad—Application of the Board of Estimate & Ap-
 portionment of the City of New York for Determination as to the Manner
 in which Van Cortland Park South Should be Carried Across the Right of
 Way—Hearing Order Adopted Designating Carleton S. Cooke, Assistant
 Counsel to Conduct Hearing**

The Secretary presented a resolution of the Board of Estimate and Apportionment of the City of New York, dated December 15, 1922, requesting the Transit Commission

to determine the method by which Van Cortland Park South should be carried across the right of way of the New York & Putnam Railroad, in the Borough of The Bronx.

The Commission adopted and ordered filed an Order in Case No. 2666, directing that a hearing be held on said application by and before Carleton S. Cooke, Assistant Counsel to the Commission therein duly designated to conduct the same upon a date to be fixed by him.

12—R. T. 7621

Routes Nos. 75 A, B, C-1, C-2, D, and E—Communication from Board of Estimate and Apportionment Advising of Rejection of Routes and General Plans for Construction of Eighth Avenue-Amsterdam Avenue Line—Filed.

The following communication from the Board of Estimate and Apportionment was ordered filed:

December 22, 1922.

Hon. GEORGE McANENY,
Chairman, TRANSIT COMMISSION.

Sir:

The six communications, dated November 28, 1922, from the Transit Commission, transmitting certified copies of six resolutions adopted by said Commission November 28, 1922, determining and establishing routes and general plans of construction for additional rapid transit railways in the Borough of Manhattan, to be known as Eighth Avenue-Amsterdam Avenue Line, Routes Nos. 75 A, B, C-1, C-2, D and E, were this day considered by the Board.

The resolutions approving the plans and conclusions in each instance was unanimously rejected by the Board.

Very truly yours,
JAMES MATTHEWS,
Assistant Secretary.

13—R. T. 7466

Agreement "AZ"—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Additional Appropriation of \$2,336.65 for Construction of Stairway Through Isle of Safety at Borough Hall Station—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 22, 1922, was ordered filed.

(Cal. No. 193)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 22, 1922, the Board of Estimate and Apportionment does hereby consent to an appropriation for additional work, in connection with the contract with Charles J. Adams & Son, Inc. (Agreement "AZ"), for the construction of an additional entrance to the Borough Hall Station through the Isle of Safety, at an estimated cost of two thousand three hundred and thirty-six dollars and sixty-five cents (\$2,336.65); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be two thousand three hundred and thirty-six dollars and sixty-five cents (\$2,336.65); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding two thousand three hundred and thirty-six dollars and sixty-five cents (\$2,336.65), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied in addition to the sum of fourteen thousand four hundred and fifty-nine dollars and ten cents (\$14,459.10) heretofore authorized, to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand

dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 22, 1922.

JAMES MATTHEWS,
Assistant Secretary.

14—R. T. 7627

Route No. 39, Section No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$350. for Installation of Additional Slatting for Footwalk on West End Line from 25th Avenue to Bay 50th Street—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on December 22, 1922, was ordered filed:

(Cal. No. 194)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated December 7, 1922, the Board of Estimate and Apportionment does hereby consent to an appropriation to meet the expense of work to be performed by the New York Municipal Railway Corporation, or its Receiver, in installing an additional slatting for the footwalk on the elevated structure of subdivision VIII of the Broadway-Fourth Avenue Line of the railroad described in the contract between The City of New York and the New York Municipal Railway Corporation, known as Contract No. 4, at an estimated cost of three hundred and fifty dollars (\$350); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three hundred and fifty dollars (\$350); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding three hundred and fifty dollars (\$350) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said work; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, December 22, 1922.

JAMES MATTHEWS,
Assistant Secretary.

15—R. T. 7589

Contract No. 3—Statement as to Execution and Delivery of Original Contract for Construction of Foundations for Third Addition to Shops Lenox Avenue and 148th Street Yard—Contract Filed

An original contract dated December 26, 1922, between The City of New York, acting by the Transit Commission and Rosenthal Engineering Contracting Company for the construction of foundations for the Third Addition to Shops at the Lenox Avenue and 148th Street Yard, which contract had been executed on behalf of both parties and delivered on December 28, 1922, was ordered filed.

16—R. T. 7521

Route No. 16—Notice by Chief Engineer of Commencement of Work for Installation of Special Work at Approach to Jerome Avenue Yard—Filed

A notice by the Chief Engineer dated December 28, 1922, advising of the commencement of work on December 21, 1922, by the Interborough Rapid Transit Company under the agreement for the installation of Special Work on the Main Line tracks at the approach to the Jerome Avenue Yard, was ordered filed.

17—R. T. 7609

Agreement "CD"—Notice by Chief Engineer of Commencement of Work for Construction of Transformer Closets for Emergency Lighting—Filed

A notice by the Chief Engineer dated December 28, 1922, advising of the commencement of work on December 27, 1922, by John Pollock for the construction of transformer closets for emergency lighting, Borough of Brooklyn, Agreement "CD," was ordered filed.

18

Employees' Resolution No. 121

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Aaron D. Fleshler, junior electrical engineer, at \$125.08 per month, to take effect January 2, 1923; Selig Kunofsky, draftsman, at \$150.08 per month, to take effect January 2, 1923; Louis Marder, accountant, at \$150.08 per month, to take effect December 23, 1922; Jesse Perlmutter, accountant, at \$150.08 per month, to take effect December 27, 1922; Edward Schlechtiger, junior electrical engineer, at \$125.08 per month, to take effect January 2, 1923.

Appointments under Rule VIII:4—Aaron Cohen, junior assistant, at \$125.08 per month, to take effect January 2, 1923; Frederick W. Greenhut, junior electrical engineer, at \$125.08 per month, to take effect January 2, 1923; James T. Hannigan, junior electrical engineer, at \$125.08 per month, to take effect January 2, 1923; Frank M. Hill, draftsman, at \$150.08 per month, to take effect January 2, 1923; Walter H. Lankenau, junior assistant, at \$125.08 per month, to take effect January 2, 1923; Adolph Lehman, junior electrical engineer, at \$125.08 per month, to take effect January 2, 1923; Harry W. Schulman, draftsman, at \$150.08 per month, to take effect January 2, 1923.

Resignations—Hyman H. Rosenberg, junior assistant, at \$125.08 per month, to take effect January 2, 1923.

Leave of Absence with Pay—Charles Lahr, junior engineer, from December 19, 1922, to December 26, 1922; Dora V. Lehrer, stenographer, from December 16, 1922, to December 22, 1922.

Leave of Absence without Pay—Charles Lahr, junior engineer, from December 27, 1922, to January 1, 1923.

19

Voucher Schedule No. 1

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Voucher Nos. 1-13, open market orders, \$2,668.16; Vouchers Nos. 1-9, miscellaneous bills, \$18,831.90.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

- Voucher No. 1; George Colon & Co.; approximate estimate No. 4 for miscellaneous construction and station finish on certain portions of rapid transit railroads, Agreement "BH," Groups I, II and III, from November 21, 1922, to December 23, 1922 (R. T. 7476) \$1,964.29;
- Voucher No. 2; Slattery Engineering & Construction Co., Inc.; approximate estimate No. 2 for the installation of frogs, switches, track and bumping posts in a yard near Jerome Avenue and Mosholu Parkway, Route No. 16, from December 1, 1922, to December 31, 1922 (R. T. 7577), \$3,261.46;
- Voucher No. 7; John L. Klages, or Benj. Trapnell, Attorney, award for damages to easements of light, air and access to property at Nos. 410 to 422 Jackson Avenue, Borough of Queens, New York, as per Supreme Court Order (Action 1) \$2,134.90;
- Voucher No. 8; John L. Klages, or Benj. Trapnell, Attorney, award for damages to easements of light, air and access to property at No. 424 Jackson Avenue, Borough of Queens, New York, as per Supreme Court order (Action No. 2) \$1,646.08.

JAMES B. WALKER,
Secretary.

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

21—R. T. 7423

Agreement "CH"—Resolution Approving Amended Requisition Upon Board of Estimate and Apportionment for Appropriation for Elevators at 168th Street Station—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Resolved, That the proposed communication to the Board of Estimate and Apportionment now prepared and submitted by Counsel modifying the requisition of December 27,

1922, upon the Board of Estimate and Apportionment for the consent of said Board to, and the appropriation of the money necessary to carry out the proposed contract with the Otis Elevator Company for the furnishing and installing of two electric passenger elevators in said new entrance to the 168th Street station of the Manhattan-Bronx Railroad be and the same hereby is approved and adopted and that the Chairman of this Commission be and he hereby is authorized and directed to sign and transmit said proposed communication.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 9, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under date of December 27, 1922 the Transit Commission, pursuant to the authority vested in it submitted to your Honorable Board for its consent a proposed contract between The City of New York, acting by this Commission and Otis Elevator Company for furnishing and installing two electric passenger elevators in the new entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad being constructed pursuant to the contract consented to by your Honorable Board on May 5, 1922, such work forming part of that included in the agreement modifying Contract No. 1 for that purpose. There was also included in such submission a request that there be applied for the purposes of meeting the City's obligations under the proposed contract with the Otis Elevator Company the sum of \$89,550 of the appropriation of the sum of \$475,000 made by your Honorable Board on February 3, 1922 for the reconstruction of the said 168th Street Station. This request was made without cognizance of the fact that at the time your Honorable Board consented to the proposed contract with Holbrook, Cabot & Rollins for the construction of the new entrance to said station appropriating for that purpose the sum of \$283,332; that your Honorable Board by separate resolution amended the resolution of February 3, 1922 so as to substitute therein the figures "\$283,332" for the figures \$475,000 wherever they appeared thereby, in the words of the resolution, "rescinding the sum of One hundred and Ninety-one thousand Six hundred and Sixty-eight (\$191,668) Dollars, in Code CCN-103-B.

Under these conditions therefore, the request of the Transit Commission as set forth in its communication of December 27, 1922, in relation to the proposed contract with the Otis Elevator Company, cannot be complied with.

Your Honorable Board is therefore requested to appropriate for the purposes of the contract dated February 21, 1900 between The City of New York and Interborough Rapid Transit Company as Assignee, known as Contract No. 1, for the construction, maintenance and operation of the Manhattan-Bronx Rapid Transit Railroad as modified by the agreement dated June 21, 1917 consented to by your Honorable Board on May 25, 1917 for the purposes of constructing the additional entrance to the 168th Street station of said rapid transit railroad, the additional sum of Eighty-nine thousand, Five hundred and Fifty (\$89,550) Dollars being the estimated expense to the City of carrying out the proposed contract with the Otis Elevator Company, pursuant to a form of contract submitted with the communication of December 27, 1922 aforesaid, which your Honorable Board is requested to consider modified to the extent herein set forth.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

22—R. T. 7600, 7601, 7603

Route No. 52, Sections Nos. 1 & 3—Communication from Board of Estimate and Apportionment Referring Back Proposed Contracts for Construction of Parts of Flushing Line—Referred to Chief Engineer to Report to Chairman.

The following communication from the Board of Estimate and Apportionment was referred to the Chief Engineer to report to the Chairman:

(Cal. No. 37 and 272)

January 5, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

At the meeting of the Board of Estimate and Apportionment on January 5, 1922, the following matters were referred back to the Transit Commission:

(1) Communication dated October 31, 1922, submitting for the consent of the Board, proposed contract with the Oakdale Contracting Company, Inc., the lowest of nine bidders, for the construction of a part of the rapid transit railroad, "Flushing Route," Route No. 52, Section No. 3 (Amity street), and requesting that the Board authorize an issue of \$1,635,950.75 corporate stock as a sub-authorization under Contract No. 3, to meet the estimated expense to the City of carrying out said proposed contract.

(2) Communication dated November 14, 1922, from the Transit Commission, submitting for the consent of the Board, proposed contract with Gustin Morris Contracting Corporation (the lowest of ten bidders), for the construction of foundations, Route No. 52, Section 1, Flushing Route, and requesting the Board to appropriate the sum of \$91,612.50, the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

(3) Communication dated December 19, 1922, submitting for the consent of the Board proposed contract to be entered into with the Phoenix Bridge Company (the lowest of seven bidders), for furnishing and erecting structural steel for a part of the Rapid Transit Railroad, Flushing Route, Route No. 52, Section No. 1, and requesting the Board to authorize an additional appropriation of \$615,880 under Contract No. 3 for the purpose of paying the estimated expense to the City of carrying out said proposed contract.

These matters were referred back to the Transit Commission, because, in the approaches to the bridge over the Flushing River, which are included in these contracts (and, in the bridge itself, the plans for which have not yet been submitted), there appears to be no provision for any kind of a highway connection between Flushing and Corona, and, as it is quite evident that the traffic necessities of the very near future will demand adequate highway facilities at this point, there appears to be no reason why the same public expenditure should not provide such highway facilities, along with the rapid transit line, over the bridge; so that any plan approved and adhered to, should be sufficiently comprehensive to provide for both. It appears to this Board that the recommended action will occasion no delay, as the Transit Commission has taken no steps to construct the storage yard in connection with this line (the acquisition of a site for which was approved by this Board on June 4, 1920), nor has it presented a contract for the construction of the bridge referred to.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

23—R. T. 7419

Contracts Nos. 3 & 4—Report by Chief Engineer as to Receipt of Bids for Completion of Built-in Newsstand Enclosures and Recommending that bids be Rejected and that Cost of Readvertising be Charged to Lowest Bidder—Resolution Rejecting Bids and Directing Bids be Readvertised, the Expense to be Deducted from Certified Check Deposited by Contractor with Bid

A report by the Chief Engineer dated January 4, 1923, as to the result of the bids received on January 4, 1923, for the completion of built-in newsstand enclosures at stations of rapid transit railroads and recommending that bids be rejected by reason of an error by the lowest bidder and that bids be readvertised and that the expense for same be deducted from the certified check deposited by Benedetto & Saussez, was presented.

The following resolution was adopted:

Whereas, Pursuant to resolution adopted by this Commission on December 12, 1922, the proposed contract adopted May 23, 1922, for the completion of built-in newsstand enclosures at stations of municipal rapid transit railroads (under Contracts Nos. 3 and 4) was readvertised and bids were received January 4, 1923; and

Whereas, By communication dated January 4, 1923, the Chief Engineer of this Commission has reported the following bids were received:

Benedetto & Saussez.....	\$36,820.00
D. C. Serber.....	55,000.00
Norman A. Deiser.....	57,686.30
Chas. J. Adams & Sons, Inc.....	57,777.00
Chas. Meads & Co.....	66,154.00
John B. Roberts.....	67,527.00

that subsequently a communication was received from the low bidder, Benedetto & Saussez that they had made a mistake in their bid and requesting permission to withdraw the same; that the error was as follows:

"The error in their bid is confined to item "533D windows, kalemien (a) Newsstand". This should have been bid for per lineal foot as unit while this bidder in accordance with their statement bid per square foot and it is evident from looking over their bid that the statement in their letter that the error was due to a "clerical error", in mis-reading lineal foot for square foot is correct. In their letter the lowest bidder states: 'We are willing to pay for the expense of readvertising the same.' Under the circumstances, I consider it advisable that all bids received today for this work be rejected. Attached I send you copy of undated letter received today referred to above from Benedetto & Saussez."

and recommend that the bid so received be rejected and that the said proposed contract be readvertised, the cost thereof to be charged to and deducted from the certified check of \$500 deposited by said Benedetto & Saussez.

Resolved, That the said report and recommendation be and the same hereby are approved; that all the bids received for said proposed contract on January 4, 1923, be and the same hereby are in all respects rejected and that the Secretary of this Commission be and hereby is authorized and directed to return to such bidders the certified checks deposited with every bid with the exception of the certified check of Benedetto & Saussez,

Further Resolved, That the Invitation to Contractors forming part of said proposed contract as adopted on May 23, 1923, aforesaid be published in The City Record every day of publication continuously from and including January 11, 1923, to and including January 25, 1923, and on January 15, 1923, and January 22, 1923, in The World and The Evening Telegram, daily newspapers published in The City of New York and that such bids as shall be received shall on the 25th day of January, 1923, at eleven thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read,

Further Resolved, That the expense of such readvertising be charged to and deducted from the said certified check in the sum of \$500. deposited by Benedetto & Saussez and hereby retained.

24—R. T. 7635

Agreement "CE"—Form of Contract, Specifications, Invitation to Contractors, etc. for Making Alterations in Structure of Broadway-Fourth Avenue Rapid Transit Railroad so as to Permit Widening of Certain Streets in Borough of Manhattan—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contracts and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad Structure at various locations to permit widening of streets, Borough of Manhattan, (Agreement "CE"),

Ordered, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad Structure at various locations to permit widening of streets, Borough of Manhattan (Agreement "CE") be and hereby are approved and adopted and that said Invitation to Contractors be published in The City Record every day of publication continuously from and including January 11, 1923, to and including January 25, 1923, and on January 15th, 1923, and January 22, 1923, in The New York Tribune and The Sun, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 25th day of January, 1923, at eleven-thirty (11:30) o'clock a. m., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

25—R. T. 7026

Route No. 8, Section No. 6A-1—Application by Joslin Construction Company, Inc., for Return of Certified Check Deposited with Bid—Application Granted

An application dated January 8, 1923, from the Joslin Construction Company, Inc., second lowest bidder, for the return of the certified check in the sum of \$25,000 deposited with the bid of the company on December 22, 1922, for the construction of Section No. 6A-1 of Route No. 8, was granted.

26—R. T. 6892

Route No. 8, Section No. 2—Report by Chief Engineer Recommending Extension of Time to and Including October 31, 1922, Within Which to Complete Work—Approval Resolution

A report by the Chief Engineer dated January 3, 1923, recommending an extension of time to Patrick McGovern, Inc., to and including October 31, 1922, within which to complete work under the contract for the construction of Section No. 2 of Route No. 8, of the Fourteenth Street-Eastern Line was presented. The following resolution was adopted:

Whereas, The contract dated July 12, 1920, between The City of New York, acting by the Transit Construction Commissioner, and Patrick McGovern, Inc. (as assignee of Patrick McGovern) for the completion of construction of that part of the Fourteenth Street-Eastern Rapid Transit Railroad, Section No. 2 of Route No. 8, requires, in Article LIV thereof that the contractor shall, within fifteen (15) months from the date of the delivery of said contract, complete the Railroad in all respects as may be necessary to put the railroad in condition for immediate, full and continuous operation and shall complete all other work covered by said contract (except the maintenance of street surface) within twenty-four (24) months from the date of delivery of said contract; and

Whereas, It is also provided in Article LV of said contract that in case the contractor shall be actually and necessarily delayed "by reason of any labor strike * * * or in case the contractor shall be actually and necessarily delayed by any injunction or by any interference of public authority or by the suspension of the whole or any part of the work by the Commissioner * * *", then the said period of 15 and 24 months shall be extended by the amount of such delay as determined by the Commission; and

Whereas, By resolution adopted November 1, 1921, this Commission approved and adopted the certificate of the Chief Engineer made pursuant to Article XXXVII-A of said contract; that the said Patrick McGovern, Inc., as such assignee, did complete the railroad in all respects as was necessary to put the railroad in condition for immediate, full and continuous operation within fifteen (15) months from the date of the delivery of said contract on July 12, 1920; and

Whereas, By communication dated January 3, 1923, the Chief Engineer of this Commission has reported with respect to the completion of all the work under said

contract; that the contract period of 24 months was exceeded by 3 months and 19 days; that such excess time was justified for the reasons more particularly set forth in the said report and recommends, in accordance with the provisions of said contract, that the time for the completion of all the work under said contract (except maintenance of street surface) be extended to and including October 31, 1922.

Resolved, That the said report and recommendation be and the same hereby is approved; that the time of Patrick McGovern, Inc., under said contract, within which to complete all the work (except maintenance of street surface) be and the same hereby is extended to and including October 31, 1922, provided, however, that this extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited by said contractor as security for the faithful performance on its part of said contract and unless and until it shall be accepted in writing by the said contractor in form to be approved by Counsel to this Commission expressing the understanding that the extension of time herein granted shall in no way for any purpose be deemed a recognition or admission of any claim legal or equitable made or which may be made by the Contractor under the said contract and the fact that such an extension of time is herein granted shall not be used by the said Contractor in any action or proceeding at law or in equity as evidence of an admission of any claim or claims of the said Contractor under the said contract and that the grant of such extension of time as herein provided shall in no way defeat or impair any claim or defense of the City of New York in any action or proceeding growing out of said contract aforesaid.

27—R. T. 7007

Contract No. 3—Two Applications from Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Orders for Material to be Installed on 100 New Steel Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

Two applications dated December 18, 1922, and December 19, 1922, from the Interborough Rapid Transit Company, by J. F. Sloan, Assistant Purchasing Agent, requesting approval of proposed purchasing agent's orders to be issued to the Western Electric Company for furnishing 214,200 feet of conduit at a cost of \$10,501.34 and to the Columbia Machine Works & Malleable Iron Company for furnishing signal, train line, operators and boxes at a cost of \$8,800 to be installed on 100 new steel trailer cars, were presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer, dated December 30, 1922, recommending that the orders be approved was also presented.

The following resolutions were adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922, in Case No. 2627 and approved the petition dated June 23, 1922, of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. 1BA-3; and

Whereas, Pursuant to the provisions of said Contract No. 3 and said order of July 6, 1922, and the said proposed contract approved by said resolution of August 8, 1922, Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated December 18, 1922, directed to the Western Electric Company for the manufacture and delivery of the following:

Item No.

- 1 150,000 Ft. Conduit, 3/4" loricated. Price: \$47.00 per M. Ft.
- 2 36,000 Ft. Conduit, 1/2" loricated. Price: 47.00 per M. Ft.
- 3 25,000 Ft. Conduit, 3/4" loricated. Price: 59.50 per M. Ft.
- 4 3,200 Ft. Conduit, 1" loricated. Price: 84.95 per M. Ft.

Delivery to be made to our 128th Street and Second Avenue Storehouse, New York, N. Y., as follows:

- 25% January 1st, 1923.
- 25% weekly thereafter.

Manufacturer must guarantee that all of the above conduit is absolutely clear and free of obstructions.

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated December 30, 1922, reported that the material is to be used in the interlocking plants to be installed east and west of the Queensboro Plaza Station of the Broadway-Fourth Avenue Rapid Transit Railroad; that the installation of such interlocking plants was approved by this Commission on October 24, 1922; that the material is necessary and the prices specified are reasonable and the lowest obtainable and recommend that the said proposed purchasing agent's order be approved; and

Whereas, By memorandum dated January 4, 1923 the Auditor of Rapid Transit Costs has recommended the approval of said purchasing agent's order as Equipment of the Railroad as defined in said Contract No. 4,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is

authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, Lindley M. Garrison has, by communication dated December 18, 1922, submitted for the approval of this Commission proposed purchasing agent's order dated December 15, 1922, directed to General Railway Signal Co. for the following:

5 NYM Standard, Single, 3 Light, Outdoor, Light Block Signals complete with pedestal for mounting on relay case, less relay case.....	\$90.00 Ea. Net
10 A. C. Track Relays #36100, List #65.....	115.00 Ea. Net
2 A. C. Track Relays #36102, List #30.....	135.00 Ea. Net
3 A. C. 3-Pos. Line Relays #37311, List 24.....	100.00 Ea. Net
7 A. C. 2-Pos. Line Relays #37310, List 51.....	90.00 Ea. Net
2000 Black Fibre Tags, GRS. Cat. Pt. E-1107, Fig. 19....	3.50-1000 Net
2000 Wire Eyelets for 1/4" post and #14 wire GRS Cat. Plate E-1111, Fig. 2.....	2.50-1000 Net
1 Approach Signal Lever complete for Space #28.....	112.00 Ea. Net
2 Polarized Relays for Switch levers, Ref. GRS Cat. plate C-0504. DWG. 33880GR1.....	22.50 Ea. Net
3 No. Plates for screw release cases, numbers to be 5-10 and 21 respectively, Ref. GRS Dwg. 50890-1, Ref. No. 5.....	.90 Ea. Net
2 110 volt. D. C. Pole changers for model #5 switch machine to be complete as per Fig. A1, Plate J-2115, GRS Cat. except as follows:	
(a) Pole changer to be equipped with eight normal and eight reverse contact springs all as per Fig. 31 Plate J-2115.	
(b) Coils to be wound to a higher resistance in order to obtain a lower value for the operating current (Approx. 0.2 ampere).....	115.00 Ea. Net
	F.O.B. point of shipment

which proposed purchasing agent's order has been caused to be designated as "Approval No. 338"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated December 30, 1922, reported that the material is to be used in the interlocking plants to be installed east and west of the Queensboro Plaza Station of the Broadway-Fourth Avenue Rapid Transit Railroad; that the installation of such interlocking plants was approved by this Commission on October 24, 1922; that the material is necessary and the prices specified are reasonable and the lowest obtainable and recommend that the said proposed purchasing agent's order be approved; and

Whereas, By memorandum dated January 4, 1923 the Auditor of Rapid Transit Costs has recommended the approval of said purchasing agent's order as Equipment of the Railroad as defined in said Contract No. 4,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said purchasing agent's order so submitted be and the same hereby is approved; and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

29—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Agreement for Furnishing Two Boilers for 59th Street Power House—Referred to Commissioner O’Ryan

An application dated January 8, 1923, from the Interborough Rapid Transit Company, requesting approval of a proposed agreement with Babcock & Wilcox for fur-

nishing two 1200 H. P. boilers for the 59th Street power house, at a cost of \$50,765.00, was referred to Commissioner O'Ryan.

30—R. T. 7354

Contract No. 3—Stipulation Extending time to February 28, 1923, for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1921—Approved

A stipulation dated December 31, 1922, between the Transit Commission and the Interborough Rapid Transit Company extending the time to and including February 28, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1921, provided for in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3, was approved.

31—R. T. 7354

Contract No. 3—Stipulation Extending Time to February 28, 1923, for Determinations as to Depreciation and Excess Maintenance for Year Ended June 30, 1922—Approved

A stipulation dated December 31, 1922, between the Transit Commission and the Interborough Rapid Transit Company extending the time to and including February 28, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1922, provided for in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3, was approved.

32—R. T. 7235

Elevated Extension Certificate—Stipulation Extending Time to February 28, 1923, for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1921—Approved

A stipulation dated December 31, 1922, between the Transit Commission and the Interborough Rapid Transit Company, extending the time to and including February 28, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1921, provided for in Subdivision 5 of Article XII of the Extension Certificate of the Interborough Rapid Transit Company, was approved.

33—R. T. 7235

Elevated Extension Certificate—Stipulation Extending Time to February 28, 1923, for Determination As to Depreciation and Excess Maintenance for Year Ended June 30, 1922—Approved

A stipulation dated December 31, 1922, between the Transit Commission and the Interborough Rapid Transit Company extending the time to and including February 28, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1922, provided for in Subdivision 5 of Article XII of the Extension Certificate of the Interborough Rapid Transit Company.

34—R. T. 6595

Contract No. 4—Statements from New York Consolidated Railroad Company of Results of Operation for Month of November, 1922 and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

A communication dated January 5, 1923, from the New York Consolidated Railroad Company, by Howard Abel, Comptroller for Lindley M. Garrison, Receiver, submitting statements of Results of Operation for the month of November, 1922, for the period from August 4, 1913 to November 30, 1922, and the status of Maintenance and Depreciation Funds, under Contract No. 4, was referred to the Chief Accountant.

35—Case 1292

The New York Central Railroad Company—Operation of Freight Trains on Eleventh Avenue—Report Filed

The Secretary presented a report by the Chief of Transit Bureau, approved by the Chief Executive Officer, dated January 4, 1923, advising that authority had been given The New York Central Railroad Company to suspend the Order herein from January 4th to 10th, inclusive.

The Commission ordered the report filed.

36—Case 2667

Interborough Rapid Transit Company—Application of Merchants & Taxpayers' Alliance of North Bronx for Change of Name of the 210th Street-Williamsbridge and the Gun Hill Road Stations—Hearing Order Adopted

The Secretary presented a communication, dated November 28, 1922, from the Merchants & Taxpayers' alliance of the North Bronx, making application for change of name of the 210th Street—Williamsbridge and the Gun Hill Road stations on the Third Avenue Elevated Line of the Interborough Rapid Transit Company; and a report by the Chief of Transit Bureau, approved by the Chief Executive Officer, dated January 6, 1923, recommending that a hearing on said application be held.

The Commission adopted and ordered filed an Order in Case No. 2667, directing that a hearing be held on said application before George L. Lucas, Assistant to the Chief Executive Officer of the Commission therein duly designated to conduct the same on January 19, 1923, at 10:30 o'clock in the forenoon.

37

Public Service Commission of Oregon—Communication re American Telephone & Telegraph Company Violations Clayton Anti-Trust Law—Chairman to Reply

The Secretary presented a statement of apparent violations of the Clayton Anti-Trust Law by the American Telephone & Telegraph Company and its subsidiaries.

The Commission authorized the Chairman to advise the Oregon Commission that the jurisdiction of this Commission was limited to transportation companies within the City of New York and that therefore it could not participate in any action contemplated by the Oregon Commission.

38—Case 2253

The New York Central Railroad Company—238th Street Bridge—Report Filed

The Secretary presented a report by Carleton S. Cooke, Assistant Counsel to the Commission, dated January 5, 1923, advising the Commission that a peremptory mandamus Order herein had been signed by Mr. Justice McCook and advising the Commission that counsel for the railroad company would apply for a stay of said Order pending appeal.

The Commission ordered the report filed.

39—Cases 2182, 2218, 2306, 2662

Interborough Rapid Transit Company—Plan of Readjustment—Acceptances by Abel E. Blackmar and Herman A. Metz of Designations as Members of the Board of Directors of the Interborough Rapid Transit Company

The Secretary presented a communication from Abel E. Blackmar, dated January 6, 1923, and from Herman A. Metz, dated January 6, 1923, accepting designation as directors of the Interborough Rapid Transit Company, pursuant to its Plan of Readjustment.

The Commission ordered said communications filed.

40—R. T. 6905

Route No. 48, Section No. 3—Communication from Board of Estimate and Apportionment as to Communication from Commission Requesting Return of Requisition for Payment of Judgment Obtained by New York Dock Company—Filed

The following communication was ordered filed:

(Cal. No. 221)

January 5, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

At the meeting of the Board of Estimate and Apportionment on January 5, 1923, in compliance with your request of December 29, 1922, your communication dated December 8, 1922, requesting as a sub-requisition under contract No. 4, appropriation of \$9,000 and additional appropriation of \$150.05 costs, plus the sum of \$10 appeal costs, in connection with judgment obtained by the New York Dock Company, was placed on file.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

41—R. T. 7411

Contract No. 4—Communication from Corporation Counsel Requesting Verification and Signature to Petition for Order of Condemnation for Acquisition of Property for Coney Island Storage Yard—Filed

A communication from George P. Nicholson, Corporation Counsel, dated January 5, 1923, submitting for verification and signature as required by Section 43 of the Rapid Transit Act, a petition to the Supreme Court for an order of condemnation for the acquisition of an estate in fee simple absolute in and to certain premises on Shell Road between 85th Street and Coney Island Creek in the Borough

of Brooklyn, was ordered filed, the petition having been signed and returned to the Corporation Counsel.

42—R. T. 7530

Routes Nos. 4 & 36, Section No. 4—Statement as to Execution and Delivery of Original Agreement for Installing Special Work Between Express Tracks North of Times Square—Agreement Filed.

An original agreement dated January 3, 1923, between the City of New York, acting by the Transit Commission, Lindley M. Garrison as Receiver of the New York Consolidated Railroad Company and the New York Consolidated Railroad Company, for the installation of special work between the express tracks of the Broadway-Fourth Avenue Rapid Transit Railroad north of Times Square, which agreement had been executed on behalf of all parties and delivered on January 5, 1923, was ordered filed.

43

Employees' Resolution No. 122

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Harry W. Henderson, draftsman, at \$150.08 per month, to take effect January 4, 1923.

Appointments under Rule VIII:4—Maurice Friedlander, junior assistant, at \$125.08 per month, to take effect January 5, 1923; Elliott S. Manion, junior assistant, at \$125.08 per month, to take effect January 4, 1923; Milton Sokolow, junior assistant, at \$125.08 per month, to take effect January 9, 1923.

Appointments under Rule V:4—Frances Demato, janitor, at \$10.00 per month, to take effect January 1, 1923.

Appointments under Rule VIII:9—James Bousfield, draftsman, at \$150.08 per month, to take effect January 19, 1923; Carl Monniche, draftsman, at \$150.08 per month, to take effect January 22, 1923; Ira B. Thomson, draftsman, at \$150.08 per month, to take effect January 15, 1923.

Resignations—Louis Demato, janitor, at \$6.50 per month, to take effect December 31, 1922; Miriam V. B. Vedder, stenographer, at \$125.00 per month, to take effect August 3, 1922.

Termination of Appointment under Rule VIII:4—James Bousfield, draftsman, at \$150.08 per month, to take effect January 18, 1923; Carl Monniche, draftsman, at \$150.08 per month, to take effect January 21, 1923; Ira B. Thomson, draftsman, at \$150.08 per month, to take effect January 14, 1923.

Declination of Appointment—Louis Hochman, junior assistant, at \$125.08 per month, to take effect January 2, 1923; Joseph R. Morelos, junior assistant, at \$125.08 per month, to take effect January 2, 1923.

Promotion—John W. James, porter, from \$128.08 per month, to \$150.00 per month, to take effect January 16, 1923.

Leave of Absence with Pay—George Donnelly, transit inspector, from December 28, 1922, to December 30, 1922; Gussie Siebel, clerk, from February 6, 1923, to May 5, 1923.

44

Voucher Schedule No. 2

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

[January 11, 15, 1923]

Vouchers Nos. 14-52, open market orders, \$2,348.44; Vouchers Nos. 10-19, miscellaneous bills, \$1,738.34; Voucher No. 1, special payroll, \$2,500.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 6; B. T. & J. J. Mack, approximate estimate No. 7 for the installation of tracks in the Livonia Avenue Yard (Route No. 31) from December 1, 1922, to December 31, 1922 (R.T. 7497) \$5,856.21;

Voucher No. 7; Wagner Engineering Co., Inc., approximate estimate No. 1 for the construction of direction signs at stations of the rapid transit railroads, from August 4, 1922, to January 5, 1923 (R.T. 7482), \$903.24;

Voucher No. 8; T. H. Reynolds Contracting Co., Inc., approximate estimate No. 1 for installation of tracks in Section Nos. 1 to 5, Route No. 8, from November 8, 1922, to December 31, 1922 (R.T. 7536), \$22,700.70;

Voucher No. 9; Holbrook, Cabot & Rollins Corporation, approximate estimate No. 7 for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from December 1, 1922, to December 31, 1922 (R.T. 6114), \$16,834.42.

JAMES B. WALKER,
Secretary.

Hearing

The following hearing was held:

10:30 A. M.; Case No. 1756; crossing at Pennsylvania Avenue, Rosebank, S. I.; Case No. 1797; Crossings at Clifton Avenue and Maryland Avenue, Rosebank, S. I.; final accounting. Carleton S. Cooke, Assistant Counsel, presided. Adjourned to January 18, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, January 15, 1923

Present: John F. O'Ryan, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

46—R. T. 7587

Agreement "CA"—Receipt of Bids for Construction of Transformer Closets for Emergency Lighting—Referred to Chief Engineer

Commissioner O'Ryan stated that the time within which to receive bids for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Borough of Manhattan, Agreement "CA", had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids. The Secretary presented the proper affidavits of publication and opened the box and read the five bids received. The bids were then referred to the Chief Engineer.

Hearing

The following hearing was held:

10:45 A. M.; Case No. 2665; Long Island Railroad Company; application to close and discontinue crossing on Montauk Division at Old Flushing Avenue. Lincoln C. Andrews, Chief Executive Officer, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, January 16, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

The Minutes of the Proceedings for the month of October, 1922, were approved.

49—R. T. 7587

Agreement "CA"—Resolution Authorizing Release of Checks to all but Lowest and Next to Lowest of Bidders for Construction of Transformer Closets for Emergency Lighting

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on January 15, 1923 for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Borough of Manhattan, Agreement "CA," the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of Five hundred (\$500.) dollars deposited with their bids.

50—R. T. 7551

Agreement "CB"—Application by Charles J. Adams & Sons, Inc., for Return of Certified Check Deposited with Bid for Construction of New Entrance at Mott Avenue and 138th Street—Application Granted

An application dated January 10, 1923, from Charles J. Adams & Sons, Inc., second lowest bidder, requesting the return of the certified check in the sum of \$300 deposited with the bid of the company on November 24, 1922, for the construction of a new entrance at Mott Avenue and 138th Street of the Lexington Avenue Line, was granted.

51—R. T. 7524

Agreement "BQ"—Report by Chief Engineer Recommending Extension of Time to January 2, 1923, Within Which to Complete Contract for Altering and Reconstructing Emergency Exits and Stopping Leaks in Shafts of Route No. 61—Approval Resolution

A report by the Chief Engineer dated January 12, 1923, recommending that an extension of time be granted to Hamme & Jackson, Inc., to and including January

2, 1923, within which to complete work under the contract for altering and reconstructing emergency exits and stopping leaks in the Manhattan and Blackwells Island shafts of Route No. 61, was presented.

The following resolution was adopted:

Whereas, The contract dated March 15, 1922, between The City of New York, acting by the Transit Commission, and Hamme & Jackson, Inc., for altering and reconstructing emergency exits and stopping leaks in the Manhattan and Blackwells Island shafts of the Broadway-Fourth Avenue Rapid Transit Railroad (Route No. 61), Borough of Manhattan (Agreement "BQ"), requires the completion of all work within six (6) months from the date of the delivery thereof, except as otherwise provided in Subdivision 9 of the Specifications with respect to pressure grouting and caulking which permits the performance of work thereunder (in order to insure dry shafts) at such time or times during the life of the contract as the Engineer may direct and should weather conditions require such work to be deferred the time under said contract may, at the option of the Commission be extended a further period; and

Whereas, The Chief Engineer of this Commission, by communication dated January 12, 1923, has reported that said contract was delivered on March 16, 1922; that all work, except as provided in said Subdivision 9, was completed within six (6) months or on or before September 16, 1922; that all the work under said contract was completed on or before January 2, 1923; that the time required beyond the expiration of said period of six months was in all respects attributable to the work of caulking and grouting; that the actual delay amounts to twelve (12) working days; that the City has suffered no loss due to such delay and recommends that the time of said contractor within which to complete the work under said contract be extended to and including January 2, 1923,

Resolved, That the said report and recommendation be and the same hereby is approved; that the time of Hamme & Jackson, Inc., within which to complete the work under the contract aforesaid be and the same hereby is extended to and including January 2, 1923.

52—R. T. 7524

Agreement "BQ"—Certificate by Chief Engineer of Completion of Contract for Altering and Reconstructing Emergency Exits and Stopping Leaks in Shafts of Route No. 61—Approval Resolution

The following certificate was approved:

January 13, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Agreement "BQ": Altering and Reconstructing Emergency Exits and Stopping Leaks in Manhattan and Blackwells Island Shafts, Route 61.

In connection with the contract dated March 15, 1922, between the City of New York and Hamme & Jackson, Inc., for altering and reconstructing emergency exits and stopping leaks in Manhattan and Blackwells Island Shafts, Route No. 61, I hereby certify that all work was completed on January 2, 1923. The total cost of the work was \$19,822.03.

In accordance with the provisions of the contract all work should have been completed on September 16, 1922. The time for completion, however, was extended to January 2, 1923, by resolution of the Transit Commission adopted on January 16, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated March 15, 1922, between The City of New York acting by the Transit Commission, and Hamme & Jackson, Inc., for altering and reconstructing emergency exits and stopping leaks in the Manhattan and Blackwells

Island Shafts of the Broadway-Fourth Avenue Rapid Transit Railroad (Route No. 61), Borough of Manhattan (Agreement "BQ"), requires the completion of all work on or before the expiration of six (6) months from the date of the delivery thereof, except with respect to grouting and calking as provided in Subdivision 9 of the Specifications of said contract, the last date for all completion being December 16, 1922, which time was extended to and including January 2, 1923, by resolution of the Transit Commission adopted January 16, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated January 13, 1923, has reported that all the work under said contract was in all respects completed on or before January 2, 1923; that the total amount due therefor was \$19,822.03, and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

Resolved, That the said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

53—R. T. 7367, 6961

Routes Nos. 35 & 67—Report by Chief Engineer Recommending Regulations for Restricting Traffic Over Subway Decking on West 41st Street Between Seventh Avenue and Eighth Avenue—Approval Resolution

A report by the Chief Engineer dated January 8, 1923, recommending that traffic signs be placed on West 41st Street between Seventh and Eighth Avenues restricting traffic over the subway decking in connection with the contract for the Queensboro Tunnel Extension, Routes Nos. 35 & 67, was presented.

The following resolution was adopted:

Resolved, That all traffic over the subway decking on West 41st Street, Manhattan, between Seventh Avenue and Eighth Avenue be restricted to 8 miles per hour.

That vehicles with or without loads weighing over 10 tons, be prohibited on such decking.

That there be excepted herefrom the vehicles of subway contractors over the decking on their own work.

That the Commissioner of Police be requested to have the above regulations observed.

54—R. T. 7007

Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Advising of Different Selection by Interborough Rapid Transit Company of Cars Upon Which Door Control is to Be Installed and Recommending That Resolution of December 19, 1922, Be Amended—Amending Resolution

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 8, 1923, as described below, was presented and the following resolution was adopted:

Whereas, By resolution adopted December 19, 1922, this Commission approved the application of Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 3, for the installation of a multiple door control of 396 additional subway high voltage cars, such work to be performed as an Addition pursuant to the provisions of Articles LXX and LXXI of said Contract No. 3 and assigned thereto Work Order No. 1CqA-1, said resolution specifically indicating the cause upon which said device would, pursuant to said approval, be installed; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have by communication dated January 8, 1923, reported with respect to the said resolution, as follows:

"The Commission under date of December 19, 1922, approved the installation of multiple door control on 396 high voltage control cars forming part of Equipment under Contracts No. 1 and No. 2. Under date of December 11, 1922, I have been advised that the company has made a different selection of cars upon which this door control is to be installed. Accordingly, I suggest that the approval resolution adopted on December 19, 1922, be changed by substituting in place of cars Nos. 4383-7, inclusive, mentioned in the resolution, cars Nos. 4224, 4269, 4312, 4333, 4353."

Resolved, That the said report and suggestion be and the same hereby is approved and that the resolution of December 19, 1922, aforesaid, be and the same hereby is amended by striking therefrom the following figures and signs: "4383-4514" and substituting in place thereof the following: 4224, 4269, 4312, 4333, 4353, 4388-4514.

Further Resolved, That said resolution, except as herein specifically modified, shall remain in all respects as adopted on December 19, 1922.

55—R. T. 7630

Contracts Nos. 1 & 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending That Interborough Rapid Transit Company be Authorized to Purchase and Install 450 Emergency Exit Signs—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Classifying Work and Assigning Work Orders Nos. IBA-10 and ICqA-5—Approval Resolution

A report by the Engineer of Equipment and Operation and Chief Engineer dated January 8, 1923, recommending that the Interborough Rapid Transit Company be authorized to purchase and install on Contract No. 1 and Contract No. 3 lines 450 emergency exit signs at an approximate cost of \$800, was presented.

A report by the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated January 15, 1923, classifying the work and assigning work order numbers, as described below, was also presented.

The following resolution was adopted:

Whereas, Pursuant to the Provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated November 16, 1922, from George H. Pegram, its Chief Engineer, submitted for the approval of this Commission its proposal to install signs indicating the location of emergency exits in the Railroad and the Existing Railroads as defined in said Contract No. 3; and

Whereas, By communication dated January 8, 1923 the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the installation of such signs is justifiable because they give confidence to persons walking in the tunnels in case of accident; that additional signs installed will number approximately 350 and new signs approximately 100; that the approximate cost is \$800 which is reasonable, and recommend that the said proposal be approved; and

Whereas, By communication dated January 15, 1923 the Auditor of Rapid Transit Costs and the Assistant Chief Accountant have reported with respect to such proposal and have recommended that

- "(1) the installation of signs on Contract No. 3 Lines be classified as Additional Equipment of the Railroad and that Work Order Number IBA-10 be assigned thereto.
- "(2) the installation of signs on Contract No. 1 Lines be classified as Additions to Existing Equipment and that Work Order Number ICqA-5 be assigned thereto."

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposal so submitted be and the same hereby is approved upon condition that

- (a) the installation of such signs on the Railroad, as defined in Contract No. 3 shall be classified as Additional Equipment of the Railroad and as to which this Commission assigns Work Order No. IBA-10.
- (b) the installation of such signs on the Existing Railroads as defined in said Contract No. 1 shall be classified as Additions to Existing Equipment and as to which this Commission assigns Work Order No. ICqA-5.

Contract No. 3—Communication from Board of Estimate and Apportionment Advising of Action Taken on Request for Reconsideration of Proposed Contract for Furnishing and Erecting Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Resolution Directing Bids Be Re-advertised

The following communication from the Board of Estimate and Apportionment was presented:

(Cal. No. 214)

January 5, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

At the meeting of the Board of Estimate and Apportionment on January 5, 1923, your communication dated December 29, 1922 requesting reconsideration of the action taken by the Board on December 22, 1922, referring back to the Transit Commission for readvertising, the proposed contract with the Bethlehem Steel Bridge Corporation for furnishing and erecting steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard, Borough of Manhattan, was presented and placed on file.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

The following resolution was adopted:

Whereas, By resolution adopted on October 24, 1922, this Commission awarded the proposed contract for furnishing and erecting steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard (Contract No. 3) to Bethlehem Steel Bridge Corporation subject to its being consented to in form and substance as required by law and transmitted said proposed contract to the Board of Estimate and Apportionment for its consent and the appropriation of the money necessary to meet the obligations of the City under said proposed contract; and

Whereas, By communication dated December 22, 1922 the Assistant Secretary of the Board of Estimate and Apportionment informed the Commission that the Board had referred back to this Commission the proposed contract to be advertised "for the reason that litigation is now pending between the Bethlehem Steel Company and The City of New York and as a matter of policy no contract of substantial character should be awarded to said company until disposition is made of the question in controversy; and

Whereas, This Commission by communication dated December 9, 1922 resubmitted said proposed contract to the Board of Estimate and Apportionment for its further consideration, together with detailed information as more particularly set forth therein; and

Whereas, The said Board of Estimate and Apportionment by communication dated January 5, 1923 has informed this Commission that the said communication of December 29, 1922 aforesaid, had been filed by it; and

Whereas, This Commission is of the opinion that the said Third Addition to Shops should be expeditiously constructed and completed,

Resolved, That all the bids received by this Commission for the performance of the work under said proposed contract aforesaid on October 20, 1922, be and the same hereby are in all respects rejected and that the Secretary of this Commission be and hereby is authorized to return the checks received with said bids and to take proper receipt therefor.

Further Resolved, That the Invitation to Contractors of the said proposed contract as heretofore approved by this Commission by resolution adopted on October 3, 1922 be published in the City Record every day of publication from and including January 18, 1923 to and including February 1, 1923 and on January 22, 1923 and January 29, 1923 in the Journal of Commerce and The Evening World, daily newspapers published in the City of New York and such bids as shall be received shall on the first day of February, 1923 at eleven-thirty (11:30) o'clock a.m. or at a later date to be fixed by the Transit Commission be opened by the Secretary of the Transit Commission at the office of the Transit Commission and read.

Fourth Avenue Subway—Report by Real Estate Clerk Recommending Substitution of Trade Name of Orpheum Auto Park in Place of Budoff Bros. and Carlos Garcia as Tenant of Property on Southerly Side of Fulton Street Between Rockwell Place and Ashland Place, Borough of Brooklyn—Approved

The following report by the Real Estate Clerk dated January 15, 1923, was approved:

"Budoff Brothers & Carlos Garcia, a partnership, having a concession from this Commission for the parking of automobiles on the southerly side of Fulton street between Rockwell Place and Ashland Place, Borough of Brooklyn, at my request, has made application under date of January 11, 1923, for permission to change its name as tenant from Budoff Brothers & Carlos Garcia, a partnership, to Orpheum Auto Park, it having filed a trade certificate in the County Clerk's Office in Kings County. I, therefore, respectfully

Recommended that the Commission approve a substitution of the trade name Orpheum Auto Park in place of Budoff Brothers & Carlos Garcia, a partnership, as tenant of this Commission on this concession at the above location."

58—R. T. 6080

Route No. 39, Section No. 2—Report by Real Estate Clerk Recommending Substitution of William Pedersen as Tenant in Place of Theodore Reitemeyer on Property on Southerly Side of 85th Street East of 18th Avenue, Borough of Brooklyn—Approved

The following report by the Real Estate Clerk dated January 15, 1923, was approved:

"By application dated November 4, 1922, approved by the Commission November 8, 1922, Theodore Reitemeyer secured permission to place a lunch wagon on a plot on the southerly side of 85th Street east of 18th Avenue, in the Borough of Brooklyn, at a graduated rental beginning at \$35.00 per month on December 1, 1922. On December 12, 1922, the Commission authorized the relocation of this lunch wagon on the northerly side of 86th Street east of 18th Avenue, Borough of Brooklyn, the said relocation being made to do away with the cause of complaint from local residents and other various reasons. After getting this concession Mr. Reitemeyer was unable to finance the reconstruction of the lunch wagon to make it look presentable and accordingly he requests that Mr. William Pederson, who is advancing money to take care of the necessary alterations to the lunch wagon, be made the direct tenant of the Commission, although he himself will still be interested in the enterprise. I know of no reason why this substitution should not be made and I, therefore, respectfully

Recommend that William Pedersen be substituted as tenant in place of Theodore Reitemeyer on the concession above referred to effective as of February 1, 1923."

Rapid Transit Railroads—Resolution Authorizing Auditor to Turn Over Commissions to Auctioneer in Connection with Sale of Surplus Properties—Adopted

The following resolution was adopted:

Whereas, By Article Fourth of a contract between The City of New York, acting by the Transit Commission, and Nathaniel Shuter, Auctioneer, dated December 15, 1922, it is provided that the Auditor or other duly authorized financial agent of the Commission be authorized to turn over to the Auctioneer the commissions received by him as soon as he is satisfied that the amounts thereof are correct and shall also be empowered by the Commission to endorse checks drawn to its order and presented in payment for the costs of the sale, including the Auctioneer's commissions, which said sale is to be held on January 16, 1923;

Resolved, That the Commission do, and it hereby does, authorize its Auditor to turn over to the said Nathaniel Shuter, Auctioneer, all amounts received by him as auctioneer's commissions as soon as he shall be satisfied that the amounts thereof are correct, and that the said Auditor be, and he hereby is, authorized if necessary to endorse on behalf of the Commission any checks drawn to the order of the Commission in payment of said commissions, to effectuate the prompt payment to the said Nathaniel Shuter, Auctioneer, of the commissions due him.

The Long Island Railroad Company—Far Rockaway Grade Crossing Elimination—Report and Opinion by Chief Executive Officer Approved—Order Abrogating Final Order and Determination Adopted

The Secretary presented a report and opinion dated January 9, 1923, by Lincoln C. Andrews, Chief Executive Officer, designated to conduct the hearing herein, recommending the abrogation of the final order and determination herein adopted by the Public Service Commission for the First District on January 31, 1916.

The Commission adopted and ordered filed an Order in Cases Nos. 1936 and 1936-A, abrogating for the reasons in said opinion stated the said final order and determination herein, dated January 31, 1916.

The said Order was in the following form:

At a meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 16th day of January, 1923.

Present:

GEORGE McANENY,	}	COMMISSIONERS.
Chairman		
LE ROY T. HARKNESS,		
JOHN F. O'RYAN,		

IN THE MATTER
of the

Hearing on motion of the Commission on the question of alterations and changes in the following grade crossings of the tracks of the Far Rockaway Branch of THE LONG ISLAND RAILROAD COMPANY.

Atlantic Avenue	Hollywood Avenue
Park Avenue	Sea View Avenue
Smith Street	Mott Avenue
Cornega Avenue	Carlton Avenue
Clark Street	McNeil Avenue

in the Borough of Queens, City of New York.

CASE No. 1936

ORDER ABROGATING
FINAL ORDER AND
DETERMINATION, DATED
JANUARY 31, 1916.

IN THE MATTER
of the

Hearing on motion of the Commission on the question of alterations and changes in the following grade crossings of the tracks of the Far Rockaway Branch of THE LONG ISLAND RAILROAD COMPANY.

Atlantic Avenue	Hollywood Avenue
Park Avenue	Sea View Avenue
Smith Street	Mott Avenue
Cornega Avenue	Carlton Avenue
Clark Street	McNeil Avenue

in the Borough of Queens, City of New York.

CASE No. 1936-A.

The Public Service Commission for the First District having by final order and determination adopted on the 31st day of January, 1916, determined the manner in which the Far Rockaway Branch of The Long Island Railroad Company should be carried across the above named streets, avenues and highways in Far Rockaway, in the Borough of Queens, City of New York, and having by said Order determined that The Long Island Railroad Company should depress its tracks for certain specified distances through Far Rockaway, in the Borough of Queens, and that changes should be made in the grade and elevation of certain streets, avenues and highways and no construction work having been begun pursuant to the terms of said Order because of the period of Federal War Control and the difficulty encountered by the engineers of the railroad company, and this Commission in preparing plans for the carrying out of the said Final Order and Determination, dated January 31, 1916, and it appearing that some of the engineering features involved in the carrying out of the said Final Order and Determination, dated January 31, 1916, are unsolved and require further study and investigation, and this Commission having by Order, dated November 28, 1922, directed that a hearing be held herein and designated the Chief Executive Officer of the Commission to conduct said hearing, take the testimony and report the same to the Commission together with his opinion thereon for its decision and determination, and said hearing having been duly held and the Chief Executive Officer having made his report and opinion, dated January 9, 1923, wherein he finds and rec-

ommends that the final order and determination, dated January 31, 1916, be abrogated without prejudice to any of the proceedings heretofore had herein or to such action, proceedings, decision or other in the premises as the Commission may hereafter direct or make, and the said report and opinion having been approved by the Commission;

Ordered, That the final order and determination of the Public Service Commission for the First District, dated January 31, 1916, be and the same hereby is in all respects abrogated without prejudice to any of the proceedings heretofore had herein or to such action, proceedings, decision or order in the premises as the Commission may hereafter direct or make.

By THE COMMISSION,
JAMES B. WALKER,
Secretary.

61—Case 2652

**The Long Island Railroad Company—Jamaica Grade Crossing Eliminations—
Report and Opinion by Chief Executive Officer Approved—Final Order and
Determination Adopted**

The Secretary presented a report and opinion dated January 10, 1923, by Lincoln C. Andrews, Chief Executive Officer, duly designated to conduct the hearing herein recommending that the Commission determine that public safety requires elimination of certain grade crossings between Jamaica and the City Line and recommending that The Long Island Railroad Company be required to eliminate same by elevating its tracks as in said report indicated.

The Commission adopted and ordered filed a final order and determination in Case No. 2652, directing The Long Island Railroad Company to eliminate grade crossings on its right of way between Jamaica and the City Line by elevating its tracks as recommended in said report and opinion.

The said order was in the following form:

At a meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 16th day of January, 1923.

Present:

GEORGE McANENY,
Chairman,
LE ROY T. HARKNESS,
JOHN F. O'RYAN, } COMMISSIONERS.

IN THE MATTER
of the

Hearing on motion of the Commission pursuant to Section 95 of the Railroad Law, upon the question of requiring The Long Island Railroad Company to eliminate grade crossings between Jamaica and the City Line at the intersection of its main line with the following streets or highways in the Borough of Queens: New York Avenue, Puntine Street, Smith Street, Canal Street, Brenton Avenue, and at the intersection of its Montauk Division with South Street; and the alteration of existing crossings not at grade at the intersection of its main line with Prospect Street, Washington Street and Union Hall Street.

CASE No. 2652

FINAL ORDER AND
DETERMINATION

The Commission having on the 28th day of November, 1922, adopted an Order herein directing a hearing pursuant to Section 95 of the Railroad Law on the 27th day

of December, 1922 at 10:30 A. M. upon the question of requiring The Long Island Railroad Company to eliminate grade crossings at the intersection of its main line with the following streets, avenues and highways between Jamaica and the City Line, in the Borough of Queens: New York Avenue, Puntine Street, Smith Street, Canal Street, Brenton Avenue, and at the intersection of its Montauk Division with South Street, and requiring the alteration of the structure of existing crossings over its main line not at grade at its intersection with the following streets, avenues and highways in the Borough of Queens: Prospect Street, Washington Street and Union Hall Street, and said Order having designated and certified Lincoln C. Andrews, Chief Executive Officer of the Commission, to conduct the hearing, to take the testimony and report the same to the Commission together with his opinion thereon for its decision and determination, and said hearings having been duly held and the Chief Executive Officer having made his report and opinion, dated January 10, 1923, wherein he finds and recommends that The Long Island Railroad Company should eliminate the crossings at grade at the intersection of its lines of railroad with the streets, avenues and highways above mentioned by carrying the railroad above all the streets in question upon an elevated structure to be constructed by the said railroad company substantially as shown on a plan or blueprint marked in evidence at the hearing in this proceeding on December 27, 1922, as Company's Exhibit No. 7, and that the said railroad company as a necessary feature for the construction should provide for the alteration of the existing structures above grade at the intersection of its line of railroad with the streets, avenues and highways above mentioned, and said report and opinion having been approved by the Commission and the Commission being of opinion pursuant to Section 95 of the Railroad Law that public safety requires an alteration in the existing grade crossings at the intersection of the lines of railroad of The Long Island Railroad Company with the streets, avenues and highways above mentioned and changes in the existing structure and grade across the streets, avenues and highways above mentioned.

Ordered, That The Long Island Railroad Company be and it is hereby directed to alter and eliminate the existing grade crossings at the intersection of its lines of railroad with the streets, avenues and highways above mentioned by carrying the railroad across said streets upon an elevated structure to be constructed by the said railroad company substantially as shown on a plan or blueprint marked in evidence at the hearing in this proceeding on December 27, 1922, as Company's Exhibit No. 7.

Further Ordered, That as a necessary feature of this construction the said railroad company shall provide for the alteration of the existing crossings above grade at the intersection of its line of railroad with the streets, avenues and highways above mentioned.

Further Ordered, That the said railroad company shall forthwith prepare and submit to the Commission for its approval detailed plans and specifications in accordance with the said plan or blueprint marked in evidence at the hearing in this proceeding on December 27, 1922, as Company's Exhibit No. 7, and that upon the approval of the same by the Commission, the said railroad company shall proceed with all due diligence to carry out the provisions of this Order.

Further Ordered, That so much of the cost of the work in carrying out the provisions of this Order as may be or is attributable to the elimination of the crossings at grade shall be borne by the said railroad company, the State of New York, and The City of New York, as provided by Section 94 Sub-division 3 of the Railroad Law.

Further Ordered, That within ten (10) days after the service upon it of a certified copy of this Order, The Long Island Railroad Company shall notify the Commission in writing whether the terms hereof are accepted and will be obeyed.

BY THE COMMISSION,

JAMES B. WALKER,
Secretary.

62—Case 2668

The Brooklyn City Railroad Company—Application for Declaration of Abandonment—Hearing Order Adopted

The Secretary presented a communication from The Brooklyn City Railroad Company, dated January 13, 1923, requesting the approval of the Commission to a

declaration of abandonment, dated November 8, 1922, of a portion of its route along Furman Street between Fulton Street and Atlantic Avenue.

The Commission adopted and ordered filed an order in Case No. 2668, directing that a hearing be held on said application before George L. Lucas, Assistant to the Chief Executive Officer therein duly designated to conduct the same on January 25, 1923 at 10:30 A. M.

63—S. P. 741, 742, 743

New York Railways Company, Receiver—Discontinuance of Service—Approved

A report, dated January 13, 1923, by the Secretary, and approved by the Chief Executive Officer, recommending that special permission be granted the Receiver of the New York Railways Company to file on one day's notice tariff sheets indicating (1) discontinuance of service on the Sixth Avenue Line, south of Fourth Street, between 10 P. M. and 7 A. M., daily; (2) discontinuance of service on 11th Avenue branch of the 34th Street Line, between 7 P. M. and 12 midnight weekdays and for the entire day on Sundays; (3) discontinuance of service on the 34th Street branch of the 23d Street Line.

The Commission approved and ordered filed Special Permissions Nos. 741, 742 and 743, as recommended by the Secretary and the Chief Executive Officer.

64—Case 2628

The New York Consolidated Railroad Company—Service and Equipment—Report Approved and Filed

The Secretary presented a report by the Chief Executive Officer, dated January 12, 1923, recommending that he be authorized to amend the existing schedules by dropping therefrom two trains leaving Atlantic Avenue west bound at 7:29 and 7:35 P. M., and operating east bound past Marcy Avenue at 8:10 and 8:16 P. M., respectively.

The Commission approved and ordered filed the report and recommendation.

65—Case 2253

The New York Central Railroad Company et al.—238th Street Bridge—Report Filed

The Secretary presented a report by Assistant Counsel Carleton S. Cooke, dated January 13, 1923, advising the Commission that the court had granted a stay of the mandamus order herein pending an appeal therefrom by the railroad companies.

The Commission ordered the report filed.

66—R. T. 6626

Contract No. 1, 168th St. Station.		Holbrook, Cahot, & Rollins Corp.	Stanley & Patterson.	12/ 7/22	Electrical conduit, pull boxes and outlet boxes.

ROBERT RIDGWAY,
Chief Engineer.

69—R. T. 6315

Contract No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Issue of \$1500 Tax Notes for Relocating Subway Structures in Connection With Widening of 33rd Street—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on January 5, 1923, was ordered filed:

(Cal. No. 232-B)

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding fifteen hundred dollars (\$1,500), which shall be included in annual tax levies, in the

manner provided by said section 189 of the Charter, the proceeds of which to the amount of the par value thereof to be used, in addition to the amount heretofore authorized, for the necessary relocating of any subway structures in connection with the widening of the roadway of 33d street, under the jurisdiction of the President, Borough of Manhattan, and to be credited to the fund "NTTC-1, Relocation of Subway Structures in Connection with the Widening of the Roadway of 33d Street," the work to be performed by the operating company under the direction of the Transit Commission; without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void.

A true copy of resolution adopted by the Board of Estimate and Apportionment, January 5, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Employees' Resolution No. 123

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—William F. Lynaugh, mechanical engineer, at \$150.08 per month, to take effect January 15, 1923.

Appointments under Rule VIII: 4—Louis S. Amreich, junior assistant, at \$125.08 per month, to take effect January 10, 1923; Walter F. Cudlipp, draftsman, at \$150.08 per month, to take effect January 15, 1923; Harold H. David, junior assistant, at \$125.08 per month, to take effect January 8, 1923; Selig Kunofsky, draftsman, at \$150.08 per month, to take effect January 2, 1923; Augustus Miller, junior assistant, at \$125.08 per month, to take effect January 15, 1923; Lazarus Trommer, draftsman, at \$150.08 per month, to take effect January 15, 1923; Henry I. Tuthill, junior assistant, at \$125.08 per month, to take effect January 15, 1923.

Resignations—Frederick R. Kempf, junior assistant, at \$125.08 per month, to take effect January 3, 1923; E. J. Tassos, junior assistant, at \$125.08 per month, to take effect January 8, 1923; H. V. Wolfe, draftsman, at \$150.08 per month, to take effect January 15, 1923.

Rescission of Appointment—Selig Kunofsky, at \$150.08 per month, to take effect January 2, 1923.

Transferred from State Commission of Highways—Aaron Kahn, junior assistant, at \$125.08 per month, to take effect January 15, 1923.

73

Voucher Schedule No. 3

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 53-82, open market orders, \$1,621.89; Vouchers Nos. 20-43, miscellaneous bills, \$74,917.13; Vouchers Nos. 1-18, City payrolls, \$172,044.31; Vouchers Nos. 1-2, State payrolls, \$5,083.32.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 3, Charles J. Adams & Son, Inc.; approximate estimate No. 6 for the construction of an entrance of Borough Hall station through Isle of Safety, Agreement "AZ" from December 1, 1922, to December 31, 1922 (R. T. 7466), \$1,518.53;

- Voucher No. 4, Slattery Engineering & Construction Co., Inc.; approximate estimate No. 2 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3, from December 1, 1922, to December 31, 1922 (R. T. 7366), \$13,553.25;
- Voucher No. 5, Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 5 for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard, from December 1, 1922, to December 31, 1922 (R. T. 7457), \$21,696.93;
- Voucher No. 10, P. J. Healy; approximate estimate No. 1 for making land and river borings along the proposed extension of the Corona Branch of the Queensboro Rapid Transit Railroad from its present terminus to Main Street, Flushing, from October 27, 1922, to December 31, 1922 (R. T. 5006), \$1,667.59;
- Voucher No. 11, Bethlehem Steel Products Company; approximate estimate No. 34 for the supply of open hearth rails, Order No. 3, from May 26, 1921, to December 31, 1922 (R. T. 6981), \$54,048.83;
- Voucher No. 12, Powers-Kennedy Contracting Corporation; approximate estimate No. 7 for the construction of a part of the Queensboro Subway, Routes Nos. 35 and 67, from December 1, 1922, to December 31, 1922 (R. T. 7584), \$46,805.07;
- Voucher No. 13, Joslin Construction Co., Inc.; approximate estimate No. 5 for the reconstruction of a part of the Queensboro Subway, Route No. 26, Jackson Avenue Station, from December 1, 1922, to December 31, 1922 (R. T. 7556), \$13,540.50;
- Voucher No. 14, George Colon & Co.; approximate estimate No. 7, for the construction of Union Square passageway connection, Routes Nos. 5 and 8, from December 1, 1922, to December 31, 1922 (R. T. 7513), \$3,163.28;
- Voucher No. 15, Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 9 for the construction of inspection shed enclosure at Livonia Avenue Yard, Route No. 31, from December 1, 1922, to December 31, 1922 (R. T. 7520), \$5,353.97;
- Voucher No. 16, Hamme & Jackson, Inc.; final estimate for altering and reconstructing emergency exits and stopping leaks in the Manhattan and Blackwells Island shafts, Route 61, to January 2, 1923 (R. T. 7524), \$3,148.22.
- Voucher No. 38, Hospital Estates, Inc.; for the acquisition, for rapid transit purposes of a yard site for the Westchester Avenue Elevated Line of certain real estate located north of Westchester Avenue and East of Blondell Avenue in the Borough of The Bronx, \$11,388.03;
- Voucher No. 39; Harlem River & Portchester Railroad Co.; for the acquisition, for rapid transit purposes, of a yard site for the Westchester Avenue Elevated Line of certain real estate located north of Westchester Avenue and East of Blondell Avenue in the Borough of The Bronx, \$58,079.25;
- Voucher No. 49, Andrew Hayslip, Sr., individually and as administrator of the estate of Margaret Hayslip, deceased, or Benjamin Trapnell, Attorney; for fee damage sustained to plaintiff's easements of light, air and access to the premises No. 27 Ely Avenue, Long Island City, Borough of Queens, \$1,680.98;
- Voucher No. 50, Andrew Hayslip, Sr., individually and as administrator of the estate of Margaret Hayslip, deceased, or Benjamin Trapnell, Attorney; for rental damages sustained to plaintiff's easements of light, air and access to the premises No. 27 Ely Avenue, Long Island City, Borough of Queens, \$913.85.

74

Hearing

The following hearing was held:

10:45 A. M.; Case No. 1901; Long Island Railroad Company; application of John Adikes and Thomas Adikes for establishment of side track and switch connection with railroad at Jamaica, Borough of Queens. Lincoln C. Andrews, Chief Executive Officer, presided. Adjourned to January 18, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, January 18, 1923.

Present: George McAneny, Chairman; LeRoy T. Harkness, and John F. O'Ryan, Commissioners, and James B. Walker, Secretary.

The following matters were presented and action taken as noted:

75

Pursuant to call the Commission held a special meeting at 5 o'clock p. m. The Secretary presented the following letter from General Lincoln C. Andrews, presenting his resignation:

January 18, 1923.

To THE TRANSIT COMMISSION:

Will you please accept my resignation from the office of Chief Executive Officer, effective at the close of business hours today?

LINCOLN C. ANDREWS,
Chief Executive Officer.

On motion of Commissioner Harkness the resignation was accepted, effective immediately.

On motion of Commissioner Harkness George L. Lucas, Division Engineer, was designated Acting Chief Executive Officer, to serve during the pleasure of the Commission, and authorized to take charge immediately of the Chief Executive Officer's Department.

76

Employees' Resolution No. 124

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Resignations (Exempt)—Lincoln C. Andrews, Chief Executive Officer, at \$833.33 per month, to take effect January 18, 1923; Edward A. Roberts, Chief of Transit Bureau, at \$625.00 per month, to take effect January 18, 1923; and be it, and it hereby is further

Resolved, That George L. Lucas, Division Engineer, be, and he hereby is, designated as acting Chief Executive Officer, effective January 19, 1923.

77

Hearings

The following hearings were held:

10:40 A. M.; Cases Nos. 1756 and 1797; Staten Island Rapid Transit Railway Company; alteration of grade crossing at Pennsylvania Ave., Rosebank and alteration of grade crossings at Clifton Ave. & Maryland Ave., Rosebank—final accounting. Carleton S. Cooke, Assistant Counsel, presiding. Hearing closed.

3:45 P. M.; Case No. 1901; The Long Island Railroad Company, application of John Adikes and Thomas Adikes for establishment of side track and switch connection with railroad at Jamaica, Borough of Queens. Lincoln C. Andrews, Chief Executive Officer, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, January 19, 1923

78

Hearing

The following hearing was held:

11:10 A. M.; Case No. 2667; Interborough Rapid Transit Company; application of Merchants & Taxpayers' Alliance of the North Bronx for change of name of stations at 210th St.—Williamsbridge and Gun Hill Road on Third Avenue Elevated Line. George L. Lucas, Acting Chief Executive Officer, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, January 23, 1923

Present: George McAneny, Chairman; John F. O'Ryan, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

79

The Minutes of the Proceedings for the month of November, 1922, were approved.

80—R. T. 7636

Route No. 16, Section No. 2—Draft Form of Contract for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard—Resolution Directing Hearing Be Held

The following resolution was adopted:

Whereas, There is now submitted to this Commission by the Chief Engineer and Counsel, a draft form of proposed contract for the construction of inspection shed and service buildings at the Jerome Avenue Yard, (Route No. 16),

Resolved, Before finally fixing the terms and conditions of said proposed contract for the construction of inspection shed and service buildings at the Jerome Avenue Yard (Route No. 16); a public hearing upon the proposed terms and conditions therein shall be held on the 8th day of February, 1923, at the office of the Transit Commission, 49 Lafayette Street, Borough of Manhattan, New York City, at 11:30 o'clock a. m., at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in the City Record every day of publication continuously from and including January 25, 1923, to and including February 8, 1923, and on January 29, 1923, and February 5, 1923, in the New York Herald and The Globe, daily newspapers published in the City of New York, and that such notice shall state that copies of said draft of proposed contract may be obtained at the said office of the Transit Commission on payment of the fee of one dollar (\$1.00) for each copy.

81—R. T. 7587

Agreement "CA"—Report by Chief Engineer as to Receipt of Bids for Construction of Transformer Closets for Emergency Lighting and Recommendation for Award of Contract to B. T. & J. J. Mack at Bid Price of \$13,428—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

The following report was approved:

January 17, 1923.

To TRANSIT COMMISSION:

Award of Contract for work under Agreement "CA" to B. T. & J. J. Mack, Inc.

On January 15, 1923, the following bids were received for work under Agreement "CA", Transformer Closets for Emergency Lighting on Municipal Railway Corporation's line in Manhattan and Queens:

B. T. & J. J. Mack, Inc.....	\$13,428.00
Benedetto & Saussez.....	13,944.00
Chas. J. Adams & Sons.....	14,273.00
John B. Roberts & Co.....	15,655.50
John Pollock	16,316.00

On two previous occasions bids for work under this Agreement were rejected by the Commission by resolutions of November 28, 1922, and December 27, 1922. The lowest bid received on December 18, 1922, was by Benedetto & Saussez, and amounted to \$14,039. Our estimate for this work amounts to \$14,492.

This is the first time B. T. & J. J. Mack, Inc., has bid on work for the Commission as a corporation. As a co-partnership, however, B. T. & J. J. Mack has a contract for installation of tracks on Route No. 31, Livonia Avenue Yard, amounting to about \$100,000, which work is now about 90% completed and has been done to our satisfaction. B. T. & J. J. Mack has also done considerable work for the New York Municipal Railway Corporation and is highly spoken of by that Corporation, who states that this contractor is familiar with construction work near tracks under operating conditions. This is of importance in connection with the work under this Agreement as a number of transformer closets are in close proximity to operating tracks.

I send you attached copy of minutes of a conference held in this office with a representative of B. T. & J. J. Mack, Inc., and also a copy of its financial statement. I also send you twelve (12) prints of summation of bids.

Recommendation: From an engineering standpoint I recommend, that the contract for Transformer Closets for Emergency Lighting on Municipal Railway Corporation's line in Manhattan and Queens, be awarded to B. T. & J. J. Mack, Inc., at its bid figure of \$13,428, and that a requisition be made on the Board of Estimate and Apportionment for the appropriation of this amount to be charged to Construction under Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Boroughs of Manhattan and Queens, Agreement "CA," was finally adopted on August 15, 1922, and subsequent to advertisement duly made bids respectively totalling as follows were received on January 15, 1923:

B. T. & J. J. Mack, Inc.....	\$13,428.00
Benedetto & Saussez.....	13,944.00
Chas. J. Adams & Sons.....	14,273.00
John B. Roberts & Co.....	15,655.50
John Pollock	16,316.00

: and

Whereas, The Chief Engineer of this Commission, by communication dated January 17, 1923, has reported that the amount of said low bid is reasonable and that the said B. T. & J. J. Mack, Inc., is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportion-

ment for the sum of \$13,428.00, the amount estimated to be necessary to carry out said proposed contract on the part of the City.

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby are approved; that the bid of B. T. & J. J. Mack, Inc., be and the same hereby is accepted and that the said proposed contract for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Boroughs of Manhattan and Queens, Agreement "CA," be and hereby is awarded to said B. T. & J. J. Mack, Inc., subject to its being consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$13,428.00, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 23, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission by resolution adopted September 13, 1922, awarded (subject to its being consented to in form and substance as required by law) a proposed contract for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Rapid Transit Railroad (Agreement "CA") to the Seymour Construction Co., Inc., and on that date transmitted said proposed contract, together with a requisition for the appropriation of the sum of \$9,655 to your Honorable Board for your consent and the appropriation of said sum.

By resolution adopted November 3, 1922, your Honorable Board consented to said proposed contract and appropriated said sum of \$9,655 for the purposes of meeting the City's obligations thereunder, making said appropriation a subauthorization under the general appropriation theretofore made for the purposes of meeting the City's obligations under the contract dated March 19, 1913, known as Contract No. 4.

The Chief Engineer of the Transit Commission, in recommending the award of said proposed contract to the Seymour Construction Co., Inc., under its said bid in his report dated September 7, 1922, in part as follows:

"The unit prices bid by the Seymour Construction Co., Inc., are very low and I doubt whether it can complete its work without some monetary loss. Nevertheless, I do not find that there is sufficient reason for not awarding the contract to this Corporation."

After the action aforesaid by your Honorable Board the said proposed contract was under date of November 4, 1922, transmitted to the Corporation Counsel for his approval as to the form of said proposed contract, which was returned to this Commission so approved on November 11, 1922. Immediately thereafter, the proposed contract was sent to the Seymour Construction Co., Inc., for execution, which by communication dated November 18, 1922, declined to execute said proposed contract, one of the reasons assigned, among others, being "the delay in approving the contract." Counsel to the Commission advised it that by reason of the provisions of Section 86-C of the general municipal law as amended by Chapter 856 of the Laws of 1920 permitting the withdrawal of bids if a completed award is not made within forty-five days after the receipt of bids that the Seymour Construction Co., Inc., could successfully defend its refusal to execute said proposed contract. The foregoing bids were received on August 31, 1922. Accordingly, the Commission rejected all bids so received and has readvertised said proposed contract.

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission and B. T. & J. J. Mack, Inc., for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Boroughs of Manhattan and Queens, Agreement "CA", together with a requisition upon your Honorable Board for the appropriation of the sum of Thirteen thousand, four hundred and twenty-

eight (\$13,428.00) Dollars, being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on January 15, 1923, respectively totalling as follows:

B. T. & J. J. Mack, Inc.....	\$13,428.00
Benedetto & Saussez.....	13,944.00
Charles J. Adams & Sons.....	14,273.00
John B. Roberts & Co.....	15,655.50
John Pollock.....	16,316.00

The Chief Engineer of this Commission, in a communication dated January 17, 1923, reports that the bid of B. T. & J. J. Mack, Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said B. T. & J. J. Mack, Inc. subject to its being approved and consented to in form and substance, as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Thirteen thousand, four hundred and twenty-eight (\$13,428.00) Dollars, and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Thirteen thousand, four hundred and twenty-eight (\$13,428.00) Dollars.

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, and the appropriations made thereunder by your Honorable Board.

Your Honorable Board is also requested to rescind the appropriation of the sum of Nine thousand, six hundred and fifty-five (\$9,655.00) Dollars, appropriated by resolution of November 3, 1922, as aforesaid and to return said sum to the source from which it was appropriated.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

82—R. T. 7516

Route No. 8, Sections Nos. 3, 4 & 5—Report by Chief Engineer Recommending Approval of Schedule Item for Furnishing and Installing Passimeter Drums in Connection With Contract for Station Finish—Approval Resolution

A report by the Chief Engineer dated January 8, 1923, recommending the approval of a supplementary schedule item as described below, was approved and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated May 16, 1922 between The City of New York acting by the Transit Commission and the Station Finish Corporation for the construction of station finish for a part of the 14th Street Eastern Rapid Transit Railroad, Route 8, Sections 3, 4 & 5, having, subject to the approval of the Commission, agreed with said contractor upon the following schedule item.

530-K—For furnishing and installing complete passimeter drums with all necessary framing in connection therewith as indicated on drawing No. 1067, file No. 24, as per direction of the Engineer, the sum of..... \$82.00 each

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

83—R. T. 6891

Route No. 8, Section No. 1—Report by Chief Engineer Recommending That Request Be Made to Comptroller to Cancel Voucher No. 76 in Sum of \$937.86 for Construction of Entrance to Sixth Avenue Station Through Store of James A. Hearn & Son, Inc.—Approval Resolution

A report by the Chief Engineer, as described below, was presented, and the following resolution was adopted:

Whereas, The Chief Engineer of this Commission has by communication dated January 19, 1923, reported and recommended as follows:

"Contract payment voucher #76, amount \$937.86, payable to Booth & Flinn, Ltd. on account of supplementary approximate estimate #1-H, Route 8, Section 1, "For account of 14th Street-Eastern Line, construction of entrance to Sixth Avenue Station through store of James A. Hearn & Son, Inc., under agreement of April 23, 1920, cost to be financed by James A. Hearn & Son, Inc.", Code S 915-A, was transmitted to the Transit Construction Commissioner by D. L. Turner, Chief Engineer.

This voucher was drawn on account of Estimate #1-H, dated March 8, 1921. Signed by J. O. Shipman, Division Engineer, and was for payment for additional cost of steel from stock for entrance to #30 West 14th Street. The amount of this estimate was \$1,103.37, from which was deducted 15% to be retained under the terms of the contract, making the net amount of the estimate \$937.86.

This voucher was approved by Daniel L. Ryan, Deputy and Acting Transit Construction Commissioner on March 19, 1921 and transmitted to the Department of Finance on March 21, 1921. The Comptroller has refused payment of the above mentioned voucher.

It has now been determined that the work for which this voucher was drawn should not be financed by James A. Hearn & Son, Inc., but should be financed from account of rapid transit funds and I would, therefore, recommend that a resolution be adopted by the Commission, requesting the Comptroller to cancel and return the above mentioned voucher.

Recommendation: I hereby recommend that the Commission adopt a resolution directing the Comptroller to cancel voucher #76, dated March 19, 1921, drawn in favor of Booth & Flinn, Ltd., for the amount of \$937.86 for account of 14th Street-Eastern Line, construction of entrance to Sixth Avenue Station through store of James A. Hearn & Son, Inc., under agreement of April 23, 1920, cost to be financed by James A. Hearn & Son, Inc., chargeable to Code S915-A and that the Comptroller be requested to return the above mentioned voucher to the Commission."

Resolved, That the said report be and the same hereby is approved; that the Secretary of the Commission be and hereby is directed to transmit a certified copy of this resolution to the Comptroller of The City of New York with the request that the necessary action be taken to comply with the report hereby approved.

84—R. T. 6924

Fourth Avenue Subway—Application by New York Consolidated Railroad Company for Approval of Proposed Permit to Brooklyn Edison Company, Inc. to Erect and Maintain Ornamental Lamp Posts over Gratings in Front of Premises at Nos. 5119 to 5123 Fourth Avenue, Borough of Brooklyn—Report by Chief Engineer Recommending Approval—Approval Resolution

An application dated January 13, 1923, from the New York Consolidated Railroad Company, requesting the approval of a proposed permit to be issued to the Brooklyn Edison Company, Inc., for the erection and maintenance of three ornamental lamp posts in front of the premises at Nos. 5119 to 5123 Fourth Avenue, Borough of Brooklyn, was presented.

A report by the Chief Engineer dated January 18, 1923, stating that the permit is satisfactory from an engineering standpoint and recommending that the application be approved, was also presented.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, Lindley M. Garrison, as Receiver of New York Consolidated Railroad Company, as assignee, has by communication dated January 13, 1923, submitted to this Commission for its approval, proposed permit dated January 13, 1923, to the Brooklyn Edison Company, Inc., permitting the erection and maintenance of three ornamental lamp posts over the gratings and ventilation flues of the Broadway-Fourth Avenue Rapid Transit Railroad in front of the premises Nos. 5119 to 5123 Fourth Avenue in the Borough of Brooklyn, City of New York, and to make the necessary changes in said structures to permit of said installation, which proposed permit has been accepted by the said Brooklyn Edison Company, Inc., and

Whereas, The Chief Engineer of this Commission has by communication dated January 18, 1923, reported that the said proposed permit has been examined and finds no objection thereto from an engineering standpoint and recommends that it be approved; and

Whereas, Counsel has examined said proposed permit and recommends the approval thereof upon the condition hereinafter set forth.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed permit be and hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed permit; the approval of this Commission being upon the distinct condition and understanding that all necessary or further permits, municipal or otherwise, as may be necessary to erect and maintain said lamps shall be procured by the said Brooklyn Edison Company, Inc., at its own cost and expense.

85—R. T. 6080

Rapid Transit Railroads—Report by Real Estate Clerk Recommending Termination of Concessions on Four Parcels of Property Sold at Public Auction—Approval Resolution

A report by the Real Estate Clerk dated January 22, 1923, recommending the termination of concessions on four parcels of property sold at public auction on January 16, 1923, was presented.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of January 22, 1923, has reported that the following month to month tenancies now exist on the real property sold at public auction on January 16, 1923, title to which is to be delivered to the several purchasers on March 16, 1923:

Plot II—West side of Centre Street between Canal and Howard Sts., Borough of Manhattan; Messrs. Gordon & Freedman, entitled to 15 days' notice, and Tony Schragger, entitled to 10 days' notice.

Plot III—West side of Centre Street between Canal and Walker Sts., Borough of Manhattan; Messrs. Gordon & Freedman, entitled to 15 days' notice.

Plot VI—North side of E. 138th St. between Jackson Avenue and Southern Boulevard, Borough of The Bronx; Robert Olmstead, entitled to 10 days' notice.

Plot VII—Southwest corner of E. 138th St. and Mott Avenue, Borough of The Bronx; David Whitehorn, entitled to 15 days' notice.

recommending that the Commission authorize Counsel to notify such tenants to vacate the property by not later than 12:00 o'clock noon on March 1, 1923, in which recommendation Counsel has concurred.

Resolved, That the Commission do, and it hereby does, authorize and direct

Counsel to notify the aforesaid tenants to vacate the property occupied by them on or before March 1, 1923, terminating all right, title and interest of the said tenants in and to the property occupied by them; and it is further

Resolved, That Counsel be, and he hereby is, authorized and directed to take such further steps as shall in his judgment be necessary to effect the clearing of title of the several parcels so occupied should the same be in any way impaired by the occupancy of the property by the said tenants after 12:00 o'clock noon on March 16, 1923; and it is further

Resolved, That Counsel be, and he hereby is, authorized in his discretion to permit tenants to remain in occupancy of the premises until the date of the delivery of title thereof, but only after stipulation with the bid purchaser or his assignee that such tenancies, if allowed to remain at and after the time of the delivery of title, shall not constitute grounds for failure or refusal on the part of the bid purchasers or their assignees to accept delivery of the deeds and to pay the purchase prices on the closing dates.

86—R. T. 7617

Route No. 16, Section No. 1—Application by Interborough Rapid Transit Company for Approval of Plan for Additional Station Facilities at 161st Street Station of Jerome Avenue Line—Approval Resolution

An application from the Interborough Rapid Transit Company, as described below, was presented and the following resolution was adopted:

Whereas, The Transit Commission is in receipt of the following communication dated January 23, 1923 from Frank Hedley, President and General Manager of Interborough Rapid Transit Company:

“Conferences have recently been held between representatives of your Commission, the American League Baseball Club and this Company, concerning the additional station facilities required at the 161st St. Station, Jerome Avenue Line. It is contemplated that the baseball park will be opened April 18th. This leaves insufficient time within which to build the permanent facilities.

This Company, therefore, proposes to construct temporary facilities, as indicated upon its drawing No. 22616, blueprint of which is herewith enclosed. It is estimated that these temporary facilities will cost approximately \$3,000. The baseball people have agreed to loan for use in the construction of the temporary facilities a quantity of lumber which they have on hand. The net cost of the construction of the temporary facilities will be charged as an operating expense.

Your approval to the construction of such temporary facilities, as outlined above, is requested.”

Resolved, That the said proposal be and the same hereby is approved.

87—R. T. 7460

Agreement “AU”—Report by Chief Engineer Recommending Extension of Time to December 22, 1922 Within Which to Complete Contract for Miscellaneous Construction and Station Finish, Group III—Approval Resolution

A report by the Chief Engineer dated January 19, 1923, recommending that an extension of time be granted to Gustin-Morris Contracting Corporation to and including December 22, 1922, within which to complete all work under the contract for miscellaneous construction and station finish, Agreement “AU”, Group III, was presented.

The following resolution was adopted:

Whereas, The contract dated June 5, 1922, between The City of New York, acting by the Transit Commission and Gustin-Morris Contracting Corporation for miscellaneous construction and station finish in Municipal Rapid Transit Railroads, Agreement “AU,” Group III, provides for the completion of all work thereunder four (4)

months after the date of delivery of said contract, which contract was delivered on June 8, 1922, the last day for completion therefore being October 8, 1922; and

Whereas, The Chief Engineer of this Commission by communication dated January 19, 1923, reports that all work under said contract was completed in all respects within the contract time with the exception of the installation of two kalamein doors in the Clark Street Shaft; that such delay was due to inability to obtain hardware of a required special nature for said doors, which was not a stock article; that such installation was delayed until December 22, 1922 and accordingly recommends that the time on said contract be extended to and including December 22, 1922.

Resolved, That the said report and recommendation be and the same hereby is approved; that the time of Gustin-Morris Contracting Corporation within which to complete the work under said contract be and the same hereby is extended to and including December 22, 1922.

88—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Cable to Be Installed in Jerome Avenue Yard—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application dated January 5, 1923, from the Interborough Rapid Transit Company, requesting the approval of a proposed purchasing agent's order on the Kerite Insulated Wire & Cable Company, Inc., for the manufacture and delivery of cable to be installed in the Jerome Avenue Yard at an approximate cost of \$12,706.56, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 13, 1923, recommending that the application be approved, was also presented.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has by communication dated January 5, 1923, submitted for the approval of this Commission, proposed Purchasing Agent's Order dated January 5, 1923, directed to The Kerite Insulated Wire and Cable Company, Inc., for the manufacture and delivery of the following:

- 40,000 Ft. 2 cond. cable, each cond. to be No. 9 B&S stranded copper wire, Kerite Insulation 5/64" wall, single braid on cond. tape and braid covered, one wire for marker.
2000 ft. to a reel.
Price:—\$112.06 per M. Ft.
 - 28,000 Ft. 5 cond. cable, each cond. to be No. 14 B&S stranded copper wire, Kerite Insulation 5/64" wall, single braid on cond. tape and braid over all, 1000 ft. to a reel.
Price:—\$221.52 per M. Ft.
 - 8,000 Ft. 7 cond. cable, each cond. to be No. 14 B&S stranded copper wire, Kerite Insulation 5/64" wall, single braid on cond. tape and braid covered, one wire for marker.
1000 Ft. to a reel
Price:—\$252.70 per M. Ft.
- To be delivered at once to 159th street and 8th avenue, N. Y. C.
No other bidders—Kerite Insulation specified.

which proposed Purchasing Agent's Order has been caused to be designated "Approval No. 433"; and

Whereas, By communication dated January 13, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that said material is to be used in connection with the signal equipment to be installed in the

Jerome Avenue Yard of the Railroad described in Contract No. 3, at an approximate total cost of \$12,706.56; that no bids were solicited for the reason that The Kerite Insulation has been found to be best suited for this use; that the price to be paid is reasonable and recommend that the Purchasing Order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 16, 1923, has recommended the approval of said proposed Purchasing Agent's Order, the expenditure thereunder to be classified as Equipment of the Railroad as defined in said contract No. 3.

Resolved, That the said reports and recommendation be and the same hereby are approved; that the said proposed Purchasing Agent's Order so submitted be and the same hereby is approved, the cost thereof to be classified as Equipment of the Railroad and that the Chairman of this Commission be and he hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed Purchasing Agent's Order.

89—R. T. 7007

Contract No. 3—Applications by Interborough Rapid Transit Company for Approval of Four Proposed Purchasing Agents Orders for Equipment to Be Installed on One Hundred New Steel Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolutions

Applications by Interborough Rapid Transit Company for approval of four proposed Purchasing Agent's Orders for material for equipping 100 new steel trailer cars at a total approximate cost of \$13,595, were presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer, dated January 15, 1923, recommending that the application be approved, the report being endorsed by the Auditor of Rapid Transit Costs recommending that the work be done as Additional Equipment under Work Order No. IBA-3, was also presented. The following resolutions were adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922, of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922, and the said proposed contract approved by said resolution of August 8, 1922, Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 5, 1923, directed to Edward J. Schroeder Lamp Works for the manufacture and delivery of the following:

2500 Holders, lamp shade, in accordance with sample submitted by them and approved by our Engineer. Price: \$1.25 each...\$3,125.00 which proposed purchasing agent's order has been caused to be designated as "Approval No. 434"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated January 15, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

Edward J. Schroeder Lamp Works.....	\$3,125.00
Safety Car Heating Company.....	2,500.00
Electric Service Supplies Company.....	no bid

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922, and August 8, 1922, aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922, in Case No. 2627 and approved the petition dated June 23, 1922, of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. 1BA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922, and the said proposed contract approved by said resolution of August 8, 1922, Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 8, 1923, directed to Columbia Machine Works and Malleable Iron Company, for the manufacture and delivery of the following:

400 Brackets, contact shoe fulcrum, Pat. 940-B annealed steel casting, per specification 55-C, finished per Det. 1, B-P 4333-L. Price: \$9.25 each.....	\$3,700.00
400 Slippers, auxiliary contact, for anti-flickering shoe, Pat. No. 462-B, unannealed steel finished per B-P 9258-C. Price: \$.70 each	280.00
Total.....	\$3,980.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 435"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated January 15, 1923, reportd that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

Columbia Machine Works and Malleable Iron Co.	\$3,980.00
The Ellcon Company.....	4,236.00
Van Dorn Coupler Co.....	6,980.00
I. G. Johnson & Co.....	19,952.00
P. H. Gill	no bid
R. Steel and Sons	no bid
Strong Steel Foundry Co.....	no bid
Farrell Check Steel Foundry.....	no bid

and recommend that said proposed purchasing agent's order be approved.

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and

the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 9, 1923, directed to National Pneumatic Company for the manufacture and delivery of the following:

400 Interlocks, R.H. door follow-up, details per B/Ps 8540-N and assembled complete per B/P 8803-J	
Price: \$7.15 each.....	\$2,860.00
200 Interlocks, L. H. door follow-up, details per B/P 8540-N and assembled complete per 3/P 8803-J	
Price: \$7.15 each.....	1,430.00
Total	\$4,290.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 436"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated January 15, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

National Pneumatic Company \$4,290.00

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be an the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 9, 1923, directed to Columbia Machine Works and Malleable Iron Company for the manufacture and delivery of the following:

200 Boxes, train line junction, as per B/P 7538-C.
Price: \$11.00 each \$2,200.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 439"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated January 15, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

Columbia Machine Works and Malleable Iron Co	\$2,200.00
Westinghouse Electric and Manufacturing Co.....	2,450.00
General Electric Company	3,178.00
National Pneumatic Company	4,500.00

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 3, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

90—R. T. 7007

Contract No. 3—Applications by Interborough Rapid Transit Company for Approval of Twenty-Nine Proposed Purchasing Agent's Orders for Material for Equipping 396 High Voltage Cars With Multiple Door Control—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolutions

Applications from the Interborough Rapid Transit Company for the approval of twenty-nine proposed purchasing agent's orders for material for equipping 396 high voltage subway cars with multiple door control at a total approximate cost of \$707,121.38, were presented.

A report by the Engineer of Equipment and Operation and Chief Engineer dated January 3, 1923, recommending that the applications be approved, the report being endorsed by the Auditor of Rapid Transit Costs recommending that the work be done under Work Order No. ICqA-1, was also presented.

The following resolutions were adopted:

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Articles LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated June 16, 1922, directed The National Pneumatic Company, as follows:

Item No.			Price per set	Total
1	264 sets	Controllers, motor car door, complete with automatic end door cutout, both assembled in one box, as per items 3 and 4 on Spec. 95-C and B/P 9371-A (2 per set).....	\$110.00	\$29,040.00
2	132 sets	Controllers, trailer car door, complete, as per item 3 on Spec. 95-C and B/P 9371-A (2 per set)	65.00	8,580.00
3	396 sets	Switches, car door control cutout, complete as per item 8 on Spec. 95-C and B/P 9370-A (2 per set)	101.80	40,312.80
4	396 sets	Boxes, junction car door control train-line complete, as per item 9 on Spec. 95-C and B/P 8810-E (2 per set)	16.40	6,494.40
5	396 sets	Boxes, door lock interlock, complete as per item 11, on Spec. 95-C and B/P 9364-A (2 per set)	21.00	8,316.00
6	396 sets	Controllers, master, complete as per item 12 on Spec. 95C and B/P 9363-A (2 RH and 2 LH per set)	120.00	47,520.00
7	396 sets	Cylinders, door lock, with magnet valve, complete, as per item 13 on Spec. 95-C and B/P 9367-A (2 per set)	45.00	17,820.00
8	396 sets	Contacts, door sliding, complete as per item 14 on Spec. 95-C and B/P 9368-A (4 RH and 2 LH per set).....	50.10	19,839.60

Item No.			Price per set	Total
9	396 sets	Relays, door lock, complete as per item 15 on Spec. 95-C and B/P 9370-A (2 per set).....	54.00	21,384.00
10	264 sets	Engines, door, with electro-pneumatically operated valves, complete as per item 16 and 17 on Spec. 95-C and B/P 9374-A (4 RH and 2 LH per set).....	690.00	182,160.00
11	132 sets	Valves, electro-pneumatically operated complete, as per item 16 on Spec. 95-C and B/P 9374-A (4 RH and 2 LH per set). The detachable magnet valve used in this assembly to be the same as our present standard for this class of work and the operating parts of the magnet valves that are integral with the engine valve housing are to conform to our standard.....	380.00	43,560.00
Totaling				\$425,026.80

which purchasing agent's order has been caused to be designated as "Approval No. 400"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

The National Pneumatic Co.....	\$425,026.80
Consolidated Car Heating Co.....	17,978.40
Westinghouse Electric and Mfg. Co.....	215,793.60
General Electric Co.....	300,762.00

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated June 16, 1922, directed to the Consolidated Car Heating Co., as follows:

Item No.			Price per set	Total
1	396 sets	Boxes, door operator's indication lamp, complete, as per item 10 on Spec. 95-C and B/P 8821-G (4 per set).....	\$29.20	\$11,563.20
2	396 sets	Boxes, door signal contact, assembled complete as per item 5 on Spec. 95-C and B/P 8811-D (4RH and 2LH per set).....	53.40	21,146.40
Totaling				\$32,709.60

which purchasing agent's order has been caused to be designated as "Approval No. 401"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Consolidated Car Heating Company.....	\$32,709.60
National Pneumatic Company	39,441.60
Westinghouse Electric and Mfg. Co.....	44,431.20
General Electric Company.....	Did not submit individual prices

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922, aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated June 16, 1922, directed to the Westinghouse Electric and Mfg. Co., as follows:

Item No.		Price per set	Total
1	396 sets Jumpers, car door control train-line, complete, as per item 6 on Spec. 95-C and B/P 9366-A (1 per set)	\$18.50	\$7,326.00
2	396 sets Sockets, coupler, car door control train-line, complete as per item 7, on Spec. 95-C and B/P 9369-A (2 per set).....	27.30	10,810.80
Totaling			\$18,136.80

which purchasing agent's order has been caused to be designated as "Approval No. 402"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Westinghouse Electric and Mfg. Co.....	18,136.80
General Electric Co.....	19,998.00
Consolidated Car Heating Co.....	No bid.
National Pneumatic Co.....	No bid.

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the

same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated June 21, 1922, directed to The Okonite Company, as follows:

	<i>Total</i>
600,000 feet of cable, 19—No. 25. single conductor insulated to be as Per Spec. 34-R, except that O. D. must not exceed .250"	
Price \$14.00 per M ft.....	\$8,400.00

which purchasing agent's order has been caused to be designated as "Approval No. 403"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work;

The Okonite Co.....	\$14.00 per M ft.
Standard Underground Cable Co.....	13.04 per M ft.
Habirshaw Elec. Cable Co.....	14.49 per M ft.
Bishop Gutta Percha Co.....	14.90 per M ft.
General Electric Co.....	15.30 per M ft.

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated November 14, 1922, directed to the Manhattan Electrical Supply Co., as follows:

Item No.		
1	7,800 Covers, taplet, Paiste No. 609.....	\$449.28
2	2,200 Taplets, ½ in. without covers, Paiste No. 4,114..	760.32
3	190 Taplets ½ in. L. R. without covers, Paiste No. 4,118	54.72
4	3,675 Taplets, ¾ in. T without covers, Paiste No. 4,124	1,640.52
	Total	\$2,904.84

which purchasing agent's order has been caused to be designated as "Approval No. 404"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Manhattan Electrical Supply Co.....	\$2,904.84
Western Electric Co.....	(\$5.76 per C.)
E. B. Latham and Co.....	(\$5.76 per C.)
Stanley and Patterson	Did not quote.

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated July 17, 1922, directed to the Western Electric Company, as follows:

534,000 feet conduit, 1/4" loricated.....	\$21,076.98
76,000 feet conduit, 3/4" loricated.....	3,828.88
Totalling	<u>\$24,905.86</u>

which purchasing agent's order has been caused to be designated as "Approval No. 405"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Western Electric Co.	\$24,905.86
E. B. Latham and Co.	24,923.40
Fletcher Electric Co.	26,418.00

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommended that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923, has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provision of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated July 24, 1922, directed to the The Okonite Company, as follows:

300,000 feet of cable, 19 No. 25 single conductor insulated, to be as per Specification 34-R except that O. D. must not exceed .250"
 Price \$14.00 per M. Ft. \$4,200.00
 which purchasing agent's order has been caused to be designated as "Approval No. 406";
 and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

The Okonite Co.	\$14.00 per M. ft.	\$4,200.00
Standard Underground Cable Co.....	13.44 per M. ft.	
Habirshaw Elec. Cable Co.....	14.91 per M. ft.	
Bishop Gutta Percha Co.....	15.30 per M. ft.	

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated July 26, 1922, directed to the Columbia Machine Works and Malleable Iron Co., as follows:

792 Sockets, signal coupler, complete, as per B/P 9,769-A and, with approximately 20 feet of 19—No. 25 insulated cable, as per Spec. 34-R, except that O. D. must, not exceed .250 in.		
Price: \$7.40 each		\$5,860.80
396 Jumpers, signal complete, with cable, as per blue print 9,769-A and Spec. 34-R.		
Price: \$9.15 each		3,623.40
Total		\$9,484.20

which purchasing agent's order has been caused to be designated as "Approval No. 407"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Columbia Machine Works and Malleable Iron Co.....	\$9,484.20
Western Electric Company	9,523.80
General Electric Company	10,890.00
Westinghouse Electric and Mfg. Co.....	12,723.48

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The auditor of Rapid Transit Costs by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and

the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated July 28, 1922, directed to the Crane Company, as follows:

is directed to execute the form of approval of this Commission made part of said
proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved
the proposal of Interborough Rapid Transit Company pursuant to the provisions of
Articles LXX and LXXI of the contract dated March 19, 1913, known as Contract No.
3 to install as an Addition a multiple door control on 396 additional subway high volt-
age cars as therein more particularly indicated and determined the proper classification

of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. 1CqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated August 30, 1922, directed to R. Steel & Sons, Inc., as follows:

810 Brackets, cord pulley, Det. 18, B/P 8839-J. Price: 20c. each..	\$162.00
540 Brackets, hose hanger, Det. 7, B/P 9800-A. Price: 11c. each	59.40
270 Hangers, hose, Det. 8, B/P 9800-A. Price: 45c. each.....	121.50
530 Plates, center door engine bed, Det. 9, B/P 9800-A Price:	
\$1.75 each	927.50
535 Hangers, R.H. vestibule door, complete B/P 9802-A. Price:	
\$1.70 each	909.50
535 Hangers, L. H. vestibule door, complete B/P 9802-A. Price:	
\$1.70 each	909.50
810 Plates, door lock, Det. 4, B/P 9320-C. Price: 25c. each....	202.50
530 Clamps, door lock, Det. 1, B/P 9321-C. Price: 10c. each....	53.00
540 Clamps, door lock, Det. 2, B/P 9321-C. Price: 11c. each....	59.40
800 Clamps, door lock, Det. 1, B/P 9322-C. Price: 10½c. each..	84.00
780 Clamps, door lock, Det. 2, B/P 9322-C. Price: 10½c. each..	81.90
1,110 Clamps, door lock, Det. 3, B/P 9322-C. Price: 10c. each....	111.00
1,620 Plates, floor for door lock rods, Det. 1, B/P 9734-A. Price:	
14c. each	226.80
1,620 Brackets, R.H. eng. switch, Det. 10, B/P 9734-A. Price:	
10c. each	162.00
810 Brackets, trans. rod, guide, Det. 2, B/P 9734-A. Price:	
25c. each	202.50
810 Brackets, trans. rod, guide, Det. 2, B/P 9734-A. Price:	
25c. each	202.50
1,620 Hangers, lock interlock box, Det. 6, B/P 9734-A. Price:	
13c. each	210.60
810 Brackets, L.H. eng. switch, Det. 11, B/P 9734-A. Price:	
10c. each	81.00
1,620 Brackets, contact box pipe support, Det. 13, B/P 9734-A. Price:	
20c. each	324.00
1,620 Brackets, control switch Det. 17, B/P 9734-A. Price: 25c. each	405.00
540 Brackets, Motorman's door opening device, Det. 2, B/P 8802-F.	
Price: 20c. each	108.00
540 Rods, Motorman's door opening device, Det. 6, B/P 8802-F.	
Price: 8c. each	43.20
Total.....	
\$5,646.80	

which purchasing agent's order has been caused to be designated as "Approval No. 415"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of the Commission, have reported the following bids were received for the performance of such work:

R. Steel and Sons, Inc.....	\$5,646.80
National Pneumatic Co.....	7,109.60
The Elcon Co.....	7,362.38
P. H. Gill and Sons.....	7,697.10
Columbia Machine Works and Malleable Iron Co.....	9,038.60
Traction Supply and Equipment Co.....	No bid
Wallace Supplies Mfg. Co.....	No bid

that the material is necessary and the price is reasonable being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923, has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same

hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated September 2, 1922, directed to Morton Manufacturing Company, as follows:

530 steps, R.H. Door Operators for H.V. Motor cars, B/P 8814-C.	
Price: \$1.85 each.....	\$980 50
280 steps, R.H. Door Operators for H.V. trailer cars, B/P 8814-C.	
Price: \$1.85 each.....	518 00
810 steps, L.H. Door Operators, B/P 8814-C. Price: \$1.85 each.....	1,498 50
Total	\$2,997 00

which purchasing agent's order has been caused to be designated as "Approval No. 416"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such works:

Morton Manufacturing Co.....	\$2,997 00
R. Steel and Sons, Inc.....	2,025 00
National Pneumatic Co.....	2,268 00
Columbia Machine and Malleable Iron Works.....	2,835 00
Traction Supply and Equipment Co.....	No bid.

that the material is necessary and the price is reasonable, being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923, has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922, aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated September 15, 1922, directed to Westinghouse Electric & Manufacturing Company, as follows:

132 Relays, battery charging and emergency lighting, complete, with two (2) 2000 ohm resistance tubes and assembled in box, with brackets for mounting under car, WE&M type 389-H.	
Price: \$23.50 each. Total price.....	\$3,102 00

which purchasing agent's order has been caused to be designated as "Approval No. 417"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Westinghouse Electric and Manufacturing Co.....	\$3,102 00
National Pneumatic Co.....	27 00 each
Columbia Machine Works and Malleable Iron Co....	29 50 each
General Electric Co.....	31 50 each

that the material is necessary and the price is reasonable, being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923, has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922, aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated September 20, 1922, directed to Columbia Machine Works & Malleable Iron Company, as follows:

792 Boxes, door operator's indication lamp, complete, details, per B/Ps	
9824-B, 9836-A, 9746-C and to be assembled as per B/P 9330-D.	
Price: \$6.25 each. Total.....	\$4,950 00

which purchasing agent's order has been caused to be designated as "Approval No. 418"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported the following bids were received for the performance of such work:

Columbia Machine Works & Malleable Iron Co....	\$6.25 ea.	\$4,950 00
Consolidated Car Heating Co.....	6.50 ea.	
National Pneumatic Co.....	7.00 ea.	
General Electric Co.....	No bid.	
Westinghouse Electric & Manufacturing Co.....	No bid.	

that the material is necessary and the price is reasonable, being the best obtainable for the superior quality of the material supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated January 10, 1923, has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922, aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Article LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated October 9, 1922, directed to National Pneumatic Company, as follows:

Item No.		
1	792 Tripe safety for H.V. trailer car door reversing attachment details as shown on B/P 8719-E and assembled complete, as per B/P 8800-D. Price: \$2.15 each.....	\$1,702 80
2	800 Pieces channel retaining strip (35-1/4" long) for H.V. trailer car door reversing attachment, Det. 2, B/P 9749-B. Price: \$0.55 each	440 00
3	1,584 Switches, reversing for H.V. motor car door reversing attachment, complete, details and assembly as per B/P 9841-C. Price: \$2.75 each.....	4,356 00
4	1,300 Pieces, Channel (8-1/4" long) door reinforcing for H.V. Motor Car door reversing attachment, Det. 4, B/P 9749-B. Price: \$0.21 each.....	273 00
5	320 Fillers door reinforcing, H.V. motor car, Det. 1, B/P 9871-A. Price: \$0.30 each.....	96 00

91—Case 1292

The New York Central Railroad Company—Operation of Freight Trains on Eleventh Avenue—Reports Approved

The Secretary presented:

1. A report by the Chief of Transit Bureau, approved by the Chief Executive Officer, dated January 16, 1923, advising that permission had been granted for the suspension of the Order herein prohibiting the operation of freight trains on Eleventh Avenue from January 16, to January 19, 1923, inclusive.

2. An application by the Superintendent of Freight Yards of The New York Central Railroad Company, dated January 16, 1923, requesting a further suspension of the order herein until January 31, 1923, due to heavy snowfalls, together with a report by the Assistant Chief of Transit Bureau, dated January 19, 1923, recommending that the application be granted.

The Commission approved the two reports and ordered the same filed.

92—Case 2669

Annual Reports—Forms of Annual Report for Steam Railroad Corporations Within the Jurisdiction of the Commission—Filing Order Adopted

The Commission on its own motion adopted an Order in Case No. 2669, directed to steam railroad corporations within its jurisdiction and requiring them to file their annual reports on or before April 10, 1923, on forms to be prescribed and supplied by the Commission.

93—Case 2670

New York Consolidated Railroad Company, The Long Island Railroad Company—Application of Board of Estimate and Apportionment for Determination as to the Method by Which 6th Avenue Between 63rd and 64th Streets, in the Borough of Brooklyn, Shall Cross Companies Tracks—Hearing Order Adopted

The Secretary presented:

1. Resolution of Board of Estimate & Apportionment of The City of New York, dated January 5, 1923, establishing lines and grades of 6th Avenue between 63rd and 64th Streets, in the Borough of Brooklyn.

2. Resolution of Board of Estimate & Apportionment of The City of New York, dated January 5, 1923, making application to the Commission for a determination as to the manner by which 6th Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, should be carried across the tracks of said railroad companies.

The Commission adopted and ordered filed an Order in Case No. 2670, directing that a hearing be held on said application before George L. Lucas, Acting Chief Executive Officer, therein duly designated to conduct same, upon a date to be fixed and determined by him.

94—Case 2671

**Nassau Bus Line, Inc.—Application for Certificate of Convenience and Necessity
—Hearing Order Adopted**

The Secretary presented a communication from the Nassau Bus Line, Inc., dated January 20, 1923, applying for a certificate of convenience and necessity to operate motor buses for the transportation of passengers in Far Rockaway, Borough of Queens.

The Commission adopted and ordered filed an Order in Case No. 2671, directing that a hearing on said application be held by and before the Commission on February 6, 1923 at 10:30 a. m.

95—Case 1901

**The Long Island Railroad Company—Application of J. and T. Adikes for
Establishment of Side Track at Jamaica—Report and Opinion by Chief
Executive Officer Approved—Order Abrogating Previous Orders Adopted**

The Secretary presented a report and opinion, dated January 18, 1923, by Lincoln C. Andrews, Chief Executive Officer, duly designated to conduct the hearing herein, recommending for the reasons therein stated that the Order of the Public Service Commission for the First District herein, dated January 27, 1916, and of this Commission, dated April 25, 1922, be abrogated.

The Commission approved and ordered filed the said report and opinion of the Chief Executive Officer and adopted and ordered filed an Order in Case No. 1901, embodying the recommendations therein contained.

96—Case 2665

**The Long Island Railroad Company—Grade Crossing Old Flushing—Report
and Opinion by Chief Executive Officer Approved—Final Order Adopted**

The Secretary presented a report and opinion, dated January 18, 1923, by Lincoln C. Andrews, Chief Executive Officer, duly designated to conduct the hearing herein, recommending for the reasons and upon the conditions therein stated that The Long Island Railroad Company be authorized to close and discontinue the existing grade crossing at Old Flushing Avenue, at Maspeth, Borough of Queens.

The Commission approved and ordered filed the report and opinion of the Chief Executive Officer and adopted and ordered filed an Order in Case No. 2665, embodying the recommendations therein contained.

97—Cases 2182, 2218, 2306, 2662

**Interborough Rapid Transit Company—Plan of Readjustment—Acceptance of
Nomination Filed**

The Secretary presented a communication, dated January 11, 1923, from W. W. Niles, accepting nomination as director of the Interborough Rapid Transit Company, pursuant to its Plan of Readjustment, for a term ending September, 1924.

The Commission ordered the communication filed.

98—R. T. 6626

103

Equipment—Certified Copy of Resolution of Commissioners of Sinking Fund Turning Over One Ford Truck to Department of Public Welfare—Filed

The following certified copy of the resolution adopted by the Commissioners of the Sinking Fund on January 18, 1923, was ordered filed:

Resolved, That, pursuant to the provisions of section 205 of the Greater New York Charter, as amended, the Commissioners of the Sinking Fund hereby assigns the following described property turned over to it by certain departments and offices as no longer required by them:

From Transit Commission to Department of Public Welfare—One (1) Ford truck with express body, engine No. 3069141.

104

Contracts and Agreements—Proposed Agreement With M. B. Brown Printing and Binding Company for the Year 1923—Approval Resolution

The following resolution was adopted:

Whereas, The Transit Commission called for bids to be submitted for printing its Construction Contracts and Agreements for the year 1923; and

Whereas, Such bids were opened on January 19, 1923, and the bid of M. B. Brown Printing & Binding Co. was found to be most favorable, it is therefore

Resolved, That the bid of M. B. Brown Printing & Binding Co. be and the same hereby is accepted and that a contract be made with M. B. Brown Printing & Binding Co. for printing the Transit Commission's Construction Contracts and Agreements for

the year 1923 at the prices submitted by said M. B. Brown Printing & Binding Co. in said bid and that the Chairman and Secretary of this Commission be and they hereby are authorized and directed to execute and deliver said contract for and on behalf of this Commission.

105

Employees' Resolution No. 125

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved. That this Commission takes the following action with reference to employees:

Appointments—James Bousfield, draftsman, at \$150.08 per month, to take effect January 21, 1923; Francis M. Carman, draftsman, at \$150.08 per month, to take effect February 1, 1923; Louis Chesir, draftsman, at \$150.08 per month, to take effect January 21, 1923; George A. Coy, draftsman, at \$150.08 per month, to take effect January 21, 1923; Roy K. Diamond, draftsman, at \$150.08 per month, to take effect January 22, 1923; C. John Judge, draftsman, at \$150.08 per month, to take effect January 21, 1923; Carl A. Monniche, draftsman, at \$150.08 per month, to take effect January 21, 1923; Irving Munves, draftsman, at \$150.08 per month, to take effect January 21, 1923; Nathan Raboy, draftsman, at \$150.08 per month, to take effect January 21, 1923; Louis Steinwolf, draftsman, at \$150.08 per month, to take effect January 22, 1923; Jones A. Stewart, draftsman, at \$150.08 per month, to take effect January 21, 1923; Jacob Sumter, draftsman, at \$150.08 per month, to take effect January 21, 1923; Ira B. Thomson, draftsman, at \$150.08 per month, to take effect January 21, 1923.

Appointments (Exempt)—George F. Daggett, chief of transit bureau, at \$541.66 per month, to take effect January 24, 1923; Lillian Keller, secretary to chairman, at \$300.00 per month, to take effect January 24, 1923.

Kivlen, Jr., junior assistant, at \$125.00 per month, to take effect January 15, 1923; Frank Murphy, clerk, at \$70.00 per month, to take effect January 29, 1923; Anthony F. Pessolano, draftsman, at \$150.08 per month, to take effect January 26, 1923; Louis Tarnopoll, draftsman, at 150.08 per month, to take effect January 20, 1923.

Termination of Appointments under Rule VIII:4—Louis Chesir, draftsman, at \$150.08 per month, to take effect January 20, 1923; C. John Judge, draftsman, at \$150.08 per month, to take effect January 20, 1923; George H. Lesley, draftsman, at \$150.08 per month, to take effect January 26, 1923; Irving Munves, draftsman, at \$150.08 per month, to take effect January 20, 1923; Nathan Raboy, draftsman, at \$150.08 per month, to take effect January 20, 1923; Jones A. Stewart, draftsman, at \$150.08 per month, to take effect January 20, 1923; Jacob Sumter, draftsman, at \$150.08 per month, to take effect January 20, 1923; Samuel Weisman, draftsman, at \$150.08 per month, to take effect January 26, 1923.

Termination of Appointments under Rule VIII:9—James Bousfield, draftsman, at \$150.08 per month, to take effect January 20, 1923; George A. Coy, draftsman, at \$150.08 per month, to take effect January 20, 1923; Carl A. Monniche, draftsman, at \$150.08 per month, to take effect January 20, 1923; Ira B. Thomson, draftsman, at \$150.08 per month, to take effect January 20, 1923.

Voucher Schedule No. 4

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 83-114, open market orders, \$4,815.63; Vouchers Nos. 44-48; 51-63, miscellaneous bills, \$1,535.92; Vouchers Nos. 2 and 3, Special Payroll, \$1,950.00;

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 17; Interborough Rapid Transit Company; approximate estimate No. 2 for remedying the leaky condition of the mezzanine roofs of eight stations on the Jerome Avenue and five stations on the White Plains Road lines, from September 1, 1922 to November 30, 1922 (R.T. 7494) \$5,463.27;

Voucher No. 18; Frederick L. Cranford, Inc., approximate estimate No. 6, for the reconstruction of a part of Section No. 3 of Route No. 33—completion of Lawrence Street station, from December 1, 1922 to December 31, 1922 (R.T. 7454) \$13,881.49;

Voucher No. 19; Ramapo Iron Works; approximate estimate No. 3 for the supply of special work, Order No. 21, for use in the construction of 14th Street-Eastern and Broadway-Fourth Avenue lines. Routes Nos. 8, 4 and 36, from December 15, 1922 to January 15, 1923 (R.T. 7505) \$11,792.70;

Voucher No. 20; Charles H. Brown & Son, Corporation, Assignee; approximate estimate No. 11 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8 of the Fourteenth Street-Eastern Rapid Transit Railroad, from December 16, 1922 to January 15, 1923 (R.T. 7539) \$2,324.65;

Voucher No. 21; John C. Orr Company; approximate estimate No. 22 for storing, insuring and transporting ties and timber for the rapid transit railroad, from November 1, 1922 to December 31, 1922 (R.T. 6881) \$59.36;

Voucher No. 22; Jacob Schlesinger, Inc., approximate estimate No. 6 for the construction of a second addition to shops at Lenox Avenue and 148th Street Yard, under Contract No. 3, from December 16, 1922 to January 15, 1923 (R.T. 7368) \$10,637.48.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, January 25, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

107—R. T. 7419

Contracts Nos. 3 and 4—Receipt of Bids for Completion of Built-in Newsstand Enclosures at Stations—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the completion of built-in newsstand enclosures at stations of Rapid Transit Railroads had elapsed at 11:30 A.M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the two bids received. The bids were then referred to the Chief Engineer.

108—R. T. 7635

Agreement "CE"—Receipt of Bids for Making Alterations in Subway Structure at Various Locations to Permit Widening of Streets, Borough of Manhattan—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for making alterations in subway structure at various locations in the Broadway-Fourth Avenue Rapid Transit Railroad, so as to permit widening of certain streets in the Borough of Manhattan, had elapsed at 11.30 A.M., and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the three bids received. The bids were then referred to the Chief Engineer.

109

Hearing

The following hearing was held:

10:30 A.M.: Case No. 2668; Brooklyn City Railroad Company; application for approval of declaration of abandonment of portion of route on Furman Street between Fulton St. and Atlantic Avenue. George L. Lucas, Acting Chief Executive Officer, presided. Adjourned to January 26, 1923, at 10:30 A.M.

JAMES B. WALKER,
Secretary.

Hearing

The following hearing was held:

10:30 A.M.: Case No. 2668; Brooklyn City Railroad Company; application for approval of declaration of abandonment of portion of route on Furman Street between Fulton Street and Atlantic Avenue. George L. Lucas, Acting Chief Executive Officer, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, January 30, 1923

Presents: George McAneny, Chairman; LeRoy T. Harkness, and John F. O'Ryan Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

111—R. T. 7635

Agreement "CE"—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Alterations in Subway Structure to Permit Widening of Streets—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on January 25, 1923, for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad structure at various locations to permit widening of streets, Borough of Manhattan, Agreement "CE," the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of Three hundred (\$300) dollars each, deposited with their bids.

112—R. T. 7635

Agreement "CE"—Report by Chief Engineer As to Receipt of Bids for Alterations in Structures of Broadway-Fourth Avenue Rapid Transit Railroad So As to Permit Widening of Certain Streets in Borough of Manhattan and Recommendation for Award of Contract to Benedetto & Saussez at Bid Price of \$8,959.00—Approval Resolution—Requisition Upon Board of Estimate and Apportionment for Appropriation of \$10,000

The following report was approved:

January 29, 1923.

TO: TRANSIT COMMISSION:

Award of Contract for work under Agreement "CE," to Benedetto & Saussez.

On January 25, 1923 the following bids were received for work under Agreement "CE," making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad structures at various locations to permit widening of streets, Borough of Manhattan. The locations of these alterations are as follows: 57th street and Seventh avenue, 52d street and Seventh avenue, 25th street and Broadway, and Canal street between Mulberry street and the Bowery.

Name	Amount
Benedetto & Saussez.....	\$ 8,959.00
Ed. Balaban.....	10,670.00
Hamme & Jackson, Inc.....	18,465.00

Our estimate for this work amounted to \$15,000. This work is to be done by the Commission and the cost thereof taken from an appropriation of \$17,450 made by the Board of Estimate and Apportionment on July 19, 1922 "to be used for emergency alteration to manholes, cable feed pipes, vault lights and emergency exits in subway structures interfered with by the widening of streets under the jurisdiction of the President, Borough of Manhattan."

Benedetto & Saussez, the lowest bidder, has not previously done any work for the Commission but has done work for other City departments as individuals. The architect for the Department of Public Welfare says that he considers Mr. Benedetto, who was a contractor for him, a good honest contractor although slow in his work. Mr. Byrne, Chief Engineer of Department of Plant & Structures for whom Mr. Saussez had installed a concrete floor on part of the Williamsburg Bridge said that he considered Mr. Saussez an able contractor who did satisfactory work. The bid prices of Benedetto & Saussez are considerably lower than our estimates; however, it seems to me advisable that the contract should be awarded to this bidder.

Attached I send you herewith copy of minutes of a conference held in my office on January 26, 1923 with Messrs. Benedetto and Saussez, and also a copy of their financial statement. There is also transmitted herewith twelve (12) prints of summation of bids.

In addition to the work contained in the schedule on which bids were received, work has to be done at cost plus 15% under Item 150 of the contract for repairing station finish work due to disturbance of a small part of the interior of stations on account of changes in the structure. The accurate cost of this work cannot be estimated at the present time, but it is thought that \$1,000 will cover it and this amount should

be added to the amount of the low bidder when making the request for appropriation from the Board of Estimate and Apportionment.

Recommendation: From an engineering standpoint I respectfully recommend that, contract for work under Agreement "CE," making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad structures at various locations to permit widening of streets, Borough of Manhattan, be awarded to the low bidder, Benedetto & Saussez at its bid figure of \$8,959 and that a requisition be made on the Board of Estimate and Apportionment for consent to said proposed contract and the utilization of \$10,000 of the appropriation of \$17,450 made by the Board of Estimate and Apportionment on July 19, 1922 aforesaid.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment by resolution adopted on July 19, 1922 appropriated the sum of \$17,450 to be used for "necessary alterations to manholes, cable feeder pipes, vault lights and emergency exits in subway structure interfered with by the widening of streets, under the jurisdiction of the President of the Borough of Manhattan, the cost of such portions of the proposed work as are performed by the operating companies (under the supervision of the Transit Commission) to be expended by the Borough President upon vouchers to be prepared by the Transit Commission"; and

Whereas, The form of the proposed contract (Agreement "CE") for the making of alterations in the Broadway-Fourth Avenue Rapid Transit Railroad structure at various locations to permit of the widening of streets in the Borough of Manhattan was finally adopted on January 9, 1923 and subsequent to advertisement duly made bids respectively totalling as follows were received on January 25, 1923, as follows:

Benedetto & Saussez.....	\$ 8,959.00
Ed. Balaban.....	10,670.00
Hamme & Jackson, Inc.....	18,465.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated January 29, 1923 has reported that the amount of said low bid is reasonable and that the said Benedetto & Saussez are financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to them and the making of a requisition upon the Board of Estimate and Apportionment for the allocation of the sum of \$10,000 from the said appropriation made on July 19, 1922 aforesaid for the purposes of meeting the obligations of the City under said proposed contract.

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby are approved; that the bid of Benedetto & Saussez be and the same hereby is accepted and that said proposed contract be and hereby is awarded to said Benedetto & Saussez subject to its being consented to in form and substance as required by law and that said proposed contract, together with requisition in form now presented by Counsel for the consent of said Board and the allocation of the sum of \$10,000 from said appropriation of July 10, 1922 be transmitted to the said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 30, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

By resolution adopted on July 19, 1922 (Cal. No. 635) your Honorable Board appropriated the sum of Seventeen thousand four hundred and fifty (\$17,450) Dollars to be used for "necessary alterations to manholes, cable feeder pipes, vault lights and emergency exits in subway structures interfered with by the widening of streets, under the jurisdiction of the President of the Borough of Manhattan, the cost of such portions of the proposed work as are performed by the operating companies (under supervision of the Transit Commission) to be expended by the Borough President upon vouchers to be prepared by the Transit Commission."

In accordance with the established practice, the Commission, where work involved

in making such changes does not enter directly on or interfere with the operation of trains, has prepared and advertised a proposed contract, bids for which were received on January 25, 1923 as follows:

Benedetto & Saussez.....	\$ 8,959 00
Ed. Ballaban.....	10,670 00
Hamme & Jackson, Inc.....	18,465 00

The Transit Commission accordingly, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law a proposed contract (Agreement "CE") to be entered into between The City of New York, acting by the Transit Commission and Benedetto & Saussez for the making of alterations in the Broadway-Fourth Avenue Rapid Transit Railroad structure at various locations to permit of the widening of streets in the Borough of Manhattan, together with a requisition upon your Honorable Board for the allocation of the sum of Ten thousand (\$10,000) Dollars for the purposes of said contract from the resolution of July 19, 1922 adopted as aforesaid.

The Chief Engineer of this Commission in a communication dated January 29, 1923 reports that the bid of Benedetto & Saussez, the low bidder is reasonable and that the said firm is competent and financially capable of carrying out the said provisions of said contract and the Transit Commission has accepted said bid and awarded the said proposed contract to the said Benedetto & Saussez, subject to its being approved and consented to in form and substance as required by law.

Your Honorable Board is therefore requested to consent to said proposed contract herewith transmitted and to allocate and set aside for the purposes of meeting the City's obligations thereunder, the sum of Ten thousand (\$10,000) Dollars from the appropriation of Seventeen thousand, four hundred and fifty (\$17,450) Dollars made pursuant to the resolution of July 19, 1922, aforesaid.

The requisition hereby made is slightly in excess of the amount of the low bid for the reasons stated by the Chief Engineer in his report of January 29, 1923, as follows:

"In addition to the work contained in the schedule on which bids were received, work has to be done at cost plus 15% under item 150 of the contract for repairing station finish work due to disturbance of a small part of the interior of stations on account of changes in the structure. The accurate cost of this work cannot be estimated at the present time, but it is thought that \$1,000 will cover it and this amount should be added to the amount of the low bidder when making the request for appropriation from the Board of Estimate and Apportionment."

TRANSIT COMMISSION
By GEORGE MCANENY,
Chairman.

113—R. T. 7419

Contracts Nos. 3 and 4—Report by Chief Engineer As to Receipt of Bids for Completion of Built-in Newsstand Enclosures at Stations and Recommendation for Award of Contract to Fox, Reynolds Co. Inc. at Bid Price of \$52,316.50—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

The following report was approved:

January 29, 1923.

To: TRANSIT COMMISSION.

Award of Contract for Completion of Newsstand Enclosures, Contracts Nos. 3 and 4, to Fox, Reynolds Co. Inc.

On January 25, 1923 the following bids were received for Completion of Newsstand Enclosures on Contracts Nos. 3 and 4:

Name	Amount
Fox, Reynolds Co. Inc.....	\$52,316 50
Chas. H. Brown & Son Corp.....	53,799 00

Our estimate for this work amounted to \$53,553.

Bids for this work were opened on January 4, 1923 but due to a mistake made in the bid by the lowest bidder this contract was readvertised at its expense. This contract was also advertised once before and awarded by the Commission to Charles Meads & Co. on June 21, 1922 and subsequently rejected by the Board of Estimate and Apportionment by resolution of November 10, 1922.

The present bids are reasonable and very close to our estimate. The lowest bidder, Fox, Reynolds Co., Inc., has not previously done any work for the Corporation. Henry E. Fox, one of the members of this Commission, had charge of the subway work for the U. S. Realty Co. in finishing up its contract for subway, Route 4 & 36, Section 2 of the Municipal Broadway subway and on Route 4 & 38, Sections 4 and 5 of the I. R. T. Seventh Avenue subway. Mr. Fox has done considerable work for other City Departments. He had a contract for the Board of Water Supply and the Chief Engineer of that Department says he completed the contract but was very slow in his work. Mr. Fox also had a contract for the Department of Water Supply, Gas & Electricity under the name of Henry E. Fox Constr. Co., which work was not done to the satisfaction of that Department and Henry E. Fox Constr. Co. was declared in default. In 1916, Mr. Fox had a contract in connection with the 59th Street power plant for the Interborough Company. The Engineers of that Company advise me that while he was very slow in carrying out the work he completed the job satisfactorily notwithstanding the great difficulties encountered, conditions due to the war, and in spite of the probability, as stated by the engineers, that he lost money on his contract.

Attached I send you copy of minutes of a conference held in my office on January 26, 1923 with Mr. Henry E. Fox, representing the lowest bidder and also copy of a financial statement. I also transmit twelve (12) prints of summation of bids.

Everything considered, I believe it advisable that the contract should be awarded to this Corporation.

Recommendation: From an engineering standpoint I respectfully recommend that contract for Completion of Newsstand Enclosures, Contracts Nos. 3 and 4, be awarded to the lowest bidder, Fox, Reynolds, Co., Inc., at its bid figure of \$52,316.50 and that a requisition be made on the Board of Estimate and Apportionment for the appropriation of this amount, of which \$37,683 should be charged to Contract No. 3 and \$14,633.50 should be charged to Contract No. 4.

ROBT. RINGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the completion of built-in newsstand enclosures at stations of municipal rapid transit railroads (under Contracts Nos. 3 and 4) was finally adopted on May 23, 1922; and

Whereas, By resolution adopted on November 10, 1922, the Board of Estimate and Apportionment denied the request of this Commission for its consent and approval to the award of said proposed contract to the Charles Meads & Company, of the bids received for said proposed contract on June 9, 1922, which bids were thereafter rejected by resolution of this Commission on December 12, 1922, which resolution directed that the invitation of said proposed contract as adopted aforesaid be re-advertised; and

Whereas, The bids received on January 4, 1923, were all rejected by resolution of this Commission adopted January 9, 1923, whereby the cost of subsequent advertising is to be charged to and deducted from the certified check of \$500 deposited as in said resolution set forth; and

Whereas, Pursuant to readvertisement of the Invitation to Contractors forming part of the proposed contract adopted on May 23, 1922 as aforesaid the following bids, respectively totalling as follows, were received on January 25, 1923:

Name	Amount
Fox, Reynolds Co., Inc.	\$52,316.50
Chas. H. Brown & Son, Corp.	53,799.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated January 29, 1923, has reported that the amount of said low bid is reasonable and that the said Fox, Reynolds Co., Inc., is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment in the sum of \$52,316.50, \$37,683 thereof being charged as a sub-requisition under Contract No. 3 and \$14,633.50 being charged as a sub-requisition under Contract No. 4, said sum being the amount estimated to be necessary to carry out said proposed contract on the part of the City.

Resolved, That the said report and recommendation be and the same hereby is

approved; that the bid of Fox, Reynolds Co., Inc., be and the same hereby is accepted and the said proposed contract for the completion of built-in newsstand enclosures at stations of municipal rapid transit railroads (Contracts Nos. 3 and 4) be and the same hereby is awarded to the said Fox-Reynolds Co., Inc., subject to its being consented to in form and substance as required by law, and that said requisition for the consent of said board and the appropriation of the sum of \$52,316.50 estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 30, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

By resolution (Cal. No. 181) adopted by your Honorable Board on November 10, 1922, the application of the Transit Commission for the consent of your Honorable Board to the award to the Charles Meads & Company of the proposed contract for the completion of built-in newsstand enclosures at stations of municipal rapid transit railroads (under Contracts Nos. 3 and 4) at an estimated cost of Fifty-six thousand two hundred nineteen dollars (\$56,219) was denied.

The Transit Commission subsequently readvertised said contract and received bids therefor on January 4, 1923. The low bid received on such opening was obviously based upon error and the low bidder subsequently, by communication, requested the permission to withdraw the same and agreeing to pay for the cost of the readvertising. The Commission, believing that the financial interests of the City would be best served by such action, rejected all bids and directed the retention of the bid check for Five hundred dollars (\$500) of the low bidder, who made the error and that the cost of such readvertising be charged to and deducted therefrom.

The Transit Commission thereupon readvertised said proposed contract and received bids on January 25, 1923, respectively totalling as follows:

Name	Amount
Fox, Reynolds Co., Inc.	\$52,316.50
Chas. H. Brown & Son Corp.....	53,799.00

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Fox, Reynolds Co., Inc., for the completion of newsstand enclosures at stations of municipal rapid transit railroads under Contracts Nos. 3 and 4, together with a requisition upon your Honorable Board for the appropriation of the sum of Fifty-two thousand three hundred sixteen dollars and fifty cents (\$52,316.50), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

The Chief Engineer of this Commission, in a communication dated January 29, 1923, reports that the bid of Fox, Reynolds Co., Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the Fox, Reynolds Co., Inc., subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Fifty-two thousand three hundred sixteen dollars and fifty cents (\$52,316.50) and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Fifty-two thousand three hundred sixteen dollars and fifty cents (\$52,316.50).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount estimated to be necessary to pay the expense to the City of carrying out said proposed contract.

This requisition, to the extent of Thirty-seven thousand six hundred eighty-three dollars (\$37,683) is a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 3, and the appropriations made therefor by your Honorable Board and to the extent of Fourteen thousand six hundred thirty-three dollars and fifty cents (\$14,633.50) is a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

114—R. T. 7570

Route No. 5—Proposed Agreement with Interborough Rapid Transit Company for Changes in Lavatory Facilities at 138th Street and Third Avenue and 149th Street and Mott Avenue Station—Approval Resolution—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment of the City of New York, by resolution adopted July 19, 1922, consented to the performance of the work of making changes in the lavatories at the 138th Street and Third Avenue and 149th Street and Mott Avenue Stations of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad by the Lessee as an Addition under the provisions of Contract No. 3 and appropriated the sum of \$210 to meet the obligations of the City in the performance of such work, such resolution and approval being subject "to the submission by the said Transit Commission of a proper agreement for the proposed work"; and

Whereas, Counsel has prepared a proposed agreement which has been approved generally by the Corporation Counsel and by the Lessee and which, if adopted, will effect the desires of the Board of Estimate and Apportionment with respect to the performance of work of making Additions to Construction by the Lessee under and in accordance with the provisions of Contract No. 3.

Resolved, That the said proposed agreement be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment for the consent and approval of said Board thereto.

The Communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 30, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board, by resolution adopted on July 19, 1922, Cal. 629, approved "subject to the submission by the said Transit Commission of a proper agreement for the proposed work * * *", the performance of the work of making certain changes at the 138th Street and Third Avenue Station and at the 149th Street and Mott Avenue Station of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad and authorized the Comptroller to issue corporate stock of the City of New York to an amount not exceeding Two hundred and ten Dollars (\$210), to meet the obligations of the City in carrying out said work under and in accordance with the provisions of the contract dated March 19, 1913, known as Contract No. 3.

Accordingly the Transit Commission has, through its Counsel, prepared what is proposed to be established as a standard form of agreement for the performance of work of constructing Additions to Construction wherein, in accordance with the discretion invested in the Commission, the Lessee under Contract No. 3 is directed to perform the work. As most of the changes falling within the category of Additions will involve interference with the operation of the railroad, such a form of agreement will probably be used with greater frequency than contracts let to outsiders after public hearing. The said proposed agreement has been examined and approved generally by the Corporation Counsel and by the Lessee under Contract No. 3.

The said proposed agreement has accordingly been adopted to provide for the performance of the work of constructing the changes in the lavatories of the 138th Street and Third Avenue and 149th Street and Mott Avenue Stations of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the railroad described in Contract No. 3, which is the work consented to by your Honorable Board by resolution of July 19, 1922 as aforesaid.

Said proposed agreement is transmitted herewith and your Honorable Board is requested to consent thereto.

It is proposed, if favorable action is taken thereon by your Honorable Board, to submit the proposed agreement to the Corporation Counsel for his indorsement, approving the said proposed agreement as to form.

TRANSIT COMMISSION
GEORGE McANENY,
Chairman.

115—R. T. 7520

Route No. 31—Report by Chief Engineer Recommending Request for Additional Appropriation of \$15,000 for Completion of Contract for Construction of Inspection Shed Enclosure at Livonia Avenue Yard—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

A report by the Chief Engineer dated January 22, 1923, recommending that a requisition be made on the Board of Estimate and Apportionment for an additional appropriation of \$15,000 to complete work under the contract with Rosenthal Engineering Contracting Corporation for the construction of an enclosure to the inspection shed at the Livonia Avenue Yard, was presented.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission has by communication dated January 22, 1923, reported with respect to the appropriation made for the purpose of carrying out the Contract between The City of New York, acting by this Commission and Rosenthal Engineering Contracting Corporation, for the construction of Inspection Shed Enclosure for the Eastern Parkway Rapid Transit Railroad, Route No. 31 (Livonia Avenue Yard) and as to the necessity of an additional appropriation therefor of \$15,000 as more particularly indicated in said communication and report; and

Whereas, Counsel has prepared a communication and requisition to the Board of Estimate and Apportionment which if adopted will effect the said recommendation of the Chief Engineer.

Resolved, That the said report and recommendation and communication now submitted be and the same hereby are approved and that the said communication be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

January 30, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT,
Municipal Building,
New York, N. Y.

Gentlemen:

Your Honorable Board by Resolution adopted on February 3, 1922 (Cal. No. 72), consented to a proposed contract between The City of New York, acting by the Transit Commission and Rosenthal Engineering Contracting Company for the construction of Inspection Shed Enclosure for the Eastern Parkway Rapid Transit Railroad, Route No. 31, (Livonia Avenue Yard) and appropriated for the purposes of meeting the City's obligations under said contract the sum of \$180,003.16, making said appropriation a charge against the general appropriation heretofore made by your Honorable Board for the purpose of carrying out the Contract dated March 19, 1913, known as Contract No. 3.

The Chief Engineer of this Commission in a communication dated January 22, 1923,

has reported with respect to the work under said contract and the appropriation so made as follows:

"In the construction of the Inspection Shed Enclosure, Livonia Avenue Yard, it has been found necessary to perform certain additional construction and to make certain changes in design that has increased the amount of work above that indicated in the Contractor's proposal. We have prepared an approximate final estimate of the work performed or to be completed under the contract, from which it appears that, due to the additional work and changes in design and to a slight net increase in the value of the work under the schedule items of the contract an additional appropriation will be necessary.

The increase as shown by the approximate final estimate is as follows:

Summary of Approximate Final Estimate:	
Work under Schedule Items	\$187,500.00
Work under Item 150 and Supplementary Items.....	3,600.00
Total	\$191,100.00
Appropriation	180,003.16
Increase of Approximate Estimate over Appropriation.....	11,096.84

When the additional construction and changes in design above referred to were authorized, it was considered that the increase in cost resulting therefrom would be covered by decreases in the quantities of work given in the Contractor's proposal and therefore, no additional appropriation was requested at the time. It appears, however, that there will be a slight net increase in the value of the work covered by the schedule items.

The additional work for which no appropriation has been made consists of (1) the floor construction originally included in the track installation contract which it was necessary to perform under this contract due to the fact that the approval of the track installation contract was delayed, thus preventing the prosecution of the work under the two contracts in the intended sequence, (2), the substitution of 8" brick walls for 4" hollow terra cotta tile walls and, (3), work performed under Item 150 and supplementary schedule items.

As the above estimate is approximate and subject to change and as the work is not yet completed and some of the questions as to payment have not been finally determined, it would seem advisable to request a sum somewhat greater than is indicated.

Recommendation: I would, therefore, recommend that a request be made of the Board of Estimate & Apportionment for an additional appropriation in the amount of \$15,000 to cover the cost of construction under the above contract."

The Transit Commission has approved said report and recommendation and accordingly hereby requests your Honorable Board to appropriate the additional sum of \$15,000 for the purposes of said work, approved as aforesaid and that said additional sum of \$15,000 be charged as sub-requisition against the appropriations heretofore made for the purpose of carrying out said Contract No 3.

TRANSIT COMMISSION,
GEORGE McANENY,
Chairman.

116—R. T. 7476

Agreement "BH"—Report by Chief Engineer Recommending Request Be Made for Additional Appropriation of \$1,979.50 under Contract for Miscellaneous Construction and Station Finish—Approval Resolution—Communication to Board of Estimate and Apportionment

A report by the Chief Engineer, dated January 26, 1923, recommending that a requisition be made upon the Board of Estimate and Apportionment for an additional appropriation of \$1,979.50 required for the completion of work under the contract with George Colon & Company for miscellaneous construction and station finish, was presented.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment of the City of New York, by resolution adopted on May 19, 1922, consented to the proposed contract between The City of New York, acting by the Transit Commission, and George Colon & Company for the construction of miscellaneous construction and station finish work in municipal rapid transit railroads (Agreement "BH"), Groups I, II and III, and appropriated for the purposes of meeting the City's obligations under said proposed contract the sum of \$12,532.50, charging the sum of \$5,721 thereof as a subauthorization under the general appropriations for Contract No. 3 and charging \$6,811.50 thereof as a subauthorization under the general appropriations for Contract No. 4; and

Whereas, The Chief Engineer of this Commission, by communication dated January 26, 1923, has reported with respect to the work under said contract and as to the necessity for the appropriation of the additional sum of \$1,979.50 with which to meet the final payment under said contract, and has recommended the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of said additional sum; and

Whereas, Counsel has prepared and submitted a proposed requisition upon the Board of Estimate and Apportionment which, if adopted, will effect said recommendation of the Chief Engineer,

Resolved, That the said report, recommendation and requisition be and they hereby are approved and the latter be signed by the Chairman and transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, authorized by the above resolution, was as follows:

January 30, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board, by resolution adopted on May 19, 1922, consented to the proposed contract between The City of New York, acting by the Transit Commission, and George Colon & Company, for the construction of miscellaneous construction and station finish work in municipal rapid transit railroads (Agreement "BH"), Groups I, II and III, and appropriated for the purposes of meeting the City's obligations under said contract the sum of Twelve thousand five hundred thirty-two dollars and fifty cents (\$12,532.50), said sum, to the extent of Five thousand seven hundred twenty-one dollars (\$5,721), being charged as a subauthorization against the appropriations theretofore made by your Honorable Board for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 3, and to the extent of Six thousand eight hundred eleven dollars and fifty cents (\$6,811.50), being charged as a subauthorization against the appropriations theretofore made by your Honorable Board for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 4.

The Chief Engineer of this Commission, in a communication dated January 26, 1923, has reported with respect to the work under said contract and to the requirements for additional moneys therefor as follows:

"In computing an approximate final estimate of the work done under the Contract of Geo. Colon & Co. for certain miscellaneous construction and station finish work located in the Boroughs of Manhattan and Brooklyn, Agreement "BH," Groups I, II and III, it has been found that the appropriation provided for this work, namely \$12,532.50, is insufficient. This appropriation will be exceeded by \$1,979.50 due to the necessity of performing certain unforeseen construction which was encountered during the progress of the work.

The following is a statement of the appropriation and estimated expenditures on this agreement:

Cost of work under Regular Unit Items.....	\$13,912 00
Cost of work under Item 150.....	600 00

Total	\$14,512 00
Amount Appropriated	12,532 50

Additional Appropriation Required	\$1,979 50

and below are given the supporting details:

Increase in Cost of Work Performed Under the Unit Items of the Contract Due to Underestimation and Necessary Changes in Plan.

<i>Group I—Borough Hall Station—Route 33, Section 3.</i>	
*Item 6 Concrete Masonry.....	\$50 00
*Item 9-D Removal of concrete.....	460 00
**Item 19-MM (b) Drilling holes.....	80 50
*Item 501-B (a) White glazed tile.....	125 00
*Item 521-B Plastering	300 00
*Item 523 (c) 3" floor finish.....	69 00
*Item 528 (a) 2" hollow tile.....	24 00
**Item 528 (b) 3" hollow tile.....	84 00
**Item 532-A (d) Kalamein doors "A".....	100 00
*Item 554 (a) ¾" conduits.....	4 00
*Item 554 (c) 1½" conduits.....	24 00
*Item 554 (d) 2" conduits.....	40 00
*Item 561 (a) Painting.....	40 00

\$1,400 50

Group II—South Street Shaft—Route 33, Section 2.

*Item 6 Concrete masonry.....	270 00
**Item 523 (d) Cement finish.....	57 00

327 00

\$1,727 50

In addition to the foregoing there were certain changes and omissions which caused a saving in the contract as follows:

Item 513 Mosaic	60 00
Item 527 Brick	187 00
Item 528 (c) 4" hollow tile.....	22 00
Item 532-E Removal and resetting of door.....	30 00
Item 556 (f) 6"x6"x4" box.....	5 00
Item 15 (c) Waterproofing.....	6 00
Item 19-MM (c) Reframing beam ends.....	48 00

348 00

\$1,379 50

Cost of Work Performed Under Item 150

Although there is provision for payment under Item 150 for extra work performed in this contract, no appropriation was made to cover payment for such work.

Group I—Borough Hall Station.

Item 3 Removal of existing wires, placing temporary wires and replacing wires in conduits.....	\$200 00
Item 4 For furnishing and installing strap anchors for hollow tile walls.....	40 00
Item 6 For furnishing and placing mosaic plaques.....	75 00
Item 2 Patching grating and changing conduits in South sub-passageway, Atlantic Ave. Sta.....	80 00

\$395 00

Group II—South Street Shaft.

Item 1 Hacking concrete wall below elevation 109.3.....	55 00
---	-------

Group III—Essex Street Station.

Item 5 For reconstruction of leaders.....	150 00
---	--------

\$600 00

Total\$1,979 50

* Increase due to underestimation.
 ** Increase due to change in plan.

The following is a brief description of Items 1 to 6 inclusive:

1—The concrete shaft as built by the original contractor projected about 4 ft. above the street surface and no provision was made in the contract for treating the surface to give it a finished appearance. The surface of this concrete was left in a very rough and irregular condition and appeared unsightly in comparison with the super-structure constructed under this contract. It was advisable therefore to hack the old concrete and apply a cement finish. Payment for the cement finish was classified under the schedule items and payment for the hacking of the concrete under Item 150.

2—The contract drawings called for a 3x3 sump to be cut in the floor of the passageway close to the south wall. This sump was laid out as indicated on the plan and the floor concrete had been cut by the contractor, when it was found that in the location as shown the placing of the sump would interfere with grillage beams in the wall at this point. It was therefore necessary to move the sump 1' from the wall in order to clear the concrete encasing this grillage. This involved additional cutting and in addition thereto the grating which was to be placed as a cover for the sump had already been fabricated with a hole left adjacent to the wall for the entrance of two pipes to be installed by the Operating Company for operation of equipment in the sump. It was necessary to patch the grating in order to cover the hole which being away from the wall was in the line of traffic.

It was also found that two electric conduits crossed this sump as located and it was necessary to have the conduits changed so as to carry around the sump.

3—The work at Borough Hall station includes changes in existing conduits from the overhang of the upper train platform to the platform wall and crossed the escalator space. These conduits had to be lowered where they crossed the escalator space in order to provide the necessary clearance for the escalator. Some of these conduits contained lighting and telephone wires and it was necessary to provide temporary wires while the changes were made in the conduits and then install wires in the new location.

4—The contract called for the construction of a hollow tile facing wall about 18 feet high. It was necessary to attach this wall to an adjacent back wall. Although anchors were called for under the contract, there was no provision for payment for same.

5—The contractor was required to reconstruct the canopy leaders at the Essex Street station by providing certain offset fittings at the foot of the leaders and install a system of drains at this location. After the contractor cut away a section of the vault lights and prepared to set the drains as shown on drawing 8, file 1112, it was discovered that the canopy post bases below the top of the vault lights projected beyond the posts and therefore the special offset fittings could not be placed as indicated on the drawing. To overcome this condition it was necessary to locate the canopy leaders further out from the posts than called for on the contract drawings in order to clear the projecting bases and to provide offsets in the section of 4" copper leaders above the ornamental boxes at the top of the leaders.

6—In connection with the altering and reconstructing of portions of the structure at the Borough Hall Station in order to provide for the accommodation of escalators it was necessary for the station finish contractor to repair the existing tile and mosaic work on some of the adjacent walls. Under the contract there was a unit price for restoration of white glazed tile and also for mosaic work. There was, however, no item for replacement of mosaic plaques.

Below is a summary giving the description of the additional cost of the work under Contract 3 and Contract 4.

Description	Cont. 3	Cont. 4	Total
I. Items underestimated and increased.....	\$1,400 50	\$327 00	\$1,727 50
III. Work under Item 150.....	395 00	205 00	600 00
Total increase	\$1,795 50	\$532 00	\$2,327 50
II. Items overestimated and omitted.....	—348 00	—348 00
Total additional appropriation.....	\$1,447 50	\$532 00	\$1,979 50

Recommendation: In view of the foregoing facts, I would recommend that an additional appropriation of \$1,447.50 on Contract 3 and of \$532.00 on Contract 4 be secured from the Board of Estimate and Apportionment to meet the expense incurred in the prosecution of this agreement."

The Transit Commission has approved said report and recommendation and accordingly hereby makes requisition upon your Honorable Board for the appropriation of the additional sum of One thousand, nine hundred and seventy-nine dollars and fifty cents (\$1,979.50) for the purposes of said contract, said sum, to the extent of One thousand, four hundred and forty-seven dollars and fifty cents (\$1,447.50), to be a subrequisition under the authorizations heretofore made by your Honorable Board for the purposes of said Contract No. 3 and to the extent of Five hundred and thirty-two dollars (\$532) to be a subrequisition under the authorizations heretofore made by your Honorable Board for the purposes of said Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

117—R. T. 6891

Route No. 8; Section No. 1—Certificate by Chief Engineer of Completion of Contract (Except Maintenance of Street Surface Restored)—Report by Chief Engineer Recommending that Contractor Be Required to Deposit Certified Check in Sum of \$2,500 As Security for Repairs to Leaks at Sixth Avenue Station—Resolution Accepting Work and Directing That Certificate Be Filed with Comptroller

The following certificate was approved:

January 25, 1923.

To TRANSIT COMMISSION:

Certificate of Completion: Route 8, Section 1

In connection with the contract dated August 9, 1916, between the City of New York and Booth & Flinn, Ltd., for the construction of Route 8, Section 1, I hereby certify that all work necessary to put the railroad in condition for operation was completed on December 31, 1921, and all other work agreed upon to be done under the contract (except the maintenance of street surface restored) was completed on August 31, 1922. The total cost of all work done under the contract (except the maintenance of street surface restored) was \$2,101,330.45, paid as follows:

By the City of New York	\$2,069,625.17
By the President of the Borough of Manhattan for the widening of the roadway on the south side of 14th Street between University Place and 4th Avenue.....	25,800.00
By James A. Hearn & Son for the cost of additional work done in connection with the construction of the Sixth Avenue Station in order to make provision for an approach through the store of James A. Hearn & Son..	5,905.28
Total	\$2,101,330.45

In accordance with the provisions of the contract, the work necessary to put the railroad in condition for immediate, full and continuous operation should have been completed on June 10, 1918, and all other work covered by the contract (except the maintenance of street surface restored) should have been completed on October 10, 1918. The time of completion of the railroad ready for operation was extended to December 31, 1921, and the time of completion of all other work (except the maintenance of street surface restored) was extended to August 31, 1922, by resolution of the Transit Commission adopted on November 22, 1922. As the work was completed within the contract times as extended, there are no liquidated damages to be assessed.

Recommended, That the work (except the maintenance of street surface restored) be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

A report by the Chief Engineer dated January 25, 1923, recommending that the contractor be required to deposit a certified check in the sum of \$2,500 as security for repairs to certain leaks which have developed in the structure at the Sixth Avenue Station, was also approved and the following resolution was adopted:

Whereas, The contract dated August 9, 1916, between The City of New York, acting by the Public Service Commission for the First District and Booth and Flinn, Ltd., for the construction of that part of the 14th Street-Eastern Rapid Transit Railroad, known as Section No. 1 of Route No. 8, required the completion of all work thereunder to put the Railroad in condition for immediate, full and continuous operation should have been completed on June 10, 1918, and all other work covered by the said contract (except the maintenance of street surface restored) should have been completed on or before October 10, 1918, which respective times were extended to December 31, 1921, and August 31, 1922, by resolution of the Transit Commission adopted on November 22, 1922; and

Whereas, The Chief Engineer of this Commission, by communication dated January 25, 1923, has reported that all the work under said contract necessary to put the Railroad in condition for operation was completed on or before December 31, 1921, and all other work covered by said contract (except the maintenance of street surface restored) was completed on or before August 31, 1922; that the total cost of all work done under said contract (except the maintenance of street surface restored) was \$2,101,330.45, made up as follows:

By the City of New York.....	\$2,069,625.17
By the President of the Borough of Manhattan for the widening of the roadway on the south side of 14th Street, between University Place and 4th Avenue	25,800.00
By James A. Hearn & Son for the cost of additional work done in connection with the construction of the Sixth Avenue Station in order to make provision for an approach through the store of James A. Hearn & Son..	5,905.28
Total	\$2,101,330.45

and recommends that the work so performed (except the maintenance of street surface restored) be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York; and

Whereas, In accordance with the provisions of Section No. 425 of the Specifications of said contract the said contractor is obligated to maintain street surface restored under said contract for a period of one year from and after the date of the filing in the office of the Comptroller of The City of New York the certificate of completion and acceptance under said contract except said maintenance of street surface and the City is authorized to deduct and retain from the final payment the sum of \$20,000 until said period of maintenance of said street surface has expired; and

Whereas, The Chief Engineer, by communication dated January 25, 1923, has recommended that as a condition precedent to certifying the final voucher the said contractor be required to deposit with this Commission a certified check payable to the City of New York in the sum of \$2,500 as security to the City until such time as the said Contractor has made the necessary repairs to certain leaks which have developed in the structure at the Sixth Avenue Station or until such time as it has been determined that said contractor is not responsible for the repair of said leaks.

Resolved, That the said report and recommendation be and the same hereby are approved; that the work so performed (except the maintenance of street surface restored) be and the same hereby is accepted and that a certificate of such final completion and acceptance (except the maintenance of street surface restored) be prepared and transmitted to the Comptroller of the City of New York, provided, however, that as a condition precedent to the transmission of said certificate of completion and acceptance the said Contractor, Booth & Flinn, Ltd., shall deposit with this Commission its certified check in the sum of \$2,500 as security in accordance with the said recommendation of the Chief Engineer in his communication of January 25, 1923, as aforesaid.

118—R. T. 7460

Agreement "AU"—Certificate by Chief Engineer of Completion of Contract for Miscellaneous Construction and Station Finish, Group III—Resolution Accepting Work and Directing Certificate Be Filed with Comptroller

The following certificate was approved:

January 26, 1923.

To: TRANSIT COMMISSION

Certificate of Completion: Miscellaneous Construction and Station Finish Work—Agreement "AU"—Group III

In connection with the contract dated June 5, 1922 between the City of New York and Gustin-Morris Contracting Corporation for miscellaneous construction and station finish work, Agreement "AU", Group III, I hereby certify that all work was completed on December 22, 1922. The total cost of the work was \$4,215.68.

In accordance with the provisions of the contract all work should have been completed on October 8, 1922. The time for completion, however, was extended to December 22, 1922 by resolution of the Transit Commission adopted on January 23, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated June 5, 1922 between The City of New York, acting by the Transit Commission and Gustin-Morris Contracting Corporation for Miscellaneous Construction and Station Finish (Agreement "AU") Group III required the completion of all work thereunder on or before October 8, 1922 which time was extended to and including December 22, 1922 by resolution of the Transit Commission adopted on January 23, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated January 26, 1923 reports that all the work under said contract was in all respects completed on or before December 22, 1922 and that the total amount due therefor was \$4,215.68 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

Resolved, That the said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

119—R. T. 7601

Route No. 52, Section No. 1—Communication from Phoenix Bridge Company Withdrawing Bid Submitted for Furnishing and Erecting Steel and Requesting Return of Certified Check—Resolution Authorizing Return of Check

An application dated January 29, 1923, from the Phoenix Bridge Company withdrawing its bid submitted on December 14, 1922 for furnishing and erecting structural steel for Section No. 1 of Route No. 52 and requesting the return of the certified check deposited with its bid, was presented.

The following resolution was adopted:

Whereas, Pursuant to resolution adopted on December 19, 1922, this Commission, pursuant to advertisement duly had awarded the proposed contract for furnishing and erecting structural steel for part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, to the low bidder, the Phoenix Bridge Company, and transmitted said proposed contract, together with a requisition for the appropriation of the money

estimated to be necessary to meet the obligations of the City thereunder, to the Board of Estimate and Apportionment; and

Whereas, The Board of Estimate and Apportionment by resolution adopted on January 5, 1923, denied said application of the Commission for the consent to said proposed contract and the appropriation of the sum so requisitioned and referred the matter back to this Commission; and

Whereas, By communication dated January 29, 1923, the Phoenix Bridge Company, by J. H. Roland, Resident Manager, has notified this Commission of the withdrawal of its bid and has requested the return today of a certified check deposited with said bid,

Resolved, That the said application be and the same hereby is granted and that the Secretary of this Commission be and hereby is authorized and directed to return to the said Phoenix Bridge Company the certified check deposited with its bid for the performance of the work of supplying and erecting structural steel for said Section No. 1 of Route No. 52 and to take proper receipt therefor.

120—R. T. 2008, 7007

Contract No. 1—Applications by Interborough Rapid Transit Company and Rapid Transit Subway Construction Company for Certification of Voucher in Sum of \$275,139, as Third Installment of Payment of Arbitration Award to Be Applied to Installation of Multiple Unit Car Door Control Device—Reports by Assistant Chief Accountant and Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

A joint application by the Interborough Rapid Transit Company and the Rapid Transit Subway Construction Company dated May 25, 1922, and a modified application dated January 17, 1923, for the certification of a voucher in the sum of \$270,139 as a third installment of the payment of the arbitration award made under Contract No. 1, to be applied to the installation of multiple unit car door control device on 982 subway cars, was presented.

A report by the Assistant Chief Accountant dated January 25, 1923, classifying the payment and a report by the Engineer of Equipment and Operation and the Chief Engineer dated January 27, 1923, recommending that the applications be approved, were also presented.

The following resolution was adopted:

Whereas, The predecessor of this Commission, the Transit Construction Commissioner, by order adopted on April 23, 1920, approved the application of Interborough Rapid Transit Company as set forth in its communication dated February 13, 1920, for the purchase and installation of a multiple unit car door control device, as Additional Equipment under and in accordance with the provisions of Contract No. 3, upon his finding that such device would promote the security, safety, and adequacy of subway rapid transit railroad operation to the traveling public; and

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911, modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911, and by orders adopted co-incidentally therewith modified the order of April 23, 1920, aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922, for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, The Interborough Rapid Transit Company and Rapid Transit Subway Construction Company by joint communication dated May 25, 1922, as modified by joint communication dated January 17, 1923, have made application and requisition to the Transit Commission for the preparation and certification of a voucher in the sum of \$270,139 as the third installment of the payment of said arbitration award as set forth in the agreement of December 30, 1911, aforesaid to be used in completing the installation of such multiple unit car door device upon the said 982 cars in accordance with the approval and authorizations granted by the Transit Construction Commissioner; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated January 27, 1923, reported that the said sum is fairly chargeable to the cost of such installation and recommends that said application and requisition be approved; and

Whereas, The Assisant Chief Accountant of this Commission has by communication dated January 25, 1923, reported with respect to said application and requisition as follows:

"The amount of the Saratoga Award is.....	\$2,260,534.58
of which there has been requisitioned and paid by the City Comptroller to the Interborough Company to date.....	\$1,954,318
The present requisition is for.....	270,139
Making a total requisition of.....	<u>2,224,457.00</u>
leaving a balance of the Saratoga Award after the payment of this present requisition.....	\$ 36,077.58

Of the *total estimated expense* in connection with the multiple unit car door device, \$2,577,153, there is to be provided in total as above stated, \$2,224,457, leaving, as per our tentative understanding above referred to, \$352,696, to be charged against the Depreciation Reserve."

Resolved, That said reports and recommendations be and the same hereby are approved; that upon all the prior proceedings with respect to the utilization of the arbitration award in accordance with the provisions of the agreement dated December 30, 1911, modifying said Contract No. 1 as aforesaid and in accordance therewith the Transit Commission does hereby approve the application and requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922, as modified and supplemented by communication dated January 17, 1923, for the payment of \$270,139 to be used for the purposes of completing the installation of such multiple car door control device upon the said 982 cars, as a third installment of the net amount of said arbitration award.

121—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Material for Equipping One Hundred New Steel Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application dated January 10, 1923, from the Interborough Rapid Transit Company requesting approval of a proposed Purchasing Agent's Order to be issued to M. O'Neil Supply Company for material for equipping one hundred new steel subway cars at a cost of \$3,965.43 was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 29, 1923, recommending that application be approved, was also presented.

The following resolution was adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 10, 1923, directed to M. O'Neil Supply Company for the manufacture and delivery of the following:

Contract No. 4—Application from New York Consolidated Railroad Company for Approval of Price for Car Brake Shoes for First Quarter of Year, 1923—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application dated January 2, 1923, from the New York Consolidated Railroad Company by W. S. Menden, General Manager for Lindley M. Garrison, Receiver, requesting approval of the price of \$63 per net ton for furnishing brake shoes for the first quarter of 1923 under the contract with the American Brake Shoe & Foundry Company, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 11, 1923, recommending that the application be approved, was also presented.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted on November 9, 1921, as amended by resolution adopted on November 22, 1921, pursuant to the provisions of the

contract dated March 19, 1913, between the City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation consented to a proposed contract to be entered into between the Receiver of New York Consolidated Railroad Company (assignee of New York Municipal Railway Corporation of the maintenance and operating provisions of said Contract No. 4) with American Brake Shoe and Foundry Company for the purchase of car brake shoes in connection with the operation of the Railroad and Existing Railroads under said Contract No. 4 "the price of said shoes varying", provision being made in said proposed contract for revising the prices on the first day of January, April, July and October, the revised price to prevail for the succeeding three months, which resolution further provides that each new price fixed in accordance with the provisions of said proposed contract shall be submitted to this Commission for approval; and

Whereas, By communication dated January 2, 1923, the Receiver of New York Consolidated Railroad Company has requested the approval of this Commission to a price of \$63.00 per net ton, F. O. B. Mahwah, N. J., to be paid in the first quarter of the year of 1923; and

Whereas, By communication dated January 11, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the said price of \$63.00 per ton for the first quarter of the year 1923 is reasonable in view of present material and labor costs and recommend that the said request be approved,

Resolved, That the fixation of the price of \$63.00 per net ton, F. O. B., Mahwah, N. J., as of January 1, 1923, for the supply of car brake shoes under said contract with American Brake Shoe and Foundry Company approved as aforesaid, to prevail during the first quarter of the year 1923 be and the same hereby is approved.

Routes Nos. 19 & 22, Section No. 2—Copy of Letter to Comptroller of City of New York Requesting Change in Code from Which Payment Should Be Made for Purchase of Property from John S. Mapes, Lambert G. Mapes and Mary A. Howell for Part of Site of Westchester Yard—Approval Resolution

The following resolution was adopted:

Whereas, The Secretary of this Commission, by communication dated January 24, 1923, advised the Comptroller of the City of New York as follows:

"Under date of December 31, 1922, the Transit Commission transmitted to your office for the preparation of the necessary warrant and payment Misc. Voucher No. 594, dated December 19, 1922, in favor of John S. Mapes, Lambert G. Mapes and Mary A. Howell, for the acquisition of a yard site for the Westchester Avenue Elevated Line, north of Westchester Avenue and east of Blondell Avenue in the Borough of The Bronx, said voucher being in the sum of \$30,877.61 and charged to Code Real Estate and Interest Therein—Contract No. 3, CCM-301.

It has been indicated that it would be better, from the City's standpoint, to charge this voucher to Suspense Account—Real Estate Sales and Rentals of the Transit Commission, Code S-109-C.

The Transit Commission has considered this matter and finds no objection to the change in the charge of this voucher as suggested. The Transit Commission therefore requests that said voucher be charged to and paid from Suspense Account—Real Estate Sales and Rentals of the Transit Commission, Code S-109-C, instead of the code designated upon the face of said voucher."

Resolved, That such action on the part of the Secretary of this Commission be and hereby is in all respects confirmed and approved.

Further Resolved, That the Auditor of this Commission be and hereby is authorized and directed to make the necessary change upon said voucher to accord with the foregoing approval.

Contract No. 3—Resolution Directing Auditor to Prepare Vouchers for Payment of Sums for Acquisition of Real Estate as a Charge to Suspense Account Until Fund Is Exhausted—Adopted

The following resolution was adopted:

Whereas, There is now existent two codes applicable to the acquisition of real estate or interest therein to meet the obligations of the City in accordance with the provisions of the contract dated March 19, 1913, known as Contract No. 3, the first being "Suspense Account—Real Estate Sales and Rentals of the Transit Commission, Code S-109-C" and the second being "Code Real Estate and Interest Therein—Contract No. 3, CCM-301"; and

Whereas, The utilization of the latter code necessitates the issuance of corporate stock of the City of New York and the Department of Finance has indicated its objection to the necessity for issuing such corporate stock in view of the fact that the use of the first mentioned code will obviate such necessity; and

Whereas, The Transit Commission concurs in such reason,

Resolved, That this Commission hereby directs the Auditor of this Commission that in the preparation of vouchers for the payment of sums for the acquisition of real estate under Contract No. 3 the said Code S-109-C shall be used until completely expended prior to making any further charge against Code CCM-301, unless otherwise permitted or directed by this Commission.

127—R. T. 6449

Contracts Nos. 1 and 2—Communication from Department of Finance Requesting Statement of Rental Due City from Interborough Rapid Transit Company for Quarter Ended December 31, 1922—Reply Approved

A communication dated January 15, 1923, from the Department of Finance by A. J. Philbin, Deputy Comptroller, requesting a statement of rental due the City from the Interborough Rapid Transit Company for the quarterly period ended December 31, 1922, under the contracts for the Manhattan-Bronx and Brooklyn-Manhattan Rapid Transit Railroads, was presented.

The following reply was approved:

January 29, 1923.

*Rentals under Contracts No. 1 and No. 2 for Quarterly Period
Ended December 31, 1922.*

Hon. CHARLES L. CRAIG, Comptroller,
Department of Finance,
Municipal Building,
New York City.

Dear Sir:

Receipt is acknowledged of a communication dated January 15, 1923, from Mr. A. J. Philbin, Deputy Comptroller, (reference "Accountancy") transmitting "Copies of statements and letter sent to the Interborough Rapid Transit Company with respect to the amount of rental payable by said Lessee Company for the quarterly period ended December 31, 1922, under the provisions of the contracts for operation of the Manhattan-Bronx and the Brooklyn-Manhattan Rapid Transit Railroads (Contracts Nos. 1 and 2)", and requesting that your Department be furnished with the usual statements for said quarterly period, containing the information classified and arranged as in the quarterly statements heretofore prepared.

The statements are reported by our Bureau of Accounting and Valuations to be correct except in the particular to which the attention of your office has been directed in previous communications on this subject. In the tabulation given below comparison is made between the rental as computed by your Department and as adjusted to con-

form with the records of the Transit Commission. The comparison shows your rental figures for Contract No. 1 to be excessive in the amount of \$275.92.

If you desire, I shall be pleased to designate a representative of the Transit Commission to confer with your Department, with a view to bringing this matter to a conclusion.

Yours very truly,
 JAMES B. WALKER,
 Secretary.

132—R. T. 6114

Contract No. 1—Opinion by Commissioner O’Ryan Recommending Disapproval of Construction of Proposed Passageway at 168th Street Station—Approved

The following opinion was approved:

January 25, 1923.

FROM COMMISSIONER O’RYAN
 TO THE TRANSIT COMMISSION:

Recommendation relative to proposal that an additional entrance to pass under St. Nicholas Avenue be provided for station at 168th Street and Broadway, Manhattan.

The papers in this case show that an effort has been made by persons interested, to secure the approval of the Transit Commission for the construction of an addi-

tional entrance to the subway station at Broadway and 168th Street, such entrance to extend from the sidewalk on the easterly side of St. Nicholas Avenue, crossing under St. Nicholas Avenue, to the island park directly across St. Nicholas Avenue, where the proposed tunnel would connect with the existing subway entrance in the park.

The report of the Chief Engineer shows that other requests of similar character, involving the tunnel construction of underground approaches for the purpose of enabling passengers to avoid street surface traffic, have been made and have consistently been denied. In this case, the Chief Engineer doubts whether the construction of the additional entrance is warranted by the amount of street traffic on St. Nicholas Avenue, especially if comparison is made with other places where the traffic is much heavier and where similar passageways have not been constructed. He recommends that rapid transit funds be not used for the construction of such an entrance at this time, but adds that if the Borough President believes it desirable to construct such underground way at the expense of the City, there would seem to be no objection to such action.

There are being constructed at the present time additional entrances to this station, which are located on the westerly side of Broadway. Due to the depth of the subway at this point, elevators are in use to carry passengers between the entrance near the street surface and the station level, and the new construction, now under way, will provide additional elevator facilities. This new construction, being on the westerly side of Broadway, includes as part of the work a passageway under Broadway to connect with the station on the easterly side of Broadway under the island park. The present new construction is primarily for the purpose of providing additional facilities for carrying passengers between the street surface and the stations. The proposed project would not add to these facilities, for the underground passageway proposed to be built under St. Nicholas Avenue would connect with the existing entrance in the island park and would not provide an additional approach to the station itself. The cost of the proposed underground way is estimated at \$25,000. Traffic counts, made by the Transit Bureau, during rush hours at this station, show that 7350 passengers arrive and depart at this station daily during the rush hours via St. Nicholas Avenue; that about 3500 passengers depart by way of Broadway. The accompanying map indicates the numbers of subway passengers and the direction of their movements to and from the station, in accordance with the above count.

It must be evident that the construction of the proposed tunnel would provide a new feature appealing to a substantial percentage of the considerable number of persons who daily use the island entrance to the 168th Street Station. Traffic on St. Nicholas Avenue would doubtless cause numbers of people, if they had the choice offered by the installation of this proposed underground way, to use it instead of crossing on the street surface above. In rainy weather, numbers of people would shorten the distance they would otherwise have to walk in the rain by getting below the street surface on the easterly side of St. Nicholas Avenue and continuing to the station through the tunnel.

But the fact is that considerations of this character, were they to determine the action of the Commission in all cases presented to it for consideration and which have equal or greater merit, would involve the expenditure of moneys out of all proportion to the benefits to be derived. The present work of constructing the additional entrance facilities now going on on the westerly side of Broadway at this station, will cost over \$370,000. It is being performed as extra work under the provisions of Contract No. 1. The City of New York pays the cost of this work, and that cost is to be capitalized as a part of the cost of the construction of the road under Contract No. 1, and upon this the company will pay interest and sinking fund as a deduction from the revenue under the combined operation provided for in Contract No. 3.

The Chief Engineer reports that if it is proposed to construct the passageway under the existing contracts, it will necessarily require the consideration of the Interborough Rapid Transit Company as assignee of Contract No. 1, and that the refusal of the company to agree would be legally effective to preclude its consideration in that connection. Informally, counsel for the Commission indicates that if a necessity exists for the proposed passageway (aside from mere convenience of crossing St. Nicholas Avenue under its surface), the matter might be considered by the Commission under the provisions of Contract No. 3 in relation to the making of additions in construction, as to which the Commission has plenary power. Should the Commission lawfully exercise such power, the cost of the project would be borne one-half by the City and one-half by the Company.

It does not seem to me that the Commission would be justified in providing for the construction of this proposed passageway under either one of the methods indicated. I do not believe it can fairly be said that the proposed passageway is a necessity. Indeed, many persons who approach the island entrance from territory lying east of St. Nicholas Avenue undoubtedly do and would continue to cross St. Nicholas Avenue at other points than in the block between 167th and 168th Streets, so that even as a convenience there is some ground for speculation as to the number of people who would prefer to use the passageway.

Another objection to the approval of this project is the fact that existing plans for new routes provide for the construction of a subway up St. Nicholas Avenue. It would seem to be only a question of time when a subway will be constructed under St. Nicholas Avenue, and the construction of this proposed underground passageway might constitute an obstruction necessitating removal or reconstruction to meet the requirements of the new subway as they would exist at the time its final plans were approved.

This proposal is in line with many others that often characterize municipal enterprises, and the relations between local public bodies and public utility companies. A relatively small percentage of the population will seek the advantage of some convenience to them, provided the project does not carry with it obligations of expense to be borne by them. Such a group will often urge an undertaking by the City or by one of the transit companies which none of such persons, individually, would attempt to justify as a reasonable proposal based upon correct principles, if all the parties concerned were business firms prepared to act in accordance with such principles. The idea often prevails that if the public utility company can be made to bear the burden in the first instance, the matter of expense is disposed of satisfactorily and with justice. If, on the other hand, the expense is to be imposed upon the treasury of the City, the violation of correct business principles involved is lost sight of in the knowledge that while the benefit is to be enjoyed by a few, the expense is to be shared by all. It does not seem always to be understood that justification for the approval of one project of this character would, in like manner, and in accordance with the dictates of consistency, justify many others in other places in the City and for the benefit and convenience of other small groups, the result being the creation of a great debt, contrary to correct business principles and which in the end the people would have to pay.

The frequency with which these proposals are made and the persistency with which some of them are urged would seem to indicate forcibly the vital importance of maintaining the legal disinterestedness of the public commission which is to determine their merit. This Commission, which finds the direct source of its authority in the sovereign power of the State, can and must act in the ultimate interest of the people of the City as a whole. It does not suffer the embarrassments which would inevitably attach themselves to its work were it to be the creature of one of the parties interested in the local transit affairs of the City.

The proposed project is not a necessity. Its approval would not be justified at this time without giving approval to other similar projects, some of which have greater merit. Accordingly, I recommend its disapproval.

JOHN F. O'RYAN,
Commissioner.

The Secretary was authorized to transmit a copy of the above mentioned communication to the Board of Estimate and Apportionment.

133—R. T. 7369

Route No. 8—Report by Engineer of Equipment and Operation and Chief Engineer Recommending That Steps Be Taken to Clear Up Uncertainty as to Obligations of Lessee to Operate Subway Portion of Fourteenth Street—Eastern Line—Approved

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 25, 1923, recommending that immediate steps be taken to clear up the present uncertainty as to the rights and obligations of the lessee to operate the com-

pleted portion of the Fourteenth Street-Eastern Line and to reach an agreement so that operation will not be delayed on account of the failure to provide the required equipment, was approved.

134—R. T. 7005

Route No. 8—Report by Engineer of Equipment and Operation and Chief Engineer Recommending That Commission Reaffirm Action of May 26, 1921, and Direct Receiver of New York Municipal Railway Corporation to Make Provision for Supply of Power—Approved

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 19, 1923, recommending that the Commission reaffirm its action of May 26, 1921, and direct the Receiver of New York Municipal Railway Corporation to provide without further delay a substation adjacent to the subway portion of the 14th St.-Eastern Line in Brooklyn for the operation of that line to its initial terminus on Meserole St., and that the Receiver be specifically directed to submit a site for the substation for the approval of the Commission by March 1, 1923, and to submit plans, specifications, forms of contract for the building and the machinery in ample time to permit the completion of the substation in November 1923 when it is believed the road can be made ready for operation, was approved.

135—R. T. 7267

Routes Nos. 35 & 67—Motion Directing Chief Engineer to Modify Plans So As to Provide for Crossovers to Permit Temporary Operation of Queensboro Subway Extension to Fifth Avenue Station—Adopted

Upon motion duly seconded and adopted the Chief Engineer was directed to modify the steel plans for the construction of the Queensboro Subway Extension, Routes Nos. 35 and 67, so as to provide crossovers to permit the early operation of the line to the Fifth Avenue station.

136—Cases 1756, 1797

Staten Island Rapid Transit Railway Company—Grade Crossing Eliminations at Pennsylvania Avenue, Clifton Avenue and Maryland Avenue, Rosebank—Report and Opinion, Resolution Authorizing Certificate of Performance of Work and Certificate of Performance of Work—Approved

The Secretary presented a report and opinion, dated January 23, 1923, by Carleton S. Cooke, Assistant Counsel to the Commission duly designated to conduct the hearing on final accounting herein stating the account between the railroad company, the State of New York and The City of New York, and recommending the adoption of a resolution authorizing a certificate of performance of work and a certificate of performance of work.

The Commission approved and ordered filed the report and opinion of Assistant Counsel Cooke, approved and ordered filed the resolution authorizing a certificate of performance of work and approved said certificate of performance of work.

The resolution and certificate of performance of work were in the following form:

At a meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 30th day of January, 1923.

Present:

GEORGE McANENY,	}	Commissioners.
Chairman,

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossing of the tracks of the STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY
Crossing at Pennsylvania Avenue, Rosebank.

CASE No. 1756

RESOLUTION AUTHORIZING CERTIFICATE OF PERFORMANCE OF WORK AND PAYMENT.

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossing of the tracks of the STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY
Crossings at Clifton Avenue and Maryland Avenue at Rosebank.

CASE No. 1797

Whereas, A final order and determination was made herein by the Public Service Commission for the First District on July 1, 1914, determining the manner in which Pennsylvania Avenue, Clifton Avenue and Maryland Avenue at Rosebank, Staten Island, should cross the tracks of the Staten Island Rapid Transit Railway Company; and

Whereas, The said Commission by Order, dated January 25, 1918, herein approved said work as completed and substantially as required by the said Order, dated July 1, 1914; and

Whereas, Upon a hearing and accounting duly held before Carleton S. Cooke, Assistant Counsel to the Commission duly designated to conduct the same by Order and certificate, dated December 27, 1922, pursuant to Sections 8 and 11 of the Public Service Commission Law, it appears that the total cost of the work required by the said Order herein, dated July 1, 1914, with interest is \$117,563.61:

That the share of said cost to be borne by said railroad company is..	\$58,781.81
The share to be borne by The City of New York is.....	29,390.90
The share to be borne by the State of New York is.....	29,390.90

and,

Whereas, It appears that The City of New York has paid on account of its share of said cost \$31,944.89, and the State of New York has paid on account of its share of said cost \$22,886.50, and

Whereas, It appears from the foregoing figures that The City of New York has paid to said railroad company \$2,553.99 in excess of its share of the cost and that there is now due from the State of New York to said railroad company as the balance of its share of said cost \$6,504.40.

Now therefore it is Resolved, That the Chairman and the Secretary of the Commission be and they are hereby authorized to execute and file with the Comptroller of the State of New York a certificate in the form attached hereto and made a part hereof, that work to the extent of \$117,563.61 has been properly performed by said Staten Island Rapid Transit Railway Company, The City of New York and the State of New York, in complying with the terms of said Order herein, dated July 1, 1914.

Further Resolved, That pursuant to the provisions of the Railroad Law, payment by the State of New York to the said Staten Island Rapid Transit Railway Company of \$6,504.40 being the balance due from the State of New York to said Staten Island Rapid Transit Railway Company on account of the work required by said Order, dated July 1, 1914, herein, be and the same hereby is directed.

Further Resolved, That pursuant to the provisions of the Railroad Law, payment by said Staten Island Rapid Transit Railway Company to the City of New York of \$2,553.99 being the amount paid by The City of New York in excess of its share of the cost of complying with the terms of said Order herein, dated July 1, 1914, be and the same hereby is directed.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

At a meeting of the Transit Commission held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City
of New York, on the 30th day of January, 1923.

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LE ROY T. HARKNESS,
JOHN F. O'RYAN, }

IN THE MATTER
of the

Hearing on the motion of the Commission on the question
on the alterations and changes in the following grade
crossing of the tracks of the STATEN ISLAND RAPID
TRANSIT RAILWAY COMPANY.

CASE No. 1756

Crossing at Pennsylvania Avenue, Rosebank.

CERTIFICATE OF
PERFORMANCE OF WORK

IN THE MATTER
of the

Hearing on motion of the Commission on the question
on the alterations and changes in the following grade
crossings of the tracks of the STATEN ISLAND RAPID
TRANSIT RAILWAY COMPANY.

CASE No. 1797

Crossings at Clifton Avenue and Maryland Avenue at
Rosebank.

A final order and determination having been made herein on July 1, 1914, determining the manner in which Pennsylvania Avenue, Clifton Avenue and Maryland Avenue at Rosebank, should cross the track of the Staten Island Rapid Transit Railway Company, in the Borough of Richmond, City of New York, and it appearing that the said Staten Island Rapid Transit Railway Company pursuant to the provisions of the Railroad Law and under the supervision and direction of the Commission has completed the work required by said Order, dated July 1, 1914, and has submitted to the Commission verified statements and accounts indicating a total expenditure in connection therewith of \$117,563.61, and including payments made by The City of New York on account of supervision, property acquisition, property damage and interest \$13,679.89 and including payments made by the State of New York including interest on account of supervision of \$731.50, and it appearing after hearing on final accounting herein before Carleton S: Cooke, Assistant Counsel to the Commission duly designated to conduct the same, that the Staten Island Rapid Transit Railway Company has expended in carrying out the terms of said Order, dated July 1, 1914, including interest \$103,152.22; that The City of New York has contributed as a partial payment towards its share of the cost of carrying out the terms of said Order, dated July 1, 1914, including interest \$18,265.00; and that the State of New York has contributed as a partial payment towards its share of the cost of carrying out the terms of said Order, dated July 1, 1914, including interest \$22,155.00;

Now, Therefore, The Transit Commission of the State of New York does hereby certify:

First: That an Order determining the manner in which Pennsylvania Avenue, Clifton Avenue and Maryland Avenue, Rosebank, Borough of Richmond, City of New York, should be carried across the tracks of the Staten Island Rapid Transit Railway Company was made by the Public Service Commission for the First District on July 1, 1914.

Second: That the necessary work in carrying out the terms of said Order, dated July 1, 1914, amounting to \$117,563.61 has been properly performed by the Staten Island Rapid Transit Railway Company under the supervision of the Commission.

Third: That The City of New York, through the Commission and otherwise, has expended thereupon including interest \$31,944.89.

Fourth: That the State of New York, through the Commission and otherwise, has expended thereupon including interest \$22,886.50.

Fifth: That the share of the cost of said work to be borne by the respective parties is as follows:

By the Railroad Company.....	\$58,781.81
By The City of New York.....	29,390.90
By the State of New York.....	29,390.90

Sixth: That the balance due to the Staten Island Rapid Transit Railway Company from the State of New York including interest is \$6,504.

Seventh: That the balance due to The City of New York from the Staten Island Rapid Transit Railway Company including interest is \$2,553.99.

TRANSIT COMMISSION

By GEORGE McANENY,
Chairman.

Attest:

JAMES E. WALKER,
Secretary.

137—Case 2672

The Long Island Railroad Company—Application of Board of Estimate and Apportionment for a Determination As to the Method by Which 216th Street (4th Street) Should Cross the Right of Way of the Flushing and North Side Division—Hearing Order Adopted

The Secretary presented a resolution of the Board of Estimate and Apportionment dated July 19, 1922, making application for a determination as to the method by which 216th Street (4th Street), in the Borough of Queens, should be carried across the tracks of the Flushing & North Side Division of The Long Island Railroad Company.

The Commission adopted and ordered filed an Order directing a hearing on said application before George L. Lucas, Acting Chief Executive Officer to the Commission, therein duly designated to conduct the same upon a date to be fixed by him.

138—Case 2660

Application of Tisdale Lumber Company for Switch Connection and Sidetrack to Be Maintained by the Long Island Railroad Company near Kew Station, Borough of Queens—Report and Opinion by Counsel and Memorandum by Commissioner Harkness Approved—Order Adopted

The Secretary presented:

(1) A report and opinion, dated January 15, 1923, by George O. Redington, Counsel to the Commission, duly designated to conduct the hearing herein recommending that the Commission find and determine that The Long Island Railroad Company is required to maintain and operate a sidetrack and switch connection with the property of the Tisdale Lumber Company near Kew Station, in the Borough of

Queens, upon reasonable terms in said opinion specifically set forth: (2) a memorandum by Commissioner Harkness, dated January 15, 1923, concurring in the recommendation of Counsel.

The Commission approved and ordered filed the report and opinion of Counsel and the Memorandum of Commissioner Harkness and adopted and ordered filed an Order in Case No. 2660, embodying the recommendations in said report and opinion contained.

The vote was as follows: Ayes: Commissioners Harkness and O'Ryan. Chairman McAneny not voting.

139

Proceedings—Proposed Contract with M. B. Brown Printing & Binding Company for Printing Proceedings for Year 1923—Approval Resolution

The following resolution was adopted:

Whereas, The Transit Commission on January 26, 1923 opened bids for printing the minutes of the Commission for the year 1923; and

Whereas, The lowest bid was that of the M. B. Brown Printing & Binding Company, and it appearing that the service heretofore furnished by said company has been satisfactory to the Transit Commission,

Resolved, That the work of printing the minutes of the Transit Commission for the year 1923 be awarded to the said M. B. Brown Printing & Binding Company, and that the Chairman and the Secretary of the Commission be and they are hereby authorized and directed to execute a contract with said M. B. Brown Printing & Binding Company in the form prepared and submitted by Counsel.

140

Transit Record—Proposed Agreement with Herald Square Press for Printing of Record for Year 1923—Approval Resolution

The following resolution was adopted:

Whereas, The Commission has called for bids for the printing and delivering of its Transit Record for the calendar year ending December 31, 1923, and whereas such bids were received and opened on January 26, 1923, and whereas the Herald Square Press is the lowest bidder;

Resolved, That the bid of the Herald Square Press for printing and delivering the Commission Transit Record for the calendar year ending December 31, 1923, being the same as hereby approved, and

Further Resolved, That the Chairman and Secretary of the Commission be and they are hereby authorized and directed to execute on behalf of the Commission, and deliver to the Herald Square Press an agreement for said printing of the Transit Record in accordance with the terms of said bid dated January 26, 1923.

141

Lease—Proposed Lease of Premises at No. 113 North Seventh Street, Allentown, Pennsylvania for One Year Beginning April 1, 1923—Approval Resolution

The following resolution was adopted:

Whereas, The Commission deems it necessary for the purpose of carrying out its work in accordance with the provisions of the Rapid Transit Act as amended and the Public Service Commission's law as amended by Chapter 134 of the Laws of 1921 of the State of New York, to lease all that certain store-room and basement situated in the building known as No. 113 North Seventh Street, in the City of Allentown, Pennsylvania, for a period of one (1) year beginning April 1, 1923 and ending March 31, 1924, at the monthly rental of \$110.00 and upon certain other conditions more particularly set forth in the form of lease hereinafter referred to; and

Whereas, The Chief Clerk, under date of January 24, 1923, has recommended that this lease be approved; and

Whereas, Counsel at the request of the Chief Executive Officer has examined the form of lease signed by the owners, to wit: Thomas E. Ritter, William G. Ritter, Katie M. Ritter, Jennie V. Langdon and Agnes S. Lawall of the City of Allentown, County of Lehigh, State of Pennsylvania, which said form of lease has been approved by him as to form with the recommendation that its execution be authorized by the Commission;

Resolved, That the Commission do and it hereby does, approve the aforesaid lease, and that the Chairman be, and he hereby is, authorized to execute the same and the Secretary to attest such execution and to affix thereto the seal of the Commission.

142

Lease—Proposed Lease with Gair Realty Corporation for Fourth Floor of Building 5A at 35 York Street, Brooklyn, for Term of Five Years from April 1, 1923—Approval Resolution

The following resolution was adopted:

Whereas, By virtue of a lease dated June 30, 1920, between Gair Realty Corporation of the Borough of Brooklyn, City and State of New York, as lessor, and the Transit Construction Commissioner, acting for the City of New York, as Lessee, the Transit Commission, acting for The City of New York, is now in possession of certain premises known as the fourth floor of the addition to Gair Building #5A, bounded by Washington, York and Flint Streets, in the Borough of Brooklyn, City of New York, in use as a storeroom and laboratory, which said lease will expire by limitation on March 31, 1923; and

Whereas, The Commission desires to continue the occupation of said premises for an additional period of five (5) years beginning April 1, 1923, and expiring March 31, 1928, upon certain terms and conditions more specifically set forth in a form of lease hereinafter referred to; and

Whereas, Counsel has submitted a form of lease between Gair Realty Corporation, as lessor, and Transit Commission, acting for The City of New York, as lessee, recommending that it be approved;

Resolved, That the Commission do, and it hereby does, approve the said form of lease submitted by Counsel between Gair Realty Corporation, as lessor, and Transit Commission, acting for The City of New York, as lessee, of the fourth floor of Gair Building #5A, No. 35 York Street, Borough of Brooklyn, City of New York, containing approximately 9664 square feet, to be used as a store-room and laboratory for a period of five (5) years from April 1, 1923, at an annual rental of \$5,500; and it is further

Resolved, That the Chairman be, and he hereby is, authorized to execute the said lease for and in behalf of the Commission, and that the Secretary be, and he hereby is, authorized to attest the signature of the Chairman and to affix the seal of the Commission to the said lease.

143—R. T. 6567

Contract No. 3—Report by Counsel Advising of Decision by Appellate Division Dismissing Complaint of City in Matter of Determination of Cost by Chief Engineer—Filed

A report by Counsel dated January 27, 1923, advising of the decision by the Appellate Division, First Department, in dismissing the complaint of the City in the matter of the action to set aside the determination of cost rendered by the Chief Engineer of the Public Service Commission on October 14, 1913, under Contract No. 3, was ordered filed.

Employees' Resolution No. 126

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment Under Rule VIII:7—Kopple Tennygold, mechanical engineer, at \$150.08 per month, to take effect January 17, 1923.

Appointment Under Rule XVI:1—Morris Harkavy, junior assistant, at \$125.08 per month, to take effect January 25, 1923.

Resignations—Milton D. Lowenstein, architectural draftsman, at \$150.08 per month, to take effect January 22, 1923.

Termination of Appointment Under Rule VIII:9—John H. Scott, draftsman, at \$150.08 per month, to take effect January 31, 1923.

Transferred from State Commission of Highways—Gustave Chirlian, junior assistant, at \$125.08 per month, to take effect February 1, 1923.

Promotion—Fred Wilcock, assistant division engineer, from \$458.33 per month, to \$500.00 per month, to take effect January 1, 1923.

Change of Item in Resolution of January 23, 1923, Concerning Carl S. Monniche, so as to read as follows: (Appointment)—Carl S. Monniche, draftsman, at \$150.08 per month, to take effect January 23, 1923.

Change of Item in Resolution of January 23, 1923, Concerning George H. Lesley, so as to read as follows: (Termination of Appt. Under Rule VIII:4)—George H. Lesley, draftsman, at \$150.08 per month, to take effect January 24, 1923.

Change of Item in Resolution of January 23, 1923, Concerning Carl S. Monniche, so as to read as follows: (Termination of Appt. Under Rule VIII:9)—Carl S. Monniche, draftsman, at \$150.08 per month, to take effect January 22, 1923.

Leave of Absence With Pay—August F. Leimbach, transit inspector, from December 27, 1922, to January 15, 1923; George Paaswell, assistant engineer, from January 5, 1923, to January 15, 1923.

Voucher Schedule No. 5

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted to the Comptroller of The City of New York for payment:

Vouchers Nos. 115-142, open market orders, \$1,757.68; Vouchers Nos. 64-66, miscellaneous bills, \$1,279.29.

Estimate by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 23; Alfred R. Sax Lumber Co.; approximate estimate No. 5 for the supply of ties and timber, Order No. 7, for rapid transit railroads, from November 28, 1922, to January 15, 1923 (R.T. 7495) \$10,665.30;

Voucher No. 24, Interborough Rapid Transit Company; approximate estimate No. 6 for the construction of connection between the 7th Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad; and the Brooklyn-Manhattan Rapid Transit Railroad; between the Eastern Parkway Line and the Brooklyn-Manhattan Rapid Transit Railroad, and between the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line and the Manhattan-Bronx Rapid Transit Railroad, to January 22, 1923 (R.T. 7249) \$7,296.99;

Voucher No. 25; Booth & Flinn, Ltd.; final estimate for value of work done and materials furnished under contract dated August 9, 1916 for the construction of Section 1 of Route No. 8 (R.T. 7091) \$308,987.81;

Voucher No. 26; Gustin-Morris Contracting Corporation; final estimate for miscellaneous construction and station finish work on certain portions of the Rapid Transit Railroads of the City of New York, Agreement "AU," Group III, to December 22, 1922 (R. T. 7460), \$759.68;

Voucher No. 27; Interborough Rapid Transit Company, Assignee; approximate estimate No. 6 and final estimate for the construction of additional entrance to Borough Hall station of the Brook'yn-Manhattan Rapid Transit Railroad, to December 31, 1922 (R. T. 7317), \$467.32;

Voucher No. 28; Interborough Rapid Transit Company; approximate estimate No. 1 for changing subway structure at 59th Street, in order to make possible the re-arrangement of the curb lines at the northeast corner of Columbus Circle and Broadway, under the jurisdiction of the President of the Borough of Manhattan, to November 30, 1922 (R.T. 7591), \$7,301.09;

Voucher No. 29; Powers-Kennedy Contracting Corporation; retained percentage certificate No. 1-R for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67 (R. T. 7584), \$59,000.00.

146

Upon motion, duly seconded and adopted, the meeting was adjourned to February 1, 1923.

Proceedings for Thursday, February 1, 1923

Present: LeRoy T. Harkness, Acting Chairman; James B. Walker, Secretary.
The following matter was presented and action taken as noted:

148—R. T. 7590

Contract No. 3—Receipt of Bids for Furnishing and Erecting Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Referred to Chief Engineer.

Commissioner Harkness stated that the time within which to receive bids for furnishing and erecting structural steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids. The Secretary presented the proper affidavits of publication and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

Adjourned Meeting

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

149

Fifth Avenue Coach Company—Operation of Buses on Fourth Avenue and Park Avenue between Astor Place and 57th Street—Letter Approved

Commissioner Harkness stated that he had been informed that on January 31, 1923, the Board of Estimate and Apportionment of The City of New York had granted a temporary permission for sixty days to the Fifth Avenue Coach Company to operate a line of motor omnibuses from Astor Place via Fourth and Park Avenues to 57th Street and return.

On motion of Commissioner Harkness it was unanimously decided to send to the Fifth Avenue Coach Company forthwith the following letter:

February 1, 1923.

FIFTH AVENUE COACH COMPANY,
605 West 132nd Street,
New York City.

Dear Sirs:

Information has reached the Transit Commission to the effect that your company is preparing to start operation, under authority purporting to have been granted on January 26, 1923 by the Board of Estimate and Apportionment, of a new bus line on

Fourth and Park Avenues between Astor Place and 57th Street, in the Borough of Manhattan. No application has been made to the Transit Commission for a certificate of convenience and necessity in this matter, nor is the Commission informed as to the extent, if at all, to which various statutory requirements governing the authorization of bus lines have been complied with.

If it is your intention to begin operation without complying with the requirements of the statutes of this State, I am directed by the Commission to say that it cannot tolerate such an additional and open violation of law. Recently the Supreme Court in the Schaeffer case enjoined the operation of municipal buses because of the failure to comply with legal requirements. The Commission intervened in that case and aided in securing a stay of the injunction in order to preserve the *status quo*, and to avoid the interruption, in some cases, of necessary service, while investigations and consideration of the bus question were proceeding. Although the Schaeffer case dealt with municipal operation of buses, the same principles and the same element of violation of law apply to the private operation of buses by your company. While the Commission does not wish to take any action that would cause public inconvenience through suddenly upsetting existing operation, it cannot permit new lines to be opened in violation of law.

This is to be taken as an official notification by the Commission and you are requested promptly to acknowledge receipt and to inform the Commission of your intention.

Yours very truly,
JAMES B. WALKER,
Secretary.

150

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, February 7, 1923, at 11:00 A. M.

Proceedings for Wednesday, February 7, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; Arthur McKinney, Acting Secretary.

The following matters were presented and action taken as noted:

152—R. T. 7590

Contract No. 3—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest of Bidders for Furnishing and Erecting Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on February 1, 1923, for furnishing and erecting structural steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of Five thousand (\$5,000) dollars, deposited with their bids.

153—R. T. 7590

Contract No. 3—Report by Chief Engineer as to Receipt of Bids for Supply and Erection of Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard and Recommendation for Award of Contract to McClintic-Marshall Co. at Bid Price of \$293,888.00—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

February 3, 1923.

To: **TRANSIT COMMISSION:**

Award of Contract for Third Addition to Shops, Lenox Avenue and 148th Street Yard, to McClintic-Marshall Co.

On February 1, 1923, the following bids were received for furnishing and erecting structural steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard:

Bids on Items Nos. 19-b and 20-b—Bethlehem Shapes

McClintic-Marshall Co., 50 Church St., N. Y. City.....	\$293,888.00
Bethlehem Steel Company, 25 Broadway, N. Y. City.....	304,864.00
Post & McCord, 101 Park Avenue, N. Y. City.....	308,221.60

Bids on Items Nos. 19-a and 20-a—Standard Shapes

Jobson-Gifford Co., 20 East 42nd St., N. Y. City.....	293,962.50
McClintic-Marshall Co., 50 Church St., N. Y. City.....	302,840.00
Post & McCord, 101 Park Ave., N. Y. City.....	308,200.00

This is the same contract for which bids were previously received on October 20, 1922, transmitted to the Board of Estimate on October 24, 1922 and rejected by the Board of Estimate on December 22, 1922 because litigation was pending between the lowest bidder Bethlehem Steel Bridge Corporation and the City of New York. The bid of the Bethlehem Steel Co. at that time was \$279,920, which is \$13,968 lower than the present low bid. Our last estimate for this work amounted to \$292,400.

In the Invitation to Bidders this time as well as on the previous occasion, bids were asked based on Standard shapes as well as on Bethlehem shapes. The lowest bidder on Standard shapes was Jobson-Gifford Co., whose bid was \$293,962.50. The lowest bidder on Bethlehem shapes was McClintic-Marshall Co., whose bid amounted to \$293,888, \$74.50 below the Jobson-Gifford Co.'s bid.

I send you attached copy of minutes of a conference held in my office on February 2, 1923, with a representative of the McClintic-Marshall Co. and also a conference with representatives of the Jobson-Gifford Co. This interview with Jobson-Gifford Co. was granted at their request. From the minutes of the Jobson-Gifford Co. conference it will be noted that they advanced reasons why the contract should be awarded to them rather than to the McClintic-Marshall Co. A representative of the American Bridge Co. stating that it is connected with the Jobson-Gifford Co. in this bid also orally protested against awarding the contract to the McClintic-Marshall Co., his reasons being included in the minutes of the Jobson-Gifford Co. conference.

For your information I also transmit herewith twelve (12) prints of summation of bids.

McClintic-Marshall Co. is one of the best known structural steel companies in the country with a high reputation for financial integrity and ability to carry out work of this kind. It has not previously done work directly for the Commission but has done considerable work in furnishing steel for the elevated structures of both the Interborough Company and the New York Municipal Railway Corporation, which work has been satisfactorily carried out. It has also done considerable work for the Department of Plant & Structures and its Chief Engineer says that its work has been satisfactory, delivering the material ahead of time.

Notwithstanding the objections raised by the American Bridge Co. and Jobson-Gifford Co., I consider it only fair that the contract should be awarded to the lowest bidder, McClintic-Marshall Co., which company is of the highest reputation.

Recommendation: In accordance with the above I recommend from an engineering standpoint, that the contract for furnishing and erecting structural steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard be awarded to the lowest bidder, McClintic-Marshall Co., at its bid figure of \$293,888, and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for furnishing and erecting structural steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard (under Contract No. 3), was finally adopted on October 3, 1922 and subsequent to advertisement duly made bids respectively totalling as follows were received on February 1, 1923:

McClintic-Marshall Co.	\$293,888.00
Bethlehem Steel Company	304,864.00
Post & McCord	308,221.60

; and

Whereas, The Chief Engineer of this Commission, by communication dated February 3, 1923, has reported that the amount of said low bid is reasonable and that the said McClintic-Marshall Co. is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$293,888.00, the amount estimated to be necessary to carry out said proposed contract on the part of the City.

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby are approved; that the bid of McClintic-Marshall Co. be and the same hereby is accepted and that the said proposed contract for furnishing and erecting structural steel for Third Addition to Shops, Lenox Avenue and 148th Street Yard (under Contract No. 3), be and hereby is awarded to said McClintic-Marshall Co. subject to its being consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$293,888.00, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

[February 7, 1923]

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 7, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT,
Municipal Building,
New York, N. Y.

Gentlemen:

Your Honorable Board by resolution adopted at your meetings of December 22, 1922, and January 5, 1923, denied the request of the Transit Commission for your consent to the award of the proposed contract for furnishing and erecting steel for third addition to shops, Lenox Avenue and 148th Street Yard (Contract No. 3) to Bethlehem Steel Bridge Corporation and to make the necessary appropriation to meet the City's obligations thereunder, for the reason expressed in the communication dated December 22, 1922, from the Assistant Secretary of your Board that "litigation is now pending between the Bethlehem Steel Company and The City of New York and as a matter of policy, no contract of substantial character should be awarded to said company until disposition has been made of this question in controversy."

The Transit Commission has accordingly readvertised said proposed contract and alternative bids were received on February 1, 1923, respectively totalling as follows:

<i>Bethlehem Shapes</i>	
McClintic, Marshall Co.....	\$293,888.00
Bethlehem Steel Company.....	304,864.00
Post & McCord.....	308,221.60
<i>Standard Shapes</i>	
Jobson-Gifford Co.....	293,962.50
McClintic, Marshall Co.....	302,840.00
Post & McCord.....	308,200.00

The Transit Commission pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and McClintic-Marshall Company, for furnishing and erecting structural steel for third addition to shops, Lenox Avenue and 148th Street Yard (under Contract No. 3); together with a requisition upon your Honorable Board for the appropriation of the sum of two hundred ninety-three thousand eight hundred eighty-eight dollars (\$293,888) being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

The Chief Engineer of this Commission in a communication dated February 3, 1923, reports that the lowest bid, that of McClintic-Marshall Company, for Bethlehem Shapes is reasonable and that said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said McClintic-Marshall Company, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of two hundred ninety-three thousand eight hundred eighty-eight dollars (\$293,888), and also to direct the Comptroller of The City of New York to issue bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary amounts for meeting the City's obligations under said proposed contract, to wit, the sum of two hundred ninety-three thousand eight hundred eighty-eight dollars (\$293,888).

Your Board is also requested to authorize pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, known as Contract No. 3, and the appropriation requested is in addition to those heretofore made by your Honorable Board for said purposes.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

154—R. T. 7011

Contract No. 4—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Requisition for Additional Appropriation of \$6,500.00 for Maintenance Prior to Operation—Approval Resolution—Communication to Board of Estimate and Apportionment

A report by the Engineer of Equipment and Operation and the Chief Engineer dated February 7, 1923, recommending that a requisition be made upon the Board of Estimate and Apportionment for an additional appropriation of \$6,500.00 for Maintenance Prior to Operation of Contract No. 4 Lines, was presented.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment has established a fund for the purposes of defraying expenses in connection with the Maintenance Prior to Operation of the Railroad described in the contract dated March 19, 1913, between The City of New York and the New York Municipal Railway Corporation, known as Contract No. 4; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated February 7, 1923, reported with respect to the present and future necessities in connection with the Maintenance Prior to Operation of the Railroad under Contract No. 4 and have recommended the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of an additional sum of six thousand five hundred dollars (\$6,500) under said fund so established,

Resolved, That the said report and recommendation be and the same hereby are approved and the requisition in the form now submitted by Counsel which will effect such recommendation be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 7, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT,
Municipal Building,
New York, N. Y.
Gentlemen:

Your Honorable Board has established a fund known as Code CCM-406, Maintenance Prior to Operation under the Contract dated March 19, 1913, known as Contract No. 4.

The Chief Engineer of this Commission has reported under date of February 7, 1923, with respect to said fund, as follows:

"Up to the present time, the Board of Estimate and Apportionment has appropriated a total of \$36,500 for the Maintenance of Contract No. 4 lines prior to Operation, and at the present time, according to information obtained from the Auditor's office, there remains unencumbered of that amount, \$339.85. As the maintenance work now being carried on is expected to continue for a year, it is considered desirable that further funds should be secured for this work.

"The following is abstracted from my report of June 17, 1922 on the same subject, with the necessary corrections to bring the matter up to date. There are now ten temporary pumps installed in the 14th St.-Eastern Subway, two each at five locations. The City contractors are now at work in the subway and it is necessary that the subway be kept drained at all times in order to avoid interruption of their work. In addition to the pumping work, maintenance of other kinds must be and is being done. It is impossible to forecast the total cost of this work, but since July 19, 1922, when the Board of Estimate and Apportionment appropriated \$6,500, practically all of that amount has been spent, together with the balance existing in the fund on July 19, 1922, and as it seems desirable that funds be available for a six months' period, it is considered proper that a requisition be made on the Board of Estimate and Apportionment for the

sum of \$6,500. As has already been explained, it is estimated that the maintenance work to be performed by the City in the 14th St.-Eastern Subway will last for approximately one year and hence it is likely that this appropriation of \$6,500 will not be sufficient to complete the work.”

“Supplementing my letter to you of February 7, 1923, under the above heading, I am submitting herewith a statement showing the amounts appropriated, the amounts disbursed and held in reserve as of February 5, 1923:

Authorizations:	September 29, 1916.....	\$2,500.00	
	February 15, 1918.....	5,000.00	
	December 10, 1920.....	7,500.00	
	February 18, 1921.....	15,000.00	
	July 19, 1922.....	6,500.00	
			\$36,500.00
Disbursements	\$34,928.69	
Reserves	\$972.59	
Scheds. No. 65, O. M. O. 2748.....		258.87	
		1,231.46	
Total Encumbrances		36,160.15
Unencumbered		\$339.85

The amount of \$1,231.46 held in reserve is for the following items:

Order No. 2393.....	I. R. T.	\$250.00	Repairs to broken drain pipe and repair of station finish, Queensboro Plaza.
Order No. 375— 7/20/21..	N. Y. Cons. Co.	500.00	Repairs to temp. timber work, Lawrence St. Sta.
Order No. 1146.....	Peter, Ward & Riordan	150.20	Pumps
Order No. 2375—11/16/22..	Federal Const. & Engr. Co....	50.00	“
Order No. 2456—12/7/22...	Maintenance Co.	17.39	“
Order No. 2695.....	Crocker Wheeler Mfg. Co.	5.00	“
Order No. 2748— 2/5/23...	Maintenance Co.	258.87	“
			\$1,231.46

The normal monthly expenses for watchmen, maintaining pumps and incidentals are about \$1,120.00. Additional funds are therefore necessary to meet current requirements and to provide for this Maintenance in the future.

Requisition is accordingly made upon your Honorable Board for the additional appropriation of Six thousand five hundred dollars (\$6,500) for Maintenance Prior to Operation of the Railroad described in said Contract No. 4 between the time of the completion thereof and the beginning of operation to be defrayed from the proceeds of corporate stock chargeable to said Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

155—R. T. 7549, 7639

Agreement “CC”—Proposed Form of Contract, Specifications, Invitation to Contractors, etc., for Making Alterations in Structure of Broadway-Fourth Avenue Rapid Transit Railroad so as to Permit Widening of Roadway of East 60th Street—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors, and Forms of Contract, Bond and Contractor’s Proposal, together with the Specifications and Contract Drawings for making alterations in the railroad structure, Routes Nos. 4 and 36,

Section No. 5 of the Broadway-Fourth Avenue rapid transit railroad to permit of the widening of the roadway of East 60th Street, in the Borough of Manhattan, City of New York (Agreement "CC");

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the work aforesaid, be and hereby are approved and adopted, and that said Invitation to Contractors be published in the CITY RECORD every day of publication continuously from and including February 9, 1923, to and including February 26, 1923; and on February 13, 1923 and February 20, 1923, in THE NEW YORK TIMES and THE EVENING MAIL, daily newspapers published in the City of New York, and that such bids as shall be received shall on the 26th day of February, 1923 at 11:30 o'clock A. M., or at a later date to be fixed by the Transit Commission be opened publicly by the Secretary to the Transit Commission at the office of the Transit Commission and read.

156—R. T. 7626

Route No. 8, Section No. 6-A1—Resolution Approving Sureties upon Bond in Sum of \$50,000 Deposited by Contractor as Security for Performance of Contract—Adopted

The following resolution was adopted:

Resolved, That the American Surety Company and the Globe Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Fifty thousand (\$50,000) dollars, deposited by Frederick L. Cranford, Inc., as security for the faithful performance of the contract for the construction of Section 6-A1 of Route No. 8 of the 14th Street-Eastern Line, each of said sureties being held and bound in the sum of Twenty-five thousand (\$25,000) dollars.

157—R. T. 7601

Route No. 52, Section No. 1—Application by Jobson-Gifford Company, Second Lowest Bidder, for Return of Certified Check Deposited with Bid for Furnishing and Erecting Structural Steel for Part of Flushing Line—Application Granted

An application dated February 3, 1923, from the Jobson-Gifford Company, second lowest bidder, requesting the return of the certified check in the sum of \$5,000 deposited with its bid on December 14, 1922, for furnishing and erecting structural steel for Section No. 1 of Route No. 52, Flushing Line, was granted.

158—R. T. 7635

Agreement "CE"—Application by Edward Balaban, Second Lowest Bidder, for Return of Certified Check Deposited with Bid for Alterations in Structure of Broadway-Fourth Avenue Rapid Transit Railroad to Permit Widening of Certain Streets—Application Granted

An application dated February 5, 1923, from Edward Balaban, second lowest bidder, requesting the return of the certified check in the sum of \$300 deposited with his bid on January 25, 1923, for alterations in the structure of the Broadway-Fourth Avenue Rapid Transit Railroad, so as to permit the widening of certain streets in the Borough of Manhattan, was granted.

159—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Cable to Be Installed on 100 New Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application from the Interborough Rapid Transit Company dated January 22, 1923, requesting the approval of a proposed purchasing agent's order directed to The Okonite Co. for furnishing cable at a cost of \$6,356.30 to be installed on 100 new steel trailer cars, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 27, 1923, recommending that the application be approved, was also presented.

The following resolution was adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 22, 1923, directed to Okonite Company for the manufacture and delivery of the following:

2,000 Ft. Cable, 18 cond, insulated, subway Control train, specification 34-R Price: \$453.15 per M. Ft.....	\$906.30
7,000 Ft. Cable, 7-37 #24 single cond, insulated Spec. 34-R. Price: \$250.00 per M. Ft.....	1,750.00
200,000 Ft. Cable, 19-25 single cond, ins. Spec. 34-R except that it is to be furnished with one (1) weatherproof braid, and the maximum outside diameter must not exceed .250" Price: \$18.50 per M. Ft.....	3,700.00
Total	\$6,356.30

Delivery to begin in 5 to 6 weeks from date of order.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 442"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated January 27, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

The Okonite Co.....	\$6,356.30
Standard Underground Cable Co.....	5,066.00
General Electric Co.....	5,333.00
Bishop, Gutta Percha Co.....	5,719.50

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and

hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

160—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Fans with Motors to Be Installed in 53rd Street and 74th Street Fan Chambers of Lexington Avenue Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application dated January 16, 1923, from the Interborough Rapid Transit Company requesting the approval of a proposed purchasing agent's order directed to the American Blower Company for fans to be installed at the 53rd Street and 74th Street fan chambers of the Lexington Avenue Line at a total cost of \$8,331.50, was presented.

A report by the Engineer of Equipment and Operation and Chief Engineer dated January 27, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, recommending that the work be done as a charge to Equipment, was also presented.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has by communication dated January 16, 1923, submitted for the approval of this Commission proposed purchasing agent's order dated January 16, 1923 directed to American Blower Company for the following:

- 2 ca. No. 12 double inlet top vertical double width, full housed, American Sirocco fan, housing to be knocked down to pass through an opening 3 Ft. x 8 Ft. Fan to be equipped with 2 independent bearings on cast iron floor stands and shaft extended to receive pinion for chain drive. Wheel to be built in two sections, furnished with over-sized keys to be fitted on the job by this Company.
- Equipped with two 50 H. P. 550/700 R. P. M. field control Sprague—General Electric direct current, compound wound motors with sliding base and caps, C-R-8000 field rheostat. The motors will be wound for 500-725 volts, D. C., and will be equipped with screened enclosing covers for the commutator end of motors. They will be 40° C. type when operating as open motors. The field rheostats, as mentioned above, are separate units which are to be mounted on panel board by this Company, and are designed to increase speed of motor from 550 to 700 R. P. M. by field control. Each motor to be of ample capacity to operate the fan, the other being held as a reserve or spare.
- Two 50 H. P. American High Speed chain drives for connecting the two motors to the single fan, including one sprocket for the fan shaft, and two pinions for the motor shafts, two strands of chain and one removable casing. This casing will be constructed of #14 gauge black steel with welded seams and made oil-tight and dust proof. Nickel steel pins to be used in building chain.
- Price: \$4,165.75 each.....\$8,331.50

which proposed purchasing agent's order has been caused to be designated as "Approval No. 441"; and

Whereas, By communication dated January 27, 1923 the Engineer of Equipment and Operation and the Chief Engineer have reported the said Equipment is to be installed in the 53rd Street and 74th Street fan chambers of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad, described in

said Contract No. 3; that no other bids were solicited for the reason that the design of the apparatus has been standardized; that the equipment is necessary for the purpose of clearing the express or lower level tunnels of gases in the vicinity of said chambers in case of emergency and is in accordance with the latest engineering practice; that the price is reasonable and recommends that the said proposed purchasing agent's order so submitted be approved; and

Whereas, By endorsement dated February 2, 1923 the Auditor of Rapid Transit Costs has recommended the approval of said proposed purchasing agent's order as a charge to Equipment as defined in said Contract No. 3.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval made part of said proposed purchasing agent's order, the cost thereunder to be charged as Equipment in accordance with the provisions of said Contract No. 3.

161—R. T. 7007

Contract No. 3—Applications by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Orders for Furnishing Rheostats and Contact Shoe Fuse Boxes to Be Installed on 100 New Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolutions

Applications from the Interborough Rapid Transit Company dated December 21, 1922 and December 22, 1922, requesting the approval of proposed purchasing agent's orders directed to the Westinghouse Electric and M'fg. Co. for furnishing 200 rheostats at a cost of \$3,008.00 and to the National Pneumatic Co. for furnishing 400 contact shoe fuse boxes at a cost of \$2,200.00 to be installed on 100 new steel trailer cars, were presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 2, 1923, recommending that the applications be approved, was also presented.

The following resolutions were adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. 1BA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated December 21, 1922, directed to Westinghouse Electric and Manufacturing Company for the manufacture and delivery of the following:

200 Rheostats, bus-line, each consisting of 17 W. E. & M. Co's style 46030 (.02 ohms resistance cold) grids, series connected coated with approved rust preventative assembled in one row in frame for mounting under car, complete with necessary insulation and terminals.
 Price: \$15.04 each..... \$3,008.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 431"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of

this Commission, by communication dated January 2, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

Westinghouse Electric and Mfg. Co.....	\$3,008.00
General Electric Company.....	4,590.00
Columbia Machine Works and Malleable Iron Co.....	No bid
Ellcon Co.	No bid

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated December 22, 1922, directed to National Pneumatic Company for the manufacture and delivery of the following:

400 Boxes, contact shoe fuse, complete with cover including all details on blueprints 6939-B, 7527-A and 7535-B, to be assembled complete as per B/P 7561-B except that fuse, fuse post, terminal and springs on this blueprint are not to be furnished.	
Price: \$5.50 each.....	\$2,200.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 432"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated January 2, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

National Pneumatic Co.....	\$5.50 each	\$2,200.00
P. H. Gill and Sons.....	6.75 each	
R. Steel and Sons.....	8.75 each	
Columbia Machine and Malleable Iron Co.....	18.00 each	
Ellcon Co.	No bid	

and recommend that said proposed purchasing agent's order be approved.

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

162—R. T. 6984

Route No. 16—Resolution Declaring Five Tracks and Connecting Track in Jerome Avenue Storage Yard Ready for Operation—Adopted

The following resolution was adopted:

Resolved, That, under and in pursuance of the provisions of the contract known as Contract No. 3 dated March 19, 1913 made between The City of New York, acting

by the Public Service Commission for the First District and Interborough Rapid Transit Company, this Commission hereby declares the following portions of Subdivision II of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line as described in said Contract No. 3 to be ready for operation at 9:30 o'clock A. M. on February 7, 1923:

Five westerly tracks of the Jerome Avenue Storage Yard Nos. 21 to 25 inclusive between approximate stations 543+00 and 550+69 together with a temporary track connecting the above mentioned storage tracks with the temporary trestle track at approximate station 540+16.

The above Yard Tracks to include all special work and bumpers within the above specified limits.

163—R. T. 7109

Elevated Extension Certificate—Application by Interborough Rapid Transit Company for Approval of Proposed Lease to Israel Margulis of Two Plots of Vacant Ground at East 133rd Street and East 134th Street, West of Willis Avenue, for Term of Ten Years—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application dated January 17, 1923, from the Interborough Rapid Transit Company requesting approval of the proposed lease to Israel Margulis of two small plots of vacant ground on the right of way west of Willis Avenue on the north side of East 133rd Street and on the south side of East 134th Street, Borough of The Bronx, for a term of ten years from January 1, 1923, at an annual rental of \$800.00, was presented.

A report by the Real Estate Clerk dated January 30, 1923, recommending that the application be approved, was also presented.

The following resolution was adopted:

Whereas, Interborough Rapid Transit Company by application dated January 17, 1923, has made application for permission to lease to Israel Margulis a plot of vacant land on the north side of East 133rd Street, 195' 6" west of Willis Avenue, in the Borough of The Bronx, having an area of 168 square feet, being a rectangle 12' x 14", and a plot of vacant land on the south side of East 134th Street, 195' 6" west of Willis Avenue, in the Borough of The Bronx, having an area of 300 square feet, being a rectangle 15' x 20', for a term of ten (10) years from January 1, 1923, at a rental of \$800. per annum, the tenant to spend \$3,000. in building improvements to revert to the Company at the end of the lease and upon certain other conditions enumerated in said application, the income thus derived to be allocated as a credit to Operation, Company Lines, Interborough Certificates; and

Whereas, The Real Estate Clerk, under date of January 30, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Chairman be, and he hereby is, authorized to subscribe the approval of the Commission on the said application.

164—R. T. 6597

Additional Tracks Certificate—Resolution Rescinding Resolution Adopted on July 6, 1922, Approving Installation of Automatic Turnstiles at Stations of Manhattan Elevated Lines with Respect to Classification Therefor—Adopted

The following resolution was adopted:

Whereas, By resolution adopted on July 6, 1922 this Commission approved pursuant to the provisions of the certificate dated March 19, 1913 granted to Manhattan Railway Company for Additional Tracks to the Existing Manhattan Elevated Railroads, known as the Second Avenue, Third Avenue and Ninth Avenue additional tracks, the installation of automatic pre-payment turnstiles (of a character and design similar to the turnstiles installed in the subway portions of the lines of the Interborough Rapid

Transit Company with the approval of this Commission) upon the stations of the Existing Manhattan Railroad as defined in said additional track certificate and in the certificate bearing even date therewith issued to Interborough Rapid Transit Company for certain Extensions thereto, and by said resolution classified such work as Additions to the Railroads as defined in said additional track certificate and to which work this Commission in and by said resolution assigned Work Order No. IDA-2; and

Whereas, Interborough Rapid Transit Company in and by communication dated August 3, 1922 has objected to such classification; and

Whereas, Counsel to this Commission in and by a communication dated September 15, 1922 has reported that in his opinion such approval and classification is under said additional track certificate incorrect and improper in view of the fact that said certificate does not provide for the making of Additions as defined in said certificate to the said existing Manhattan Railroads; and

Whereas, By communication dated September 14, 1922 the Auditor of Rapid Transit Costs of this Commission has recommended that the resolution of July 6, 1922 aforesaid, in so far as it approves the installation of such turnstiles upon the stations of the Existing Manhattan Railroad as so defined as an Addition to the Railroads under said additional track certificate be rescinded; and

Whereas, This Commission concurs in the opinion so expressed,

Resolved, That the resolution of July 6, 1922 in so far as it approves of the installation of the pre-payment turnstiles on the stations of the Existing Manhattan Railroad, as defined in the said Additional Track and Extension Certificates and the designation of the proper classification therefor, be and the same hereby is in all respects revoked and rescinded.

165—R. T. 6597, 6761

Elevated Extension Certificate—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Purchase of Ten Automatic Turnstiles to Be Installed on Stations on Extensions of Elevated Lines—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Assigning Work Order No. IEA-1—Approval Resolution

An application dated January 9, 1923, from the Interborough Rapid Transit Company requesting approval of a proposed purchasing agent's order to be issued to the General Electric Company for furnishing ten automatic prepayment turnstiles to be installed at stations on extensions to the elevated line at a cost of \$2,580, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 18, 1923, recommending that the application be approved from an engineering standpoint, was also presented.

A report by the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated January 29, 1923, assigning Work Order No. IEA-1 to the work, was also presented.

The following resolution was adopted:

Whereas, By resolution adopted on July 6, 1922 this Commission approved pursuant to the provisions of the certificate dated March 19, 1913 granted to Interborough Rapid Transit Company for certain Extensions to the Existing Elevated Railroads, known as the Webster Avenue Line, the Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and the West Farms Subway Connection, the installation of automatic pre-payment turnstiles (of a character and design similar to the turnstiles installed in the subway portions of the lines of the Interborough Rapid Transit Company with the approval of this Commission) upon the stations of said Extensions and by said resolution classified such work as Additions to the Railroads as defined in said Elevated Extension Certificate and to which work this Commission in and by said resolution assigned Work Order No. IEA-1; and

Whereas, By communication dated January 9, 1923 said Interborough Rapid Transit Company, has in accordance with the provisions of said Elevated Extension Certificate submitted to this Commission for its approval proposed purchasing agent's order dated January 9, 1923 directed to the General Electric Company for the purchase of the following:

- 10 Turnstiles, electric type, automatic twoway pre-payment, General Electric Company's type R.J. 1, form A complete with their type J.P. 1 coin box equipped with slug detector device and lens.
 Price: \$258.00 each \$2,580.00
 To be delivered to our 128th Street and Second Avenue Storehouse, New York, N. Y.
 Shipment to begin in ten weeks.
 Note: No other bidders as these are exact duplicates of those furnished by the General Electric Company as per application No. 274, dated March 20th, 1922.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 438"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated January 18, 1923, reported that the type of turnstile proposed is satisfactory; that the price is reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have, by communication dated January 29, 1923, recommended that the said proposed purchasing agent's order for the ten turnstiles to be installed on the stations of the Railroads as defined in the said Elevated Extension Certificate be approved under Work Order No. IEA-1 assigned by resolution of this Commission adopted on July 6, 1922, as aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Further Resolved, That nothing herein contained shall be deemed or construed to be an approval by this Commission of the purchase of turnstiles for other than the stations of the Railroads, as defined in said certificate dated March 19, 1913 for Elevated Extensions.

166—R. T. 7556, 6555

Route No. 26—Proposed Lease by Contractor of Vacant Property at Northwest Corner of Vernon Avenue and Fourth Street for Storage of Steel in Connection with Contract for Reconstruction of Jackson Avenue Station—Approval Resolution

The following resolution was adopted:

Resolved, That the Transit Commission do and hereby does approve the proposed lease dated February 2, 1923 between Joslin Construction Co., Inc., and The City of New York, acting by this Commission, of the vacant plot situated on the northwesterly corner of Vernon Avenue and Fourth Street, Borough of Queens, for the term of one year at the nominal rental of \$1.00, now submitted by Counsel, said property to be utilized for the storage of structural steel for incorporation in the work of reconstructing a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, Jackson Avenue Station, pursuant to the contract therefor dated July 5, 1922, between The City of New York and said Joslin Construction Co., Inc.

Further Resolved, That the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed lease.

Route No. 20—Communication from Board of Estimate and Apportionment Transmitting Copy of Communication from Bath Beach Community Council with Respect to Accidents at Canal Street Subway Station Due to Lack of Guard Rails—Referred to Counsel and Chief Engineer

The following communication from the Board of Estimate and Apportionment and the enclosure mentioned therein were referred to Counsel and the Chief Engineer:

(Cal. No. 168)

February 2, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

I transmit herewith copy of a communication dated January 16, 1923, from the Bath Beach Community Council, calling attention to fatal accidents on the Canal Street subway station of the B. R. T. due to lack of guard rails and requesting the Board to endeavor to have the Transit Commission execute the contract for the installation of these guard rails, approved by the Board on March 3, 1922.

At the meeting of the Board of Estimate and Apportionment on February 2, 1923, this matter was referred to the Transit Commission for immediate consideration.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

168—R. T. 6291

Route No. 45—Report by Chief Engineer Recommending Approval of Connection of Two Tracks of Loop Line with Nassau Street Line and Construction of Tail Track for Turning Back Trains at Chambers Street Station—Approved

A report by the Chief Engineer dated January 31, 1923, recommending that in the preparation of plans for the Nassau Street Line that a connection be provided for only two tracks of the loop line with the Nassau Street Line and that a tail track be provided for the turning back of trains at the Chambers Street Station, was approved.

169—Case 1292

The New York Central Railroad Company—Operation of Freight Trains on Eleventh Avenue—Report Approved

The Acting Secretary presented a report, dated February 3, 1923, by the Chief of Transit Bureau, approved by the Acting Chief Executive Officer, stating that permission had been granted The New York Central Railroad Company to suspend the Order of the Public Service Commission for the First District, dated December 13, 1910 herein, from February 2 to February 4, 1923.

The Commission approved the action of the Chief of Transit Bureau and ordered the report filed.

170—Case 1292

The New York Central Railroad Company—Operation of Freight Trains on Eleventh Avenue—Suspension Order Adopted

The Acting Secretary presented an application of The New York Central Railroad Company, dated January 31, 1923, requesting a suspension of the Order of the Public Service Commission for the First District herein, dated December 13, 1910, to March

31, 1923; and a report by the Chief of Transit Bureau, approved by the Acting Chief Executive Officer, dated February 5, 1923, recommending that the application be approved.

The Commission adopted and ordered filed an Order in Case No. 1292, suspending the Order of the Public Service Commission for the First District herein dated December 13, 1910, to and including March 31, 1923.

171—Case 2671

Nassau Bus Line, Inc.—Application for Certificate of Convenience and Necessity —Resolution Authorizing Certificate; and Certificate of Convenience and Necessity Approved—Order Authorizing Exercise of Franchise Adopted—Opinion Approved

The Acting Secretary presented a report and opinion by Commissioner O’Ryan, dated February 7, 1923, recommending that the application herein be granted and that the Commission approve a certificate of convenience and necessity to the Nassau Bus Line, Inc., to operate over the route in the petition indicated.

The Commission approved the above mentioned opinion and adopted and ordered filed an Order in Case No. 2671, permitting the said Nassau Bus Line, Inc., to exercise its franchise and also approved a certificate of convenience and necessity in Case No. 2671, to the Nassau Bus Line, Inc., to operate buses in Far Rockaway, in the Borough of Queens, over the routes specified.

The order and certificate were in the following form:

At a meeting of the Transit Commission of the State of New York, held at its office, No. 49 Lafayette Street, in the Borough of Manhattan, City of New York, on the 7th day of February, 1923.

Present:

GEORGE MCANENY, Chairman.	} COMMISSIONERS
LEROY T. HARKNESS,	
JOHN F. O’RYAN.	

IN THE MATTER
of the
Application of NASSAU BUS LINE, INC., for a Certificate of Convenience and Necessity pursuant to the Transportation Corporations Law to operate buses in Far Rockaway, Borough of Queens.

CASE No. 2671
ORDER GRANTING PERMISSION TO EXERCISE FRANCHISE.

Nassau Bus Line, Inc., having by communication dated January 20, 1923 made application to the Commission for a Certificate of Public Convenience and Necessity pursuant to the Transportation Corporations Law to operate a bus line or route in Far Rockaway, Borough of Queens, City of New York, in and upon the streets, avenues and highways hereinafter described, and the Commission having on the 23rd day of January, 1923 adopted an order for a public hearing herein and the said application having come on to be heard before the Commission on the 6th day of February, 1923, at 10:30 o’clock in the forenoon, and Paul M. Weidman, President of Nassau Bus Line, Inc., appearing in support of the application and Mr. Carleton S. Cooke, Assistant Counsel to the Commission, attending, and no one appearing in opposition to said application, and it appearing that due notice of the hearing had been served upon all parties interested, and the Commission after due deliberation upon the application

aforesaid, the franchise contract between the City of New York and the Nassau Bus Line, Inc., dated the 5th day of February, 1923, and upon the proceedings at said hearing having found and determined that public convenience and necessity require the operation of the said bus line or route aforesaid, and that the Commission should permit and approve the exercise of the franchise of the Nassau Bus Line, Inc.,

Ordered, That the permission and approval of this Commission be and it is hereby granted to Nassau Bus Line, Inc. to exercise said franchise pursuant to the franchise contract aforesaid by operating stages or omnibuses over the following described streets, avenues and highways in Far Rockaway, Borough of Queens, City of New York, namely:

"Beginning at the intersection of Central Avenue with the Nassau County Line at or near McNeil Avenue; thence along Central Avenue or Beach 20th Street to Cornaga Avenue; thence along Cornaga Avenue to White Street; thence along White Street or Beach 21st Street to Mott Avenue; thence along Mott Avenue to Central Avenue."

BY THE COMMISSION
ARTHUR MCKINNEY,
Acting Secretary.

STATE OF NEW YORK
TRANSIT COMMISSION

IN THE MATTER
of the

Application of NASSAU BUS LINE, INC., for a Certificate of Convenience and Necessity pursuant to the Transportation Corporations Law, to operate buses in Far Rockaway, Borough of Queens.

CASE No. 2671
CERTIFICATE OF PUBLIC
CONVENIENCE AND NE-
CESSITY.
February 7, 1923

Nassau Bus Line, Inc. having by communication dated January 30, 1923 made application to the Commission for a Certificate of Public Convenience and Necessity pursuant to the Transportation Corporation Law to operate a bus line or route in Far Rockaway, Borough of Queens, City of New York, in and upon the streets, avenues and highways hereinafter described, and the Commission having on the 23d day of January, 1923 adopted an order for a public hearing herein and the said application having come on to be heard before the Commission on the 6th day of February, 1923 at 10:30 o'clock in the forenoon, and Paul M. Weidman, President of Nassau Bus Line, Inc. appearing in support of the application and Mr. Carleton S. Cooke, Assistant Counsel to the Commission, attending, and no one appearing in opposition to said application, and it appearing that due notice of the hearing had been served upon all parties interested, and the Commission after due deliberation upon the application aforesaid, the franchise contract between the City of New York and the Nassau Bus Line, Inc. dated the 5th day of February, 1923, and upon the proceedings at said hearing having found and determined that public convenience and necessity require the operation of the said bus line or route aforesaid,

Now, Therefore, the Transit Commission does hereby find, determine and certify that public convenience and necessity require the operation of such bus line or route over the following streets, avenues and highways, namely:

"Beginning at the intersection of Central Avenue with the Nassau County Line at or near McNeil Avenue; thence along Central Avenue or Beach 20th Street to Cornaga Avenue; thence along Cornaga Avenue to White Street; thence along White Street or Beach 21st Street to Mott Avenue; thence along Mott Avenue to Central Avenue."

pursuant to the franchise contract between the City of New York and said Nassau Bus Line, Inc. duly made and executed by the parties thereto on the 5th day of February, 1923.

TRANSIT COMMISSION
By GEORGE McANENY,
Chairman.

Attest:
ARTHUR MCKINNEY,
Acting Secretary.

172—Case 2664

Richmond Light and Railroad Company—Application for Authority to Transfer Railroad Property to Richmond Railways, Inc., and for the Approval of Stock and Bond Issue by Latter Company

The Acting Secretary presented a report and opinion dated February 6, 1923, by Commissioner O'Ryan, recommending for the reasons and upon the conditions in said report contained that the application be granted.

The Commission approved said report and ordered same filed.

173

New York and Queens County Railway Company—Steinway Lines—Receivers—Communication from District Attorney of Queens Referred to Commissioner Harkness

The Acting Secretary presented a communication from the District Attorney, dated February 5, 1923, commenting upon the situation resulting from the necessary transfer of passengers at Woodside, Queens County, from the cars operated by the New York & Queens County Railway Company to those operated by the Receivers of the Steinway Lines of said company and vice versa.

The Commission ordered said communication referred to Commissioner Harkness.

174—Case 2253

The New York Central Railroad Company—238th Street Bridge—Report Filed

The Acting Secretary presented a report by Assistant Counsel Cooke, dated February 1, 1923, advising that the Commission had been served with an Order staying the proceedings under the mandamus order herein pending an appeal therefrom.

The Commission ordered the report filed.

175—R. T. 7626

Route No. 8, Section No. 6A-1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract and Authorizing Appropriation of \$750,982.75—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Communications and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on January 19, 1923, was ordered filed:

(Cal. No. 240)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated December 27, 1922, the Board of Estimate and Apportionment does hereby consent to the contract with Frederick L. Cranford, Inc., for the construction of a part of the Fourteenth Street-Eastern Rapid Transit Railroad, Route No. 8, Section 6A-1 (Bushwick Avenue) Station 204/77.5 to Section 212/00 (under Contract No. 4), at an estimated cost of seven hundred and fifty thousand nine hundred and eighty-two dollars and seventy-five cents (\$750,982.75); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be seven hundred and fifty thousand nine hundred and eighty-two dollars and seventy-five cents (\$750,982.75); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1921, as amended, the provisions of chapter 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated December 27, 1922, the Comptroller be and he is hereby authorized and requested to issue corporate stock of The City of New York to the amount of seven hundred and fifty thousand nine hundred and eighty-two dollars and seventy-five cents (\$750,982.75), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes specified in said requisition in respect to the contract known as Contract No. 4 between The City of New York, acting by the Public Service Commission for the First District, and the New York Municipal Railway Corporation; said appropriation of seven hundred and fifty thousand nine hundred and eighty-two dollars and seventy-five cents (\$750,982.75) of corporate stock from the debt-incurring power of the City being stated in the requisition of the Transit Commission, dated December 27, 1922, as being required to meet the estimated expense to the City of carrying out said contract with Frederick L. Cranford, Inc., for the construction of a part of the Fourteenth Street-Eastern Rapid Transit Railroad, Route No. 8, Section 6A-1 (Bushwick Avenue), Station 204/77.5 to Station 212/00 (under Contract No. 4); and said authorization of seven hundred and fifty thousand nine hundred and eighty-two dollars and seventy-five cents (\$750,982.75) is in addition to the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the supplementary general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, January 19, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated January 21, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

An original contract dated February 1, 1923, between the Transit Commission and Frederick L. Cranford, Inc., which contract had been executed on behalf of both parties, and delivered on February 5, 1923, was also ordered filed.

176—R. T. 7623

Agreement "CH"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Furnishing Two Elevators at 168th Street Station and Authorizing Appropriation of \$89,550—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on January 26, 1923, was ordered filed:

(Cal. No. 250)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated December 27, 1922, as modified by the requisition of said Transit Commission, dated January 9, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with the Otis Elevator Company for furnishing and installing two electric passenger elevators in the new entrance to the 168th street station of the Manhattan-Bronx Rapid Transit Railroad (being constructed pursuant to the contract consented to by this Board on May 5, 1922, such work forming part of that included in the agreement, dated June 21, 1917, and consented to by this Board on May 25, 1917, modifying the contract for the construction, equipment and operation of the Manhattan-Bronx Rapid Transit Railroad, known as Contract No. 1, providing that the performance of the work of constructing an additional station entrance to the 168th street station of said rapid transit railroad shall be carried out under a separate contract after competitive bidding instead of under the provisions of said contract No. 1, the cost thereof to be charged against the cost of construction

of said rapid transit railroad and included in determining the amount of annual rental to be paid the City under said Contract No. 1), at an estimated cost of eighty-nine thousand five hundred and fifty dollars (\$89,550); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be eighty-nine thousand five hundred and fifty dollars (\$89,550); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission dated December 27, 1922, as modified by the requisition of said Transit Commission, dated January 9, 1923, the Comptroller be and he is hereby authorized and requested to issue corporate stock of The City of New York to the amount of eighty-nine thousand five hundred and fifty dollars (\$89,550) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract with the Otis Elevator Company for furnishing and installing two electric passenger elevators in new entrance of the 168th street station of the Manhattan-Bronx Rapid Transit Railroad; said appropriation of eighty-nine thousand five hundred and fifty dollars (\$89,550) being in addition to the amount heretofore authorized for the purposes of meeting the City's obligations under Rapid Transit Contract No. 1 for the construction, maintenance and operation of the Manhattan-Bronx Rapid Transit Railroad as modified by the agreement, dated June 21, 1917, and consented to by this Board on May 25, 1917, for the purpose of constructing the additional entrance to the 168th street station of said rapid transit railroad.

A true copy of resolution adopted by the Board of Estimate and Apportionment, January 26, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Route No. 12, Section No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Transferring \$53.66 to Department of Parks for Restoration of Pavement under Contract for Completion of Street and Park Surface along Eastern Parkway—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on January 26, 1923, was ordered filed:

(Cal. No. 125.)

Resolved, That, in accordance with the request of the Transit Commission, dated December 12, 1922, the Comptroller be and he is hereby authorized to transfer the sum of fifty-three dollars and sixty-six cents (\$53.66) from the unencumbered balance of twenty thousand nine hundred and sixty-two dollars and forty-six cents (\$20,962.46) in Code CCM-321-B-4, being the appropriation provided for the completion of street and park surface restoration over the portion of Eastern parkway, Brooklyn, interfered with in the construction of section 2, route 12, of the Eastern Parkway Rapid Transit Railroad; and that the said sum of fifty-three dollars and sixty-six cents (\$53.66) be credited to Code S-102-C, "Restoring and Repaving, Department of Parks, Brooklyn and Queens," from which the said sum was paid by the Department of Parks in the restoration of the asphalt pavement over a portion of a pipe trench which had been opened across the roadway of Eastern parkway in connection with subway work, the restoration of which pavement was part of the work to be done under the contract for the completion of restoration of street and park surfaces at section 2, route 12, of the Eastern Parkway Rapid Transit Railroad, the cost of said restoration work, done by the Park Department, being chargeable against rapid transit funds; and be it further

Resolved, That the unencumbered balance of twenty thousand nine hundred and eight dollars and eighty cents (\$20,908.80) remaining after the transfer of said fifty-three dollars and sixty-six cents (\$53.66), be and the said amount is hereby *rescinded* and is to be credited back to the general appropriation of corporate stock, CCM-300, heretofore provided by the Board of Estimate and Apportionment for the purpose of meeting the City's obligation under Rapid Transit Contract No. 3.

A communication dated February 3, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, transmitting an original deed of release dated July 21, 1922, executed by Catherine McGrath, granting to the City certain easements in front of the premises No. 20 Ely Avenue, Long Island City, was ordered filed.

187—R. T. 7369, 7005

Route No. 8—Copy of Communication to Receiver of New York Municipal Railway Corporation Directing Installation of Equipment Necessary for Operation of Fourteenth Street-Eastern Line—Filed

A copy of the following communication was ordered filed:

February 2, 1923.

LINDLEY M. GARRISON, AS RECEIVER OF NEW YORK
MUNICIPAL RAILWAY CORPORATION AND NEW YORK
MUNICIPAL RAILWAY CORPORATION,
85 Clinton Street,
Brooklyn, New York.

Sirs:

The rate in the progression of completion of the construction of the portion of the Fourteenth Street-Eastern Line described in the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, between its westerly terminus at or about Sixth Avenue and West 14th Street, in the Borough of Manhattan, and a point in the Borough of Brooklyn at or about the intersection of Bushwick Avenue and Montrose Avenue, is such that prompt initiation and expeditious completion of the installation of the necessary Equipment is essential in order to complete the installation of such Equipment required to be provided for the operation of said line, co-terminous with the completion of the construction of such portion of said line. Especially is this so because of the expiration of the ten-year period of suspension of the obligation under said Contract No. 4 to construct power houses and substations, prior to the time when such line can be placed in operation.

In accordance with the provisions of Article LII of Contract No. 4 this Commission accordingly declares said portion of the Fourteenth Street-Eastern Line to be ready for Equipment and hereby directs you, as Lessee under said Contract No. 4 and in accordance with the provisions thereof, to forthwith commence and expeditiously complete the installation of all Equipment necessary for operation of such portion of said line, including but not limited to power substation, cables and feeders, contact rail and distribution system, signals and interlocking, tunnel lighting, station lighting and heating, telephones and other communication systems, drainage and ventilating equipment, escalators, cars, conduits, etc.

Very truly yours,

LEROY T. HARKNESS,
Acting Chairman.

188—R. T. 7267

Routes Nos. 35 and 67—Report by Chief Engineer as to Approximate Date for Operation of Queensboro Subway Extension to Fifth Avenue Station—Filed

A report by the Chief Engineer dated January 19, 1923, stating that the extension of the Queensboro Subway to Fifth Avenue station could be placed in operation by January 1, 1925, at a cost of \$50,000, was ordered filed.

Contract No. 4—Statements from New York Consolidated Railroad Company of Results of Operation for Month of December, 1922, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

A communication dated February 5, 1923, from the New York Consolidated Railroad Company, by Howard Abel, Comptroller for Lindley M. Garrison, Receiver, submitting statements of Results of Operation for the month of December, 1922, for the period from August 4, 1913 to December 31, 1922, and the status of the Maintenance and Depreciation Funds, under Contract No. 4, was referred to the Chief Accountant.

191

Employees' Resolution No. 127

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment under Rule VIII:4—Edwin J. Gaiser, junior assistant, at \$125.08 per month, to take effect December 20, 1922; Charles B. Pinney, junior assistant, at \$125.08 per month, to take effect February 1, 1923.

Reinstatement under Rule XVI:1—Joseph J. Garlan, inspector of lumber, at \$165.00 per month, to take effect February 5, 1923.

Rescission of Transfer from State Commission of Highways—Gustave Chirlian, junior assistant, at \$125.08 per month, to take effect February 1, 1923.

Resignation (Exempt)—James C. Kellogg, assistant counsel, at \$300.00 per month, to take effect February 14, 1923.

Resignations—Edwin J. Gaiser, junior assistant, at \$125.08 per month, to take effect December 21, 1922; Joseph J. Garlan, inspector of lumber, at \$165.00 per month, to take effect February 5, 1923; Alexander S. Solow, draftsman, at \$150.08 per month, to take effect January 16, 1923.

Leave of Absence with Pay—Charles F. Feddern, draftsman, from December 18, 1922 to January 8, 1923; David Schubert, draftsman, from January 8, 1923 to January 21, 1923; Nettie Zucker, stenographer, from December 29, 1923 to January 14, 1923; January 16, 1923 to January 20, 1923.

192

Voucher Schedule No. 6

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 143-183, open market orders, \$1709.35; Vouchers Nos. 67-74, miscellaneous bills, \$4,475.32; Vouchers Nos. 19 and 20, City payrolls, \$279.00; Voucher No. CM-3, State payrolls, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 30, Eppinger & Russell Co.; approximate estimate No. 1 for the supply of treated ties (Order No. 6) for use in the construction of a part of the Fourteenth Street-Eastern Line from January 1 to January 31, 1923 (R. T. 7503) \$11,341.86;

Voucher No. 31; Station Finish Corporation, Assignee; approximate estimate No. 6 for the construction of station finish on Sections Nos. 3, 4 and 5 of Route No. 8, from January 1st to January 31st, 1923 (R. T. 7516) \$13,269.03;

Voucher No. 32; B. T. & J. J. Mack; approximate estimate No. 8 for the installation of tracks in the Livonia Avenue Yard, Route No. 31, from January 1st to 31st, 1923 (R. T. 7497) \$2,727.90;

Voucher No. 33; John Pollock; approximate estimate No. 1 for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Line, from December 28, 1922 to January 31, 1923 (R. T. 7609) \$1,513.76;

Voucher No. 34; Charles F. Adams & Son, Inc.; approximate estimate No. 7 for the construction of an entrance to Borough Hall Station through isle of safety, Agreement "AZ," January 1, 1923 to January 31, 1923 (R. T. 7466) \$1,619.33;

Voucher No. 35; J. H. Burton & Co., Inc.; approximate estimate No. 21 for storage and hauling of untreated ties and timbers for the rapid transit railroads, from November 1, 1922 to December 31, 1922 (R. T. 6881) \$369.55;

Voucher No. 36; T. H. Reynolds Contracting Co., Inc., approximate estimate No. 2 for the installation of tracks on Sections Nos. 1-5 of Route No. 8, from January 1 to January 31, 1923 (R. T. 7536) \$19,078.83;

Voucher No. 37; Rosenthal Engineering Contracting Co. Inc.; approximate estimate No. 6 for the construction of inspection shed enclosure for Route No. 18 (180th Street Yard) from January 1, 1923 to January 31, 1923 (R. T. 7457) \$11,632.53;

Voucher No. 38; Slattery Engineering & Construction Co., Inc.; approximate estimate No. 3 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3, from January 1, 1923 to January 31, 1923 (R. T. 7366) \$15,104.50.

193

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, February 14, 1923.

ARTHUR MCKINNEY,
Acting Secretary.

Proceedings for Thursday, February 8, 1923

194

The following hearing was held:

11:30 A.M.; R.T. 7636; Draft form of contract for construction of inspection shed and service buildings at Jerome Avenue Yard, Route No. 16. Chairman McAneny presided. Hearing closed.

ARTHUR MCKINNEY,
Acting Secretary.

Proceedings for Wednesday, February 14, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

195—R. T. 7577

Route No. 16—Report by Chief Engineer Recommending Extension of Time to February 1, 1923, within Which to Complete Contract for Installation of Frogs, Switches, Tracks and Bumping Posts in Jerome Avenue Yard—Approval Resolution

A report by the Chief Engineer dated February 8, 1923, recommending that an extension of time be granted to Slattery Engineering and Construction Company, Inc., to and including February 1, 1923, within which to complete work under the contract for the installation of frogs, switches, tracks and bumping posts in the Jerome Avenue Yard, was presented.

The following resolution was adopted:

Whereas, The contract dated October 26, 1922, between The City of New York, acting by the Transit Commission and Slattery Engineering and Construction Company, Inc., for the installation of frogs, switches, tracks and bumping posts in the Jerome Avenue Yard of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, requires the completion of all work thereunder within eight (8) weeks from the date of the delivery thereof, which contract was delivered on October 30, 1922, the last date for completion being December 25, 1922; and

Whereas, The Chief Engineer of this Commission has by communication dated February 8, 1923, reported that all the work contemplated by said contract was completed within the prescribed period except for the installation of one turnout, that for the reasons therein more particularly set forth, this turnout was not completed until February 1, 1923; that the Contractor was not in any way responsible for such delay and recommends therefore that the time of the said contract be extended to and including February 1, 1923.

Resolved, That the said report and recommendation be and the same hereby is approved and that the time within which to complete all the work under said contract aforesaid be and the same hereby is extended to and including February 1, 1923.

196—R. T. 6695, 7530

Routes Nos. 4 and 46—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval of Installation of Signalling and Interlocking Equipment North of Times Square Station—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Classifying Work—Approval Resolution

A report by the Engineer of Equipment and Operation and the Chief Engineer dated January 16, 1923, recommending approval of the installation by the New York Municipal Railway Corporation of signalling and interlocking equipment to be installed in the express track north of Times Square Station of the Broadway-Fourth Avenue Line, at an estimated cost of \$3,700.00, was presented.

A report by the Auditor of Rapid Transit Costs and Assistant Chief Accountant dated February 7, 1923, classifying the work as Equipment of the Railroad for Initial Operation, was also presented.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, Lindley M. Garrison, as Receiver of said New York Municipal Railway Corporation, has submitted for the approval of this Commission his proposal to install signal and interlocking equipment for the additional crossover to be installed in the express track north of the Times Square Station of the Broadway-Fourth Avenue Line in the Borough of Manhattan, as Equipment, as defined in said Contract No. 4; and

Whereas, By communication dated January 16, 1923 the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the total cost of the signalling and interlocking apparatus is estimated to be \$3700; that such work is necessary because of the installation of said crossover and will include the provision of an additional signal with its automatic stop, together with the necessary switching machines and the associated wiring, and recommend that the said proposal be approved; and

Whereas, By communication dated February 7, 1923 the Auditor of Rapid Transit Costs and the Assistant Chief Accountant have reported recommending the approval of such proposal and that such work be classified as Equipment of the Railroad for Initial Operation,

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal so submitted be and the same hereby is approved, such work to be classified as Equipment of the Railroad for Initial Operation in accordance with the provisions of said Contract No. 4.

197—R. T. 6080

Contract No. 3—Report by Real Estate Clerk Recommending Termination of Rental Agreement with James R. Ashley and Everett L. Booth as Tenants of Property at 146th Street-147th Street, Lenox Avenue and Harlem River—Approval Resolution

A report by the Real Estate Clerk dated February 9, 1923, recommending termination of the rental agreement with James R. Ashley and Everett L. Booth, effective as to the northerly portion of the block 146th Street-147th Street, Lenox Avenue and the Harlem River, on March 16, 1923, and as to the southerly portion of the block on April 16, 1923, was presented.

The following resolution was adopted:

Whereas, James R. Ashley and Everett L. Booth are in possession of the vacant land belonging to The City of New York, under the jurisdiction of the Commission, between Lenox Avenue and the Harlem River, West 146th and West 147th Streets,

in the Borough of Manhattan, by virtue of a rental agreement duly approved by the Commission June 28, 1921; and

Whereas, The Real Estate Clerk, under date of February 9, 1923, has reported that the Engineering Department has notified him that this area of land will be required for the purposes for which it was acquired, recommending that the rental agreement with the said James R. Ashley and Everett L. Booth be cancelled effective as to the northerly half of the area on March 16, 1923, and as to the southerly half of the area on April 16, 1923, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, terminate the said rental agreement, and that it do, and hereby does, authorize and direct the Secretary to notify the said James R. Ashley and Everett L. Booth to vacate the northerly half of the area of land herein referred to by 12:00 o'clock noon on March 16, 1923, and to vacate the southerly half of said area by 12:00 o'clock noon on April 16, 1923; and it is further

Resolved, That the Real Estate Clerk be, and he hereby is, authorized and directed to make the requisite adjustments of rental due from the said James R. Ashley and Everett L. Booth.

198—R. T. 7583

Route No. 39, Section No. 2—Report by Real Estate Clerk Recommending Notice to the Coney Island & Brooklyn Terminal Company to Remove All Personal Property from Yard Site North of Coney Island Creek and West of Shell Road, in Borough of Brooklyn—Approval Resolution

A report was presented from the Real Estate Clerk dated February 10, 1923, recommending that a notice be directed to the Coney Island & Brooklyn Terminal Company to remove all personal property from the site of the yard north of Coney Island Creek and west of Shell Road, Borough of Brooklyn, by March 1, 1923, which property was acquired by the City on February 1, 1923.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of February 10, 1923, has reported that there appears to be personal property in the ownership of The Coney Island & Brooklyn Terminal Company on the land acquired by The City of New York in condemnation on February 1, 1923, and that the said land was before that date in the ownership of the said The Coney Island & Brooklyn Terminal Company, recommending that The Coney Island & Brooklyn Terminal Company be notified to remove from the said land all personal property that it may own by not later than 12:00 o'clock noon on March 1, 1923, in which recommendation Counsel has concurred; submitting a form of notice to the said The Coney Island & Brooklyn Terminal Company:

Resolved, That the Commission do, and it hereby does, authorize and direct the Secretary to notify The Coney Island & Brooklyn Terminal Company to remove all of the personal property that may belong to it from the land acquired by The City of New York in condemnation proceedings on February 1, 1923, north of Coney Island Creek and west of Shell Road, in the Borough of Brooklyn, which said land before that date belonged to the said The Coney Island & Brooklyn Terminal Company, by not later than 12:00 o'clock noon on March 1, 1923.

199—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Acceptance of Bid for Construction of Brick Stack at 59th Street Power House—Report by Consulting Engineer and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated January 20, 1923, requesting approval of the acceptance of the bid of Alphons Custodis Construction Company of \$27,280 for the construction of a radial brick stack known as Chimney No. 6 at the 59th Street Power House.

A report was presented from Consulting Engineer Dr. Charles E. Lucke and the Chief Engineer dated February 9, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By resolution adopted by this Commission on September 7, 1922, the application of the Interborough Rapid Transit Company for the approval of an expenditure of approximately \$262,260 for the installation of Additional Equipment as described in the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, said Additional Equipment consisting of approximately \$135,000 for an additional stack at the 59th Street Power House, including alterations in steel work, floor and foundations; \$37,000 for additional D. C. cables and \$90,260 for new equipment and appurtenances to be installed incidental to the transfer of certain rotaries between substations of such work contemplated to provide additional power for the operation of additional cars, was approved and as to which approval this Commission assigned, in accordance with the provisions of said Contract No. 3, Work Order No. IBA-7; and

Whereas, By resolution adopted November 14, 1922 this Commission approved the proposed contracts together with the specifications and drawings made part thereof, for the construction of said Additional Stack (Chimney No. 6) at the 59th Street Power House aforesaid; and

Whereas, By communication dated January 20, 1923, the Interborough Rapid Transit Company has notified this Commission that bids were solicited in accordance with the specifications approved as aforesaid and that the Alphons Custodis Construction Company in presenting its bid for lining the steel stack also presented a bid for a Radial Brick Stack and showed that it was quite practical to build it; that subsequently bids were asked by Interborough Rapid Transit Company upon specifications prepared by it for such brick chimney and the following bids were received:

Alphons Custodis Construction Co.....	\$27,280.
M. W. Kellogg Co.....	28,388.
Heine Chimney Co.....	30,400.

; that the estimated cost of changes in roof to accommodate the enlarged stack and the lightning arresters amounts to \$2,700, which together with the low bid aforesaid amounts to \$29,980; that the lowest bid received for the steel stack amounted to \$30,164 and requested this Commission to approve of the award of the said proposed contract for the construction of said Chimney No. 6 of Radial Brick instead of steel; and

Whereas, By communication dated February 9, 1923, the Consulting Engineer on Power and the Chief Engineer of this Commission have reported with respect to said request of the Interborough Rapid Transit Company contained in its communication of January 20, 1923, that their investigation indicates that the brick stack to be constructed pursuant to the specifications therefor is suitable and adaptable for the purpose; that the price is reasonable and recommend that the said application of Interborough Rapid Transit Company for the approval of the award of said proposed contract to the Alphons Custodis Construction Company for the construction of said Radial Brick Stack be granted,

Resolved, That the said report and recommendation be and the same hereby are approved; that the application of Interborough Rapid Transit Company for the award of said proposed contract approved as aforesaid on November 14, 1922 for the construction of said Chimney No. 6 at the 59th Street Power House in accordance with the specifications of Interborough Rapid Transit Company for a Radial Brick Stack be and the same hereby is approved.

200—R. T. 7267

Routes Nos. 35 and 67—Communication from Counsel Transmitting Proposed Agreement for Changes in Ventilator Chamber in Front of Premises at Nos. 107-117 West 41st Street—Approval Resolution

A communication was presented from Counsel dated February 14, 1923, transmitting a proposed agreement with The James McCreery Realty Corporation providing

for a modification in the construction of a ventilator chamber in front of the premises at Nos. 107-117 West 41st Street, Borough of Manhattan, together with a check in the sum of \$900.00 as payment by the owner for the work.

The following resolution was adopted:

Whereas, Counsel, with his letter dated February 14, 1923, has submitted to this Commission a proposed agreement between The City of New York, acting by the Transit Commission, and The James McCreery Realty Corporation for the construction, maintenance and operation of a ventilator chamber in such manner as to avoid removing or disturbing the sidewalk elevator and elevator well, located in front of the premises Nos. 107-117 West Forty-first Street in the Borough of Manhattan, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

201—R. T. 6080

Route No. 5, Section No. 15—Application by A. Vinci Caruso for Permission to Occupy Premises on Easterly Side of River Avenue South of East 157th Street, Borough of The Bronx, at Increased Rental—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from A. Vinci Caruso dated February 8, 1923, for permission to continue in occupancy of the premises on the easterly side of River Avenue south of East 157th Street, Borough of The Bronx, at an increased rental from \$65 per month to \$100 per month.

A report was presented from the Real Estate Clerk dated February 14, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, A. Vinci Caruso (Alfonso Vinci and Giuseppe Caruso) by communication dated February 8, 1923, has proposed to increase the present rental from \$65 to \$100 per month beginning March 1, 1923, and \$110 per month beginning January 1, 1924, if allowed to remain in possession of the premises after that date, on consideration of being allowed to use the portion of the premises not now occupied as a stone-yard for the parking of automobiles, the other terms of the existing rental agreement to remain as at present; and

Whereas, The Real Estate Clerk, under date of February 14, 1923, has reported on this application for a variation in the terms of the existing rental agreement recommending approval, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the variation in rent as set forth in the said communication dated February 8, 1923, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said communication of February 8, 1923.

202—R. T. 7409, C. 20410

Communication from Board of Estimate and Apportionment Submitting Communications as to Guard Rails at Canal Street Station and as to Discontinuance of Street Car Service on 34th Street, Manhattan—Referred to Chairman

The following communication, with the enclosures mentioned therein, was referred to the Chairman:

[February 14, 1923

February 9, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

I transmit herewith copies of the following described communications:

(Cal. No. 150.)

Communication dated January 30, 1923, from the Bath Beach Community Council, submitting additional information relative to the need of installing guard rails at the Canal Street subway station, Borough of Manhattan, to prevent accidents.

(Cal. No. 151.)

Communication dated January 27, 1923, from E. P. Flower, Superintendent of the French Line, Pier 74, North River, enclosing copy of petition to the New York Railways Company, signed by the business men of the district adjacent to 34th Street and 11th Avenue, Borough of Manhattan, protesting against the discontinuance of the street surface car service on 34th Street and 11th Avenue after 7 o'clock P. M., and all day Sunday.

At the meeting of the Board of Estimate and Apportionment on February 9, 1923, these matters were referred to the Transit Commission.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

203—R. T. 7594

Routes Nos. 4 & 36 and 71—Report by Chief Engineer Recommending Preparation of Plans for Extension of Broadway Line so as to Permit Operation of Express Tracks to 57th Street Station—Opinion by Counsel Stating Extension May Be Built as Part of Broadway Line—Approved

A report was presented from the Chief Engineer dated February 6, 1923, recommending that he be authorized to prepare plans and contract for the extension of the Broadway Line under Central Park so as to permit the extension of express service to the 57th Street Station and that the construction be built along the line of proposed Route No. 71.

An opinion was presented from Counsel dated February 7, 1923, stating that the extension may be built as part of the Broadway Line, Routes Nos. 4 & 36 and that no further proceedings will be necessary to legalize the construction.

Upon motion, duly seconded and adopted, the Chief Engineer was directed to prepare plans and contract for the extension and to adhere to the proposed alignment of Route No. 71.

204—R. T. 6458

Contract No. 1—Report by Counsel Submitting Question as to Authorization for Construction of Additional Entrance to 96th Street Station—Motion Directing Work Be Done as Addition under Contract No. 3

A report was presented from Counsel dated February 9, 1923, submitting a question as to the authorization for the construction of an additional entrance to the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad as to whether the work should be done as Extra Work under Contract No. 1 or as an Addition under Contract No. 3.

Upon motion, duly seconded and adopted, it was directed that an agreement be prepared providing that the work be done as an Addition under Contract No. 3.

205—Case 2673

Ocean Electric Railway Company—Application for Authority to Issue Capital Stock—Hearing Order Adopted

The Acting Secretary presented:

- (1) Petition of the Ocean Electric Railway Company verified February 2, 1923, for the approval of an increase of its capital stock from \$50,000 to \$315,000.
- (2) Report by the Chief Accountant stating that there is no objection to the proposed increase.

The Commission adopted and ordered filed an Order in Case No. 2673, directing a hearing on said application before George L. Lucas, Acting Chief Executive Officer, therein duly designated to conduct the same on March 2, 1923, at 10:30 A. M.

206

Fifth Avenue Coach Company—Temporary Franchise—Filed

The Acting Secretary presented a resolution of the Board of Estimate and Apportionment, dated January 26, 1923, granting the Fifth Avenue Coach Company permission temporarily to operate stages or omnibuses along 57th Street to Park Avenue and along Park Avenue and Fourth Avenue to Astor Place; also along 38th Street between Fifth and Park Avenues, in the Borough of Manhattan.

The Commission ordered said document filed.

207—R. T. 7626

Route No. 8, Section No. 6-A1—Notice by Chief Engineer of Commencement of Work—Filed

A notice from the Chief Engineer dated February 10, 1923, advising of the commencement of work by Frederick L. Cranford, Inc. on February 5, 1923, for the construction of Section No. 6-A1 of Route No. 8 of the Fourteenth Street-Eastern Line, was ordered filed.

208—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Submitting List of Sub-contracts Approved during Month of January, 1923—Filed

The following report by the Chief Engineer was ordered filed:

TO TRANSIT COMMISSION:

February 10, 1923.

I submit, as follows, a list of sub-contracts approved by this Department during the month of January.

Route No.	Section No.	Contractor	Sub-contractor	Date of Approval	Materials
8	1 to 5 Inclusive, Track Installation.	T. H. Reynolds Cont. Co., Inc.	Goodwin - Gallagher Sand & Gravel Corp.	1/20/23	Sand & Gravel, T. C. Inspected.
			Lawrence Cement Co.	1/20/23	Portland Cement, T. C. Inspected.
			New York Trap Rock Corp.	1/20/23	Ballast, T. C. Inspected.
			Concrete Steel Co.	1/20/23	Reinforcing Rods, T. C. Inspected.

[February 14, 1923

Route No.	Section No.	Contractor	Sub-contractor	Date of Approval	Materials
18	239th St. Yard Installation of tracks (including furnishing part of track materials and construction of drainage system and concrete inspection pits).	Michael Del Balso	Noonan Building Material Co.	1/12/23	"Lehigh" Portland Cement, T. C. Inspected.
35 & 67		Powers-Kennedy Cont. Corp.	Hunterspoint Lumber & Supply Co.	1/18/23	Gravel, T. C. Inspected.
	Agreement "AZ"—Entrance to Borough Hall Station through Isle of Safety.	Chas. J. Adams & Sons, Inc.	Sicilian Asphalt Paving Co.	1/5/23	Asphalt top.
	Agreement "CD"—Transformer closets for Emergency lighting.	John Pollock	Benjamin Moore & Co. J. P. Duffy Company. N. Ryan Co.	1/27/23 1/8/23 1/8/23	Paint. Hollow tile and brick. Sand, gravel and cement.
			Standard Iron Works.	1/18/23	Type J & J T doors and ladders.
			Knoburn Fire-proof Co.	1/18/23	Kalamein work.
	Second Addition to Shops, 148th St. and Lenox Ave. Yard.	Jacob Schlesinger, Inc.	Fireproof Products Co.	1/31/23	50 1/2" Gabriel Ovoid Bars in place of Have-meyer Bars previously approved.
	Third Addition to Shops, 148th St. and Lenox Ave. Yard — Constructing Foundations.	Rosenthal Engineering Cont. Co., Inc.	International Clay Products Co.	1/4/23	Vitrified clay conduits.
			Theodore C. Wood, Inc.	1/4/23	"Lehigh" and "Vulcanite" Portland cement.
			Theodore C. Wood, Inc.	1/4/23	Brick and lime.
			Dixie Lumber Co.	1/4/23	Piles.
			Colonial Sand & Stone Co.	1/4/23	Sand and Gravel.
			John Fox & Co.	1/4/23	Miscellaneous iron castings.
			Concrete Steel Co.	1/4/23	Reinforcing rods.
			Valcan Rail & Construction Co.	1/4/23	Structural steel.
			John Fox & Co.	1/4/23	Cast-iron pipe and special castings.
			Liomin & Wales	1/10/23	Metal forms.
			H. Johnson	1/10/23	Pile Driving.
			Frank White	1/10/23	Waterproofing.
	Contract No. 1, 168th St. Station.	Holbrook, Cabot & Rollins Corp.	Russell & Erwin Manfg. Co.	1/30/23	Hardware.

ROBERT RIDGWAY,
Chief Engineer.

209—R. T. 7587

Agreement "CA"—Certified Copy of Resolution of Board of Estimate and Apportionment Rescinding Sum of \$9,655.00 Appropriated for Transformer Closets—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on February 2, 1923, was ordered filed:

(Cal. No. 167-A)

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on November 3, 1922, consenting to a contract with Seymour Construction Co., Inc., for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Rapid Transit Railroad, in the Borough of Manhattan, at an estimated cost of nine thousand six hundred and fifty-five dollars (\$9,655), and authorizing an issue of corporate stock in a like amount (as a subauthorization against the funds appropriated for Contract No. 4), to be applied to the purposes of said contract, be and the same hereby is *rescinded*.

A true copy of resolution adopted by the Board of Estimate and Apportionment, February 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

210—R. T. 7587

Agreement "CA"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Construction of Transformer Closets and Authorizing Appropriation of \$13,428.00—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on February 2, 1923, was ordered filed:

(Cal. No. 167-B)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated January 23, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with B. T. & J. J. Mack, Inc., for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Boroughs of Manhattan and Queens, Agreement "CA," at an estimated cost of thirteen thousand four hundred and twenty-eight dollars (\$13,428); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be thirteen thousand four hundred and twenty-eight dollars (\$13,428); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding thirteen thousand four hundred and twenty-eight dollars (\$13,428), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, February 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated February 8, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

211

Expenses—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$200,000 as Expenses for Year Ending December 31, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on January 31, 1923, was ordered filed:

(Cal. No. 17)

Resolved, That the Board of Estimate and Apportionment, in accordance with the requisition of the Transit Commission dated December 7, 1922, and pursuant to the provisions of chapter 134 of the Laws of 1921, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby authorizes an appropriation in the sum of two hundred thousand dollars (\$200,000), in addition to the amount heretofore appropriated, to properly enable the Transit Commission to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by the said law; and the Comptroller is hereby authorized, pursuant to law and the said requisition of the Transit Commission, to issue special revenue bonds of The City of New York to an amount not exceeding two hundred thousand dollars (\$200,000), redeemable from the tax levy of the year next succeeding the year of their issue, the proceeds to be used for the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, January 31, 1923.

JAMES MATTHEWS,
Assistant Secretary.

212

Employees' Resolution No. 128

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect February 13, 1923; Mervil Broadbent, engineering inspector, at \$150.08 per month, to take effect February 13, 1923.

Resignations—Louis S. Amreich, junior assistant, at \$125.08 per month, to take effect February 15, 1923; Jacob Berman, draftsman, at \$150.08 per month, to take effect February 7, 1923; James Bousfield, draftsman, at \$150.08 per month, to take effect February 3, 1923.

Promotion—Harvey Malcolm, draftsman, from \$137.50 to \$150.08 per month, to take effect January 1, 1923.

Change of Item in Resolution of January 9, 1923, Concerning Gussie Siebel, so as to Read as Follows: (Leave of absence with pay)—Gussie Siebel, clerk, from February 6, 1923 to February 14, 1923; from March 1, 1923 to March 15, 1923; from April 1, 1923 to April 15, 1923; from May 1, 1923 to May 5, 1923.

Leave of Absence Without Pay—Gussie Siebel, clerk, from February 15, 1923 to February 28, 1923; from March 16, 1923 to March 31, 1923; from April 16, 1923 to April 30, 1923.
and be it further

Resolved, That all bonus payments shall cease and in each case the amount thereof shall be added to the base salary of the employee, effective January 1, 1923.

213

Voucher Schedule No. 7

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 184-195, open market orders, \$3,145.84; Vouchers Nos. 75-96, miscellaneous bills, \$2,661.76; Vouchers Nos. 21-29, City payrolls, \$86,145.29.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Railroads for the Periods Indicated Below:

- Voucher No. 39; Michael Del Balso, approximate estimate No. 1 for the installation of tracks, including the furnishing of part of the track materials and the construction of drainage system and concrete inspection pits for a portion of the White Plains Road Line, 239th Street Yard, from November 25, 1922 to January 31, 1923 (R. T. 7528) \$29,948.40;
- Voucher No. 40; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 8 for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad of the City of New York, from January 1, 1923 to January 31, 1923 (R. T. 6114) \$9,224.54;
- Voucher No. 41; Lindley M. Garrison, Receiver, New York Municipal Railway Corporation; approximate estimate No. 1, and final, for additional bracing of the elevated structure at Tenth Avenue and 39th Street, Route No. 39, Section No. 2, to February 6, 1923 (R. T. 7543) \$4,947.19;
- Voucher No. 42; Powers-Kennedy Contracting Corporation; approximate estimate No. 8 for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 & 67, 41st and 42nd Streets, 8th Avenue to Vanderbilt Avenue, from January 1, 1923 to January 31, 1923 (R. T. 7584) \$43,013.53;
- Voucher No. 43; Frederick L. Cranford, Inc.; approximate estimate No. 7 for the reconstruction of a part of Section No. 3 of Route No. 33, Completion of the Lawrence Street station, from January 1, 1923 to January 31, 1923 (R. T. 7454) \$19,879.12;
- Voucher No. 44; Joslin Construction Company, Inc.; approximate estimate No. 6 for the reconstruction of a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, Jackson Avenue station, from January 1, 1923 to January 31, 1923 (R. T. 7556) \$10,059.75;
- Voucher No. 45; Rapid Transit Subway Construction Company, Inc., Assignee; for third installation on account of the net amount of \$2,260,534.58, to be paid by the City to Rapid Transit Subway Construction Co., under award of arbitration made under date of February 2, 1912 (R. T. 7007) \$270,139.00;
- Voucher No. 46; George Colon & Co.; approximate estimate No. 8 for the construction of Union Square Passageway connection station, Route Nos. 5 and 8 of the Broadway-Fourth Avenue line and the 14th Street-Eastern Rapid Transit Railroads, from January 1, 1923 to January 31, 1923 (R. T. 7513) \$1,262.55.

FRANK N. ROBINSON,

Acting Secretary.

Proceedings for Tuesday, February 20, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

214—R. T. 6458

Contracts Nos. 1 and 3—Proposed Form of Agreement for Construction of Additional Entrance at Southerly End of 96th Street Station—Approval Resolution—Requisition upon Board of Estimate and Apportionment for \$55,000 as City's Share

A proposed form of agreement was presented, providing for the construction of an additional entrance at the southerly end of the 96th Street station of the Manhattan-Bronx Rapid Transit Railroad, Contract No. 1, to be built as an Addition to Existing Railroads under Contract No. 3, at a cost of \$110,000.

The following resolution was adopted:

Whereas, The Transit Commission at its meeting of April 25, 1922, referred to Counsel to the Commission the report dated April 22, 1922, of the Engineer of Equipment and Operation and the Chief Engineer of this Commission relative to the construction of an additional entrance at the southerly end of the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads as an Addition to Construction under and in accordance with the provisions of the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, the plans for which work were transmitted to Counsel on December 5, 1922 by the Chief Engineer of this Commission; and

Whereas, The Auditor of Rapid Transit Costs of this Commission by communication dated July 25, 1922 has recommended that such work be classified as an Addition to the Existing Railroads and that the Commission assign thereto Work Order No. ICcA-1, in accordance with the provisions of said Contract No. 3; and

Whereas, Counsel has prepared and now submits a proposed agreement which will effect the direction of the Commission and the recommendations aforesaid and has also submitted a proposed requisition upon the Board of Estimate and Apportionment for the consent of said Board to the said proposed agreement and the appropriation of one-half of the estimated cost of the work thereunder.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the proposed agreement so submitted be and the same hereby is approved; that in accordance with the provisions of Articles LXX and LXXI of said Contract No. 3, Interborough Rapid Transit Company be and hereby is ordered to perform the work of constructing the said additional entrance herein and in said proposed agreement described, in accordance with the provisions of said proposed agreement as an Addition to the Existing Railroads as described in said Contract No. 3 and as to which unit of work this Commission assigns Work Order No. ICcA-1.

Further Resolved, That said proposed agreement together with the form of requisition now presented by Counsel be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 20, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Board of Estimate and Apportionment, on June 4, 1915, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby denies the request of the Public Service Commission for the First District, transmitted to this Board on March 30th, 1915, for the authorization of sixty thousand dollars (\$60,000) corporate stock for the purpose of providing an additional stairway at the ninety-sixth street station of the Manhattan-Bronx Rapid Transit Railroad, it being the opinion of this Board that the prospective operation of this and the new transportation lines under the terms of Contract No. 3, will so relieve conditions as to obviate the necessity for the proposed stairway."

The Transit Commission finds that the relief anticipated in the opening of the additional lines under Contract No. 3 at the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad has not materialized and that the conditions at the said station have been the subject of several complaints. From the investigation and reports of its Engineers the Commission is convinced that increased facilities to this station in the form of an additional stairway are urgently needed.

The Transit Commission accordingly, by resolution adopted on February 20, 1923 has ordered, pursuant to the provisions of Articles LXX and LXXI of Contract No. 3, the Interborough Rapid Transit Company, as Lessee thereunder, to construct an additional stairway to the southerly end of the 96th Street station of the Manhattan-Bronx Rapid Transit Railroad, being a part of the Existing Railroads as defined in said Contract No. 3. In accordance with said provisions the cost of Additions to Construction of the Existing Railroads is required to be borne equally by the City and the Lessee. A certified copy of said resolution is transmitted herewith.

The Commission has prepared and transmits herewith a proposed agreement (standard in form) between The City of New York, acting by the Transit Commission, and the Interborough Rapid Transit Company, as Lessee under Contract No. 3, for the purpose of carrying out the work of constructing this additional stairway to said station. This agreement is prepared and submitted in accordance with the expressed requirements of your Honorable Board in respect to the performance of units of work of Additions to Construction under Contract No. 3 where the Lessee is ordered to perform the work.

The Engineers estimate the cost of this work to be one hundred and ten thousand dollars (\$110,000).

Your Honorable Board is accordingly requested to consent to the proposed agreement herewith transmitted between The City of New York and Interborough Rapid Transit Company for the performance of the work of constructing the additional stairway at the southerly end of the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads as an Addition to Construction in accordance with the provisions of said Contract No. 3, and requisition is made for the appropriation of the sum of fifty-five thousand dollars (\$55,000), being one-half of the estimated cost of carrying out said work, which represents the City's obligation with respect to such character of work in accordance with said Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

215—R. T. 7645

Route No. 18, Section No. 2—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Construction of Single Duct Line in 239th Street Yard—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Recommending Approval—Proposed Stipulation with Interborough Rapid Transit Company—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 19, 1922, recommending the construction of a duct line in the 239th Street Yard for the joint use of the Interborough Rapid Transit Company as lessee of the municipal rapid transit railroads and as lessee of the elevated railroads.

A report was also presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated November 1, 1922, recommending that the duct line be built.

A proposed stipulation with the Interborough Rapid Transit Company was also presented, providing for the construction of the duct line, whereby the Interborough Rapid Transit Company is to pay 30% of the cost and to pay an annual rental charge of \$100 per annum for such portion as may be used for Manhattan Railroad purposes.

The following resolution was adopted:

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated October 19, 1922, recommended the construction of a single duct line in the 239th Street Yard of the railroad described in Contract No. 3 for the joint use of the Interborough Rapid Transit Company, as lessee of the municipal rapid transit railroads and also as lessee of the elevated railroads, which proposal has been approved by the Auditor of Rapid Transit Costs and the Assistant Chief Accountant by communication dated November 1, 1922; and

Whereas, There has been submitted to Counsel a proposed stipulation executed by Interborough Rapid Transit Company providing for the construction of said duct line within the limits of the city-owned yard at 239th Street and White Plains Road, whereby Interborough Rapid Transit Company obligates itself to pay 30% of the cost of said duct line and to pay an annual rental charge of \$100 per annum for

such portion thereof as may be used for Manhattan Railroad purposes, the terms of which proposed stipulation have been approved by the Engineers of this Commission and the form of which proposed stipulation has been approved by Counsel to this Commission who has recommended its adoption and transmission to the Board of Estimate and Apportionment for the consent of said Board thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved and that the said proposed stipulation so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment for the consent of said Board.

Further Resolved, That the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed stipulation if and when consented to by the Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 20, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The City of New York, acting by this Commission, is, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, constructing, as a part of the railroad therein described, the so-called 239th Street Yard in the general vicinity of 239th Street and White Plains Road. Immediately contiguous to the site upon which the city-owned yard is being constructed the Interborough Rapid Transit Company owns a site upon which, as lessee of the Manhattan Railroads, it is constructing or will construct a terminal storage yard for the use of its elevated cars pursuant to the provisions of the certificate dated March 19, 1913, granted to Interborough Rapid Transit Company for certain elevated extensions.

In connection with the construction of the City yard in this locality it will be necessary to construct a duct line. If and when the Manhattan Yard is constructed it will also be necessary to construct a duct line. The Interborough Rapid Transit Company has proposed, as mutually desirable and economical, the construction of a single duct line wholly within the limits of the City yard of sufficient capacity to serve both of said yards rather than to construct separate duct lines within each of said yards.

The Engineers and the Accountants of the Commission have approved such a proposal and have recommended its adoption by the Commission.

There has accordingly been prepared a proposed stipulation which has been approved and executed by the Interborough Rapid Transit Company and approved subject to the consent thereto by your Honorable Board by the Transit Commission. The proposed stipulation provides for the construction of such duct line by the City within the limits of the City yard. The Interborough Company agrees to pay 30% of the cost of the construction of said duct line and will also pay as rental for the occupation of the 239th Street Yard for the portion of the duct line used by it the sum of One hundred dollars (\$100) per annum, which sum the Engineers of the Commission consider reasonable for the extent to which said duct line will be used by the Interborough Rapid Transit Company, as lessee of the Manhattan Railroads.

The actual work of constructing the duct line will be prosecuted pursuant to a contract to be advertised and entered into by the Commission with the consent of your Board. It will therefore not be necessary at this time to appropriate any money for the purposes of the proposed stipulation transmitted herewith.

Your Honorable Board is requested to consent to said proposed stipulation effecting the foregoing purpose in relation to the duct line so to be constructed for the joint use of the city-owned and company-owned storage yards.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

216—R. T. 7419

Contracts Nos. 3 & 4—Application by Charles H. Brown & Son Corporation, Second Lowest Bidder, Requesting Return of Certified Check Deposited with Bid for Completion of Built-in Newsstand Enclosures—Application Granted

The Commission granted the application of Charles H. Brown & Son Corporation, second lowest bidder, dated February 9, 1923, requesting the return of the certified check in the sum of \$500 deposited with its bid on January 25, 1923, for the completion of built-in newsstand enclosures at stations.

217—R. T. 7587

Agreement "CA"—Resolution Approving Sureties upon Bond in Sum of \$2,000 Deposited by Contractor as Security for Construction of Transformer Closets for Emergency Lighting—Adopted

The following resolution was adopted:

Resolved, That the Royal Indemnity Company and the Aetna Casualty and Surety Company be and hereby are approved as sureties upon the bond in the sum of Two thousand (\$2,000) dollars deposited by B. T. & J. J. Mack, Inc. as security for the faithful performance of the contract for the construction of transformer closets for emergency lighting in a part of the Broadway-Fourth Avenue Rapid Transit Railroad in the Borough of Manhattan, each of said sureties being held and bound in the sum of One thousand (\$1,000) dollars.

218—R. T. 7528

Route No. 18—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Beveled Blocks under Contract for Installation of Tracks, etc., at 239th Street Yard—Approval Resolution

A report by the Chief Engineer dated February 10, 1923, recommending the establishment of a supplementary schedule item, as described below, was approved and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item No. 3000 of the contract dated November 14, 1922 between The City of New York, acting by the Commission, and Michael DelBalso, for the installation of tracks for the 239th Street Yard, Route 18, having subject to the approval of the Commission agreed with the said Contractor upon the following schedule item:

Item No. 1-X For the work of manufacturing approximately 300 beveled blocks of the dimensions directed by the Engineer in the field from City's material stored in the Brooklyn Yard of Cross, Austin & Ireland and the delivery of the finished blocks to the Works, the price of Seventy-five cents (75c) each.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

219—R. T. 7007

Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Suggesting Amendment to Resolution of December 19, 1922, so as to Substitute Certain Cars upon Which to Install Multiple Door Control—Amending Resolution

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 14, 1923, suggesting that the resolution of December 19, 1922, be amended so as to substitute the numbers of certain cars upon which multiple door control is to be installed.

The following resolution was adopted:

Whereas, By resolution adopted December 19, 1922 this Commission approved the application of Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 3, for the installation of a multiple door control on 396 additional subway high voltage cars, such work to be performed as an Addition pursuant to the provisions of Articles LXX and LXXI of Contract No. 3, and assigned thereto Work Order No. ICqA-1, said resolution specifically indicating the cars upon which said device would, pursuant to said approval, be installed; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated February 14, 1923, reported with respect to said resolution as follows:

"The Commission under date of December 19, 1922 approved the installation of multiple door control on 396 high voltage control cars forming part of Equipment under Contracts Nos. 1 and 2. Under date of February 7, 1923, I have been advised that the company has made a different selection of cars upon which this door control is to be installed. Accordingly, I suggest that the approval resolution adopted on December 19, 1922 be changed by substituting in place of cars #4392 and #4393, mentioned in the resolution, cars #4382 and #4386.

; and

Whereas, Said resolution of December 19, 1922 was, by resolution adopted January 16, 1923, modified by striking therefrom "4383-4514" and substituting in place thereof "4224, 4269, 4312, 4333, 4353, 4388-4514,"

Resolved, That the said report as herein set forth be and the same hereby is approved; that the resolution of December 19, 1922, as amended by the resolution of January 16, 1923, be so amended as follows: By striking therefrom "4388-4514" and substituting in place thereof "4382, 4386, 4388-4391, 4394-4514."

Further Resolved, That said resolution, except as herein and in the resolution of January 16, 1923 modified, shall remain in all respects as adopted on December 19, 1922.

220—R. T. 6080

Fourth Avenue Subway—Application of Abraham Brown for Modification of Rental Agreement for Occupation of Premises on Easterly Side of Rockwell Place South of Fulton Street, Borough of Brooklyn—Report by Real Estate Clerk Approving—Approval Resolution

An application was presented from Abraham Brown dated January 31, 1923, requesting a modification of the rental agreement approved on September 13, 1922, for the premises on the easterly side of Rockwell Place south of Fulton Street, Borough of Brooklyn, so as to add 70 square feet to his present concession at an increase in rental from \$40 to \$50 per month.

A report was presented from the Real Estate Clerk dated February 17, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Abraham Brown by communication dated January 31, 1923, has made application for permission to add 70 square feet to his present concession in order to straighten out the partition wall between his concession and that of Samuel Nehemiah, another tenant of this Commission, affecting the premises on the easterly side of Rockwell Place, 133' 5" more or less south of Fulton Street, Borough of Brooklyn, agreeing to increase his rent from \$40.00 to \$50.00 per month, the other terms of his existing rental agreement with the Commission to remain unaffected, the increased rental to be effective as of March 1, 1923; and

Whereas, The Real Estate Clerk, under date of February 17, 1923, has reported on this application recommending that it be approved, in which recommendation Counsel has occurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid request of Abraham Brown for a modification in his existing rental agreement, and

that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on the said communication from Abraham Brown, and that the Real Estate Clerk, be and he hereby is, authorized to make such adjustment with the holders of adjoining concessions from the Commission as will be necessary under the circumstances to conserve the City's interests.

221—R. T. 6594

Route No. 48, Section No. 2—Reports by Chief Engineer Recommending Increased Facilities at Wall Street Station—Approval Resolution—Requisition upon Board of Estimate and Apportionment for \$32,750 as City's Share

Reports from the Chief Engineer dated December 7, 1922 and February 13, 1923 were presented wherein it was recommended that a new mezzanine, platform railings and rearrangement of stairways of the Wall Street Station of the Seventh Avenue Line be performed at an estimated cost of \$65,500.

A proposed form of agreement was submitted by Counsel providing for the construction of the increased facilities as Additions to Construction under Contract No. 3 and as to which Work Order No. IAA-6 was assigned.

The following resolution was adopted:

Whereas, This Commission by resolution adopted February 1, 1922, directed Interborough Rapid Transit Company, pursuant to the provisions of Articles LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3, to construct as Additions to Construction a protective railing and additional stairway at the Wall Street Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3, which resolution, together with a requisition for the appropriation of one-half of the cost of such work, was transmitted to the Board of Estimate and Apportionment, which Board, at its meeting of November 10, 1922, referred back said matter for the purpose of including it in an agreement required by said Board; and

Whereas, The Chief Engineer of this Commission, by communication dated December 7, 1922 and February 13, 1923, has recommended that the work at said station be increased so as to include a mezzanine and additional entrance at said Wall Street Station; and

Whereas, Counsel has prepared and submitted a proposed agreement between The City of New York, acting by this Commission and Interborough Rapid Transit Company as Lessee under said Contract No. 3 so as to provide for the construction of the increased facilities at said Wall Street Station as an Addition to Construction, in accordance with the provisions of said Contract No. 3, together with a requisition upon the Board of Estimate and Apportionment for the appropriation of the City's share of the cost of such work, all as more particularly indicated in said proposed agreement and on the drawing made part thereof, the estimated cost of such work being \$65,500; and

Whereas, This Commission is of the opinion that the changes and additions so recommended by the Chief Engineer and as included in said proposed agreement should be made in order to render more safe and adequate the operation at said station of said line and to afford greater facilities to the travelling public,

Resolved, That said reports and recommendations aforesaid be and the same hereby are approved; that Interborough Rapid Transit Company as Lessee under the provisions of said Contract No. 3 and particularly Articles LXX and LXXI thereof is hereby directed to construct as Additions to Construction under said contract the work as indicated upon the said drawing referred to in said proposed agreement which said proposed agreement and said drawing are hereby approved, such work to be performed subject to the direction and approval of the Chief Engineer of this Commission and as to which work this Commission assigns Work Order No. IAA-6; that the requisition now submitted by Counsel upon the Board of Estimate and Apportionment be and the same hereby is approved and that it be transmitted to said Board, together with said proposed agreement for the consent of said Board to said proposed agreement and the making of the appropriation of the sum of \$32,750.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 20, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The contract dated March 19, 1923, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, provides in Article LXX thereof that Additions may be ordered to be installed on the Railroad and the Equipment and the Existing Railroads and the Existing Equipment as defined in said contract and more particularly prescribed as follows:

"If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission *or directly by the Lessee as the Commission may elect*. If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or Additions to be made at the expense of the Lessee."

Under date of February 21, 1922 the Transit Commission transmitted to your Honorable Board a certified copy of a resolution directing Interborough Rapid Transit Company in accordance with the provisions of said Contract No. 3 to construct as Additions to Construction a protective railing and an additional stairway at the Wall Street station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3, together with a requisition upon your Honorable Board for the appropriation of one half the estimated cost of such work, to wit: the sum of Thirty-two thousand, Seven hundred and Fifty (\$32,750) Dollars. Your Board being of the opinion that in the prosecution of the work of constructing Additions performed by the Lessee as permitted by said Contract No. 3 should be included in a collateral agreement, returned said resolution and requisition on November 10, 1922.

In compliance with the opinion of your Board a standard form of agreement has been prepared covering details of work of constructing Additions to Construction where performed by the Lessee, which form of agreement has been informally approved by the Corporation Counsel and agreed to by the Lessee.

Since the submission of said resolution on February 21, 1922 the Chief Engineer, because of complaints received and the inadequacy of facilities at the said station, prepared a plan including additional details so as to provide an additional entrance and an extension of the mezzanine to said Wall Street Station and has recommended the inclusion of all such details in an agreement with the Interborough Rapid Transit Company for the performance thereof. The Commission has approved said recommendation and has accordingly prepared and transmits herewith a proposed agreement providing for the construction of Additions to said Wall Street Station which it deems necessary in order to render more safe and adequate the operation at said station of said line and to afford greater facilities to the travelling public.

The Transit Commission requests your Honorable Board to consent to said proposed agreement herewith transmitted and requisition is hereby made upon your Honorable Board for the appropriation of the sum of Thirty-two thousand, Seven hundred and Fifty (\$32,750) Dollars, being one half the estimated cost of Sixty-five thousand, Five hundred (\$65,500) Dollars of such work, such requisition being a subrequisition and not in addition to those heretofore made for the purpose of carrying out said Contract No. 3 and the appropriation made by your Board in consequence thereof.

TRANSIT COMMISSION,

By GEORGE McANENY,

Chairman.

222—R. T. 6645**Fulton Street Elevated Line—Communication from New York Municipal Railway Corporation Objecting to Resolution of December 12, 1922, Approving Plans for Strengthening Structure between Nostrand Avenue and Tillary Street with Respect to Classification and Charge for Work—Report by Chief Engineer Submitting Form of Reply to Company Stating Commission Does Not Wish to Amend Resolution—Referred to Counsel**

A communication was presented from the New York Municipal Railway Corporation dated December 21, 1922, objecting to certain parts of the resolution adopted on December 12, 1922, which approved plans for strengthening the elevated structure of the Fulton Street Line between Nostrand Avenue and Tillary Street, with respect to the classification and charge for the work.

A report was presented from the Chief Engineer dated February 15, 1923, suggesting a communication to the Company stating that the Commission does not wish to amend the aforementioned resolution.

The matter was referred to Counsel.

223—Case 2671**Nassau Bus Line, Inc.—Copy of Franchise Contract with The City of New York—Filed**

The Secretary presented a copy of a franchise contract, dated February 5, 1923, between the Nassau Bus Line, Inc., and The City of New York.

The Commission ordered said document filed.

224—Case 2668**The Brooklyn City Railroad Company—Declaration of Abandonment of Route and Franchises along Furman Street between Fulton Street and Atlantic Avenue—Opinion Approved—Approval Order Adopted**

The Secretary presented a report and opinion dated January 30, 1923, by George L. Lucas, Acting Chief Executive Officer, designated to conduct the hearing in the above entitled matter recommending for the reasons therein specified that the Commission approve the declaration of abandonment by The Brooklyn City Railroad Company of that portion of its route and franchises hereinafter described.

The Commission approved and ordered filed the opinion of the Acting Chief Executive Officer and adopted and ordered filed an Order in Case No. 2668, approving the declaration of abandonment by The Brooklyn City Railroad Company, dated November 8, 1922, of a portion of its route and franchises on Furman Street between Fulton Street and Atlantic Avenue, in the Borough of Brooklyn, and directing that the approval of the Commission be endorsed upon said declaration and that same so indorsed be filed in the office of the Secretary of State.

225—Cases 1756, 1797**The Staten Island Rapid Transit Railway Company—Grade Crossing Eliminations at Pennsylvania Avenue, Clifton Avenue and Maryland Avenue, in the Borough of Richmond—Copies of Letters Transmitting Vouchers Filed**

The Secretary presented :

(1) Copy of letter, dated February 19, 1923, to the Comptroller of The City of New York, transmitting check in the amount of \$2,553.99 of The Staten Island Rapid Transit Railway Company, the amount determined to be due The City of New York from said railroad company in the above entitled matter by certificate, dated January 20, 1923; and (2) letter, dated February 19, 1923, to the Auditor of The Staten Island Rapid Transit Railway Company transmitting voucher of the Treasurer of the State of New York in the amount of \$6,504.40 the amount determined to be due to said railroad company from the State of New York in the above entitled proceeding by certificate, dated January 20, 1923.

The Commission ordered the two copies of communications filed.

226—Case 1301**The Jay Street Connecting Railroad—Renewal of Boiler Flues—Extension Order Adopted**

The Secretary presented an application of The Jay Street Connecting Railroad, dated February 13, 1923, requesting an extension of time to renew the flues in the boiler of its Locomotive No. 2; and a report, dated February 17, 1923, by Engineer of Equipment and Operation recommending an extension of six months from February 21, 1923.

The Commission adopted and ordered filed an Order in Case No. 1301, extending the time of The Jay Street Connecting Railroad within which to renew the flues in the boiler of its Locomotive No. 2, six months from February 21, 1923.

227—Case 2674**Brooklyn Eastern District Terminal—Application for Approval of Proceedings to Condemn Real Property at 80 Kent Avenue, Brooklyn—Hearing Order Adopted**

The Secretary presented a petition verified February 13, 1923, by the Brooklyn Eastern District Terminal for the approval of a proceeding to condemn certain real property located at No. 80 Kent Avenue, in the Borough of Brooklyn.

The Commission adopted and ordered filed an Order in Case No. 2674, directing a hearing on said application to be held before George O. Redington, Counsel to the Commission, therein duly designated to conduct the same on March 7, 1923, at 10:30 a. m.

228**The Long Island Railroad Company—Grade Crossing Accidents—Communication from Acting Mayor Filed—Reply Approved**

The following letter from Hon. Murray Hulbert, Acting Mayor of the City of New York, was presented :

CITY OF NEW YORK
OFFICE OF THE MAYOR

February 10th, 1923.

THE TRANSIT COMMISSION,
49 Lafayette Street,
New York City, N. Y.
Gentlemen:

Commissioner Harkness, a member of your Commission, in a statement to the public press speaks with much fervor of the necessity of the elimination of dangerous grade crossings, and expresses the intention of your Commission to aid in such elimination. It is not altogether unusual, following disasters or catastrophes, for those in official place to issue public statements condemning the cause and demanding or promising relief.

Ten years ago the Public Service Commission, predecessor of the Transit Commission, had under consideration the question of eliminating grade crossings on the Atlantic Avenue Division of the Long Island Railroad. Successive applications to the legislature for relief to expend the necessary funds to accomplish this purpose were unsuccessful.

Had all the grade crossings on the Atlantic Division of the L. I. R. R. been eliminated as suggested in the proceedings instituted by the P. S. C. of a decade ago, the entire expense of such elimination would not have amounted to more than \$2,000,000. Such expense today would, according to engineering estimate, be \$10,000,000. This added expense the railroad company, the state and the city must each pay their proper share thereof. That is the result of procrastination from a financial standpoint.

There is still another factor of more vital consideration. What has been the annual toll in human life during these ten years within which the monsters of steel have been permitted to thunder through our city on the street surface? How has this needless sacrifice been increased, and how many women, children and men have been hopelessly crippled or maimed as the result of official inaction?

The Transit Commission has reported that on the L. I. R. R. crossings alone within the corporate limits of the City of New York, there were 11 accidents in 1922, in which three persons were killed and no less than 20 injured. To this must be added the recent frightful catastrophe which resulted in the death of three firemen and the injury of a like number when Hook and Ladder truck No. 142 of the N. Y. C. F. D. was penned in the railroad gates at 80th Street and Atlantic Avenue, Queens, where it was struck down by a L. I. R. R. electric train. Last night another life was added to the toll of dangerous grade crossings when a pedestrian was killed by a west bound electric L. I. R. R. train at the Autumn and Atlantic Avenue crossing.

There can be no question that the Transit Commission and the Board of Estimate and Apportionment are agreed on the necessity of protecting both life and property from hazards incident to railroad operation, where such protection lies within their scope and power. There can be no doubt that they and the Governor will aid in the passage of legislation intended to eliminate dangerous grade crossings. There is every reason to hope that the legislature will concur in such proposed humanitarian legislation.

But past experience has demonstrated that in the matter of elimination of grade crossings, valuable time is consumed through obstacles of delay usually indulged in by the Long Island Railroad, chief among which are claims of financial incapacity and the legality of the proceedings which enables them to thwart action by long drawn out court proceedings. Even though all the official bodies interested in the removal of grade crossings work in harmony and funds eventually are provided, there would still, necessarily be a comparatively long lapse of time incident to the preparation of plans, letting of contracts and the actual accomplishment of the work.

Pending the elimination of these grade crossings, what steps are to be taken to protect the life and property at such crossings? A recent incident at a grade crossing at which the accident of Tuesday evening occurred, leads me to believe that the L. I. R. R. has given little heed to progressive steps in that direction. While standing at this railroad crossing, I heard a faint ring of a bell in the signalman's tower announcing the departure of a train from the next station. A huge motor truck was at that time about to cross the tracks. The gates at the crossing which should have descended promptly at the announcement of the bell, were not lowered until a portion of this motor truck was within the crossing area so that one of the descending gates struck the hood of the motor truck.

[February 20, 1923]

This instance, personally witnessed, is cited as indicative of the fact that the L. I. R. R. still adheres to the most primitive methods at grade crossings. Why is it not possible to install automatic devices such as exist on practically all the railroads throughout the country? Why cannot the Transit Commission insist with the power vested in it that the L. I. R. R. shall install modern protective devices pending the eventual elimination of all grade crossings?

Very truly yours,

MURRAY HULBERT,
Acting Mayor.

Commissioner Harkness stated that he had written a reply which was as follows:

February 17, 1923,

Hon. MURRAY HULBERT,
Acting Mayor, City of New York,
City Hall, New York City.
Dear Sir:

Your letter addressed to the Transit Commission under date of the 10th instant, referring to certain public statements of mine made, you say, "with much fervor," with relation to the necessity of further elimination of grade crossings within the city limits, was received in due course. Such a letter as yours, written upon a matter of pertinent interest and in the tone in which you employ, is rarely helpful. I assume, however, that your action in the present instance is accounted for by your frank admission that "it is not altogether unusual, following disasters or catastrophes, for those in official place to issue public statements condemning the cause and demanding or promising relief." Your letter was given to the newspapers and printed two days before it was received at the office of the Transit Commission. In striking contrast is the course of action followed by Borough President Connolly, who has already taken this matter up in Albany, and who didn't hesitate when he needed aid to call me on the long distance telephone and get it.

It is sufficient for the moment to remind you that the initiation of grade crossings proceedings must depend upon the availability of state funds appropriated by the Legislature, adequate and sufficient to cover the one-quarter cost of the removal of such crossings, imposed upon the state by law. Where such an appropriation is available and the removal of crossings has been ordered one-quarter of the entire cost must be covered by appropriations made by the City and the remaining half by the railroad company.

The Transit Commission in a series of orders made between December 7th, 1922, and January 16th, 1923 (in proceedings in which the City was represented, and which therefore were readily available to you), directed the removal of all grade crossings on the main line of the Long Island Railroad from Jamaica east to the city line. The cost of removal in these cases will approximate \$5,000,000., and the work will be pressed rapidly to completion. These eliminations exhaust the quota of State moneys available, so that the Commission is powerless to initiate further grade crossing eliminations unless and until the Legislature makes further appropriations.

The cost of eliminating grade crossings on the Long Island Railroad from East New York to Jamaica upon the basis of elevating the tracks is estimated at \$10,000,000., which would call for a State appropriation of \$2,500,000., a City appropriation of \$2,500,000. and a company expenditure of \$5,000,000. (In your letter you state that when the former Public Service Commission first asked in 1913 for an appropriation to eliminate these crossings east of Jamaica the entire expense "would not have amounted to more than \$2,000,000." I do not know where you got this figure. The then estimate of the Public Service Commission was \$6,000,000. So that the difference between \$6,000,000. and \$10,000,000. may be said to represent enhanced construction costs). As I have already stated, I am co-operating with Borough President Connolly in efforts to secure an adequate appropriation at this session of the Legislature. I do not understand that you have addressed any communication to the Legislature upon the subject. If you have, may I ask you to be good enough to let me have a copy of it? It is perhaps needless to say that the Commission would welcome the co-operation of the City Administration.

Under provisions of statute and under specific orders of previous commissions, the Long Island Railroad Company has been required to instal protective equipment at existing grade crossings. Generally crossing gates have been found by experience

to be a reliable protection. If it proves practicable through the installation of auxiliary equipment, additional to such equipment in use, to increase any present measure of protection pending the elimination of the grade crossings themselves, the Transit Commission naturally will direct such installations. The Commission's equipment engineers are engaged in a thorough re-examination of the present situation, in order to develop the possibility of any improvement.

I am,

Yours very truly,
(Signed) LE ROY T. HARKNESS,
Commissioner.

The Commission ordered the communication from the Acting Mayor filed and approved Commissioner Harkness' reply thereto.

229—Case 2300

**The Long Island Railroad Company—Foot Subway at Digby Street (84th Street)
—Resolution of Board of Estimate and Apportionment Filed**

The Secretary presented a resolution of the Board of Estimate and Apportionment of The City of New York, dated February 9, 1923, accepting the certificate of performance of work in the above entitled matter, dated January 23, 1923, and authorizing the Comptroller of the City to pay to the railroad company \$4,729.19 the amount in said certificate found to be due from the City of New York to said railroad company.

The Commission ordered said resolution filed.

230

**Tariff Schedules—Brooklyn, Queens County & Suburban Railroad Company—
Filed**

The Secretary presented revised sheets Nos. 1 and 41 of the tariff schedule of the Brooklyn, Queens County & Suburban Railroad Company to be effective March 18, 1923, indicating a continuance of operation after said date via Metropolitan Avenue between Jamaica Avenue and Graham Avenue in lieu of operation of the Metropolitan Avenue Line temporarily suspended by order of the District Court of the United States for the Southern District of New York.

The Commission ordered said tariff schedule filed.

231

**Tariff Schedules—New York, New Haven & Hartford Railroad Company—Report
Filed**

The Secretary presented a report by the Chief of Transit Bureau, approved by Acting Chief Executive Officer, dated February 15, 1923, transmitting for the attention of the Commission supplement to the tariff schedule of the New York, New Haven & Hartford Railroad Company indicating an increase in the rates for commutation and monthly trip tickets, etc., in the territory outside the jurisdiction of the Commission.

The Commission ordered said report filed.

232 .

Port of New York Authority—Hearing Resolution Filed—Consulting Engineer Directed to Attend Hearing

The Secretary presented a resolution of the Port of New York Authority, dated January 31, 1923, calling a hearing before it at its office, No. 11 Broadway, Borough of Manhattan, City of New York, on March 15, 1923 at 10 o'clock in the forenoon.

The Commission ordered said resolution filed and directed Mr. Daniel L. Turner, Consulting Engineer of the Commission, to attend said hearing on behalf of the Commission.

233—R. T. 7623

Agreement "CH"—Communication from Acting Corporation Counsel Returning Proposed Contract for Installation of Two Elevators at 168th Street Station Approved as to Form—Filed

A communication dated February 6, 1923 from Arthur J. W. Hilly, Acting Corporation Counsel, returning approved as to form a proposed contract with the Otis Elevator Company for furnishing and installing two passenger elevators at the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, Agreement "CH," was ordered filed.

234—R. T. 7583

Route No. 39, Section No. 2—Communication from Acting Corporation Counsel Advising of Date of Acquisition of Property for Coney Island Yard Site—Filed

The following communication was ordered filed:

February 15, 1923.

SUPREME COURT
KINGS COUNTY

IN THE MATTER
of

The application of the Transit Commission, acting for and on behalf of The City of New York, pursuant to Chapter 4 of the Laws of 1891 and the several statutes amendatory thereof and supplemental thereto, relative to acquiring an estate in fee simple absolute in and to certain premises on the westerly line of Shell Road between 86th Street and Coney Island Creek in the Borough of Brooklyn, City of New York for the construction, maintenance and operation of a terminal storage yard and inspection shed for use in connection with certain Municipal Rapid Transit Railroads.

TRANSIT COMMISSION,
49 Lafayette Street.

Sirs:

I beg to inform you that the order of the Special Term of the Supreme Court, Kings County, granting the petition of the Transit Commission to have the compensation which should justly be made to the respective owners of or persons interested in the property proposed to be taken in this proceeding, ascertained and determined by the Court without a jury, was filed in the office of the Clerk of the County of Kings on the first day of February, 1923, and that pursuant to the provisions of Section 47 of the Rapid

Transit Act (Chapter 4 of the Laws of 1891 as amended), title to the property sought to be acquired vested in The City of New York, on said date.

The property so acquired, wherever the same has not been heretofore acquired by The City of New York, is an estate in fee simple absolute, free from all liens and encumbrances, in and to all those certain lots, pieces or parcels of land, land under water and land under water filled in with the buildings and improvements thereon, together with any and all riparian rights and rights of wharfage, crannage and any and all other rights and emoluments by reason of any and all water grants or otherwise pertaining thereto and in and to the bed of any street, road or avenue upon or proposed in front of or adjoining the said property, together with the easements pertinent thereto, shown upon three similar maps or plans and specifically described in the memorandum accompanying and made part of each of said maps or plans approved and adopted by the Transit Commission on November 28, 1922. Said map or plan is entitled "State of New York Transit Commission, Engineering Department, Contract No. 4—N. Y. M. lines Coney Island Yard, Condemnation Map or Plan showing property to be acquired west of Shell Road between 86th St. & Coney Island Creek, Borough of Brooklyn, City of New York" dated November 18, 1922, signed by Robert Ridgway, Chief Engineer and numbered file No. 34—Y Drg. No. 2.

Respectfully yours,
ARTHUR J. W. HILLY,
Acting Corporation Counsel.

Agreement "CA"—Statement as to Execution and Delivery of Original Contract for Construction of Transformer Closets for Emergency Lighting—Contract Filed

The Commission ordered filed an original contract dated February 15, 1923, between The City of New York, acting by the Transit Commission and B. T. & J. J. Mack, Inc. for the construction of transformer closets for emergency lighting in the Borough of Manhattan, Agreement "CA," which contract had been executed on behalf of both parties and delivered on February 16, 1923.

239

Lease—Proposed Lease for Sub-office in Premises at No. 136 Lawrence Street, Borough of Brooklyn—Approval Resolution

The following resolution was adopted:

Whereas, The Commission pursuant to the provisions of the Rapid Transit Act, being Chapter 4 of the Laws of 1891 as amended and of the Public Service Commissions Law as amended by Chapter 134 of the Laws of 1921 of the State of New York, deems it necessary to lease certain premises consisting of a rectangular room sixteen (16) feet long and eleven (11) feet wide, with an area of approximately one hundred seventy-six (176) square feet, on the second floor of the building known as No. 136 Lawrence Street, Borough of Brooklyn, City of New York, from Seth H. Cutting, residing at 1721 Avenue J, Borough of Brooklyn, City of New York, as landlord, for the period of one (1) year beginning February 11, 1923, at the monthly rental of \$35.00, with the option of a renewal for one (1) additional term of one (1) year at the same rental, for an engineering sub-office; and

Whereas, Counsel has submitted a form of lease embodying the foregoing terms and other terms deemed necessary for the conservation of the City's interests, which said form of lease has been signed by the said landlord, the said Seth H. Cutting, recommending that the lease be approved and that the Chairman and Secretary be authorized, respectively, to subscribe the approval of the Commission on said lease and to attest such subscription and affix the official seal of the Commission;

Resolved, That the Commission do, and it hereby does, approve the aforesaid lease, and that it do, and hereby does, authorize and direct the Chairman, in its behalf, to execute the said lease and the Secretary to attest such execution and affix the official seal of the Commission to said lease.

240

Fees Received during January, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of January, 1923, fees, etc., to the amount of \$170.08 and refunds of rental from rapid transit real estate to the amount of \$4673 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$170.08 to be accredited to the General Fund of the City of New York, and the sum of \$4673 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purpose of the Commission, as provided in the Rapid Transit Act.

241

Employees' Resolution No. 129

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Thomas F. Corcoran, junior assistant, at \$125.08 per month, to take effect February 19, 1923; Isidor Mager, junior assistant, at \$125.08 per month, to take effect February 14, 1923; Homer G. Shockley, junior assistant, at \$125.08 per month, to take effect February 14, 1923; John A. Voskamp, junior assistant, at \$125.08 per month, to take effect February 14, 1923.

Termination of Appointments under Rule VIII:4—John Crawford, junior assistant, at \$125.08 per month, to take effect February 28, 1923; William R. Crittenden, junior assistant, at \$125.08 per month, to take effect February 21, 1923; Americus D'Atri, junior assistant, at \$125.08 per month, to take effect February 21, 1923; Harold Fink, junior assistant, at \$125.08 per month, to take effect February 28, 1923; Nathan Horowitz, junior assistant, at \$125.08 per month, to take effect February 21, 1923; Maurice A. Marcus, junior assistant, at \$125.08 per month, to take effect February 16, 1923; George E. Tallman, junior assistant, at \$125.08 per month, to take effect February 21, 1923; Frederick von Rohan, draftsman, at \$150.08 per month, to take effect February 16, 1923.

Leave of Absence with Pay—Yetta Benjamin, clerk, from January 21, 1923, to January 28, 1923; Dorothy Dwyer, stenographer, from January 11, 1923, to February 4, 1923; Thomas O'Hara, transit inspector, from January 16, 1923, to January 29, 1923.

Leave of Absence without Pay—Yetta Benjamin, clerk, from January 29, 1923, to February 3, 1923; Charles R. McConkey, junior engineer, from February 5, 1923, to March 4, 1923.

242

Voucher Schedule No. 8

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos 196-204; 206, open market orders, \$536.05; Vouchers Nos. 97-103, miscellaneous bills, \$8,284.31;

Estimate by Chief Engineer of Value of Work Done and Material Furnished for Construction of Rapid Transit Lines for the Period Indicated Below:

Voucher No. 48; Charles H. Brown & Son, Corporation, Assignee; approximate estimate No. 12 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8 from January 16, 1923 to February 15, 1923 (R.T. 7539) \$5,830.41.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, February 26, 1923

Agreement "CC"—Receipt of Bids for Making Alterations in Railroad Structure to Permit Widening of Roadway of East 60th Street, Borough of Manhattan—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for making alterations in the railroad structure of the Broadway-Fourth Avenue Rapid Transit

Railroad, Routes Nos. 4 & 36, Section No. 5, so as to permit the widening of the roadway of East 60th Street in the Borough of Manhattan, had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of said bids and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the five bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, February 27, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

Contract No. 3—Communication to Board of Estimate and Apportionment Requesting Withdrawal of Requirement for Submission of Agreements for Making "Additions" by Reason of Sufficient Provisions in Contract No. 3—Approved

The following communication was approved:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, provides in Articles LXX and LXXI thereof as follows:

"Article LXX. The principal object of the City in making this contract is to secure for the public convenience an adequate, comfortable and rapid system of passenger transportation in the portions of New York which will be served by the Railroad and the Existing Railroads. By the foregoing provisions of the Lease the Lessee has covenanted, among other things, to operate the Railroad and the Existing Railroads carefully and skillfully, according to the highest standards of railway operation; to supply adequate Equipment; to run trains so as to furnish adequate service; to use the best safety devices; to keep the Railroad, the Equipment, the Existing Railroads and the Existing Equipment, clean, dry, well lighted, heated and ventilated; and to do other things, as hereinbefore set forth, for the convenience and accommodation of the public. These covenants on the part of the Lessee are among the principal moving considerations to the City in making this contract, and any breach thereof will entitle the City to the remedies provided in this contract. If at any time Additions to the Railroad or Equipment or to the Existing Railroads or Existing Equipment or any change in the mode of operating the Railroad or the Existing Railroads or conducting the business thereof are necessary in order to carry out the purposes of the Lease in securing service and facilities as shall be safe and adequate and in all respects just and reasonable, the Commission may direct the construction or provision of such Additions and the making of such changes in the mode of operation of the Railroad or the Existing Railroads or in the conduct of the business thereof as may be necessary to accomplish such purposes. Such construction or provision of Additions and such changes shall be made to the satisfaction of the Commission and, when necessary,

under such forms of contracts, plans, specifications and directions as it may issue or approve. If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect. If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or Additions to be made at the expense of the Lessee.

Article LXXI. *All Additions shall be identified and the cost of equipment or the cost of construction as the case may be ascertained and determined in the following manner and by the following method:* No Addition shall be provided or constructed until the same shall have been ordered or approved by the Commission and in its resolution so ordering or approving the Commission shall briefly describe the Addition so ordered or approved (which is hereinafter referred to as the additional unit) and shall assign thereto a work order number. All Additions shall be subject to regulations issued by the Commission from time to time in accordance with the provisions of Article XLII prescribing the manner and method of providing for their identification and distinction. All papers or documents (including all bills, vouchers, pay rolls, plans, contracts, orders, etc.) relating to such additional unit shall refer to such work order number and no expenditure shall be included in the cost of construction or the cost of equipment by the Engineer unless it refers to such work order number. *The cost of construction or cost of equipment, as the case may be, of an additional unit shall be determined as provided in Article XXIX."*

The definition of the word "Additions," as found in Subdivision 16 of Article II of Contract No. 3, provides that the definitions of the words and expressions "* * * Cost of Construction and Cost of Equipment shall apply to Additions and Additional Equipment."

The definition of the words "Cost of Construction and Cost of Equipment" in said contract and the elements included therein are comprehensive in every detail and have been used as a basis for the cost accounting in the millions of dollars expended for the completion of the new lines under Contract No. 3. Such contract and definitions are complete in themselves, self-operative and contemplate, particularly in so far as Additions are concerned, the application of and exercise under said contract without further or collateral instruments.

It seems to the Commission that the language of Article LXX of Contract No. 3 hereinbefore quoted vests in the Commission complete authority to make Additions and imposes on the Lessee an obligation to comply with any *direction* within the purview of said article and the provisions of the contract generally. A complete and expeditious method of procedure is thus provided for, subject, of course, to the appropriation and consent by your Board.

Your Board, in its consideration of requisitions made by the Commission for the appropriation of one-half of the estimated cost of units of work directed to be performed by the Lessee pursuant to resolutions of this Commission as Additions to Construction under Contract No. 3, has concluded that an Additional or supplemental agreement is required. At the time of such conclusion on your part Counsel to the Commission presented the absence of necessity therefor in view of the provisions of Contract No. 3 and the effect that such a conclusion would have upon the carrying out of the provisions of Contract No. 3, urging on behalf of the Commission and the procurement of all the benefits to accrue to the City by reason of the provisions of said contract, with respect to Additions, that such an agreement was unnecessary. The Commission desires to point out that in its opinion the benefits enuring to the City by the provisions of Contract No. 3, which vest in it the right to order the making of changes, improvements and Additions to the railroad and to require such work to be performed by the Lessee, is practically nullified by the requirement of your Board that an agreement be entered into. Such an agreement cannot, in view of the provisions of Contract No. 3 hereinbefore adverted to, include anything more than the language of Contract No. 3 and to include more would be a modification of that contract. The agreement at best, therefore, merely repeats in contracted form the more elaborate and detailed provisions of Contract No. 3.

On the other hand it creates an advantage for the company inasmuch as it affords the company an opportunity of contesting the form and contents of an agreement and a basis for refusing to execute an agreement (which is nowhere required by Contract No. 3), thus defeating the great advantage to the City by reason of the contract provisions with respect to Additions to Construction.

The Commission is of the opinion that the requirement with respect to agreements providing for the construction of Additions to Construction under Contract No. 3 in those cases where the Lessee is required to do the work, should be withdrawn.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

245—R. T. 7565

Routes Nos. 16 & 18—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Construction of Waiting Rooms at 219th Street Station of White Plains Road Line and Kingsbridge Road Station of Jerome Avenue Line at Estimated Cost of \$2,000—Report by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order No. IAA-3—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$1,000 as City's Share

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 16, 1922, recommending the construction of additional waiting rooms at the 219th Street Station of the White Plains Road Line and the Kingsbridge Road Station of the Jerome Avenue Line at an estimated cost of \$2,000.

A report was presented from the Auditor of Rapid Transit Costs dated July 5, 1922, classifying the work as Construction of Additions to the Railroad under Contract No. 3 and assigning Work Order No. IAA-3.

The following resolution was adopted:

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated June 16, 1922, reported with respect to the necessity for additional waiting rooms on the northbound platform of the 219th Street Station of the White Plains Road Line and the Kingsbridge Road Station of the Jerome Avenue Elevated Line, both of the railroads described in Contract No. 3 as follows:

"Pursuant to your action of May 4, 1922, when you adopted the policy of providing additional waiting rooms on station platforms as recommended in the report of April 7, 1922, I recommend that waiting rooms be constructed on City-owned stations as follows:

On the northbound platform of the 219th St. station on the White Plains Road Line—A waiting room for the accommodation of forty or fifty passengers. The shuttle which operates from Fordham Road and Third Ave. to this station via Webster Ave. arrives and departs from the northbound platform; therefore a waiting room on the southbound platform is not necessary.

On the northbound platform of the Kingsbridge Rd. station on the Jerome Ave. Line—A waiting room for about fifty persons towards the north end of the platform. The shuttle train which operates during the non-rush hours between this station and Woodlawn uses the northbound track in both directions and, therefore, a shelter on the southbound platform is not necessary."

; and

Whereas, The Auditor of Rapid Transit Costs has, by communication dated July 5, 1922, reported with respect to said matter and has recommended that the work be classified as "Construction of Additions to the Railroad * * *" and that this Commission assign thereto, in accordance with the provisions of said Contract No. 3, Work Order No. IAA-3; and

Whereas, In accordance with the requirements of the Board of Estimate and Apportionment with respect to the performance of work of making Additions to Con-

struction by the Lessee in accordance with the provisions of said Contract No. 3 Counsel has prepared a proposed agreement which will effect such requirements and has also submitted a proposed requisition upon the Board of Estimate and Apportionment for the consent of said Board to the making of said proposed agreement and the appropriation of one-half the estimated cost of performing the work thereunder of constructing said additional waiting rooms,

Resolved, That the said recommendations aforesaid be and the same hereby are approved; that the said proposed agreement and requisition so submitted be and the same hereby are approved; that this Commission, pursuant to the provisions of Articles LXX and LXXI of Chapter IV of Part Third of said Contract No. 3 hereby orders Interborough Rapid Transit Company, as Lessee under said Contract, to construct such additional waiting rooms at the points indicated in accordance with the plan made part of said proposed agreement hereby approved, as to which work this Commission assigns Work Order No. IAA-3 and that said proposed agreement, together with a certified copy of this resolution and the requisition hereby approved be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, provides in Articles LXX and LXXI of Chapter IV of Part Third thereof as follows:

" * * * If at any time Additions to the Railroad or Equipment or to the Existing Railroads or Existing Equipment or any change in the mode of operating the Railroad or the Existing Railroads or conducting the business thereof are necessary in order to carry out the purposes of the Lease in securing service and facilities as shall be safe and adequate and in all respects just and reasonable, the Commission may direct the construction or provision of such Additions and the making of such changes in the mode of operation of the Railroad or the Existing Railroads or in the conduct of the business thereof as may be necessary to accomplish such purposes. Such construction or provision of Additions and such changes shall be made to the satisfaction of the Commission and, when necessary, under such forms of contracts, plans, specifications and directions as it may issue or approve. If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect. If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or Additions to be made at the expense of the Lessee.

Article LXXI. All Additions shall be identified and the cost of equipment or the cost of construction as the case may be ascertained and determined in the following manner and by the following method: No addition shall be provided or constructed until the same shall have been ordered or approved by the Commission and in its resolution so ordering or approving the Commission shall briefly describe the Addition so ordered or approved (which is hereinafter referred to as the additional unit) and shall assign thereto a work order number.

* * *

The Commission has received numerous complaints regarding the exposed conditions of the northbound platform of the 219th Street Station of the White Plains Road Line and of the northbound platform of the Kingsbridge Road Station of the Jerome Avenue Elevated Line, both being portions of the Railroad described in said Contract No. 3. The Commission's examination of this matter discloses that the complaints are well founded and that additional waiting rooms or shelters should be provided at said stations to protect the passengers changing at said points from the cold and inclement weather.

By resolution adopted pursuant to the provisions of Contract No. 3 hereinbefore quoted it has directed Interborough Rapid Transit Company, as Lessee under said Contract No. 3, to perform such work of constructing additional shelters at said stations of the Railroad, as Additions to Construction as defined in said Contract.

In accordance with the direction of your Board the Commission has made applicable to this work the standard form of agreement for the carrying out of the units of work of Additions to Construction when performed by the Lessee under said Contract No. 3, and transmits the same herewith for the consent of your Board thereto.

The estimated cost of this work is two thousand dollars (\$2,000), half of which, under the provisions of Contract No. 3, must be borne by the City.

Requisition is accordingly made upon your Honorable Board for the appropriation of the sum of One thousand dollars (\$1,000), being one-half of the estimated cost of the work of constructing said additional waiting rooms on the stations indicated, such requisition to be a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 3, and the appropriations made in consequence thereof by your Board, and your Board is further requested to consent to the proposed agreement herewith transmitted between The City of New York and Interborough Rapid Transit Company for the purposes of carrying out such work of constructing said additional shelters at said stations as Additions to Construction in accordance with the provisions of said Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

246—R. T. 7571

Route No. 48, Section No. 1—Proposed Agreement for Construction of Ventilating Manhole in Mail Street as an Addition to Construction under Contract No. 3—Approval Resolution—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Whereas, This Commission, by resolution adopted June 6, 1922 directed Interborough Rapid Transit Company as Lessee under the contract dated March 19, 1913, known as Contract No. 3, to perform the work of constructing a ventilating manhole in that portion of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad passing under and along Mail Street in the Borough of Manhattan at the point where the duct line crosses the steam main of the New York Steam Company as an Addition to Construction under and in accordance with the provisions of Articles LXX and LXXI of said Contract No. 3 and as to which unit of work this Commission assigned Work Order No. IAA-2; and

Whereas, By resolution adopted July 19, 1922 the Board of Estimate and Apportionment appropriated \$750 being the estimated amount of the City's share of carrying out said work in accordance with the provisions of said Contract No. 3, said appropriation being subject "To the submission to this Board by the Transit Commission of a satisfactory agreement or contract for the proposed work * * *"; and

Whereas, Counsel has prepared a proposed agreement standard in form which has been approved by the Corporation Counsel and Interborough Rapid Transit Company designed to be applicable generally to the performance of work of constructing Additions to Construction by the Lessee, pursuant to the said Contract No. 3, which standard form of agreement has been made applicable to the performance of work of constructing said ventilating manhole and is now submitted by Counsel, together with a request upon the Board of Estimate and Apportionment for the consent of said Board thereto,

Resolved, That the said proposed agreement so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment for the consent of said Board.

Further Resolved, That if and when consented to by said Board the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreement.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board by resolution adopted on July 19, 1922, "Subject to the submission to this Board by the Transit Commission of a satisfactory agreement or contract for the proposed work," appropriated the sum of Seven hundred and fifty (\$750) Dollars to pay the City's share of the installation by the Interborough Rapid Transit Company as lessee under the provisions of Contract No. 3 of a ventilating manhole at a point in Mail Street in the Borough of Manhattan where the cable duct line of the Municipal Rapid Transit Railroad, being a part of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad, described in said Contract No. 3 (Section No. 1, Route No. 48) crosses the steam main of the New York Steam Company.

There has been prepared a form of agreement to provide generally for the performance of units of work of Additions to Construction where performed by the Lessee, in accordance with the provisions of Contract No. 3 which has been approved by the Corporation Counsel and the Lessee. Said standard form of agreement has been made applicable to the unit of work of constructing said ventilating manhole and is transmitted herewith.

In accordance with the provisions of the resolution of July 19, 1922 the Transit Commission submits said proposed agreement and requests your Honorable Board to consent thereto.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

247—R. T. 7600, 7603

Route No. 52—Communication to Board of Estimate and Apportionment Requesting Reconsideration of Proposed Contracts with Gustin-Morris Contracting Corporation for Construction of Foundations on Section No. 1 and with Oakdale Contracting Company, Inc., for Construction of Section No. 3—Approved

The following communication was approved:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK,
Municipal Building,
New York City.

Gentlemen:

The Transit Commission, on October 31, 1922, transmitted for the consent of your Honorable Board, as required by law, the proposed contract to be entered into between the City of New York, acting by the Transit Commission, and the Oakdale Contracting Company, Inc., for the construction of a part of the rapid transit railroad designated as an extension of the present line terminating at Corona to a point on Main Street, in Flushing, all within the Borough of Queens, and known as "Flushing Route, Route No. 52, Section No. 3," together with a requisition upon your Honorable Board for the appropriation of the sum of One million six hundred thirty-five thousand nine hundred fifty and 75/100 (\$1,635,950.75) Dollars, this being the sum estimated to be necessary to meet the obligations of the city under the said proposed contract. The bid of the Oakdale Contracting Company was the lowest of nine submitted in response to the Commission's advertisement for such bids, the remaining eight ranging to a maximum of \$2,760,149.40, or approximately \$1,100,000 over the Oakdale bid.

The Commission also submitted to your Honorable Board, under date of November 14, 1922, a proposed contract with the Gustin-Morris Contracting Corporation, the lowest of ten bidders, for the construction of the foundations on Section 1 of the Flushing Route, and requested an appropriation in the sum of Ninety-one thousand six hundred twelve and 50/100 (\$91,612.50) Dollars, the amount of the bid in question.

The Commission also submitted to your Honorable Board, under date of December

19, 1922 a proposed contract with the Phoenix Bridge Company, the lowest of seven bidders, for furnishing and erecting structural steel for a part of Section 1 of the Flushing Route, and requested an additional appropriation of Six hundred fifteen thousand eight hundred eighty (\$615,880) Dollars, the amount of the bid in this case.

No action was taken by your Honorable Board upon any of the contracts in question until January 5, 1923, at which time they were referred back to the Transit Commission without approval, for the stated reason that the plans under consideration by the Commission for Section 2 of the Flushing Route, which includes the bridge over the Flushing-River, appeared to contain no provision for any kind of highway communication between Flushing and Corona, and suggesting that failure of action on the part of the Board of Estimate pending the submission of such plans would occasion no appreciable delay.

As the Transit Commission, in a communication addressed to your Honorable Board under date of January 3d, and transmitted in duplicate to the individual members of the Board upon the same date, furnished all the information to which your resolution refers, including sketches of that portion of Section No. 2 showing the plan and profile of a combination rapid transit and highway bridge over the Flushing River, we assumed that your action in rejecting the contracts in question would, in proper course, be reconsidered, and the necessary favorable action taken.

Owing to the failure of any such reconsideration, the Phoenix Bridge Company on January 29th withdrew its bid for the contract for the proposed work for Section No. 1, upon the ground that the rising tendency in the price of steel and other material the work will require inclined it to take no further risk in the matter. Under the law, a contractor submitting a bid is bound for forty-five days thereafter to perform his contract where the Board of Estimate has also given the necessary statutory approval. The Phoenix Company, in withdrawing, acted apparently as soon as it might legally do so.

The Transit Commission is of the opinion that the loss the city will suffer as a result of the cancellation of this contract, and of the taking of new bids for the work in question at presumptively higher prices, will be material.

The awarding of the several contracts for the work on the Flushing extension followed a number of months of labor on the part of the Commission's engineering bureau in preparing plans, expedited not only to meet the Commission's desire that this extension be constructed with all haste, but in accordance with the resolution of your own body, adopted on August 2, 1921, indicating in advance your approval of the projected line "by reason of the immediate necessity in the public interest of having the work done," etc.

The delays that have occurred since the submission to your Honorable Board of the contract for Section No. 3 on October 31st, four months ago, culminating in the action of January 5, 1923, have had very unfortunate results. The completion of the Flushing line has been considerably retarded; the halting of the engineering work has, of necessity, involved much waste of departmental energy, and the city has lost an advantageous contract for an important construction section.

In its communication of January 3rd, the Commission explained to your Honorable Board that Section 3 of the route in question was intended to be put under contract first because it covers the all-subway section of the route proceeding from the Flushing River to Main Street, and naturally will take the longest of any part of the line to build. The time in the case of this contract has been fixed for two years.

Section No. 1 was intended to be put under contract at the same time, with an allowance of nine months for the building of the footings and one year for the erection of the steel, because this section includes the approach to the storage yard in Flushing Meadows, which the Commission desires to make available at the earliest possible moment for the use not only of the cars to be operated on the new sections of the line, but for those in use upon the sections between Long Island City and Corona and Astoria already built and in operation. It is proposed to use the excavated material of Section No. 3 to complete the grading of this yard. There remains only the track laying contract to be let, and the installation of equipment to complete the readiness of the yard for train storage.

Section No. 2, which includes the bridge over the Flushing River, can be completed within a year and a half from the time that the contract therefor is let. The information communicated to your Board in the Commission's letter of January 3rd included a copy of the print, Drawing No. 29, File No. 4501, being a completed sketch of that portion of Section 2 which shows the combined rapid transit and highway bridge.

Conferences have been held for some time past between the engineers of the Commission, the Chief Engineer of the Department of Plant and Structures, and the Engineer of the Topographical Bureau of the Borough of Queens regarding the plans for this bridge, and the drawings submitted represent the mutual understanding between the engineers in question and those of the Commission as to the form the structure should take, and the nature of the approaches to it.

In view of the fact aforesaid, the Transit Commission very earnestly urges upon your Honorable Board that your approval be still given to the contract to be let to the Oakdale Contracting Company for the work on Section No. 3 in the sum of One million six hundred thirty-five thousand nine hundred fifty and 75/100 (\$1,635,950.75) Dollars, and to the Gustin-Morris Contracting Corporation for the foundation work proposed upon Section No. 1, in the sum of Ninety-one thousand six hundred twelve and 50/100 (\$91,612.50) Dollars. Immediate action will be necessary if the city is to have the benefit, financially and otherwise, of the award, particularly, of the major contract, and if the actual work of construction of the subway section is to be commenced without further delay.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

248—R. T. 6407

Route No. 52—Communication to Board of Estimate and Apportionment Recommending that Department of Plant and Structures Be Authorized to Cooperate in Construction of Rapid Transit and Highway Bridge across Flushing River—Approved

The following communication was approved:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK,
Municipal Building,
New York City.

Gentlemen:

As a detail of Rapid Transit Route No. 52—the so-called Flushing Route—it is proposed to construct a bridge across the Flushing River, to be used partly for rapid transit and partly for highway purposes. Copies of Drawing No. 29, File No. 4501, indicating the general plan of this bridge and the approaches thereto, were communicated to your honorable body in connection with the letter of the Commission addressed to you under date of January 3rd, 1923.

As it appears that fifty-five per cent. of the cost of the bridge and its approaches from the highway abutment on the west side of Flushing River to the railway abutment on the east side would be chargeable to the account of highway construction, and about forty-five per cent. to rapid transit construction—estimates upon which tentative agreement has been reached both by the engineers of the Commission and by the Chief Engineer of the Department of Plant and Structures—it would seem to be desirable and of practical advantage if the Department of Plant and Structures would take charge of the planning and construction of this portion of the proposed line. The Commission understands that this suggestion has been discussed with Mr. Byrne, the Chief Engineer of the Department of Plant and Structures, and that he has given it his informal approval.

The Transit Commission, therefore, expressly recommends to your honorable body that the work incident to the construction of the bridge be assigned, accordingly, and that the Department of Plant and Structures, in cooperation with the Chief Engineer of the Transit Commission, be authorized to take the necessary steps toward that end.

Very truly yours,
TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

249—R. T. 7639, 7549

Agreement "CC"—Report by Chief Engineer as to Receipt of Bids for Alterations in Structure so as to Permit the Widening of East 60th Street and Recommendation for Award of Contract to Benedetto, Saussez & Bottino—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

February 27, 1923.

TO: TRANSIT COMMISSION:

Award of Agreement "CC" to Benedetto, Saussez & Bottino.

On February 26, 1923, the following bids were received for work under Agreement "CC" changes in subway structure on account of widening of roadway of East 60th Street, Routes 4 and 36, Section #5:

<i>Name</i>	<i>Amount</i>
Benedetto, Saussez & Bottino.....	\$60,317.00
Jacob Schlesinger, Inc.....	87,642.50
M. A. Charles.....	89,922.00
Contractors Service Corp.....	96,275.00
Gustin-Morris Contg. Corp.....	99,764.50

Our estimate for this work amounted to \$109,955. This work is to be done by the Commission and the cost thereof taken from an appropriation of \$116,000 made by the Board of Estimate and Apportionment on July 19, 1922, "to be used for reconstructing gratings, vault lights, etc. along the curb line of 60th Street between 2nd and 5th Avenues, Manhattan, in order to permit the widening of the roadway under the jurisdiction of the President, Borough of Manhattan."

I have examined the bid prices of Benedetto, Saussez & Bottino and find them uniformly low and considerably below our estimate. I consider the bid acceptable from our point of view. Two of the members of this firm, Benedetto and Saussez, were the lowest bidder for work under Agreement "CE," alterations in the Broadway-Fourth Avenue Rapid Transit structures at various locations to permit widening of the streets, Borough of Manhattan. In my letter to you of January 29, 1923, I recommended the approval of the bid of Benedetto & Saussez and in that letter gave information about them gathered from several sources which seemed satisfactory. Mr. Bottino, the present third member of the firm, has previously been connected with Mr. A. L. Guidone, another subway contractor, and I consider his entering the firm a good acquisition for the same.

Attached, I send you copy of minutes of a conference held in my office on February 27, 1923, with Messrs. Saussez and Bottino. There is also transmitted herewith twelve (12) prints of summation of bids.

In addition to the work contained in the schedule for which bids were received, a small amount of work is to be done by the Operating Company such as changes of lighting within the emergency exits effected at cost to the contractor plus 5% and a considerable amount of work is to be done under Item 150 at cost plus 15%; such work consisting of changes in waterproofing, cutting of steel, changes of sub-surface structures and changes in emergency exit covers and ladders. The accurate cost of such work cannot be estimated at the present time but it is thought that about \$1,700 will cover it and this amount should be added to the amount of the low bidder when making the request for appropriation from the Board of Estimate and Apportionment.

Recommendation: From an engineering standpoint, I respectfully recommend that the contract for work under Agreement "CC," Changes in Subway Structure on Account of Widening of Roadway of East 60th Street, Borough of Manhattan, be awarded to the low bidder, Benedetto, Saussez & Bottino, at its bid figure of \$60,317.00 and that a requisition be made on the Board of Estimate and Apportionment for consent to said proposed agreement and the utilization of \$62,000 of the appropriation of \$116,000 made by the Board of Estimate and Apportionment on July 19, 1922, aforesaid.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment on July 19, 1922 adopted the following resolution:

"Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of Section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding one hundred and sixteen thousand (\$116,000) dollars, which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which, to the amount of the par value thereof, to be used for reconstructing gratings, vault lights, etc., along the curb line of 60th Street between 2d and 5th avenues, Manhattan, in order to permit of the widening of the roadway, under the jurisdiction of the President, Borough of Manhattan; the cost of such portions of the proposed work as are performed by the operating company (under the supervision of the Transit Commission) to be expended by the Borough President upon vouchers to be prepared by the Transit Commission."

; and

Whereas, There has been prepared and advertised a proposed contract for the performance of such work and bids were received on February 26, 1923 respectively totalling as follows:

Benedetto, Saussez & Bottino.....	\$60,317.00
Jacob Schlesinger, Inc.....	87,642.50
M. A. Charles.....	89,922.00
Contractors Service Corp.....	96,275.00
Gustin-Morris Contg. Corp.....	99,764.50

; and

Whereas, The Chief Engineer of this Commission by communication dated February 27, 1923 reports that the amount of the low bid so received is reasonable and that said firm is financially able and competent to perform the work under said contract and has recommended the award of said proposed contract to said firm and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$62,000 from the appropriation made by the Board of Estimate and Apportionment on July 19, 1922,

Resolved, That the said report and recommendation be and the same hereby are approved; that the said bid of Benedetto, Saussez & Bottino be and the same hereby is accepted and that said proposed contract for such work (Agreement "CC") be and the same hereby is awarded to said Benedetto, Saussez & Bottino, subject to its being consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the setting aside of the sum of \$62,000 for the appropriation made on July 19, 1922 aforesaid, be and the same hereby are approved and that they be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK

Gentlemen:

Your Honorable Board on July 19, 1922 adopted the following resolution:

"Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of Section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding one hundred and sixteen thousand (\$116,000) dollars, which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which, to the amount of the par value thereof, to be used for reconstructing gratings, vault lights, etc., along the curb line of 60th Street between 2d and 5th Avenues, Manhattan, in order to permit of the widening of the roadway, under the jurisdiction of the President, Borough of Manhattan; the cost of such portions of the proposed work as are performed by the operating company (under the supervision of the Transit Commission) to be expended by the Borough President upon vouchers to be prepared by the Transit Commission."

The Commission has prepared and advertised a proposed contract for the performance of such work (Agreement "CC") and bids respectively totalling as follows were received on February 26, 1923:

Benedetto, Saussez & Bottino.....	\$60,317.00
Jacob Schlesinger, Inc.....	87,642.50
M. A. Charles.....	89,922.00
Contractors Service Corp.....	96,275.00
Gustin-Morris Contg. Corp.	99,764.50

The Chief Engineer of this Commission in a communication dated February 27, 1923 reports that the bid of Benedetto, Saussez & Bottino, the low bidder, is reasonable and that the said firm is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted such bid and awarded said proposed contract to the said Benedetto, Saussez & Bottino subject to its being approved and consented to in form and substance as required by law.

The Chief Engineer in reporting as aforesaid states:

"In addition to the work contained in the schedule for which bids were received, a small amount of work is to be done by the Operating Company, such as changes of lighting within the emergency exits effected at cost to the contractor plus 5% and a considerable amount of work is to be done under Item 150 at cost plus 15%; such work consisting of changes in waterproofing, cutting of steel, changes of sub-surface structures and changes in emergency exit covers and ladders. The accurate cost of such work cannot be estimated at the present time but it is thought that about \$1,700 will cover it and this amount should be added to the amount of the low bidder when making the request for appropriation from the Board of Estimate and Apportionment."

Your Board is therefore requested to consent to such proposed contract herewith transmitted and to set aside from the appropriation of One Hundred and Sixteen Thousand (\$116,000) Dollars made as aforesaid on July 19, 1922, the sum of Sixty-two Thousand (\$62,000) Dollars, being the amount estimated to meet the City's obligations under said proposed contract.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

250—R. T. 6458

Contracts Nos. 1 and 3—Report by Chief Engineer Recommending Reduction of Requisition on Board of Estimate and Apportionment for Appropriation for Construction of Additional Stairway at 96th Street Station—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated February 24, 1923, recommending that the requisition submitted to the Board of Estimate and Apportionment on February 20, 1923, for the construction of an additional stairway to the 96th Street station of the Manhattan-Bronx Rapid Transit Railroad, be reduced from \$55,000 to \$25,000 as the City's share of the cost of the work.

The following resolution was adopted:

Whereas, Under date of February 20, 1923, pursuant to the resolution adopted by this Commission requisition was made upon the Board of Estimate and Apportionment for the consent of said Board to the proposed agreement between The City of New York and Interborough Rapid Transit Company for the construction of an additional stairway to the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad as an Addition to Construction, as defined in the Contract No. 3, and for the appropriation of the sum of \$55,000 as representing one-half the estimated cost of such work; and

Whereas, The Chief Engineer of this Commission by communication dated February 24, 1923, has reported that an estimate having been made upon the detailed plans indicates that the approximate cost of the work is \$50,000 and recommends that said requisition on the Board be reduced from \$55,000 to \$25,000; and

Whereas, Counsel has prepared and submitted a proposed requisition which will effect such recommendation;

Resolved, That the said report and recommendation be and the same hereby is approved and that the requisition in form so submitted be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

February 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT,
Municipal Building, New York City.
Gentlemen:

On February 20, 1923, the Transit Commission transmitted to your Honorable Board for its consent a proposed agreement between The City of New York, acting by the Transit Commission and Interborough Rapid Transit Company for the construction of an additional stairway to the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad, such work to be performed as an Addition to Construction in accordance with the provisions of Contract No. 3, together with a requisition upon your Honorable Board for the appropriation of a sum of \$55,000, being one-half of the estimated cost of carrying out the contract under said proposed agreement in accordance with said provisions of said Contract No. 3, with respect to the making of Additions to Construction. The Chief Engineer of the Commission by communication, dated February 24, 1923, has reported with respect to the amount of said requisition as follows:

"This refers to the Commission's communication of February 20, 1923 to the Board of Estimate and Apportionment, requesting approval of a proposed agreement for the construction of an additional entrance at the southerly end of the 96th Street Station of the Manhattan-Bronx Rapid Transit Railroad, and requesting an appropriation of \$55,000 as the City's share of the cost of the work. This amount was based on an old estimate.

"An additional entrance to the 96th Street Station was considered in 1915. Detailed plans, however, were not prepared at that time, and the rough estimate for the work amounted to \$60,000. In a report of February, 1921, this estimate was used as a basis, and about 80% added thereto due to the effect of war conditions. The amount given in that report was \$110,000.

"Following the Commission's approval of the additional entrance to this station, detailed plans were made. Furthermore, the cost of construction in general has gone down. Our estimate, now based on these plans in which the Interborough Rapid Transit Company concurs, is \$50,000. On the latter basis, the City's share would be about \$25,000 instead of \$55,000 as stated in the communication to the Board of Estimate.

"Recommendation: I would therefore respectfully recommend that the Commission take the necessary action to change the amount of requisition from \$55,000 to \$25,000."

Accordingly, the Transit Commission hereby amends the requisition of February 20, 1923, so as to reduce the estimated cost of the work to \$50,000 instead of \$110,000 and to reduce the requisition of \$55,000 to \$25,000, as being the estimated cost of the City's share of carrying out said work and your Honorable Board is requested to consent to said proposed agreement transmitted on February 20, 1923, and to appropriate in accordance with this amended requisition the sum of \$25,000 as a subrequisition under and not in addition to those heretofore made for the purposes of carrying out Contract No. 3, and the appropriations made in consequence thereof.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

251—R. T. 7639, 7549

Agreement "CC"—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest of Bidders for Alterations in Structure to Permit Widening of East 60th Street—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on February 26, 1923 for alterations in the railroad structure of Routes Nos. 4 & 36, Section No. 5, so as to permit the widening of the roadway of East 60th Street,

Borough of Manhattan, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to the lowest of the bidders the certified checks in the sum of One thousand dollars (\$1,000) each deposited with their bids.

252—R. T. 7638

Order No. 22—Form of Contract, Specifications, Invitation to Contractors, etc., for Supply of Special Work—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings, for the supply of Special Work and Track Fittings (Order No. 22), for use in the construction of various parts of the dual system of rapid transit railroads,

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings, for the supply of Special Work and Track Fittings (Order No. 22), for use in the construction of various parts of the dual system of rapid transit railroads, be and hereby are approved and adopted and that said Invitation to Contractors be published in the CITY RECORD every day of publication continuously from and including March 1, 1923, to and including March 16, 1923, and on March 7, 1923, and March 14, 1923, in THE MORNING TELEGRAPH and THE EVENING POST, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 16th day of March, 1923, at eleven-thirty (11:30) o'clock A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

253—R. T. 7651, 7652

Route No. 45—Draft Form of Contract for Construction of Broad and Nassau Streets Route—Resolution Fixing Hearing and Directing Notice Be Advertised

The following resolution was adopted:

Whereas, There is now submitted to this Commission a draft form of a proposed contract for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Broad and Nassau Streets (under Contract No. 4),

Resolved, That before finally fixing the terms and conditions of said proposed contract for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Broad and Nassau Streets (under Contract No. 4), a public hearing upon the proposed terms and conditions thereof shall be held on the 26th day of March, 1923, at the office of the Transit Commission at No. 49 Lafayette Street, Borough of Manhattan, New York City, at 11:30 o'clock A. M. at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in the CITY RECORD every day of publication continuously from and including March 9, 1923 to and including March 26, 1923 and on March 14, 1923, and March 21, 1923 in THE NEW YORK TRIBUNE and THE SUN, daily newspapers published in The City of New York and that such notice shall state that copies of said draft of proposed contract may be obtained at the said office of the Transit Commission on payment of the fee of One Dollar (\$1.00) for each copy.

254—R. T. 7535

Agreement "BU"—Report by Chief Engineer Recommending Extension of Time to February 1, 1923, within Which to Complete Contract for Installation of Ladders and Gratings in Shafts of Bronx River Duct Tunnel—Approval Resolution

A report was presented from the Chief Engineer dated February 24, 1923, recommending that an extension of time be granted to Vulcan Rail and Construction Company from September 2, 1922 to February 1, 1923, within which to complete the

contract for construction and installation of steel ladders and gratings in the shafts of the Bronx River Duct Tunnel (Agreement "BU").

• The following resolution was adopted:

Whereas, The Contract dated May 31, 1922, between The City of New York, acting by the Transit Commission and Vulcan Rail and Construction Company for the construction and installation of steel ladders and gratings in two shafts of the Bronx River Duct Tunnel of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad (Routes Nos. 19 and 22, Section No. 2), requires the completion of all work thereunder on or before the expiration of three (3) months after the date of delivery of said Contract, which Contract was delivered on June 2, 1922, the last day for completion being September 2, 1922; and

Whereas, The Chief Engineer of this Commission by communication dated February 24, 1923, has reported that the contractor began work promptly after the delivery of the Contract and on September 2, 1922 had fabricated and erected all the steel required under the Contract making the tunnel fully available for cable installation; the Contractor was however delayed in the painting of the steel because of work being performed by the employees of the Interborough Rapid Transit Company in the installation of lights, pumps and electrical equipment; that the Contractor arranged with said Company to have it do the painting after the installation of the permanent pumps; that all the work under said Contract was in all respects completed on or before February 1, 1923; that the City suffered no loss due to said delay and recommends that the time within which to complete the work under said Contract be extended to and including February 1, 1923;

Resolved, That the said report and recommendation be and the same hereby is approved; that the time of Vulcan Rail and Construction Company within which to complete the work under said Contract be and the same hereby is extended to and including February 1, 1923.

255—R. T. 7535

Agreement "BU"—Certificate by Chief Engineer of Completion of Contract for Installation of Ladders and Gratings in Bronx River Duct Tunnel—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

February 24, 1923.

TO: TRANSIT COMMISSION:

Certificate of Completion: Steel Ladders and Gratings in Shafts of Bronx River Duct Tunnel—Routes 19 and 22, Section 2—Agreement "BU."

In connection with the contract dated May 31, 1922, between the City of New York and Vulcan Rail and Construction Company for the construction of steel ladders and gratings in two shafts of the Bronx River Duct Tunnel, Routes Nos. 19 and 22, Section 2, I hereby certify that all work was completed on February 1, 1923. The total cost of the work was \$3,335.32.

In accordance with the provisions of the contract, all work should have been completed by September 2, 1922. The time for completion, however, was extended to February 1, 1923, by resolution of the Transit Commission adopted on February 27, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

the construction and installation of steel ladders and gratings in two shafts of the Bronx River Duct Tunnel of the City of New York.

ROBERT RIDGWAY,
Chief Engineer,
Transit Commission.

The following resolution was adopted:

Whereas, The contract dated May 31, 1922, between The City of New York, acting by the Transit Commission and Vulcan Rail and Construction Company for the construction and installation of steel ladders and gratings in two shafts of the Bronx River Duct Tunnel of the Seventh Avenue-Lexington Avenue Rapid Transit Rail-

road (Routes Nos. 19 and 22, Section No. 2), required the completion of all work thereunder on or before September 2, 1922, which time was extended to and including February 1, 1923, by resolution of the Transit Commission adopted on February 27, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated February 24, 1923, has reported that all the work under said Contract was in all respects completed on or before February 1, 1923; that the total amount due therefor was \$3,335.32 and recommends that the work so performed be accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York,

Resolved, That the said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

256—R. T. 7561

Agreement "BX"—Certificate by Chief Engineer of Completion of Contract for Station Finish for Sub-passageway at 23rd Street Station—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

February 21, 1923.

To: TRANSIT COMMISSION:

Certificate of Completion: Completion of Station Finish for Sub-passageway at 23rd Street Station—Agreement "BX."

In connection with the contract dated June 8, 1922, between the City of New York and Stander & Solow, Inc., for the completion of station finish for the sub-passageway at the 23rd Street Station (Routes 4 & 36, Section 1), I hereby certify that all work was completed on November 14, 1922. The total cost of the work was \$6,851.70.

In accordance with the provisions of the contract, all work should have been completed on October 10, 1922. The time for completion, however, was extended to November 14, 1922, by resolution of the Transit Commission adopted on November 28, 1922. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended: That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBERT RIDGWAY,
Chief Engineer,
Transit Commission.

The following resolution was adopted:

Whereas, The contract dated June 8, 1922, between The City of New York acting by the Transit Commission and Stander & Solow, Inc., for the completion of station finish for the sub-passageway at the 23rd Street Station (Routes 4 & 36, Section 1), described in the contract dated March 19, 1913, known as Contract No. 4, required the completion of all work thereunder on or before October 10, 1922, which time was extended to and including November 14, 1922, by resolution of the Transit Commission adopted on November 28, 1922; and

Whereas, The Chief Engineer of this Commission has by communication dated February 21, 1923, reported that all the work under said contract was in all respects completed on or before November 14, 1922; that the total amount due therefor was \$6,851.70 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

Resolved, That the said report and recommendation aforesaid be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

257—R. T. 7577

Route No. 16—Certificate by Chief Engineer of Completion of Contract for Installation of Frogs, Switches, Track and Bumping Posts in Jerome Avenue Yard—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

February 21, 1923.

TO: TRANSIT COMMISSION:

Certificate of Completion: Installation of Frogs, Switches, Track and Bumping Posts in the Jerome Avenue Yard, Route No. 16

In connection with the contract dated October 26, 1922 between The City of New York and Slattery Engineering and Construction Co., Inc., for the installation of frogs, switches, track and bumping posts in the Jerome Avenue Yard (Route No. 16), I hereby certify that all work was completed on February 1, 1923. The total cost of the work was \$19,767.72.

In accordance with the provisions of the contract, all work should have been completed on December 25, 1922. The time for completion, however, was extended to February 1, 1923 by resolution of the Transit Commission adopted on February 14, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended: That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
Transit Commission.

The following resolution was adopted:

Whereas, The contract dated October 26, 1922, between The City of New York, acting by the Transit Commission and Slattery Engineering and Construction Company, Inc., for the installation of frogs, switches, track and bumping posts in the Jerome Avenue Yard of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad, described in the contract dated March 19, 1913, known as Contract No. 3, required the completion of all work thereunder on or before December 25, 1922, which time was extended to and including February 1, 1923, by resolution of the Transit Commission adopted on February 14, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated February 21, 1923, has reported that all the work under said contract was in all respects completed on or before February 1, 1923; that the total amount due therefor was \$19,767.72 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York,

Resolved, That the said report and recommendation aforesaid be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

258—R. T. 6080

Fourth Avenue Subway—Report by Real Estate Clerk as to Fire in Premises at Nos. 77-83 Rockwell Place and Requesting Authorization to Make Insurance Adjustment—Approval Resolution

A report was presented from the Real Estate Clerk dated February 26, 1923, as to the damages to the premises at Nos. 77-83 Rockwell Place, Borough of Brooklyn, due to a fire on February 25, 1923, and requesting that he be authorized to make an adjustment of the damage with the insurance companies, and that the tenant be relieved from his obligation to pay rent during the period that the place is untenable.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of February 26, 1923, reports that the

property of the City of New York, under the jurisdiction of the Commission, at No. 77 Rockwell Place, Borough of Brooklyn, was damaged by fire on February 25, 1923, and that the building has been insured by tenants holding concessions in the building or in an adjacent property, in the aggregate amount of \$5,500, recommending that he be authorized, subject to the approval of Counsel, to make an adjustment with Union Assurance Society, Limited of London, England, and North British & Mercantile Insurance Company Limited, the insuring companies, which will bring about a restoration of the building substantially to a condition existing before the fire, without cost to the City, and that the holder of the concession or tenancy, Strand Billiard Academy, a registered partnership, be relieved from obligation to pay rental during the period that the premises are unfit for occupancy, beginning March 1, 1923, in which recommendation Counsel has concurred;

Resolved, That the Commission do and it hereby does, authorize the Real Estate Clerk, subject to the approval of Counsel, to adjust with the said insurance companies the matter of damage by fire to the building at No. 77 Rockwell Place as aforesaid, so as to bring about the restoration of the building substantially to its condition prior to the fire; and it is further

Resolved, That Strand Billiard Academy, the present holder of a concession on the premises be, and it hereby is, relieved from the obligation to pay rental during the period the building shall not be tenantable, beginning March 1, 1923, the Commission reserving all of its rights under the existing rental arrangement with the tenant, particularly to terminate all of the tenant's rights in and to the premises upon ten (10) days' notice.

259—R. T. 7623

Agreement "CH"—Resolution Approving Sureties upon Bond in Sum of \$6,000 Deposited by Contractor for Furnishing and Installing Two Passenger Elevators at 168th Street Station—Adopted

The following resolution was adopted:

Resolved, That the United States Fidelity & Guaranty Company and American Surety Company of New York be and hereby are approved as sureties upon the bond in the sum of Six thousand dollars (\$6,000) deposited by Otis Elevator Company as security for the faithful performance of the contract for furnishing and installing two electric passenger elevators in the new entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Agreement "CH," each of said sureties being held and bound in the sum of Three thousand dollars (\$3,000).

260—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Shoe Fuse Brackets for 100 Steel Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 18, 1923, requesting approval of a proposed purchasing agent's order directed to the Van Dorn Coupler Company for 800 shoe fuse brackets to be installed on 100 steel trailer cars at a cost of \$3,240.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 10, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 18, 1923, directed to Van Dorn Coupler Company for the manufacture and delivery of the following:

400 Brackets, R.H. shoe fuse, Pat. No. 706-B annealed steel casting, per Spec. 55-C, finished per B/P 4738-I. Price: \$4.05 each.....	\$1,620.00
400 Brackets, L.H. shoe fuse, Pat. No. 707-B, annealed steel casting, per Spec. 55-C, finished per B/P 4738-I. Price: \$4.05 each	1,620.00
Total	\$3,240.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 444"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated February 10, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said materials:

Van Dorn Coupler Co.....	\$3,240
Elcon Company	3,420
Columbia Machine Works & Mall. Iron Co.....	4,480
Isaac G. Johnson and Co.....	12,960
P. H. Gill and Sons.....	No bid.
R. Steel and Sons.....	No bid.
Strong Steel Foundry.....	No bid.
Farrell-Cheek Foundry	No bid.

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

261—R. T. 7367

Routes Nos. 35 & 67—Communication from Counsel Submitting Proposed Agreement for Modification of Ventilator Chamber in Front of Premises at Nos. 119-127 West 41st Street—Approval Resolution

A communication was presented from Counsel dated February 21, 1923, submitting a proposed agreement with The Rudolph Wurlitzer Company for a modification of the construction of a ventilator chamber in front of the premises at Nos. 119-127 West 41st Street, so as to allow a minimum encroachment upon the vault space in front of the premises, together with a certified check in the sum of \$8,500 deposited by the owner in satisfaction of the obligations under the proposed agreement.

The following resolution was adopted:

Whereas, Counsel, with his letter dated February 21, 1923, has submitted to this Commission a proposed agreement between The City of New York, acting by the Transit Commission, and The Rudolph Wurlitzer Company for the construction, maintenance and operation of a ventilator chamber in such manner as to avoid the vault space, located in front of the premises Nos. 119-127 West Forty-first Street in the Borough of Manhattan, and has recommended that such proposed agreement be

approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

262—R. T. 3041

New York Connecting Railroad Company—Communication from Department of Finance Requesting Certification as to Date from Which Rental Should Be Computed—Approval Resolution—Certificate

A communication was presented from Henry Smith, Deputy Comptroller, requesting a certificate as to the date when operation was begun by the New York Connecting Railroad Company so as to compute rentals to be paid.

A communication was presented from Counsel dated February 21, 1923, transmitting a proposed certificate.

The following resolution was adopted:

Whereas, The certificate dated February 14, 1907 granted to New York Connecting Railroad Company by the Board of Rapid Transit Railroad Commissioners for The City of New York under and pursuant to the provisions of the Rapid Transit Act provides in Article V thereof that the Board shall certify to the Comptroller the date from which the payments therein provided for shall respectively be computed; and

Whereas, Under said certificate this Commission is the successor to the said Board of Rapid Transit Railroad Commissioners; and

Whereas, The Comptroller of The City of New York, by communication dated February 5, 1923 has by his Deputy, Hon. Henry Smith, requested this Commission to make such certificate; and

Whereas, Counsel has prepared and submitted a proposed certificate in compliance with the provisions of said Article V of said certificate and has recommended the adoption, execution and delivery thereof,

Resolved, That the said proposed certificate be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized to execute and deliver it to the Comptroller of The City of New York.

The certificate was as follows:

TRANSIT COMMISSION OF THE STATE OF NEW YORK
to

THE COMPTROLLER OF THE CITY OF NEW YORK.

Certificate fixing dates from which payments of rental shall respectively be computed in accordance with the provisions of the Certificate dated February 14, 1907, as modified, granted by The Board of Rapid Transit Railroad Commissioners for The City of New York to The New York Connecting Railroad Company.

Whereas, The Board of Rapid Transit Railroad Commissioners for the City of New York did by certificate dated the 14th day of February, 1907, in pursuance of the provisions of the Rapid Transit Act, being Chapter 4 of the Laws of 1891, authorize The New York Connecting Railroad Company to construct and operate a certain railroad in The City of New York, which certificate as heretofore duly modified is hereinafter referred to as the "Certificate"; and

Whereas, The Certificate provides in Article V thereof:

"The Board shall certify to the Comptroller the dates from which the payments herein provided for shall respectively be computed."

; and

Whereas, The Transit Commission has by virtue of the provisions of the Public Service Commission Law as amended by Chapter 134 of the Laws of 1921, succeeded to all of the powers and duties of the Board of Rapid Transit Railroad Commissioners for The City of New York, including the powers and duties of the said Board under the Certificate; and

Whereas, The Comptroller by communication dated February 5, 1923, has re-

quested the Transit Commission to make the certification as in the Certificate required aforesaid; and

Whereas, The Certificate also provides in Article V thereof as follows:

"The Railroad Company shall make further and annual payments to the City as follows, these payments to be over and above all taxes lawfully levied upon the property of the Railroad Company:

First: The Railroad Company shall pay to the City for the right, so far as derived and held by it under this Certificate, to construct, maintain and operate the new railroad over the East River between bulkhead lines as heretofore determined by the War Department of the United States, the sum of One Hundred dollars (\$100) for each year beginning on the date on which the Railroad Company shall first commence the actual operation of the new railroad, but not later than two years after the first day when the Railroad Company shall have obtained all the consents required to be obtained by Article II of this Certificate, and ending on the day twenty-five (25) years from the day when the said payments are to begin.

Second: The Railroad Company shall pay to the City for the right to construct, maintain and operate the new railroad across streets and other public property other than Ward's Island and Randall's Island, the following compensation or rental, to wit: the sum of Twenty-seven thousand five hundred dollars (\$27,500) per annum, the said payments to begin on the date when the Railroad Company shall first commence actual operation of the new railroad, but not later than two years after the first day when the Railroad Company shall have obtained the consents required to be obtained by said article II hereof, and to end on the day ten (10) years next thereafter, and Fifty-five thousand dollars (\$55,000) per annum during the period beginning on the last day of such ten (10) years and ending on the day fifteen (15) years next thereafter.

Third: The Railroad Company shall pay as rental the reasonable value of the use and occupation by the Railroad Company of the portions of ground upon the said Ward's Island and Randall's Island permanently occupied by the abutments, piers and other supports of the bridge or elevated structure and of the use and occupation by the Railroad Company of the portions of overhead space above said Islands occupied by such bridge or elevated structure or for any purpose whatsoever to be used in connection with the construction of the railroad. *The time for such payment shall be computed from the date of the first occupation of the ground of Ward's or Randall's Island for any purpose of such bridge or elevated structure. * * **

Now, Therefore, The Transit Commission does hereby pursuant to and in accordance with the said provisions of the Certificate certify to the Comptroller of The City of New York, as follows:

1. That in accordance with the provisions of paragraph "First" of Article V of the Certificate, "the date on which the Railroad Company shall first commence the actual operation of the new railroad, but not later than two years after the first day when the Railroad Company shall have obtained all the consents required to be obtained by article II of this Certificate, * * *" was July 20, 1912.

2. That in accordance with the provisions of paragraph "Second" of Article V of the Certificate, "the date when the Railroad Company shall first commence actual operation of the new railroad, but not later than two years after the first day when the Railroad Company shall have obtained the consents required to be obtained by said article II hereof, * * *" was July 20, 1912.

3. That in accordance with the provisions of paragraph "Third" of Article V of the Certificate "the date of the first occupation of the ground of Ward's or Randall's Island for any purpose of such bridge or elevated structure, * * *" was November 11, 1912.

In Witness Whereof, This Certificate has been made by the Transit Commission pursuant to the provisions of the Certificate, as successor to the Board of Rapid Transit Railroad Commissioners for The City of New York, and is now attested by the signature of its Chairman who is its presiding officer and its Secretary, this 27th day of February, 1923.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

Attest:
JAMES R. WALKER,
Secretary

Contract No. 3—Communication from Corporation Counsel Requesting Objections Be Made to Certain Items in Thirty-sixth Quarterly Determination of Cost—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Recommending Objections Be Filed on Behalf of Corporation Counsel—Communication to Chief Engineer—Approved

A communication was presented from Hon. George P. Nicholson, Corporation Counsel, dated February 21, 1923, requesting that objections be made to certain items in the Thirty-sixth Quarterly Determination of Cost rendered under Contract No. 3.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated February 24, 1923, recommending that the Commission file objections on behalf of the Corporation Counsel.

The following communication to the Chief Engineer was approved:

February 26, 1923.

ROBERT RIDGWAY, Esq.,
Chief Engineer, Transit Commission,
49 Lafayette Street,
New York City.
Sir:

The Transit Commission of the State of New York, by virtue of the provisions of Chapter 134 of the Laws of 1921, has examined the Quarterly Determination rendered by you dated December 27, 1922 for the period beginning January 1, 1922 and ended March 31, 1922, being the Thirty-sixth Quarterly Determination, made pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company and desires to apprise you that it has no objections (except as hereinafter quoted) to file to the determinations therein made. On behalf of the Corporation Counsel of The City of New York the Transit Commission, in compliance with the written request of said Corporation Counsel dated February 21, 1923 herewith files with you the following objections to the determinations made as aforesaid:

"The City of New York objects to the said Determination as prepared by the Chief Engineer for the Transit Commission and especially refers to the following items; and the reasons for its objections thereto, to wit:

1. On Page 42 of the Thirty-sixth Determination this entry
C-S-30 (1)—Interlocking plant West of Hoyt Street Station on account of Seventh Avenue Connection..... \$111.50
This should be charged to equipment.
2. Also on Page 42, the following:
C-S-47 (1)—Repairs to defective plumbing of Cortlandt Street Station \$144.38
This is a maintenance charge.
3. Also on Page 42, this—
C-E-31 (1)—Cleaning up prior to operation on Eastern Parkway Line \$5.11
This work should have been done by the contractor who left the debris.
4. On page 82 of the Thirty-sixth Determination it is stated that the total cost reported to March 31, 1922, under agreement 4 is \$103,998.34 Agreement 4 was consented to in the sum of \$100,000 by the Board of Estimate and Apportionment and exception is taken to the inclusion thereunder of all cost incurred under that Agreement in excess of the amount consented to by the Board.
5. Exception is taken to the inclusion within the Thirty-sixth Determination of each item listed on Page 82 under proposed agreement 8.
Irrespective of the equity or fairness of the items so listed, exception is taken to the inclusion in the Determination of cost of any amount under

a proposed agreement before it has received the consent of the Board of Estimate and Apportionment as provided by Contract No. 3.

6. Objection is made to the inclusion within any or each of the determinations of the Company's contribution to cost of construction of items covering the cost of installation, maintenance, operation or removal of equipment. The installation and operation of equipment, whether temporary or permanent, are proper charges against the Company's contribution to equipment under Contract No. 3 and should not under any circumstances be included in construction costs.

7. Exception is taken to the inclusion within the Determination of Company's contribution to cost of construction of items covering the cost of construction or erection of special houses, shelters or protective coverings of special or regular items of equipment, except where the same are or may be properly included within the building or shelter on elevated or exposed portions of rapid transit lines for signal or other purposes. It is contended that the covering and protection of such items of equipment are in a large measure incidental to the nature of that equipment and that the City is not bound to cover or protect equipment aside from the general construction of the subway and the masonry ducts therein.

8. Objection is made to the inclusion within any or each of the Determination of items covering in whole or in part the cost of replacements, removals, rearrangements, relocations, etc., of property previously existing. The amount of depreciation accrued on the replaced items should be credited and only net cost representing net additions should be included within the Determinations, in accordance with the definitions of costs of Contract No. 3.

9. Exception is taken to items of interest on the 8 per cent. notes. These excessive charges of interest were made necessary because of the profligate manner in the handling of its finances by the Interborough Rapid Transit Company. Also, a large part of the moneys raised by the note issue were used to reimburse the treasury for the past construction expenditures and not to finance new construction. Thus, objection is made to the charge on page 88 of \$409,999.52.

10. Objection is made to the inclusion within any and each of the Determinations of items covering the allowance for Superintendence because the same are excessive and unreasonable. This is illustrated by the following items:

On page 46, under Account 20, there is credited \$16.00 for labor and material and a charge of \$319.61 for superintendence; on page 48 under account 40, a credit of \$404.70 for labor and material and a charge of \$525.02 for superintendence; also on page 48 under account 20 a charge of \$109.94 for labor and material and a charge of \$665.95 for superintendence; on page 49 under account 28, a charge of \$683.62 for labor and material and a charge of \$415.24 for superintendence; in the same way there are many similar excessive and unreasonable charges for superintendence under other accounts to all of which the City objects.

11. The City also takes exception to the inclusion within the Determination of each and every one of the several items which have been deducted by the Chief Engineer as improper charges of the lessee and which are given in detail upon pages 68 to 81 inclusive of the volume of Determination.

In addition to the objections above set forth, further objection is made to the items so determined by the Chief Engineer by reason of the fact that they are deemed, by The City of New York, to be excessive, improper and unauthorized, by the provisions of Contract No. 3."

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

264—R. T. 6553

Contract No. 4—Communication from Corporation Counsel Requesting Objections Be Made to Certain Items in Thirty-sixth Quarterly Determination of Cost—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Recommending Objections—Communication to Chief Engineer—Approved

A communication was presented from Hon. George P. Nicholson, Corporation Counsel, dated February 21, 1923, requesting that objections be made to certain items in the Thirty-sixth Quarterly Determination of Cost rendered under Contract No. 4.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated February 24, 1923, recommending that the Commission file objections on behalf of the Corporation Counsel.

The following communication to the Chief Engineer was approved:

February 26, 1923.

ROBERT RIDGWAY, Esq.,
Chief Engineer, Transit Commission,
49 Lafayette Street,
New York City.

Sir:

The Transit Commission of the State of New York, by virtue of the provisions of Chapter 134 of the Laws of 1921, has examined the Quarterly Determination rendered by you dated December 27, 1922, for the period beginning January 1, 1922, and ending March 31, 1922, being the Thirty-sixth Quarterly Determination, made pursuant to the provisions of

(1) the contract dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation;

(2) the certificate dated March 19, 1913, granted by the Public Service Commission for the First District to the New York Municipal Railway Corporation for additional tracks;

(3) the certificate dated March 19, 1913, granted by the Public Service Commission for the First District to New York Municipal Railway Corporation for elevated extensions;

and desires to apprise you that it has no objections (except as hereinafter quoted) to file to the determination therein made.

On behalf of the Corporation Counsel of The City of New York, the Transit Commission, in compliance with the written request of said Corporation Counsel dated February 21, 1923, herewith files with you the following objections to the determination made as aforesaid:

"The City of New York, under and in pursuance of the provisions of Contract No. 4, hereby files with you its objections to the Thirty-sixth Quarterly Determination of the Chief Engineer for the Transit Commission, dated December 27, 1922, and especially refers to the following items and the reasons for its objections thereto, to wit:

1. Objection is made to the inclusion within any or each of the determinations of items covering in whole or in part the cost of replacements, removals, rearrangements, relocations, etc., of property previously existing. The amount of depreciation accrued on the replaced items should be credited and only net cost representing net additions should be included within the determinations, in accordance with the definitions of cost of Contract No. 4 and Related Certificates.

2. The City takes exception to the interest cost as charged by the lessee under Contract No. 4; and supports the statement of the Chief Engineer that \$4,155,562.90 should be deducted from the Company's interest charge.

3. The City also joins in taking exception to the inclusion in the Company's cost of the itemized charges noted on page 123 in the Volume of the Determinations under the heading of "Summary of Adjustments to Company's Reported Costs."

In addition to the objections above set forth, further objection is made to the items so determined by the Chief Engineer by reason of the fact that they are deemed, by The City of New York, to be excessive, improper and unauthorized under the provisions of Contract No. 4."

TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

265—R. T. 6418, 6420

Additional Tracks and Extensions—Communication from Corporation Counsel Requesting Objections Be Made to Certain Items in Statement of Cost of Additional Tracks and Extensions for Period Ended March 31, 1922—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Recommending that Objections Be Filed on Behalf of Corporation Counsel—Communication to Chief Engineer—Approved

A communication was presented from Hon. George P. Nicholson, Corporation Counsel, dated February 21, 1923, requesting that objections be made to certain items in the Statement of Cost of Additional Tracks and Extensions rendered by the Chief Engineer for the period ended March 31, 1922, under the certificates granted to the Manhattan Railway Company and the Interborough Rapid Transit Company.

A report was presented from the Auditor of Rapid Transit Costs and Assistant Chief Accountant dated February 24, 1923, recommending that the Commission file objections on behalf of the Corporation Counsel.

The following communication to the Chief Engineer was approved:

February 26, 1923.

ROBERT RIDGWAY, Esq.,
Chief Engineer of the Transit Commission,
49 Lafayette Street,
New York City.
Sir:

On behalf of the Corporation Counsel of The City of New York, the Transit Commission, in compliance with the written request of said Corporation Counsel dated February 21, 1923, herewith files with you the following objections to your report dated December 27, 1922, of the Cost to March 31, 1922, of Manhattan Railroad Extensions and Additional Tracks, authorized by the certificate granted to Interborough Rapid Transit Company for Elevated Extensions and Certificate granted the Manhattan Railway Company for Additional Tracks, dated March 19, 1913, granted by the Public Service Commission for the First District:

"The City of New York objects to the said Report of the Chief Engineer for the Transit Commission, and especially refers to the following items and the reasons for its objections thereto, to wit:

1. Objection is made to the inclusion within any or each of these reports of items covering in whole or in part the cost of replacements, removals, rearrangements, relocations, etc., of property previously existing. The amount of depreciation accrued on the replaced items should be credited and only net cost representing net additions should be included in these costs, in accordance with the definitions of costs of the certificates granted to the Interborough Rapid Transit Company and to the Manhattan Railway Company.

2. Exception is taken to items of interest on the 8 per cent. notes. These excessive charges of interest were made necessary because of the profligate manner in the handling of its finances by the Interborough Rapid Transit Company. Also, a large part of the moneys raised by the note issue were used to reimburse the treasury for past construction expenditures and not to finance new construction. Thus, objection is made to the following amounts on pages 44 and 45:

\$33,413.16
27,767.37
27,767.34
5,287.11

3. Objection is made to the inclusion within any and each of the Determinations of items covering the allowance for Superintendence because the same are excessive and unreasonable. This is illustrated by the following items:

On page 27, under account 50, Second Avenue Line, the total charge of \$502.13 is for superintendence; also on page 27 under account 20, Third Avenue Line, the charge for labor and material is \$236.65, and for superintendence, \$174.17; also on page 27, under account 50, Third Avenue Line, the entire charge of \$1,307.56 is for superintendence; on page 28, under account 20, Ninth Avenue Line, the charge for labor and material is \$132.71 and the charge for superintendence \$213.24; in the same way there are many similar excessive and unreasonable charges for superintendence under other accounts to all of which the City objects.

4. The City also joins in taking exception to the inclusion in costs of the itemized charges noted on pages 1 and 2 in the Report under the heading of "Questioned Items."

In addition to the objections above set forth, further objection is made to the items contained in the said Report of Cost by reason of the fact that they are deemed, by the City of New York, to be excessive, improper and unauthorized."

Although the Transit Commission does not understand that your report constitutes any "statement in writing" such as Article XI of the Elevated Extensions Certificate and Article X of the Additional Tracks Certificate contemplate are to be presented to the Commission by Interborough Rapid Transit Company and Manhattan Railway Company, and although under said Certificates there are no provisions for "determinations," nor even for "reports," to be made by the Chief Engineer, nor for objections to be made thereto, the above quoted objections on behalf of the Corporation Counsel, are made to you for such effect, if any, to which they may be entitled. The making of the above objections to your said report, on behalf of the Corporation Counsel, will not, of course, serve in any way to effect or prejudice any right on the part of the Commission to agree to or to object to any statement or statements in writing, such as are contemplated by said certificates, whenever any such statements shall have been presented to the Commission.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

266—R. T. 6553

Contract No. 4—Stipulation with New York Municipal Railway Corporation Extending Time to March 26, 1923, within Which to File Objections to Thirty-sixth Quarterly Determination of Cost—Approved

The Commission approved a stipulation dated February 26, 1923, between the Commission, the New York Municipal Railway Corporation and Lindley M. Garrison, as Receiver, extending the time to and including March 26, 1923, within which to file with the Chief Engineer of the Transit Commission objections to the Thirty-sixth Quarterly Determination of Cost rendered under Contract No. 4.

267—R. T. 6567

Contract No. 3—Communication from Interborough Rapid Transit Company Submitting Copy of Objections to Thirty-sixth Quarterly Determination of Cost—Referred to Chief Accountant

The Commission referred to the Chief Accountant a communication dated February 23, 1923, from the Interborough Rapid Transit Company by J. L. Quackenbush, General Attorney, submitting copy of objections by the Interborough Rapid Transit Company to the Thirty-sixth Quarterly Determination of Cost rendered by the Chief Engineer under Contract No. 3, the original of which had been filed with the Chief Engineer.

268—R. T. 6645

Fulton Street Elevated Line—Communication from New York Municipal Railway Corporation Objecting to Resolution of December 12, 1922, Approving Plans for Strengthening Structure between Nostrand Avenue and Tillary Street with Respect to Classification and Charge for Work—Report by Chief Engineer Submitting Form of Reply to Company Stating Commission Does Not Wish to Amend Resolution—Report by Counsel Concurring in Report of Chief Engineer—Referred to Commissioner O’Ryan

A communication was presented from the New York Municipal Railway Corporation dated December 21, 1922, objecting to certain parts of the resolution adopted on December 12, 1922, which approved plans for strengthening the elevated structure of the Fulton Street Line between Nostrand Avenue and Tillary Street, with respect to the classification and charge for the work.

A report was presented from the Chief Engineer dated February 15, 1923, suggesting a communication to the Company stating that the Commission does not wish to amend the aforementioned resolution.

A report was presented from Counsel dated February 21, 1923, concurring in the report by the Chief Engineer, and suggesting that the communication be sent.

The matter was referred to Commissioner O’Ryan.

269—S. P. 744

American Railway Corporation—Bureau of Explosives—Application for Special Permission to Publish on One Day’s Notice Routine Amendments to Interstate Commerce Commission Regulations—Special Permission No. 744 Approved

An application dated February 21, 1923, by the Chief Inspector of the Bureau of Explosives of the American Railway Corporation, making application for permission to publish and file on one day’s notice supplements to freight schedule No. 1, providing for routine amendments to Interstate Commerce Commission regulations for the transportation of explosives and other dangerous articles of freight and a report dated February 26, 1923, by the Secretary of the Commission recommending that the application be approved were presented.

The Commission approved and ordered filed Special Permission No. 744, authorizing the Bureau of Explosives of the American Railway Corporation to publish and file on one day’s notice supplements to freight schedule No. 1, providing for routine amendments to Interstate Commerce Commission regulations for the transportation of explosives and other dangerous articles of freight.

Agreement “CH”—Statement as to Execution and Delivery of Original Contract for Furnishing and Installing Two Elevators at 168th Street Station—Contract Filed

The Commission ordered filed an original contract dated February 16, 1923, between the City of New York, acting by the Transit Commission, and Otis Elevator Company for furnishing and installing two electric passenger elevators in the new

entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Agreement "CH", which contract had been executed on behalf of both parties and delivered on February 23, 1923.

271—R. T. 7587

Agreement "CA"—Notice by Chief Engineer of Commencement of Work for Construction of Transformer Closets—Filed

The Commission ordered filed a notice by the Chief Engineer dated February 23, 1923, of the commencement of work by B. T. & J. J. Mack, Inc. on February 20, 1923, for the construction of transformer closets for emergency lighting, Borough of Manhattan (Agreement "CA").

272

Employees' Resolution No. 130

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Aaron Cohen, junior assistant, at \$125.08 per month, to take effect March 1, 1923; John Crawford, junior assistant, at \$125.08 per month, to take effect March 1, 1923; William R. Crittenden, junior assistant, at \$125.08 per month, to take effect March 1, 1923; Americus J. D'Atri, junior assistant, at \$125.08 per month, to take effect March 1, 1923; Harold Fink, junior assistant, at \$125.08 per month, to take effect March 1, 1923; Henry Goldfinger, junior assistant, at \$125.08 per month, to take effect March 1, 1923; Philip Kass, junior assistant, at \$125.08 per month, to take effect March 1, 1923; John Lyons, junior assistant, at \$125.08 per month, to take effect March 5, 1923; John J. Macaluso, junior assistant, at \$125.08 per month, to take effect March 1, 1923; David Margolis, junior assistant, at \$125.08 per month, to take effect March 1, 1923; Percy S. Palmer, junior assistant, at \$125.08 per month, to take effect March 1, 1923; George E. Tallman, junior assistant, at \$125.08 per month, to take effect March 1, 1923; Bernard L. Weiner, junior assistant, at \$125.08 per month, to take effect March 1, 1923.

Appointments under Rule VIII:4—James W. Carow, engineering inspector, at \$150.08 per month, to take effect February 20, 1923; Thomas W. Carr, engineering inspector, at \$150.08 per month, to take effect February 20, 1923.

Resignations—August A. Dieter, draftsman, at \$150.08 per month, to take effect February 28, 1923; Nathan Goldshlag, assistant engineer, at \$225.00 per month, to take effect March 5, 1923; George W. Rode, inspector of lumber, at \$137.50 per month, to take effect February 28, 1923; Morris Stoll, draftsman, at \$150.08 per month, to take effect March 3, 1923.

Termination of Appointments under Rule VIII:4—Aaron Cohen, junior assistant, at \$125.08 per month, to take effect February 28, 1923; Henry Goldfinger, junior assistant, at \$125.08 per month, to take effect February 28, 1923; Philip Kass, junior assistant, at \$125.08 per month, to take effect February 28, 1923; John J. Macaluso, junior assistant, at \$125.08 per month, to take effect February 28, 1923; David Margolis, junior assistant, at \$125.08 per month, to take effect February 28, 1923; Percy S. Palmer, junior assistant, at \$125.08 per month, to take effect February 28, 1923; Bernard L. Weiner, junior assistant, at \$125.08 per month, to take effect February 28, 1923; Peter Zodiac, junior assistant, at \$125.08 per month, to take effect February 28, 1923.

273

Voucher Schedule No. 9

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 205, 207-224, open market orders, \$1,243.45; Vouchers Nos. 104-114, miscellaneous bills, \$770.49;

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Railroads for the Periods Indicated Below:

Voucher No. 49; Bethlehem Steel Products Company; approximate estimate No. 1 for the supply of Special Work and other track materials, Order No. 20, for use in construction of Route No. 16, from November 11, 1922 to February 15, 1923 (R. T. 7470) \$19,718.99;

Voucher No. 50; Slattery Engineering & Construction Company, Inc.; final estimate for the installation of frogs, switches, track and bumping posts in yard near Jerome Avenue and Mosholu Parkway, Route No. 16, to February 1, 1923 (R. T. 7577) \$2,813.19;

Voucher No. 51; Stander & Solow, Inc.; final estimate for the completion of station finish for the sub-passageway at the 23rd St. station, Routes Nos. 4 & 36, Section 1, to November 14, 1922 (R. T. 7561) \$1,065.07;

Voucher No. 52; Jacob Schlesinger, Inc.; approximate estimate No. 7 for the construction of a second addition to shops at the Lenox Avenue and 148th Street Yard, under Contract No. 3, from January 16, 1923 to February 15, 1923 (R. T. 7368) \$4,596.78;

Voucher No. 53; Lindley M. Garrison, Receiver, New York Consolidated Railroad Company, and the New York Consolidated Railroad Company; approximate estimate No. 1 for the installing of tracks including special work at and near the Queensboro Plaza station from December 14, 1922 to December 31, 1922 (R. T. 7585) \$1,302.28;

Voucher No. 54; Vulcan Rail and Construction Company; final estimate for the construction of steel ladders and gratings in two shafts of the Bronx River Duct Tunnel, Routes Nos. 19 & 22, Section No. 2, to February 1, 1923 (R. T. 7535) \$514.63.

TRANSIT COMMISSION
49 Lafayette Street
Borough of Manhattan, City of New York

Proceedings for Thursday, March 1, 1923

274

Hearing

The following hearing was held:

10:45 A. M.; Case No. 2672; The Long Island Railroad Company; application of City of New York for determination as to manner in which 216th Street (4th Street) should be carried across tracks of Flushing and North Side Division. George L. Lucas, Acting Chief Executive Officer, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, March 2, 1923

275

Hearing

The following hearing was held:

10:35 A. M.; Case No. 2673; Ocean Electric Railway Company; application for authority to increase capital stock from \$50,000 to \$315,000. George L. Lucas, Acting Chief Executive Officer, presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, March 6, 1923

Present: George McAneny, Chairman, LeRoy T. Harkness, Commissioner, James B. Walker, Secretary.

The following matters were presented and action taken as noted:

276—R. T. 6892

Route No. 8, Section No. 2—Certificate by Chief Engineer of Completion of Contract Except Maintenance of Street Surface Restored—Report by Chief Engineer Recommending that Contractor Be Required to Deposit Continuing Bond in Sum of \$10,000—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

March 2, 1923.

To: TRANSIT COMMISSION.

Certificate of Completion: Route 8, Section 2.

In connection with the contract dated July 12, 1920 between the City of New York and Patrick McGovern, Inc., Assignee, for the construction of Section 2 of Route 8, I hereby certify that all work (except the maintenance of street surface restored) was completed on October 31, 1922. The total cost of the work was \$3,173,683.39 paid as follows:

By the City of New York	\$3,155,442.29
By the President of the Borough of Manhattan for the widening of the roadway on 14th Street	18,241.10
Total	\$3,173,683.39

In accordance with the provisions of the contract, all work (except the maintenance of street surface restored) should have been completed by July 12, 1922. The time for completion, however, was extended to October 31, 1922 by resolution of the Transit Commission adopted on January 9, 1923. As all work (except the maintenance of street surface restored) was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended that the work (except the maintenance of street surface restored) be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBERT RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

A report was presented from the Chief Engineer dated March 2, 1923, recommending that the contractor be required to deposit with the Comptroller of The City of New York a continuing bond or other security in the sum of \$10,000 for the payment of unsatisfied claims.

The following resolution was adopted:

Whereas, The Contract dated July 12, 1920, between The City of New York, acting by the Transit Construction Commissioner and Patrick McGovern, Inc., (as Assignee), for the completion of construction of that part of the Fourteenth Street-Eastern Rapid Transit Railroad, known as Section No. 2 of Route No. 8, required the completion of all work thereunder (except maintenance of street surface restored) on or before July 12, 1922, which time was extended to October 31, 1922 by resolution of the Transit Commission adopted on January 9, 1923; and

Whereas, The Chief Engineer of this Commission has by communication dated March 2, 1923, reported that all the work under said Contract (except maintenance of street surface restored) was in all respects completed on or before October 31, 1922; that the total amount due therefor was \$3,173,683.39, made up as follows:

[March 6, 1923

By the City of New York	\$3,155,442.29
By the President of the Borough of Manhattan for the widening of the roadway on 14th Street.....	18,241.10
Total	\$3,173,683.39

and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York; and

Whereas, The Chief Engineer has by further communication dated March 2, 1923, recommended that the Contractor be required to continue its bond or other security in the sum of \$10,000. against any claims "then unsatisfied or not presented for a time not exceeding the time when such claims would be legally barred."

Resolved, That the said reports and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted, and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York, provided, however, that as a condition precedent to the making of said final payment, said contractor shall deposit with the Comptroller of The City of New York, in a form to be approved by Counsel to the Commission, a bond or other security in the sum of \$10,000, as security against any claims "then unsatisfied or not presented for a time not exceeding the time when such claims would be legally barred," pursuant to the provisions of Article XLVIII of said Contract.

277—R. T. 5006

Agreement "BW"—Report by Chief Engineer Recommending Extension of Time to February 6, 1923, within Which to Complete Land and River Borings for Flushing Line—Approval Resolution

A report was presented by the Chief Engineer dated March 6, 1923, recommending an extension of time be granted to P. J. Healey, to and including February 6, 1923, within which to complete land and river borings along Roosevelt Avenue, 40th Avenue and in the Flushing River. The following resolution was adopted:

Whereas, The contract dated October 27, 1922 (Agreement "BW") between The City of New York, acting by the Transit Commission, and P. J. Healey, for the making of land and river borings along Roosevelt Avenue, 40th Avenue and in Flushing River, Borough of Queens, City of New York, required the completion of all work thereunder on or before the expiration of two (2) months after the date of delivery, which contract was delivered on October 31, 1922, the original date for completion therefor being December 31, 1922; and

Whereas, The Chief Engineer of this Commission by communication dated March 6, 1923, reported that the progress of the work under said contract was considerably delayed on account of the heavy snow and rain during the month of December, 1922 and also on account of the contractor's raft and equipment for making river borings being struck and rammed four times by passing tugboats, and recommends that the time within which to complete the work under said contract be extended to and including February 6, 1923, the actual time of completion therefor being December 31, 1922;

Resolved, That the time of P. J. Healey within which to complete the work under the contract aforesaid be and the same hereby is extended to and including February 6, 1923.

278—R. T. 5006

Agreement "BW"—Certificate by Chief Engineer of Completion of Contract for Land and River Borings for Flushing Line—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

March 6, 1923.

To: TRANSIT COMMISSION

*Certificate of Completion: Land & River Borings, Borough of Queens—
Agreement "BW"*

In connection with the contract dated October 27, 1922 between the City of New York and P. J. Healey for the making of land and river borings along Roosevelt Avenue

and 40th Avenue and in Flushing River, Borough of Queens, I hereby certify that all work was completed on February 6, 1923. The total cost of the work was \$2,854.48.

In accordance with the provisions of the contract, all work should have been completed by December 31, 1922. The time for completion, however, was extended to February 6, 1923 by resolution of the Transit Commission adopted on March 6, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBERT RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated October 27, 1922 between The City of New York, acting by the Transit Commission, and P. J. Healey (Agreement "BW"), for the making of land and river borings along Roosevelt Avenue, 40th Avenue and in the Flushing River, Borough of Queens, City of New York, required the completion of all work thereunder on or before the expiration of December 31, 1922, which time was extended to and including February 6, 1923 by resolution of the Transit Commission adopted on March 6, 1923; and

Whereas, The Chief Engineer of this Commission has, by communication dated March 6, 1923, reported that all the work under said contract was in all respects completed on or before February 6, 1923; that the total amount due therefor was \$2,854.48 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That the said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

279—R. T. 7592

**Route No. 11-B, Section No. 3—Communication from T. A. Gillespie Company
Withdrawing Bid for Construction of Fourth Avenue Extension and Requesting
Return of Certified Check Deposited with Bid—Approval Resolution—
Communication to the Board of Estimate and Apportionment Requesting
that No Further Action Be Taken on Proposed Contract**

A communication was presented from T. A. Gillespie Company dated March 5, 1923, withdrawing the bid submitted on December 22, 1922, for the construction of Section No. 3 of Route No. 11-B, Fourth Avenue Extension, and requesting the return of the certified check in the sum of \$25,000 deposited with its bid.

The following resolution was adopted:

Whereas, By resolution adopted by this Commission on December 27, 1922 the proposed contract for the construction of a part of a rapid transit railroad, Route No. 11-B, Section No. 3 (Fourth Avenue-Brooklyn) was, subject to its being consented to in form and substance as required by law, awarded to the low bidder, T. A. Gillespie Company, which proposed contract was, together with a request for the money necessary to meet the obligations of the City thereunder, transmitted to the Board of Estimate and Apportionment, which Board has not acted thereon, the bids for said work having been received on December 22, 1922; and

Whereas, By communication dated March 5, 1923 the said low bidder, T. A. Gillespie Company, has, pursuant to the privilege granted to it by the provisions of the general municipal law, withdrawn its said bid and has requested the return to it of the certified check deposited with its said bid; and

Whereas, Counsel has advised that there is no legal alternative but to grant the request of said low bidder,

Resolved, That all the bids received on December 22, 1922, for the said proposed Contract be and the same hereby are in all respects rejected; that the Secretary of

this Commission be and hereby is authorized and directed to return to said bidders where such action has not been heretofore taken, the certified check deposited with said bids for said proposed contract and that the Board of Estimate and Apportionment of The City of New York be requested to take no further action upon the request of this Commission to consent to said proposed contract and to appropriate the money necessary therefor upon the basis of the award of said proposed contract to the low bidder of the bids received on December 22, 1922.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

March 6, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT,
Municipal Building,
New York City.

Gentlemen:

Under date of December 27, 1922, the Transit Commission submitted to your Honorable Board for its consent to, and the making of an appropriation of the amount estimated to be necessary to meet the obligations of the City thereunder, a proposed contract to be entered into between The City of New York, acting by the Transit Commission and T. A. Gillespie Company for the construction of a part of a rapid transit railroad Route No. 11-B, Section No. 3, the so-called Fort Hamilton Route, in Brooklyn. This proposed contract and requisition were referred to the Committee of the Whole of your Honorable Board, which has since taken no action.

Under date of March 5, 1923, said low bidder for said proposed contract the T. A. Gillespie Company has advised this Commission as follows:

"On February 14th we wrote Mr. Joseph Haag, Secretary of the Board of Estimate and Apportionment in regard to our bid of December 22nd, 1922 for the Fourth Avenue Subway Extension, drawing his attention to the fact that material prices, upon which that bid was based, were being withdrawn and that unless some immediate action could be taken by the Board of Estimate we would be unable to hold open our tender. Following that letter the matter was put upon the supplementary calendar for the meeting of February 16th, at which time it was referred to the Committee of the Whole, and although since then we have been endeavoring to have it disposed of we are now informed that it cannot come up before the meeting of March 14th.

"We regret exceedingly that due to the length of time elapsed since December 22nd, we cannot longer hold open quotations made us for materials at the time our tender was made, and under the circumstances it becomes necessary for us to withdraw that tender. Will you therefore please take the necessary action to cancel this bid and return us check for \$25,000 submitted therewith."

Under the provisions of law pertaining thereto, there is no alternative but to comply with the request of said bidder and the Commission by action taken at its meeting today has rejected all bids received for said work and returned to the respective bidders the deposit made with their bids. Such action, of course, renders unnecessary any further consideration of this subject by your Honorable Board or its Committee.

An examination of the list of bids received on December 22, 1922 for this proposed contract will clearly indicate that the amount of the low bid was an extremely advantageous one for The City of New York. It is regrettable that through inaction upon the application of this Commission with respect thereto the benefits therefrom must be lost to the City; and that under prevailing conditions, and a rising market, a readvertisement of the proposed contract will result undoubtedly in the necessity for the expenditure of a greater amount of public funds for the completion of this project than would have been expended had the requisitions of the Transit Commission of December 27, 1922, had been acted upon with ordinary promptness.

TRANSIT COMMISSION.

By GEORGE McANENY,
Chairman.

280—R. T. 7503

Order No. 6—Report by Chief Engineer Recommending Extension of Time to February 23, 1923 within Which to Complete Delivery of Treated Ties—Approval Resolution

A report was presented from the Chief Engineer dated March 2, 1923, as described below:

The following resolution was adopted:

Whereas, The contract dated May 11, 1922 between The City of New York acting by the Transit Commission and Eppinger & Russell Co. for the supply of treated ties, Order No. 6, for use in the installation of tracks in the 14th Street Eastern Rapid Transit Railroad, provides in Article XLIX thereof that "The City shall have up to November 1, 1922, to accept all the Materials to be furnished and delivered by the Contractor and purchased by the City, under this Contract"; and

Whereas, The Chief Engineer of this Commission, by communication dated March 2, 1923 reports and recommends in part as follows:

"The contract dated May 11, 1922 with Eppinger & Russell for the supply of treated ties, Order No. 6, provides in Article XLIX, as follows:

'The City shall have up to November 1, 1922 to accept all of the Materials to be furnished and delivered by the Contractor and purchased by the City under this contract.'

Although the Contractor wrote us in August 25, 1922 that all of the Materials were ready for delivery and requested shipping instructions, we replied that it would be necessary for him to hold the Materials until such time as we had an installation contractor in the field ready to take them. It was not until in January, 1923, that we were able to order the first part of the ties delivered and final delivery was made by the Contractor on February 23, 1923, shortly after our final request.

The performance of the Contractor was very satisfactory and the fact that deliveries were not made until after November 1, 1922 was due to no fault of his. I have however, been advised by Counsel that in making deliveries after November 1, 1922 the Contractor has in effect consented to an extension of time for the acceptance of deliveries to include the date of the last delivery and, I, therefore,

Recommend that the date stipulated in Article LXIX of the contract up to which the City shall have for accepting all the materials purchased under the contract be extended from November 1, 1922 to February 23, 1923."

Resolved, That the time within which to complete deliveries of the Materials under and in pursuance of said contract be and the same hereby is extended to and including February 23, 1923.

281—R. T. 6924

Contract No. 2—Proposed Permit by Interborough Rapid Transit Company to A. A. Webster & Co., Inc., to Erect and Maintain Clock in Front of Premises at No. 487 Fulton Street, Borough of Brooklyn—Report by Chief Engineer Recommending Approval—Approval Resolution

A proposed permit was presented dated February 16, 1923, issued by the Interborough Rapid Transit Company to A. A. Webster & Co., Inc. for permission to erect and maintain a clock over the subway structure in front of the premises at No. 487 Fulton Street, Borough of Brooklyn.

A report was presented from the Chief Engineer dated February 23, 1923, recommending that the permit be approved from an engineering standpoint.

The following resolution was adopted:

Whereas, There has been submitted to this Commission for its approval, a proposed permit dated February 16, 1923, issued by Interborough Rapid Transit Company, to

A. A. Webster & Co., Inc., of No. 440 Fulton Street, in the Borough of Brooklyn, permitting the erection and maintenance of a column clock on the vault lights over the structure of the Brooklyn-Manhattan Rapid Transit Railroad in front of No. 487 Fulton Street, in the Borough of Brooklyn, which said proposed permit has been accepted by said A. A. Webster & Co., Inc.; and

Whereas, The Chief Engineer of this Commission has by communication dated February 23, 1923, reported that the said proposed permit has been examined and finds no objection thereto from an engineering standpoint; and

Whereas, Counsel has examined the proposed permit and recommends the approval thereof;

Resolved, That the said proposed permit be and it is hereby approved upon the express condition, and not otherwise, that all necessary or other permits, municipal or otherwise, as may be necessary to erect and maintain said column clock, shall be procured by said A. A. Webster & Co., Inc., at its own cost and expense.

Further Resolved, That the Chairman and Secretary of this Commission be and hereby are authorized to execute the form of approval of this Commission made part of said proposed permit.

282—R. T. 7007

Contract No. 1—Eight Applications by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Orders for Additional Apparatus for Multiple Door Control on 982 Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolutions

Eight applications were presented from the Interborough Rapid Transit Company for the approval of proposed purchasing agent's orders for furnishing additional apparatus for multiple door control on 982 subway cars at a total cost of \$260,428.19.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 20, 1923, recommending that the applications be approved.

The following resolutions were adopted:

Whereas, By order adopted on the 15th day of December, 1920 the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920 for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of arbitration award; and

Whereas, by resolution adopted January 30, 1923 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with said approval Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated June 16, 1922, directed to the National Pneumatic Company for the following:

<i>Item No.</i>		<i>Price per set</i>	<i>Total</i>
1	982 Sets Boxes, door lock interlock, complete, as per item 11 on Spec. 95-C and B/P 9364-A (2 per set)	\$21.00	\$20,622.00
2	982 Sets Cylinders, door lock, with magnet valve, complete, as per item 13 on Spec. 95-C and B/P 9367-A (2 per set).....	45.00	44,190.00
3	982 Sets Relays, door lock, complete, as per item 15 on Spec. 95-C and B/P 9370-A (2 per set).....	54.00	53,028.00
Totaling			\$117,840.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 445"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated February 20, 1923 reported that such material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved;

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, By order adopted on the 15th day of December, 1920 the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920 for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with said approval Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated June 16, 1922, directed to Westinghouse Electric and Manufacturing Company, for the following:

	<i>Price each</i>	<i>Total</i>
1964 each Ground Blocks to be fitted in car door train line coupler sockets	\$1.40	\$2,749.60
982 each Ground blocks to be fitted in car door train line jumpers	2.70	2,651.40
Totaling		\$5,401.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 446"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated February 20, 1923 reported that such material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved.

Resolved, That said report and recommendation be and the same hereby is approved; that the said proposed purchasing agent's order so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of, said proposed purchasing agent's order.

Whereas, By order adopted on the 15th day of December, 1920 the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920 for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with said approval Interborough Rapid Transit Company has submitted for approval of this Commission proposed purchasing agent's order dated July 26, 1922 directed to the Columbia Machine Works & Malleable Iron Co. for the following:

1,964 sockets, signal coupler, complete, as per B/P 9769-A and with approximately 20 feet of 19-No. 25 insulated cable, as per Spec. 34-R, except that O. D. must not exceed .250"	Price: \$7.40 each.....	\$14,533.60
982 Jumpers, signal, complete with cable as per blue print 9769-A, and Spec. 34-R	Price: \$9.15 each.....	8,985.30
Total		<u>\$23,518.90</u>

which proposed purchasing agent's order has been caused to be designated as "Approval No. 447"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have, by communication dated February 20, 1923, reported that such material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved.

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, By order adopted on the 15th day of December, 1920 the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of

the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920 for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with said approval Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated September 20, 1922, directed to Columbia Machine Works & Malleable Iron Company, for the following:

1,964 Boxes, door operator's indication lamp complete, details per B/Ps 9824-B, 9836-A, 9746-C and to be assembled as per B/P 9330-D.
 Price: \$6.25 each. Total \$12,275.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 448"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer, have by communication dated February 23, 1923, reported that such material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved.

Resolved, That said report and recommendation be and the same hereby are approved; that said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, By order adopted on the 15th day of December, 1920 the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920 for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923 the Transit Commission approved

the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with said approval Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 5, 1923, directed to The National Pneumatic Company, for the following:

For Car Door Master Controllers

4000 Bases, L.H. contact, complete, NP C-2930	
Price: \$2.42 each	\$9,680.00
4000 Bases, R.H. contact, complete, NP C-2920	
Price: \$2.38 each	9,520.00
4000 Barriers, contact, NP C-3742	
Price: \$0.15 each	600.00
12000 Insulators, barrier, NP C-3746	
Price: \$0.02 each	240.00

For Control Cutout Switches

2000 Drums, 2" special contact, NP C-3698	
Price: \$0.80 each	1,600.00
2000 Bases, NP C-3663	
Price: \$1.15 each	2,300.00
4000 Clips, fuse, NP C-1659	
Price: \$0.06 each	240.00
8000 Fingers, contract. NP C-3678	
Price: \$0.05 each	400.00
2000 Barrier, NP C-3682	
Price: \$0.12 each	240.00
2000 Plates, fuse clip. NP C-4104	
Price: \$0.06 each	120.00

Parts for Car Door Unit Controllers

4000 Fingers, steel contract, NP C-1761	
Price: \$0.05 each	200.00
1420 Blocks, R.H. finger (motor) Maple, C-4092	
Price: \$0.60 each	852.00
1420 Blocks, L.H. finger (motor) Maple, C-4093	
Price: \$0.60 each	852.00
580 Blocks, finger (trailer) Maple, C-4096	
Price: \$0.60 each	348.00
2000 Blocks, R. H. Segment, complete, Maple, C-2980	
Price: \$0.98	1,960.00
2000 Blocks, L.H. Segment, complete, Maple, C-2970	
Price: \$0.98	1,960.00

Total \$31,112.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 449"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer, have by communication dated February 20, 1923, reported that such material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, By order adopted on the 15th day of December, 1920 the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-

Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920 for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

283—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Installation of Water Main for Fire Protection in Clark Street Tunnels—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 3, 1923, requesting approval of a proposed purchasing agent's order directed to M. O'Neil Supply Company for the manufacture and delivery of 16,000 feet of 2 inch water main for fire protection in the Clark Street Tunnels of the Seventh Avenue-Lexington Avenue Line at a cost of \$8,992.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 21, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By resolution adopted November 22, 1922 this Commission, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, approved the proposal of said Interborough Rapid Transit Company for the installation of a two-inch water main for fire protection purposes in the subaqueous portion of the Clark Street Tunnels of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3 as Additional Equipment of the Railroad, and assigned to said unit Work Order No. IBA-8; and

Whereas, In pursuance of said approval Interborough Rapid Transit Company, by communication dated February 3, 1923, has submitted for the approval of this Commission proposed purchasing agent's order dated February 3, 1923, directed to M. O'Neil Supply Company for the manufacture and delivery of the following:

16,000 Ft. 2" ex. hy. genuine W. I. pipe, lap welded threaded with recessed couplings on one end and protectors on other end	
To be coated with lead by "Intraloy" process.	
Price: \$.505 per Ft. less 22½% and 5%.....	\$.3713 per Ft.
Lead coating \$76.00 per ton or approx.....	\$.1907 per Ft.
	<hr/>
Net cost per foot of pipe, lead coated.....	\$.5620
Delivery to be made at once.	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 443"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated February 21, 1923, reported that the following bids were received for said material:

- M. O'Neil Supply Co.—*
Net total Cost of pipe, lead coated—\$8,992—(F. O. B. Homestead, N. J.).
- John Simmons Co.—*
Net total Cost of pipe, lead coated—\$9,032—(F. O. B. Homestead, N. J.).
- Cornell and Underhill—*
Net total Cost of pipe, lead coated—\$12,800—(Delivered).
- R. J. Donovan—No Bid.
- Crane Co.—No Bid.

; that the quantity of pipe ordered is proper for such work authorized; that the price is reasonable, and recommend that the said proposed purchasing agent's order so submitted be approved,

Resolved, That the said report and recommendation be and the same hereby is approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed Purchasing Agent's order.

284—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Form of Contract, Specifications, etc., for Construction of Foundations and Superstructure for Substation No. 27—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 5, 1923, requesting approval of a proposed contract, specifications, drawings, etc., for the construction of foundations and superstructure (exclusive of structural metal work) for substation No. 27, to be located on Roosevelt Avenue between 32nd and 33rd Street in Elmhurst, Borough of Queens.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 24, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Interborough Rapid Transit Company has, pursuant to the provisions of Article XXII of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and the said Interborough Rapid Transit Company, known as Contract No. 3, submitted for the approval of the Commission by communication dated February 5, 1923, signed by Frank Hedley, its President and General Manager, a proposed contract, contractor's bond, contractor's proposal and specifications, together with blue prints of the drawings referred to in the specifications for the construction of the foundations and superstructure (exclusive of structural metal work) of Substation No. 27 of said company to be located on Roosevelt Avenue between 32d & 33d Streets, in Elmhurst, Borough of Queens, City of New York; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated February 24, 1923, have advised that the said papers have been examined and found satisfactory from an engineering standpoint, and recommended that the same be approved subject to the conditions hereinafter provided; and

Whereas, Counsel has examined said proposed contract, contractor's bond, contractor's proposal and specifications and finds no objection thereto;

Resolved, That said proposed form of contract, contractor's bond, contractor's proposal and specifications for the construction of foundations and superstructure, exclusive of structural steel work, for Substation No. 27 as aforesaid, be and the same hereby are approved, provided, however:

1. That the contractor shall obtain the approval and consent of the proper municipal authorities to the construction of approximately 300 feet of private sewer provided for in said specifications;

2. That the company advertise for bids for the construction provided for in said proposed contract and specifications, and that same be submitted to this Commission for its approval before the contract is awarded.

285—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of Structural Steel for Substation No. 27—Reports by Engineer of Equipment and Operation and Chief Engineer and Auditor of Rapid Transit Costs Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated January 25, 1923, requesting the approval of the purchase of structural steel

from Levering & Garrigues Co., to be used in the construction of substation No. 27, Elmhurst, Borough of Queens, at an approximate cost of \$19,260. A report was presented from the Chief Engineer dated February 10, 1923, stating that the price is reasonable and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of Article XXII of the contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated January 25, 1923, from Frank Hedley, its President and General Manager, requested the approval of this Commission to the purchase of structural steel from Levering & Garrigues Co., to be used in the construction of Substation No. 27, to be constructed as a part of Equipment of the Queensboro Line of the Railroad as described in said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated February 10, 1923, reported that the following bids were received for such work

	Per lb.	App. total cost
Levering & Garrigues Co.	5.35c	\$19,260.00
McClintic Marshall Company	5.58	20,088.00
Shoemaker, Satterthwaite Bridge Co....	5.69	20,804.00
American Bridge Company	6.87	24,732.00
Terry & Tench Company (Decline)		

that said substation was authorized by the Public Service Commission for the First District by resolution adopted November 9, 1916; that the erection of said substation is necessary at the present time for the furnishing of power to said Queensboro Line; that the plans submitted showing such steel are satisfactory; that the price of 5.35c per pound is reasonable and the best obtainable under present conditions; that said firm is competent to supply such material and recommends that the application of the Interborough Rapid Transit Company as aforesaid be approved; and

Whereas, The Auditor of Rapid Transit Costs has by endorsement, dated February 21, 1923, recommended that said work be classified as Equipment of the Railroad, as defined in said Contract No. 3;

Resolved, That said reports and recommendations be and the same hereby are approved; that said application of the Interborough Rapid Transit Company be and the same hereby is approved; the cost of such structural steel to be classified as Equipment of the Railroad under and in accordance with the provisions of said Contract No. 3.

286—R. T. 7255

Routes Nos. 19 and 22, Section No. 2—Report by Real Estate Clerk Recommending Preparation of Condemnation Map for Acquisition of Property for Westchester Yard Site—Approved

The Commission approved a recommendation from the Real Estate Clerk dated March 5, 1923, for the immediate preparation of a condemnation map to cover the acquisition of fifteen remaining parcels of real estate necessary for the site for the car storage yard for the Westchester Avenue Line.

287—R. T. 6080

Route No. 5, Section No. 15—Application by Sobol Bros. for Permission to Occupy Premises at Southwesterly Corner of East 138th Street and Mott Avenue, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Sobol Bros. for permission to occupy the premises at the southwesterly corner of East 138th Street and Mott Avenue, Borough of The Bronx, from March 1, 1923 to the time of delivery of a deed for the premises to Consolidated Parking Co., Inc. the purchaser of the property at public auction.

A report was presented from the Real Estate Clerk dated March 5, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Consolidated Parking Co., Inc., is the Vendee of the property at the southwesterly corner of East 138th Street and Mott Avenue, in the Borough of The Bronx, to receive the deed of said property on March 16, 1923, pursuant to the terms of sale signed at the public auction held at No. 49 Lafayette Street, Borough of Manhattan, on January 16, 1923; and

Whereas, David Whitehorn surrendered possession of the premises as temporary tenant on or before March 1, 1923; and

Whereas, Sobol Bros., principal owners of Consolidated Parking Co., Inc., by application dated February 28, 1923, have requested permission to occupy the premises pending delivery of the deed as aforesaid, agreeing to pay rental at the same rate paid by David Whitehorn, beginning March 1, 1923, and that all right, title and interest of Sobol Bros. as tenant shall cease coincident with the delivery of the deed as aforesaid to Consolidated Parking Co., Inc., and Consolidated Parking Co., Inc., has consented to such occupancy of the premises, agreeing that physical possession thereof by Sobol Bros. at the time of the delivery of the deed shall not operate to prevent accepting title thereof by Consolidated Parking Co., Inc.; and

Whereas, The Real Estate Clerk, under date of March 5, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application of February 28, 1923, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on the said application.

Rapid Transit Railroads—Communication from Counsel Submitting Forms of Deeds to Purchasers of Property Sold at Public Auction on January 16, 1923—Approval Resolution

A communication was presented from Counsel dated March 5, 1923, submitting forms of deeds to purchasers of six plots of property sold at public auction on January 16, 1923, and requesting authorization to make delivery of the deeds.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Rapid Transit Act as amended and with the consent and approval of the Commissioners of the Sinking Fund of The City of New York, the Transit Commission heretofore and on January 16, 1923, duly sold at public auction, subject to certain easements to be retained for the maintenance and operation of the municipal rapid transit railroads for which they were originally acquired, certain parcels of real estate in the Boroughs of Manhattan, Brooklyn and The Bronx, for the respective highest bid purchase prices, to the highest bidders set forth in the following list:

<i>Plot</i>	<i>Bid Purchase Price</i>	<i>Name of Highest Bidder</i>
West side of Centre Street bet. Canal & Howard Sts., Man.	\$148,750.00	Herbert Fisher
West side of Centre Street bet. Canal & Walker Sts., Man.	86,100.00	Louis Ullman
South side of park at foot of Clark St., Columbia Heights to Furman St., Bklyn.	12,500.00	Frank W. Struvy
North side of E. 138th St. bet. Jackson Ave. & Southern Boulevard, Bronx.	27,000.00	David Vogel
Southwest corner of E. 138th St. & Mott Ave., Bronx.	50,300.00	J. W. Page
Bet. Walton & Gerard Aves., 105 ft. north of E. 146th St., Bronx.	22,750.00	John A. McCarthy

; and

Whereas, By the terms of said auction sale the closing of title to said parcels is set for March 16, 1923; and

Whereas, Counsel has submitted a form of deed to convey each of the said parcels to the said highest bidder or his assignee, reserving unto The City of New York the necessary rights, easements and rights of way for the maintenance of the municipal rapid transit railroads for which the property was acquired; also a form of bond and mortgage to be delivered by the respective highest bidder or his assignee for each parcel at the time of closing, such bond and mortgage in each case to be accepted by The City of New York in part payment of the bid purchase price to a percentage thereof not exceeding seventy-five per centum (75%) for a term not exceeding five (5) years beginning with the date of the closing and at a rate of interest payable to the City of five per centum (5%) per annum, recommending approval thereof;

Resolved, That the said forms of deeds, bonds and mortgages be, and the same are, hereby approved, and that the members of the Commission and the Secretary thereof be, and they hereby are, authorized to execute and acknowledge said deeds, and that Counsel to the Commission be, and he hereby is, authorized and directed to attend upon the closing of each title, to deliver the deed on behalf of the Commission to the highest bid purchaser or his duly authenticated assignee, to make such arrangements as may be necessary to effect the closing in each case, to receive the balance of the purchase price due and the several bonds and mortgages, and to give receipt therefor; and it is further

Resolved, That Counsel be, and he hereby is, authorized to adjourn the closing of title for a period not to exceed one (1) month after March 16, 1923, and to make such minor changes in form of the several instruments as shall not be inconsistent with the terms under which the several parcels of real estate were sold and as shall in his judgment be necessary and expedient in the City's interest to effectuate the delivery of the deeds and the receipt of the bonds and mortgages and sums on the purchase prices at the closing.

289—R. T. 6080

Route No. 5, Section No. 15—Report by Real Estate Clerk Recommending Approval of Application of Thomas P. McLaughlin to Occupy Vacant Lot at Southwest Corner of East 157th Street and Gerard Avenue, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Motion Directing that New Bids Be Received

An application was presented from Thomas P. McLaughlin for permission to occupy a vacant lot at the southwest corner of East 157th Street and Gerard Avenue, Borough of The Bronx, at a rental of \$131.00 per month.

A report was presented by the Real Estate Clerk dated February 15, 1923, recommending that the application be approved.

In view of the possibility of obtaining a better offer by soliciting bids, upon motion, duly seconded and adopted, it was directed that bids be invited for the concession.

290—R. T. 7583

Route No. 39, Section No. 2—Report by Real Estate Clerk Recommending Approval of Notice to the Coney Island & Brooklyn Terminal Company and Brooklyn Rapid Transit Company to Remove All Personal Property from Yard Site North of Coney Island Creek and West of Shell Road in Borough of Brooklyn—Approval Resolution

A report was presented from the Real Estate Clerk dated March 5, 1923, recommending that notices be directed to The Coney Island & Brooklyn Terminal Company and the Brooklyn Rapid Transit Company to remove all personal property from the yard site north of Coney Island Creek and west of Shell Road, Borough of Brooklyn, by April 16, 1923.

The following resolution was adopted:

Whereas, J. H. Bennington, Secretary of The Coney Island & Brooklyn Terminal Company, by communication dated February 26, 1923, has advised that certain personal property consisting mainly of tracks and overhead work now located on the property of The City of New York acquired in condemnation on February 1, 1923, is owned by the Brooklyn Rapid Transit Company, suggesting that such tracks and overhead work might be of use in connection with the construction of the proposed yard; and

Whereas, The Chief Engineer under date of March 5, 1923, has advised the Real Estate Clerk that it will be necessary to relay the entire existing track layout if it is to be used in connection with the distribution of fill, stating that, in his opinion, it would be preferable that the contractor be free to make his own arrangements for the conduct of the work, recommending that the track and overhead work be removed; and

Whereas, The Real Estate Clerk under date of March 5, 1923, has reported on this matter recommending that The Coney Island & Brooklyn Terminal Company and the Brooklyn Rapid Transit Company be notified to remove from this yard site all of their personal property of whatsoever description, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, authorize and direct the Secretary to notify the two (2) Companies, aforesaid, to vacate and to remove from the said yard site all of their personal property of whatsoever description by not later than 12:00 o'clock noon on April 16, 1923.

291—R. T. 7617

Route No. 16, Section No. 1—Communication from Counsel Submitting Proposed Agreement for Construction of Permanent Facilities at 161st Street Station—Approval Resolution—Communication to Board of Estimate and Apportionment

A communication was presented from Counsel dated March 5, 1923, submitting a proposed agreement between the City of New York, Interborough Rapid Transit Company and the American League Baseball Club of New York, Inc., for the construction of permanent additional facilities at the 161st Street Station of the Jerome Avenue Line.

The following resolution was adopted:

Whereas, The American League Baseball Club of New York, Inc., is constructing a stadium for the performance of athletic games and events on the westerly side of River Avenue between East 157th and East 161st Streets in the Borough of The Bronx, City of New York, and extending westerly to Doughty Street, the use of which stadium will, it is expected, attract large assemblages of people, the greater portions of which will utilize the municipal elevated rapid transit railroad extending over and along River Avenue in front of said stadium; and

Whereas, This Commission and the Interborough Rapid Transit Company, as Lessee of said rapid transit railroad, being a portion of Subdivision II of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the railroad, described

in the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, are of the opinion that additional facilities to the 161st Street Station of said line will be necessary to accommodate the public which will offer themselves for transportation on said line in connection with the attendance of such games and events at said stadium; and

Whereas, Arrangements have been made and are now being carried out by the Owner of said stadium, and the Interborough Rapid Transit Company with respect to the temporary facilities for said purpose; and

Whereas, This Commission, the said Interborough Rapid Transit Company and the American League Baseball Club of New York, Inc., have agreed upon terms and conditions for the effecting of permanent additions to the said 161st Street Station estimated to be necessary and sufficient to afford suitable and convenient accommodation for the public going to and departing from said stadium, and have set forth such understandings in a proposed agreement prepared by Counsel to this Commission, which is now submitted for consideration; and

Whereas, Said proposed agreement provides for a grant of an easement for the construction of such additional facilities on the property of the owner of the stadium; the contribution by the said owner of \$18,750 to the cost of "Construction" within the said easement; the performance of all such work by the Interborough Rapid Transit Company as an Addition to Construction, the City and the Company paying equal shares in excess of the said sum of \$18,750 and the performance of all equipment work by the Interborough Rapid Transit Company, at solely its expense, as Additional Equipment in accordance with the provisions of Articles LXX and LXXI of said Contract No. 3; and

Whereas, The Chief Engineer of this Commission has examined said proposed agreement and recommends its approval.

Resolved, That the said proposed agreement so submitted be and the same hereby is approved; that the performance of the work therein contemplated by the Interborough Rapid Transit Company, as Lessee under and in accordance with the provisions of said Contract No. 3 as an Addition or Additional Equipment as the case may be, in accordance with the terms of said agreement, hereby approved, be and the same hereby is approved; that this Commission assigns to such part of said work as is properly classifiable as an Addition to Construction under said Contract No. 3, Work Order No. IAA-7, and to such portion of said work as is properly classifiable as Additional Equipment under said Contract No. 3, Work Order No. IBA-9; that the requisition now submitted by Counsel upon the Board of Estimate and Apportionment transmitting said proposed agreement for the consent of said Board and the appropriation of the money estimated to be necessary to meet the obligations of the City thereunder, be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment, together with said proposed agreement.

Further Resolved, That the Chairman and Secretary of this Commission be and they hereby are authorized and directed to execute and deliver said proposed agreement if and when consented to by said Board of Estimate and Apportionment and approved as to form by the Corporation Counsel.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

March 6, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The American League Baseball Club of New York, Inc., is constructing on property owned by it on the westerly side of River Avenue between East 157th Street and East 161st Street in the Borough of The Bronx and extending westerly to Doughty Street, a stadium which is to be used as an athletic field for the performance of baseball and other athletic games, and which it is expected will be completed, ready for use at the beginning of the baseball season on or about April 15, 1923. It is anticipated by those interested that large assemblages of people will congregate for the witnessing of the athletic games and events to be held in this stadium and that a considerable portion of such people will utilize the Jerome Avenue Elevated Line of the municipal rapid transit system, extending over and along River Avenue in front of the property upon which the stadium is erected and particularly the 161st Street

Station of that line. The existing facilities of said station, while sufficient to meet the ordinary traffic are wholly inadequate to accommodate the great throngs which will present themselves as passengers of this railroad. Nor will such increased business be seasonal, inasmuch as it is proposed to use the stadium throughout the permissible periods of the year for the performance of all kinds of athletic events continuing practically throughout the year. It is therefore desirable and necessary to the interests of the City, the Lessee of the Rapid Transit Railroad, the owner of the stadium and particularly the traveling public to provide additional permanent means of access, ingress and egress, to and from the station of the rapid transit railroad to care for the extraordinary crowds that will be attracted to this locality whenever a game is played for a more direct means of thoroughfare and connection for the transfer and distribution of passengers or intending passengers on this station, in their desire to arrive at and depart from this stadium.

Aside from every other consideration it would be the duty and obligation of the City and the Lessee and operator of this railroad line and said station thereof to provide sufficient facilities to conveniently handle the extraordinary crowds which will desire transportation by means of this railroad, but it is also appreciated that such increased facilities would also serve immeasurable benefit and convenience to such passengers in their status as patrons of the athletic games, thus in no small degree contributing to the success of the athletic enterprise. With this duality of convenience and benefit before them the matter was approached by representatives of the Commission, the Lessee and operator of the railroad and of the baseball club and the following arrangements for the permanent facilities were agreed upon as being a fair and reasonable basis for the construction of such additional rapid transit requirements at this station:

(1) The conveyance without cost to the City or the Interborough Company of a right and easement to the City over the property of the club for the construction of the necessary mezzanine extensions and additional stairways to the railroad station. Because of the relation of the existing railroad structure to the width of River Avenue at this point it was determined by the Engineers that without acquiring such easement the additional facilities necessary in this connection could be only strung out along the structure within the limits of the street, entailing considerable walking distance to the entrance to the stadium. The proposed easement is to be revocable by the owner only upon three months written notice that it will cease or has ceased to use the property as an athletic field for the performance of baseball games or other athletic amusements, or other use calculated to attract large assemblages of people. The existing mortgage on said property is to be subordinated to the lien to be created by such easement.

(2) The owner of the property and stadium to contribute toward the cost of the additional facilities within the easement so conveyed, a sum not exceeding \$18,750 which is estimated by the Engineers to represent approximately three quarters of the cost of construction within such easement.

(3) All work to be constructed by the Interborough Rapid Transit Company, as Lessee and operator of said Line as an "Addition" as defined in Contract No. 3 and the cost of such work properly classifiable as "Construction" as defined in Contract No. 3, in excess of the sum of \$18,750 to be borne equally by the City and the Lessee as provided in said Contract No. 3.

(4) All work properly classifiable as "Equipment" to be borne solely by the Interborough Rapid Transit Company as Lessee and charged as "Additional Equipment," as provided in said contract.

Such arrangements have been set down to be carried out pursuant to a proposed agreement, transmitted herewith, which has for its basis the standard form of agreement now being utilized in the performance of units of work of "Additions to Construction," where performed by the Lessee.

(5) The approval as to form by the Corporation Counsel before execution and delivery.

The estimated cost of the Construction Work entailed in this proposed agreement, in excess of the contribution by the owner of \$18,750, is \$47,250, the City's share therefore, being as required by Contract No. 3, the sum of \$23,625.

Your Honorable Board is accordingly requested to consent to the said proposed agreement herewith transmitted and requisition is made upon your Honorable Board for the appropriation of the sum of \$23,625 being one-half the estimated cost of the work of Construction in excess of the contribution by the owner of the property, such

requisition being a subrequisition under and not in addition to those heretofore made for the purposes of carrying out Contract No. 3 and the appropriation made in consequence thereof by your Board.

Realizing that the permanent work which is provided for in the proposed agreement hereinbefore referred to and herewith submitted for your Board's consent could not be completed in time for the opening of the stadium at the beginning of the baseball season this Spring, agreements were reached and arrangements made for the prosecution of temporary work of a character sufficient for the purpose and which could be completed in time for such use. In the construction of the stadium there was left over various sizes of new first-class lumber of a kind suitable for the construction of such temporary facilities. The market value of the total quantity of such timber was equal to a sum approximately one-half of the estimated cost of such temporary facilities. It was agreed therefore that the owner of the park would contribute this lumber without cost and the lessee of the railroad would perform the work, charging the same to its maintenance account. No part of the cost of constructing the temporary facilities are to be included in the cost of erecting the permanent one, but the cost of the demolition of the temporary facilities are of course necessarily to be included in the permanent work.

TRANSIT COMMISSION

By GEORGE McANENY,

Chairman.

292—R. T. 7605

Routes Nos. 35 & 67—Communications from Acting President, Borough of Manhattan, and the City Club Protesting Against Location of Stairways to Fifth Avenue Station of Queensboro Subway Extension on Northerly Side of 42d Street—Report by Chief Engineer Recommending Public Hearing Be Held—Resolution Directing Hearing

Communications were presented from Joseph Johnson, Acting President, Borough of Manhattan, dated February 24, 1923, and Raymond V. Ingersoll, Secretary, The City Club of New York, dated February 26, 1923, protesting against the location of entrances and stairways to the Fifth Avenue station of the Queensboro Subway Extension outside the building line on the north side of 42nd Street.

A report was presented from the Chief Engineer dated February 28, 1923, recommending that a public hearing be held on the matter.

The following resolution was adopted:

Whereas, The Acting President of the Borough of Manhattan, by communication dated February 24, 1923, and the City Club of New York by communication dated February 26, 1923, have protested to the Commission against the location of entrances and stairways to the Fifth Avenue Station of the extension to the Queensboro Subway on the north side of Forty-second Street between Fifth and Sixth Avenues, and

Whereas, The Commission has attempted to arrange with owners of property on the northerly side of Forty-second Street for entrances and stairways to said subway station through the buildings and within the building lines, and where said attempts have been unsuccessful, and

Whereas, The Chief Engineer of the Commission has by communication dated February 28, 1923, recommended that a public hearing be held to ascertain the public attitude in regard to the location of said subway entrances and stairways on the northerly sidewalk of Forty-second Street, and

Whereas, The said recommendation of the Chief Engineer has been approved by the Commission,

Resolved, That a hearing be held upon the proposed location of entrances and stairways to the Fifth Avenue Station of the extension of the Queensboro subway on the north side of 42nd Street, in the Hearing Room of the Commission, 49 Lafayette Street, Borough of Manhattan, City, County and State of New York, on the 20th day of March, 1923 at three o'clock in the afternoon, and

Further Resolved, That public notice of said hearing be given by publication of notice thereof in the City Record from March 10, to March 20, 1923, inclusive, and that

notice thereof be given to the City Club of the City of New York and the President of the Borough of Manhattan, by service upon each of a certified copy of this resolution in the manner provided by law.

293—R. T. 6317

Contract No. 2—Application by Leo Morgenstern for Approval of Addition of "Polytechnic Institute" to Name of "Borough Hall" Station—Report by Chief Engineer Recommending Application Be Denied—Denial Resolution

An application was presented from Leo Morgenstern dated February 19, 1923, requesting addition of "Polytechnic Institute" to the name of the "Borough Hall" station.

A report was presented from the Chief Engineer dated March 6, 1923, recommending that the application be denied.

The following resolution was adopted:

Whereas, Leo Morgenstern, on behalf of the students of the Polytechnic Institute of the Borough of Brooklyn, has made application to the Commission by communication dated February 19, 1923, to have the name of the "Borough Hall" stations on the lines of the Interborough Rapid Transit Company changed by adding thereto "Polytechnic Institute," and

Whereas, The Chief Engineer of the Commission by report dated March 6, 1923, has recommended that said application be denied for the reason that a very small percentage of the traffic developed at said Borough Hall Stations is due to the presence of the Polytechnic Institute, and

Whereas, The said report of the Chief Engineer has been duly approved

Resolved, That the said application to have "Polytechnic Institute" added to the name of the "Borough Hall" stations of the lines of the Interborough Rapid Transit Company be and the same hereby is denied.

294

Board of Estimate and Apportionment—Communication Regarding Service in the Borough of Queens—Referred to Chairman

The Secretary presented a communication from the Board of Estimate & Apportionment, dated March 2, 1923, transmitting a copy of a communication from the Homestead Civic Association of Woodhaven, Queens County; and a copy of a communication from the Executive Secretary of Community Councils, dated February 17, 1923, complaining of street car service in the Borough of Queens.

The Commission ordered said communication referred to the Chairman.

295—Case 2672

The Long Island Railroad Company—Application of Board of Estimate and Apportionment for a Determination as to the Method by Which 216th Street (Fourth Street) Shall Be Carried Across the Tracks of the Flushing & North Side Division, in the Borough of Queens—Report and Opinion Approved—Final Order and Determination Adopted

The Secretary presented a report and opinion, dated March 5, 1923, by George L. Lucas, Acting Chief Executive Officer, designated to conduct the hearing herein, recommending that 216th Street (Fourth Street) in the Borough of Queens, be carried across the tracks of the Flushing & North Side Division of The Long Island Railroad Company, upon a pedestrian bridge with a clearance of twenty-one (21) feet above the tracks substantially as indicated on Exhibit No. 11, introduced in evidence at the hearing, being entitled, "The LIRRCo. North Side Division—V—2B."

The Commission approved and ordered filed said report and opinion of the Acting Chief Executive Officer and adopted and ordered filed a final order and determination in Case No. 2672, as recommended in said report.

296—Case 2601

New York Railways Company—Receiver—Jackson Jacobs, Transfers—Report Filed

The Secretary presented a report, dated March 5, 1923, by Assistant Counsel Stover, advising that the Appellate Division had dismissed the certiorari order and affirmed the determination of the Commission in the above entitled matter.

The Commission ordered the report filed.

The Staten Island Rapid Transit Railway Company—Grade Crossing Eliminations at Pennsylvania Avenue, Clifton Avenue and Maryland Avenue, in the Borough of Richmond—Communications Filed

The Secretary presented:

1. A communication from the Auditor of The Staten Island Rapid Transit Railway Company, dated February 20, 1923, acknowledging receipt of check of the Treasurer of the State of New York in the amount of \$6,504.40, representing the balance of share of cost of the State of New York in the above entitled matter.

2. A communication from the Department of Finance, The City of New York, dated February 24, 1923, acknowledging receipt of check in the amount of \$2,553.99 of The Staten Island Rapid Transit Railway Company, representing the amount due the City from said railroad company on account of the cost of grade crossing eliminations in the above entitled matter.

The Commission ordered the two communications filed.

300

The Long Island Railroad Company—Tariffs—Tariff and Report Filed

The Secretary presented a report, dated February 20, 1923, by the Chief of the Transit Bureau, approved by the Acting Chief Executive Officer, transmitting copy of tariff of commutation fares of The Long Island Railroad Company designated T. C. N. Y. No. 208, clarifying the charges with respect to commutation tickets, etc., to be effective March 15, 1923.

The Commission ordered said tariff and report filed.

301

Employees' Resolution No. 131

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Willis R. Cantrell, junior assistant, at \$125.08 per month, to take effect March 5, 1923; Peter M. Joyce, inspector special trackwork installation, at \$125.08 per month, to take effect March 5, 1923.

Appointment under Rule VIII:4—Clement Dudrey, engineering inspector, at \$150.08 per month, to take effect March 5, 1923.

Appointment under Rule VIII:7—Kopple Tennygold, mechanical engineer, at \$150.08 per month, to take effect February 17, 1923.

Reinstatements under Rule XVI:1—Harry R. Gingher, inspector of steel, at \$200.00 per month, to take effect March 1, 1923; William J. Huber, inspector of steel, at \$175.00 per month, to take effect March 1, 1923.

Resignations—Harry R. Gingher, inspector of steel, at \$200.00 per month, to take effect March 1, 1923; William J. Huber, inspector of steel, at \$175.00 per month, to take effect March 1, 1923.

Transferred from State Commission of Highways—Theodore Regenstreich, junior assistant, at \$125.08 per month, to take effect March 13, 1923.

Transferred from State Engineer and Surveyor—Isie Spahn, junior assistant, at \$125.08 per month, to take effect March 13, 1923.

Promotion—Harry M. Leon, junior engineer, from \$162.50 per month to \$175.00 per month, to take effect February 1, 1923.

Appointment (Exempt)—Harry H. Mintz, assistant counsel, at \$275.00 per month, to take effect March 12, 1923.

302

Voucher Schedule No. 10

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of The State of New York as the vouchers may direct:

Vouchers Nos. 225-236, open market orders, \$446.08; Vouchers Nos. 115-127, miscellaneous bills, \$3,285.19; Vouchers Nos. 30-40, City Payrolls, \$84,864.60; Voucher No. CM-4, State payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 56; John Pollock, approximate estimate No. 2 for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Line, from February 1, 1923 to February 28, 1923 (R. T. 7609) \$1,032.97;

Voucher No. 55; Station Finish Corporation, Assignee, approximate estimate No. 7 for the construction of station finish on Sections Nos. 3 and 4 and 5 of Route No. 8, from February 1, 1923 to February 28, 1923 (R. T. 7516) \$9,967.19;

Voucher No. 57; Patrick McGovern, Inc., Assignee, final estimate for the completion of construction of Section No. 2 of Route No. 8, to October 31, 1922 (R. T. 7092) \$63,318.93;

Voucher No. 58; Wagner Engineering Company, Inc.; approximate estimate No. 2 for the construction of direction signs at stations of the rapid transit railroad of The City of New York, from January 6, 1923 to March 5, 1923 (R. T. 7482) \$1,012.08;

Voucher No. 59; T. H. Reynolds Contracting Company, Inc.; approximate estimate No. 3 for the installation of tracks on Sections Nos. 1 to 5 of Route No. 8, from February 1, 1923 to February 28, 1923 (R. T. 7536) \$20,586.05;

Voucher No. 60; Michael DelBalso; approximate estimate No. 2 for the installation of tracks, including furnishing part of the track material and the construction of drainage system and concrete inspection pits for a portion of the White Plains Road Line, Route No. 18, 239th Street Yard, from February 1, 1923 to February 28, 1923 (R. T. 7528) \$13,278.60;

Voucher No. 61; P. J. Healey, final estimate for making land and river borings along the proposed extension of the Corona Branch of the Queensboro Rapid Transit Railroad, to February 6, 1923 (R. T. 5006) \$1,186.89.

Hearing

The following hearing was held:

10:30 A. M.; Case No. 2674; Brooklyn Eastern District Terminal; application for approval of proceedings to condemn real property located at No. 80 Kent Avenue, Brooklyn. George O. Redington, Counsel, presided. Adjourned to March 14, 1923, at 2:30 P. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, March 13, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

304—R. T. 7648

Order No. 8—Form of Contract, Specifications, Invitation to Contractors, etc., for Supply of Ties and Timber—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the supply of ties and timber (Order No. 8) for use in the construction of rapid transit railroads,

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the supply of ties and timber (Order No. 8) for use in the construction of rapid transit railroads be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including the 15th day of March, 1923 to and including the 30th day of March, 1923 and on March 16, 1923 and March 23, 1923 in the Journal of Commerce and The Evening Telegram, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 30th day of March, 1923, at eleven-thirty (11:30) o'clock a. m., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

305—R. T. 7601

Route No. 52, Section No. 1—Resolution Directing Readvertisement for Bids for Furnishing and Erecting Structural Steel—Adopted

The following resolution was adopted:

Whereas, The proposed contract for furnishing and erecting structural steel for a part of the rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, was finally adopted on November 28, 1922 and subsequent to advertisement duly made bids were received therefor on December 14, 1922, the Commission awarding said proposed contract, by resolution adopted December 19, 1922, to the lowest bid received, to wit, that of the Phoenix Bridge Company, subject to its being consented to in form

and substance as required by law, and thereafter transmitted said proposed contract, together with a requisition for the money necessary to meet the obligations of the City thereunder, to the Board of Estimate and Apportionment; and

Whereas, By resolution adopted January 30, 1923 this Commission, upon the application of said Phoenix Bridge Company, rejected all bids so received and returned the checks deposited with said bids; and

Whereas, This Commission is of the opinion that said proposed contract should now be readvertised,

Resolved, That the Invitation to Contractors forming part of said proposed contract, approved and adopted as aforesaid on November 28, 1922, be published in the City Record every day of publication continuously from and including March 16, 1923 to and including April 2, 1923 and on March 16, 1923 and March 23, 1923 in the Flushing Times and The World, daily newspapers published in The City of New York and that such bids as shall be received shall, on the 2nd day of April, 1923 at eleven-thirty (11:30) o'clock A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission or its Secretary, at the office of the Transit Commission, and read.

306—R. T. 7642

Agreement "CK"—Form of Contract, Specifications, Invitation to Contractors, etc., for Excavation and Construction of Retaining Wall at Lenox Avenue and 148th Street Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings (Agreement "CK") for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, 7th Avenue between 148th and 150th Streets, Manhattan.

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings (Agreement "CK") for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, 7th Avenue between 148th and 150th Streets, Manhattan, be and hereby are approved and adopted and that said invitation to Contractors be published in the City Record every day of publication continuously from and including March 16, 1923 to and including March 29, 1923, and on March 16, 1923 and March 23, 1923 in The New York Herald and The Evening World, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 29th day of March, 1923 at eleven-thirty (11:30) o'clock A. M. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

307—R. T. 6924

Routes Nos. 43 & 26—Application by Charles T. Wills, Inc., for Approval of Proposed Permit for Making Changes in Roof of Subway Structure at Grand Central Station—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Charles T. Wills, Inc. dated March 5, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company for making certain changes in the roof of the subway structure at the Grand Central Station over the express tracks in connection with the construction of entrances to the Grand Central Station through the Pershing Square Building.

A report was presented from the Chief Engineer dated March 8, 1923, stating that there is no objection thereto and recommending that the permit be approved.

The following resolution was adopted:

Whereas, Charles T. Wills, Inc., has by communication, dated March 5, 1923, made application to the Commission for its approval of a permit issued by the Interborough Rapid Transit Company and accepted by said Charles T. Wills, Inc., under date of February 27, 1923, for making certain changes in the roof of subway structure at the Grand Central Station over the express tracks in accordance with Commission Drawing No. 193, File No. 3801, and in connection with construction of entrances to Grand Central Station through the Pershing Square Building; and

Whereas, The Chief Engineer of the Commission has by communication, dated March 8, 1923, reported to the Commission that he has examined said permit and finds no objection thereto and recommends its approval; and

Whereas, Counsel to the Commission has examined said permit and finds no objection thereto:

Resolved, That said permit be and the same hereby is approved by the Commission.

Further Resolved, That the Chairman and Secretary of the Commission be and they are hereby authorized to indorse said approval of the Commission upon said permit.

308—R. T. 7544

Fourth Avenue Subway—Report by Chief Engineer Recommending Extension of Time to December 23, 1922, within Which to Complete Curbing and Sidewalk Replacement on North Side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue—Approval Resolution

A report was presented by the Chief Engineer dated March 10, 1923, recommending that an extension of time be granted to M. I. Sachs to and including December 23, 1922, within which to complete work under the contract for curbing and sidewalk replacement on the north side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue, Borough of Brooklyn.

The following resolution was adopted:

Whereas, The contract dated November 14, 1922 between the Transit Commission and M. I. Sachs for certain curbing and sidewalk replacement and repairing adjoining property heretofore acquired for rapid transit purposes and under the jurisdiction of the Transit Commission on the north side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue, required the completion of all work thereunder on or before the expiration of twenty working days or December 9, 1922; and

Whereas, The Chief Engineer of this Commission by communication dated March 10, 1923 has reported that the actual date for completion was December 23, 1922; that after the beginning of the work it was prosecuted diligently as the weather permitted until completion; that the circumstances which obtained during the performance of the work are sufficient to warrant the extension of time to the actual date of completion and so recommends,

Resolved, That the time within which to complete the work under said contract aforesaid be and the same hereby is extended to and including December 23, 1922.

309—R. T. 7544

Fourth Avenue Subway—Certificate by Chief Engineer of Completion of Contract for Curbing and Sidewalk Restoration on North Side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue, Brooklyn—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

March 12, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Curbing and Sidewalk Replacement and Repairing North Side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue.

In connection with the contract dated November 14, 1922, between the City of New York and M. I. Sachs for curbing and sidewalk replacement and repairing north

side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue, Borough of Brooklyn, I hereby certify that the work was completed on December 23, 1922. The cost of the work was \$2,970.50.

In accordance with the provisions of the contract the work should have been completed by December 9, 1922. The time for completion, however, was extended to December 23, 1922, by resolution of the Transit Commission adopted on March 13, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated November 14, 1922, between The City of New York, acting by the Transit Commission, and M. I. Sachs, for curbing and sidewalk restoration and repairing north side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue, Borough of Brooklyn, contiguous to property heretofore acquired for rapid transit purposes, required the completion of all work thereunder on or before December 9, 1922, which time was extended to and including December 23, 1922, by resolution of the Transit Commission adopted on March 13, 1923; and

Whereas, The Chief Engineer of this Commission has, by communication dated March 12, 1923, reported that all the work under said contract was in all respects completed on or before December 23, 1922; that the total amount due therefor was \$2,970.50 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That the said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

310—R. T. 6974

Route No. 12, Section No. 2-A—Application by New York Municipal Railway Corporation for Approval of Assignment of Sum of \$567.16 from Money Due Degnon Contracting Company from City—Approval Resolution

An application was presented from the New York Municipal Railway Corporation by F. C. Mulrenan, Assistant Counsel, dated March 8, 1923, requesting the approval of an assignment of \$567.16, by The Degnon Contracting Company out of the money due the contractor from The City of New York in connection with the contract for the construction of Section No. 2-A of Route No. 12. The following resolution was adopted:

Whereas, The Degnon Contracting Company by instrument duly signed and acknowledged on the 27th day of February, 1923, has assigned, transferred and set over to Lindley M. Garrison, as Receiver of New York Municipal Railway Corporation, his successors and assigns, the sum of Five hundred and sixty-seven and 16/100 (\$567.16) Dollars, out of the amount now claimed to be due the said The Degnon Contracting Company from The City of New York on Contract No. 44,690, Article 12, Construction Rapid Transit Subway 2-A Route 12; and

Whereas, F. C. Mulrenan, Assistant Counsel for Lindley M. Garrison, Receiver of New York Municipal Railway Corporation, has by communication, dated March 8, 1923, made application to the Commission for its approval of said assignment; and

Whereas, Counsel to the Commission has examined said assignment and finds no objection thereto;

Resolved, That the said assignment be and the same hereby is approved subject to all the terms and conditions contained in said contract and upon condition further:

First: That said assignment and the consent of this Commission herein given shall in no respect defeat or impair such rights and remedies as subcontractors or

other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment and the consent of this Commission herein given shall in no respect affect the rights of The City of New York or of this Commission or of any board, officer, agent or employee acting for The City of New York or this Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and Conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: That this consent shall be of no force or effect unless and until there shall be delivered to this Commission an acceptance by said The Degnon Contracting Company and said Lindley M. Garrison, Receiver of New York Municipal Railway Corporation in form to be approved by Counsel to this Commission and duly executed and acknowledged accepting the terms of this consent herein given, and unless and until it shall be consented to in writing in form to be approved by Counsel to this Commission by the sureties upon the bond deposited for the faithful performance of said contract.

311—R. T. 6407

Route No. 52—Communication to Interborough Rapid Transit Company Advising of Determination to Include Flushing Line as an Extension of Queensboro Subway Line—Approved

The following communication was approved:

March 13, 1923.

INTERBOROUGH RAPID TRANSIT COMPANY,
165 Broadway,
New York City.
Sirs:

Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, and particularly the provisions of Article LXXII thereof the Transit Commission, as successor under said contract to the Public Service Commission for the First District, has determined to add to Subdivision V of the Queensboro Subway Line and as an Extension thereto a rapid transit railroad commencing at the present terminus of said portion of said line and extending over and along Roosevelt Avenue and the Flushing River to Main Street, Flushing.

Notice is hereby given you of such determination of the Transit Commission and you are requested to inform the Commission whether you acquiesce in the addition of such Extension.

Very truly yours,

GEORGE McANENY,
Chairman.

312—R. T. 6761, 6694, 7083

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Signal and Interlocking Apparatus in Jerome Avenue Yard—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 13, 1923, requesting approval of a proposed purchasing agent's order directed to the Union Switch and Signal Co. for signal and interlocking apparatus to be installed in the Jerome Avenue Yard, at a cost of \$31,059.90.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 6, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has by communication dated February 13, 1923, submitted for the approval of this Commission proposed purchasing agent's order dated February 13, 1923, directed to Union Switch and Signal Company for the manufacture and delivery of signal and interlocking apparatus to be installed in the so-called Jerome Avenue Yard of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3 in compliance with its obligation to install Equipment as defined in said contract, which proposed purchasing agent's order has been caused to be designated as "Approval No. 454"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have by communication dated March 6, 1923, reported that the following bids were taken for such work:

Union Switch and Signal Co.	\$31,059.90
*General Railway Signal Co.	1,345.00
*Hall Switch and Signal Co.	1,356.00
*Federal Signal Co.	5,278.00
T. Georges Stiles Co.	No bid
Coleman Railway Supply Co.	No bid
Traction Supply and Equipment Co.	No bid

that it is necessary to purchase said material from the Union Switch and Signal Company so as to have it conform with the standard of the present signal equipment; that such equipment is necessary for the safe operation of said yard and is in accordance with the best engineering practice; that the prices are not unreasonable and the best obtainable and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs has by endorsement dated March 8, 1923, recommended the approval of said proposed purchasing agent's order, the cost therefor, to be classified as Equipment of the Railroad under said Contract No. 3,

Resolved, That the said reports and recommendation so submitted be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

313—R. T. 6420

Manhattan Railroads—Proposed Stipulation with Interborough Rapid Transit Company as to Cost of Improvements, Betterments or Additions to the Existing Manhattan Railroads—Approval Resolution

The following resolution was adopted:

Whereas, A dispute has arisen between the Transit Commission, as grantor, and the Interborough Rapid Transit Company, as grantee, as to the proper meaning and interpretation of the provisions of the certificate dated March 19, 1913 granted to said Interborough Rapid Transit Company for certain elevated extensions, the Commission contending that the said certificate does not permit the making of Additions, as defined therein, to the Manhattan Railroad, as defined therein, and the Interborough Rapid Transit Company claiming that such certificate does permit the making of Additions to said Manhattan Railroad, and it is accordingly entitled, under Subdivision 8 of Article XII of said certificate to deduct from the revenue derived from the

*Not a complete bid.

operation of the Company Lines, as defined in said certificate, the interest and amortization of the cost of any betterment, improvement or Addition to the Manhattan Railroad during the term of the grant under said certificate; and

Whereas, Counsel to the Commission and the said grantee have prepared a proposed stipulation which will permit the charging of the cost of improvements, betterments or Additions to the existing Manhattan Railroads and the making of such deductions until such time as the Commission may desire to contest the right of the company so to do by a legal determination of the proper interpretation of the provisions of said Extension Certificate, which proposed stipulation has been approved and executed by said Interborough Rapid Transit Company and is now submitted to this Commission by Counsel with the recommendation that it be approved and executed,

Resolved, That the said proposed stipulation so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver it for and on behalf of this Commission.

314—R. T. 6597

Manhattan Railroads—Application by Interborough Rapid Transit Company for Approval of Installation of Automatic Pre-payment Turnstiles upon Stations of Elevated Lines—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending that the Application Be Approved—Report by Auditor of Rapid Transit Costs Assigning Work Order No. IMA-1—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 21, 1922, requesting approval to the installation of automatic pre-payment turnstiles upon stations of the elevated lines.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated June 30, 1922, recommending that the application be approved from an engineering standpoint.

A report was presented from the Auditor of Rapid Transit Costs dated March 12, 1923, classifying the work as Additions to the Existing Manhattan Railroads and assigning Work Order No. IMA-1.

The following resolution was adopted:

Whereas, The Public Service Commission for the First District, a predecessor of this Commission, granted to Interborough Rapid Transit Company a certificate dated March 19, 1913, for certain Extensions to the Existing Manhattan Elevated Railroads, known as the Webster Avenue Line, the Eighth Avenue and 162nd Street Connection, the Queensboro Bridge Line and the West Farms Subway Connection; and

Whereas, The Interborough Rapid Transit Company, by communication dated June 21, 1922, from Frank Hedley, its President and General Manager, has pursuant to said Extension Certificate and the stipulation hereinafter referred to, requested the approval of this Commission to the installation of automatic pre-payment turnstiles (of a character and design similar to the turnstiles installed in the subway portions of its lines with the approval of this Commission) upon the stations of its elevated lines; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated June 30, 1922, have reported that from an engineering standpoint the installation of such turnstiles on the elevated portions of the lines of the Interborough Rapid Transit Company is satisfactory and recommend the approval of said application; and

Whereas, This Commission has approved a stipulation dated March 9, 1923, between this Commission and Interborough Rapid Transit Company with respect to the proper interpretation and meaning of the provisions of the said Extension Certificate particularly as to betterments, improvements or additions to the Existing Manhattan Railroads; and

Whereas, The Auditor of Rapid Transit Costs has recommended the assignment of Work Order No. IMA-1 to the work of installing said turnstiles on the stations of the Existing Manhattan Railroads and the classification thereof, subject to the provisions of said stipulation, as "Additions to the Existing Manhattan Railroads,"

Resolved, That said reports and recommendations be and the same hereby are approved; that the application of Interborough Rapid Transit Company aforesaid be and the same hereby is approved; that the installation of said turnstiles on the stations of the Existing Manhattan Railroads to be Additions to the Existing Manhattan Railroads pursuant to and as provided in said stipulation dated March 9, 1923, aforesaid, and as to which this Commission assigns Work Order No. IMA-1, such approval being upon the conditions following:

- (1) that the number and arrangement of turnstiles at each station shall receive the approval of the Chief Engineer in advance of installation.
- (2) that the Commission reserves the right to order the removal or relocation of any or all of the turnstiles if the judgment of the Commission indicates this course to be warranted, and the restoration of the station to its previous condition.
- (3) that the expense of such work which is not a betterment, including all changes to station structures, railings, etc., shall be paid for as Maintenance.

315—R. T. 7007

Manhattan Railroads—Application by Interborough Rapid Transit Company for Permission to Equip 465 Manhattan Elevated Cars with Multiple Unit Door Control Device—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs Assigning Work Order No. IMA-2—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated January 8, 1923, requesting approval to the installation of multiple unit door control device on 465 elevated cars for use on Manhattan Elevated Lines.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated January 27, 1923, stating that the general plan for the necessary changes is satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs dated March 12, 1923, classifying the work as Additions to Existing Manhattan Railroads and assigning Work Order No. IMA-2.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913 granted to the Interborough Rapid Transit Company by the Public Service Commission for the First District for certain elevated extensions known as the Webster Avenue Line, Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and West Farms Subway Connection, said Interborough Rapid Transit Company, by communication dated January 8, 1923, has requested the approval of this Commission to the installation of a multiple door control (including car body changes) on certain elevated cars for use on the Manhattan Elevated Lines; and

Whereas, The said Interborough Rapid Transit Company and this Commission have entered into a stipulation dated March 9, 1923 with respect to the making of improvements, betterments or additions to the Existing Manhattan Railroads as therein more particularly provided; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated January 27, 1923, reported that the work will include removing the existing swinging gates from the car platform ends and installing in their place sliding steel doors, the control for which will be similar to that now in operation on the subway cars; that the general plan for such changes appears to be satisfactory and recommend the approval of said application; and

Whereas, By communication dated March 12, 1923 the Auditor of Rapid Transit

Costs of this Commission has reported that the following are the cars upon which it is tentatively proposed to install such multiple door control apparatus:

Number of Cars	Name of Builder	Date Built	Car Numbers
<i>178 Motors for Western Division Service</i>			
118	Wason Mfg. Co.....	1902-1903	172, 221-227, 229-241, 1121-1129, 1131-1218
60	Wason Mfg. Co.....	1903	1255-1314
<i>97 Motors for Eastern Division Service</i>			
18	Barney & Smith.....	1910	1635-1652
19	Jewett Car. Co.....	1910	1654-1672
40	Jewett Car Co.....	1911-1912	1753-1792
20	Cincinnati Car So....	1911	1793-1812
<i>190 Trailers for Eastern and Western Division Service</i>			
111	St. Louis Car Co....	1907-1908	1417-1458, 1460-1528
19	Wason Mfg. Co.....	1909	1673-1685, 1687-1692
20	St. Louis Car Co....	1911	1693-1712
40	Wason Mfg. Co.....	1911	1713-1752
	Total Motors		275
	Total Trailers		190
	Total Cars		465

; that the work be classified as Additions to Existing Manhattan Railroads; that Work Order No. IMA-2 be assigned thereto, provided, however, that the part of the cost of such work which is not a betterment, including the cost of re-arranging existing facilities, be charged to Maintenance.

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to the said Extension Certificate and said stipulation of March 9, 1923 aforesaid the said application of Interborough Rapid Transit Company be and the same hereby is approved; such work to be classified as Additions to the Existing Manhattan Railroads and as to which unit this Commission assigns Work Order No. IMA-2, the part of the cost of which work is not a betterment, including the cost of rearranging existing facilities, to be charged to Maintenance.

316—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of a Proposed Purchasing Agent's Order on the Long Bell Lumber Company for Lumber Requirements on All Divisions—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated February 26, 1923, requesting approval of a proposed purchasing agent's order directed to the Long Bell Lumber Company for lumber requirements on all divisions at a cost of \$91,456.20.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 6, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of Article XXIII of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 and pursuant also to the provisions of Article X of the certificate dated March 19, 1913 issued to said Interborough Rapid Transit Company for certain

Elevated Extensions, said Interborough Rapid Transit Company has by communication dated February, 26, 1923 submitted for the approval of this Commission proposed purchasing agent's order dated February 26, 1923 directed to The Long Bell Lumber Company for the following:

- 90,000 ft. B.M. 1 3/4" x 6" x 16' and up slatting
- 110,000 ft. B.M. 2" x 6" x 18' and up slatting
- 500,000 ft. B.M. 6" x 8" x 30' and up Guard Rail
- 160,000 ft. B.M. 6" x 8" x 8'0" Ties (5,000 pcs.)
- 51,000 ft. E.M. 6" x 8" x 8'6" Ties (1,500 pcs.)
- 54,000 ft. B.M. 6" x 8" x 9'0" Ties (1,500 pcs.)
- 52,800 ft. B.M. 6" x 8" x 12'0" Ties (1,100 pcs.)
- 10,000 ft. B.M. 8" x 12" x 24' to 30' Timber
- 10,000 ft. B.M. 10" x 10" x 30' Timber
- 10,000 ft. B.M. 10" x 12" x 24' to 30' Timber
- 25,000 ft. B.M. 12" x 12" x 30' Timber

All of the foregoing to be Long Leaf Yellow Pine and to conform to the Manhattan Railway Division Standard Specifications for Track Timber dated October 15, 1904, 1 3/4" x 6" slatting to be in lengths of 16' to 30' multiples of 2'. 2 x 6" Slatting to be in multiples of 4' 6" minimum length 18' and at least 50% to be 22' 6" and longer.

Guard Rail to be 30' and up in length, multiples of 2'.

Ties to be saw-butted to exact length given.

Price: \$85.25 per M. ft.—f.o.b. 159th St. and Harlem River Dock, N. Y. C. based on present freight rate, any increase or decline to be for our account. 2% ten days.

Total bid \$91,456.20

which proposed purchasing agent's order has been caused to be designated as "Approval No. 455"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated March 6, 1923 reported that the bids received for said work were as follows:

The Long Bell Lumber Co.....	\$85.25 per M. ft.
J. H. Burton and Sons Company.....	87.50 per M. ft.
Virginia Lumber Company.....	90.75 per M. ft.
Herman Hettler Lumber Company.....	91.05 per M. ft.
Bowman Hicks Lumber Co.....	97.00 per M. ft.
The McLeod Lumber Co.....	100.00 per M. ft.

that invitations to bid were sent to fifty-four other companies but no bids were received; that such material is necessary for the maintenance of the Railroad and maintenance of the lines described in said Contract No. 3 and said Extension Certificate; that the quantity of lumber so to be purchased is reasonable and recommend that the said proposed purchasing agent's order so submitted be approved.

Resolved, That said report and recommendation be and the same hereby are approved; that said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

317—R. T. 7628, 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Ducts and Manholes on Hanson Place—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Assigning Work Order No. MBA-17—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated January 29, 1923, requesting approval of a proposed purchasing agent's order directed to Edwards & Flood, Inc., covering the installation of ducts and manholes on

Hanson Place in order to house additional power cables connecting the Williamsburg Power House with the Fourth Avenue Rapid Transit Railroad at a cost of \$4,515.30.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 21, 1923, recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant, dated March 5, 1923, assigning Work Order No. MBA-17 to the work.

The following resolution was adopted:

Whereas, By resolution adopted on October 24, 1922 this Commission, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, approved the proposal of the Receiver of said New York Municipal Railway Corporation to the installation of two high tension cables from the Williamsburg Power House to the Fourth Avenue Subway at First Street as Additional Equipment of the Railroad under said Contract No. 4 and assigned thereto Work Order No. MBA-17, as more particularly set forth in said resolution; and

Whereas, Pursuant to said authorization the said Receiver of New York Municipal Railway Corporation has, by communication dated January 29, 1923, submitted for the approval of this Commission proposed purchasing agent's order, together with the specifications made part thereof, dated January 29, 1923, directed to Edwards & Flood, Inc., for the following:

Furnish the labor and material (except material as specified to be furnished by the Receiver) necessary to install ducts, and manholes on Hanson Place, Brooklyn, N. Y., in accordance with attached specifications dated January 2, 1923.

Payments to be made at Unit Price indicated on attached sheet.

Partial payments to be made on the 20th day of each month for 90% of the value of the work performed during the preceding month, provided the Contractor is making proper progress and payments by the Contractor to any sub-Contractor for work done in connection with the work are being made consistent with payments by the Receiver to the Contractor.

Time of completion—Three (3) months from date of order.

Bond of Five Thousand Dollars (\$5,000) required.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 341": and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer report that such work is necessary to house the additional power cables connecting the Williamsburg Power House with the said Fourth Avenue Rapid Transit Railroad as approved on October 24, 1922 aforesaid; that the following bids were received for such work:

Edwards & Flood, Inc.....	\$4,515.30
Henry E. Fox Construction Co.....	5,924.30
G. M. Gest	6,859.80
B. T. & I. J. Mack, Inc.....	6,060.70
Fred T. Levy & Co.....	Did not bid
Eastern Contracting Co.....	Did not bid
Slattery Engr. & Constr. Co.....	Did not bid
Thomas Crimmins Contracting Co.....	Did not bid
Seymour Construction Co.....	Did not bid

; that the prices are reasonable and recommend the approval of said proposed purchasing agent's order and the specifications made part thereof; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have, by communication dated March 5, 1923, reported that the work proposed by said proposed purchasing agent's order is that heretofore approved on October 24, 1922 and as to which Work Order No. MBA-17 was assigned,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order, together with the speci-

fications made part thereof, so submitted, be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

318—R. T. 7641

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Installation of Automatic Interlocking Plant at Myrtle and Grand Avenues, Borough of Brooklyn—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Classifying Work and Assigning Work Order No. MCR-14—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated November 10, 1922, requesting approval of the installation of an automatic interlocking plant at the junction of Myrtle and Lexington Avenue Lines at Myrtle and Grand Avenues in the Borough of Brooklyn at an estimated cost of \$6,000.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 20, 1922, stating that the apparatus is satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated March 8, 1923, classifying the work as a Replacement and assigning Work Order No. MCR-14.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation has by communication dated November 10, 1922, requested the approval of this Commission to the installation of an automatic interlocking plant at the junction of Myrtle and Lexington Avenue Lines of the Existing Railroads at Myrtle and Grand Avenues in the Borough of Brooklyn, in order to avoid the expense of towermen at this location during hours or days of light traffic; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have by communication dated November 20, 1922 reported that the estimated cost of such installation is \$6,000; that it is similar to the plant at the Franklin Avenue Station of the Brighton Beach Line of the Existing Railroads heretofore approved and on other points; that the drawing showing said proposed apparatus is satisfactory and recommend the approval of said installation; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have by communication dated March 8, 1923 recommend that the cost of said project be paid for out of that portion of the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and that such work be classified as a Replacement and that this Commission assign thereto Work Order No. MCR-14.

Resolved, That said reports and recommendation be and the same hereby are approved; that the said proposal of said Receiver be and the same hereby is approved, such work to be classified as a Replacement, the cost thereof to be paid for from the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and as to which unit this Commission assigns Work Order No. MCR-14.

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Additional Signal at West 8th Street Station of Brighton Beach Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Classifying Work and Assigning Work Order No. MCR-15—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated December 8, 1922, requesting approval to the installation of an additional signal on track A-2 of the Brighton Beach Line, at the West 8th Street station, at an estimated cost of \$2,500.00.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 19, 1922, stating that the proposed apparatus is satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated March 7, 1923, classifying the work as a Replacement and assigning Work Order No. MCR-15.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation has by communication dated December 8, 1922, requested the approval of this Commission to the installation of an additional signal on track A-2 of the Brighton Beach Line at West 8th Street Station, Coney Island Terminal; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have by communication dated December 19, 1922, reported that the estimated cost of such installation is \$2 500; that the drawing showing said proposed apparatus is satisfactory and recommend the approval of said installation; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have by communication dated March 7, 1923, recommended that the cost of said project be paid for out of that portion of the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and that such work be classified as a Replacement and that this Commission assign thereto Work Order No. MCR-15,

Resolved, That said reports and recommendation be and the same hereby are approved; that the said proposal of said Receiver be and the same hereby is approved, such work to be classified as a Replacement, the cost thereof to be paid for from the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and as to which unit this Commission assigns Work Order No. MCR-15.

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Construction of Waiting Room on Eastbound Platform of Atlantic Avenue Station of Fulton Street Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Classifying Work and Assigning Work Order No. MCR-16—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated December 29, 1922, requesting approval of the construction of a waiting room on the eastbound platform of the Atlantic Avenue station of the Fulton Street Line at a cost of \$1,800.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 1, 1923, recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated March 7, 1923, classifying the work as a Replacement and assigning Work Order No. MCR-16.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation has by communication dated December 29, 1922 requested the approval of this Commission to the construction of a waiting room on the eastbound platform of the Atlantic Avenue Station, Fulton Street Elevated Line; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have by communication dated February 1, 1923 reported that the estimated cost of such construction is \$1,800; that it is similar to the one now being constructed on the westbound platform, and recommend its approval; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have by communication dated March 7, 1923 recommended that the cost of said project be paid for out of that portion of the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and that such work be classified as a Replacement and that this Commission assign thereto Work Order No. MCR-16,

Resolved, That said reports and recommendation be and the same hereby are approved; that the said proposal of said Receiver be and the same hereby is approved, such work to be classified as a Replacement, the cost thereof to be paid for from the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and as to which unit this Commission assigns Work Order No. MCR-16.

321—R. T. 7650

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Transfer of Cost for Automatic Interlocking Equipment at Fulton Street and Franklin Avenue as a Capital Charge—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Assigning Work Order No. MCR-13—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated October 27, 1922, requesting that the cost of the installation of an automatic interlocking equipment at Fulton Street and Franklin Avenue, Brooklyn, be transferred as a Capital charge.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated November 9, 1922, recommending that the application be granted from an engineering standpoint.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated March 10, 1923, classifying the work as a charge to Maintenance and assigning Work Order No. MCR-13.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver

of said New York Municipal Railway Corporation, has by communication dated October 27, 1922, requested that the cost, now carried in "suspense," of the installation of an automatic interlocking equipment at Fulton Street and Franklin Avenue on the Brighton Beach Line of the Existing Railroads, described in said Contract No. 4 be transferred to a Capital charge; and

Whereas, By communication dated November 9, 1922, the Engineer of Equipment and Operation and the Chief Engineer have reported that the amount to be transferred is slightly in excess of \$1,500; that the installation of said apparatus was approved by the Chief Executive Officer of this Commission under date of December 19, 1921, upon the condition that the cost be held in "Suspense" until the practicability of the installation should be demonstrated after which a charge would be made to Capital and that this equipment has been in successful operation since March 20, 1922, and that from an engineering standpoint there is no reason why said equipment so installed should not be accepted as permanent and recommend from an engineering standpoint that the application of the Receiver aforesaid be granted; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have recommended with respect to said application that the cost of the above described work in so far as it is a betterment, be provided out of that portion of moneys of the "Depreciation Fund for Existing Railroads" made available by Retirements from service and as to which Work Order No. MCR-13 be assigned and that the cost of rearranging existing facilities should be charged to Maintenance,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said application of the Receiver aforesaid be and the same hereby is granted upon condition that the cost of such installation in so far as it is a betterment, shall be provided out of that portion of the moneys of the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service and as to which this Commission assigns Work Order No. MCR-13, the cost of rearranging existing facilities to be charged to Maintenance.

322—R. T. 7649

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Installation of Train Stop Indication Boards on Elevated Stations—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Assigning Work Orders Nos. MBA-20, MCR-17 and MEA-4—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated November 21, 1922, requesting approval to the installation of train stop indication boards on stations of elevated lines where subway cars are in operation at an estimated cost of \$5,000.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 2, 1923, stating that the boards are a necessity and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated March 7, 1923, classifying the work as described below.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between the City of New York and New York Municipal Railway Corporation, known as Contract No. 4, and pursuant also to the provisions of the certificate dated March 19, 1913 granted to said New York Municipal Railway Corporation for certain Elevated Extensions, the Receiver of said New York Municipal Railway Corporation has, by communication dated November 21, 1922, requested the approval of this Commission to the installation of train stop indication boards on stations of elevated lines where subway cars are in operation on portions of the Railroad and Existing Railroads as defined in said Contract No. 4 and upon the railroads as defined in the Extension Certificate; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated February 2, 1923, reported that the estimated cost of such work is \$5,000; that said boards are to warn trainmen as to the position of their car or train relative to the end of the platform to prevent the opening of doors that may not be opposite the platform; that the installation of said boards are necessary for safe operation; that the estimated cost is reasonable and recommend that the said application be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have, by communication dated March 7, 1923, reported that the cost of such work is apportioned as follows:

The Railroad—West End Line.....	\$1,000.00
Existing Railroads, Broadway Line } Myrtle Avenue Line } Canarsie Line }	2,800.00
Elevated Extensions, Liberty Avenue Line } Jamaica Line }	1,200.00

and recommends that such work on the Railroad be classified as Additional Equipment of the Railroad and that Work Order No. MBA-20 be assigned thereto; that such work on the Existing Railroads be classified as a Replacement, the cost thereof to be paid from the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from Service and that Work Order No. MCR-17 be assigned thereto and that such work on the Elevated Extensions be classified as Additions to Elevated Extensions and that Work Order No. MEA-4 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said application of the Receiver as aforesaid be and the same hereby is approved upon the following conditions:

- (a) That such work on the Railroad be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. MBA-20;
- (b) that such work on the Existing Railroads be classified as a Replacement, the cost thereof to be paid for out of that portion of the moneys of the "Depreciation Fund for Existing Railroads," which has been made available by Retirements from Service and as to which this Commission assigns Work Order No. MCR-17;
- (c) that such work on the Elevated Extensions be classified as Additions, to wit, Elevated Extensions and as to which this Commission assigns Work Order No. MEA-4.

323—R. T. 7565, 7585

Contract No. 4—Applications by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Orders for Construction of Waiting Rooms at Atlantic Avenue and Eastern Parkway Stations and for Installation of Interlocking Plant at Queensboro Plaza Station—Report by Chief Engineer Stating Orders Do Not Require Approval—Communication to Company Returning Orders.

Applications were presented from the New York Municipal Railway Corporation dated November 3, 1922, and December 4, 1922, requesting the approval of proposed purchasing agent's orders directed to the Receiver of the New York Consolidated Railroad Company covering the construction of three waiting rooms on the platforms of the Atlantic Avenue and Eastern Parkway Stations and covering the installation of an interlocking plant at the Queensboro Plaza Station.

A report was presented from the Chief Engineer dated March 8, 1923, concurred in by Counsel, stating that the orders do not require the approval of the Commission.

The Secretary was directed to return the purchasing agent's orders to the Receiver of the New York Municipal Railway Corporation without approval.

324—R. T. 6595

Contract No. 4—Statement from New York Consolidated Railroad Company of Results of Operation for Month of January, 1923, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

A communication dated March 7, 1923, from the New York Consolidated Railroad Company, by Howard Abel, Comptroller for Lindley M. Garrison, Receiver, submitting statements of Results of Operation for the month of January, 1923, for the period from August 4, 1913 to January 31, 1923, and the status of Maintenance and Depreciation Funds, under Contract No. 4, was referred to the Chief Accountant.

325—R. T. 4040

Hudson and Manhattan Railroad Company—Report by Special Committee as to Adjustment of Rentals under Certificate of February 2, 1905, for Extensions—Opinion by Commissioner O’Ryan—Approval Resolution

A report was presented from Lincoln C. Andrews, Chief Executive Officer, Howard Thayer Kingsbury, Counsel, and W. D. A. Anderson, as Special Committee, dated December 27, 1921, as to the readjustment of the franchise rentals under the certificate dated February 2, 1905, issued to the New York and Jersey Railroad Company, predecessor of the Hudson and Manhattan Railroad Company, providing for extensions in the Borough of Manhattan.

The following opinion by Commissioner O’Ryan was presented:

STATE OF NEW YORK
TRANSIT COMMISSION

IN THE MATTER

of the

Proposed Agreement with the HUDSON & MANHATTAN RAILROAD COMPANY for the Adjustment of Rentals under Certificate of November 2, 1905, for Extensions in the Borough of Manhattan.

R. T. No. 4040
OPINION
FEBRUARY 28, 1923

To the TRANSIT COMMISSION:

O’Ryan, Commissioner: The Hudson & Manhattan Railroad Company, through a predecessor company, received a franchise from the City of New York to construct a subway from the centre line of the Hudson River to the vicinity of Christopher Street in the Borough of Manhattan. The franchise was granted July 10, 1902, and provides for an annual payment to the City of a specified compensation, based upon the annual gross receipts from traffic within the City of New York, which was fixed and determined in advance to be \$300,000. The agreement is to continue for a period of twenty-five years from the commencement of operation.

On February 2, 1905, the same company in the same way obtained a franchise from the City of New York to construct an underground extension of its line under Sixth Avenue from Christopher Street to a terminus at 33rd Street, with stations between these points. By the terms of this latter franchise, the compensation to be paid the City was fixed for the first ten years of operation at \$9,000 per annum. The compensation for the next fifteen years, namely from February 25, 1918, to February 25, 1933, was left to be determined according to a method set forth in the franchise agreement. It is concerning the manner of interpreting and applying this agreement that the railway company and the City of New York are in disagreement. The provision of the franchise agreement, which is, the basis of the controversy, is all-important, and I therefore quote it at the outset of this memorandum:

"After the expiration of the said ten years the Tunnel Company, instead of the said sum of nine thousand dollars (\$9,000) per annum, shall pay to the City for the routes under the streets of the City hereinbefore granted, such a sum as shall be equal to five per cent. per annum on the estimated annual gross earnings of said extensions of its railroad for the period of years between the date of expiration of the said ten years and the date when the rentals payable under the above-mentioned franchise of July 10, 1902, shall next thereafter become subject to readjustment under the terms of said franchise. The estimated amount of the said gross earnings may be determined by an agreement in writing by the Tunnel Company and the Board. If the Tunnel Company and the Board shall not reach such agreement on or before the date one year before the expiration of such first ten year period, then and in that event the estimated amount of such gross earnings shall forthwith be determined by arbitration in the manner provided in Clause XI of this certificate. If, at the expiration of the first ten year period, the annual rate thereafter payable shall not have been fixed, the Tunnel Company shall pay the Nine thousand dollars (\$9,000) a year as above provided, until the new rate shall be determined, and shall make up to the City the amount of any excess of the annual rate then determined over the said nine thousand dollars (\$9,000)."

The extension referred to is that from Christopher Street to 33rd Street. The Company and the Board did not, on or before the date one year before the expiration of the ten-year period, agree upon an estimate of the annual gross earnings of the extension, nor has such amount been "forthwith determined by arbitration" in the manner prescribed. The Company has paid the City \$9,000 per year since, pending determination of the new rate.

In order to avoid the delay and expense of arbitration, an effort was made by the parties interested to arrive at a settlement by agreement. This effort consisted of the designation by the Transit Commission, as successor of the said Board, of a committee composed of members of its staff, which considered the questions involved, and after negotiation with the railroad company, recommended that the tax be fixed at \$50,000 per annum for the fifteen-year period referred to. This the railroad company, though reserving its rights, informally agreed to accept and to pay. The Corporation Counsel, on behalf of the City, objected to the amount as insufficient under the provisions of the franchise, and hearings were held by the undersigned for the Transit Commission, with a view to reconciling the divergent views or of determining the amount to be paid, and, if possible, of justifying such determination in a manner acceptable both to the City of New York and the Company.

The Company reserved its right to reject a determination of the Commission which might be unsatisfactory or unreasonable and to insist upon the arbitration provided for in the franchise agreement. As ordinary business judgment and policy dictate the determination and settlement of this controversy, with its attendant expense and uncertainty, it is believed that a basis of settlement should be reached. It is the purpose of this memorandum to indicate the proper basis of determination and, if possible, to support the same by reasons convincing to both sides.

The first point made by the City is that the words "gross earnings" mean "gross receipts" which in turn would mean "station receipts" plus other incidental receipts such as advertising receipts. This interpretation is urged because, if correct, it would result in an annual compensation to the City of \$94,000 a year instead of about \$50,000 a year, recommended by the Committee referred to. The interpretation of "gross earnings" as synonymous with "gross receipts" is based upon the argument that a committee of the Board of Rapid Transit Commissioners, which had under consideration the application for the first franchise from the centre of the Hudson River to Christopher Street, said:

"(a) Your Committee concluded therefore that in addition to the trackage charge, the present applicant might properly pay to the City for the first ten years, three per cent (3%) upon an estimate of its gross receipts from traffic within the City of New York and five per cent (5%) for the next fifteen years. The amount of such gross receipts is susceptible of rough estimate and the franchise fixes it at \$300,000 a year for the next twenty-five years, being one-half of the total estimated gross receipts of the company from all business both ways. The annual payment for the first ten years shall be \$9,000. For the next fifteen years the rate should be five per cent, making \$15,000."

The same Committee later reported to the Rapid Transit Board on December 15, 1904:

"Under the statute, the railroad company must pay the City a compensation to be adjusted at intervals of not more than twenty-five years. It is proposed that for the first ten years, the railroad company, for the extensions now to be authorized, shall pay 50 cents per foot of track and of station platform and shall also pay \$9,000 a year, being three per cent of the estimated gross earnings of \$300,000 a year. For the next fifteen years, it is proposed that the company shall pay one dollar per foot of track and station platform and five per cent upon the estimated gross receipts. Such estimate to be made at the expiration of the first ten years upon the basis of the information then available as to actual traffic returns."

It is to be noted that in one report the term used is "gross receipts" and in the other, both "gross receipts" and "gross earnings" are used. I believe it to be clear that the terms were used interchangeably, though they may mean different things. The proof of this is that both terms are used in reference to the first ten years where the amount of compensation was fixed and so must have been used to indicate the same thing. From this the City argues that it was the intent of the Rapid Transit Board to secure for the City as compensation for the underground use of streets, a percentage of the gross "receipts" of the extension, as distinguished from its gross "earnings," sometimes, though not always, a very different thing. The Corporation Counsel also cites in support of his contention, *People vs. Roberts*, 32, App. Div. 113, and *City of New York vs. 34th St.*, 137, App. Div. 644. These cases do not determine the question presented here.

It seems to me that the rights of the parties are to be determined by the franchise agreement, and if that agreement indicates clearly how the compensation to the City is to be measured, there is no legal justification for turning from it to speculate concerning the probability that something else was meant by one of the parties. In this connection, the first point to be made clear is whether as a matter of fact and of practical routine nomenclature the terms, "gross receipts" and "gross earnings" are synonymous. They are not, though they may be under conditions which can exist, but which do not exist in the case of this railroad. This may be indicated by assuming that the extension we have under consideration has no connection with any other line. All receipts are for service rendered by that line wholly within the City of New York and authorized by this franchise. Obviously, the total moneys received are properly called the "gross receipts." Obviously, they constitute as well the gross "earnings" of the company, because the company *earned* all of such gross receipts. Now change the assumed condition and give the road one or more connections with other roads, either owned by it or by some other company, with authority to sell transportation for through rides, in part over the line with which we are concerned and in part over one or more of the lines with which it has connections. In such a case all moneys taken in by the road would still properly be called "gross receipts," but upon what theory of common sense or word interpretation could they be called gross "earnings"? It is patent that some of the gross receipts under these conditions would have to be accounted for to the connecting line which earned them, and that the gross "earnings" of the company which collected the moneys should be measured by its gross receipts less such portion thereof as was not earned by it, but which was earned by the other line or lines carrying the passengers through to the destination for which they made payment to the collecting company.

The line from Christopher Street to 33rd Street is an extension of another line, which in turn has connections with another road. We are not concerned here with the compensation to be paid the City for use of the streets by the other line. That amount was long since fixed and determined. It cannot be modified now, either directly or indirectly, by any action growing out of this proceeding. We are therefore to determine the "gross earnings" of this extension from Christopher Street to 33rd Street with the knowledge that it has connections with another line for which it collects the share of gross receipts which must be allocated to that connecting line on the basis of the extent to which it earned its share. We must logically and legally consider this matter of gross "earnings" as if the extension referred to were operated by a company separate and distinct from the company operating the other line.

There exists further confirmation of the foregoing conclusion in the report made by the Contract Committee of the Rapid Transit Board, referred to in brief of the Corporation Counsel. As has been pointed out, the Corporation Counsel stresses the

importance of the fact that this Committee used the terms, "gross receipts" and "gross revenues," as if they were synonymous, and from that circumstance urges the conclusion that it was the intent of the agreement which the Board later made with the Company that the tax to be paid the City should be the specified percentage of all the receipts taken by the extension, irrespective of whether such receipts were in part for traffic outside or beyond the line of the extension. Reference, however, to this same report will show that while the Committee did so employ the terms mentioned, it was not the intention of the members of the Committee to advocate what the Corporation Counsel now urges. This is shown from the language used by the Committee in the same report, which is quoted:

"Your committee concluded, therefore, that in addition to the trackage charge the present applicant might properly pay to the City for the first ten years three per cent (3%) upon an estimate of its gross receipts *from traffic within the City of New York* and five per cent (5%) for the next fifteen years."

I repeat what has already been indicated in this memorandum, that the report of this Committee should not be permitted to vary the clear terms of the agreement subsequently entered into by the Rapid Transit Board and the railroad company. But even upon the hypothesis that the intent of the Committee which formulated the plan of assessment should be considered, the language just quoted would seem to make clear that it was the intent of such Committee to fix the tax *upon the traffic earned by the road* and not upon the gross traffic receipts. If the report making the above recommendation had left out the words, "from traffic within the City of New York," it would have indicated its intention to recommend a tax upon its total gross receipts. The following words, however, serve some purpose. They constitute a limitation of the term "gross receipts." They indicate that the recommendation was for a tax upon a certain kind of gross receipts, namely, gross receipts *from traffic within the City of New York*, and not, as the Corporation Counsel holds, upon gross receipts for all traffic everywhere for which such gross receipts were collected. But as I have said above, the obligation of the company in relation to the tax, is to be determined, not by reports and recommendations which led up to the making of the agreement, but by the specific terms and requirements of the agreement itself. This being true, we may consider the methods to be employed in determining "the estimated amount of gross earnings" (the words of the franchise agreement).

The franchise contract contemplated that the gross earnings for the fifteen-year period upon which the annual tax of 5% was to be made would be estimated and agreed upon one year before the expiration of the first ten-year period. As this was not done, it is obvious that in making such estimate now, that is, five years after the expiration of the ten-year period, we are in a position to know definitely rather than to have to forecast, the earnings of the first third of the fifteen-year period. It so happened that this span of five years covered the war and post-war period of inflation and activity, and that the traffic on this extension was actually greater than what a forecast of it would have been if made one year before the expiration of the ten-year period, or on February 25, 1917. It would seem to be idle to speculate as to what forecast would have been made in 1917, if the determination agreement provided for had been then carried out.

The testimony of Major Anderson, who was the Commission's principal witness, explaining the basis of the tentative agreement made with the company shows (Minutes, pp. 18, etc.) the manner in which the computation was made. The gross earnings were computed in the following manner. It was assumed that all ticket receipts of the extension covering traffic on that extension were earned by that extension. Gross receipts from advertising, the rental of telephone and news concessions, where the contracts for the same covered the entire system, were allocated to the extension upon the basis of its proportionate share. Car advertising was allotted to the extension on the basis of total receipts to passenger revenue of the extension. In the case of rental of booths at 33rd Street Station, the entire earnings were credited directly to the extension. In the case of interstate travel, the question was whether the earnings of the extension were represented by the actual money taken in at the extension stations on Sixth Avenue or whether the earnings should be on some other basis. The question may be indicated by the following:

A man enters the station at 33rd Street for the purpose of riding to Grove Street in New Jersey. He pays 10c. at the initial point. That amount becomes a part of the gross receipts of the uptown branch, but it is not all to be allocated to the

uptown branch because part of the sum is earned by the line which carries the passenger past Christopher Street, under the Hudson River, and on the railroad in New Jersey. The method recommended by Major Anderson was to take the entire gross receipts of the uptown system, commonly called "the uptown tubes," and the receipts both in New York and New Jersey, and then allocate those receipts to the several parts of the entire system in proportion to the service rendered by each of its elements. In the case of other service, there was allocated to this extension the portion of the total receipts in the ratio that the service rendered by the extension bore to the total service rendered. Of the passengers who boarded trains on this extension and bound for New Jersey, it was not known at what stations in New Jersey these passengers severally detrained. It was assumed, however, that of the total number who thus crossed the river, the same proportions as had daily bought tickets at the stations in New Jersey for the trip to New York would upon a return trip detrain in New Jersey at the same stations at which they had boarded the trains for the eastbound trip. As the number of passengers making the trip to New York from each of the stations in New Jersey was known, it followed that the length of the rides of interstate passengers from New York to points in New Jersey was known, and that in consequence an allocation of earnings upon the basis of mileage could be made with fair accuracy. As a result, it was found that the average trip per passenger could be computed, and as well the average trip per passenger within the limits of the extension. The gross receipts for the interstate traffic were allocated in the proportion of the average trip per passenger for the entire trip. For the extension, this was a fraction, amounting to eleven forty-firsts.

For the year ending June 30, 1920, the average westbound ride in *New York* was found to be 1.951 miles. The average trip of the same passenger in New Jersey was 2.154 miles, so that the average trip in that year, including distance traveled in both New York and New Jersey, was 4.105 miles. The reverse computation gave the same figures.

The question whether the traffic should be estimated as if the estimate were made as a forecast in February, 1917, or whether the records as to what the traffic had actually been since 1918, was considered, and it was decided to accept the traffic records. Between 1914 and 1918 the increase in gross receipts of this extension were very slight. They actually decreased for one year of that period, but after 1918, due to war conditions, all traffic increased rapidly, the percentage for 1919 being 29% and for 1920, 10½%, in each case over the preceding year. Major Anderson reported that his committee worked on the theory that it was the intent of the franchise agreement to estimate the annual gross earnings as close as possible to the actual earnings that would accrue during the 15-year period, and that nothing could be closer to the actual earnings than the record of those actual earnings.

In relation to the estimate of the increase of traffic which might be expected to occur throughout the entire fifteen-year period and which was a necessary part of determining the amount of the tax, the committee recommended the assumption of a 5% increase of revenue, compounded annually. This result is a figure which gives an average gross revenue of \$1,058,000 a year for the entire period. At 5%, this would result in an annual rental payment of \$52,900. In consideration of other factors which might adversely affect this otherwise expected development, the tax was recommended in the sum of \$50,000 per annum.

I believe this amount to be fair and just. I believe the computations of expected traffic made by the committee to be a reasonable forecast, and I recommend that the compensation to be paid to the City during the fifteen-year period be agreed upon in the sum of \$50,000 per annum. The practical outcome of the approval and acceptance of this determination will be that the amount of compensation to be paid the City will be increased from \$9,000 per year to \$50,000 per year; in other words, an increase of more than five times the amount of the tax paid during the first ten years of the term of the franchise. This would seem to be a very substantial return to the City for the use of the street sub-surface, which use does not involve, as in the case of street surface and elevated railways, occupation of the street surface with its unavoidable interference with street traffic.

The railroad company pays a special franchise tax, approximating \$200,000 per annum. This amount is paid in semi-annual installments, and when these payments are made the railroad company is given credit thereon for the amount paid by it quarterly as rental under the franchise agreement. The franchise tax in the case of this railroad has heretofore exceeded all the other charges authorized to be allowed

as credits, by at least the sum of \$100,000 per year. Since 1918 the railroad company has annually paid under this franchise agreement the old rate of compensation, namely, \$9,000 per annum, so that if the compensation is to be fixed at the rate of \$50,000 per annum, from February, 1918, the company would on this charge owe the difference between \$50,000 per annum and \$9,000 per annum, or \$41,000 per annum, for the period mentioned. The railroad company does not, however, actually owe the City of New York this amount because it paid its franchise tax during the period mentioned.

Accordingly, as part of the agreement recommended by the committee, the following was indicated as the most satisfactory method of discharging the mutual obligations of the City and the Company in relation to this excess:

That the excess which was not paid by the company for the period between February 26, 1918, and the date of the agreement, shall be discharged by semi-annual payments equal in amount to the net special franchise tax, payable by the company, which shall continue until the total amount of excess rentals agreed upon is completely paid.

Since that agreement was tentatively made, it has been pointed out that such arrangement might relieve the Company of the payment of compensation in the event of a repeal of the Special Franchise Tax Law or of a modification of it which might relieve this Company from payment of such a tax. The agreement tentatively entered into between the Company and the Committee representing the Transit Commission can be modified so as to make clear the obligation of the company to pay, in the installments provided for, the compensation of \$50,000 per year, even in the event that the Special Franchise Tax Law may be modified or repealed.

Subject to such modification, I recommend approval of the tentative agreement made between the Company and the Committee acting for the Transit Commission.

JOHN F. O'RYAN,
Commissioner.

The following resolution was adopted:

STATE OF NEW YORK
TRANSIT COMMISSION

IN THE MATTER
of the

Hearing on the form of the proposed agreement between The City of New York and Hudson and Manhattan Railroad Company, relative to the readjustment of rentals payable under the certificate dated February 2, 1905, granted by the Board of Rapid Transit Railroad Commissioners for the City of New York to New York and Jersey Railroad Company for certain rapid transit railroad extensions under certain streets and avenues in the Borough of Manhattan, City of New York.

RESOLUTION AFTER HEARING
R. T. 4040

Whereas, Pursuant to the requirements of Subdivision 3 of Clause IV of the certificate dated February 2, 1905, granted by the Board of Rapid Transit Railroad Commissioners under the provisions of Chapter 4 of the Laws of 1891, known as the Rapid Transit Act, to a predecessor of the Hudson & Manhattan Railroad Company for certain rapid transit railroad extensions, in part under and along Christopher Street and Sixth Avenue in the Borough of Manhattan, City of New York, the Transit Commission, acting for and on behalf of The City of New York, as successor to said Board of Rapid Transit Railroad Commissioners, and the Hudson and Manhattan Railroad Company, as successor to the original grantee of said certificate, have agreed upon the estimated amount of the annual gross earnings of such rapid transit railroad extensions for the period between the date of expiration of ten years after the beginning of the operation of any portion of said extensions and the date when the rentals payable under the prior certificate of July 10, 1902 shall next thereafter become subject to readjustment and have set forth their agreement in writing, which proposed agreement is predicated on recommendations made by the report dated December 27, 1921 of the Special Committee of this Commission to consider said matter; and

Whereas, Before executing said proposed agreement this Commission by order herein dated March 7, 1922, directed that a public hearing be held upon the proposed terms and conditions of said proposed agreement which public hearing was held pursuant to said order herein, on March 17, 1922, May 23, 1922 and January 31, 1923, on all which dates, held by and before the Hon. John F. O'Ryan, Commissioner, the Corporation Counsel of The City of New York appeared by Joseph A. Devery, Esq., the Hudson & Manhattan Railroad Company appeared by R. C. Goodale, Esq., its Counsel; and the Board of Estimate & Apportionment of The City of New York, appeared by Victor McLaughlin, Esq., and George O. Redington, its Counsel, appeared for the Transit Commission; and

Whereas, After giving full opportunity to all parties so appearing to present all documents and arguments with respect to the subject matter thereof, the said Hon. John F. O'Ryan, as Commissioner, has filed an opinion in which it is recommended that the said report dated December 27, 1921 of said Special Committee of this Commission be approved as made; and

Whereas, This Commission after due consideration and deliberation is of the opinion that said recommendations should be approved and adopted,

Resolved, That the said opinion, and recommendation of Hon. John F. O'Ryan, Commissioner herein, be and the same hereby are approved and adopted and that the recommendations of the Special Committee of this Commission made in its report dated December 27, 1921, be and the same hereby are approved and adopted.

326—Case 2673

Ocean Electric Railway Company—Application for Approval of Increase in Capital Stock—Report and Opinion by Acting Chief Executive Officer—Approval Order

The Secretary presented a report and opinion, dated March 5, 1923, by George L. Lucas, Acting Chief Executive Officer of the Commission, recommending that the application of the Ocean Electric Railway Company for authority to increase its capital stock be granted.

Thereupon the Commission adopted an Order in Case No. 2673, approving the unanimous consent of the stockholders of the Ocean Electric Railway Company, dated January 19, 1923, to increase the capital stock of said company from \$50,000 par value of common stock to \$315,000 and authorizing the Chairman and Secretary to indorse the approval of the Commission on said consent and authorizing the issue of \$315,000 par value capital stock of said company, the proceeds to be applied to the discharge or other lawful refunding of the company's obligations.

327—Case 2676

Stage Coach Corporations—Monthly and Quarterly Reports—Filing Order

The Secretary presented a report, dated March 13, 1923, by Harry S. Fischer, Statistician, and approved by Frederick Wilcock, Acting Chief, Bureau of Accounting & Valuations, and George L. Lucas, Acting Chief Executive Officer, recommending that stage coach corporations subject to the jurisdiction of the Commission be served with Orders requiring the monthly reports of operations and quarterly financial statements.

Thereupon the Commission adopted an Order in Case No. 2676, requiring every owner and operator of stage coaches and auto buses subject to the jurisdiction of the Commission to file with the Commission within five weeks after the close of each month of its operations on the form designated as "Monthly Report of Street Railways" (Serial Form R 48), and further requiring said carriers within six weeks after the

close of each quarterly period from April 1, 1923, to file a financial statement in accordance with Form R 50, and directing that the Fifth Avenue Coach Company shall submit its reports by stating the operating expenses of the company in accordance with the classification filed by the company with the Commission on or about July 15, 1914; and further directing that the Order take effect at once.

328—Case 2675

Lincoln C. Andrews, Receiver of New York & Queens County Railway Company and Brooklyn City Railroad Company—Application for Approval of Trackage Agreement—Approval Order Exempting Transfer Requirements

The Secretary presented a petition, dated March 12, 1923, of Lincoln C. Andrews, Receiver of New York & Queens County Railway Company for the approval of an agreement also presented therewith entered into with the Brooklyn City Railroad Company and providing for a track connection and installation of special work at the junction of Jackson Avenue and Junction Avenue so as to permit the operation of Jackson Avenue cars over the Brooklyn City Railroad tracks on Junction Avenue to Roosevelt Avenue and return, in the Borough of Queens.

The Secretary presented a blueprint showing the proposed installation and a certified copy of an Order dated March 2, 1923, of Mr. Justice Cropsey, at a Special Term of the Supreme Court, Queens County, empowering and authorizing the said Receiver to enter into said trackage agreement.

Thereupon the Commission adopted a resolution in Case No. 2675, approving the aforementioned trackage agreement and exempting the Receiver of the New York & Queens County Railway Company and Brooklyn City Railroad Company from the obligation to issue transfers or free exchange of passengers under subdivision 7 of Section 49 of the Public Service Commission Law.

329—R. T. 6413

Routes Nos. 35 and 67—Receipt from Department of Finance for Check in Sum of \$8,500.00 as Payment for Changes in Ventilating Chamber in Front of Premises at Nos. 119-127 West 41st Street—Filed

The following receipt was ordered filed:

March 2, 1923.

CHARLES L. CRAIG,
Comptroller.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE
AUDITOR OF RECEIPTS

Received from TRANSIT COMMISSION check for Eight thousand five hundred 00/100 Dollars (\$8,500.00) from Rudolph Wurlitzer & Company.

Particulars:

Estimated cost of construction, pursuant to an agreement dated Feb. 16, 1923, between Rudolph Wurlitzer & Company and The City of New York by the Transit Commission, of a subway ventilating chamber in front of premises Nos. 119-127 West 41st Street, New York.

To be deposited to the credit of account S915—Miscellaneous Receipts from the Transit Commission for work done by Contractors not included within the provisions of their contracts.

For Comptroller.
H. H. RATHYEN,
Auditor of Receipts.

330—R. T. 6424

Contract No. 4—Certified Copy of Resolution of Board of Estimate and Apportionment Amending Resolution of January 19, 1923, with Respect to Authorization of \$750,982.75—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 2, 1923, was ordered filed:

(Cal. No. 168)

Resolved, By the Board of Estimate and Apportionment that the resolution adopted on January 19, 1923, authorizing the issuance of seven hundred and fifty thousand nine hundred and eighty-two dollars and seventy-five cents (\$750,982.75) of rapid transit corporate stock "in addition to the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the supplementary general appropriations subsequently made thereto for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4," be amended to read, in lieu of the words after the figures \$750,982.75 on the fourth line from the bottom, *is to be provided by a subauthorization from the general appropriation of sixty million dollars (\$60,000,000), made by the Board of Estimate and Apportionment and the supplementary general appropriations subsequently made thereto from the City's debt-incurring power for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.*

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

331—R. T. 7590

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Furnishing and Erecting Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Shop and Authorizing Appropriation of \$293,888—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 2, 1923, was ordered filed:

(Cal. No. 377)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated February 7, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with McClintic-Marshall Company for furnishing and erecting structural steel for third addition to shops, Lenox avenue and 148th street yard, Manhattan (under Contract No. 3), at an estimated cost of two hundred and ninety-three thousand eight hundred and eighty-eight dollars (\$293,888); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be two hundred and ninety-three thousand eight hundred and eighty-eight dollars (\$293,888); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding two hundred and ninety-three thousand eight hundred and eighty-eight dollars (\$293,888) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated March 10, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above-mentioned contract approved as to form, was also ordered filed.

332—R. T. 7635

Agreement "CE"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Changes in Subway Structures so as to Permit Widening of Certain Streets in Borough of Manhattan and Authorizing Appropriation of \$10,000—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 2, 1923, was ordered filed:

(Cal. No. 374)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated January 30, 1923, the Board of Estimate and Apportionment does hereby consent to the contract (Agreement "CE") with Benedetto and Saussez for the making of alterations in the Broadway-Fourth Avenue Rapid Transit structures at various locations to permit the widening of streets in the Borough of Manhattan at an estimated cost of ten thousand dollars (\$10,000); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; the cost thereof to be charged to the tax notes authorization in the sum of seventeen thousand four hundred and fifty dollars (\$17,450) made by the Board of Estimate and Apportionment on July 19, 1922 (Code NPM-60, President of the Borough of Manhattan—Alterations to manholes, cable feed pipes, vault lights and emergency exits in subway structures at certain locations interfered with by the widening of streets), and to be certified to the Department of Finance upon vouchers prepared by the Transit Commission and endorsed by the President of the Borough of Manhattan.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated March 10, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above-mentioned contract approved as to form, was also ordered filed.

333—R. T. 7011

Contract No. 4—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$6,500 for Maintenance Prior to Operation—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 2, 1923, was ordered filed:

(Cal. No. 378)

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter; and the requisition of the Transit Commission to this Board, dated February 7, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and authorize an appropriation of six thousand five hundred dollars (\$6,500), in addition to the appropriations heretofore made, for the purpose of providing funds for the maintenance, prior to operation, of the rapid

transit railroads constructed under Contract No. 4 between the time of completion and the time when such railroads are taken over for operation by the lessee; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be six thousand five hundred dollars (\$6,500); and be it further.

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding six thousand five hundred dollars (\$6,500) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes aforesaid; said issue of corporate stock to be charged as a sub-authorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

334—R. T. 7520

Route No. 31—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Additional Appropriation of \$15,000 for Enclosure to Inspection Shed at Livonia Avenue Yard—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 2, 1923, was ordered filed:

(Cal. No. 375)

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter; and pursuant to the requisition of the Transit Commission to this Board, dated January 30, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and authorize an appropriation of fifteen thousand dollars (\$15,000) for additional work under the contract with Rosenthal Engineering Contracting Company for the construction of inspection shed enclosure for the Eastern Parkway Rapid Transit Railroad, Route No. 31 (Livonia Avenue Yard); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be fifteen thousand dollars (\$15,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding fifteen thousand dollars (\$15,000) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said additional work under said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 2, 1923.

JAMES MATTHEWS,
Assistant Secretary.

335—R. T. 7476

Agreement "BH"—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Additional Appropriation of \$1,979.50 for Miscellaneous Construction and Station Finish—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 2, 1923, was ordered filed:

(Cal. No. 376)

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended; the provisions of section 45 of the Greater New York Charter; and the requisition of the Transit Commission to this Board, dated January 30, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and authorize an appropriation of one thousand nine hundred and seventy-nine dollars and fifty cents (\$1,979.50) to provide funds for final payment on contract with George Colon & Co. for the performance of miscellaneous construction and station finish work in municipal rapid transit railroads, (Agreement "BH") Groups I, II and III; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one thousand nine hundred and seventy-nine dollars and fifty cents (\$1,979.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one thousand nine hundred and seventy-nine dollars and fifty cents (\$1,979.50) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes aforesaid; said issue of corporate stock to be charged to the extent of one thousand and four hundred and forty-seven dollars and fifty cents (\$1,447.50) as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriation subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3 and to the extent of five hundred and thirty-two dollars (\$532), to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1919, and the general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

Lease—Proposed Lease for Third Floor of Premises at No. 60 Graham Avenue, Borough of Brooklyn—Approval Resolution

The following resolution was adopted:

Resolved, That the proposed lease between the State Bank, as landlord, and the Transit Commission, as tenant, leasing approximately 645 square feet on the third floor

of the premises located at No. 60 Graham Avenue, Brooklyn, at a monthly rental of \$40, to include heat, light and janitor service for a period of one year with the right of renewal for a further period of one year and upon the terms and conditions in said proposed lease contained, be and the same hereby is approved.

339

Employees' Resolution No. 132

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Paul Gourtoff, draftsman, at \$150.08 per month, to take effect March 16, 1923; Selig Kunofsky, draftsman, at \$150.08 per month, to take effect March 16, 1923; Theodore Regenstein, draftsman, at \$150.08 per month, to take effect March 13, 1923; Benjamin Silver, draftsman, at \$150.08 per month, to take effect March 12, 1923; Kopple Tennygold, mechanical engineer, at \$150.08 per month, to take effect March 17, 1923; Nathan Utkevitz, assistant chemist, at \$125.08 per month, to take effect March 8, 1923.

Appointments under Rule VIII:4—Jacob Drapkin, junior assistant, at \$125.08 per month, to take effect March 12, 1923; Oscar Mulford, junior assistant, at \$125.08 per month, to take effect March 15, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect March 6, 1923; Nathan B. Sparer, draftsman, at \$150.08 per month, to take effect March 7, 1923; Marius L. Spinelli, junior assistant, at \$125.08 per month, to take effect March 6, 1923; Emanuel Willing, junior assistant, at \$125.08 per month, to take effect March 6, 1923; Simon Weiner, draftsman, at \$150.08 per month, to take effect March 7, 1923.

Rescission of Transfer from State Commission of Highways—Theodore Regenstein, junior assistant, at \$125.08 per month, to take effect March 13, 1923.

Resignations—Clement Dudrey, engineering inspector, at \$150.08 per month, to take effect March 6, 1923; Henry Goldfinger, junior assistant, at \$125.08 per month, to take effect March 3, 1923; John J. Macaluso, junior assistant, at \$125.08 per month, to take effect March 10, 1923; H. W. Schulman, draftsman, at \$150.08 per month, to take effect March 14, 1923; Homer G. Shockley, junior assistant, at \$125.08 per month, to take effect February 27, 1923; John A. Voskamp, junior assistant, at \$125.08 per month, to take effect March 1, 1923.

Termination of Appointments under Rule VIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect March 21, 1923; Mervil Broadbent, engineering inspector, at \$150.08 per month, to take effect March 21, 1923; James W. Carew, engineering inspector, at \$150.08 per month, to take effect March 21, 1923; Thomas W. Carr, engineering inspector, at \$150.08 per month, to take effect March 21, 1923; Paul A. Gourtoff, draftsman, at \$150.08 per month, to take effect March 15, 1923; Selig Kunofsky, draftsman, at \$150.08 per month, to take effect March 15, 1923; William T. Lynch, junior assistant, at \$125.08 per month, to take effect March 7, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect March 21, 1923.

Laid Off for Lack of Work—William R. Barry, junior engineer, at \$180.08 per month, to take effect March 15, 1923; Clemens F. Holm, junior engineer, at \$180.00 per month, to take effect March 15, 1923; Harry R. Loring, junior engineer, at \$180.00 per month, to take effect March 15, 1923; Frank A. Nagorski, junior engineer, at \$180.00 per month, to take effect March 15, 1923; Martin Nelson, junior assistant, at \$152.50 per month, to take effect March 15, 1923; Louis C. White, junior engineer, at \$180.00 per month, to take effect March 15, 1923; John C. White, junior engineer, at \$180.00 per month, to take effect March 15, 1923.

Promotions—Joseph Bunin, junior assistant to draftsman, from \$125.08 per month, to \$150.08 per month, to take effect February 21, 1923; Simon Kurtz, junior assistant to draftsman, from \$137.50 per month, to \$150.08 per month, to take effect February 21, 1923; Maxwell Schantz, junior assistant to draftsman, from \$137.50 per month, to \$150.08 per month, to take effect February 21, 1923.

Change of Item in Resolution of February 27, 1923, Concerning John Lyons, so as to read as follows: (Appointment)—John Lyons, junior assistant, at \$125.08 per month, to take effect March 6, 1923.

Voucher Schedule No. 11

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of The State of New York, as the vouchers may direct:

Voucher Nos. 237-273, open market orders, \$1,710.47; Vouchers Nos. 128-139, miscellaneous bills, \$1,874.57; Vouchers Nos. 4-6, Special Payroll, \$19,500.47; Vouchers Nos. 41-51, City Payrolls, \$85,222.24; Vouchers No. CM-5, State payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 62; Charles J. Adams & Son, Inc., approximate estimate No. 8 for the construction of an entrance to Borough Hall station through Isle of Safety, Agreement "AZ" (R. T. 7466), \$664.64;

Voucher No. 63; Frederick L. Cranford, Inc., approximate estimate No. 8 for the reconstruction of a part of Section No. 3 of Route No. 33, completion of Lawrence St. station from February 1, 1923, to February 28, 1923 (R. T. 6754), \$14,379.77;

Voucher No. 64; Slattery Engineering & Construction Co., Inc., approximate estimate No. 4 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3, from February 1, 1923, to February 28, 1923 (R. T. 7366), \$12,762.49;

Voucher No. 65; George Colon & Co.; approximate estimate No. 9 for the construction of Union Square Passageway connection station, Routes Nos. 5 and 8, from February 1, 1923, to February 28, 1923 (R. T. 7513), \$652.38;

Voucher No. 66; Powers-Kennedy Contracting Corporation; approximate estimate No. 9 for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67, from February 1, 1923, to February 28, 1923 (R. T. 7584), \$50,010.22;

Voucher No. 67; Joslin Construction Co., Inc., approximate estimate No. 7 for the reconstruction of a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, from February 1, 1923, to February 28, 1923 (R. T. 7556), \$3,734.90;

Voucher No. 68; Rosenthal Engineering Contracting Co., Inc., approximate estimate No. 11 for the construction of Inspection Shed Enclosure at Livonia Avenue Yard, Route No. 31, from February 1, 1923, to February 28, 1923 (R. T. 7520), \$7,830.05;

Voucher No. 69; George Colon & Co., approximate estimate No. 5 for miscellaneous construction and station finish work, Agreement "BH," Groups I, II and III, from December 24, 1922, to March 1, 1923 (R. T. 7476), \$1,920.15;

Voucher No. 70; John C. Orr Company, approximate estimate No. 23, for storing, insuring and transporting ties and timber for the rapid transit railroads from January 1, 1923, to January 31, 1923 (R. T. 6881), \$118.72;

Voucher No. 71; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 9 for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad from February 1, 1923, to February 28, 1923 (R. T. 6114), \$5,207.10;

Voucher No. 72; M. I. Sachs, estimate No. 1 and Final for curbing, sidewalk replacing and repairing north side of Fulton Street between Flatbush Avenue Extension and Hudson Avenue, Borough of Brooklyn, to December 23, 1923 (R. T. 7544), \$2,970.50.

Upon motion duly seconded and adopted the meeting was adjourned to Thursday, March 15, 1923.

343—Case 2627

Interborough Rapid Transit Company—Service and Equipment—Order Modifying Order of July 6, 1922, Approving Interborough Equipment Trust Series "A"

The Secretary presented a communication, dated March 13, 1923, from Frank Hedley, President and General Manager of the Interborough Rapid Transit Company, reading as follows:

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Gentlemen:

A situation has developed with respect to the disposition of \$800,000 principal amount of Interborough Rapid Transit Company Equipment Trust Certificates, Series A, approved by your order in Case No. 2627 entered on July 6, 1922, which seems to make an amendment of that order fitting and appropriate at this time. By the terms of the order as entered the Commission's approval was upon the condition, among others, that the entire \$1,400,000 principal amount of these Equipment Trust Certificates should be issued for a consideration equal to the par value thereof, and further that no charges in connection with the disposition of such certificates, other than expenses, should be added to the cost of acquiring the 100 steel trailer cars for which the certificates were issued. These conditions in the order correctly reflected the intent of the interested parties at the time the petition was filed.

The subsequent consummation of the Interborough-Manhattan Readjustment Plan, requiring as it does very large cash payments by this Company in November next to redeem the scrip issued for the arrears of Manhattan Railway Company rentals, and to pay arrears of Manhattan taxes, to an aggregate amount in excess of \$4,000,000, makes it essential that the Company's credit position with its deposit banks be maintained unimpaired. The placing of \$800,000 principal amount of the Equipment Trust Certificates with those banks at par, as originally contemplated, to just exactly that extent would limit the Company's ability to borrow additional cash in the Fall when our needs will be acute.

In view of this situation and in the exercise of sound business discretion, it seems highly desirable to our Board of Directors that the \$800,000 principal amount of these Equipment Trust Certificates (the portion of the total issue not taken by the Pullman

[March 15, 1923

Company) should be disposed of to the investing public on the best terms obtainable. We have been informed by responsible bankers that the \$800,000 principal amount of the certificates can be so placed at a price which would net the Company 97% of par, and we believe that that is the best price obtainable for their disposition in that manner.

The Company therefore respectfully applies for an amendment of your order made in Case No. 2627 on July 6, 1922, so as to permit the issuance and disposition of the Equipment Trust Certificates for a consideration equal to not less than 97% of the par value thereof, and to permit the inclusion of discount in the cost of the 100 steel trailer cars.

Very truly yours,

FRANK HEDLEY,

President and General Manager.

Thereupon the Commission adopted an Order in Case No. 2627, in the following form:

At a meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 15th day of March, 1923.

Present:

GEORGE McANENY,
Chairman

LEROY T. HARKNESS,
JOHN F. O'RYAN.

COMMISSIONERS.

IN THE MATTER

of the

Hearing on the motion of the Commission upon the regulations, practice, equipment, appliances and service of the Interborough Rapid Transit Company.

CASE No. 2627
SERVICE ORDER "B"

ORDER MODIFYING ORDER OF
JULY 6, 1922, APPROVING
INTERBOROUGH EQUIPMENT
TRUST SERIES "A"

Whereas, By written application dated March 13, 1923, the Interborough Rapid Transit Company has represented that for the reasons in said application set forth, its Board of Directors has determined, subject to the Commission's approval, to issue and dispose of certain of its Equipment Trust Certificates Series "A," at a price less than the par value thereof, to wit: 97%, and requests a modification of the order heretofore entered herein, on July 6, 1922, to permit the issuance and sale of certain of such certificates upon the terms specified in such application; and

Whereas, The reasons set forth in said application are satisfactory to the Commission; it is

Ordered, That the order heretofore entered herein on the 6th day of July, 1922, be and the same hereby is amended and modified so as to make the same read as follows:

Whereas, The Transit Commission on May 2, 1922 adopted and served a final order herein directing Interborough Rapid Transit Company to order, equip and have ready for operation as more particularly set forth in said Order, 350 steel cars for use in the operation of the Railroad and Existing Railroads described in a certain contract dated March 19, 1913, entered into, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company for the construction, equipment, maintenance and operation thereof, which contract is known and hereinafter referred to as Contract No. 3, which order was duly accepted in writing by said Interborough Rapid Transit Company on May 3, 1922; and

Whereas, By petition dated and verified the 23rd day of June, 1922, as modified by said application dated March 13, 1923, said Interborough Rapid Transit Company has requested this Commission to approve of:

(a) the purchase of 100 steel trailer cars complete as set forth in a certain proposed Equipment Lease and Agreement comprising the "Interborough Equipment Trust, Series 'A'" as Additional Equipment in accordance with the provisions of and as is more particularly defined in said Contract No. 3; and

(b) the issuance and sale by said petitioner of the principal amount of the sum of \$1,400,000 of six per cent. (6%) equipment trust certificates of which \$600,000 principal amount of said certificates are to be sold at not less than the par value thereof and \$800,000 principal amount of said certificates are to be sold

at not less than 97% of the par value thereof, the proceeds of which certificates are to be used by said petitioner to pay in part the cost of said 100 steel trailer cars complete; and

(c) the execution by said petitioner of instruments creating such equipment trust in form as annexed to said petition;

and

Whereas, After due deliberation and consideration it is now the opinion of this Commission that the money to be procured by the issuance of said equipment trust certificates is necessary to and reasonably required by said Interborough Rapid Transit Company for the purpose of permitting it to comply with the said order issued by this Commission on May 2, 1922 as aforesaid:

Ordered, That the Transit Commission does hereby approve of the purchase by said Interborough Rapid Transit Company of 100 steel trailer cars as outlined in its petition and application aforesaid as "Additional Equipment" in accordance with the provisions of Contract No. 3, subject, however, to the following conditions:

1. That the rentals payable by the Interborough Rapid Transit Company under said Equipment Lease and Agreement shall for the purposes of accounting under said Contract No. 3 be divided and paid as follows:

a. Capital payments being the cost as defined in subdivision 18 of Article II of Contract No. 3 shall be paid by the Interborough Rapid Transit Company out of its own resources realized from the stipulated contractual deduction from Revenue in accordance with Subdivision (6) of Article XLIX of said Contract No. 3.

b. Revenue deductions, including interest payments accruing on any of the said 100 trailer cars complete after the placing in operation of the same shall be paid from the stipulated contractual deduction from Revenue in accordance with Subdivision (8) of Article XLIX of said Contract No. 3.

c. That no part of the three per cent. (3%) discount, or interest thereon, incurred by the sale of \$800,000 of the said \$1,400,000 of said certificates at not less than 97% of the par value thereof shall be charged to either a Capital or Revenue account under said Contract No. 3.

2. That no charges other than expenses which may be properly included in the actual and necessary net Cost of Equipment as defined in Contract No. 3 as if actually provided by said Interborough Rapid Transit Company, shall be added to the cost of acquiring said 100 steel trailer cars.

3. That the Interborough Rapid Transit Company will upon written direction by the Commission, or its successors, so to do, request the Trustee in accordance with the said Equipment Lease and Agreement forming part of said petition aforesaid to invest the deposits made with said Trustee in bonds or notes of The City of New York or in certificates of indebtedness of the United States.

4. That full depreciation allowance on said 100 trailer cars complete shall be paid by the Interborough Rapid Transit Company from Revenue from the agreed contractual deduction as provided for in Subdivision (5) of Article XLIX of said Contract No. 3.

Further Ordered, That Interborough Rapid Transit Company be and it is hereby authorized to enter into and to execute the agreement constituting the said equipment trust and the equipment lease provided for therein, and thereby to assume and discharge the obligations on its part created by said instruments, including payment of sums sufficient to pay the face amount of and the dividends upon the equipment trust certificates provided to be issued by the Trustee under said trust agreement for an aggregate face amount not exceeding \$1,400,000, of which certificates one-fifth of such face amount, or \$280,000, shall mature each year during the period of five years from and after the date of such certificates, and on all of which certificates there shall be payable dividends at the rate of six per cent. (6%) per annum until the respective maturities, payable semi-annually, all as set forth and provided in the said agreement and equipment lease made part of said petition.

Further Ordered, That the issuance of said equipment trust certificates is authorized and consented to upon the conditions following and not otherwise, to wit:

(a) that \$600,000 principal amount of the said \$1,400,000 of said certificates shall be issued for a consideration equal to the par value thereof and \$800,000 principal amount of the said \$1,400,000 of said certificates shall be issued for a consideration equal to not less than 97% of the par value thereof and that the Interborough Rapid Transit Company shall cause the said certificates and the

proceeds thereof to be applied only for and to the purposes set forth in the above mentioned petition and the proposed equipment lease and agreement creating the said Equipment Trust, Series "A," and so that by the use of such certificates or the proceeds thereof there shall be paid for and discharged as set forth in the proposed Equipment Trust instruments, an amount of the cost of construction of the cars in said instruments described equal to not less than 97% of the par value of \$800,000 principal amount of the said \$1,400,000 of certificates, and to the par value of \$600,000 principal amount of the said \$1,400,000 of certificates.

(b) that the said Interborough Rapid Transit Company shall keep separate, true and accurate accounts showing in detail, the proceeds of the sale and disposal of the said equipment trust certificates hereby authorized to be issued, and on or before the 15th day of each month the said Interborough Rapid Transit Company shall make verified reports to this Commission stating the sale or sales of said certificates during the previous month, the moneys realized therefrom and the use and application of such moneys, stating further the source and the use and application of any other moneys paid under the said equipment trust agreement and lease; and said accounts, the vouchers and the records shall be open to audit and may be audited from time to time by accountants and examiners designated for such purpose by the Commission.

(c) that the approval herein given for the issuance of said agreement trust certificates is without prejudice to any contentions or arguments which the City of New York or the Transit Commission or either of them may have or desire to make at any time with respect to the proper construction of and the force and effect of any of the terms, provisions and conditions of said Contract No. 3 and is also without prejudice to any claims which the City of New York may desire to assert that the Interborough Rapid Transit Company under said Contract No. 3 is at the present time in default thereunder.

(d) that nothing contained in this approval shall amend or modify or be deemed to amend or modify said Contract No. 3 or to relieve the Interborough Rapid Transit Company thereunder of the performance of the obligations of said contract in accordance with its terms.

(e) that nothing herein in this order contained shall prejudice any right otherwise possessed by The City of New York or the Transit Commission to object to any expenditure of proceeds of certificates hereby authorized or any expenditure in connection with the equipment trust agreement and lease, the propriety or correctness of which expenditure may be presented for determination pursuant to Contract No. 3 or to investigate further and to question and reject as a claim, credit or charge under said Contract No. 3 any expenditure in connection with the sale of or made out of the proceeds of such certificates or any expenditure in connection with the equipment trust agreement and lease or any part thereof, even though claimed by the Interborough Rapid Transit Company to be made for the purposes specified in this order or in the proposed agreement and equipment lease creating the Interborough Equipment Trust, Series "A."

(f) the consent herein contained is given upon the further express condition that such consent shall take effect if and when and only when consent to said agreement and equipment lease creating the Interborough Equipment Trust, Series "A," shall be given, duly executed and acknowledged in form to be approved by Counsel to this Commission, by the sureties upon the continuing bond deposited by said Interborough Rapid Transit Company in accordance with the provisions of Article XVII of said Contract No. 3.

(g) Nothing in this order or in the said petition and equipment lease and agreement contained or in the action of the Commission in adopting this order shall be understood or construed to mean or provide for the extension of any period of time in Contract No. 3 for any purpose whatsoever notwithstanding that said equipment trust certificates herein authorized are not to mature for a period of five (5) years.

(h) the Interborough Rapid Transit Company shall require the submission to this Commission for approval of any contract or agreement entered into by Rapid Transit Subway Construction Company to the same extent that the Interborough Rapid Transit Company is required to submit contracts and agreements under Contract No. 3.

Further Ordered, That the Interborough Rapid Transit Company shall notify the

264

Transit Commission within five (5) days after service upon it of a copy of this order whether the terms of this order are accepted and will be obeyed.

TRANSIT COMMISSION,
By JAMES B. WALKER,
Secretary.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, March 16, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

344—R. T. 7638

**Order No. 22—Receipt of Bids for Supply of Special Work and Track Fittings—
Referred to Chief Engineer**

Commissioner Harkness stated that the time within which to receive bids for the supply of special work, frogs, switches and track fittings for use in the construction of various parts of the Rapid Transit Railroad, Order No. 22, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the four bids received.

The bids were then referred to the Chief Engineer.

345

Hearing

The following hearing was held:

2:30 P. M.; Case No. 2674; Brooklyn Eastern District Terminal; application for approval of proceedings to condemn real property located at No. 80 Kent Avenue, Brooklyn. George O. Redington, Counsel, presided. Adjourned to March 23, 1923, at 2:30 P. M.

Secretary.

Proceedings for Tuesday, March 20, 1923

Present: George McAneny, Chairman, LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

347.

The Minutes of the Proceedings for the month of December, 1922, were approved.

348—R. T. 7457

Route No. 18, Section No. 1—Report by Chief Engineer Recommending Approval of Schedule Item for Painting Exposed Steel under Contract for Enclosure to Inspection Shed at 180th Street Yard—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated March 12, 1923, recommending that a request be made to the Board of Estimate and Apportionment for consent to the establishment of a schedule item price of 6½ cents per square foot for painting exposed steel under the contract for the construction of an enclosure to the inspection shed at the 180th Street Yard.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission, by communication dated March 12, 1923, reported with respect to the work under the contract with The City of New York, acting by this Commission, and Rosenthal Engineering Contracting Co., Inc., for the construction of the inspection shed enclosure for the White Plains Road Rapid Transit Railroad, Route No. 18, (180th Street Yard), as follows:

“Section 210 of the contract for the construction of the Inspection Shed Enclosure at the 180th Street Yard provides that all exposed structural steel erected under other contracts and which has already been painted a shop coat and second coat shall be painted one coat of “K-1”. No provision was made, however, in the contract for paying for this painting. The Rosenthal Engineering & Contracting Company, Contractor for the construction of the shed, has submitted a price of 6½c. per square foot for painting the steel work referred to above. This price has been investigated and has been found to be reasonable.

The total quantity of steel to be painted is approximately 92,000 square feet which, at 6½c. per square foot, will amount to \$5,980. This amount exceeds the \$5,000.00 which the third paragraph of Item 150 states shall not be exceeded for any single order of work or materials unless the approval is obtained of the Board of Estimate and Apportionment to such lump sum price or unit prices. It is not anticipated at this time that the cost of this painting will necessitate any additional appropriation.

Recommendation: I recommend that the Board of Estimate and Apportionment be requested to approve the adoption of 6½c per square foot for the painting of exposed steel referred to above and that upon the consent of the Board, the Commission approve the supplementary schedule item price attached hereto.”

; and

Whereas, Counsel has prepared and submitted a proposed application upon the Board of Estimate and Apportionment, which will effect the recommendation of the Chief Engineer aforesaid.

Resolved, That said report and recommendation be and the same hereby is approved and that the requisition so submitted be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment of the City of New York.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

March 20, 1923.

Gentlemen:

By resolution adopted on June 9, 1922 (Cal. No. 311) your Honorable Board consented to the proposed contract between The City of New York, acting by the Transit Commission, and Rosenthal Engineering Contracting Co., Inc., for the construction of the inspection shed enclosure for the White Plains Road Rapid Transit Railroad, Route No. 18, (180th Street Yard), and appropriated for the purposes of meeting the obligations of the City under said proposed contract the sum of Two hundred sixty-seven thousand seven hundred seventy-eight dollars and eighty-five cents (\$267,778.85), making the same a subauthorization against the general appropriation made for the purposes of carrying out the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3.

The Chief Engineer of this Commission has, under date of March 12, 1923, reported and recommended with respect to certain portions of the work under said contract, as follows:

"Section 210 of the contract for the construction of the Inspection Shed Enclosure at the 180th Street Yard provides that all exposed structural steel erected under other contracts and which has already been painted a shop coat and second coat shall be painted one coat of "K-1". No provision was made, however, in the contract for paying for this painting. The Rosenthal Engineering & Contracting Company, Contractor for the construction of the shed, has submitted a price of 6½c. per square foot for painting the steel work referred to above. This price has been investigated and has been found to be reasonable.

The total quantity of steel to be painted is approximately 92,000 square feet which, at 6½c. per square foot, will amount to \$5,980. This amount exceeds the \$5,000.00 which the third paragraph of Item 150 states shall not be exceeded for any single order of work or materials unless the approval is obtained of the Board of Estimate and Apportionment to such lump sum price or unit prices. It is not anticipated at this time that the cost of this painting will necessitate any additional appropriation.

Recommendation: I recommend that the Board of Estimate and Apportionment be requested to approve the adoption of 6½c. per square foot for the painting of exposed steel referred to above and that upon the consent of the Board, the Commission approve the supplementary schedule item price attached hereto."

Said contract which is dated June 26, 1922 provides in the third paragraph of Item 150 thereof as follows:

"Instead of the method above described in this Item for paying for any such work or materials to be paid for under this Item, the Engineer may, but only with the approval of the Commission, agree with the Contractor upon reasonable unit prices or a reasonable lump sum price for such work or materials. Such additional unit prices or such lump sum price shall be embodied in a supplemental schedule. The total amount to be paid for any work and materials under such unit prices or lump sum prices as provided in this paragraph shall not, except with the further consent or approval of the Board of Estimate and Apportionment, exceed five per centum (5%) of the total estimated contract cost on which the contract award was made, but the total amount to be expended under this contract for all purposes, including those contemplated by this Item, shall not exceed the amount set aside, authorized and appropriated by the Board

of Estimate and Apportionment for the execution thereof. In the case of any single order of work or materials, or both, for a particular job or purpose where the lump sum price for such order to be agreed upon under the provisions of this paragraph or the estimated cost of such order according to the unit prices therefor to be agreed upon under the provisions of this paragraph shall exceed five thousand dollars (\$5,000), such agreement shall not be binding upon the City until the Board of Estimate and Apportionment shall approve or consent to such agreement or such lump sum price or such unit prices."

Inasmuch as the estimated cost of the work for which the said supplemental schedule item is to be established will amount to a sum in excess of the limitation set forth in the quoted portion of said Item 150, the consent of your Honorable Board to the establishment of such supplemental schedule item is necessary.

Your Honorable Board is accordingly requested to consent to the establishment of this Commission pursuant to the provisions of said Item 150 of said contract for the purpose set forth in the Chief Engineer's report of the following supplemental schedule item:

"Item No. 561-B—For painting with one coat of "K-1" the exposed structural steel work erected under other contracts and which has already been painted a shop coat and second coat, the price of 6½c. per square foot."

TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

349—R. T. 6892

Route No. 8, Section No. 2—Resolution Approving Surety upon Bond in Sum of \$10,000 as Continuing Security for Unsatisfied Claims—Adopted

The following resolution was adopted:

Resolved, That the Massachusetts Bonding and Insurance Company be and hereby is approved as surety upon the bond in the sum of ten thousand (\$10,000) dollars, deposited by Patrick McGovern, Inc., as continuing security against any claims unsatisfied or not presented for a time not exceeding the time when such claims would be legally barred in accordance with Article XLVIII of the contract for the completion of construction of Section No. 2 of Route No. 8 of the Fourteenth Street-Eastern Line.

350—R. T. 6559

Route No. 33, Section No. 3—Report by Chief Engineer Recommending Release of \$2,000 Security Deposited by Contractor for Repairing Leaks—Approval Resolution

A report was presented from the Chief Engineer dated March 17, 1923, recommending that a request be made to the Comptroller of The City of New York to release the \$2,000 security deposited by Booth & Flinn, Ltd., and retained by the City as security for repairing leaks on Section No. 3 of Route No. 33.

The following resolution was adopted:

Whereas, Pursuant to the contract dated October 4, 1919 between The City of New York, acting by the Public Service Commission for the First District, and Booth & Flinn, Ltd., as assignee, for the construction of that portion of the municipal rapid transit railroad, known as Section No. 3 of Route No. 33, this Commission, by resolution adopted August 30, 1921, required said contractor, as a condition precedent to the making of the final payment, to deposit with the Comptroller of the City of New York security in the sum of \$2,000, to be retained for a period of six months to cover the contractor's responsibility in making good defects which may develop in the watertight concrete required by Section 170 of the Specifications of said contract; and

Whereas, By communication dated March 17, 1923 the Chief Engineer of this Commission has, for the reasons therein more particularly set forth, recommended that "the Comptroller be informed that it is proper to release the \$2,000 held as security for repairing the leaks on Section No. 3, Route No. 33",

Resolved, That said report and recommendation be and the same hereby is approved and that a certified copy of this resolution be transmitted to the Comptroller of the City of New York with a request that the said \$2,000 be now returned to said contractor.

351—R. T. 7011

Route No. 8—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval of Purchasing Agent's Order for Motor Driven Pumping Unit for Drainage in Fourteenth Street-Eastern Line—Approved

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 9, 1923, recommending that an order be placed on Goulds Manufacturing Company, No. 18 Warren Street, for all labor and materials necessary to provide a motor driven pumping unit on a base complete ready to run except for a motor at a cost of \$100 so as to provide drainage in the Fourteenth Street-Eastern Line, the cost of such apparatus to be charged to Maintenance of Contract No. 4 lines prior to Operation.

The matter was referred to the Chief Clerk for the issuance of a purchasing agent's order.

352—R. T. 6080

Route No. 5, Section No. 15—Report by Real Estate Clerk Recommending Acceptance of Bid of Peter Schneider for Rental of Property at Southwesterly Corner of East 157th Street and Gerard Avenue, Borough of The Bronx—Approval Resolution

A report was presented from the Real Estate Clerk dated March 19, 1923, recommending the acceptance of the bid of Peter Schneider for the rental of the premises at the southwesterly corner of East 157th Street and Gerard Avenue, Borough of The Bronx, at a rental of \$400.00 per month, beginning April 16, 1923.

The following resolution was adopted:

Whereas, By resolution of the Commission, dated March 6, 1923, the informal bids received for temporary occupancy of the premises at the southwesterly corner of East 157th Street and Gerard Avenue, Borough of The Bronx, were rejected and the Real Estate Clerk was instructed to receive new bids; and

Whereas, The Real Estate Clerk, after advertisement in the City Record, at 11:00 A. M. on March 19, 1923, received oral bids for the concession; and

Whereas, The Real Estate Clerk under date of March 19, 1923, has reported that in competitive oral bidding Mr. Peter Schneider of No. 371 East 165th Street, Borough of The Bronx, bid \$400.00, the highest bid, per month rental for the said premises, such rental to begin April 16, 1923, and did duly sign an application for permission to occupy the said premises and did deposit the sum of \$800.00, of which \$400.00 is payment for rental for the first month of occupancy and \$400.00 is payment for rental for the last month of occupancy, such application demising the premises for an initial period of six (6) months beginning April 16, 1923, and ending October 15, 1923, and containing other usual provisions covering similar concessions, including the obligation to vacate on fifteen (15) days' notice after the expiration of said initial period, recommending that said application be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of the said Peter Schneider, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

353—R. T. 7224, 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Award of Contract for Construction of Foundations and Super-Structure for Substation No. 27—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 3, 1923, requesting approval to the award of a proposed contract to James A. Henderson for the construction of the foundations and super-structure, exclusive of structure metal work of substation No. 27, at the lump sum price of \$53,749.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 10, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs on March 15, 1923, recommending that the work be classified as Equipment of the Railroad.

The following resolution was adopted:

Whereas, By resolution adopted March 6, 1923 this Commission approved the proposed form of contract, contractor's bond, contractor's proposal and specifications, together with the blueprints of the drawings referred to in the said specifications all for the construction of the foundations and super-structure (exclusive of structure metal work) of substation No. 27 of said Interborough Rapid Transit Company to be located on Roosevelt Avenue between 32nd and 33rd Streets in Elmhurst, Borough of Queens, New York, such substation to be constructed as a part of Equipment under and in pursuance of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated March 10, 1923 reported that prior to the adoption of said resolution on March 6, 1923 as aforesaid said Interborough Rapid Transit Company by communication dated March 3, 1923 requested the approval of this Commission to the award of said proposed contract so approved to James A. Henderson for the performance of the work thereunder at the lump sum price of \$53,749; that the following bids were received for such work:

James A. Henderson	\$53,749
Charles Money	59,555
John B. Roberts & Co.	61,490
Rosenthal Engineering Contracting Co.	66,955
Bainbridge Construction Co.	Declined
Edward Corning Co.	Declined

that the lowest bid so received is reasonable; that the lowest bidder has previously done similar work for Interborough Rapid Transit Company satisfactorily and recommend the approval of the application of said company to the award of said contract to the said James A. Henderson; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have by supplemental communication dated March 15, 1923 reported that the bids submitted as aforesaid were received prior to the adoption of the resolution approving the form of contract on March 6, 1923 which resolution required the Interborough Rapid Transit Company to advertise for bids and recommend that the bids so received be accepted as a compliance with such condition of said resolution; and

Whereas, The Auditor of Rapid Transit Costs has by endorsement dated March 13, 1923, recommended the approval of said application, the work to be classified as Equipment of the Railroad,

Resolved; That said reports and recommendations be and the same hereby are approved; that the application of Interborough Rapid Transit Company to award said proposed contract approved as aforesaid to James A. Henderson for the lump sum of \$53,749 be and the same hereby is approved.

354—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Pipe Threading Dies, etc., in Connection with Installation of Multiple Door Control on 396 High Voltage Subway Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 26, 1923, requesting approval of the proposed purchasing agent's order directed to the Federal Hardware Company for pipe threading dies and other material for use in connection with the installation of multiple door control equipment on 396 high voltage subway cars at a cost of \$6,718.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 9, 1923, stating that the price is reasonable and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs on March 13, 1923, recommending that the work be done as Additions to Existing Equipment under Work Order No. ICqA-1 heretofore assigned.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Articles LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined, the proper classification of such work to be Additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated February 26, 1923, directed to Federal Hardware Company, as follows:

<i>Parts for D&H #4 Pipe Threading Machine</i>			
100 sets Dies, 1/4"	R.H. Adams type.	price: \$4.90 set.....	\$490.00
60 sets Dies, 1/2"	R.H. Adams type	4.90 set.....	294.00
60 sets Dies, 3/8"	R.H. Adams type	4.90 set.....	294.00
100 sets Dies, 3/4"	R.H. Adams type	4.90 set.....	490.00
30 sets Dies, 1/4"	L.H. Adams type	4.90 set.....	147.00
50 sets Dies, 3/8"	L.H. Adams type	4.90 set.....	245.00
50 sets Dies, 1/2"	L.H. Adams type	4.90 set.....	245.00
70 sets Dies, 3/4"	L.H. Adams type	4.90 set.....	343.00
<i>Parts for D&H #5 Pipe Threading Machine</i>			
150 sets Dies, 1/4"	R.H. Adams type.	price: \$6.95 set.....	1,042.50
40 sets Dies, 3/8"	R.H. Adams type	6.95 set.....	278.00
60 sets Dies, 1/2"	R.H. Adams type	6.95 set.....	417.00
60 sets Dies, 3/4"	R.H. Adams type	6.95 set.....	417.00
150 sets Dies, 1/4"	L.H. Adams type	6.95 set.....	1,042.50
40 sets Dies, 3/8"	L.H. Adams type	6.95 set.....	278.00
40 sets Dies, 1/2"	L.H. Adams type	6.95 set.....	278.00
60 sets Dies, 3/4"	L.H. Adams type	6.95 set.....	417.00

Total \$6,718.00

which purchasing agent's order has been caused to be designated as "Approval No. 456"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported the following bids were received for the performance of such work:

Federal Hardware Co.	\$6,718.00
Washington Hardware Company	6,774.00
Manning, Maxwell & Moore	6,852.00
Montgomery and Company	6,950.00
Neal and Brinker	7,004.00
A. P. Dienst and Company.....	Did not quote.
Fuller Hardware Company.....	Did not quote.

; that the material is necessary and the price is reasonable being the best obtainable for the material to be supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated January 10, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

355—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Doors to Be Installed on 100 New Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 27, 1923, requesting approval of a proposed purchasing agent's order directed to Morton Manufacturing Company for the manufacture and delivery of 300 steel doors to be installed on 100 new trailer cars at a cost of \$13,500.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 13, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated February 27, 1923, directed to Morton Manufacturing Company for the manufacture and delivery of the following:

- 100 R.H. Steel Doors, guide bars, hardware, but without escutcheon plate for motorman's arm rest, as per B/P 9636-A.
Price: \$45.00 each.
- 100 R.H. Steel Doors, guide bars, hardware with escutcheon plate for motorman's arm rest, as per B/P 9636-A.
Price: \$45.00 each.
- 100 L.H. Steel Doors, guide bars and hardware, as per B/P 9636-A, without escutcheon plate for motorman's arm rest.
Price: \$45.00 each.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 457"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated March 13, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

Morton Manufacturing Co. \$13,500.

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

356—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of Motor Driven Bolt Cutter—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order IBA-11—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated December 27, 1922, requesting the approval of the purchase of a triple motor driven Bolt Cutter for the reclaiming of damaged bolts, at an estimated cost of \$3,000.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer dated February 8, 1923, recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs, dated March 6, 1923, classifying the work as Additional Equipment of the Railroad and assigning Work Order No. IBA-11.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 said Interborough Rapid Transit Company has by communication dated December 27, 1922 requested the approval of this Commission to the purchase of a triple motor driven bolt cutter for the reclaiming of damaged bolts, at an estimated cost of \$3,000; and

Whereas, By communication dated February 8, 1923 the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that such additional unit is necessary; that the estimated cost is not unreasonable and recommend the approval of said application; and

Whereas, The Auditor of Rapid Transit Costs by communication dated March 16, 1923 has recommended that the cost of the acquisition of such unit be classified as Additional Equipment of the Railroad and that Work Order No. IBA-11 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the application of Interborough Rapid Transit Company aforesaid for the purchase of said motor driven bolt cutter be and the same hereby is approved, the cost thereof to be classified as Additional Equipment of the Railroad and as to which unit this Commission assigns Work Order No. IBA-11.

357—R. T. 6418, 6761

Elevated Extension Certificate—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for One Motor Driven Screw Machine—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order No. IEA-3—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated February 9, 1923, requesting approval to the issuance of a purchasing agent's order directed to Brown and Sharpe of N. Y., Inc. for a motor driven screw machine for the 98th Street Shop, at a cost of \$2,020.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 13, 1923, recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs dated March 16, 1923, classifying the work as Addition to Elevated Extensions, and assigning Work Order No. IEA-3.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913, granted to Interborough Rapid Transit Company by the Public Service Commission for the First District for certain Elevated Extensions said Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated February 9, 1923, directed to Brown and Sharpe of New York, Inc. for the following:

- 1 Machine, #2-F wire feed screw, standard set of tools, automatic feed for turret slide Feed tube to take feeding fingers for brass or other light work to 1" diameter. To be driven by single pulley, 10" diameter, 3½" belt from motor to pulley. Machine to be delivered with General Electric 3 H. P. type R. C. shunt wound motors, with upper half of commutator and enclosed, specially wound for 600 volts, direct current, with type C. R. 4033-C 2, enclosed automatic starter, having line switch and overload relay and with start and stop push button station, completely installed ready to operate.

Price: \$2,020.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 453"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated March 13, 1923, reported that the following bids were received for such work:

Brown and Sharpe of N. Y., Inc.....	\$2,020.00
Van Dyck Churchill Co.....	1,892.00
The Warner and Swasey Co.....	981.00
*Henry Prentiss and Co.....	944.00

that the machine built by Brown and Sharpe is considered superior to that of the others; that it has certain devices not included in the others; that it conforms to the standard of the company in this respect which permits of economy in operation and maintenance of the machine; that such machine is necessary because of the increasing amount of work required of such machines at the shop; that the cost is reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs has by communication dated March 16, 1923, recommended the approval of said proposed purchasing agent's order and that the cost thereunder be classified as Addition to Elevated Extensions and that Work Order No. IEA-3 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same

*Does not include price of motor.

hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute the form of approval of this Commission made part of said proposed purchasing agent's order; that such unit be classified as Addition to Elevated Extensions and that Work Order No. IEA-3 be assigned thereto.

358—R. T. 6597

Elevated Extension Certificate—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for 200,000 Feet of Cable to Be Used in Connection with Installation of Automatic Turnstiles on Elevated Stations—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs Assigning Work Orders Nos. IEA-1 and IMA-1—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated January 31, 1923, requesting approval of a proposed purchasing agent's order directed to the Standard Underground Cable Company for furnishing 200,000 feet of cable for use in connection with the installation of automatic turnstiles on the Manhattan Elevated stations at a total cost of \$3,104.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 9, 1923, stating that the cost is reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs dated March 13, 1923, recommending that the work be done under work Orders Nos. IEA-1 and IMA-1 heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted July 6, 1922 this Commission approved, pursuant to the provisions of the certificate dated March 19, 1913, granted to Interborough Rapid Transit Company for certain Extensions to the Existing Elevated Railroads, known as the Webster Avenue, Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and the West Farms Subway Connection, the installation of automatic prepayment turnstiles (of a character and design similar to the turnstiles installed in the subway portion of the lines of the Interborough Rapid Transit Company with the approval of this Commission) upon the stations of said Extensions, and by said resolution classified such work as Additions to the Railroads, as defined in said Elevated Extension Certificate, and to which work this Commission, in and by said resolution, assigned Work Order No. IEA-1; and

Whereas, Pursuant to said Elevated Extension Certificate aforesaid and to the provisions of a stipulation between The City of New York and said Interborough Rapid Transit Company dated March 9, 1923 with respect to the proper interpretation and meaning of the provisions of said Extension Certificate in particular relation to betterments, improvements or additions to the Existing Manhattan Railroads, this Commission approved of the installation of such automatic prepayment turnstiles upon stations of the Existing Manhattan Railroads and in and by said resolution classified such work as Additions to the Existing Manhattan Railroads and to which work this Commission, in and by said resolution, assigned Work Order No. IMA-1; and

Whereas, Pursuant to said authorizations contained in said resolutions said Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated January 31, 1923, directed to Standard Underground Cable Company for the following:

200,000 Ft. Cable, #13 single conductor insulated, as per Spec. 34-R,	
except that O. D. must not exceed .255".	Price: \$15.52 per
M. Ft.	\$3,104.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 459"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated February 9, 1923, reported that the following bids were taken for such material:

Standard Underground Cable Co.....	\$3,104.00
Okonite Co.	3,620.00

; that the award is to the lowest bidder which is competent to perform the work required; that such material is to be used in making third rail, switch, relay and other connections incidental to the installation of the said turnstiles authorized as aforesaid; that the cost is reasonable and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs has, by communication dated March 13, 1923, recommended that the said proposed purchasing agent's order be approved, the cost thereunder to be charged to the work order numbers assigned as aforesaid in the respective portions of the use of said material to be procured by said proposed purchasing agent's order,

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to the said resolutions of July 6, 1922 and March 13, 1923 the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

359—R. T. 7427

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Contracts for Supply and Delivery of Coal for Period from February 1, 1923, to January 31, 1924—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 7, 1923, requesting approval of proposed contracts with the Consolidation Coal Company (Inc.), Logan Coal Company and Berwin-White Coal Mining Company for the supply and delivery of bituminous coal during the period from February 1, 1923, to January 31, 1924, at a price of \$7.50 per gross ton, alongside the Company's docks.

Commissioner Harkness stated that the Commissioners had given the application personal attention, that the price had been checked and is the best available and that the Commission had received the aid of the Consulting Engineer, Dr. C. E. Lucke, who has recommended that the application be approved.

The following resolution was adopted:

Whereas, By communication dated March 7, 1923, Frank Hedley, as President and General Manager of Interborough Rapid Transit Company, has, pursuant to the provisions of Article XXII of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and said Interborough Rapid Transit Company, known as Contract No. 3, submitted for the approval of this Commission three identical contracts between said Interborough Rapid Transit Company and the Consolidation Coal Company (Inc.) Logan Coal Company and Berwin-White Coal Mining Company for the supply and delivery of bituminous coal for use by said Interborough Rapid Transit Company during the period from February 1, 1923 to January 31, 1924, at the price of \$7.50 per gross ton of 2,240 pounds free alongside at 59th Street and 74th Street power stations of said Interborough Rapid Transit Company, which said contracts each further provide for a reduction in the price of said coal thereunder in order to accord with the minimum price at which coal of the same quality is supplied by said contractors under other contracts with consumers in this district during said period; and

Whereas, Counsel to this Commission has examined said proposed contracts and finds them satisfactory as to form and the Commission is of the opinion that the said contracts should be approved,

Resolved, That said contracts so submitted be and the same hereby are approved.

360—R. T. 6761

Application by Interborough Rapid Transit Company for Approval of Purchase of 67,000 Feet of Cable to Supply Power to Substation No. 27—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated January 18, 1923, requesting approval to the purchase of 67,000 feet of three conductor sector shape cable from the Standard Underground Cable Company at an estimated cost of \$110,811 necessary to supply power to Substation No. 27.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 6, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs on February 21, 1923, recommending approval of the proposal as Equipment of the Railroad.

The following resolution was adopted:

Whereas, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3 said Interborough Rapid Transit Company has by communication dated January 18, 1923 requested the approval of this Commission to the purchase by it of 67,000 feet of three conductor 0000, 19,000 volt sector shape cable from the Standard Underground Cable Co. at an estimated expense of \$110,811 to supply power to Substation No. 27 of the Railroad in the Borough of Queens as Equipment of the Railroad as provided for in said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated February 6, 1923 reported that the following bids were received for such material:

National Conduit and Cable Co.—\$1.476 per ft. less $\frac{1}{2}\%$ in 10 days for *round* cable.

Standard Underground Cable Co.—35,000 ft. of *sector* cable at \$1.673 per ft. less $\frac{1}{2}\%$ in 10 days.

—32,000 ft. of *sector* cable at \$1.633 per ft. less $\frac{1}{2}\%$ in 10 days.

American Steel and Wire Co.—No. bid.

Habirshaw Electric Cable Co.—No. bid.

that because of the standardization by Interborough Rapid Transit Company of sector shape cable for 19,000 volts the bid of National Conduit and Cable Co. cannot be considered; that the material is necessary, the quantity is proper and the price reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated February 21, 1923 has recommended the approval of said proposal as Equipment of the Railroad,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved, such material to be classified as Equipment of the Railroad, provided, however, that the foregoing approval is upon condition that the form of contract to be entered into by said Interborough Rapid Transit Company with Standard Underground Cable Co. to effect the approval herein given, shall before execution and delivery thereof be submitted to this Commission for its approval.

361—R. T. 6597, 6420

Manhattan Railways—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for 490 Turnstiles for Stations on Existing Elevated Lines—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated January 9, 1923, requesting approval of a proposed purchasing agent's order

directed to the General Electric Company for 490 pre-payment turnstiles with coin boxes equipped with slug detector device and lens for installation on stations of the existing Manhattan Railroads, at a cost of \$126,420.00.

A report was presented from the Engineer of Equipment and Operation dated January 18, 1923, together with a supplemental memorandum dated March 20, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913, granted to Interborough Rapid Transit Company for certain Extensions to the Existing Elevated Railroads and pursuant also to the provisions of a stipulation between The City of New York and said Interborough Rapid Transit Company dated March 9, 1923, with respect to the proper interpretation and meaning of the provisions of said Extension Certificate in particular relation to betterments, improvements or additions to Existing Manhattan Railroads, this Commission by resolution adopted on March 13, 1923, approved of the installation of automatic pre-payment turnstiles upon stations of the Existing Manhattan Railroads and in and by said resolution classified such work as Additions to the Existing Manhattan Railroads and to which work this Commission in and by said resolution assigned Work Order No. IMA-1; and

Whereas, There has been submitted to this Commission pursuant to said resolution and stipulation for the approval of this Commission a proposed purchasing agent's order dated January 9, 1923, directed to the General Electric Company for the following:

490 Turnstiles, electric type, automatic two-way prepayment, General Electric Company's type R. J. 1, form A, complete, with their type J. P. 1, coin box equipped with slug detector device and lens.	
Price: \$258.00 each.....	\$126,420.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 437"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated January 18, 1923, recommended the approval of said proposed purchasing agent's order and by supplemental memorandum dated March 20, 1923, has stated that the said proposed purchasing agent's order may now be approved under the recommendation of January 18, 1923 aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to the said resolution of March 13, 1923, and the said stipulation dated March 9, 1923, the said proposed purchasing agent's order aforesaid be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order the purchase of said turnstiles to be classified as Additions to the Existing Manhattan Railroads under Work Order No. IMA-1 heretofore assigned.

Centre Street Loop—Report by Chief Engineer Recommending Authorization to Change a Passageway at Northeast Corner of Canal and Centre Streets so as to Provide Additional Exit Facilities—Approved

A report was presented from the Chief Engineer dated March 13, 1923, recommending that he be authorized to include a change in the passageway at the northeast corner of Canal and Centre Streets so as to provide an overhead crossing from the easterly platform to the southeast corner in connection with the contract for additional exit facilities at that point. Upon motion duly seconded and adopted the recommendation was approved.

363—R. T. 6597, 6856

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Installation of Automatic Turnstile at Caton Avenue Entrance of Church Avenue Station of Brighton Beach Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Classifying Work and Assigning Work Order No. MCR-11—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated November 28, 1922, requesting approval of the installation of an automatic turnstile at the Caton Avenue entrance of the Church Avenue Station of the Brighton Beach Line at an estimated cost of \$1,500.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated December 29, 1922, recommending that the application be approved from an engineering standpoint.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant dated March 5, 1922, classifying the work as a Replacement and assigning Work Order No. MCR-11 to the unit of work.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation, by communication dated November 28, 1922, has requested the approval of this Commission to the installation of one high type automatic turnstile at the Caton Avenue entrance of the Church Avenue Station of the Brighton Beach Line of the Existing Railroads as described in said Contract No. 4; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated December 29, 1922, reported that the estimated cost of such work is \$1,500; that the character and arrangement of said proposed turnstile is similar to that already approved for the Culver Line of the railroads operated by the assignee of said New York Municipal Railway Corporation; that it is proposed to have a ticket agent on duty at all hours of the day at the Church Avenue end of said station, while the Caton Avenue end will be served by the automatic turnstile proposed during periods of light traffic with an agent on duty during the rush hours and recommend that the said application be approved upon the conditions more particularly set forth in said report; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have, by communication dated March 5, 1923, recommended that the work of installing said proposed turnstile be classified as a Replacement and that the cost thereof be paid for out of that portion of the "Depreciation Fund for Existing Railroads" which has been made available by "Retirements from Service"; that Work Order No. MCR-11 be assigned thereto and that the said Receiver and/or said New York Municipal Railway Corporation be required to account for the cost of removing or rearranging any existing facilities, together with the salvage value of the material removed,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the application of said Receiver of New York Municipal Railway Corporation be and the same hereby is approved upon condition

(1) that the arrangement and details of the apparatus shall be approved by the Chief Engineer of this Commission before installation

(2) that the right is reserved by this Commission to order the rearrangement or removal of any or all of said apparatus and the restoration of the said station to its original condition whenever, in the opinion of this Commission, such rearrangement or relocation is desirable

(3) that the hours during which the ticket agent will be maintained at the said Caton Avenue entrance of said station shall be as determined by the Commission as necessary to meet the requirements of the traffic.

Further Resolved, That the work of installing said turnstile in accordance with the approval herein contained shall be classified as a Replacement and that the cost of such work shall be paid for out of that portion of the "Depreciation Fund for Existing Railroads" which has been made available by "Retirements from Service"; that the company shall account for the cost of removing or rearranging any existing facilities, together with the salvage value of material removed, and that this Commission assigns to said unit Work Order No. MCR-11.

364—R. T. 6597, 6593, 6856

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Automatic Turnstiles at Caton Avenue Entrance of Church Avenue Station, Brighton Beach Line, and at Stations of Liberty Avenue Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Assigning Work Order Nos. MCR-11 and MEA-3—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated January 12, 1923, requesting approval of a proposed purchasing agent's order, directed to the Vulcan Rail & Construction Company for the installation of automatic turnstiles at the Caton Avenue end of the Church Avenue station of the Brighton Beach Line and at stations of the Liberty Avenue Line, at a total cost of \$13,235.00.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 21, 1923, recommending that the application be approved from an engineering standpoint.

A report was presented from the Auditor of Rapid Transit Costs and the Assistant Chief Accountant, classifying the work and assigning Work Order No. MCR-11 to the turnstile at the Church Avenue station, and assigning Work Order No. MEA-3 to the turnstiles on the Liberty Avenue Line.

The following resolution was adopted:

Whereas, By resolution adopted November 2, 1922, this Commission, pursuant to the provisions of the certificate dated March 19, 1913, granted by the Public Service Commission for the First District to New York Municipal Railway Corporation for certain Elevated Extensions, approved the request of the Receiver of New York Municipal Railway Corporation to the installation of one each of the high type automatic turnstile at the following stations of the Liberty Avenue Line as described in said certificate:

Hudson Street	West End
Boyd Avenue	West End
Rockaway Boulevard	West End
Oxford Avenue	West End
Greenwood Avenue	West End
Lefferts Avenue	West End

such work to be classified, as Additions to Elevated Extensions of Existing Railroads and assigned thereto Work Order No. MEA-3, such approval being given upon the terms and conditions as more particularly set forth in said resolution; and

Whereas, By resolution adopted on March 13, 1922, this Commission approved the proposal of the Receiver of New York Municipal Railway Corporation pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 4, for the installation of one high type automatic turnstile at the Caton Avenue end of the Church Avenue Station of the Brighton Beach Line of the Existing Railroads as described in said Contract No. 4, upon the terms and conditions as set forth in said resolution and upon the further condition that said work be classified as a Replacement, the cost thereof

to be paid for out of that portion of the moneys of the "Depreciation Fund for Existing Railroads" made available by "Retirements from Service" and as to which this Commission assigned Work Order No. MCR-11; and

Whereas, By communication dated January 12, 1923, the said Receiver of New York Municipal Railway Corporation has submitted for the approval of this Commission proposed purchasing agent's order dated January 11, 1923, directed to the Vulcan Rail and Construction Company for the following :

"Furnish, install and paint prepayment entrance turnstiles, exit turnstiles, new railings and gates, together with such other miscellaneous items of work as are necessary in connection therewith, including alterations to existing railings and gates at the west mezzanine of each of the stations at Hudson Street, Boyd Ave. Rockaway Boulevard, Oxford Ave., Greenwood Ave. and Lefferts Ave. Liberty Avenue Line, and at the Caton Avenue End of the Church Avenue Station, Brighton Beach Line; all of which work is more particularly described in our specifications dated December 1st, 1922, and indicated upon our drawings numbered C5583, C-5586, C-5644, C-5645 and C-5646."

which proposed purchasing agent's order has been caused to be designated as "Approval No. 340"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have, by communication dated February 1, 1923, reported that the following bids were received for such work :

	First Bidding	Second Bidding
Vulcan Rail & Construction Co.....	\$13,710.00	\$13,235.00
Albes-Godfrey Co.	13,923.00	13,585.50
Harris H. Uris Iron Works.....	15,178.00	14,097.00
Whale Creek Iron Works.....	15,125.00	14,625.00
Hay Foundry & Iron Works.....		No bid.
William Schwenn		No bid.
Chernin & Mollov.....		No bid.
John Thatcher & Son.....		No bid.
Pan American Iron Works.....		No bid.
Standard Iron Works.....		No bid.
H. Brown Company, Inc.....		No bid.
Grand Central Iron Works.....		No bid.

; that the prices are considered not unreasonable and the best obtainable, and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, By communication dated March 5, 1923, the Auditor of Rapid Transit Costs and the Assistant Chief Accountant have recommended the approval of said proposed purchasing agent's order under the Work Order Numbers assigned as aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

365—R. T. 6597, 6593, 6856

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Coin Boxes, etc., to Be Installed on Automatic Turnstiles at Nine Stations—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Assistant Chief Accountant Recommending Work Be Done under Work Orders Nos. MBA-16, MEA-2, MCR-11, and MEA-3—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated December 29, 1922, requesting approval of a proposed purchasing agent's order directed to Perey Machine Works for furnishing coin boxes, etc., to be installed on automatic turnstiles at nine stations at a cost of \$2,250.00.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated February 10, 1923, stating that the cost is reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and Assistant Chief Accountant dated March 7, 1923, recommending that the work be done under Work Orders Nos. MBA-16, MEA-2, MCR-11 and MEA-3 heretofore assigned.

The following resolution was adopted:

Whereas, Heretofore and on the dates hereinafter indicated this Commission has approved of the installation of high type prepayment turnstiles at various stations of the Railroad, Existing Railroads and Elevated Extensions operated under and pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 4 and the certificate dated March 19, 1913, for Elevated Extensions:

Station	Line	Approved Date	Work Order No. Assigned
Ave. U—Neck Road End	Culver	October 10, 1922	MBA-16
Metropolitan Ave.—W. End	Jamaica	July 18, 1922	MEA-2
Church Ave.—Caton Ave. End	Brighton Beach	March 13, 1923	MCR-11
Hudson St.—West End	Liberty Ave.	Nov. 22, 1922	MEA-3
Boyd Ave.—West End	Liberty Ave.	Nov. 22, 1922	MEA-3
Rockaway Blvd.—West End	Liberty Ave.	Nov. 22, 1922	MEA-3
Oxford Ave.—West End	Liberty Ave.	Nov. 22, 1922	MEA-3
Greenwood Ave.—West End	Liberty Ave.	Nov. 22, 1922	MEA-3
Lefferts Ave.—West End	Liberty Ave.	Nov. 22, 1922	MEA-3

; and

Whereas, By communication dated December 29, 1922 the Receiver of New York Municipal Railway Corporation has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated December 29, 1922, directed to the Perey Machine Works for the following:

9 Units Each Consisting of following:

1. Coin box complete, 12" x 12" x 3'-3 $\frac{3}{4}$ ", with automatic coin release, coin return and counting register. Each box to be equipped with money drawer and lock, money drawer to have shutter with automatic locking device and lock. One extra or spare money drawer to be furnished with each box, drawer in each case to be accessible from the rear.
2. Cast iron box to be set into cast iron shock absorbing base; box to be equipped with compression spring plunger, solenoid release, ratchet and pawl, and cast iron base for vertical post of turnstile, assembled complete, ready for installation of the turnstile.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 339"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated February 10, 1923 reported that such material is necessary for the installation of said turnstiles so approved; that the cost is reasonable; that no other bids were received for the reason that the company has made all such apparatus for the said Receiver and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Assistant Chief Accountant have by communication dated March 7, 1923 recommended the approval of said proposed purchasing agent's order in accordance with the work order numbers heretofore assigned as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved, that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is authorized and directed to execute the form of approval of this Commission made pursuant to said proposed purchasing agent's order.

366—R. T. 7631

Route No. 12, Section No. 1—Report by Chief Engineer Recommending that Changes in Sump and Pump Chamber at Pacific Street and Flatbush Avenue Be Done under Future "Odds and Ends" Contract—Approved

A report was presented from the Chief Engineer dated March 17, 1923, recommending that the work shown on Drawing No. S-1945 for enlarging the sump and pump chamber at Pacific Street and Flatbush Avenue, Route No. 12, Section No. 1, be done as a construction item under a future "odds and ends" contract.

On motion, duly seconded and adopted, the recommendation was approved.

367—R. T. 7354

Contract No. 3—Stipulation Extending Time to March 31, 1923, for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1921—Approved

A stipulation dated February 28, 1923, between the Transit Commission and the Interborough Rapid Transit Company extending the time to and including March 31, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1921, provided for in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3, was approved.

368—R. T. 7354

Contract No. 3—Stipulation Extending Time to March 31, 1923, for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1922—Approved

A stipulation dated February 28, 1923, between the Transit Commission and the Interborough Rapid Transit Company extending the time to and including March 31, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1922, provided for in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3, was approved.

369—R. T. 7235

Elevated Extension Certificate—Stipulation Extending Time to March 31, 1923, for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1921—Approved

A stipulation dated February 28, 1923, between the Transit Commission and the Interborough Rapid Transit Company, extending the time to and including March 31, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1921, provided for in Subdivision 5 of Article XII of the Extension Certificate of the Interborough Rapid Transit Company, was approved.

370—R. T. 7235

Elevated Extension Certificate—Stipulation Extending Time to March 31, 1923, for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1922—Approved

A stipulation dated February 28, 1923, between the Transit Commission and the Interborough Rapid Transit Company extending the time to and including March 31,

1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1922, provided for in Subdivision 5 of Article XII of the Extension Certificate of the Interborough Rapid Transit Company, was approved.

371—Case 2678

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which Ziegler Avenue Shall Be Carried Across the Tracks of the Flushing and North Side Division of Railroad, in the Borough of Queens—Hearing Resolution Adopted

The Secretary presented a resolution, adopted by the Board of Estimate and Apportionment on March 9, 1923, requesting a determination by the Commission as to the manner in which Ziegler Avenue, in the Borough of Queens, should be carried across the tracks of the Flushing & North Side Division of the railroad, and renewing the application made to the Commission in Case No. 1826, for a similar determination. The Secretary also presented a map transmitted with said resolution.

Thereupon the Commission adopted and ordered filed a resolution in Case No. 2678, directing a hearing on a date to be fixed by the Secretary, and authorizing and designating James B. Walker, Secretary to the Commission, to conduct said hearing, to take the testimony therein and report same to the Commission with his opinion thereon for its decision and determination.

372—Case 2677

Sixth Avenue Railroad Company—Application for Approval of Declaration of Abandonment of a Portion of Railroad in Lenox Avenue between 110th and 116th Streets, Manhattan—Hearing Order

The Secretary presented a petition, dated and verified March 5, 1923, of the Sixth Avenue Railroad Company by E. H. Garrison, Secretary, asking for the approval of a declaration of abandonment of a portion of the company's railroad and franchises in Lenox Avenue between 110th and 116th Streets, Borough of Manhattan, together with a copy of said declaration of abandonment.

Thereupon the Commission adopted an Order in Case No. 2677, directing a hearing on April 4, 1923 at 10:30 a. m., with respect to the matter and authorizing and designating James B. Walker, Secretary to the Commission, to conduct said hearing, to take the testimony therein and report same to the Commission with his opinion thereon for its decision and determination.

373

The Long Island Railroad Company—Proposed Conference on Improved Protection of Grade Crossings—Letter of Chairman to Company—Company's Reply—Papers Ordered Filed

The Secretary presented a copy of a communication, dated March 8, 1923, signed by the Chairman of the Commission and directed to The Long Island Railroad Company, reading as follows:

March 20, 1923]

284

March 8, 1923.

Mr. RALPH PETERS, President,
LONG ISLAND RAILROAD COMPANY,
Pennsylvania Station,
New York City.

Dear Sir:

Recent accidents at grade crossings of railroads in this city, some of which have occurred on the lines of the Long Island Railroad, have again called attention to the dangers incidental to the fast and frequent operation of trains crossing vehicular highways at grade. The Transit Commission and its predecessors have given much study to this subject. The engineers of the Commission at the present moment are examining exhaustively the possibilities of more comprehensive protection of grade crossings through the installation of automatic safety devices.

The Commission recognizes that the dangers attending trunk line operation within the city limits can be absolutely eliminated only by the separation of the grade of the railroad from the grade of the highways. There are, however, about 400 grade crossings within the city and the complete elimination of all these would cost, according to present estimates, upward of \$200,000,000. While the law provides that the cost of elimination shall be divided between the railroad company, the state and the city in the proportion of one-half by the company and one-quarter each by the state and the city, the total cost would be so great as to make it absolutely impossible to undertake anything like a general elimination at one time.

The Commission and its predecessors have accordingly, during the last fifteen years, undertaken elimination first of the most dangerous grade crossings, and changes in existing structures, in accordance with the current ability of the railroads, the state and the city to provide the necessary funds. Within the limitation of available appropriations 14 grade crossings and one foot subway have been eliminated on the lines of the Long Island Railroad, and 5 grade crossings on the Staten Island Railway lines, as well as one additional change made in the existing structure of the New York Central Railroad. The total cost of these eliminations has been nearly \$2,000,000, exclusive of additions and betterments borne entirely by the railroad companies. Work is now under way or ordered for the elimination of 11 more crossings on the Long Island Railroad; 6 crossings and one change in existing structure on Staten Island, and 2 changes in existing structures on the New York Central, to cost in all about \$4,800,000. The state's quota toward this prospective expense has already been appropriated, although the expenditure in question will practically exhaust the existing state appropriation. For its share in further work, the Legislature must be called upon for additional funds.

When the total number of grade crossings is considered, however, it will readily appear that a beginning only has been made. Pending further eliminations the Commission and its predecessors have therefore ordered the installation of protective devices, including gates, flagmen and bells at all crossings where the highway travel is sufficiently heavy to demand protection. In addition, the state has provided by law for the erection and maintenance of approach warning signs upon the highways on either side of such crossings and imposed on drivers of vehicles the duty of slowing up when the crossing has been made.

The Commission in all its efforts to provide protection has had the support and cooperation of the railroad companies, who have also contributed freely of their funds and the time of their officers in conducting safety campaigns seeking to educate the public as well as their own employes as to the necessity of exercising greatest caution at these points of danger.

It is gratifying to note that the various measures from time to time taken have been effective in reducing materially the number of fatal accidents. The records of the Commission show a progressive improvement during the past ten years. In the year 1912 there were 7 persons killed in grade crossing accidents on the Long Island Railroad. In the year 1922 only three such fatalities occurred, notwithstanding the constant increase in the amount of traffic carried and in the number of trains operated. In 1912 the Long Island Road carried 37,000,000 passengers, and in 1922, 79,600,000. In short, while the traffic has more than doubled, the fatalities at grade crossings have been cut down by more than fifty per cent.

Good as this record is, however, we do not doubt that your company will recognize that it is not sufficient so long as there are further measures of improvement, mechanical or otherwise, that can be developed. The Commission aims to wipe out accidents of this character entirely if it is humanly possible to do so. In this effort we will be glad to

[March 20, 1923]

have your continued co-operation. Recent accidents, largely due to the failure of the human element, have brought sharply into view the need of providing either automatic control signals or other protective devices at the dangerous crossings, in addition to existing equipment. In connection with the inquiry its engineers are at present making, the Commission would be glad to have your company appoint an engineering representative, or more than one if you see fit, to confer with its own force in examining available appliances and in devising further improvements in the general plan of grade crossing protection that such a conference may develop.

We shall be glad to have your representative, when assigned, take the matter up directly with Mr. Latey, our Engineer of Equipment and Operation.

Very sincerely yours,
GEORGE McANENY,
Chairman.

The Secretary also presented a communication, dated March 19, 1923, from G. Le Boutillier, Vice-President of the Company, reading as follows:

Mr. GEORGE McANENY, Chairman.

TRANSIT COMMISSION,
49 Lafayette street, N. Y.

My dear Sir:

Your very comprehensive letter of March 8th to Mr. Peters in regard to the protection of grade crossings within the City of New York has been received.

In Mr. Peters' absence, I wish to say that The Long Island Railroad Company will gladly cooperate with the Transit Commission in any plans that may be developed at the conference you propose.

We will assign Mr. Louis Viellard, Electrical Inspector in our Maintenance of Way Department to confer with Mr. Latey, your Engineer of Equipment and Operation. Mr. Viellard will immediately arrange for an appointment.

Yours very truly,
G. LE BOUTILLIER,
Vice-President.

Thereupon the above mentioned papers were ordered filed and the matter was referred to the Engineer of Equipment and Operation to arrange a conference as suggested in Mr. Le Boutillier's letter.

374—R. T. 7592

Route No. 11-B, Section No. 3—Communication from Board of Estimate and Apportionment Referring Back Proposed Contract with T. A. Gillespie Company for the Reason of Withdrawal of Bid by Contractor—Filed

The following communication from the Board of Estimate and Apportionment was ordered filed:

(Cal. No. 67)

March 16, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

At the meeting of the Board of Estimate and Apportionment on March 16, 1923, your communication dated December 27, 1922, submitting for the consent of the Board, proposed contract with the T. A. Gillespie Co., lowest of eight bidders for the construction of Route No. 11-B, Section No. 3, of the Fourth Avenue Subway, Brooklyn, and requesting an issue of corporate stock for the purpose of meeting the City's obligations under said proposed contract, was referred back to you for the reason that the contractor has withdrawn his bid.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

375—R. T. 7603

Route No. 52, Section No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Oakdale Contracting Company, Inc., and Authorizing Appropriation of \$1,635,950.75—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 9, 1923, was ordered filed:

(Cal. No. 221-A)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated October 31, 1922, the Board of Estimate and Apportionment does hereby consent to the contract with the Oakdale Contracting Co., Inc., for the construction of a part of a rapid transit railroad, Flushing Route, Route No. 52, Section 3 (Amity street), at an estimated cost of one million six hundred and thirty-five thousand nine hundred and fifty dollars and seventy-five cents (\$1,635,950.75); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one million six hundred and thirty-five thousand and nine hundred and fifty dollars and seventy-five cents (\$1,635,950.75); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission; dated October 31, 1922, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one million six hundred and thirty-five thousand nine hundred and fifty dollars and seventy-five cents (\$1,635,950.75), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said appropriation of one million six hundred and thirty-five thousand and nine hundred and fifty dollars and seventy-five cents (\$1,635,950.75) of corporate stock to be in addition to all appropriations heretofore made by the Board of Estimate and Apportionment for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 9, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated March 19, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

376—R. T. 7600

Route No. 52, Section No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Gustin-Morris Contracting Corporation for Construction of Column Foundations and Authorizing Appropriation of \$91,612.50—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 9, 1923, was ordered filed:

(Cal. No. 221-B)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 14, 1922, the Board of Estimate and Apportionment does hereby consent to the contract with Gustin-Morris Contracting Corporation for the construction of foundations, Route 52, Section 1, Flushing Route, at an estimated cost

of ninety-one thousand six hundred and twelve dollars and fifty cents (\$91,612.50); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be ninety-one thousand six hundred and twelve dollars and fifty cents (\$91,612.50); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter and the requisition of the Transit Commission, dated November 14, 1922, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding ninety-one thousand six hundred and twelve dollars and fifty cents (\$91,612.50), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said appropriation of ninety-one thousand six hundred and twelve dollars and fifty cents (\$91,612.50) of corporate stock to be in addition to all appropriations heretofore made by the Board of Estimate and Apportionment for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 9, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated March 19, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

377—R. T. 6658

Routes Nos. 4 & 38, Section No. 6—Certified Copy of Resolution of Board of Estimate Authorizing Appropriation of \$37.50 as City's Share for Construction of Platform Extension of Northerly End of Express Platform of Pennsylvania Station—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 9, 1923, was ordered filed:

(Cal. No. 22)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated January 31, 1922, the Board of Estimate and Apportionment does hereby consent to an agreement with the Interborough Rapid Transit Company, as lessee, for the construction of platform extensions at the northerly end of the express platform of the Pennsylvania Station of the 7th Avenue Branch of the 7th Avenue-Lexington Avenue Line, as addition to construction, under Contract No. 3, at an estimated cost to The City of New York of thirty-seven dollars and fifty cents (\$37.50), being one-half of the total estimated cost of seventy-five dollars (\$75); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be thirty-seven dollars and fifty cents (\$37.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding thirty-seven dollars and fifty cents (\$37.50), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said agreement; said issue of corporate stock to be charged as a sub-authorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 9, 1923.

JAMES MATTHEWS,
Assistant Secretary.

378

Equipment—Certified Copy of Resolution of Commissioners of the Sinking Fund Assigning to Department of Water Supply, Gas and Electricity Certain Property Turned Over by This Commission—Filed

The following extract from the resolution adopted by the Commissioners of the Sinking Fund on March 15, 1923, was ordered filed:

Resolved, That, pursuant to the provisions of section 205 of the Greater New York Charter, as amended, the Commissioners of the Sinking Fund hereby assign the following described property turned over to it by certain departments and offices as no longer required by them:

From Transit Commission to Department of Water Supply, Gas and Electricity—Two (2) oak flat-top desks; five (5) oak roll-top desks; three (3) flat-top oak desks; one (1) oak table; four (4) swivel chairs; four (4) stenographer's chairs; four (4) straight-back chairs; two (2) field note file cases; one (1) atlas desk; one (1) atlas cabinet.

379

Fees Received during February, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of February, 1923, fees, etc., to the amount of \$156.71 and refunds of rental from rapid transit real estate to the amount of \$4,398 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$156.71 to be accredited to the General Fund of The City of New York, and the sum of \$4,398 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

380

Employees' Resolution No. 133

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Fred Adinolfi, architectural draftsman, at \$150.08 per month, to take effect March 19, 1923; Mervil V. Broadbent, engineering inspector, at \$150.08 per month, to take effect March 22, 1923; James O'Connor, engineering inspector, at \$150.08 per month, to take effect March 16, 1923; Edward J. Politoske, junior assistant, at \$125.08 per month, to take effect March 19, 1923; Joseph Reilly, engineering inspector, \$150.08 per month, to take effect March 27, 1923; John A. Sheehan, engineering inspector, at \$150.08 per month, to take effect March 26, 1923; John R. J. Sheil, engineering inspector, at \$150.08 per month, to take effect March 26, 1923; Matthew N. Wallich, engineering inspector, at \$150.08 per month, to take effect March 27, 1923.

Reinstatement under Rule XVI:1—William R. Barry, junior engineer, at \$180.00 per month, to take effect March 21, 1923; Clemens F. Holm, junior engineer, at \$180.00 per month, to take effect March 21, 1923; John Horn, engineering inspector, at \$175.00 per month, to take effect March 16, 1923; Harry R. Loring, junior engineer, at \$180.00 per month, to take effect March 21, 1923; Frank A. Nagorski, junior engineer, at \$180.00 per month, to take effect March 21, 1923; Martin Nelson, junior assistant, at \$152.50 per month, to take effect March 21, 1923; Louis C. White, junior engineer, at \$180.00 per month, to take effect March 21, 1923; John C. White, junior engineer, at \$180.00 per month, to take effect March 21, 1923.

Resignations—Louis W. Krummel, junior assistant, at \$125.08 per month, to take effect March 15, 1923; John Lvons, junior assistant, at \$125.08 per month, to take effect March 6, 1923; James O'Connor, watchman, at \$3.00 per diem, to take effect March 15, 1923; Benjamin Rabinowitz, draftsman, at \$150.08 per month, to take effect

March 20, 1923; Joseph Reilly, engineering inspector, at \$125.00 per month, to take effect March 26, 1923; Samuel Strumer, draftsman, at \$150.08 per month, to take effect March 22, 1923; Matthew N. Wallich, junior assistant, at \$137.50 per month, to take effect March 26, 1923.

Termination of Appointment under Rule VIII:4—Elliot S. Manion, junior assistant, at \$125.08 per month, to take effect February 16, 1923.

Transferred to Board of Estimate and Apportionment—William R. Barry, junior engineer, at \$180.08 per month, to take effect March 22, 1923; Clemens F. Holm, junior engineer, at \$180.00 per month, to take effect March 22, 1923; Harry R. Loring, junior engineer, at \$180.08 per month, to take effect March 22, 1923; Frank A. Nagorski, junior engineer, at \$180.00 per month, to take effect March 22, 1923; Martin Nelson, junior assistant, at \$152.50 per month, to take effect March 22, 1923; Louis C. White, junior engineer, at \$180.00 per month, to take effect March 22, 1923; John C. White, junior engineer, at \$180.00 per month, to take effect March 22, 1923.

Leave of Absence without Pay—Winifred Anderson, clerk, from March 24, 1923, to April 6, 1923; C. R. McConkey, junior engineer, from March 5, 1923, to April 4, 1923; and be it further

Resolved, That, in view of the unusual conditions which have prevailed during the period from January 1, 1923 to March 15, 1923, as to absences because of influenza, grippe, colds and kindred ailments, that the rules as to leaves of absences be, and hereby are, suspended for that period, and all absences occurring therein shall be allowed with pay, with the exception of those which have been or are made a subject of special action by the Commission.

381

Voucher Schedule No. 12

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:
Vouchers Nos. 274-295, open market orders \$5,074.70; Vouchers Nos. 140-166, miscellaneous bills, \$2,530.22.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 73, Alfred R. Sax Lumber Co., approximate estimate No. 6 for the supply of ties and timber, Order No. 7 for rapid transit railroads, from January 16, 1923 to February 28, 1923 (R. T. 7496) \$10,452.05;

Voucher No. 74, B. T. & J. J. Mack, Inc.; approximate estimate No. 1 for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Rapid Transit Railroad, from February 20, 1923 to March 15, 1923 (R. T. 7587) \$2,804.64;

Voucher No. 75, Charles H. Brown & Son Corporation, Assignee, approximate estimate No. 13 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from February 16, 1923 to March 15, 1923 (R. T. 7639) \$4,815.18;

Voucher No. 76; Jacob Schlesinger, Inc.; approximate estimate No. 8 for the construction of a second addition to shops at Lenox Avenue and 148th Street Yard, under Contract No. 3 from February 16, 1923 to March 15, 1923 (R. T. 7368) \$3,156.94.

382

Hearing

The following hearing was held:

3:15 P. M., R. T. 7605, Location of stairways and entrances on north side of 42nd Street between Fifth and Sixth Avenues, Queensboro Subway Extension. Commissioner Harkness presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, March 21, 1923

383

Hearing

T. C. Investigation No. 1

2:30 P. M.: Examination under Order of November 1, 1921, into general condition of all railroads, street railroads, stage or omnibus lines or routes and all persons and corporations within its jurisdiction. (Valuation—Richmond Light & Railroad Company.) James B. Walker, Secretary, presided. Hearings closed.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, March 23, 1923

384

Hearing

The following hearing was held:

2:30 P. M.; Case No. 2674; Brooklyn Eastern District Terminal; application for approval of proceedings to condemn real property located at No. 80 Kent Avenue, Brooklyn. George O. Redington, Counsel, presided. Adjourned subject to call.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, March 26, 1923

385

Hearing

The following hearing was held:

11:30 A. M. R. T. 7651. Draft form of contract for construction of Broad and Nassau Streets Route No. 45. Commissioners Harkness and O'Ryan presided. Hearing closed.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, March 27, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

386—R. T. 7638

Order No. 22—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest of Bidders for Supply of Special Work and Track Fittings—Adopted

The following resolution was adopted:

Resolved, That upon receipt of the report by the Chief Engineer as to the bids received on March 15, 1923, for the supply of Special Work and Track Fittings, Order No. 22, for use in various parts of the dual system of rapid transit railroads, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of \$2,000 deposited with their bids.

387—R. T. 7600

Route No. 52, Section No. 1—Resolution Approving Sureties upon Bond of \$8,000 Deposited by Contractor as Security for Construction of Column Foundations—Adopted

The following resolution was adopted:

Resolved, That the Fidelity & Deposit Company of Maryland, and the United States Fidelity & Guaranty Company be and hereby are approved as sureties upon the bond in the sum of Eight thousand (\$8,000) Dollars deposited by Gustin-Morris Contracting Corporation as security for the faithful performance of the contract for the construction of column foundations for Section No. 1 of Route No. 52 of the Flushing Line, each of said sureties being held and bound in the sum of Four thousand (\$4,000) Dollars.

388—R. T. 7635

Agreement "CE"—Resolution Approving Sureties upon Bond in Sum of \$4,000 Deposited by Contractor for Making Alterations so as to Permit Widening of Certain Streets in the Borough of Manhattan—Adopted

The following resolution was adopted:

Resolved, That the Commercial Casualty Insurance Company and the Fidelity and Deposit Company of Maryland be and hereby are approved as sureties upon the bond in the sum of Four thousand dollars (\$4,000) deposited by Benedetto & Saussez as security for the faithful performance of the contract for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad at various locations so as to permit the widening of certain streets in the Borough of Manhattan, Agreement "CE," each of said sureties being held and bound in the sum of Two thousand dollars (\$2,000).

389—R. T. 7590

Contract No. 3—Resolution Approving Sureties upon Bond in Sum of \$25,000 Deposited by Contractor for Furnishing and Erecting Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Adopted

The following resolution was adopted:

Resolved, That R. B. Mellon, H. H. McClintic and C. D. Marshall be and hereby are approved as sureties upon the bond in the sum of Twenty-five thousand (\$25,000) dollars, deposited by McClintic-Marshall Company as security for the faithful performance of the contract for furnishing and erecting structural steel for the third

addition to shops at the Lenox Avenue and 148th Street Yard, each of said sureties to be so held and bound only for a portion of said sum as follows:

H. B. Mellon.....	\$8,000
H. H. McClintic.....	8,000
C. D. Marshall.....	9,000

390—R. T. 7636

Route No. 16, Section No. 2—Form of Contract, Specifications, Invitation to Contractors, etc., for Inspection Shed and Service Buildings at Jerome Avenue Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings for the construction of inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16.

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings for the construction of inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16, be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including March 30, 1923 to and including April 13, 1923 and on April 2, 1923 and April 9, 1923 in The New York Times and The Globe, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 13th day of April, 1923 at eleven-thirty (11:30) o'clock a. m., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

391—R. T. 7503

Order No. 6—Certificate by Chief Engineer of Completion of Contract for Supply of Treated Ties—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

March 22, 1923.

TO: THE TRANSIT COMMISSION.

Certificate of Completion—Contract for Supply of Treated Ties. Order No. 6.

In connection with the contract dated May 11, 1922, between the City of New York and Eppinger & Russell for the supply of treated ties, Order No. 6, I hereby certify that final delivery of material was completed on February 23, 1923, to which date the contract time was extended by resolution of the Commission on March 6, 1923. The total cost of this contract was \$18,912.22.

Recommendation: That the material be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, Pursuant to the contract dated May 11, 1922, between The City of New York, acting by the Transit Commission and Eppinger & Russell for the supply of treated ties (Order No. 6) for use in the installation of tracks in municipal rapid transit railroads the time for completion of deliveries was extended to and including February 23, 1923, by resolution of the Transit Commission adopted on March 6, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated March 22, 1923, has reported that all the material required under said contract was completely delivered on or before February 23, 1923; that the total amount due therefor was \$18,912.22 and recommends that the material so delivered be accepted and that a certificate of such final delivery and acceptance be prepared and transmitted to the Comptroller of The City of New York.

Resolved, That said report and recommendation be and the same hereby are approved; that the material so delivered be and the same hereby is accepted and that a certificate of such final delivery and acceptance be prepared and transmitted to the Comptroller of The City of New York.

392—R. T. 7470

Order No. 20—Report by Chief Engineer Recommending Approval of Lump Sum Price for Changes in Special Work—Approval Resolution

A report was presented from the Chief Engineer dated March 21, 1923, recommending the establishment of a supplementary schedule item, as described below. The following resolution was adopted:

Whereas, The Chief Engineer in accordance with Article XVI of the contract dated June 5, 1922 between the City of New York, acting by the Transit Commission, and the Bethlehem Steel Products Company, Contractors for the supply of special work, Order No. 20, having subject to the approval of the Commission agreed with Bethlehem Steel Products Company upon the following supplementary schedule item:

Item 1-X. For extra work and materials on account of changes in Special Work Portions 248 and 249 as indicated on Contract Drawings 47 and 48, including delivery at the Fordham Freight Station, Harlem Division of the New York Central Railway, in a lump sum of \$1,483,

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

393—R. T. 6307

Route No. 45, Section No. 1—Report by Chief Engineer as to Receipt of Bids for Making Surveys of Properties at Nos. 51, 86, 86-A and 88 Nassau Street and No. 122 Fulton Street, Borough of Manhattan, and Recommendation for Acceptance of Bid of Lawyers' Title & Trust Company—Approved

A report was presented from the Chief Engineer dated March 21, 1923, as to bids received on March 14, 1923, from the Lawyers' Title & Trust Company in the sum of \$220.00 and from the Title Guarantee & Trust Company in the sum of \$280.00 for making surveys for the properties to be acquired at Nos. 51, 86, 86-A and 88 Nassau Street and No. 122 Fulton Street, Borough of Manhattan, necessary for working shafts, adequate entrance facilities and ventilation for the proposed Nassau Street Line, and recommending acceptance of the bid of Lawyers' Title & Trust Company.

Upon motion, duly seconded and adopted, the report was approved.

394—R. T. 6892

Route No. 8, Section No. 2—Resolution Rescinding Contract Voucher No. 57—Adopted

The following resolution was adopted:

Resolved, That contract voucher No. 57, dated March 6, 1923, in the sum of \$63,318.93, in favor of Patrick McGovern, Inc., assignee, for the performance of work in the construction of the completion of that portion of the 14th Street Eastern Rapid Transit Railroad, known as Section No. 2 of Route No. 8, be and the same hereby is in all respects revoked and rescinded, said voucher hereby revoked and rescinded having been superseded by contract voucher No. 77, approved by the Commission by resolution adopted of even date herewith.

395—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Third Rail Insulators for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated March 10, 1923, requesting approval of a proposed purchasing agent's order directed to the Ohio Brass Company for 4,000 third rail insulators as part of the Equipment necessary for the Fourteenth Street-Eastern Line at a cost of \$3,840.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 20, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the work be classified as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, Lindley M. Garrison as Receiver of said New York Municipal Railway Corporation has by communication dated March 10, 1923 requested the approval of this Commission to the issuance of a purchasing agent's order dated March 8, 1923 directed to the Ohio Brass Company for the following:

- 2,000 Third Rail Insulators, Dwg. A-64 furnished.....95c. each
 - 2,000 Third Rail Insulators, Dwg. A-1071 furnished.....97c. each
- F O B 40th St. Station,
South Brooklyn Railway.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 342"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer have by communication dated March 20, 1923 reported that such material forms part of Equipment necessary for initial operation of the Fourteenth Street-Eastern Line of the Railroad described in said Contract No. 4; that the following bids were received for such work:

Ohio Brass Co.....	\$3,840.00
Shield Electric Co.....	4,280.00

that the prices are the best obtainable and are reasonable; that the quantity of material to be purchased is proper and recommend the approval of said proposed purchasing agent's order: and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated March 22, 1923 has recommended the classification of said material as Equipment of the Railroad.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval made part of said proposed purchasing agent's order.

Hudson and Manhattan Railroad Company—Communication from Counsel Submitting Proposed Agreement for Readjustment of Rentals—Approval Resolution

A communication was presented from Counsel dated March 27, 1923, submitting a proposed agreement with the Hudson and Manhattan Railroad Company for the readjustment of rentals under the certificate dated February 12, 1905, for extensions in the Borough of Manhattan.

The following resolution was adopted:

Whereas, The certificate dated February 2, 1905 granted by the predecessor of this Commission to the predecessor of Hudson and Manhattan Railroad Company for the construction and operation of a certain rapid transit railroad extension under and along Sixth Avenue between Christopher Street and 33rd Street in the Borough of Manhattan, requires in Subdivision 3, Clause IV thereof, for the readjustment of the annual rental payable by the grantee thereunder and as more particularly set forth therein, the estimated amount of gross earnings to be determined by an agreement in writing between the parties; and

Whereas, This Commission and the Hudson and Manhattan Railroad Company have agreed with respect to the annual gross earnings for the period during which the adjusted rental shall be applicable and have set forth their agreement in writing which proposed agreement has been the subject of public hearings and upon which Commissioner O'Ryan has rendered an opinion dated February 28, 1923 and which is now submitted by Counsel with the recommendation that it be approved, executed and delivered,

Resolved, That said proposed agreement so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized and directed to execute and deliver said agreement for and on behalf of this Commission.

397—R. T. 6597

Elevated Extension Certificate—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Turnstile Track Relays—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 2, 1923, requesting approval of a proposed purchasing agent's order directed to Westinghouse Electric & Manufacturing Company for furnishing 73 turnstile track relays for installation of automatic turnstiles at stations of existing Manhattan railroads at a cost of \$60 each.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 26, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By resolution adopted July 6, 1922 this Commission approved, pursuant to the provisions of the certificate dated March 19, 1913 granted to Interborough Rapid Transit Company for certain Extensions to the Existing Elevated Railroads, known as the Webster Avenue, Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and the West Farms Subway Connection, the installation of automatic prepayment turnstiles (of a character and design similar to the turnstiles installed in the subway portion of the lines of the Interborough Rapid Transit Company with the approval of this Commission) upon the stations of said Extensions, and by said resolution classified such work as Additions to the Railroads, as defined in said Elevated Extension Certificate, and to which work this Commission, in and by said resolution, assigned Work Order No. IEA-1; and

Whereas, Pursuant to said Elevated Extension Certificate aforesaid and to the provisions of a stipulation between The City of New York and said Interborough Rapid Transit Company dated March 9, 1923 with respect to the proper interpretation and meaning of the provisions of said Extension Certificate in particular relation to betterments, improvements or additions to the Existing Manhattan Railroads, this Commission by resolution adopted March 13, 1923 approved of the installation of such automatic prepayment turnstiles upon stations of the Existing Manhattan Railroads and in and by said resolution classified such work as Additions to the Existing Manhattan Railroads and to which work this Commission, in and by said resolution, assigned Work Order No. IMA-1; and

Whereas, Pursuant to said authorizations contained in said resolutions said Interborough Rapid Transit Company has requested the approval of this Commission to the

issuance of a proposed purchasing agent's order dated March 2, 1923 directed to Westinghouse Electric and Manufacturing Company for the following:

73 Turnstile track relays, Westinghouse Electric and Manufacturing Company's type 389-T complete with box but without wiring.

Price: \$60.00 each.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 468"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated March 26, 1923 reported with respect to said proposed purchasing agent's order and for the reasons more particularly set forth in said communication have recommended the approval of said proposed purchasing agent's order,

Resolved, That said report and recommendation be and the same hereby are approved; that pursuant to said resolutions of July 6, 1922 and March 13, 1923 the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

398—Case 2628

New York Consolidated Railroad Company, New York Municipal Railway Corporation, Lindley M. Garrison, Receiver—Service and Equipment—New Schedules Effective April 1, 1923, Showing Changes in Service on Broadway Elevated Line and Lexington Avenue Elevated Line—Approval Order Adopted

The Secretary presented a communication, dated March 22, 1923, from W. S. Menden, General Manager for Lindley M. Garrison, Receiver of New York Consolidated Railroad Company and New York Municipal Railway Corporation, transmitting for approval pursuant to the Order in Case No. 2628, new schedules effective April 1, 1923, showing changes in service on the Broadway Elevated Line and the Lexington Avenue Elevated Line.

The Secretary also presented a report, dated March 27, 1923, by the Chief of the Transit Bureau, recommending the approval of said schedules.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2628, approving the above mentioned schedules effective as of April 1, 1923.

399—Case 2664

Richmond Light & Railroad Company—Application for Consent to Issuance of Mortgage, \$1,700,000 Bonds, 20,000 Shares of Capital Stock, etc.—Amended Opinion by Commissioner O'Ryan—Approval Order Adopted

The Secretary presented an opinion in Case No. 2664, by Commissioner O'Ryan, amending his opinion therein adopted February 7, 1923, with respect to the application of the Richmond Light & Railroad Company to mortgage and transfer of property to Richmond Railways, Inc.

Thereupon the Commission approved and ordered filed the above mentioned amended opinion in Case No. 2664.

The Commission thereupon adopted and ordered filed an Order in Case No. 2664, in the following form:

[March 27, 1923

At a meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 27th day of March, 1923.

Present:
 GEORGE McANENY,
 Chairman, }
 LE ROY T. HARKNESS, } COMMISSIONERS

IN THE MATTER
 of the

Application of the Richmond Light & Railroad Company and of Richmond Railways, Inc., under Sections 54 and 55 of the Public Service Commission Law for consent to transfer certain street surface railroad property now owned by the former from it to the latter in consideration for stock and bonds of the latter to be issued to the former and for consent to Richmond Railways, Inc., to issue \$2,000,000. in its 6%, 30 year mortgage bonds and 20,000 shares of stock of no par value.

Case No. 2664

ORDER APPROVING MORTGAGE
 AND TRANSFER OF PROPERTY
 TO RICHMOND RAILWAYS,
 INC.

Application having been made to the Transit Commission by Richmond Light and Railroad Company by petition filed December 1, 1922 for the approval by the Commission of the transfer by Richmond Light and Railroad Company to Richmond Railways, Inc. of all its electric railroad lines and their appurtenances as described in said petition, and for the consent of the Commission to receive in consideration thereof the 30 year mortgage bonds and 20,000 shares of capital stock, without nominal or par value of said Richmond Railways, Inc., and for consent to Richmond Railways, Inc., to make and execute a mortgage and issue same stock and bonds in consideration of the acquisition of said railroad property.

And said Richmond Light and Railroad Company having, by letter dated December 12, 1922, amended said petition so as to include in the prayer thereof authority for Richmond Railways, Inc., to assume payment of the Equipment Trust Certificates outstanding under Car Trust made with the Bankers Trust Company of New York, Trustee, by the Staten Island Midland Railway Company, and assumed by Richmond Light and Railroad Company in December, 1919 to the amount of \$34,000 face value.

And Richmond Light and Railroad Company and Richmond Railways, Inc. having thereafter filed with the Commission their supplemental petition verified the 28th day of December, 1922 whereby it appears that Richmond Railways, Inc. was duly incorporated, and that its Certificate of Incorporation was filed in the office of the Secretary of State of the State of New York on December 20, 1922, and that proof of publication of said Certificate of Incorporation once a week for three successive weeks in one or more newspapers in the County of Richmond, as required by Section 9 of the Railroad Law, will be filed with this Commission, and said Richmond Railways, Inc. having by said supplemental petition joined in the application of Richmond Light and Railroad Company to this Commission for the relief therein specified.

And this Commission having, on the 7th day of December, 1922, made an order directing a public hearing upon the application of the Richmond Light and Railroad Company herein, such hearing having been duly held on the 13th day of December, 1922, and due deliberation having been had,

And the proposed mortgage referred to in said petition having been submitted to this Commission for its approval in a proof dated February 10, 1923, and the same having been revised and corrected by certain additions and alterations as of March 19, 1923,

It is Ordered

1. That the Transit Commission, pursuant to Section 54 of the Public Service Commission Law, hereby approves the transfer by Richmond Light and Railroad Company to Richmond Railways, Inc. of all its franchises and rights to or under its franchises to own or operate a railroad or street railroad.

2. Further Ordered that the Transit Commission does hereby consent to the issuance and execution by Richmond Railways, Inc., of a certain mortgage described as

follows: A mortgage executed by said Richmond Railways, Inc. to Irving Bank-Columbia Trust Company to secure an issue of bonds to be known generally as General Mortgage Gold Bonds of said Richmond Railways, Inc., unlimited in aggregate principal amount, to be issued in series, the bonds of each series to mature on such date and to bear such rate of interest and to contain such specifications and provisions as may be determined by the Board of Directors of Richmond Railways, Inc. and as provided or permitted in said mortgage and also to secure the performance of all the terms and conditions of such mortgage; and the form of such mortgage submitted by said Richmond Railways, Inc. is hereby approved and ordered filed and identified by a reference thereon to the resolution of this Commission under authority of which this order is made; Provided, However, that Richmond Railways, Inc. shall have no right, permission or authority to issue bonds under said mortgage or pursuant to the terms thereof, except as are herein or hereafter may be specifically authorized by this Commission.

And it appearing after hearing and other inquiry and investigation by the Commission, and it being the opinion of the Commission (1) that the issue of \$1,700,000 par value of bonds and of 20,000 shares of non par value capital stock are necessary to and reasonably required for the acquisition of said railroad property, appurtenances and franchises of the Richmond Light and Railroad Company and (2) that said purposes are not in whole or in part reasonably chargeable to operating expenses or to income, it is

3. Further Ordered that the Transit Commission, pursuant to Section 55 of the Public Service Commission Law, does hereby authorize and approve the issue by Richmond Railways, Inc., of \$1,700,000 face value of principal bonds of said company dated January 1, 1923, maturing January 1, 1953, with such interest therein not exceeding 6% per annum as shall or may be earned by Richmond Railways, Inc. payable as, if and when earned and duly declared by resolution of the Board of Directors of Richmond Railways, Inc. to be applicable to the payment of interest on such bonds; and said issue of \$1,700,000 par value of bonds shall be further subject to the provisions contained in Article IV, Section 2 of said mortgage between Richmond Railways, Inc. and Irving Bank-Columbia Trust Company aforesaid. And it is further ordered that the Transit Commission does hereby authorize the issue of said Richmond Railways, Inc. of 20,000 shares of stock of said company without nominal or par value.

4. Ordered that said issue of bonds and stock of said Richmond Railways, Inc. is authorized upon the terms, provisions and conditions following, and not otherwise, to wit:

(a) that said Richmond Railways, Inc., shall apply the said bonds to the amount of \$1,700,000 face value and said stock to the amount of 20,000 shares, to the following purposes, namely: to the purchase from Richmond Light and Railroad Company of the railroads, railroad property, appurtenances, rights and franchises now owned by said Richmond Light and Railroad Company;

(b) that the authority hereby given to issue such bonds and stock shall apply only to bonds and stock issued by said Richmond Railways, Inc. on or before the 30th day of September, 1923.

(c) that a duplicate original of the mortgage consented to and authorized as aforesaid upon the execution thereof be filed by said Richmond Railways, Inc. with the Secretary of the Commission.

(d) that the acquisition of the said street surface railroad properties and franchises now owned by Richmond Light and Railroad Company shall be made free and clear of all indebtedness (as provided in Article IV Section 2 of the aforesaid mortgage) except \$27,000 face amount of the equipment trust certificates hereinbefore mentioned, still outstanding and unpaid.

5. And it appearing that Richmond Light and Railroad Company intends to purchase, acquire, take and hold the entire capital stock of Richmond Railways, Inc. as part of the consideration for the railroad property and franchises to be transferred by it to said Richmond Railways, Inc., it is

Ordered that the Transit Commission hereby consents to the purchase, acquisition, taking and holding by said Richmond Light and Railroad Company of the said 20,000 shares of capital stock of said Richmond Railways, Inc. without nominal or par value.

6. Further Ordered that this order take effect immediately and except as it is hereinbefore limited as to the duration of the authority to issue such stock and bonds herein granted, this order shall continue in force until modified, ordered, rescinded or revoked by the Commission, and that within 30 days after service upon them of a

copy of this order said Richmond Railways, Inc. and Richmond Light and Railroad Company shall severally file with the Commission certified copies of resolutions by the Board of Directors of the said companies stating that the terms of this order are accepted and will be obeyed.

BY THE COMMISSION
JAMES B. WALKER,
Secretary.

400—Case 2669

New York Dock Railway—Form of Annual Report for Year Ending December 31, 1922—Extension Order Adopted

The Secretary presented a communication, dated March 13, 1923, from the New York Dock Railway, requesting an extension of time from April 10, 1923 to April 30, 1923, within which to file its annual report for the year ending December 31, 1922.

The Secretary also presented a report, dated March 19, 1923 by H. S. Fischer, Statistician, recommending the granting of the desired extension of time which said report was approved by the Acting Chief, Bureau of Accounting & Valuation and the Acting Chief Executive Officer.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2669, granting the desired extension of time to April 30, 1923.

401—Case 2669

Brooklyn Eastern District Terminal—Form of Annual Report for Year Ending December 31, 1922—Extension Order Adopted

The Secretary presented a communication dated March 22, 1923, from the Brooklyn Eastern District Terminal asking for an extension of time of thirty (30) days within which to file its annual report pursuant to the Order in Case No. 2669.

The Secretary also presented a report, dated March 23, 1923, by H. S. Fischer, Statistician, recommending an extension of time to May 10, 1923, which said report was approved by the Acting Chief, Bureau of Accounts and Valuation, and Acting Chief Executive Officer.

Thereupon the Commission adopted and ordered filed an Order in Case No 2669, granting the desired extension of time to May 10, 1923.

402—Case 2679

Brooklyn Rapid Transit Company and Rapid Transit Railroad and Surface Railroad Subsidiary Companies—Petition of Reorganization Committee of Stockholders for Approval of Reorganization Plan—Hearing Resolution with Notice Adopted

The Secretary presented a petition dated March 23, 1923, from Albert H. Wiggin, Charles A. Boody, Gerhard M. Dahl, Frederick H. Ecker, Charles Hayden, Seward Prosser and Frederick Strauss, the members of the Brooklyn Rapid Transit Company Stockholders' Committee constituted under a deposit agreement dated January 2, 1919, acting as the Committee to effect the reorganization of the Brooklyn Rapid Transit Company and its rapid transit railroad and surface railroad subsidiary companies, transmitting a Plan and Agreement for Reorganization dated March 15, 1923, also presented therewith, and asking for the consideration and formal approval of the

parts of the plan, which require the approval of the Transit Commission and advising that (1) the Plan had been approved by the committees representing the several classes of bonds, notes, stock and other securities of the companies, excepting the committee representing First Consolidated Mortgage 4% Fifty Year Gold Bonds of The Coney Island and Brooklyn Railroad Company (2) the main purposes and object of the proposed reorganization were the funding into long term 6% bonds of over \$60,000,000 of short term obligations; the payment in part and the adjustment of the balance, of accumulated arrears of interest amounting to \$27,000,000; the payment in cash of tort claims for personal injuries, estimated at \$2,200,000; the adjustment of claims of general contract creditors in the amount of \$1,600,000; the payment of receiver's certificates and other prior claims aggregating \$12,000,000; the provision of \$26,000,000 new money which with the cash on hand \$8,000,000 would take care of the cash requirements on reorganization and furnish a \$5,000,000 fund for rapid transit construction and equipment and for working capital; the early termination of the receiverships and the return of property to their owners, (3) the Plan contemplates the formation of a new company to acquire and become vested with the properties, rights, privileges and franchises belonging to the companies, and the formation of a new rapid transit subsidiary company; the ultimate transfer, subject to the necessary arrangements being made, of the power plant properties to the new rapid transit company or to The City of New York, and inclusion thereof as part of the Equipment under Contract No. 4 and allied certificates; (4) of the amount of \$34,000,000 cash requirement, the sum of \$8,000,000 would be available in the hands of the Receiver or in the treasury of the companies not in receivership; the balance of \$26,000,000 to be provided through the sale to the stockholders and to the extent not subscribed by them, to underwriters of 6% Bonds, 6% Preferred Stock and Common Stock of the new company, such offering to the stockholders to be on the basis that each stockholder on payment of \$35 in cash for each share of old stock deposited under the Plan, would receive \$21,875 principal amount of 6% Bonds, \$13,125 par value of 6% Preferred Stock and one share of common stock of the new company; (5) the Plan authorizes the creation of a voting trust for all or any part of the stock of the new company in order, if it should be desired, provision might be made for the representation of the public authorities or of any class of its securities on its board of directors; (6) the Committee had not succeeded in negotiating an arrangement for the acquisition of The Brooklyn City Railroad Company, but the Plan provided that 51% of the stock of said company might be acquired as well as the stock of the Brooklyn, Queens County and Suburban Railroad Company; (7) under the Plan, the new company would have an authorized capital stock consisting of 350,000 shares of preferred stock, without nominal or par value or of the par value of \$100 each, and not exceeding 850,000 shares of common stock without nominal or par value, \$93,000,000 6% Series A Gold Bonds and approximately \$24,000,000 Series A preferred stock; (8) the new rapid transit subsidiary company would have authority to issue First and Refunding mortgage bonds limited in amount to \$50,000,000; (9) the last mentioned Refunding

Mortgage Bonds should be secured by a mortgage constituting a lien upon the properties acquired by such company in the reorganization including the rights existing under Contract No. 4 and allied certificates; (10) pending the consummation of arrangements as contemplated by the Plan for the transfer to The City of New York or to the new rapid transit subsidiary company of the power plant properties, provision was made for the creation of a Power Plant First Mortgage and the issuance of bonds thereunder; (11) the Plan provides that the investments of the new company in the rapid transit properties and the power plant properties be subjected to the lien of the indenture securing its Rapid Transit Security Sinking Fund Gold Bonds.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2679, directing a hearing on said application on April 11, 1923 at 11 A. M., and requiring the publication of notice of said hearing.

403—S. P. 745

New York Consolidated Railroad Company, Lindley M. Garrison, Receiver—Application of Receiver to Put in Effect on Short Notice New Schedule Providing for Operation between Queensborough Bridge Plaza and Ditmars Avenue, Astoria, and between Plaza and Alburtis Avenue, Corona—Special Permission No. 745 Adopted

The Secretary presented a communication, dated March 26, 1923, from the New York Consolidated Railroad Company, by H. A. Crowe, General Passenger Agent for Lindley M. Garrison, Receiver, asking for special permission to put into effect April 8, 1923, new schedule providing for shuttle service, beginning on said effective date, between Queensborough Bridge Plaza and Ditmars Avenue, Astoria, and the Plaza and Alburtis Avenue, Corona, and for transfers to the Sixtieth Street Tunnel line of said company, the new line to be known as the Astoria-Corona Line.

The Secretary also presented his report dated March 27, 1923, recommending that the desired permission be granted.

Thereupon, the Commission adopted Special Permission No. 745, granting the desired permission.

404—R. T. 7419

Contracts Nos. 3 & 4—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Completion of Newsstand Enclosures and Authorizing Appropriation of \$52,316.50—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 16, 1923, was ordered filed:

(Cal. No. 66)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated January 30, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with the Fox, Reynolds Co., Inc., for the completion of newsstand enclosures at stations of the municipal rapid transit railroads (under Contracts Nos. 3 and 4) at an estimated cost of fifty-two thousand three hundred and sixteen dollars and fifty cents (\$52,316.50); without waiving the contention of the City that

chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be fifty-two thousand three hundred and sixteen dollars and fifty cents (\$52,316.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding fifty-two thousand three hundred and sixteen dollars and fifty cents (\$52,316.50) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged, to the extent of thirty-seven thousand six hundred and eighty-three dollars (\$37,683) as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to the extent of fourteen thousand six hundred and thirty-three dollars and fifty cents (\$14,633.50) to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 16, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated March 23, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above-mentioned contract approved as to form, was also ordered filed.

405—R. T. 7600

Route No. 52, Section No. 1—Statement as to Execution and Delivery of Original Contract for Construction of Column Foundations—Contract Filed

The Commission ordered filed an original contract dated March 20, 1923, between The City of New York, acting by the Transit Commission and Gustin-Morris Contracting Corporation for the construction of column foundations on Route No. 52, Section No. 1, Flushing Line, which contract had been executed on behalf of both parties and delivered on March 23, 1923.

Contract No. 4—Communication from Depreciation Fund Board as to Use of Funds for Financing Purchase of Fifty New Cars—Filed

The following communication was ordered filed:

March 22, 1923.

TRANSIT COMMISSION,
49 Lafayette Street, City.
Gentlemen:

At a meeting of the Depreciation Fund Board under Contract No. 4 and Allied Certificates held March 20th, the suggested use of depreciation funds for the financing of fifty steel cars which the Transit Commission has directed the New York Consolidated Railroad Company to procure, was discussed. No formal communication to the Board was received, but the matter was brought before it upon a statement by the Secretary that the suggestion had been made informally by the Accounting Department of the Transit Commission, which stated that it had been agreed upon in a conference with the company's representatives.

The Board was unanimously of the opinion that the funds entrusted to its care could not properly be used for any such purpose.

Very truly yours,
JAMES B. WALKER,
Secretary.

Depreciation Fund Board, Contract No. 4
and Allied Certificates

Street Changes—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Removal of Sidewalk Encroachments on East 57th Street from Second Avenue to Fifth Avenue, Borough of Manhattan—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 16, 1923, was ordered filed:

(Cal. No. 146)

Whereas, The entire width of East 57th street between 2d avenue and 5th avenue, Borough of Manhattan, is required for public purposes; be it

Resolved, By the Board of Estimate and Apportionment that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of East 57th street between 2d avenue and 5th avenue, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, By the Board of Estimate and Apportionment that the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or incumbrances in accordance with the foregoing resolution;

except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 16, 1923.

JAMES MATTHEWS,
Assistant Secretary.

410

Employees' Resolution No. 134

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—John M. Gibbons, engineering inspector, at \$150.08 per month, to take effect March 26, 1923; Elmer R. Hauck, engineering inspector, at \$150.08 per month, to take effect March 21, 1923.

Appointment under Rule VIII:4—Benjamin Friedenber, junior assistant, at \$125.08 per month, to take effect March 26, 1923.

Appointment under Rule XIII:4—Andrew Haldane, watchman, at \$3.00 per diem, to take effect March 21, 1923.

Resignations—Mary Cooke, stenographer, at \$90.00 per month, to take effect March 24, 1923; Morris Harkavy, junior assistant, at \$125.08 per month, to take effect March 19, 1923; Irving Munves, draftsman, at \$150.08 per month, to take effect March 21, 1923; Emanuel Willing, junior assistant, at \$125.08 per month, to take effect March 15, 1923.

Termination of Appointment under Rule VIII:4—Charles B. Pinney, junior assistant, at \$125.08 per month, to take effect March 15, 1923.

Leave of Absence with Pay—Curran Rogers, engineering inspector, from December 30, 1922, to December 31, 1922.

Leave of Absence without Pay—Henry O. Huntting, architectural designer, from December 19, 1922, to December 31, 1922.

411

Voucher Schedule No. 13

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York; to the Interborough Rapid Transit Company; or to the Comptroller of The State of New York, as the vouchers may direct:

Vouchers Nos. 296-328, open market orders, \$5,156.13; Vouchers Nos. 167-174, miscellaneous bills, \$1,746.87; Voucher No. ICI-I, \$611.00; Voucher No. 7, special payroll, \$100.00; Voucher No. 52-62, City payrolls, \$85,210.93; Voucher No. CM-6, State payrolls, \$2,541.66.

Estimates of Chief Engineer of Value of Work Done and Material Furnished for Construction of Rapid Transit Railroads for the Periods Indicated Below:

Voucher No. 77; Patrick McGovern, Inc.; final estimate for the completion of construction of Section No. 2 of Route No. 8, to October 31, 1922 (R.T. 7092) \$63,318.93.

This voucher supersedes Transit Commission Voucher No. 57 for the same amount; Voucher No. 78; Eppinger & Russell Co., final estimate for the supply of treated ties, Order No. 6 for use in the construction of a part of the Fourteenth Street-Eastern Line (R.T. 7503) \$7,570.36;

Voucher No. 79; Rosenthal Engineering Contracting Company, approximate estimate No. 1 for construction of foundations for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from December 26, 1922 to March 20, 1923 (R.T. 7589) \$8,872.35.

PROCEEDINGS OF
TRANSIT COMMISSION

49 Lafayette Street

Borough of Manhattan, City of New York

Proceedings for Tuesday, April 3, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

416—R. T. 7642

Agreement "CK"—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest of Bidders for Excavation and Construction of Retaining Walls at Lenox Avenue Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on March 29, 1923 for excavation and construction of retaining walls at the Lenox Avenue Yard, Seventh Avenue between 148th and 150th Streets, Agreement "CK," the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of One thousand dollars (\$1,000) deposited with their bids.

417—R. T. 7640

Order No. 8—Report by Chief Engineer as to Receipt of Bid for Supply of Ties and Timber and Recommendation for Award of Contract to Alfred R. Sax Lumber Co. at Bid Price of \$18,603.00—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$20,000.00

The following report was approved:

April 3, 1923.

To TRANSIT COMMISSION:

Proposed Contract for the Supply of Ties and Timber, Order No. 8

One bid was received on March 30, 1923, for the supply of ties and timber, Order No. 8, as follows:

Alfred R. Sax Lumber Co.....\$18,603.00

In view of the fact that their price is reasonable and of the excellent performance of this same firm under the contract for the supply of ties and timber Order No. 7 aggregating about \$93,500, I believe that the contract should be awarded to them. Our engineer's estimate for Order No. 8 amounted to \$19,675.65. This proposed contract will provide ties and timber for the completion of the Jerome Ave. Yard and for the tracks on the new steel about to be erected by the Jobson-Gifford Company near Queens Plaza, so that it should be entered into as soon as possible.

The contract provides for possible increase in the quantities shown in the Contractor's proposal and permits us to designate different delivery points. There is also a possibility in case we do not have an installation contractor in the field to receive it, that the material will have to be piled at extra expense. An amount in excess of the net amount of the bid may therefore be needed to cover these contingencies.

Recommendation: That the contract be awarded to Alfred R. Sax Lumber Company at their price of \$18,603 and that \$20,000 be requested from the Board of Estimate and Apportionment divided \$10,500 to Contract 3 and \$9500 to Contract No. 4.

ROBERT RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, Pursuant to a resolution adopted by this Commission February 27, 1923 and subsequent to advertisement duly made a bid totalling as follows was received for the supply of ties and timber (Order No. 8) for use in the construction of rapid transit railroads:

Alfred R. Sax Lumber Co.....\$18,603.00

: and

Whereas, The Chief Engineer of this Commission, by communication dated April 3, 1923, has reported that the amount of said low bid of Alfred R. Sax Lumber Co. is reasonable and that said company is financially able and competent to perform the work under said proposed contract and has recommended the award thereof to it and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$20,000, the amount estimated to be necessary to carry out said proposed contract on the part of the City,

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Alfred R. Sax Lumber Co., submitted as aforesaid, be and the same hereby is accepted and that said proposed contract for the supply of ties and timber (Order No. 8) for use in the construction of rapid transit railroads, be and the same hereby is awarded to the said Alfred R. Sax Lumber Co., subject to its being approved and consented to in form and substance as required by law and that the said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel, for the consent of said Board and the appropriation of the said sum of \$20,000, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 3, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.
Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Alfred R. Sax Lumber Co., for the supply of ties and timber (Order No. 8) for use in the construction of rapid transit railroads, together with a requisition upon your Honorable Board for the appropriation of the sum of Twenty thousand dollars (\$20,000), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Public advertisement has been duly made for proposals for said proposed contract and a bid was received by this Commission on March 30, 1923 totalling as follows:

Alfred R. Sax Lumber Co.....\$18,603.00

The Chief Engineer of this Commission in a communication dated April 3, 1923, reports that the bid of Alfred R. Sax Lumber Co., the low bidder, is reasonable and that said company is competent and financially capable of carrying out the provisions of said proposed contract, and the Transit Commission has accepted the said bid and awarded said proposed contract to Alfred R. Sax Lumber Co., subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Twenty thousand dollars (\$20,000), (the additional sum over the amount of the low bid being requested for the reason that in work of this character the experience of this Commission has shown that an amount slightly in excess of the net amount of the bid is usually required to take care of slightly increased quantities, changes in delivery points, etc.), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Twenty thousand dollars (\$20,000).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater

New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of executing said proposed contract.

This requisition, to the extent of Ten thousand five hundred dollars (\$10,500), is a subrequisition under and not in addition to the requisition heretofore made upon your Honorable Board for the purposes of carrying out the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and the appropriations made in pursuance thereof, and to the extent of Nine thousand five hundred dollars (\$9,500) is a subrequisition under and not in addition to the requisitions heretofore made upon your Honorable Board for the purposes of carrying out the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY, Chairman.

418—R. T. 7638

Order No. 22—Report by Chief Engineer as to Receipt of Bids for Supply of Special Work and Track Fittings and Recommendation for Award of Contract to Railway Switch & Crossing Corporation at Bid Price of \$26,899.12—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$28,000.00

The following report was approved:

April 3, 1923.

To: THE TRANSIT COMMISSION.

Proposed Contract for the Supply of Special Work and Track Fittings, Order No. 22.

As reported in my letter of March 17, 1923, bids for supply of Special Work, Order No. 22 opened on March 16th, resulted, as follows:

Railway Switch & Crossing Corporation.....	\$26,899.12
William Wharton Jr. & Company, Inc.....	43,623.52
Bethlehem Steel Company.....	45,009.72
Ramapo Ajax Corporation.....	45,033.11

The Railway Switch & Crossing Corporation, the lowest bidder have never before submitted a bid on our special work. It is a recently organized concern, who state that they intend to take up this class of work vigorously. In spite of their very low bid and inexperience, I have concluded to recommend the award of the contract to them. Investigation of their plant facilities and financial resources and statements of their executive officers that they can and will produce the materials within the contract times, has led me to this conclusion.

Our experience in the past has been that an amount in excess of the net amount of the order is very often needed to take care of slightly increased quantities, changes in delivery points, etc., as provided in the contract so that an increased amount should be requisitioned. This order will provide materials principally for use in the tracks to be installed on the new steel about to be erected in the vicinity of Queens Plaza and to supplement materials on hand for the Jerome Avenue Yard, the 239th Street Yard and the 14th Street-Eastern Tunnels.

Recommendation: That the contract be awarded to the Railway Switch & Crossing Corporation at their bid price of \$26,899.12 and that a sum of \$28,000.00 be requisitioned from the Board of Estimate and Apportionment, divided \$24,400.00 to Contract No. 3 and \$3,600.00 to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, Pursuant to a resolution adopted by this Commission on February 27, 1923, and subsequent to advertisement duly made bids respectively totalling as follows were received for the supply of Special Work and Track Fittings (order No. 22) for use in the construction of various parts of the Dual System of municipal rapid transit railroads:

Railway Switch & Crossing Corporation.....	\$26,899.12
William Wharton Jr. & Company, Inc.....	43,623.52
Bethlehem Steel Company.....	45,009.72
Ramapo Ajax Corporation.....	45,033.11

; and

Whereas, The Chief Engineer of this Commission, by communication dated April 3, 1923, has reported that the amount of said low bid of Railway Switch & Crossing Corporation is reasonable and that said company is financially able and competent to perform the work under said proposed contract and has recommended the award thereof to it and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$28,000, the amount estimated to be necessary to carry out said proposed contract on the part of the City,

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Railway Switch & Crossing Corporation, submitted as aforesaid, be and the same hereby is accepted and that said proposed contract for the supply of Special Work and Track Fittings (Order No. 22) for use in the construction of various parts of the Dual System of municipal rapid transit railroads, be and the same hereby is awarded to the said Railway Switch and Crossing Corporation, subject to its being approved and consented to in form and substance as required by law and that the said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel, for the consent of said Board and the appropriation of the said sum of \$28,000, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 3, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Railway Switch & Crossing Corporation, for the supply of Special Work and Track Fittings (Order No. 22) for use in the construction of various parts of the Dual System of municipal rapid transit railroads, together with a requisition upon your Honorable Board for the appropriation of the sum of Twenty-eight thousand dollars (\$28,000), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Public advertisement has been duly made for proposals for said proposed contract and bids were received by this Commission on March 16, 1923, respectively totalling as follows:

Railway Switch & Crossing Corporation.....	\$26,899.12
William Wharton Jr. & Company, Inc.....	43,623.52
Bethlehem Steel Company.....	45,009.72
Ramapo Ajax Corporation.....	45,033.11

The Chief Engineer of this Commission, in a communication dated April 3, 1923, reports that the bid of Railway Switch & Crossing Corporation, the low bidder, is reasonable and that said company is competent and financially capable of carrying out the provisions of said proposed contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the Railway Switch & Crossing Corporation, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Twenty-eight thousand dollars (\$28,000), (the additional sum over the amount of the low bid being requested for the reason that in work of this character the experience of this Commission has shown that an amount slightly in excess of the net amount of the bid is usually required to take care of slightly increased quantities, changes in delivery points, etc.), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Twenty-eight thousand dollars (\$28,000).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater

New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of executing said proposed contract.

This requisition, to the extent of Twenty-four thousand four hundred dollars (\$24,400), is a subrequisition under and not in addition to the requisitions heretofore made upon your Honorable Board for the purposes of carrying out the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and the appropriations made in pursuance thereof, and to the extent of Three thousand six hundred dollars (\$3,600) is a subrequisition under and not in addition to the requisitions heretofore made upon your Honorable Board for the purposes of carrying out the contract dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4.

TRANSIT COMMISSION,

By GEORGE McANENY, Chairman.

419—R. T. 7642

Agreement "CK"—Report by Chief Engineer as to Receipt of Bids for Excavation and Construction of Retaining Wall at Lenox Avenue Yard and Recommendation for Award of Contract to Fox, Reynolds Co., Inc., at Bid Price of \$79,781.50—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

April 2, 1923.

To TRANSIT COMMISSION:

Award of Contract for Work under Agreement "CK" to Fox, Reynolds Co., Inc.

On March 29, 1923, ten (10) bids were received for work under Agreement "CK," Excavation and the Construction of a Retaining Wall at the Lenox Avenue Yard, 7th Avenue between 148th and 150th Streets, Manhattan, the lowest bidder being Fox, Reynolds Co., Inc., whose bid amounted to \$79,781.50. The next to the lowest bidder was C. L. Dooley Co., whose bid amounted to \$79,883.10. The highest bidder was M. A. Charles, whose bid amounted to \$122,185. Our estimate for this work amounted to \$103,574.50.

I have examined the unit prices bid by Fox, Reynolds Co., Inc., and find them reasonable under present conditions. This corporation has not previously done any work for the Commission. Henry E. Fox, one of the members of this corporation, had charge of the subway work for the U. S. Realty Co. in finishing up its contract for subway, Route 4 & 36, Section 2 of the Municipal Broadway subway and on Route 4 & 38, Sections 4 & 5 of the I. R. T. Seventh Avenue Subway. Mr. Fox has done considerable work for other City departments. He had a contract for the Board of Water Supply and the Chief Engineer of that Department says he completed the contract but was very slow in his work. Mr. Fox also had a contract for the Department of Water Supply, Gas & Electricity under the name of Henry E. Fox Constr. Co., which work was not done to the satisfaction of that Department and Henry E. Fox Constr. Co. was declared in default. In 1916, Mr. Fox had a contract in connection with the 59th Street power plant for the Interborough Company. The engineers of that Company advise me that while he was very slow in carrying out the work he completed the job satisfactorily notwithstanding the great difficulties encountered, conditions due to the war, and in spite of the probability, as stated by the engineers, that he lost money on his contract. It was awarded the contract for Completion of News-stand Enclosures, Contracts Nos. 3 and 4 which has just been delivered.

Attached I send you copy of minutes of a conference held in my office on March 30, 1923 with Mr. Henry E. Fox, representing the lowest bidder. It will be noted therein that the present financial condition is about the same as on January 29, 1923 when he was examined in connection with Completion of News-stand Enclosures, Contracts Nos. 3 and 4, excepting that it has acquired some machinery.

Recommendation: From an engineering standpoint, I respectfully recommend that contract for Agreement "CK," Excavation and the Construction of a Retaining Wall at the Lenox Avenue Yard, 7th Avenue between 148th and 150th Streets, Manhattan, be awarded to the lowest bidder, Fox, Reynolds Co. Inc. at its bid figure of \$79,781.50 and that a requisition be made on the Board of Estimate and Apportionment for the appropriation of this amount which should be charged to Contract No. 3.

ROBT. RIDGWAY,

Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract (Agreement "CK") for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue between 148th and 150th Streets, the Borough of Manhattan, City of New York, was heretofore approved and finally adopted by this Commission and subsequent to public advertisement duly made bids respectively totalling as follows were received on March 29, 1923:

Fox, Reynolds Co., Inc.....	\$79,781.50
C. L. Dooley Company.....	79,883.10
Michael Del Balso.....	81,500.50
Ryan, Baker Const. Co., Inc.....	85,006.90
O'Connell & Strada, Inc.....	89,741.00
Gustin-Morris Contrg. Corp.....	92,229.50
Slattery Engr. & Constr. Co., Inc.....	93,637.50
Rosenthal Engr. & Contrg. Co., Inc.....	98,668.00
Benedetto, Saussez & Bottino.....	99,788.00
Jacob Schlesinger, Inc.....	101,881.40
M. A. Charles.....	122,185.00

; and

Whereas, The Chief Engineer of this Commission by communication dated April 2, 1923 has reported that the amount of the low bid is reasonable and that the said Fox, Reynolds Co., Inc., is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$79,781.50 being the amount estimated to be necessary to meet the obligations of the City under said proposed contract,

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby are approved; that the bid of Fox, Reynolds Co., Inc., be and the same hereby is accepted and that the said proposed contract (Agreement "CK") for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue between 148th and 150th Streets, the Borough of Manhattan, City of New York, be and hereby is awarded to said Fox, Reynolds Co., Inc., subject to its being consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation in the sum of \$79,781.50 estimated to be necessary to meet the obligations of the City under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 3, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Fox, Reynolds Co., Inc., for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue between 148th and 150th Streets, the Borough of Manhattan, City of New York, together with a requisition upon your Honorable Board for the appropriation of the sum of Seventy-nine Thousand Seven hundred and eighty-one Dollars and Fifty Cents (\$79,781.50), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on March 29, 1923, respectively totalling as follows:

Fox, Reynolds Co., Inc.....	\$79,781.50
C. L. Dooley Company.....	79,883.10
Michael Del Balso.....	81,500.50
Ryan, Baker Const. Co., Inc.....	85,006.90
O'Connell & Strada, Inc.....	89,741.00

Gustin-Morris Contrg. Corp.....	\$92,229.50
Slattery Engr. & Constr. Co., Inc.....	93,637.50
Rosenthal Engr. & Contrg. Co., Inc.....	98,668.00
Benedetto, Saussez & Bottino.....	99,788.00
Jacob Schlesinger, Inc.....	101,881.40
M. A. Charles.....	122,185.00

The Chief Engineer of this Commission, in a communication dated April 2, 1923, reports that the bid of Fox, Reynolds Co., Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said Fox, Reynolds Co., Inc. subject to its being approved and consented to in form and substance, as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit; the sum of Seventy-nine thousand, Seven hundred and eighty-one Dollars and Fifty Cents (\$79,781.50), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Seventy-nine Thousand, Seven hundred and eighty-one Dollars and Fifty Cents (\$79,781.50).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3 and the appropriations made thereunder by your Honorable Board.

TRANSIT COMMISSION,

By GEORGE McANENY,

Chairman.

420—R. T. 6583

Route No. 16—Communication from Board of Estimate and Apportionment Submitting Copy of Opinion of Corporation Counsel with Respect to Transfer of Sum of \$40,000 to Department of Water Supply, Gas and Electricity for Changing Water Mains on Jerome Avenue—Certificate by Chief Engineer as to Necessity for Relocating Mains—Approval Resolution—Communication to Board of Estimate and Apportionment

A communication was presented from the Board of Estimate and Apportionment by James Matthews, Assistant Secretary, dated March 16, 1923, transmitting a copy of an opinion by the Corporation Counsel dated March 5, 1923, with respect to the transfer of the sum of \$40,000 to the Department of Water Supply, Gas and Electricity for changing water mains on Jerome Avenue north of Kingsbridge Road, stating that before the transfer of funds could be made there must be a finding based on pertinent facts and evidenced by a resolution of the Transit Commission that the water mains in their present location are a danger and a menace to the safety and stability of the elevated structure.

A report was presented from the Chief Engineer, dated March 27, 1923, certifying as to the necessity for changing the location of the mains.

The following resolution was adopted:

Whereas, By communication dated June 21, 1922 this Commission made requisition upon the Board of Estimate and Apportionment for the transfer of \$40,000 from Rapid Transit Funds to the Department of Water Supply, Gas & Electricity of The City of

New York for the purpose of relocating water mains under and along Jerome Avenue where they are below and contiguous to the elevated column footings of the municipal elevated rapid transit railroad over and along said Jerome Avenue; and

Whereas, By action taken by said Board of Estimate and Apportionment on March 16, 1923 the said matter was referred back to this Commission in view of the findings of the Corporation Counsel as set forth in his opinion dated March 5, 1923; and

Whereas, The Chief Engineer of this Commission has by communication dated March 27, 1923 reported with respect to said matter and states that the location of the old water mains in service close to and at a lower level than a large number of column footings of the municipal elevated rapid transit railroad over and along Jerome Avenue constitutes a menace to the safety of the municipal elevated railroad structure and to the operation of the same and recommends that such be certified to the Board of Estimate and Apportionment,

Resolved, That said report and recommendation be and the same hereby is approved; that this Commission hereby certifies to the Board of Estimate and Apportionment of The City of New York that upon the findings based on the pertinent facts as set forth in the said report of the Chief Engineer of this Commission, that this Commission is of the opinion and believes that the water mains in their present location under and along Jerome Avenue where contiguous to and below the column footings of the municipal elevated railroad over and along Jerome Avenue are a danger and a menace to the safety and stability of said elevated structure and that a communication and requisition in pursuance thereof be transmitted to the said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 3, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under date of June 21, 1922 the Transit Commission advised your Honorable Board as follows:

"By resolution adopted by your Honorable Board on December 21, 1917 (Cal. No. 106) there was transferred from the appropriations made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, the sum of Fifteen thousand dollars (\$15,000) for the purpose of correcting the dangerous condition existing in a 36" water main on Jerome Avenue at or near Burnside Avenue in the Borough of The Bronx.

The Chief Engineer of this Commission, in a communication dated June 15, 1922, has reported with respect to the general situation arising from the contiguity of other water mains to the column foundations of the Jerome Avenue Elevated Rapid Transit Railroad, as follows:

"On April 25, 1922, I submitted to you a report on the deep water mains on Jerome Avenue which are located below the elevated column footings. As stated therein, the Public Service Commission transferred on December 21, 1917, \$15,000.00 to the Department of Water Supply toward the cost of raising about 1715 feet of 36-inch water main on Jerome Avenue between 179th and 181st Streets. Although this work has not been done as yet by the Department of Water Supply, the main is at present out of service and is to remain out of service until prices become lower. On account of war conditions and high prices, this work has been deferred by the Department of Water Supply with our consent.

North of Kingsbridge Road, there are two lines of 36-inch water mains, each about 1900 feet long, making a total of about 3800 feet of 36-inch main which lie below the column footings. These mains are in service and are essential to the distribution system. Furthermore they are old and do not conform to the present standards, particularly in that the joints are not as tight as those now used. Several leaks have occurred in the past in these mains. A serious break occurred on November 27, 1920, which gave us considerable concern for the safety of the structure. It is, therefore, desirable to have these mains either raised above the column footings or replaced by new mains at the normal depth.

In my previous report to you, I recommended that the same arrangement be made in this case with the Department of Water Supply as was done with the main between 179th and 181st Streets, namely: that the Commission arrange with the Department of Water Supply to have the two mains on Jerome Avenue, north of Kingsbridge Road, raised above the bottom of the column footings or replaced with new mains at a higher level, and that the Commission arrange for the transfer to the Department of Water Supply of a sum not exceeding the estimated cost of safeguarding the footings as its contribution toward this work.

Since then this office conferred with representatives of the Department of Water Supply and we have agreed with them that about \$40,000 would be the cost of protecting the column footings which are now above the water mains north of Kingsbridge Road, if the water mains are not raised or abandoned. It is, therefore, recommended;—

Recommendation: That the Commission arrange to transfer from Rapid Transit Funds \$40,000 to the Department of Water Supply, Gas & Electricity in order that the Department may either raise the two lines of water mains on Jerome Avenue, north of Kingsbridge Road, which are below the elevated column footings or else abandon these mains by replacing them with new mains at the normal depth.

The Transit Commission, believing that the hazard arising from the situations enumerated should be speedily removed, has approved the recommendation of the Chief Engineer aforesaid and accordingly requests your Honorable Board, pursuant to the provisions of the Rapid Transit Act, to transfer for said purposes to the Department of Water Supply, Gas and Electricity the sum of Forty thousand dollars (\$40,000). This does not include the Fifteen thousand dollars (\$15,000) heretofore appropriated. Although not used as yet this appropriation should not be interfered with as it is expected that the work for which said sum was appropriated will be initiated and completed within a short time."

and made requisition upon your Honorable Board for the appropriation of the sum of Forty Thousand Dollars (\$40,000) to be a subrequisition under the appropriation made for the contract dated March 19, 1913, known as Contract No. 3 and to transfer said sum to the Department of Water Supply, Gas and Electricity for the purposes enumerated in the Chief Engineer's recommendation as therein set forth.

Your Honorable Board by communication dated March 16, 1923 referred said matter back to this Commission in view of the recommendation of the Corporation Counsel made in his opinion dated March 5, 1923 with respect to the subject wherein in part he stated:

"In view of this situation, I am of opinion that before this \$40,000 can be transferred from the Rapid Transit Fund there must be a finding based on pertinent facts and evidenced by a resolution of the Transit Commission that the water mains in their present location are a danger and a menace to the safety and stability of the elevated structure."

The Chief Engineer of this Commission in a communication dated March 27, 1923 had advised this Commission and recommended as follows:

"This refers to letter of March 16, 1923, from the Board of Estimate to the Commission, relative to the water mains on Jerome Avenue. The opinion of the Corporation Counsel to the Board of Estimate on this matter is attached thereto.

In a communication dated June 21, 1922, this Commission requested the Board of Estimate to transfer to the Department of Water Supply, Gas & Electricity \$40,000 from Rapid Transit Funds in order that the Department may either raise two lines of 36-inch water mains on Jerome Avenue north of Kingsbridge Road which are below the elevated column footings, or else abandon these mains by replacing them with new mains at the normal depth. The sum of \$40,000 represents the estimated cost of protecting the column footings which are now above the water mains. It is estimated that the cost of laying new pipes or raising the existing pipes will be considerably greater than this amount.

The Corporation Counsel quotes the opinion of the Commissioner of the Department of Water Supply, Gas & Electricity, which briefly is: There are other portions of the mains not below the column footings which are deep and should be relocated nearer to the street surface; that it would be an advantage to the City to have the water mains nearer to the street surface on account of the expenses which are incurred for their repair due to deep cover; that the

Transit Commission is aware of the necessity of the relocation of these mains and has therefore probably consented in the interest of the city to the transfer of \$40,000 to the credit of the Water Supply Department toward the relocation of the mains and that the Department of Water Supply shall obtain the balance required for this work and that the entire work of relocating the water mains shall be done by the Department of Water Supply, Gas & Electricity.

The Corporation Counsel then concludes that before the \$40,000 can be transferred 'there must be a finding based on pertinent facts and evidences by a resolution of the Transit Commission that the water mains in their present condition are a danger and menace to the safety and stability of the elevated structure.'

North of Kingsbridge Road on Jerome Avenue there are about 72 columns which have footings close to the existing 36-inch water mains and the bottoms of these footings are as much as 10-feet above the mains. The water mains in question along Jerome Avenue are old and do not conform to the present standards of the Department of Water Supply, Gas & Electricity, particularly in that their joints are not as secure as those that are now used. In the past several leaks have occurred in these mains. A break occurred on November 27, 1920, which gave us considerable concern for the safety of the elevated structure. Should a bad break occur, the structure might be undermined and traffic thereon be endangered. The mains north of Kingsbridge Road, we understand, are essential to the distribution system and consequently their service cannot be discontinued unless they are replaced by other mains.

In view of the foregoing, I consider that the location of the old water mains in service close to and at a lower level than a large number of column footings constitutes a menace to the safety of the elevated structure and to the operation of same. It is important, therefore, that this menace should be removed as soon as possible.

Recommendation: I respectfully recommend that the Commission adopt and forward to the Board of Estimate and Apportionment such a resolution as is suggested by the Corporation Counsel in his communication to the Board of March 5, 1923 stating that it is the Commission's opinion that the water mains in their present location are a danger and a menace to the safety and stability of the elevated structure."

The Transit Commission has accordingly adopted a resolution, a certified copy of which is transmitted herewith, approving said report and recommendation of the Chief Engineer and upon the findings therein set forth hereby certifies to your Honorable Board that in the opinion of this Commission the said water mains in their said location are a danger and a menace to the safety and stability of the municipal elevated structure and should be removed as the Chief Engineer suggests.

The Commission accordingly renews its application for the appropriation of the sum of Forty Thousand Dollars (\$40,000) for the purposes set forth in its communication of June 21, 1922, said sum to be deducted from the appropriations heretofore made by your Honorable Board for the purposes of carrying out the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3 and to transfer said sum aforesaid to the Department of Water Supply, Gas & Electricity for the purposes enumerated in the Chief Engineer's recommendation herein set forth.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

421—R. T. 5006

Agreement "CI"—Form of Contract, Specifications, Invitation to Contractors, etc., for Making Test Borings on Sites of Proposed Coney Island Yard, Westchester Avenue Yard and Extension of Seventh Avenue Route under Central Park—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Con-

tract Drawings (Agreement "CI"), for making borings on the sites of the proposed Coney Island Yard, Borough of Brooklyn and proposed Westchester Avenue Yard, Borough of The Bronx, and along proposed extension to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between Seventh Avenue and Central Park West, Borough of Manhattan,

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings (Agreement "CI"), for making borings on the sites of the proposed Coney Island Yard, Borough of Brooklyn and proposed Westchester Avenue Yard, Borough of The Bronx, and along proposed extension to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between Seventh Avenue and Central Park West, Borough of Manhattan, be and hereby are approved and adopted and that said Invitation to Contractors be published in the CITY RECORD every day of publication continuously from and including April 5, 1923 to and including April 19, 1923 and on April 9, 1923 and April 16, 1923 in THE BROOKLYN DAILY EAGLE and THE BROOKLYN DAILY TIMES, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 19th day of April, 1923 at eleven-thirty (11:30) o'clock a. m., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

422—R. T. 6416

Routes Nos. 36 & 37—Resolution Declaring Certain Tracks Ready for Operation in the Vicinity of Queensboro Plaza Station—Adopted

The following resolution was adopted:

Resolved, That under and in pursuance of the provisions of the contract dated March 19, 1913, made between the City of New York, acting by the Public Service Commission for the First District and the New York Municipal Railway Corporation, known as Contract No. 4 this Commission hereby declares the following portions of the Railroad, as described in said Contract No. 4 to be ready for operation at 12:01 o'clock A. M. on April 8, 1923,

Track A—upper level of the Queensboro Plaza Station from a point west of station at Track E (approximately general stationing Lines Y & I 162+20) easterly through the station to a point at or near Jackson Avenue (approximate general stationing Lines Y & I—174+73).

Track B—lower level of the Queensboro Plaza Station from a connection at Track F west of station at Special Work Portion 413 (approximate general stationing Lines Y & I 162+81) easterly through the station to a point at or near Jackson Avenue (approximate general stationing Lines Y & I—175+22).

A diamond crossover at North Jane Street and Van Alst Avenue approximately 975 feet west of west end of Queensboro Plaza Station between approximate stations 111+98 and 113+28—tracks 1 & 2—general stationing Line G.

The above to include all frogs and switches within the limits described.

Resolved, That this Commission do and hereby does direct the Receiver of New York Consolidated Railroad Company and/or said New York Consolidated Railroad Company to commence operation at 12:01 o'clock A. M. on April 8, 1923 of the said portions of the Railroad so declared ready for operation.

423—R. T. 7601

Route No. 52, Section No. 1—Report by Chief Engineer as to Modifications in Plans for Furnishing and Erecting Structural Steel—Resolution Authorizing Discontinuance of Publication of Invitation for Bids

A report was presented from the Chief Engineer, dated March 20, 1923, with respect to certain modifications in the contract drawings for furnishing and erecting structural steel for Section No. 1 of Route No. 52, and recommending that the publication of the invitation for bids be temporarily discontinued.

The following resolution was adopted:

Whereas, By resolution adopted March 13, 1923 this Commission directed the re-advertisement of the invitation to Contractors forming part of the proposed contract for

furnishing and erecting structural steel for a part of the rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, as finally adopted by this Commission on November 28, 1922 by the publication thereof in the CITY RECORD and daily newspapers, as more particularly therein set forth; and

Whereas, The Chief Engineer of this Commission, by communication dated March 20, 1923, has reported that certain modifications will be necessary in the drawings forming part of said contract for such work and has recommended that the publication of such notice be discontinued,

Resolved, That the publication of said Invitation to Contractors, as required by said resolution of March 13, 1923, be discontinued and that the further publication of said invitation to Contractors be held in abeyance until the completion of such revised plans.

424—R. T. 7648

Agreement "CJ"—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Concrete Steel Highway Bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings (Agreement "CJ") for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn,

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings (Agreement "CJ") for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, be and hereby are approved and adopted and that said Invitation to Contractors be published in the CITY RECORD every day of publication continuously from and including April 5, 1923 to and including April 19, 1923 and on April 9, 1923 and April 16, 1923 in THE BROOKLYN CITIZEN and THE STANDARD UNION, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 19th day of April, 1923 at eleven-thirty (11:30) o'clock a. m., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

425—R. T. 7603

Route No. 52, Section No. 3—Resolution Approving Sureties upon Bond in the Sum of \$100,000 Deposited by Contractor for Construction of Part of Flushing Line—Adopted

The following resolution was adopted:

Resolved, That the Fidelity and Deposit Company of Maryland and Globe Indemnity Company be and hereby are approved as sureties upon the bond in the sum of One hundred thousand (\$100,000) dollars, deposited by Oakdale Contracting Company, Inc. as security for the faithful performance of the contract for the construction of Section No. 3 of Route No. 52, of the Flushing Line, each of said sureties being held and bound in the sum of Fifty thousand (\$50,000) dollars.

426—R. T. 5058

Fourth Avenue Subway—Communication from Windsor Place Taxpayers' Association Requesting that 9th Street Station be Changed from Local to Express Stop—Report by Chief Engineer Recommending that Change be Not Made—Report Approved

A communication was presented from the Windsor Place Taxpayers' Association by William B. Klein, President, dated January 13, 1923, requesting that consideration be

given in future plans with a view of changing the 9th Street station of the Fourth Avenue subway from a local to an express stop.

A report was presented from the Chief Engineer dated February 6, 1923, recommending that the change be not made.

Upon motion, duly seconded and adopted, the report was approved.

427—R. T. 7489

Route No. 46—Report by Real Estate Clerk Recommending Sale at Public Auction of Property at Southwest Corner of St. Felix and Fulton Streets, Borough of Brooklyn, at Upset Price of \$70,000—Communication to Commissioners of Sinking Fund—Approved

A report was presented from the Real Estate Clerk dated April 2, 1923, recommending that a request be made to the Commissioners of the Sinking Fund to approve the sale at public auction of the property at the southwest corner of St. Felix and Fulton Streets, Borough of Brooklyn, at an upset price of \$70,000.

The following communication was approved:

April 3, 1923.

COMMISSIONERS OF THE SINKING FUND
OF THE CITY OF NEW YORK,
Municipal Building,
New York City, N. Y.

Sirs:

Under the provisions of Subdivision 2 of Section 39 of the Rapid Transit Act it becomes the duty of the Transit Commission whenever any property which The City of New York shall have acquired, as provided in said Act, shall be unnecessary for rapid transit purposes, to sell and convey the same in behalf of the City; but it is provided that no sale or conveyance shall be made except with the approval of the Commissioners of the Sinking Fund of the City.

Heretofore, on the 5th day of June, 1916, The City of New York acquired by condemnation proceedings, pursuant to the Rapid Transit Act, for the purposes of construction, maintenance and operation of a portion of the Broadway-Fourth Avenue Rapid Transit Railroad known as Route No. 12, Section No. 1, an estate in fee simple to a parcel of land situated on the southwesterly corner of Fulton Street and St. Felix Street, in the Borough of Brooklyn, and known as Lot 12, Block 2108, Section 7, on the land map of the County of Kings. The premises contain 6445.7 square feet and are bounded as follows:

Beginning at the point formed by the intersection of the southwesterly line of Fulton Street with the westerly line of St. Felix Street; thence southerly along the said westerly line of St. Felix Street a distance of fifty-four (54) feet five and three-quarters ($5\frac{3}{4}$) inches; thence westerly along a course drawn at right angles to said westerly line of St. Felix Street a distance of ninety-one (91) feet five and three-quarters ($5\frac{3}{4}$) inches; thence northerly along a course making on the easterly side thereof an angle of ninety degrees (90°) with the course last above described a distance of thirty-nine (39) feet six (6) inches; thence northeasterly along a course making on the southeasterly side thereof an angle of one hundred forty-three degrees thirty-six minutes twenty-seven seconds ($143^\circ 36' 27''$) with the course last above described and part of the distance through a party wall sixty-six (66) feet four (4) inches to the southwesterly line of Fulton Street; thence southeasterly along the said southwesterly line of Fulton Street a distance of sixty-four (64) feet nine (9) inches to the point or place of beginning, be the said dimensions more or less.

The said property is no longer needed for rapid transit purposes and may be sold upon such terms as will adequately safeguard the maintenance and operation of the rapid transit railroad structure through and under a portion of said property, having an area of approximately 1,063.7 square feet, the easement for which rapid transit railroad structure is more clearly defined as follows:

Description by Easement

Beginning at the point formed by the intersection of the southwesterly line of Fulton Street with the westerly line of St. Felix Street; thence southerly along the said westerly line of St. Felix Street a distance of fifty-four (54) feet five and three-quarters ($5\frac{3}{4}$) inches; thence westerly along a course drawn at right angles to the said westerly line of St. Felix Street a distance of one (1) foot; thence northwesterly a distance of fifty (50) feet one and one-half ($1\frac{1}{2}$) inches; thence northwesterly along a course making the northeasterly side thereof an angle of one hundred ninety degrees thirty-one minutes fifty-eight seconds ($190^{\circ} 31' 58''$) with the course last above described a distance of forty-nine (49) feet one and one-half ($1\frac{1}{2}$) inches to the southwesterly line of Fulton Street; thence southeasterly along the southwesterly line of Fulton Street a distance of fifty-six (56) feet nine (9) inches to the point or place of beginning, be the said dimensions more or less.

The vertical limits of the easement to extend to a horizontal plane twelve (12) feet below the elevation of the westerly curb line on St. Felix Street, said curb elevation being taken at the point opposite the intersection of the southwesterly line of Fulton Street and the westerly line of St. Felix Street, said curb elevation being forty-two and twenty-two one-hundredths (42.22) feet above mean sea level at Sandy Hook, as determined by the United States Coast and Geodetic Survey.

The subway or structure has been constructed so as to be capable of safely sustaining in accordance with the requirements of the Building Code of the City of New York as of May 6, 1916, loads as indicated on drawing marked STATE OF NEW YORK, TRANSIT CONSTRUCTION COMMISSIONER, ENGINEERING DEPARTMENT, ROUTE No. 12, SECTION No. 1, BOROUGH OF BROOKLYN, MAP OR PLAN SHOWING PROPERTY FOR RESALE ON SOUTHWEST CORNER FULTON STREET AND ST. FELIX STREET, signed by D. L. TURNER, CHIEF ENGINEER, dated JANUARY 12, 1921, designated as DRAWING No. 131, FILE No. 2901, and also at any and all points at the side of said subway or structure within or adjacent to the premises such thrusts as are not in excess of the respective thrusts which would be exerted at such points as the result of the pressure of a backfill lying over the entire premises above described up to the elevation of the adjacent street surfaces and weighing one hundred (100) pounds per cubic foot and having an angle of repose of thirty degrees (30°) with the horizontal.

This property at the time of its acquisition by condemnation in 1916 was encumbered by three (3) buildings and was a part of a larger holding in fee which embraced the entire frontage of the block on the southerly side of Fulton Street between Ashland Place and St. Felix Street. The award for the property as improved by the buildings, including consequential damage, was \$101,300. Honorable John H. Delaney, Transit Construction Commissioner, by communication dated February 11, 1921, advised your Honorable Board that the whole property, which included the subway easement, was valued by the Tax Department at \$63,800 and that the Tax Department had apportioned this value between the easement to be retained by the City and the fee subject to such easement to be sold, placing the value of the easement at \$4,300 and the value of the fee subject to such easement at \$59,500. Commissioner Delaney then requested the approval of an upset price of \$63,000, which was \$3,500 more than the valuation placed by the Tax Department, upon the interest in the land to be sold. However, the Commissioners of the Sinking Fund, as it was then constituted, increased this upset price to \$100,000. This property was offered at that upset price at public auction in 1921 on the basis of an all cash purchase and on January 16, 1923, it was again offered at public auction upon terms generally similar to those offered by the Comptroller in the extensive sales of surplus City property held in 1922. At neither of these public auction sales was there a single bid. The property is now assessed by the Tax Department at \$63,800. There is no reason to believe that there has been any appreciable change in the relative value for the easement, to wit: \$4,300, since the last apportionment by the Tax Department. There may have been, however, a slight appreciation in the value of the interest in the land to be sold.

The Commission, therefore, pursuant to the provisions of Subdivision 2 of Section 39 of the Rapid Transit Act, hereby requests the approval of your Honorable Board of the sale of the above described property, subject to the easement above set forth, which is to be reserved unto The City of New York, and upon such conditions as the

[April 3, 1923

Commission shall deem in the interests of The City of New York, at public auction for a sum not less than the upset price of \$70,000, the proceeds of such sale to be paid to the Comptroller of The City of New York to be applied as provided by law.

Five (5) blue prints of the drawing referred to in the description of the easement above set forth, are transmitted herewith for the information of your Honorable Board.

Very truly yours,
 GEORGE McANENY,
 Chairman.

428—R. T. 7345

Route No. 48—Report by Real Estate Clerk Recommending Sale at Public Auction of Property at Southwest Corner of William and Beekman Streets, Borough of Manhattan, at Upset Price of \$160,000—Communication to Commissioners of Sinking Fund—Approved

A report was presented from the Real Estate Clerk dated April 2, 1923, recommending that a request be made to the Commissioners of the Sinking Fund to approve the sale at public auction of the property at the southwest corner of William and Beekman Streets, Borough of Manhattan, at an upset price of \$160,000.

The following communication was approved:

April 3, 1923.

COMMISSIONERS OF THE SINKING FUND
 OF THE CITY OF NEW YORK,
 Municipal Building,
 New York City, N. Y.

Sirs:

Under the provisions of Subdivision 2 of Section 39 of the Rapid Transit Act it becomes the duty of the Transit Commission whenever any property which The City of New York shall have acquired, as provided in said Act, shall be unnecessary for rapid transit purposes, to sell and convey the same in behalf of the City; but it is provided that no sale or conveyance shall be made except with the approval of the Commissioners of the Sinking Fund of the City.

Heretofore The City of New York acquired by private purchase pursuant to the Rapid Transit Act for the purposes of construction, maintenance and operation for that part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad known as Route No. 48, Section No. 2, an estate in fee simple to a parcel of land situated at the southwesterly corner of Beekman and William Streets in the Borough of Manhattan, City of New York, and now known as Lot 1, in Block 92, Section 1, on the land map of the County of New York; said premises containing 5,315 square feet and being bounded and described as follows:

Beginning at the point formed by the intersection of the southerly side of Beekman Street and the westerly side of William Street; running thence southerly along the westerly side of William Street forty-nine (49) feet two and one-half ($2\frac{1}{2}$) inches; thence westerly along a line making on the northerly side thereof an angle of eighty-eight degrees five minutes ($88^{\circ} 05' 00''$) with the westerly side of William Street, a distance of twenty-six (26) feet eleven (11) inches; thence northerly along a line at right angles to the last described line one (1) foot five and three-quarters ($5\frac{3}{4}$) inches; thence westerly along a line making on the northerly side thereof an angle of eighty-six degrees seven minutes ($86^{\circ} 07' 00''$) with the last described line extended, a distance of thirty-one (31) feet ten and one-quarter ($10\frac{1}{4}$) inches; thence southerly along a line making on the easterly side thereof an angle of ninety-two degrees and twenty-six minutes ($92^{\circ} 26' 00''$) with the line last described, a distance of forty-three (43) feet eleven (11) inches; thence westerly along a line making on the northerly side thereof an angle of eighty-seven degrees twenty-six minutes ($87^{\circ} 26' 00''$) with the line last described, a distance of twenty (20) feet six and one-half ($6\frac{1}{2}$) inches; thence northerly along a line making on the easterly side thereof an angle of ninety-five degrees thirty-four minutes and thirty seconds ($95^{\circ} 34' 30''$) with the line last described, a distance of six and three-

quarters ($6\frac{3}{4}$) inches; thence westerly along a line making on the southerly side thereof an angle of ninety-four degrees eleven minutes ($94^{\circ} 11' 00''$) with the line last described, a distance of two (2) feet one (1) inch; thence northerly along a line making on the easterly side thereof an angle of ninety-one degrees six minutes and thirty seconds ($91^{\circ} 06' 30''$) with the last described line, a distance of three (3) feet ten (10) inches; thence westerly along a line making on the southerly side thereof an angle of ninety-five degrees and seven minutes ($95^{\circ} 07' 00''$) with the last described line, a distance of six (6) inches; thence northerly along a line making on the westerly side thereof an angle of eighty-four degrees and fifty-three minutes ($84^{\circ} 53' 00''$) with the last described line extended, a distance of ninety-eight (98) feet five and one-half ($5\frac{1}{2}$) inches to the southerly side of Beekman Street; thence easterly along the southerly side of Beekman Street seventy-five (75) feet two (2) inches to the point or place of beginning.

The City acquired title in fee to said premises in three different parcels by private purchase, one on December 15, 1913, one on March 11, 1914 and the other on May 14, 1914. The total purchase price for said three parcels of land was \$226,725.00 which with interest to the date of closing amounted to \$226,749.86. At the time of acquisition the property was improved by three buildings, one of which was quite modern.

The construction of the railroad being completed and in operation and the Chief Engineer of this Department having reported that with the exception of a certain permanent and perpetual easement which must necessarily be reserved and retained for the purpose of maintenance and operation in perpetuity, free of interference and right of interference of said rapid transit railroad including the subway or structure thereof, said property is no longer needed for rapid transit purposes and may be sold upon such terms as will adequately safeguard such maintenance and operation through and under a portion of said property of approximately 2,481 square feet more or less and which easement is more clearly defined as follows:

Description of Easement

Beginning at the point formed by the intersection of the southerly side of Beekman Street and the westerly side of William Street; running thence southerly along the westerly side of William Street forty-nine (49) feet two and one-half ($2\frac{1}{2}$) inches; thence westerly along the southerly property line eighteen (18) feet; thence northerly forty-six (46) feet six (6) inches to a point twenty-two (22) feet six (6) inches southerly from the southerly side of Beekman Street and measured on a line perpendicular thereto; thence northwesterly thirty-four (34) feet two and one-half ($2\frac{1}{2}$) inches to the westerly property line; thence northerly along said westerly property line eleven (11) feet nine (9) inches to the southerly side of Beekman Street; thence easterly along the southerly side of Beekman Street seventy-five (75) feet two (2) inches to the point or place of beginning.

The vertical limits of this easement to include the area of this easement and to extend up to a horizontal plane which is nine (9) feet below the elevation of the westerly curb of William Street, the elevation of said curb being taken at the point where the southerly side of Beekman Street produced would intersect the westerly curb of William Street, the elevation of the top of said curb being thirty and forty-two one-hundredths (30.42) feet above sea level at Sandy Hook, as determined by the United States Coast and Geodetic Survey.

The subway or structure within this easement has been constructed so as to be capable of safely sustaining, according to the present requirements of the Building Code of the City of New York, loads as indicated in detail on drawing marked STATE OF NEW YORK, TRANSIT CONSTRUCTION COMMISSIONER, ENGINEERING DEPARTMENT, ROUTE No. 48, SECTION No. 2, BOROUGH OF MANHATTAN, MAP OR PLAN SHOWING PROPERTY FOR RESALE SOUTHWEST CORNER OF WILLIAM AND BEEKMAN STREETS, signed by D. L. TURNER, CHIEF ENGINEER, dated JANUARY 12, 1920, designated as DRAWING No. 66, FILE No. 2702, and also at any and all points on the side of said subway or structure within or adjacent to the premises such thrusts as are not in excess of the respective thrusts which would be exerted at such points as a result of the pressure of a backfill lying over the entire premises above described up to said existing elevation of the westerly curb of William Street and weighing one hundred (100) pounds per

cubic foot and having an angle of repose of thirty (30) degrees with the horizontal.

This whole property is assessed by the Tax Department (1923) at \$175,000. This valuation includes both the easement to be reserved by The City of New York and the interest in the property which is to be sold. The property has been put up at public auction two times at the upset price of \$185,000, or \$10,000 more than the entire property is valued by the Tax Department. At the last public auction held on January 16, 1923, this property was offered upon terms generally similar to those on which the properties of the City were offered by the Comptroller at the extensive sales of 1922. Although with the consent of your Honorable Board this property has also been offered at private sale, no bid or offer has ever been received at anywhere near the existing upset price and the trend of opinion among inquirers is that this property is being held at a figure \$25,000 to \$30,000 above its present true market value.

The Commission, therefore, pursuant to the provisions of Subdivision 2 of Section 39 of the Rapid Transit Act, hereby requests the approval of your Honorable Board of the sale of the above described property, subject to the easement above set forth, which is to be reserved unto The City of New York, and upon such conditions as the Commission shall deem in the interests of The City of New York, at public auction for a sum not less than the upset price of \$160,000, the proceeds of such sale to be paid to the Comptroller of The City of New York to be applied as provided by law.

Five (5) blue prints of the drawing referred to in the description of the easement above set forth, are transmitted herewith for the information of your Honorable Board.

Very truly yours,
 GEORGE McANENY,
 Chairman.

429—R. T. 7605

Routes Nos. 35 & 67—Communication from Counsel Submitting Proposed Agreement for Show Window and Entrance to Fifth Avenue Station in Front of Premises at Nos. 37-41 West 42nd Street—Approval Resolution

A communication was presented from Counsel dated March 7, 1923, submitting a proposed agreement with The Hoagland Corporation and Stern Brothers for a show window and entrance to the Fifth Avenue station of the Queensboro Subway Line in front of the premises at Nos. 37-41 West 42nd Street, Borough of Manhattan.

The following resolution was adopted:

Whereas, Counsel, with his letter dated March 7, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, Interborough Rapid Transit Company, The Hoagland Corporation, and Stern Brothers for the construction, maintenance and operation of a show window and entrance to Stern Brothers store, Nos. 37-41 West 42nd Street, said show window and entrance abut upon a sub-passageway to a mezzanine of the Fifth Avenue Station of the Queensboro Subway Line, a Rapid Transit Railroad in the Borough of Manhattan and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

430—R. T. 7605

Routes Nos. 35 & 67—Communication from Counsel Submitting Proposed Agreement for Show Window and Entrance to Fifth Avenue Station in Front of Premises at Nos. 43-45 West 42nd Street—Approval Resolution

A communication was presented from Counsel dated March 22, 1923, submitting a proposed agreement with The Gerry Estates, Inc. and Stern Brothers for a show win-

dow and entrance to the Fifth Avenue station of the Queensboro Subway Line in front of the premises at Nos. 43-45 West 42nd Street, Borough of Manhattan.

The following resolution was adopted:

Whereas, Counsel, with his letter dated March 22, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, Interborough Rapid Transit Company, The Gerry Estates, Inc., and Stern Brothers, for the construction, maintenance and operation of a show window and entrance to Stern Brothers store Nos. 43-45 West 42nd Street, said show window and entrance abut upon a sub-passageway to a mezzanine of the Fifth Avenue Station of the Queensboro Subway Line, a Rapid Transit Railroad in the Borough of Manhattan and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer, Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

431—R. T. 6080

Route No. 39—Application by Samuel Gilman for Permission to Take Over Concession of Jacob Kalmus at Northeast Corner of 85th Street and 18th Avenue, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Samuel Gilman dated March 29, 1923, requesting permission to occupy the concession held by Jacob Kalmus at the northeast corner of 85th Street and 18th Avenue, Borough of Brooklyn, at the same rental.

A report was presented from the Real Estate Clerk dated March 31, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By communication dated March 29, 1923, Jacob Kalmus proposes to surrender the concession held by him near the northeasterly corner of 85th Street and 18th Avenue, Borough of Brooklyn, effective as of April 1, 1923; and

Whereas, Samuel Gilman by application dated March 29, 1923, has requested permission to occupy the concession surrendered by Jacob Kalmus at the same rental and upon the same terms as govern Mr. Kalmus's occupancy of the concession; and

Whereas, The Real Estate Clerk, under date of March 31, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, terminate the concession of the said Jacob Kalmus as of April 1, 1923, and that it do, and hereby does, approve the application of Samuel Gilman, dated March 29, 1923, to occupy the concession as of April 1, 1923, and that the Secretary be, and he hereby is, authorized to subscribe the approval of the Commission on the said application of Samuel Gilman.

432—Case 2682

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which Two Bridges Carrying the Main Drive in Forest Park Over Tracks of the Rockaway Beach Division and the Montauk Division Shall be Altered or Changed—Hearing Resolution with Notice Adopted

The Secretary presented two resolutions adopted by the Board of Estimate and Apportionment on March 23, 1923, requesting the Commission to determine the manner in which two bridges carrying the Main Drive in Forest Park over the right of way of the Rockaway Beach Division and the Montauk Division of The Long Island Rail-

road Company, should be altered or changed. The Secretary also presented a map transmitted with said resolutions showing said changes.

Thereupon, the Commission adopted and ordered filed a resolution in Case No. 2682, directing a hearing on April 25, 1923 at 10:30 A. M., with respect to said application and requiring that ten days personal service of said resolution be made upon The City of New York and the Company, and that notice of said hearing be published and authorizing George L. Lucas, Acting Chief Executive Officer to the Commission, pursuant to Sections 8 and 11 of the Public Service Commission Law to conduct said hearing, to take the testimony therein and report the same to the Commission with his opinion thereon for its decision and determination.

433

Staten Island Rapid Transit Railway Company—New Tariff Showing Reduction in Monthly School Tickets between All Stations South of Annadale and Tottenville—Report by Chief of Transit Bureau Recommending Filing—Report Approved

The Secretary presented a proposed tariff supplement designated as Supplement No. 7, T. C. N. Y. No. 158, effective April 23, 1923, filed by The Staten Island Rapid Transit Railway Company, showing a reduction ranging from 43 cents to 60 cents each on monthly school tickets between all stations south of Annadale and Tottenville, Staten Island.

The Secretary also presented a report, dated March 27, 1923, from the Chief of the Transit Bureau, recommending that the tariff above mentioned be filed.

Thereupon, the above mentioned report was approved and said tariff filed.

Agreement "CC"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Changes in Subway Structures to Permit Widening of East 60th Street, Borough of Manhattan, and Authorizing Appropriation of \$62,000—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 23, 1923, was ordered filed:

(Cal. No. 222)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated February 27, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to the contract with Benedetto, Saussez and Bottino, for making changes in subway structures necessitated by the widening of 60th street, between 2d and 5th avenues, Borough of Manhattan, at an estimated cost of sixty-two thousand dollars (\$62,000); the cost thereof to be charged to the tax note appropriation authorized by the Board of Estimate and Apportionment on July 19, 1922 (Code NPM-59, Reconstructing Gratings, Vault Lights, etc., along the Curb Line of 60th Street, Between 2d and 5th Avenues, to Permit of the Widening of the Roadway of the Street); all payments in connection with said contract to be made

upon vouchers prepared by the Transit Commission and certified by the President of the Borough of Manhattan.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

452—R. T. 7612

Agreement "CG"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Concreting Voids under Platform of Eighth Street Station and Authorizing Appropriation of \$1,236—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 23, 1923, was ordered filed:

(Cal. No. 220)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated November 14, 1922, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to the contract with Edwards and Flood, Inc., for concreting voids under platform of 8th street station, Route No. 5, Section No. 4 (Agreement "CG"), Borough of Manhattan, at an estimated cost of one thousand two hundred and thirty-six dollars (\$1,236); and be it further

Resolved, That the Comptroller be and is hereby authorized to charge the cost of said contract against the 1923 Budget appropriation for the President, Borough of Manhattan, "Code 382, Contract or Open Order Service, General Repairs" (instead of to an issue of corporate stock, to be authorized for the purposes of said contract, as requested in the requisition of the Transit Commission, dated November 14, 1922); all payments for said work to be made on vouchers prepared by the Transit Commission and certified by the President of the Borough of Manhattan.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

453—R. T. 6594

Route No. 48, Section No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Agreement for Construction of Increased Facilities at Wall Street Station and Authorizing Appropriation of \$32,750 as City's Share—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 23, 1923, was ordered filed:

(Cal. No. 221)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated February 20, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement (subject to its approval, as to form, by the Corporation Counsel) with the Interborough Rapid Transit Company, as lessee, for the construction of increased facilities at the Wall street station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, as addition to construction under Contract No. 3, at a cost to The City of New York of thirty-two thousand seven hundred and fifty dollars (\$32,750), being one-half of the total estimated cost of sixty-five thousand five hundred dollars (\$65,500); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be thirty-two thousand seven hundred and fifty dollars (\$32,750); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding thirty-two thousand seven hundred and fifty dollars (\$32,750) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said addition to construction, under said agreement; said issue of corporate stock to be charged as a subauthorization against the general

appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriation subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

454—R. T. 7617

Route No. 16—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Agreement for Construction of Additional Station Facilities at 161st Street Station and Authorizing Appropriation of \$23,625 as City's Share—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 23, 1923, was ordered filed:

(Cal. No. 224)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated March 6, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement (subject to its approval, as to form, by the Corporation Counsel) with the Interborough Rapid Transit Company, as lessee, for the construction of permanent additional station facilities at the 161st Street Station of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, as addition to construction under Contract No. 3, at a cost to The City of New York of twenty-three thousand six hundred and twenty-five dollars (\$23,625), being one-half of the total estimated cost of such addition to construction, namely, forty-seven thousand two hundred and fifty dollars (\$47,250), in excess of the sum of eighteen thousand seven hundred and fifty dollars (\$18,750), contributed by the American League Baseball Club of New York, Inc., the owner of the property on westerly side of River avenue, between East 157th street and East 161st street; without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-three thousand six hundred and twenty-five dollars (\$23,625); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty-three thousand six hundred and twenty-five dollars (\$23,625), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said addition to construction, under said agreement; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Routes Nos. 16 and 18—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Agreement for Construction of Additional Waiting Rooms at 219th Street Station of White Plains Road Line and Kingsbridge Road Station of Jerome Avenue Line and Authorizing Appropriation of \$1,000 as City's Share—Filed

The following certified copy of the resolution adopted by the Board of Estimate and apportionment on March 23, 1923, was ordered filed:

(Cal. No. 223)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated February 27, 1923, the Board of Estimate and Apportionment does hereby

consent to the proposed agreement (subject to its approval, as to form, by the Corporation Counsel) with the Interborough Rapid Transit Company, as lessee, for the construction of additional waiting rooms on the northbound platform of the 219th Street Station of the White Plains Road Line and on the northbound platform of the Kingsbridge Road Station of the Jerome Avenue Elevated Line, as addition to construction, under Contract No. 3, at a cost to The City of New York of one thousand dollars (\$1,000), being one-half of the total estimated cost of two thousand dollars (\$2,000); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one thousand dollars (\$1,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one thousand dollars (\$1,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said addition to construction, under said agreement; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

456

Street Changes—Certified Copies of Resolutions of Board of Estimate and Apportionment Establishing Roadway and Sidewalk Widths and Authorizing Removal of Encroachments on West 35th Street between Sixth Avenue and Broadway, Borough of Manhattan—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on March 23, 1923, were ordered filed:

(Cal. No. 44-A)

Resolved, By the Board of Estimate and Apportionment that the widths of the roadway and sidewalks on West 35th street from west curb line of 6th avenue to the east curb line of Broadway, Borough of Manhattan, be established as follows:

The roadway shall have a width of thirty-seven (37) feet.

The width of the sidewalk on the north side of the street shall be thirteen (13) feet; and be it further

Resolved, By the Board of Estimate and Apportionment that all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, By the Board of Estimate and Apportionment that the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 44-B)

Whereas, The entire width of West 35th street between Broadway and 6th avenue, Borough of Manhattan, is required for public purposes; be it

Resolved, By the Board of Estimate and Apportionment that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of West 35th street between Broadway and 6th avenue, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the

proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, By the Board of Estimate and Apportionment that the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 23, 1923.

Contract No. 2—Communication from Chief Engineer Transmitting Determination of "A" and "B" Claims of Rapid Transit Subway Construction Company for Construction of Section No. 2-A—Filed

The following report by the Chief Engineer was ordered filed:

March 27, 1923.

TO TRANSIT COMMISSION:

Contract 2, Section 2-A

Determination of "A" and "B" Claims of Contractor.

Pursuant to the provisions of the contract dated July 21, 1902, between The City of New York acting by the Board of Rapid Transit Railroad Commissioners for The City of New York and Rapid Transit Subway Construction Company for the construction and operation of the Brooklyn-Manhattan Rapid Transit Railroad, known as Contract No. 2 and pursuant to the order and writ of mandamus served on my predecessor "In the Matter of the Application of the People of The State of New York on the relation of Rapid Transit Subway Construction Company for a writ of mandamus against Alfred Craven, as Chief Engineer of the Public Service Commission of The State of New York for the First District," I have made my determination in writing and in duplicate of the reasonable value of additional work done and additional materials furnished by the Contractor, the Rapid Transit Subway Construction Company, for that portion of the Railroad known as Subsection No. 2-A detailed and set forth in the A and B claims as presented by the said contractor October 2, 1912 limiting my determination to additional work and additional material within the general purview of the rapid transit railroad as described in the routes and general plan in said Contract No. 2.

One duplicate of said determination is filed with your Commission as successor to the "Board" referred to in Contract No. 2.

ROBERT RIDGWAY,
Chief Engineer.

458—R. T. 6604

Route No. 29—Receipt from Department of Finance for Check in Sum of \$725 Deposited by Title Guarantee & Trust Company to Cover Liens on Property Sold at Public Auction on Nostrand Avenue between Eastern Parkway and Union Street, Borough of Brooklyn—Filed

The following receipt was ordered filed:

March 30, 1923.

CHARLES L. CRAIG,
Comptroller.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE
Bureau of Accountancy
Division of Receipts

Received from Transit Commission check of the Title Guarantee & Trust Company for Seven hundred twenty-five ⁰⁰/100 Dollars (\$725.00)

Particulars:

Amount held in escrow by Title Guarantee & Trust Company to cover certain liens against property known as Plot II, westerly side of Nostrand Avenue, between Eastern Parkway and Union Street, Brooklyn, sold to Hygrade Homes, Inc., J. I.

Anson, President, 1043 Pacific Street, Brooklyn, assigned to St. Marks Holding Corporation, 1043 Pacific Street, Brooklyn, N. Y.

The liens having been discharged, the Title Company has transmitted said amount, but has declined to pay interest upon it.

To be credited to Suspense Account Code No. S 109 C (Real Estate Sales and Rentals of the Transit Commission).

For Comptroller,

H. H. RATHYEN,
Auditor of Receipts.

459—R. T. 4039

Centre Street Loop—Receipt from Department of Finance for Check in Sum of \$12,915 as Balance of Purchase Price for Property Sold at Public Auction on West Side of Centre Street between Canal and Walker Streets, Borough of Manhattan—Filed

The following receipt was ordered filed:

March 28, 1923.

CHARLES L. CRAIG,
Comptroller.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE
Bureau of Accountancy
Division of Receipts

Received from Transit Commission check for Twelve thousand nine hundred fifteen
00/100 Dollars (\$12,915.00)

Particulars:

Balance of purchase price of Plot III, westerly side of Centre Street, between Canal and Walker Streets, Borough of Manhattan, sold to Louis Ullman and assigned to Centre Holding Co., Inc.

To be credited to Suspense Account Code No. S 109 C (Real Estate Sales and Rentals of the Transit Commission).

For Comptroller,

H. H. RATHYEN,
Auditor of Receipts.

Employees' Resolution No. 135

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—George W. Cook, Jr., engineering inspector, at \$150.08 per month, to take effect April 30, 1923; Elton R. DeShaw, architectural draftsman, at \$150.08 per month, to take effect March 26, 1923; Israel Malin, draftsman, at \$150.08 per month, to take effect April 9, 1923; Herman S. Stern, stenographer, at \$90.00 per month, to take effect April 9, 1923.

Appointments under Rule VIII:4—Ralph H. Baxter, junior assistant, at \$125.08 per month, to take effect March 28, 1923; Willard J. Carmel, draftsman, at \$150.08 per month, to take effect April 2, 1923; Leon A. Humphrey, draftsman, at \$150.08 per month, to take effect April 2, 1923; Aubrey L. McCaffrey, draftsman, at \$150.08 per month, to take effect April 2, 1923; Joseph S. Parker, draftsman, at \$150.08 per month, to take effect March 27, 1923; Samuel Weinberg, draftsman, at \$150.08 per month, to take effect March 28, 1923.

Rescission of Appointment—Mervil V. Broadbent, engineering inspector, at \$150.08 per month, to take effect March 22, 1923.

Rescission of Termination of Appointment under Rule VIII:4—James W. Carew, engineering inspector, at \$150.08 per month, to take effect March 21, 1923.

Resignations—Dorothy A. Caton, junior clerk, at \$60.00 per month, to take effect January 23, 1923; Jacob Drapkin, junior assistant, at \$125.08 per month, to take effect April 2, 1923; Maurice Friedlander, junior assistant, at \$125.08 per month, to take effect March 31, 1923; Peter M. Joyce, inspector special trackwork installation, at

\$125.08 per month, to take effect March 21, 1923; William F. Lynaugh, mechanical engineer, at \$150.08 per month, to take effect February 28, 1923.

Termination of Appointments under Rule VIII:4—Chester W. Barber, junior assistant, at \$125.08 per month, to take effect April 13, 1923; Lee P. Fox, junior assistant, at \$125.08 per month, to take effect April 6, 1923; George P. Kuzmier, draftsman, at \$150.08 per month, to take effect April 6, 1923; Walter H. Lankenau, junior assistant, at \$125.08 per month, to take effect April 6, 1923; Augustus Miller, junior assistant, at \$125.08 per month, to take effect April 6, 1923; Morris Roberts, draftsman, at \$150.08 per month, to take effect April 19, 1923; Henry I. Tuthill, junior assistant, at \$125.08 per month, to take effect April 6, 1923.

Change of Item in Resolution of March 13, 1923, Concerning Mervil Broadbent, so as to Read as Follows: (Termination of Appointment under Rule VIII:4)—Mervil Broadbent, engineering inspector, at \$150.08 per month, to take effect March 17, 1923.

Leave of Absence without Pay—Winifred L. Anderson, clerk, from April 7, 1923, to April 23, 1923; F. C. Cannon, engineering inspector, from April 1, 1923, to June 30, 1923.

461

Voucher Schedule No. 14

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 329-343, open market orders, \$734.65; Vouchers Nos. 175-185, miscellaneous bills, \$4,382.30; Voucher No. 8, special pay roll, \$1,250.00.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 80; Bethlehem Steel Products Company; approximate estimate No. 2 for the supply of special work and other track materials, Order No. 20, for use in the construction of a part of the Jerome Avenue Yard, Route No. 16, from February 16, 1923 to March 15, 1923 (R. T. 7470) \$12,357.00;

Voucher No. 81; Station Finish Corporation, Assignee; approximate estimate No. 8 for the construction of station finish on Sections No. 3, 4 and 5 of Route No. 8, from March 1, 1923 to March 31, 1923 (R. T. 7516) \$17,864.00;

Voucher No. 82; John Pollock, approximate estimate No. 3, for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, from March 1, 1923 to March 31, 1923 (R. T. 7609) \$2,684.35.

Voucher No. 179; Rosalind Blanche Fletcher; damage to easements of light, air and access to premises at No. 1123 Gravesend Avenue, Borough of Brooklyn, in the construction of rapid transit railroad, Supreme Court Order dated November 3, 1922, \$1,427.06.

Routes Nos. 4 & 38, Section No. 6—Report by Chief Engineer Recommending Requisition for Additional Appropriation of \$162.50 as City's Share for Increasing Width of Extension of North End of Express Platform at Pennsylvania Station—Approval Resolution—Requisition upon Board of Estimate and Apportionment

A report by the Chief Engineer dated February 10, 1923, as described below, was approved, and the following resolution was adopted:

Whereas, By resolution adopted January 31, 1922, this Commission pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 3, directed the Interborough Rapid Transit Company as Lessee under said contract, to perform the work of constructing an extension of 4' 6" to both sides of the platform at the northerly end of the express platform of the Pennsylvania Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line, described in said contract as an Addition to Construction and directed the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$37.50, being the City's share of the cost of constructing said Addition, which appropriation was made by the Board of Estimate and Apportionment by resolution adopted on March 9, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated February 10, 1923, reported that said platform extension should be increased to 15' on each side of the north end of the platform instead of 4' 6" at an estimated increased cost of \$325 and has recommended that the Commission approve of the performance of such additional work as an Addition to Construction under said Contract No. 3,

Resolved, That said report and recommendation be and the same hereby is approved; that the performance of such increased work to the limit of the 15' on each side of the north end of the express platform of said station, be and the same hereby is authorized and approved as an Addition to Construction and as to which, including the work heretofore authorized by resolution adopted January 31, 1922, as aforesaid, this Commission assigns-Work Order No. IAA-11 and that the requisition in the form

now submitted by Counsel upon the Board of Estimate and Apportionment for the appropriation of the sum of \$162.50 being the City's share of the cost of constructing such additional work, be and the same hereby is approved and that it be transmitted to the said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 10, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board on March 9, 1923, adopted the following resolution:

"(Cal. No. 22)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated January 31, 1922, the Board of Estimate and Apportionment does hereby consent to an agreement with the Interborough Rapid Transit Company, as lessee, for the construction of platform extensions at the northerly end of the express platform of the Pennsylvania Station of the 7th Avenue Branch of the 7th Avenue-Lexington Avenue Line, as addition to construction, under Contract No. 3, at an estimated cost to The City of New York of thirty-seven dollars and fifty cents (\$37.50), being one-half of the total estimated cost of seventy-five dollars (\$75); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be thirty-seven dollars and fifty cents (\$37.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding thirty-seven dollars and fifty cents (\$37.50), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said agreement; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3."

Under date of February 10, 1923, the Chief Engineer of this Commission reported with respect to the subject of construction of such platform extensions as follows:

"This refers to letter of January 29, 1923, received from Mr. Frank Hedley, President and General Manager, Interborough Rapid Transit Company, stating that on January 31, 1922, the Commission approved of extending both sides of the north end of the express platform on above station about 4 feet 6 inches and called upon the Board of Estimate and Apportionment to appropriate the necessary funds to cover one-half of the cost. The letter requests (since the Board of Estimate has not acted on requisition) that an extension of 15 feet be made on each side of the north end of the platform instead of the above extension at an estimated cost of \$400.

Transmitted herewith is one print of Drawing No. 1131, File No. 1706, showing the extension which is now requested. It is understood that this additional length is needed to permit of a greater leeway in the stopping of trains. I am of the opinion that this improvement is needed and that the estimate of \$400 is reasonable. I therefore respectfully

Recommended, That the resolution of January 31, 1922, making a request of \$37.50 for an extension of 4 feet 6 inches at the north end on both sides of the express platform be withdrawn from the Board of Estimate and that a new request be made for the sum of \$200, one-half the amount of the estimated cost for a similar extension 15 feet long."

The Transit Commission has approved such report and recommendation of its Chief Engineer and has authorized the performance of such work as an Addition to Construction by a resolution, a certified copy of which is transmitted herewith.

Your Honorable Board is accordingly requested to appropriate for the purposes of such work the additional sum of One hundred and Sixty-two Dollars and Fifty Cents (\$162.50) making the same a charge against the appropriations heretofore made for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 3, the same source from which Thirty-seven Dollars and Fifty Cents (\$37.50) was heretofore appropriated.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

466—R. T. 7449

Contract No. 3—Report by Chief Engineer Recommending Requisition for Additional Appropriation of \$109.46 as City's Share for Construction of Experimental Control Railings at Times Square Station—Resolution Directing Requisition upon Board of Estimate and Apportionment—Resolution Assigning Work Order No. IAA-9—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated February 3, 1923, recommending that a requisition be made upon the Board of Estimate and Apportionment for an appropriation of \$109.46 to cover the City's share of the estimated cost of constructing experimental control railings along the express side of the northbound Times Square Station.

The following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York, by resolution adopted January 21, 1921, appropriated the sum of \$325 for the purpose of meeting the City's one-half share of the cost of constructing as an Addition to Construction under the provisions of Contract No. 3 of installing as an experiment a section of control railing at the Times Square Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line, described in said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated February 3, 1923 reported that an additional appropriation of \$109.46 is required to meet the full share of one-half of the cost of such work; and

Whereas, The Auditor of Rapid Transit Costs has recommended that Work Order No. IAA-9 be assigned to such unit of work,

Resolved, That said reports and recommendations be and the same hereby are approved; that this Commission assigns to said unit of work as heretofore authorized by this Commission by resolution adopted November 29, 1920, Work Order No. IAA-9 and that the requisition upon the Board of Estimate and Apportionment for the appropriation of an additional sum of \$109.46 in the form now submitted by Counsel be transmitted to the Board of Estimate and Apportionment:

Whereas, This Commission, by resolution adopted May 16, 1921, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, authorized as an Addition to Construction the performance of the work of changing the section of control railing as therein more particularly indicated and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$50, being one-half of the estimated cost of such work, which sum was appropriated by the Board of Estimate and Apportionment on January 27, 1922; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated February 3, 1923, recommended that a work order number be assigned to said unit of work; and

Whereas, The Auditor of Rapid Transit Costs, by communication dated March 23, 1923, has recommended that Work Order No. IAA-9 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that this Commission assigns to said unit of work as heretofore approved on May 16, 1921 Work Order No. IAA-9.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 10, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board on January 21, 1921, adopted the following resolution:

"Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891 as amended; the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Construction Commissioner, dated November 29, 1920, the Board of Estimate and Apportionment does hereby consent to and authorize an appropriation of three hundred and twenty-five dollars (\$325) for the purpose of meeting the City's share of the cost of installing, as an experiment, a section of control railing at the Times Square station of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad in order to permit of the quicker loading and unloading of passengers and a shorter station stop at said station; the total cost of which experimental railing is six hundred and fifty dollars (\$650), and of which cost, pursuant to the provisions of article LXX of Contract No. 3 as they relate to additions to existing railroads, the City is to provide one-half and the operating company the other half; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three hundred and twenty-five dollars (\$325); and be it further

Resolved, That the Comptroller be and he is hereby authorized and requested to issue corporate stock of the City of New York to an amount not exceeding three hundred and twenty-five dollars (\$325), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the payment of the City's share of the cost of an experimental control railing at the Times Square station of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, as hereinabove set forth and as more particularly described in the requisition of the Transit Construction Commissioner to this Board, dated November 29, 1920; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the supplemental general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3."

The Chief Engineer of the Commission under date of February 3, 1923 reported with respect to the following:

"The construction of experimental platform control railings along the express side of the northbound Times Square station platform, on the 7th Avenue Line. Construction of this as an Addition was authorized by order of the Transit Construction Commissioner on November 29, 1920. The Board of Estimate appropriated \$325.00 on January 21, 1921 to cover the City's share of the estimated cost thereof. The total cost of this work under Interborough Rapid Transit Company Job No. C-S-7-A, was \$868.91. the City's share, one-half of this cost, is \$434.46, hence an additional appropriation of \$109.46 is required.

A requisition is accordingly made upon your Honorable Board for the appropriation of the additional sum of One hundred and Nine Dollars and Forty-six cents (\$109.46) to meet the City's share of the total cost of installing such railings, such additional appropriation to be a charge against and not in addition to the appropriations heretofore made by your Honorable Board for the purposes of carrying out the contract dated March 19, 1913, between the City of New York and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

467—R. T. 7118, 7103

Contract No. 3—Report by Chief Engineer Recommending that Requisition be Made upon Board of Estimate and Apportionment for Appropriation of \$750 to be Placed at Disposal of Department of Docks to Cover Cost of Driving Test Piles at 148th Street and Lenox Avenue Yard in Connection with Bulkhead Construction—Approval Resolution—Requisition upon Board of Estimate and Apportionment

A report by the Chief Engineer dated April 10, 1923, as described below, was approved and the following resolution was adopted:

Whereas, In connection with the construction of that portion of the Railroad described in the contract dated March 19, 1913, known as Contract No. 3, commonly referred to as the 148th Street and Lenox Avenue Yard, it is necessary to drive test piles for the purposes of determining the character of the subsoil at that point so as to provide for the construction of the permanent bulkhead along the westerly shore of the Harlem River at said Yard; and

Whereas, The Chief Engineer of this Commission, by communication dated April 10, 1923, has reported with respect to such work and has recommended that a requisition be made upon the Board of Estimate and Apportionment for the appropriation of the sum of \$750, and the transfer of said sum to the Department of Docks, for the performance of such work; and

Whereas, Counsel has prepared and submitted a proposed requisition upon the Board of Estimate and Apportionment, which will effect said recommendation of the Chief Engineer aforesaid,

Resolved, That said report and recommendation be and the same hereby is approved and the requisition so submitted be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 10, 1923

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

In connection with the construction of that part of the Railroad described in the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, commonly referred to as the Lenox Avenue and 148th Street Yard, there is to be erected a bulkhead construction along the westerly shore of the Harlem River, incidental and preliminary to which it is necessary to drive test piles in order to determine the character of the subsoil at that point.

The Chief Engineer of this Commission, in a communication dated April 10, 1923, in reporting with respect to this portion of said work, stated and recommended as follows:

"In connection with the proposed bulkhead construction along the westerly shore of the Harlem River to be constructed as a part of the improvements at the 148th Street and Lenox Avenue Yard of the Interborough Rapid Transit Systems, it is proposed to drive test piles in order to determine the character of the sub-soil at that point.

The Department of Docks has done a very considerable amount of this kind of work and is thoroughly equipped therefor. If they would drive the test piles, the information so obtained would surely be thoroughly reliable and equally as good as we could obtain from a contractor to whom a contract was let at public bidding. This would also use city equipment advantageously. The matter has been taken up with Commissioner Delaney of that Department and I have been advised that the said Department will be very glad to cooperate and do this work for us. First Deputy Commissioner Michael Cosgrove in a letter of April 5, 1923, to me, estimates the cost of the proposed work as approximately \$600. To allow for contingencies, an appropriation of \$750 should be asked for. Accordingly, I would respectfully

Recommended, That the Commission make a requisition on the Board of Estimate for the sum of \$750 to be placed at the disposal of the Department of Docks to cover the cost of the work of driving these test piles."

The Transit Commission has approved said report and recommendation and in order to effect the same hereby makes requisition upon your Honorable Board for the appropriation of the sum of Seven hundred and fifty dollars (\$750) for the purpose of driving test piles as a part of the construction of the said Yard and chargeable thereto, said sum of Seven hundred and fifty dollars (\$750) to be transferred to the Department of Docks and to be expended under the direction of the Commissioner of Docks in the performance of such work.

The requisition herein made is a subrequisition under and not in addition to those heretofore made for the purposes of carrying out said Contract No. 3 and is to be a charge against the appropriations made in consequence thereof.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

468—R. T. 6458

Contract No. 1—Communication from Board of Estimate and Apportionment Referring Back Proposed Agreement for Additional Stairway at 96th Street Station with Request that Plan be Submitted Showing Entrance within Curb Line Instead of in Park Area—Referred to Chief Engineer

The following communication from the Board of Estimate and Apportionment was referred to the Chief Engineer:

(Cal. No. 55)

April 6, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

Referring to your communications dated February 20 and February 27, 1923, submitting for the consent of this Board, proposed agreement with the Interborough Rapid Transit Company for the performance of the work of constructing an additional stairway at the southerly end of the 96th Street station of the Manhattan-Bronx Rapid Transit Railroad, and requesting an appropriation of \$25,000 as being the estimated cost of the City's share of the expense of carrying out this work, I am directed to advise you that at the meeting of the Board of Estimate and Apportionment on April 6, 1923, this matter was referred back to the Transit Commission with the request that a plan be submitted showing entrance from the surface within the curb line instead of from the park area in the middle of the street.

Respectfully,
JAMES MATHEWS,
Assistant Secretary.

469—R. T. 7419

Contracts Nos. 3 and 4—Resolution Approving Sureties upon Bond Deposited by Contractor for Completion of Built-in Newsstand Enclosures at Stations—Adopted

The following resolution was adopted:

Resolved, That the Royal Indemnity Company and the Eagle Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Four thousand (\$4,000) dollars, deposited by Fox, Reynolds Co., Inc., as security for the faithful performance of the contract for the completion of built-in newsstand enclosures at stations of Rapid Transit Railroads, each of said sureties being held and bound in the sum of Two thousand (\$2,000) dollars.

470—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Oil Switches for Installation in Substation No. 27—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 14, 1923, requesting approval of a proposed purchasing agent's order directed to the Westinghouse Electric & Manufacturing Company for furnishing five electrically operated oil switches to be installed at Substation No. 27 at a cost of \$8,250.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 27, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the work be classified as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, Interborough Rapid Transit Company has submitted, for the approval of this Commission, proposed purchasing agent's order dated March 14, 1923, directed to the Westinghouse Electric & Manufacturing Company for the following:

- 5 Westinghouse type "E-6" 23,000 volt, 600 amp, 3 P. S. T. electrically operated oil switches similar to those furnished on our order C-35862, requisition S-5026-HAK. Each switch to have full automatic features and equipped with 3 mechanically operated disconnecting switches and 50 amp type "C" relay switch and are to be quick operating.

Price \$8,250.00 net

which proposed purchasing agent's order has been caused to be designated as "Approval No. 465"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated March 27, 1923, reported that such switches are similar to those heretofore purchased; that they are necessary for the operation of Substation No. 27, forming part of the Equipment of the Railroad described in said Contract No. 3; that no other bids were taken as Westinghouse equipment is specified, which is according to the standard similar equipment of the company and recommend that the said proposed purchasing agent's order be approved; and

Whereas, By endorsement dated March 31, 1923, the Auditor of Rapid Transit Costs has recommended that such work be classified as Equipment of the Railroad as defined in said Contract No. 3,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission, made part of said proposed purchasing agent's order.

471—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Two Proposed Purchasing Agent's Orders for Furnishing Car Wheels for Subway Division—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

Two applications were presented from the Interborough Rapid Transit Company dated March 20, 1923, requesting approval of two proposed purchasing agent's orders,

one directed to the Carnegie Steel Company and one to the Cambria Steel Company for furnishing car wheels for the subway division at a total cost of \$122,999.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer recommending that the applications be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the expense be classified as Operating Materials and Supplies Account.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, Interborough Rapid Transit Company has submitted for the approval of this Commission two purchasing agent's orders, both dated March 20, 1923, one directed to Carnegie Steel Company for the following:

<i>Item No.</i>	
1	1,000 Wheels, 31- $\frac{1}{4}$ " rolled steel, 5- $\frac{9}{16}$ " rough bore, Trailer Truck, B/P 4524-K, Spec. 48-E. Price—\$41.50 each \$41,500.00
2	402 Wheels, 34- $\frac{1}{4}$ " rolled steel, 6- $\frac{13}{16}$ " rough bore, Motor Truck, B/P 9380-B Spec. 48-E. Price—\$49.75 each 19,999.50 $\frac{1}{2}\%$ —10 days.
Total \$61,499.50	

Deliveries to be made to our dock at 148th St. & Harlem River as follows:

200—31- $\frac{1}{4}$ " Trailer Wheels not later than May 15th, 1923. Balance as required on sixty days notice.

<i>Other Bidders</i>		
	<i>Item 1</i>	<i>Item 2</i>
Cambria Steel Company.....	\$41.50 ea.	\$49.75 ea.
Standard Steel Works.....	41.50 ea.	49.75 ea.
Edgewater Steel Company.....	41.50 ea.	49.75 ea.
Forged Steel Wheel Company.....	No Bid	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 466," and the other of said proposed purchasing agent's order being directed to Cambria Steel Company for the following:

<i>Item No.</i>	
1	1,000 Wheels, 31- $\frac{1}{4}$ " rolled steel, 5- $\frac{9}{16}$ " rough bore, Trailer Truck, B/P 4524-K Spec. 48-E. Price—\$41.50 each \$41,500.00
2	402 Wheels, 34- $\frac{1}{4}$ " rolled steel, 6- $\frac{13}{16}$ " rough bore, Motor Truck, B/P 9380-B. Spec. 48-E. Price—\$49.75 each 19,999.50 $\frac{1}{2}\%$ —10 days.
Total \$61,499.50	

Deliveries to be made to our dock at 148th St. & Harlem River as follows:

200—31- $\frac{1}{4}$ " Trailer Wheels not later than May 15th, 1923. Balance as required on sixty days notice.

<i>Other Bidders</i>		
	<i>Item 1</i>	<i>Item 2</i>
Carnegie Steel Company.....	\$41.40 ea.	\$49.75 ea.
Standard Steel Works.....	41.50 ea.	49.75 ea.
Edgewater Steel Company.....	41.50 ea.	49.75 ea.
Forged Steel Wheel Company.....	No Bid	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 467"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated March 28, 1923, reported that such car

wheels are necessary for maintenance of the Railroad and Existing Railroads, as described in said contract No. 3; that the estimated expense under said proposed purchasing agent's orders is \$122,999; that the price is not unreasonable and the best obtainable and recommend that the said proposed purchasing agent's orders be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated April 2, 1923, has recommended that such expense be classified as Operating Materials and Supplies Account,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's orders so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission, made part of said proposed purchasing agent's orders.

472—R. T. 6699, 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Agreeing to Make Necessary Changes in Steel Work in Connection with Installation of Second Escalator at the Park Place Station—Report by Chief Engineer Recommending Approval—Approval Resolution

A communication was presented from the Interborough Rapid Transit Company dated April 9, 1923, agreeing to make necessary changes in the steel work and other incidental work necessary for the installation of a second escalator at the Park Place Station of the Seventh Avenue Line as a part of Construction under Contract No. 3.

A report was presented from the Chief Engineer dated April 9, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3 said Interborough Rapid Transit Company is installing a second escalator at the Park Place Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3 pursuant to requirements of this Commission and the provisions of said Contract No. 3; and

Whereas, Questions have arisen as to the respective obligations of the City and said Interborough Rapid Transit Company with respect to the completion of certain details in and about the installation of said escalator; and

Whereas, Interborough Rapid Transit Company by communication dated April 9, 1923 from Frank Hedley, its President and General Manager has, following conferences between the representatives of said parties, agreed to make the necessary changes in the steel work and to provide and install the checkered plates in connection with the installation and as a part of the cost of installing said escalator and to complete the concrete work at both ends of the escalator well; to supply and install the tile work and to provide and install the railings all as more particularly shown upon the plans therefor as a part of Construction as defined in said Contract No. 3, the cost thereof to be charged to the contribution of said Interborough Rapid Transit Company to the Cost of Construction as provided for in said Contract No. 3; and

Whereas, The Chief Engineer of this Commission by communication dated April 9, 1923 has recommended the approval of said proposal,

Resolved, That said recommendation be and the same hereby is approved; that Interborough Rapid Transit Company be and hereby is directed and authorized to perform the work of completing the necessary concrete flooring about the escalator well; to install the tile and railing necessarily incidental to the installation of the said escalator at the Park Place Station aforesaid, such work to be classified as Construction and the cost thereof to be charged to the contribution of the Interborough Rapid Transit Company to the Cost of Construction under and in accordance with the provisions of said Contract No. 3, it being understood that the necessary alteration in the steel and the supply and installation of the checkered plates necessary for the installation of said escalator will be performed by said Interborough Rapid Transit Company as a part of Equipment, as defined in said Contract No. 3.

473—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Insulator Caps, Cups, Supports and Pins—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated March 13, 1923, requesting approval of a proposed purchasing agent's order directed to the Eastern Malleable Iron Company, Troy Malleable Iron Works, for furnishing insulator caps, cups, supports and pins at a total cost of \$3,400 as part of equipment necessary for the initial operation of the Fourteenth Street-Eastern Line.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 27, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the work be classified as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, Lindley M. Garrison, as Receiver of said New York Municipal Railway Corporation, has, by communication dated March 13, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated March 13, 1923, directed to Eastern Malleable Iron Company, Troy Malleable Iron Works, for the following:

1900 M. I. Third Rail Insulator Caps, to be dipped in hot asphaltum, Dwg. A-1071 furnished.....	10¢ lb. net includes asphaltung
1000 M. I. Third Rail Insulator Cups, Dwg. A-64 furnished	9¢ lb. net
2000 M. I. Third Rail Insulator Supports, Type "A" Dwg. No. A-1073-1 furnished.....	9-3/8¢ lb. net includes painting with red lead.
2000 M. I. Third Rail Pins, Dwg. A-1071 furnished.....	9¢ lb. net delivered

which proposed purchasing agent's order has been caused to be designated as "Approval No. 343"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission has, by communication dated March 27, 1923, reported that such insulator accessories form part of Equipment necessary for initial operation of the Fourteenth Street-Eastern Line described in said Contract No. 4; that the following bids were received for said material:

	<i>Eastern M. I. Co.</i>	<i>American Malleable. Co.</i>
Caps	10¢ lb. includes dipping	10 3/8¢ lb. not dipped
Cups	9¢ lb.	12 1/8¢ lb.
Supports	9 3/8¢ lb. includes painting with red lead.	9 3/8¢ lb.
Pins	9¢ lb.	12 1/8¢ lb.
National Malleable Castings Malleable Iron Fittings Co.		Could not quote. Average of 15¢ per lb.

; that the prices are the best obtainable and are reasonable; that the quantity of material is proper and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs has, by endorsement dated March 31, 1923, recommended that such work be classified as Equipment of the Railroad described in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission, made part of said proposed purchasing agent's order.

474—R. T. 6645

Fulton Street Elevated Line—Communication from New York Municipal Railway Corporation Objecting to Certain Portions of Resolution of December 12, 1922, Approving Plans for Strengthening Structure between Nostrand Avenue and Tillary Street—Report by Commissioner O'Ryan Recommending Modification of Resolution—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated December 21, 1922, objecting to certain parts of the resolution adopted on December 12, 1922, approving plans for the strengthening of the elevated structure of the Fulton Street Line between Nostrand Avenue and Tillary Street with respect to the classification and charge for the work.

A report was presented from Commissioner O'Ryan dated April 3, 1923, recommending that the resolution of December 12, 1922, be modified.

The following resolution was adopted:

Whereas, By resolution adopted December 12, 1922 this Commission approved, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, and pursuant also to the provisions of the certificates allied with said Contract No. 4 for Extensions and Additional Tracks, the proposal of the Receiver of said New York Municipal Railway Corporation for the strengthening of the longitudinal girders of the Fulton Street Line of the Existing Railroads, as described in said Contract No. 4, from Nostrand Avenue to Cumberland Street, at an approximate cost of \$43,500, and the reinforcement of the cross girders of said structure from Nostrand Avenue to Tillary Street, at an approximate cost of \$31,500; and

Whereas, The General Manager for the Receiver of New York Municipal Railway Corporation has objected to portions of the said resolution, and conferences have been had with respect to the subject of modifying said resolution adopted as aforesaid on December 12, 1922; and

Whereas, By communication dated April 3, 1923 Hon. John F. O'Ryan, Commissioner, has recommended, as therein more particularly set forth, the making of certain changes in said resolution,

Resolved, That said recommendation be and the same hereby is approved; that said resolution of December 12, 1922 so adopted be and the same hereby is modified as follows: (1) by striking from the sixth and seventh lines of the second paragraph thereof the following words:

"* * * on account of the lack of proper maintenance and * * *"

and (2) that Subdivision (2) of the third paragraph of said resolution be amended so as to read as follows:

"The Commission reserves the right, in the event that the additional track is built, to have determined the question whether the amount now capitalized as a betterment to the extent then replaced, should be taken from the depreciation fund and expended on the new construction on the ground that such replacement does not come within that provision of the Additional Track Certificate requiring the capitalization in connection with the additional tracks (or of reconstruction of existing railroads) of the cost of 'replacements, substitutes or renewals not due to wear and tear from operation and necessitated by the modifications or reconstructions of existing structures of said Subway Company to facilitate construction or use of such plant and structure under this certificate.'"

—and (3) that Subdivision (b) of the last paragraph of said resolution be amended so as to read as follows:

“The Commission reserves the right in the event that the additional track as authorized by said certificate aforesaid is built within the limits of the work to be performed pursuant to said application hereby approved to have determined the question whether the amount now capitalized as a betterment, to the extent then replaced shall be taken from the appropriate Depreciation Fund and expended on the new construction, as more particularly provided in Subdivision (2) of the report of the Auditor of Rapid Transit Costs hereinbefore set forth.”

475—R. T. 7556

Route No. 26—Application by Joslin Construction Company, Inc., for Approval of Assignment to Mechanics Trust Company of All Moneys Due or to Grow Due under Contract for Construction of Jackson Avenue Station—Approval Resolution

An application was presented from the Joslin Construction Company, Inc., dated April 4, 1923, requesting approval of a proposed assignment to The Mechanics Trust Company of all moneys due or to grow due from the City of New York in connection with the contract dated July 7, 1922, for the construction of the Jackson Avenue Station, Route No. 26.

The following resolution was adopted:

Whereas, Joslin Construction Company, Inc., by instrument duly signed, and acknowledged on the 5th day of April, 1923, has assigned, transferred and set over to The Mechanics' Trust Company of New Jersey, all moneys due and to become due on account of a certain contract between The City of New York, acting by the Transit Commission, and said Joslin Construction Company, Inc., dated July 7, 1922, for the construction of the Jackson Avenue Station of the Steinway Tunnel Line, Route No. 26, in the amount of Three Hundred and Eighty-five Thousand Nine Hundred and Eighty-four and 70/100 (\$385,984.70) Dollars; and

Whereas, Said Joslin Construction Company, Inc., has by communication, dated April 4, 1923, made application to the Commission for its approval of said assignment; and

Whereas, Counsel to the Commission has examined said assignment and finds no objection thereto;

Resolved, That the said assignment be and the same hereby is approved subject to all the terms and conditions in said contract and upon condition further;

First: That said assignment and the consent of this Commission herein given shall in no respect defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment and the consent of this Commission herein given shall in no respect affect the rights of The City of New York or of this Commission or of any board, officer, agent or employee acting for The City of New York or this Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: That this consent shall be of no force or effect unless and until there shall be delivered to this Commission an acceptance by said Joslin Construction Company, Inc., and said The Mechanics' Trust Company of New Jersey in form to be approved by Counsel to this Commission and duly executed and acknowledged accepting the terms of this consent herein given, and unless and until it shall be consented to in

writing in form to be approved by Counsel to this Commission by the sureties upon the bond deposited for the faithful performance of said contract.

476—R. T. 6080

Route No. 48, Section No. 2—Application of James F. McLaughlin for Permission to Occupy Space on South Side of Beekman Street Near William Street, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from James F. McLaughlin dated April 2, 1923, requesting permission to occupy a space on the south side of Beekman Street, near William Street, Borough of Manhattan, for a trucking station, at a rental of \$30.00 per month, beginning April 1, 1923.

A report was presented from the Real Estate Clerk dated April 2, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, James F. McLaughlin, of No. 554 44th Street, Borough of Brooklyn, City and State of New York, by application dated April 2, 1923, proposed to rent a small vacant area with a frontage of 10 feet on Beekman Street and 15 feet deep, at the northwesterly corner of the property at the southwesterly corner of William Street and Beekman Street, Borough of Manhattan, for a trucking stand, agreeing to pay \$30.00 per month beginning April 1, 1923, to deposit \$30.00 as security for the replacement of the portion of the fence he will have to remove for his concession, to vacate on fifteen (15) days' notice and to observe the other usual conditions, included in his application, usually imposed for concessions of this character; and

Whereas, The Real Estate Clerk, under date of April 2, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on the said application.

477—R. T. 6080

Centre Street Loop—Application by Joseph G. Pringle for Permission to Occupy Premises on West Side of Centre Street between Canal and Howard Streets, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application dated April 4, 1923, was presented from Joseph G. Pringle, requesting permission to occupy the premises on the west side of Centre Street between Canal and Howard Streets, at a rental of \$16.80 per week, beginning March 1, 1923, and continuing until such time as transfer of title to the property is made.

The report was presented from the Real Estate Clerk dated April 6, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Joseph G. Pringle by application dated April 4, 1923, has requested permission to remain in possession of a concession occupied by him on the westerly side of Centre Street between Canal and Howard Streets, Borough of Manhattan, immediately adjoining the concession of Charles Ramer on the north, at a rental of \$16.80 per week beginning March 1, 1923, and continuing indefinitely, subject to forty-eight (48) hours' notice to vacate or to automatic cancellation upon the delivery of the title by the City to another party, said application containing the usual conditions otherwise as are contained in similar rental agreements, for the purpose of conducting a lunch wagon; and

Whereas, The Real Estate Clerk, under date of April 6, 1923, has advised that he has conditionally received rental at the above rate for the period beginning March 1, 1923, and ending April 11, 1923; also an additional deposit of \$16.80 as security for the payment of rental for the final week of occupancy and the sum of \$20.00 as security for the payment of water bills, recommending that this application be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application; and it is further

Resolved, That Counsel be, and he hereby is, authorized to cancel this concession at any time, if such course shall, in his judgment, be necessary in the City's interest in connection with the transfer of the title of this property to the purchaser thereof.

478—R. T. 6080

Centre Street Loop—Application by Charles Ramer for Permission to Occupy Premises on West Side of Centre Street between Canal and Howard Streets, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application dated April 5, 1923, was presented from Charles Ramer requesting permission to occupy the premises on the west side of Centre Street between Canal and Howard Streets at a rental of \$11.20 per week beginning March 1, 1923, and continuing until such time as transfer of title to the property is made.

A report was presented from the Real Estate Clerk dated April 6, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Charles Ramer by application dated April 5, 1923, has requested permission to remain in possession of a concession occupied by him on the westerly side of Centre Street between Canal and Howard Streets, Borough of Manhattan, adjoining the subway station entrance, at a rental of \$11.20 per week beginning March 1, 1923 and continuing indefinitely, subject to forty-eight (48) hours' notice to vacate or to automatic cancellation upon the delivery of the title by the City to another party, said application containing the usual conditions otherwise as are contained in similar rental agreements, for the purpose of conducting a stand for the sale at retail of candies, cigars, and cigarettes, soft drinks and the like; and

Whereas, The Real Estate Clerk, under date of April 6, 1923, has advised that he has conditionally received rental at the above rate for the period beginning March 1, 1923 and ending April 11, 1923; also an additional deposit of \$11.20 as security for the payment of rental for the final week of occupancy, recommending that this application be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application; and it is further

Resolved, That Counsel be, and he hereby is, authorized to cancel this concession, at any time, if such course shall, in his judgment, be necessary in the City's interest in connection with the transfer of the title of this property to the purchaser thereof.

479—R. T. 7354

Contract No. 3—Stipulation Extending Time for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1921—Approved

The Commission approved a stipulation dated March 31, 1923, between the Commission and the Interborough Rapid Transit Company extending the time to and including 30 days after receipt of legal notice by either party that it requires an agreement to be entered into with respect to the amount and classification of

depreciation and excess maintenance for the fiscal year ended June 30, 1921, provided for in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3.

480—R. T. 7354

Contract No. 3—Stipulation Extending Time for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1922—Approved

The Commission approved a stipulation dated March 31, 1923, between the Commission and the Interborough Rapid Transit Company extending the time to and including 30 days after receipt of legal notice by either party that it requires an agreement to be entered into with respect to the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1922, provided for in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3.

481—R. T. 7235

Elevated Extension Certificate—Stipulation Extending Time for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1921—Approved

The Commission approved a stipulation dated March 31, 1923, between the Commission and the Interborough Rapid Transit Company extending the time to and including 30 days after receipt of legal notice by either party that it requires an agreement to be entered into with respect to the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1921, provided for in Subdivision 5 of Article XII of the Extension Certificate of the Interborough Rapid Transit Company.

482—R. T. 7235

Elevated Extension Certificate—Stipulation Extending Time for Determination as to Depreciation and Excess Maintenance for Year Ended June 30, 1922—Approved

The Commission approved a stipulation dated March 31, 1923, between the Commission and the Interborough Rapid Transit Company extending the time to and including 30 days after receipt of legal notice by either party that it requires an agreement to be entered into with respect to the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1922, provided for in Subdivision 5 of Article XII of the Extension Certificate of the Interborough Rapid Transit Company.

483—R. T. 6595

Contract No. 4—Statement from New York Consolidated Railroad Company of Results of Operation for Month of February, 1923, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

A communication dated April 5, 1923, from the New York Consolidated Railroad Company, by Howard Abel, Comptroller for Lindley M. Garrison, Receiver, submitting statements of Results of Operation for the month of February, 1923, for the period from August 4, 1913 to February 28, 1923, and the status of the Maintenance and Depreciation Funds, under Contract No. 4, was referred to the Chief Accountant.

484—Case 2669

Degnon Terminal Railroad Corporation—Form of Annual Report for the Year Ending December 31, 1922—Extension Order Adopted

The Secretary presented a communication, dated March 31, 1923, from the Degnon Terminal Railroad Corporation by Bernard Fisher, Treasurer, asking for an extension of time to May 15, 1923, within which to file its annual report pursuant to the Order in Case No. 2669, adopted January 23, 1923. The Secretary also presented a report, dated April 3, 1923, by H. S. Fischer, Statistician, recommending an extension of time to May 10, 1923, which said report was approved by the Acting Chief, Bureau of Accounting and Valuations and the Acting Chief Executive Officer.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2669, granting the Degnon Terminal Railroad Corporation an extension of time to May 10, 1923, within which to file its annual report.

485—Case 2677

Sixth Avenue Railroad Company—Application for Approval of Declaration of Abandonment of Portion of Route on Lenox Avenue between 110th Street and 116th Street, Borough of Manhattan—Report by Secretary—Order Approving Abandonment Adopted

Secretary James B. Walker, who held the hearing in Case No. 2677, having been designated by the Commission pursuant to Sections 8 and 11 of the Public Service Commission Law, presented his report, dated April 7, 1923, recommending that the application of the Sixth Avenue Railroad Company for approval of a declaration of abandonment of its railroad and franchises on Lenox Avenue between 110th Street and 116th Street, in the Borough of Manhattan, be granted.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2677, approving the declaration of abandonment of the Sixth Avenue Railroad Company upon and along Lenox Avenue between 110th Street and 116th Street, in the Borough of Manhattan, and authorizing the endorsement of such approval upon such declaration of abandonment and directing that said declaration of abandonment so endorsed should be filed and recorded in the office of the Secretary of State.

486—Case 2674

Brooklyn Eastern District Terminal—Application for Approval and Permission to Acquire by Condemnation Certain Real Property Located at No. 80 Kent Avenue, Brooklyn—Report and Opinion by Counsel Recommending Approval—Approved

The Secretary presented a report, dated April 9, 1923, by George O. Redington, Counsel to the Commission, authorized to conduct the hearing in Case No. 2674, recommending that the Commission give its certificate of public need for the freight terminal accommodations to provide which the condemnation of No. 80 Kent Avenue, Brooklyn, was sought by the Brooklyn Eastern District Terminal, and that an Order to that effect and granting such approval be made.

Thereupon, the Commission approved and ordered filed the above-mentioned report.

487

Belt Line Railway Corporation v. Newton—Action for Injunction to Restrain Enforcement of Order Requiring Exchange of Transfers—Communication from Counsel Transmitting Brief Filed with Special Master—Filed

The Secretary presented a communication, dated April 3, 1923, from Assistant Counsel Stover, approved by Counsel, transmitting copy of a brief of Howard Thayer Kingsbury, Special Counsel to the Commission filed on behalf of the Commission, with the Special Master appointed by the District Court of the United States for the Southern District of New York, in the action commenced therein by the Belt Line Railway Corporation against the Attorney General, the Commission et al. to restrain the enforcement of the Commission's Order requiring the exchange of transfers by the plaintiff at 59th Street, Borough of Manhattan.

Thereupon, the above mentioned papers were ordered filed.

488—R. T. 7589

Contract No. 3—Notice by Chief Engineer of Commencement of Work for Furnishing and Erecting Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Filed

A report was ordered filed from the Chief Engineer dated April 5, 1923, advising of the commencement of work by McClintic-Marshall Company on March 27, 1923, for furnishing and erecting structural steel for the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

489—R. T. 7635

Agreement "CE"—Notice by Chief Engineer of Commencement of Work for Changes in Subway Structure so as to Permit Widening of Certain Streets in Borough of Manhattan—Filed

A report was ordered filed from the Chief Engineer dated April 6, 1923, advising of the commencement of work by Benedetto & Saussez on April 3, 1923, for changes in the subway structure of the Broadway-Fourth Avenue Rapid Transit Railroad so as to permit the widening of certain streets in the Borough of Manhattan.

490—R. T. 7419

Contracts Nos. 3 and 4—Statement as to Execution and Delivery of Original Contract for Completion of Built-in News-stand Enclosures at Stations—Contract Filed

The Commission ordered filed an original contract dated March 29, 1923, between the City of New York, acting by the Transit Commission, and Fox, Reynolds Co., Inc., for the completion of built-in news-stand enclosures at stations of municipal rapid transit railroads, which contract had been executed on behalf of both parties and delivered on April 9, 1923.

491—R. T. 6407

Route No. 52—Certified Copy of Resolution of Board of Estimate and Apportionment Directing that Title to Amity Street between Main and Lawrence Streets, Flushing, Shall Become Vested in The City of New York on April 2, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 28, 1923, was ordered filed:

(Cal. No. 51)

Whereas, The Board of Estimate and Apportionment on the 13th day of October, 1916, adopted a resolution requesting the Corporation Counsel to institute proceedings to acquire title in fee wherever the same has not heretofore been acquired, for the use of the public, to the real property required for the opening and extending of Amity street from Wateredge avenue to Main street; and Roosevelt avenue from Wateredge avenue to a line passing through the angle points distant respectively 415.96 and 420.50 feet east of Hewitt avenue, in the Borough of Queens, City of New York; which proceedings were amended on March 1, 1918, and July 19, 1922, so as to provide for the acquisition of title to 40th avenue (Amity street) and Roosevelt avenue from Main street to a line passing through the angle points respectively 399.57 feet and 474.55 feet east of Willets Point boulevard, Borough of Queens, with the provision that title to the land be acquired in fee except at the Flushing River crossing, where the title shall be an easement which will enable the City to construct a bridge to carry the street across Flushing River; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in the proceedings to acquire title to said real property, and the oaths of the said Commissioners of Estimate and Assessment were duly filed as required by law on the 14th day of March, 1917; and the order of the Supreme Court ratifying the amendment of March 1, 1918, was entered on December 9, 1920, and the order ratifying the amendment of July 19, 1922, was entered on December 5, 1922; and

Whereas, By virtue of resolution of the Board of Estimate and Apportionment adopted on December 8, 1922, title in fee to the real property lying within the lines of Damage Parcels Nos. 7, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 75-A, 76 and 77, in said proceeding became vested in The City of New York on the 15th day of December, 1922; be it

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest and in pursuance of the provisions of section 976 of the Greater New York Charter, as amended, directs that upon the 2d day of April, 1923, the title in fee to the real property lying within the lines of 40th avenue (Amity street) between Main street and a line passing through the angle points on the northerly and southerly lines of 40th avenue respectively 618.81 feet and 674.49 feet west of the westerly line of Lawrence street, in the Borough of Queens, City of New York, so required, where not heretofore vested in The City of New York, shall become vested in The City of New York.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 28, 1923.

JAMES MATTHEWS,
Assistant Secretary.

492

Expenses—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$200,000 as Part of Expenses for Year Ending December 31, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on March 28, 1923, was ordered filed:

(Cal. No. 12)

Resolved, That the Board of Estimate and Apportionment, in accordance with the requisition of the Transit Commission, dated December 7, 1922, and pursuant to the provisions of chapter 134 of the Laws of 1921, without waiving the contention of the

[April 10, 1923

City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby authorizes an appropriation in the sum of two hundred thousand dollars (\$200,000), in addition to the amount heretofore appropriated, to properly enable the Transit Commission to do and perform or cause to be done and performed, for the year ending December 31, 1923; the duties imposed upon said Commission by the said law; and the Comptroller is hereby authorized, pursuant to law, and the said requisition of the Transit Commission, to issue special revenue bonds of The City of New York to an amount not exceeding two hundred thousand dollars (\$200,000), redeemable from the tax levy of the year next succeeding the year of their issue, the proceeds to be used for the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, March 28, 1923.

JAMES MATTHEWS,
Assistant Secretary.

493—R. T. 6761

Contract No. 3—Letter from Interborough Rapid Transit Company Transmitting Copy of Contract Providing for Repairs to Three Turbines in 59th Street Power Station—Filed

The Commission ordered filed a letter of the Interborough Rapid Transit Company dated April 7, 1923, transmitting a copy of a contract dated January 5, 1923 with the General Electric Company providing for repairs and changes to the three 30,000 k.w. Curtis turbines in the 59th Street Power Station.

494—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Submitting List of Sub-contracts Approved during Month of March, 1923—Filed

The following report by the Chief Engineer was ordered filed:

April 9, 1923.

To TRANSIT COMMISSION.

List of Sub-Contracts

I submit, as follows, a list of sub-contracts, approved by this Department during the month of March.

Route No.	Section No.	Contractor.	Sub-Contractor.	Date of Approval.	Materials.
8	Secs. 1-5 (Station Finish.)	Chas. H. Brown & Son, Corp.	Renner & Maras Inc. United Metal Box Co., Inc.	3/14/23 3/14/23	Ticket booth grilles and panel frames. Ventilation boxes for ticket booths.
8	6-A 1	Frederick L. Cranford, Inc.	Electric Welding Co.	3/12/23	Reinforcing rods.
18	239th St. Yard Installation of tracks including furnishing part of track materials and construction of drainage system and concrete (inspection pits).	Michael Del Balso.	Ames Building Material Co.	3/12/23	Sand and gravel, T.C. Inspected.

Route No.	Section No.	Contractor.	Sub-Contractor.	Date of Approval.	Materials.
18	Track Installation, 239th St. Yard.	Slattery Engineering & Construction Co., Inc. (Sub-contractor for Michael Del Balso.)	Vulcan Rail & Construction Co. National Bridge Works.	3/27/23 3/27/23	Furnishing and erecting hand rail. Miscellaneous steel.
35 & 67		Powers-Kennedy Cont. Corp.	Hunterspoint Lumber & Supply Co.	3/20/23	Sand, T.C. Inspected.
52	Sec. 1, Column Foundations.	Gustin - Morris Cont. Corp.	American Bridge Co.	3/26/23	Steel for anchor bolts and plate, T.C. Inspected.
			Concrete Steel Co.	3/26/23	Reinforcing rods T.C. Inspected.
	Agreement "CA"—Construction of Transformer Closets for Emergency Lighting, Borough of Manhattan.	B. T. & J. J. Mack, Inc.	Knowburn Products Co. and Grand Central Iron Works.	3/15/23	Furnishing various doors.
			D. H. McLauray Co.	3/24/23	Tile and mosaic work.
	Third Addition to Shops, 148th St. and Lenox Ave. Yard—Constructing Foundations.	Rosenthal Engineering Contracting Co., Inc.	McClintic-Marshall Construction Co.	3/24/23	Structural steel.
			Truscon Steel Co. (in place of Concrete Steel Co.)	3/ 3/23	Reinforcing rods.
	Contract No. 1, 168th St. Station.	Holbrook, Cabot & Rollins Corp.	Whale Creek Iron Works.	3/28/23	Railings and iron work.
	News-stand Enclosures, Contracts 3 and 4	Fox, Reynolds Co., Inc.	George K. Sabini Theodore C. Wood.	3/ 5/23	Kalamein work. "Lehigh" Portland Cement. Sand.
			Manhattan Sand Co.		
			United El. Lt. & Power Co.		Cinders.

ROBERT RIDGWAY,
Chief Engineer.

Employees' Resolution No. 136

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Timothy J. Carroll, junior assistant, at \$125.08 per month, to take effect April 2, 1923; William H. Eberhardt, junior assistant, at \$125.08 per month, to take effect April 10, 1923; James C. Lovely, engineering inspector, at \$150.08 per month, to take effect April 2, 1923; Isidor Mager, junior assistant, at \$125.08 per month, to take effect April 10, 1923; Harry Newman, junior assistant, at \$125.08 per month, to take effect April 4, 1923; Milton Sokolow, junior assistant, at \$125.08 per month, to take effect April 10, 1923.

Appointments under Rule VIII:4—George M. Biales, draftsman, at \$150.08 per month, to take effect April 3, 1923; Julio M. Conesa, draftsman, at \$150.08 per month, to take effect April 10, 1923; Peter F. McBride, draftsman, at \$150.08 per month, to take effect April 5, 1923; James P. O'Shea, junior assistant, at \$125.08 per month, to take effect April 9, 1923; Mortimer Schoener, draftsman, at \$150.08 per month, to take effect April 6, 1923; Benjamin Silverman, architectural draftsman, at \$150.08 per month, to take effect April 6, 1923; Martiman G. Smolensky, draftsman, at \$150.08 per month, to take effect April 4, 1923; Paschal Tatore, draftsman, at \$150.08 per month, to take effect April 4, 1923.

Resignation—Marius L. Spinelli, junior assistant, at \$125.08 per month, to take effect April 7, 1923.

Termination of Appointments under Rule VIII:9—William H. Eberhardt, junior assistant, at \$125.08 per month, to take effect April 9, 1923; Isidor Mager, junior assistant, at \$125.08 per month, to take effect April 9, 1923; Milton Sokolow, junior assistant, at \$125.08 per month, to take effect April 9, 1923.

Transferred from State Commission of Highways—Louis Altschuler, junior assistant, at \$125.08 per month, to take effect April 4, 1923.

Leave of Absence with Pay—Mary A. Dargin, stenographer, from March 16, 1923 to March 25, 1923.

Death—Mary A. Dargin, stenographer, \$125.08 per month, March 25, 1923.

496

Employees' Resolution No. 137

On motion, duly seconded and unanimously adopted, it was

Ordered, That in the absence of the Chief Engineer from April 13, 1923 to April 22, 1923, both inclusive, Sverre Dahm, Engineer of Designs, be and he hereby is, designated as Acting Chief Engineer.

497

Voucher Schedule No. 15

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 344-375, open market orders, \$1,537.66; Vouchers Nos. 186-209, miscellaneous bills, \$6,332.32;

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 83; Lindley M. Garrison, Receiver, New York Consolidated Railroad Company, and the New York Consolidated Railroad Company; approximate estimate No. 2, for installing tracks, etc., at and near the Queensboro Plaza station, from January 1, 1923 to January 31, 1923 (R. T. 7585) \$14,647.78;

Voucher No. 84; Michael DelBalso; approximate estimate No. 3 for the installation of tracks, including the furnishing of part of the track materials etc. for a portion of the White Plains Road, Route No. 18, 239th Street Yard, from March 1, 1923 to March 31, 1923 (R. T. 7528) \$6,279.95;

Voucher No. 85; Rosenthal Engineering Contracting Company, Inc.; approximate estimate No. 7 for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard, from February 1, 1923 to March 31, 1923 (R. T. 7457) \$4,652.01;

Voucher No. 86; George Colon & Company; approximate estimate No. 10 for the construction of Union Square Passageway connection station, Routes Nos. 5 and 8, from March 1, 1923 to March 31, 1923 (R. T. 7513) \$1,677.90;

Voucher No. 87; Frederick L. Cranford, Inc.; approximate estimate No. 9 for the reconstruction of a part of Section No. 3 of Route No. 33, completion of Lawrence Street station, from March 1, 1923 to March 31, 1923 (R. T. 7454) \$20,578.26;

Voucher No. 88; Wagner Engineering Co.; approximate estimate No. 3 for the construction of direction signs at stations of rapid transit railroads of the City of New York from March 6, 1923 to April 5, 1923 (R. T. 7482) \$1,441.36;

Voucher No. 89; T. H. Reynolds Contracting Co., Inc.; approximate estimate No. 4 for the installation of tracks in Sections Nos. 1 to 5 inclusive, Route No. 8, from March 1, 1923 to March 31, 1923 (R. T. 7536) \$26,690.08;

Voucher No. 90; Slattery Engineering & Construction Co., Inc.; approximate estimate No. 5 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3 (R. T. 7366) \$11,542.58;

Voucher No. 91; Powers-Kennedy Contracting Corporation; approximate estimate No. 10, for the construction of a part of the Queensboro Subway, Routes Nos. 35 and 67, from March 1, 1923 to March 31, 1923 (R. T. 7584) \$52,063.63;

Voucher No. 92; Joslin Construction Company, Inc.; approximate estimate No. 8, for the reconstruction of a part of Queensboro Subway, Route No. 26, Jackson Avenue station, from March 1, 1923 to March 31, 1923 (R. T. 7556), \$12,614.85
Voucher No. 93; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 10, for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from March 1, 1923 to March 31, 1923 (R. T. 6114) \$5,554.24.

498

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, April 18, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, April 11, 1923

499

Hearing

The following hearing was held:

11 A. M.; Case No. 2679; Brooklyn Rapid Transit Company, et al., application of Stockholders' Committee for approval of Plan of Reorganization. Chairman McAneny and Commissioner Harkness were present. Adjourned to April 20, 1923 at 11 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, April 13, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.
The following matter was presented and action taken as noted:

500—R. T. 7636

Route No. 16—Receipt of Bids for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of an inspection shed and service buildings at the Jerome Avenue Yard had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the eight bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, April 18, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

501—R. T. 7637

Route No. 16—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest of Bidders for Inspection Shed and Service Buildings at Jerome Avenue Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on April 13, 1923, for the construction of an inspection shed and service buildings at the Jerome Avenue Yard, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of Five thousand (\$5,000) dollars, deposited with their bids.

502—R. T. 7635

Route No. 16—Report by Acting Chief Engineer as to Receipt of Bids for Inspection Shed and Service Buildings at Jerome Avenue Yard and Recommendation for Award of Contract to Jacob Schlesinger, Inc., at Bid Price of \$369,402.40—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

April 16, 1923.

TO: THE TRANSIT COMMISSION.

Award of Contract to Jacob Schlesinger, Inc., for Construction of Inspection Shed and Service Buildings, Jerome Avenue Yard, Route No. 16.

On April 13th, the following eight (8) bids for work under contract for Construction of Inspection Shed and Service Buildings of the Jerome Avenue Yard, Route No. 16, were received:

	<i>Brick Walls</i>	<i>Concrete Walls</i>
Jacob Schlesinger, Inc., 259 West 30th Street, N. Y. C.....	\$377,402.40	\$369,402.40
D. C. Serber, 451 West 16th Street, N. Y. C.....	390,350.00	388,750.00
Lustig & Weil, 103 Park Avenue, N. Y. C.....	399,714.13	391,714.13
Willets Construction Co., Inc., 280 Madison Avenue, N. Y. C.....	419,330.50	416,130.50
McHarg Barton Co., 1328 Broadway, N. Y. C.....	436,617.52	431,817.52
P. T. Cox Contracting Co., Inc., 154 Nassau Street, N. Y. C.....	456,941.00	447,821.00
Post & McCord, 101 Park Avenue, N. Y. C.....	508,553.90	504,137.90
Thomas Dwyer, Broadway & 216th Street, N. Y. C.....	512,423.00	512,423.00

Our estimate for this work amounted to, with brick walls, \$408,114.00; with concrete walls, \$392,114. Jacob Schlesinger, Inc., the lowest bidder, is now doing work for the Commission under contract for Second Addition to Shops, 148th Street and Lenox Avenue Yard, which contract amounts to about \$313,000. Jacob Schlesinger has also

completed a contract for station finish for the Broadway and Canal Street Stations, Routes Nos. 5 and 20, which contract amounted to about \$23,000 on which they have received their final estimate. All of this work has been done to our satisfaction.

I send you copy of minutes of a conference held in this office with representatives of Jacob Schlesinger, Inc., on April 14th, also copy of letter dated April 16, 1923 from that firm written at my request after the conference in this office, also copy of its financial statement.

Transmitted herewith are twelve (12) prints of summation of bids.

Recommendation: I respectfully recommend that the contract for Construction of Inspection Shed and Service Buildings at the Jerome Avenue Yard, Route No. 16, be awarded to the lowest bidder, Jacob Schlesinger, Inc., on the basis of the concrete walls alternative at the bid figure of \$369,402.40 and that a request for an appropriation of this amount be sent to the Board of Estimate and Apportionment to be charged to Contract No. 3.

SVERRE DAHM,
Acting Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for Construction of Inspection Shed and Service Buildings of the Jerome Avenue Yard, Route No. 16, was finally adopted on March 27, 1923, and subsequent to advertisement duly made bids respectively totaling as follows were received on April 13, 1923:

Jacob Schlesinger, Inc.....	\$369,402.40
D. C. Serber.....	388,750.00
Lustig & Weil.....	391,714.13
Willets Construction Co., Inc.....	416,130.50
McHarg Barton Co.....	431,817.52
P. T. Cox Contracting Co., Inc.....	447,821.00
Post & McCord	504,137.90
Thomas Dwyer	512,423.00

; and

Whereas, The Acting Chief Engineer of this Commission, by communication dated April 16, 1923, has reported that the amount of said low bid is reasonable and that the said Jacob Schlesinger, Inc. is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$369,402.40, the amount estimated to be necessary to carry out said proposed contract on the part of the City,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby are approved; that the bid of Jacob Schlesinger, Inc. be and the same hereby is accepted and that the said proposed contract for Construction of Inspection Shed and Service Buildings of the Jerome Avenue Yard, Route No. 16, be and hereby is awarded to said Jacob Schlesinger, Inc., subject to its being consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$369,402.40, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 18, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for Construction of Inspection Shed and Service Buildings of the Jerome Avenue Yard, Route No. 16, together with a requisition upon your Honorable Board for the appropriation of the sum of Three hundred sixty-nine thousand four hundred and two dollars and

forty cents (\$369,402.40), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on April 13, 1923, respectively totaling as follows:

Jacob Schlesinger, Inc.....	\$369,402.40
D. C. Serber.....	388,750.00
Lustig & Weil.....	391,714.13
Willeys Construction Co., Inc.....	416,130.50
McHarg Barton Co.....	431,817.52
P. T. Cox Contracting Co., Inc.....	447,821.00
Post & McCord.....	504,137.90
Thomas Dwyer.....	512,423.00

The Acting Chief Engineer of this Commission, in a communication dated April 16, 1923, reports that the bid of Jacob Schlesinger, Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said Jacob Schlesinger, Inc., subject to its being approved and consented to in form and substance, as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Three hundred sixty-nine thousand four hundred and two dollars and forty cents (\$369,402.40), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Three hundred sixty-nine thousand four hundred and two dollars and forty cents (\$369,402.40).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and the appropriations made thereunder by your Honorable Board.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

503—R. T. 6597, 7657

Contract No. 1—Report by Chief Engineer Recommending Installation of Exit Turnstile on Northbound Platform of Prospect Avenue Station—Report by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order No. 1CCA-2—Approval Resolution—Requisition upon Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated December 21, 1922, recommending approval of the installation of an exit turnstile at the south end of the northbound platform of the Prospect Avenue station of the Manhattan-Bronx Rapid Transit Railroad, at an estimated cost of \$600.

A report was presented from the Auditor of Rapid Transit Costs dated December 20, 1922, recommending that the work be classified as an Addition to Existing Railroads and work order No. 1CCA-2 be assigned thereto.

The following resolution was adopted:

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated September 21, 1922, recommended the approval of the installation of an exit turnstile at the south end of the northbound platform of the Prospect Avenue station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads described in the contract dated March 19, 1913, known as Contract No. 3, as an Addition to Construction, as said terms are defined in said contract; and

Whereas, The Auditor of Rapid Transit Costs, by communication dated December 20, 1922, has recommended that such proposed work be classified as an Addition to the Existing Railroads and that Work Order No. ICcA-2 be assigned thereto; and

Whereas, In accordance with the requirements of the Board of Estimate and Apportionment with respect to the performance of work of making Additions to Construction by the Lessee in accordance with the provisions of said Contract No. 3, Counsel has prepared a proposed agreement which will effect such requirement and has also submitted a proposed requisition upon the Board of Estimate and Apportionment for the consent of said Board to the making of said proposed agreement and the appropriation of one-half the estimated cost of performing the work thereunder of constructing said exit turnstile.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed agreement and requisition so submitted be and the same hereby are approved; that this Commission, pursuant to the provisions of Articles LXX and LXXI of Chapter IV of Part Third of said Contract No. 3 hereby orders Interborough Rapid Transit Company, as Lessee under said Contract No. 3, to construct such exit turnstile at the point hereinbefore referred to, in accordance with the plan made part of said proposed agreement hereby approved, as to which this Commission assigns Work Order No. ICcA-2, and that said proposed agreement, together with a certified copy of this resolution and the requisition hereby approved, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

April 18, 1923

Gentlemen:

The contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, provides in Article LXX and LXXI of Chapter IV of Part Third thereof as follows:

*** If at any time Additions to the Railroad or Equipment or to the Existing Railroads or Existing Equipment or any change in the mode of operating the Railroad or the Existing Railroads or conducting the business thereof are necessary in order to carry out the purposes of the lease in securing service and facilities as shall be safe and adequate and in all respects just and reasonable, the Commission may direct the construction or provision of such Additions and the making of such changes in the mode of operation of the Railroad or the Existing Railroads or in the conduct of the business thereof as may be necessary to accomplish such purposes. Such construction or provision of Additions and such changes shall be made to the satisfaction of the Commission and, when necessary, under such forms of contracts, plans, specifications and directions as it may issue or approve. If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect. If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or additions to be made at the expense of the Lessee.

Article LXXI. All Additions shall be identified and the cost of equipment or the cost of construction as the case may be ascertained and determined in the following manner and by the following method: No Addition shall be provided or constructed until the same shall have been ordered or approved by the Commission and in its resolution so ordering or approving the Commission shall briefly describe the Addition so ordered or approved (which is hereinafter referred to as the additional unit) and shall assign thereto a work order number. ***"

The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated September 21, 1922, recommended the approval

of this Commission to the installation of an exit turnstile at the south end of the northbound platform of the Prospect Avenue Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads described in the contract dated March 19, 1913, known as Contract No. 3, which work the Auditor of Rapid Transit Costs of this Commission, by communication dated December 20, 1922, has classified as an Addition to the Existing Railroads.

By resolution adopted pursuant to the provisions of said Contract No. 3 hereinbefore quoted this Commission has directed Interborough Rapid Transit Company, as Lessee under said Contract No. 3, to perform such work of constructing said exit turnstile as an Addition to Construction as defined in said contract.

In accordance with the direction of your Board the Commission has made applicable to said work the standard form of agreement for the carrying out of the units of work of Additions to Construction when performed by the Lessee under said Contract No. 3 and transmits the same herewith for the consent of your Board thereto.

The estimated cost of this work is Six hundred dollars (\$600), half of which, under the provisions of Contract No. 3, must be borne by the City.

Requisition is accordingly made upon your Honorable Board for the appropriation of the sum of Three hundred dollars (\$300), being one-half of the estimated cost of constructing said exit turnstile, such requisition to be a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 3, and the appropriations made in consequence thereof by your Board, and your Board is further requested to consent to the proposed agreement herewith transmitted between The City of New York and Interborough Rapid Transit Company, for the purpose of carrying out such work of constructing said exit turnstile at said station as an Addition to Construction in accordance with the provisions of said Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

504—R. T. 6616

Contract No. 2—Proposed Stipulations with Rapid Transit Subway Construction Company with Respect to Determination of Claims for Additional Work and Additional Materials under Contracts for Construction of Subsections 2-A and 3—Approval Resolution—Requisition upon Board of Estimate and Apportionment for \$600,000

The following stipulations were approved:

STATE OF NEW YORK.
TRANSIT COMMISSION.

IN THE MATTER

of

The Determination of the Chief Engineer of the Transit Commission as to Claims presented by the Rapid Transit Subway Construction Company designated as Claim A and B, Subsection 2-A, so far as they relate to claims for compensation for additional work performed and additional materials furnished by it under and pursuant to the provisions of the Contract dated July 21, 1902, between the City of New York, acting by the Board of Rapid Transit Railroad Commissioners for the City of New York, and said Rapid Transit Subway Construction Company for the construction, equipment, maintenance and operation of the Brooklyn-Manhattan Rapid Transit Railroad, Contract No. 2.

Whereas, The Chief Engineer of the Transit Commission has made a determination as to certain of the above claims under date of March 27, 1923, pursuant to the requirements of the writ of mandamus obtained in a proceeding entitled, *people ex. rel. Rapid*

Transit Subway Construction Company against Craven, by which determination he finds and decides "that the reasonable value of additional work done and additional materials furnished by the Contractor, the Rapid Transit Subway Construction Company for that portion of the Railroad known as Subsection No. 2-A, comprised, detailed and set forth in said A and B claims hereto annexed as presented October 2, 1912, limiting my determination to additional work and additional materials within the general purview of the Rapid Transit Railroad as described in the said routes and general plan is Two hundred and Forty thousand dollars (\$240,000)"; and

Whereas, In and by the terms of said Contract No. 2, dated July 21st, 1902, the right to appeal from such determination to arbitrators to be appointed as in said contract provided, is given to the Transit Commission or the Contractor; and

Whereas, In said A and B claims referred to in the said determination of the Chief Engineer, there are included not only claims for additional work and materials upon which the Chief Engineer has passed and to which his said determination under the terms of the contract is limited, but also claims for increased cost or expense and damages in connection with the performance of said contract, to which said determination does not apply, and which said Engineer's determination states were not considered by him in fixing the amount of additional work done or additional materials furnished in arriving at the amount of said determination; and

Whereas, The Transit Commission is unwilling to accept such determination unless the Rapid Transit Subway Construction Company will agree, upon payment of said sum of \$240,000, if paid without necessity of recourse to legal proceedings, to release all of the A and B claims presented by it in connection with the performance by it of Subsection 2-A of said Contract No. 2, dated July 21st, 1902, and will further agree to the stipulations and agreements as hereinafter set forth.

NOW, THEREFORE, IT IS STIPULATED AND AGREED between the TRANSIT COMMISSION and the RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY:

1. The Transit Commission hereby agrees that it will not appeal pursuant to the provisions of Contract No. 2, dated July 21st, 1902, from the said determination of the Chief Engineer.

2. The Rapid Transit Subway Construction Company agrees that upon the payment to it of the sum of \$240,000 as so determined by the Chief Engineer of the Transit Commission to be due it, it will concurrently with such payment, in form satisfactory to the Comptroller of the City of New York, waive and release all the items or claims included in said A and B claims, whether for additional work done or additional material furnished, or both, or for increased cost, damage and expense arising out of, under or in connection with the performance by it of Subsection 2-A of said Contract No. 2, dated July 21st, 1902, conditioned, however, that the said sum of \$240,000 be paid by the City of New York without necessity of recourse to legal proceedings to enforce its payment.

3. Copies of the said A and B claims hereinbefore referred to, which are to be released in full on condition that payment is made as hereinbefore provided of said sum of \$240,000, are, for the purpose of identification thereof, hereto annexed.

4. That the making by the Chief Engineer of the Transit Commission of his determination under date of March 27, 1923, hereinbefore mentioned, pursuant to the order and writ of mandamus in the proceeding entitled, "People ex rel. Rapid Transit Subway Construction Company v. Craven," etc. shall be without prejudice to and shall not be construed as or to operate as a waiver of claims other than said A and B claims of the Rapid Transit Subway Construction Company arising out of, under or in connection with said Contract No. 2, and shall be without prejudice to and shall not be construed as or to operate as a waiver by the City of New York or the Transit Commission of the State of New York of any defense against any such other or further claims of the Rapid Transit Subway Construction Company under or in connection with said Contract No. 2.

Dated, New York, April 5th, 1923.

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
By FRANK HEDLEY,
President.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

STATE OF NEW YORK
TRANSIT COMMISSION

IN THE MATTER

of

the Determination of the Chief Engineer of the Transit Commission as to Claims presented by the Rapid Transit Subway Construction Company designated as Claims C, Subsection 2-A, and as claims for four-track, connections, approaches and other additional work subsection 3 based upon cost, so far as they relate to claims for compensation for additional work performed and additional materials furnished by it under and pursuant to the provisions of the Contract dated July 21, 1902, between the City of New York, acting by the Board of Rapid Transit Railroad Commissioners for the City of New York, and said Rapid Transit Subway Construction Company for the construction, equipment, maintenance and operation of the Brooklyn-Manhattan Rapid Transit Railroad, Contract No. 2.

Whereas, The Chief Engineer of the Transit Commission has made a determination as to certain of the above claims under date of April 11, 1923, by which determination he finds and decides that the reasonable value of additional work done and additional materials furnished by the Contractor, the Rapid Transit Subway Construction Company for that portion of the Railroad known as Subsection No. 2-A, comprised, detailed and set forth in said claims hereto annexed as presented October 2, 1912, limiting his determination to additional work and additional materials within the general purview of the Rapid Transit Railroad as described in the said routes and general plan, is Sixty thousand dollars (\$60,000); and that the reasonable value of additional work done and additional materials furnished by the contractor, Rapid Transit Subway Construction Company to that portion of the railroad known as subsection 3, comprised, detailed and set forth in said subsection 3 claims hereto annexed as presented October 26, 1911 limiting his determination to additional work and additional materials within the general purview of the Rapid Transit Railroad as described in the said routes and general plan, is Three hundred thousand (\$300,000) Dollars; and

Whereas, In and by the terms of said Contract No 2, dated July 21st, 1902, the right to appeal from such determination to arbitrators to be appointed as in said contract provided, is given to the Transit Commission or the contractor; and

Whereas, In said C claims and in the claims for that portion of the railroad known as Subsection No. 3, referred to in the said determination of the Chief Engineer, there are included not only claims for additional work and materials upon which the Chief Engineer has passed and to which his said determination under the terms of the contract is limited, but also claims for increased cost or expense and damages in connection with the performance of said contract, to which said determination does not apply, and which said Engineer's determination states were not considered by him in fixing the amount of additional work done or additional materials furnished in arriving at the amount of said determination; and

Whereas, The Transit Commission is unwilling to accept such determination unless the Rapid Transit Subway Construction Company will agree, upon payment of said sums of Sixty thousand (\$60,000) dollars, and Three hundred thousand (\$300,000) dollars respectively, if paid without necessity of recourse to legal proceedings, to release all of the C claims and all of the subsection 3 claims presented by it in connection with the performance by it of Subsection 2-A and Subsection 3 respectively, of said Contract No. 2, dated July 21st, 1902, and will further agree to the stipulations and agreements as hereinbefore set forth,

Now, THEREFORE, IT IS STIPULATED AND AGREED between the TRANSIT COMMISSION and the RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY:

1. The Transit Commission hereby agrees that it will not appeal pursuant to the provisions of Contract No. 2, dated July 21st, 1902, from the said determination of the Chief Engineer.

2. The Rapid Transit Subway Construction Company agrees that upon the payment to it of the sum of sixty thousand (\$60,000) dollars and three hundred thousand (\$300,000) dollars as so determined by the Chief Engineer of the Transit Commission to be due it, it will concurrently with such payment, in form satisfactory to the Comptroller of the City of New York, waive and release all the items or claims included in the said C and subsection 3 claims, whether for additional work done or additional material furnished, or both, or for increased cost, damage and expense arising out of, under or in connection with the performance by it of subsection 2-A and subsection 3 of said Contract No. 2, dated July 21st, 1902, conditioned, however, that the said sums of Sixty thousand (\$60,000) dollars and Three hundred thousand (\$300,000) dollars respectively, be paid by the City of New York without necessity of recourse to legal proceedings to enforce its payment.

3. Copies of the said C claims and Section No. 3 claims hereinbefore referred to, which are to be released in full on condition that payment is made as hereinbefore provided of said sums of Sixty thousand (\$60,000) dollars and Three hundred thousand (\$300,000) dollars, are, for the purpose of identification thereof, hereto annexed.

4. That the making by the Chief Engineer of the Transit Commission of his determination under date of April 11, 1923, hereinbefore mentioned, shall be without prejudice to and shall not be construed as or to operate as a waiver of claims other than said C and Subsection 3 claims, of the Rapid Transit Subway Construction Company arising out of, under or in connection with said Contract No. 2, and shall be without prejudice to and shall not be construed as or to operate as a waiver by the City of New York or the Transit Commission of the State of New York of any defense against any such other or further claims of the Rapid Transit Subway Construction Company under or in connection with said Contract No. 2.

Dated, New York, April 13, 1923.

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
By FRANK HEDLEY, President.
TRANSIT COMMISSION,
acting for THE CITY OF NEW YORK,
By GEORGE McANENY, Chairman.

The following resolutions were adopted:

Whereas, Pursuant to the provisions of the contract dated July 21, 1902 between The City of New York and Rapid Transit Subway Construction Company, known as Contract No. 2, for the construction, equipment, maintenance and operation of the Brooklyn-Manhattan Rapid Transit Railroad and in pursuance also of the requirements of a writ of mandamus served on a predecessor, the Chief Engineer of this Commission has rendered a determination wherein he finds that the reasonable value of the additional work performed and additional materials furnished, comprised within the so-called A and B Claims on Subsection 2-A of said rapid transit railroad, is of the reasonable value of \$240,000; and

Whereas, A stipulation has been entered into between the said contractor and this Commission accepting the said determination without appeal and the contractor agreeing to waive all other claims comprised in said A and B Claims, upon condition that the said determined sum of \$240,000 is paid without recourse to legal proceedings; and

Whereas, It is necessary to make requisition upon the Board of Estimate and Apportionment for the appropriation of said sum of \$240,000 and Counsel has prepared and submitted a proposed requisition,

Resolved, That said proposed stipulation and requisition be and the same hereby are approved and that the said requisition be transmitted to said Board of Estimate and Apportionment.

Whereas, Pursuant to the provisions of the contract dated July 21, 1902, between The City of New York and Rapid Transit Subway Construction Company, known as Contract No. 2, for the construction, equipment, maintenance and operation of the Brooklyn-Manhattan Rapid Transit Railroad, the Chief Engineer of this Commission has rendered a determination wherein he finds that the reasonable value of the additional work performed and additional materials furnished, comprised within the so-called C Claims of Subsection 2-A and Subsection 3 of said rapid transit railroad, is of the reasonable value of \$360,000; and

Whereas, A stipulation has been entered into between the said contractor and this Commission accepting the said determination without appeal and the contractor agreeing to waive all other claims comprised in said C Claims, upon condition that the said determined sum of \$360,000 is paid without recourse to legal proceedings; and

Whereas, It is necessary to make requisition upon the Board of Estimate and Apportionment for the appropriation of said sum of \$360,000 and Counsel has prepared and submitted a proposed requisition,

Resolved, That said proposed stipulation and requisition be and the same hereby are approved and that the said requisition be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolutions, was as follows:

April 18, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under date of July 21, 1902 the City, acting by the Board of Rapid Transit Railroad Commissioners for The City of New York, pursuant to the provisions of the Rapid Transit Act (Chapter 4 of the Laws of 1891 as then amended) entered into a contract with the Rapid Transit Subway Construction Company for the construction, equipment, maintenance and operation of the Brooklyn-Manhattan Rapid Transit Railroad, which contract was designated and commonly known as Contract No. 2.

By assignment dated January 30, 1913, the contractor assigned to Interborough Rapid Transit Company so much of Contract No. 2 as provided for the construction of the Railroad, together with all its rights, privileges, benefits and obligations of said Contract No. 2, except, however, that the contractor saved and reserved unto itself and in said assignment it was expressly provided that it was not intended to transfer "* * * any sum or sums of money now due from the City to the Contractor, and any claim or claims for any sum or sums of money which the Contractor may now have against the City, for the construction of the Railroad or any part thereof or any additions thereto, together with any sum or sums of money due or to become due from the City to the Contractor, and any claim or claims for any sum or sums of money which the Contractor may have against the City, for extra work heretofore ordered under the provisions of the contract."

Contract No. 2, among other things, provides:

"The Board shall have the right, during the progress of the work, to amplify the plans, to add explanatory specifications and furnish additional specifications and drawings within the limits of the general purview of the work. The Board shall also have the right for any part of the Railroad to require additional work to be done or additional materials to be furnished, or both, within the general purview of a rapid transit railroad as described in the copy of the Routes and General Plans hereto appended, or, within such general purview, to require work or materials herein specified or provided for to be omitted. If such additional work or materials shall be required, then the reasonable value thereof shall be additionally paid to the Contractor, * * *"

"The Contractor shall become entitled to additional payment for additional work or by reason of additional specifications, drawings, details or other requirements only upon the production of the certificate and determination of the Engineer if unappealed from, or, if so appealed from, then only upon and according to the final award of arbitrators, or arbitrator and umpire, as aforesaid, it being expressly agreed that the City shall make no additional payment to the Contractor except upon vouchers which include such certificate and determination unappealed from, or if appealed from, then such certificate and determination with such final award as a condition precedent to payment and that no payment shall be made in any such case inconsistently with such final award."

The actual prosecution of the work under Contract No. 2 was divided into four sections, known respectively as Subsection 1, 2, 2-A and 3. Subsection No. 2-A comprised the subaqueous tunnel under the East River connecting the Boroughs of Manhattan and Brooklyn and Subsection 3 comprised the section of the railroad in Brooklyn to its terminus at Atlantic Avenue.

The Board of Rapid Transit Railroad Commissioners for the City of New York is defined in Contract No. 2 as being that Board "and any other board, body, official

or officials, to which or to whom the powers now belonging to said Board shall, by virtue of any act or acts, hereafter pass or be held to appertain." The word "Engineer" is defined in Contract No. 2 to mean the Chief Engineer of the Board of Rapid Transit Railroad Commissioners "and any successor or successors duly appointed or any deputy or substitute for him who shall be appointed by the Board or by its authority."

The powers and duties of the Board of Rapid Transit Railroad Commissioners for the City of New York under the Rapid Transit Act and under Contract No. 2 have, pursuant to legislative direction, been successively transferred as follows: to the Public Service Commission for the First District of the State of New York, by Chapter 429 of the Laws of 1907 and Chapter 263 of the Laws of 1919; to the Transit Construction Commissioner by Chapter 520 of the Laws of 1919, and to the Transit Commission by Chapter 134 of the Laws of 1921.

The Chief Engineer of the Transit Commission, duly appointed by it, has qualified, acted and is now acting as such Chief Engineer and is therefore the successor of the "Engineer" referred to in Contract No. 2.

Under date of October 26, 1911 and October 2, 1912 the Counsel for the Contractor submitted claims including claims for payments for additional work and additional material performed by the Contractor under Contract No. 2 in connection with and as a part of the construction of Subsection 2-A and Subsection 3 of the Railroad. The claims for Subsection 2-A were divided and known as Claims A, B and C. The A and B claims on Subsection 2-A were the claims of the subcontractor, New York Tunnel Company. The total amount of the claims so filed were as follows: Section 2-A, A and B, \$3,408,120.18; C, \$167,042.37; Section 3, \$888,334.18.

One of the predecessors of the present Chief Engineer, of the Transit Commission, the Chief Engineer of the Public Service Commission for the First District, refused to make a determination as to said Claims A and B of Subsection 2-A. A writ of mandamus directing him to determine, pursuant to the provisions of said Contract No. 2, as to said A and B claims, was served on him November 25, 1913. Thereafter by successive appeals the Court of Appeals affirmed the order of Special Term.

Since then the matter has been held in abeyance upon the request of the Attorneys representing the contractor, pending the result of conferences which were had in an effort to reach a final adjustment of the claims without further proceeding. Such request has been withdrawn and the Chief Engineer, in accordance with the mandate of the Court, has made a determination under date of March 27, 1923 of the reasonable value of the additional work and additional materials included in said Claims A and B of said Subsection 2-A. He therein determines that such reasonable value is the sum of \$240,000. A copy of that determination, together with the said Claims A and B attached thereto, is transmitted herewith for the information of your Board. There then remained the so-called C Claims of Subsection 2-A and all the Claims of Subsection 3, as to which the Chief Engineer has also made his determination under date of April 11, 1923, wherein he finds that the reasonable value of the additional work and additional materials included in said Claims is of the value of \$60,000 for the said C claims under said Subsection 2-A and \$300,000 for the claims under Subsection 3. A copy of said determination, with the said "C" claims of Subsection 2-A and the Claims made under Subsection 3 attached thereto, is transmitted herewith for the information of your Board.

The Contractor has, by stipulation, with respect to each determination hereinbefore referred to, agreed that if the value of the claims, as determined by the Chief Engineer, is paid by the City without necessity of recourse to legal proceedings to enforce payment, it will concurrently with each such payment, in form to be satisfactory to the Comptroller of the City of New York, waive and release all the items or claims filed by the Contractor as aforesaid. A copy of each of such stipulations is transmitted herewith.

The Transit Commission, believing that the amount of said determinations will be a very advantageous settlement of these claims to the City, has agreed not to appeal to arbitration in accordance with the provisions of Contract No. 2.

Summarizing the determinations of the Chief Engineer herewith referred to, the amounts required to make payment of the determined amounts are as follows:

Subsection 2-A, A and B Claims.....	\$240,000
Subsection 2-A, C Claims.....	60,000
Subsection 3	300,000
Total	\$600,000

[April 18, 1923

The Transit Commission accordingly, pursuant to the provisions of the Rapid Transit Act and said Contract No. 2, hereby makes requisition upon your Honorable Board to appropriate and authorize the issuance of corporate stock of the City of New York to the extent of Six hundred thousand dollars (\$600,000), for the purpose of paying the determined amounts due the contractor thereunder for additional work and additional materials furnished and supplied in the performance of Extra Work on said Subsections 2-A and 3 under said Contract No. 2.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

Rapid Transit Railroads—Communication from Board of Estimate and Apportionment Submitting Copy of Letter from J. V. Welsford Relative to Patented System of Rapid Transit—Referred to Chief Engineer

The following communication from the Board of Estimate and Apportionment and enclosure referred to therein, were referred to the Chief Engineer:

CITY OF NEW YORK
BOARD OF ESTIMATE AND APPORTIONMENT
Office of the Secretary
Municipal Building
(Cal. No. 206)

April 13, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

I transmit herewith copy of a communication dated January 29, 1923, from J. V. Welsford, relative to a patented system of rapid transit evolved by the writer and two associate engineers.

At the meeting of the Board of Estimate and Apportionment on April 13, 1923, this matter was referred to the Transit Commission.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

506—R. T. 7601

Route No. 52, Section No. 1—Resolution Approving Form of Contract, Specifications, Invitation to Contractors and Revised Contract Drawings for Furnishing and Erecting Structural Steel—Adopted

The following resolution was adopted:

Whereas, The proposed contract for furnishing and erecting structural steel for a part of the rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, was finally adopted on November 28, 1922 and subsequent to advertisement duly made bids were received therefor on December 14, 1922, the Commission awarding said proposed contract, by resolution adopted December 15, 1922, to the lowest bid received, to wit, that of the Phoenix Bridge Company, subject to its being consented to in form and substance as required by law, and thereafter transmitted said proposed contract, together with a requisition for the money necessary to meet the obligations of the City thereunder, to the Board of Estimate and Apportionment; and

Whereas, By resolution adopted January 30, 1923 this Commission, upon the application of said Phoenix Bridge Company, rejected all bids so received and returned the checks deposited with said bid; and

Whereas, By resolution adopted March 13, 1923 this Commission directed the readvertisement of the Invitation to Contractors forming part of said proposed contract and by resolution adopted April 3, 1923, directed the discontinuance of the publication of said Invitation to Contractors because of a necessary modification in the contract drawings; and

Whereas, The said contract drawings have now been revised,

Resolved, That said proposed contract, bond and contractor's proposal, together with the Invitation to Contractors and Information for Contractors and specifications and revised contract drawings made part thereof, for furnishing and erecting structural steel for a part of the rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, be and the same hereby are approved and adopted and that said invitation to Contractors forming part of said proposed contract be published in the CITY RECORD every day of publication continuously from and including April 24, 1923 to and including May 8, 1923, and on April 24, 1923 and May 1, 1923 in THE MORNING TELEGRAPH and FLUSHING JOURNAL, daily newspapers published in the City of New York and that such bids as shall be received shall, on the 8th day of May, 1923, at eleven-thirty (11:30) o'clock A. M. or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission or its Secretary, at the office of the Transit Commission, and read.

507—R. T. 9525

Routes Nos. 5 and 20—Certificate by Chief Engineer of Completion of Contract for Completion of Construction and Station Finish at Broadway and Canal Street Stations—Report by Chief Engineer Recommending that Contractor be Required to Deposit \$1,000 Bond as Guarantee for Tile Work—Resolution Accepting Work and Directing that Certificate be Filed with Comptroller

The following certificate was approved:

April 12, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Completion of Construction and Station Finish, Routes Nos. 5 and 20, Broadway and Canal Street Stations.

In connection with the contract dated March 22, 1922, between the City of New York and Jacob Schlesinger, Inc., for completion of construction and station finish for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 5 and 20, Broadway and Canal Street Stations, I hereby certify that the work was completed on December 19, 1922. The total cost of the work was \$23,152.09.

In accordance with the provisions of the contract the work should have been completed by September 23, 1922. The time for completion, however, was extended to December 19, 1922, by resolution of the Transit Commission adopted on January 3, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

A report was presented from the Chief Engineer dated April 12, 1923, recommending that the contractor be required to deposit a bond in the sum of \$1,000 as a guarantee against defective tile, mosaic and plastering work.

The following resolution was adopted:

Whereas, The contract dated March 22, 1922, between The City of New York, acting by the Transit Commission and Jacob Schlesinger, Inc. for the completion of construction and Station Finish for that part of the Broadway-Fourth Avenue Rapid Transit Railroad known as Routes Nos. 5 and 20, Broadway and Canal Street stations required the completion of all work thereunder on or before September 23, 1922, which time was extended to December 19, 1922 by resolution of the Transit Commission adopted on January 3, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated April 12, 1923, has reported that all the work required under said contract was in all respects completed on or before December 19, 1922; that the total amount due therefor was \$23,152.09, and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York provided, however, that the contractor shall have as a condition precedent thereto complied with the provisions of Article LXI of said

contract in respect to depositing a bond or other security in the sum of \$1,000 as a guaranty against defects in tile, mosaics and plastering,

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York provided the contractor shall have complied as a condition precedent thereto with the said provisions of Article LXI of said contract.

508—R. T. 7525

Routes Nos. 5 and 20—Report by Chief Engineer Submitting Check in Sum of \$100.00 Deposited by Contractor as Security for Replacement of Defective Sign Plates under Contract for Completion of Construction and Station Finish at Broadway and Canal Street Stations—Resolution Accepting Security

A report was presented from the Chief Engineer dated April 12, 1923, as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission by communication dated April 12, 1923 has reported and recommended as follows:

“In connection with the contract between the City and Jacob Schlesinger, Inc. for the completion of construction and station finish work at the Broadway and Canal Street Stations, Routes 5 & 20, it has been found necessary to replace two defective sign plates.

“The contractor has completed all work on this contract and rather than delay the forwarding of the final estimate, arrangements have been made to accept a certified check from the contractor amounting to \$100 as security for the replacement of these two defective signs.

“Recommendation: It is recommended, therefore, that the contractor's certified check of \$100 forwarded herewith, be held until such time as the defective sign plates have been replaced.”

Resolved, That said report and recommendation be and the same hereby is approved; that the said certified check in the sum of \$100 being check No. 7438N dated April 9, 1923 upon the Chatham and Phenix National Bank be and the same hereby is accepted as security for the faithful performance of all the obligations of said contractor under said contract with respect to said two sign plates and that upon satisfactory completion of such work and certification of the Chief Engineer of such completion the Secretary of this Commission be and hereby is authorized and directed to return said certified check to the said contractor and to take proper receipt therefor.

509—R. T. 7525

Routes Nos. 5 and 20—Resolution Approving Sureties upon Bond in Sum of \$1,000 Deposited by Contractor as Guarantee for Tile, Mosaic and Plastering Work under Contract for Completion of Construction and Station Finish at Broadway and Canal Street Stations—Adopted

The following resolution was adopted:

Resolved, That the Globe Indemnity Company and the Fidelity and Deposit Company of Maryland be and hereby are approved as sureties upon the bond in the sum of One thousand (\$1,000) dollars, deposited by Jacob Schlesinger, Inc. as guarantee for all tile, mosaic and plastering work for a period of three years after the date of the final completion and acceptance of the work under the contract for the completion of construction and station finish at the Broadway and Canal Street stations of Routes Nos. 5 and 20, each of said sureties being held and bound in the sum of Five hundred (\$500) dollars.

510—R. T. 7612

Agreement "CG"—Resolution Approving Surety upon Bond Deposited by Contractor for Concreting Voids under Platform of Eighth Street Station—Adopted

The following resolution was adopted:

Resolved, That the Maryland Casualty Company be and hereby is approved as surety upon the bond in the sum of Two hundred (\$200) Dollars deposited by Edwards & Flood, Inc., as security for the faithful performance of the contract for concreting voids under the platform of the Eighth Street station, Route No. 5, Section No. 4, Borough of Manhattan, Agreement "CG."

511—R. T. 6027

Brooklyn Loop Lines—Report by Chief Engineer Recommending Issuance of Purchasing Agent's Order for Covers for Pipe Gallery Manholes on Delancey Street—Approved

A report was presented from the Chief Engineer dated April 11, 1923, recommending that a purchasing agent's order be issued to the Flockhart Foundry Company for delivery of six covers for pipe gallery manholes on Delancey Street at a cost of \$16.00 each, the cost to be paid from the funds for the maintenance of pipe galleries for the Brooklyn Loop Lines.

Upon motion, duly seconded and adopted, the Chief Clerk was directed to issue an Order.

512—R. T. 7644

Route No. 8, Section No. 5—Report by Chief Engineer Recommending Authorization for Preparation of Plans and Contract for Construction of Crossover between Montrose Avenue and Grand Street—Approved

A report was presented from the Chief Engineer dated April 9, 1923, recommending that he be authorized to prepare the necessary plans and contract for the construction of a crossover between Montrose Avenue and Grand Street on Section No. 5 of Route No. 8, at an expense of \$60,000, so as to avoid operation of shuttle service past Graham Avenue station.

Upon motion, duly seconded and adopted, the recommendation was approved.

513—R. T. 7655

Contract No. 1—Application by General Science Class 1923, Cooper Union, for Approval of Addition of Words "Cooper Union" to Tablets at Astor Place Station—Report by Chief Engineer Recommending Approval—Motion Denying Application—Adopted

An application was presented from the General Science Class 1923, Cooper Union, by Adolph R. Schwartz, dated March 29, 1923, requesting the addition of the words "Cooper Union" to the tablets of the Astor Place Station of the Manhattan-Bronx Rapid Transit Railroad.

A report was presented from the Chief Engineer dated April 12, 1923, recommending that the application be granted providing no expense is borne by the City or operating company.

Upon motion, duly seconded and adopted, the application was denied.

514—R. T. 7654

Routes Nos. 19 & 22—Section No. 2—Resolution Approving Map and Memorandum and Directing Condemnation Proceedings for Acquisition of Part of Site for Terminal Storage Yard and Inspection Shed North of Westchester Avenue and East of Blondell Avenue, Borough of The Bronx

The following resolution was adopted:

Whereas, This Commission has caused three similar maps or plans to be made of certain property between Westchester and Blondell Avenues, Eastchester Road, Haswell Street and Waters Avenue, in the Borough of The Bronx, which is required for the construction, maintenance and operation of a terminal storage yard and inspection shed, for use in connection with the municipal rapid transit railroads described in and constructed or to be constructed and operated under the contract dated March 19, 1913, made by The City of New York, acting by the Public Service Commission for the First District, with Interborough Rapid Transit Company, known as Contract No. 3, which said map or plan is entitled "State of New York Transit Commission Engineering Department Westchester Yard Map or Plan Showing Property, to be Acquired between Westchester and Blondell Avenues, Eastchester Road, Haswell Street and Waters Avenue," dated March 16, 1923, signed by Robert Ridgway, Chief Engineer, and numbered File No. 2102-Y, Drg. No. 35, the said property which is so required being designated on said map or plan as Parcels Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15; and

Whereas, This Commission has also caused a memorandum to be made accompanying said map or plan and to be deemed part thereof, indicating the particular estate or estates, rights, terms, privileges, franchises or easements to be acquired or extinguished for the purposes of such construction, maintenance and operation in relation to the property described upon said map or plan; and

Whereas, This Commission deems it necessary to acquire said property described in said memorandum and on said map or plan in fee simple absolute, free from all liens and encumbrances, for the purposes of constructing and operating such terminal storage yard and inspection shed for said rapid transit railroads, free of interference or right of interference;

Resolved, That the said map or plan and accompanying memorandum be, and hereby are, approved and adopted; that a certificate of such approval and adoption be written upon said map or plan and memorandum and signed by the members of this Commission adopting and approving the same, and that one copy of said map or plan and accompanying memorandum be filed in the office of the President of the Borough of The Bronx, there to remain as a public record; that two sets of the map or plan and accompanying memorandum be transmitted to the Corporation Counsel of The City of New York, together with a certified copy of this resolution, and that such Corporation Counsel be, and hereby is, directed to take legal proceedings to acquire for The City of New York the property described in said memorandum and on said map or plan; and it is

Further Resolved, That a copy of said map or plan and accompanying memorandum be filed in the office of this Commission.

The memorandum referred to above was as follows:

STATE OF NEW YORK
TRANSIT COMMISSION

MEMORANDUM

Indicating the particular estate or estates, rights, terms, privileges, franchises or easements to be acquired or extinguished by The City of New York for the purposes of the Rapid Transit Act, being Chapter 4 of the Laws of 1891 as amended, in relation to each and every piece or parcel of property described upon the map or plan accompanying this memorandum and of which this memorandum is to be deemed part.

THE CITY OF NEW YORK IS TO ACQUIRE WHEREVER THE SAME HAS NOT BEEN HERETOFORE ACQUIRED BY THE CITY OF NEW YORK AN ESTATE IN FEE SIMPLE ABSOLUTE FREE FROM ALL LIENS AND ENCUMBRANCES, AND ANY AND ALL RIGHTS, TERMS, INTERESTS,

PRIVILEGES, FRANCHISES AND EASEMENTS, WHETHER OF OWNERS, ABUTTERS OR OTHERS, in and to all those certain lots, pieces or parcels of land, land under water and land under water filled in with the buildings and improvements thereon, together with any and all riparian rights and rights of wharfage, crannage and any and all other rights and emoluments by reason of any and all water grants or otherwise, pertaining thereto and in and to the bed of any street, road or avenue upon or proposed in front of or adjoining the said property, together with the easements pertinent thereto, shown upon the map or plan accompanying this memorandum and of which this memorandum is to be deemed part and designated thereon as Parcels 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 situate, lying and being in the Borough of The Bronx, in the County of Bronx, in the City and State of New York, and bounded and described as follows:

Parcel 1: Beginning at a point on the northwesterly side of Westchester Avenue distant three hundred five and thirty-four one-hundredths (305.34) feet northeasterly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east along the northwesterly side of Westchester Avenue two hundred ninety-six and twenty-eight one-hundredths (296.28) feet; thence north forty-four degrees, thirty-five minutes and forty-seven seconds ($44^{\circ} 35' 47''$) east thirty-four and one-tenth (34.1) feet; thence north forty-nine degrees, nineteen minutes and twenty-four and five-tenths seconds ($49^{\circ} 19' 24.5''$) east sixty-two and twenty-three one-hundredths (62.23) feet; thence north thirty-four degrees, twenty-five minutes and thirty seconds ($34^{\circ} 25' 30''$) west thirty-one and seventy-three one-hundredths (31.73) feet; thence north sixty-four degrees, fifty-five minutes and forty-seven seconds ($64^{\circ} 55' 47''$) west one hundred forty and sixteen one-hundredths (140.16) feet; thence south thirty-eight degrees, twenty minutes and no seconds ($38^{\circ} 20' 00''$) west two hundred forty-five and fifty-two one-hundredths (245.52) feet; thence south eight degrees, twenty minutes and no seconds ($8^{\circ} 20' 00''$) west one hundred twenty-six and sixty-four one-hundredths (126.64) feet to the point or place of beginning.

Parcel 2: Beginning at a point on the northwesterly side of Westchester Avenue distant six hundred forty and ninety-six one-hundredths (640.96) feet northeasterly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence north seventy-six degrees, thirty minutes and twenty-three seconds ($76^{\circ} 30' 23''$) west eight and seventy-five one-hundredths (8.75) feet; thence south forty-four degrees, thirty-five minutes and forty-seven seconds ($44^{\circ} 35' 47''$) west thirty-four and one-tenth (34.1) feet to the northwesterly side of Westchester Avenue; thence north fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east along the northwesterly side of Westchester Avenue thirty-nine and thirty-four one-hundredths (39.34) feet to the point or place of beginning.

Parcel 3: Beginning at a point on the northwesterly side of Westchester Avenue distant six hundred forty and ninety-six one-hundredths (640.96) feet northeasterly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence north seventy-six degrees, thirty minutes and twenty-three seconds ($76^{\circ} 30' 23''$) west eight and seventy-five one-hundredths (8.75) feet; thence north forty-nine degrees, nineteen minutes, twenty-four and five-tenths seconds ($49^{\circ} 19' 24.5''$) east one hundred two and forty-seven one-hundredths (102.47) feet; thence south thirty-four degrees, twenty-five minutes and thirty seconds ($34^{\circ} 25' 30''$) east seventeen and sixty-five one-hundredths (17.65) feet to the northwesterly side of Westchester Avenue; thence south fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) west along the northwesterly side of Westchester Avenue ninety-five and ninety-nine one-hundredths (95.99) feet to the point or place of beginning.

Parcel 4: Beginning at a point on the northwesterly side of Westchester Avenue distant seven hundred thirty-six and ninety-five one-hundredths (736.95) feet northeasterly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence north fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east forty (40) feet; thence north thirty-four degrees, twenty-five minutes and thirty seconds ($34^{\circ} 25' 30''$) west twenty-two and three one-hundredths (22.03) feet; thence south forty-nine degrees, nineteen minutes and twenty-four and five-tenths seconds ($49^{\circ} 19' 24.5''$) west forty and twenty-four one-hundredths (40.24) feet; thence south thirty-four degrees,

twenty-five minutes and thirty seconds ($34^{\circ} 25' 30''$) east seventeen and sixty-five one-hundredths (17.65) feet to the point or place of beginning.

Parcel 5: Beginning at a point distant thirteen and twenty-seven one-hundredths (13.27) feet northwesterly from a point on the northwesterly side of Westchester Avenue measured along a line perpendicular thereto, which point on Westchester Avenue is six hundred ninety-six and ninety-five one-hundredths (696.95) feet north fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence north thirty-four degrees, twenty-five minutes and thirty seconds ($34^{\circ} 25' 30''$) west thirty-one and seventy-three one hundredths (31.73) feet; thence north eighty-four degrees, fifty-five minutes and fifty-eight seconds ($84^{\circ} 55' 58''$) east fifty-four and seventeen one-hundredths (54.17) feet; thence south forty-nine degrees, nineteen minutes and twenty-four and five-tenths seconds ($49^{\circ} 19' 24.5''$) west forty-seven and five-tenths (47.5) feet to the point or place of beginning.

Parcel 6: Beginning at a point distant one hundred fifty-five and six-tenths (155.6) feet northwesterly from a point on the northwesterly side of Westchester Avenue measured along a line perpendicular thereto, which point on Westchester Avenue is five hundred ninety-three and seven one-hundredths (593.07) feet north fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence south thirty-eight degrees, twenty minutes and no seconds ($38^{\circ} 20' 00''$) west one hundred fifty-four and fifty-two one-hundredths (154.52) feet; thence north twenty-seven degrees, fifty-one minutes and ten seconds ($27^{\circ} 51' 10''$) west one hundred fifty-four and nineteen one-hundredths (154.19) feet to the southeasterly side of Grant Street; thence north twenty-four degrees, fifty-three minutes and twenty seconds ($24^{\circ} 53' 20''$) east along the southeasterly side of Grant Street thirty-four (34) feet; thence south seventy-three degrees, twenty minutes and thirty seconds ($73^{\circ} 20' 30''$) east one hundred sixty and twenty-nine one-hundredths (160.29) feet to the point or place of beginning.

Parcel 7: Beginning at a point distant one hundred fifty-five and six-tenths (155.6) feet northwesterly from a point on the northwesterly side of Westchester Avenue measured along a line perpendicular thereto, which point on Westchester Avenue is five hundred ninety-three and seven one-hundredths (593.07) feet north fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence north thirty-eight degrees, twenty minutes and no seconds ($38^{\circ} 20' 00''$) east thirty-four and twenty-seven one-hundredths (34.27) feet; thence north forty-five degrees, fifty minutes and no seconds ($45^{\circ} 50' 00''$) east sixty-six (66) feet; thence north fifty-nine degrees, forty minutes and no seconds ($59^{\circ} 40' 00''$) west one hundred fifty-six and sixty-six one-hundredths (156.66) feet; thence south twenty-three degrees, six minutes and no seconds ($23^{\circ} 06' 00''$) west six and twenty-nine one-hundredths (6.29) feet; thence south twenty-nine degrees, three minutes and no seconds ($29^{\circ} 03' 00''$) west thirty and eighty-nine one-hundredths (30.89) feet; thence south fifty-six degrees, nineteen minutes and no seconds ($56^{\circ} 19' 00''$) west seven and twenty-one one-hundredths (7.21) feet; thence north eighty-three degrees, fourteen minutes and no seconds ($83^{\circ} 14' 00''$) west fifty-nine and forty-one one-hundredths (59.41) feet; thence south sixty-one degrees, fifty-six minutes and no seconds ($61^{\circ} 56' 00''$) west fifty-one (51) feet; thence north seventy-four degrees, twenty-six minutes and no seconds ($74^{\circ} 26' 00''$) west sixty-three and thirty-two one-hundredths (63.32) feet; thence south sixty-six degrees, fifteen minutes and no seconds ($66^{\circ} 15' 00''$) west twenty-seven and thirty-one one-hundredths (27.31) feet; thence south twenty-three degrees, twelve minutes and no seconds ($23^{\circ} 12' 00''$) west fifteen and twenty-three one-hundredths (15.23) feet; thence south twenty-one degrees, twenty-two minutes and no seconds ($21^{\circ} 22' 00''$) east five and fifty-nine one-hundredths (5.59) feet; thence south seventy-three degrees, twenty minutes and thirty seconds ($73^{\circ} 20' 30''$) east two hundred ninety-six and forty-nine one-hundredths (296.49) feet to the point or place of beginning.

Parcel 8: Beginning at a point distant three hundred eighty-one and forty-four one-hundredths (381.44) feet northwesterly from a point on the northwesterly side of Westchester Avenue measured along a line perpendicular thereto, which point on Westchester Avenue is six hundred ninety-six and ninety-five one-hundredths (696.95) feet north fifty-five degrees, thirty-four minutes and thirty seconds ($55^{\circ} 34' 30''$) east from

a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence north thirty-four degrees, twenty-five minutes and thirty seconds (34° 25' 30") west one hundred fifty-six and fifty-six one-hundredths (156.56) feet; thence south seventy degrees, twenty-four minutes and no seconds (70° 24' 00") west thirty-five and sixty-five one-hundredths (35.65) feet; thence south forty-three degrees, twenty-two minutes and no seconds (43° 22' 00") west twenty-four and seventy-six one-hundredths (24.76) feet; thence south three degrees, forty-nine minutes and no seconds (3° 49' 00") east fifteen and three one-hundredths (15.03) feet; thence south thirty-six degrees, fifty-two minutes and no seconds (36° 52' 00") east twenty-five (25) feet; thence south sixty-seven degrees, fifty-two minutes and thirty seconds (67° 52' 30") east ninety-eight and twenty-three one-hundredths (98.23) feet; thence south forty-three degrees, one minute and thirty seconds (43° 01' 30") east forty-one and three one-hundredths (41.03) feet; thence north fifty-five degrees, thirty-four minutes and thirty seconds (55° 34' 30") east four and ninety-seven one-hundredths (4.97) feet to the point or place of beginning.

Parcel 9: Beginning at a point distant fifteen hundred seventy-four and seventy-six one-hundredths (1574.76) feet northwesterly from a point on the northwesterly side of Westchester Avenue measured along a line perpendicular thereto, which point on Westchester Avenue is two hundred forty-two and five-tenths (242.5) feet from a point formed by the intersection of the northeasterly side of Blondell Avenue and the northwesterly side of Westchester Avenue, running thence south eighty-eight degrees, fifty-nine minutes and forty seconds (88° 59' 40") west sixty-four and eighty-eight one-hundredths (64.88) feet; thence north twenty-one degrees, forty-two minutes and thirty seconds (21° 42' 30") west one hundred eighty-three and eighty-two one-hundredths (183.82) feet; thence south eighty-seven degrees, three minutes and fifty seconds (87° 03' 50") east one hundred fifteen and three one-hundredths (115.03) feet; thence south six degrees, sixteen minutes and no seconds (6° 16' 00") east one hundred sixty-four and seventy-two one-hundredths (164.72) feet to the point of place of beginning.

Parcel 10: Beginning at a point on the easterly side of Eastchester Road distant one hundred thirteen and forty-one one-hundredths (113.41) feet northerly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the easterly side of Eastchester Road, running thence north eighty-eight degrees, three minutes and thirty-eight seconds (88° 03' 38") east one hundred eight and sixty-four one-hundredths (108.64) feet; thence south two degrees, thirty-four minutes and forty-five seconds (2° 34' 45") each twenty-nine and seventy-three one-hundredths (29.73) feet; thence south eighty-seven degrees, fifty-six minutes and twenty-five seconds (87° 56' 25") west forty-three and seventeen one-hundredths (43.17) feet; thence south eighty-five degrees, five minutes and fifty seconds (85° 05' 50") west seventy-six (76) feet; thence north fourteen degrees, fifty-eight minutes and one second (14° 58' 01") east eight and twenty-two one-hundredths (8.22) feet to the easterly side of Eastchester Road; thence sixteen degrees, fifty-three minutes and twenty-four seconds (16° 53' 24") east along the easterly side of Eastchester Road two and fifty-nine one-hundredths (2.59) feet; thence north fourteen degrees, thirty-five minutes and twenty-seven seconds (14° 35' 27") east along the easterly side of Eastchester Road twenty-four and forty-two one-hundredths (24.42) feet to the point or place of beginning.

Parcel 11: Beginning at a point on the easterly side of Eastchester Road distant one hundred thirteen and forty-one one-hundredths (113.41) feet northerly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the easterly side of Eastchester Road, running thence north fourteen degrees, thirty-five minutes and twenty-seven seconds (14° 35' 27") east along the easterly side of Eastchester Road one hundred fourteen and one-tenth (114.1) feet; thence south eighty-two degrees, sixteen minutes and forty seconds (82° 16' 40") east one hundred twenty-five and eighty-nine one-hundredths (125.89) feet; thence south five degrees, three minutes and twenty-six seconds (5° 03' 26") east one hundred eighteen and five one-hundredths (118.05) feet; thence south eighty-seven degrees, fifty-six minutes and twenty-five seconds (87° 56' 25") west fifty-four and two one-hundredths (54.02) feet; thence north two degrees, thirty-four minutes and forty-five seconds (2° 34' 45") west twenty-nine and seventy-three one-hundredths (29.73) feet; thence south eighty-eight degrees, three minutes and thirty-eight seconds (88° 03' 38") west one hundred eight and sixty-four one-hundredths (108.64) feet to the point or place of beginning.

Parcel 12: Beginning at a point on the easterly side of Eastchester Road distant two hundred twenty-seven and fifty-one one-hundredths (227.51) feet northerly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the east-

erly side of Eastchester Road, running thence south eighty-two degrees, sixteen minutes and forty seconds ($82^{\circ} 16' 40''$) east one hundred (100) feet; thence north fourteen degrees, forty-two minutes and twenty-two seconds ($14^{\circ} 42' 22''$) east forty-nine and four-tenths (49.4) feet; thence north eighty-one degrees, forty-five minutes and ten seconds ($81^{\circ} 45' 10''$) west one hundred (100) feet to the easterly side of Eastchester Road; thence south fourteen degrees, thirty-five minutes and twenty-seven seconds ($14^{\circ} 35' 27''$) west along the easterly side of Eastchester Road fifty and thirty-one one-hundredths (50.31) feet to the point or place of beginning.

Parcel 13: Beginning at a point distant one hundred (100) feet southeasterly from a point on the easterly side of Eastchester Road measured along a line running south eighty-two degrees, sixteen minutes and forty seconds ($82^{\circ} 16' 40''$) east, which point on Eastchester Road is two hundred twenty-seven and fifty-one one-hundredths (227.51) feet northerly from the point formed by the intersection of the northeasterly side of Blondell Avenue and the easterly side of Eastchester Road measured along the easterly side of Eastchester Road, running thence north fourteen degrees, forty-two minutes and twenty-two seconds ($14^{\circ} 42' 22''$) east forty-nine and four-tenths (49.4) feet; thence south eighty-one degrees, forty-five minutes and ten seconds ($81^{\circ} 45' 10''$) east eight and seventy-eight one-hundredths (8.78) feet; thence south five degrees, three minutes and twenty-six seconds ($5^{\circ} 03' 26''$) east fifty and two-tenths (50.2) feet; thence north eighty-two degrees, sixteen minutes and forty seconds ($82^{\circ} 16' 40''$) west twenty-five and eighty-nine one-hundredths (25.89) feet to the point or place of beginning.

Parcel 14: Beginning at a point on the easterly side of Eastchester Road two hundred seventy-seven and eighty-two one-hundredths (277.82) feet northerly from a point formed by the intersection of the northeasterly side of Blondell Avenue and the easterly side of Eastchester Road, running thence north fourteen degrees, thirty-five minutes and twenty-seven seconds ($14^{\circ} 35' 27''$) east along the easterly side of Eastchester Road thirty-eight and sixty-two one-hundredths (38.62) feet; thence north no degrees, thirteen minutes and thirty-five seconds ($0^{\circ} 13' 35''$) west along the easterly side of Eastchester Road twelve and seventy-three one-hundredths (12.73) feet; thence south eighty degrees, forty-two minutes and thirty seconds ($80^{\circ} 42' 30''$) east eighty-three and ninety-eight one-hundredths (83.98) feet; thence south eight degrees, fourteen minutes and fifty seconds ($8^{\circ} 14' 50''$) west thirty-five (35) feet; thence south eighty-one degrees, forty-five minutes and ten seconds ($81^{\circ} 45' 10''$) east nineteen (19) feet; thence south five degrees, three minutes and twenty-six seconds ($5^{\circ} 03' 26''$) east fourteen and eighty-five one-hundredths (14.85) feet; thence north eighty-one degrees, forty-five minutes and ten seconds ($81^{\circ} 45' 10''$) west one hundred eight and seventy-eight one-hundredths (108.78) feet to the point or place of beginning.

Parcel 15: Beginning at a point distant eighty-three and ninety-eight one-hundredths (83.98) feet southeasterly from a point on the easterly side of Eastchester Road measured along a line running south eighty degrees, forty-two minutes and thirty seconds ($80^{\circ} 42' 30''$) east, which point on Eastchester Road is three hundred twenty-nine and seventeen one-hundredths (329.17) feet northerly from the point formed by the intersection of the northeasterly side of Blondell Avenue and the easterly side of Eastchester Road measured along the easterly side of Eastchester Road, running thence south eight degrees, fourteen minutes and fifty seconds ($8^{\circ} 14' 50''$) west thirty-five (35) feet; thence south eighty-one degrees, forty-five minutes and ten seconds ($81^{\circ} 45' 10''$) east nineteen (19) feet; thence north five degrees, three minutes and twenty-six seconds ($5^{\circ} 03' 26''$) west thirty-five and seventy-six one-hundredths (35.76) feet; thence north eighty degrees, forty-two minutes and thirty seconds ($80^{\circ} 42' 30''$) west ten and seventy-seven one-hundredths (10.77) feet to the point or place of beginning.

The map or plan above mentioned accompanying this memorandum and of which this memorandum is to be deemed a part consists of one sheet having thereon a certificate of approval and adoption by the Transit Commission and bearing the seal of the Transit Commission and being entitled "State of New York Transit Commission Engineering Department Westchester Yard Map or Plan Showing Property to be Acquired between Eastchester and Blondell Avenues Eastchester Road, Haswell Street and Waters Avenue," dated March 16, 1923, signed by Robt. Ridgway, Chief Engineer, and numbered No. 2102 Y, Drg. No. 23.

The said estate in fee simple absolute in said parcels of property above described is required for the construction, maintenance and operation in perpetuity, free of interference or right of interference of a terminal, storage yard and inspection shed for use in connection with certain municipal rapid transit railroads which are described in the contract for the operation thereof dated March 19, 1913, between The City of New York acting

by the Public Service Commission for the First District and Interborough Rapid Transit Company, a corporation organized and existing under the laws of the State of New York, and known as Contract No. 3.

This certifies that this memorandum and the map or plan accompanying the same were approved and adopted by the Transit Commission this 18th day of April, 1923.

Route No. 12—Report by Real Estate Clerk Recommending Termination of Concession of Samuel Beilin to Occupy Premises at South Side of Eastern Parkway Near Buffalo Avenue, Borough of Brooklyn—Approval Resolution

A report was presented from the Real Estate Clerk dated April 10, 1923, recommending termination of the concession of Samuel Beilin for the premises on the south side of Eastern Parkway near Buffalo Avenue, Borough of Brooklyn, for use as a gasoline station.

The following resolution was adopted:

Whereas, Samuel Beilin by application dated June 22, 1922, approved by the Commission on June 27, 1922, effective July 15, 1922, has paid rental at the rate of \$25.00 per month for a concession for a gasoline selling station on the southerly side of Eastern Parkway, 30 feet east of Buffalo Avenue, Borough of Brooklyn, for the period July 15, 1922 to February 15, 1923; and

Whereas, The Board of Standards and Appeals has refused to permit the said Samuel Beilin to occupy the premises for the purpose for which he got the concession and he has therefore not paid rental since February 15, 1923; and

Whereas, The Real Estate Clerk has recommended under date of April 10, 1923, that the said concession of Samuel Beilin be terminated as of February 15, 1923, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, terminate the said concession of Samuel Beilin as of February 15, 1923.

516—R. T. 6960, 7235, 7354

Contract No. 3—Stipulation with Interborough Rapid Transit Company Extending Time to May 14, 1923, within Which to Agree upon Successor to Hon. Luke D. Stapleton as Third Arbitrator in Proceedings with Respect to Operating Expenses and Classification and Amount of Depreciation—Approved

A stipulation was approved with the Interborough Rapid Transit Company dated March 13, 1923, extending to May 14, 1923 the time of the Commission and the Interborough Rapid Transit Company to agree upon the successor to the late Luke D. Stapleton, as the third arbitrator in the two pending arbitrations, the first having to do with objections dated November 24, 1920 and January 28, 1921, of the former Transit Construction Commissioner with respect to certain operating expenses and the second having to do with the classification and amount of depreciation and excess maintenance deductible under Contract No. 3 and the Extension Certificate to June 30, 1920.

517—R. T. 6694

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Installation of Additional Signal on Northbound Express Track at Grand Central Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order No. IBA-12—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 28, 1923, requesting approval of the installation of an additional signal on the northbound express track at Grand Central Station at an estimated cost of \$2,050.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 12, 1923, recommending that the application be approved subject to the approval by the Chief Engineer, as to the location and type of signal to be installed.

A report was presented from the Auditor of Rapid Transit Costs classifying the work as Additional Equipment and assigning Work Order No. IBA-12.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, and particularly Articles LXX and LXXI thereof, Interborough Rapid Transit Company has, by communication dated March 28, 1923, requested the approval of this Commission to the installation of an additional signal on the northbound express track at the Grand Central Station of the Railroad described in said Contract No. 3, at an estimated cost of \$2,050; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated April 12, 1923, reported that the proposed additional signal will allow a closer headway between northbound express trains entering said station, thus increasing the number of trains that can be passed through said station; that the heavy traffic at said point justifies the expenditure; that the estimated cost is reasonable, and recommend the approval of the said proposal, subject to the condition that the location and type of such additional equipment shall receive the approval of the Chief Engineer of this Commission before its installation; and

Whereas, The Auditor of Rapid Transit Costs, by communication dated April 16, 1923, has recommended that such proposed work be classified as Additional Equipment of the Railroad and that Work Order No. IBA-12 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the installation of said additional signal be and the same hereby is approved, such work to be classified as Additional Equipment of the Railroad and as to which this Commission assigns Work Order No. IBA-12, such approval being conditional upon the approval of the Chief Engineer of this Commission to the location and type of such signal prior to its installation.

518—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Three Rotary Converters and Transformers for Substation No. 27—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 26, 1923, requesting approval of a proposed contract with the General Electric

Company for the manufacture and delivery and installation of three 2000 K.W. rotary converters and transformers and switchboard panels for Substation No. 27, at a cost of \$87,750.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 7, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated March 26, 1923, requested the approval of this Commission of a proposed contract dated February 28, 1923, between said Interborough Rapid Transit Company and General Electric Company for the manufacture and delivery and installation complete of three 2000 K.W. rotary converters with their transformers and switchboard panels for Substation No. 27 of the Railroad described in said Contract No. 3 as a part of Equipment of the Railroad as defined in said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated April 7, 1923, reported that the following bids were received for such work:

General Electric Co.—\$87,750.00—Shipment 6 months from receipt of order.

Westinghouse Electric and Manufacturing Co.—\$89,945—Shipment 7½ months from receipt of order.

; that said companies are practically the only ones producing such apparatus in this country suitable for use in the rapid transit lines of this City; that the award is to the lowest of said bidders; that the price is reasonable; that the three machines are necessary to adequately supply the necessary power for the operation of the Railroad and recommend the approval of said proposed contract; and

Whereas, The Auditor of Rapid Transit Costs, by indorsement dated April 12, 1923, has recommended the classification of such work as an Equipment of the Railroad; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed contract so submitted be and the same hereby is approved and that said Interborough Rapid Transit Company be and hereby is authorized to enter into said contract hereby approved.

519—R. T. 7007

Contract No. 3—Applications by Interborough Rapid Transit Company for Approval of Two Proposed Purchasing Agent's Orders for Material to be Used in Connection with Equipping 982 Low Voltage Cars with Multiple Unit Door Control Apparatus—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolutions

Applications were presented from the Interborough Rapid Transit Company dated March 9, 1923, requesting approval of two proposed purchasing agent's orders, one directed to the P. H. Gill & Sons Forge & Machine Works and the other to the Columbia Machine Works and Malleable Iron Company for material to be used in connection with equipping 982 low voltage cars with multiple unit door control apparatus at a total cost of \$56,934.20.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 7, 1923, recommending that the applications be approved.

following resolutions were adopted:

Whereas, By order adopted on the 15th day of December, 1920, the Transit Commission in pursuance of his finding aforesaid and of the provisions of the contract dated December 30, 1911, modifying the contract dated February 21, 1911, known as Contract No. 1 for the construction and operation of the Manhattan Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement dated December 30, 1911, and by orders adopted co-incidentally therewith modified by order of April 23, 1920, aforesaid and approved a certain stipulation between the Transit Commission and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for the issue of a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922, for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device and the installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923, the Transit Commission approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922, as modified by communication dated January 17, 1923, for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the amount of said arbitration award; and

Whereas, In accordance with said approval Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated March 9, 1923, directed to P. H. Gill and Sons Forge and Machine Company following:

54 Boxes, emergency door opening inside handle, with glass shown on B/P 9854-A and assembled complete as per B/P 9844-C.

Whereas, The Engineer of Equipment and Operation and the Chief Engineer by communication dated April 7, 1923 reported that such material is necessary and price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved, and that the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made in accordance with said proposed purchasing agent's order.

520—R. T. 7007

Subject No. 3—Applications by Interborough Rapid Transit Company for Approval of Two Proposed Purchasing Agent's Orders for Material to be Used in Connection with Equipping 396 High Voltage Subway Cars with Multiple Unit Door Control Apparatus—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolutions

Applications were presented from the Interborough Rapid Transit Company dated April 7, 1923, requesting approval of two proposed purchasing agent's orders, one directed to the P. H. Gill and Son Forge and Machine Works and the other to the Columbia Machine Works and Malleable Iron Company for material to be used in connection with equipping 396 high voltage subway cars with multiple unit door control apparatus at a total cost of \$22,417.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 7, 1923, recommending that the applications be approved.

The following resolutions were adopted:

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Articles LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 1, to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined, the proper classification of such work to be additions to Existing Equipment and to which work this Commission assigned Work Order No. 1CqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated March 7th, 1923 directed to P. H. Gill and Son Forge and Machine Works, as follows:

772 Boxes, emergency door opening inside handle with glass shown on B/P 9854-A and assembled complete as per B/P 9844-C.	
Price: \$1.15 each.....	\$887.80
1,580 Brackets, interlock, box, Det. 2, B/P 9995-A.	
Price: \$0.09 each.....	142.20
790 Sheaves, roof, Det. 2, assembled complete with bracket, Det. 5, and pin, Det. 10 on B/P 9831-E.	
Price: \$0.90 each.....	711.00
790 Guards, door post sheave, Det. 3, B/P 9831-E.	
Price: \$0.14 each.....	110.60
1,580 Supports, bottom handle guide, Det. 5, B/P 9831-E.	
Price: \$0.09 each.....	142.20
790 Lifts, door arm, Det. 1, assembled with catch, Det. 2, on B/P 9832-E.	
Price: \$2.30 each.....	1,817.00
790 Trippers, Det. 3, B/P 9832-E.	
Price: \$1.15 each.....	908.50
790 Brackets, tripper, Det. 4, B/P 9832-E.	
Price: \$0.18 each.....	142.20

Item No.

9	1,580 Guides, door arm lift, Det. 6, B/P 9832-E. Price: \$0.02 each.....	31.60
10	790 Dogs, tripper, Det. 9, B/P 9832-E. Price: \$1.40 each.....	1,106.00
11	1,580 Plates, door arm guide, lift backing, Det. 11, B/P 9832-E. Price: \$0.02 each.....	31.60
12	790 Plates, advertising rack filler, Det. 13, B/P 9832-E. Price: \$0.02 each.....	15.80
	Total	<u>\$6,046.50</u>

which purchasing agent's order has been caused to be designated as "Approval No. 461"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported the following bids were received for the performance of such work:

P. H. Gill & Sons Forge and Machine Works.....	\$6,046.50
*Traction Supply & Equipment Co.....	1,678.75
R. Steel & Sons.....	9,728.20
Columbia Machine Works & Malleable Iron Co.....	10,629.00
National Pneumatic Company.....	14,606.80
Ellcon Company.....	Did not bid

that the material is necessary and the price is reasonable being the best obtainable for the material to be supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated April 12, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Whereas, This Commission, by resolution adopted on December 19, 1922, approved the proposal of Interborough Rapid Transit Company, pursuant to the provisions of Articles LXX and LXXI of the contract dated March 19, 1913, known as Contract No. 3 to install as an Addition a multiple door control on 396 additional subway high voltage cars as therein more particularly indicated and determined, the proper classification of such work to be additions to Existing Equipment and to which work this Commission assigned Work Order No. ICqA-1; and

Whereas, Interborough Rapid Transit Company has requested the approval of this Commission to the issuance of a purchasing agent's order dated March 7, 1923, directed to Columbia Machine Works & Malleable Iron Co., as follows:

Item No.

1	772 Boxes, emergency door opening contact, details as shown on B/Ps 9954-C and 9955-C and to be assembled complete as per B/P 9849-D. Price: \$10.00 each.....	\$7,720.00
2	772 Boxes, emergency door opening interlock, details as shown on B/Ps 9995-A and 9996-B and to be assembled complete as per B/P 9994-B. Price: \$7.00 each	5,404.00
3	772 Boxes, emergency door opening outside handle complete, as per B/P 9843-E. Price: .90 each.....	694.80
4	790 Mouldings, cable, B/P 9818-C. Price: 2.00 each.....	1,580.00
5	790 Handles, inside operating, Det. 9, B/P 9831-E. Price: .55 each.....	434.50

*Not a complete bid.

Item No.		
6	790 Handles, outside operating, Det. 15, assembled, with pull hook, Det. 14, on B/P 9831-E.	
	Price: .68 each.....	537.20
	Total	\$16,370.50

which purchasing agent's order has been caused to be designated as "Approval No. 462"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported the following bids were received for the performance of such work:

Columbia Machine Works and Malleable Iron Co.....	\$16,370.50
*Traction Supply & Equipment Co.	1,666.50
*National Pneumatic Company.....	15,544.20
P. H. Gill & Sons Forge and Machine Works.....	18,555.10
*R. Steel & Sons	21,875.50
Ellcon Company	Did not bid

that the material is necessary and the price is reasonable being the best obtainable for the material to be supplied and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated April 12, 1923 has recommended the approval of said proposed purchasing agent's order as being in accordance with the approval of this Commission as set forth in its resolution of December 19, 1922 aforesaid,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and the same hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

521—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Orders for Material to be Installed on 100 New Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated March 5, 1923, requesting approval of a proposed purchasing agent's order directed to the Columbia Machine Works and Malleable Iron Works for boxes, moldings and handles to be installed on 100 new steel trailer cars, at a cost of \$4,226.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer dated April 5, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving "Interborough Equipment Trust Series 'A'" in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition dated June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 steel trailer cars, subject to the terms and conditions set forth in said order so adopted on July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, this Commission, in its resolution adopted on August 8, 1922, assigned to the unit of purchasing and installing said 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the said proposed contract approved by said resolution of August 8, 1922 Inter-

*Not a complete bid.

borough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated March 5, 1923, directed to Columbia Machine Works & Malleable Iron Works for the manufacture and delivery of the following:

Item No.		
1	200 Boxes, emergency door opening contact, details as shown on B/Ps 9954-C and 9955-C and to be assembled complete as per B/P 9849-D.	
	Price: \$10.00 each.....	\$2,000.00
2	200 Boxes, emergency door opening interlock, details as shown on B/Ps 9995-A and 9996-B and to be assembled complete as per B/P 9994-B.	
	Price: \$7.00 each	1,400.00
3	200 Boxes, emergency door opening outside handle complete, B/P 9843-B.	
	Price: .90 each.....	180.00
4	200 Mouldings, cable, B/P 9818-C.	
	Price: \$2.00 each	400.00
5	200 Handles, inside operating, Det. 9, B/P 9831-E.	
	Price: .55 each.....	110.00
6	200 Handles, outside operating, Det. 15, assembled with pull hook, Det. 14, on B/P 9831-E.	
	Price: .58 each.....	136.00
	Total	\$4,226.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 458"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated April 5, 1923, reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

Columbia Machine Works and Malleable Iron Co.	\$4,226.00
*Traction Supply & Equipment Co.	426.00
*National Pneumatic Company	4,020.00
*P. H. Gill and Sons	4,790.00
*R. Steel and Sons	5,660.00
Elleon Company	No bid

and recommend that said proposed purchasing agent's order be approved,

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

522—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Cable for 14th Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated March 22, 1923, requesting approval of a proposed purchasing agent's order directed to the National Conduit and Cable Company for furnishing and installing cable in the 14th Street-Eastern Line, at a cost of \$309,997.09.

*Not a complete bid.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer, recommending that the application be approved, which report was endorsed by Auditor of Rapid Transit Costs, recommending that the work be classified as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between the City of New York, acting by the Public Service Commission for the First District, and the New York Municipal Railway Corporation, known as Contract No. 4, Lindley Garrison, as Receiver of said New York Municipal Railway Corporation, has submitted for the approval of this Commission by communication dated March 22, 1923, proposed Purchasing Agent's Order dated March 22, 1923, directed to National Conduit and Cable Company, Inc. and its Receiver for furnishing and installing various cable on the 14th Street-Eastern Line of the Railroad as described in said Contract No. 4, which proposed Purchasing Agent's Order has been caused to be designated as "Approval No. 345," the quality and character of work being more particularly set forth in said proposed Purchasing Agent's Order and the specifications forming part thereof; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated April 7, 1923, reported that the following bids were taken for such work:

National Conduit and Cable Co.....	\$309,997.09
Standard Underground Cable Co.....	333,294.99
Safety Insulated Wire and Cable Co.....	354,586.85
J. A. Roebling's Sons Co.....	Could not quote
B. T. and J. J. Mack.....	Could not quote
Seymour Construction Co.....	Could not quote
James Sugden Co.....	Could not quote
General Electric Co.....	Could not quote
American Steel and Wire Co.....	Could not quote

; that the cable to be installed is for the purpose of supplying motive power, lighting and telephonic connection for the operation of said line; that the price is the lowest obtainable and the said Company and its Receiver are competent to supply the work required and recommend that the said proposed Purchasing Agent's Order so submitted be approved, provided, that the approval thereof shall not be deemed the approval of this Commission to the general scheme of power supply for said Line; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated April 12, 1923, has recommended that the work be classified as Equipment of the Railroad,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed Purchasing Agent's Order so submitted be and the same hereby is approved, the cost thereof to be charged to Equipment of the Railroad and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed Purchasing Agent's Order, it being distinctly understood that the approval of said proposed Purchasing Agent's Order is not an approval of this Commission to the general scheme of power supply for the said Line of the Railroad as described in said Contract No. 4.

523—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Construction of Duct Line from South Sixth Street Substation to 14th Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated March 30, 1923, requesting approval of a proposed purchasing agent's order directed to G. M. Gest for the construction of a duct line from the South Sixth Street substation to the 14th Street-Eastern Line at north Seventh Street, at a cost of \$56,833.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, recommending that the application be approved, which report was

endorsed by the Auditor of Rapid Transit Costs, recommending that the work be classified as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation, by communication dated March 30, 1923, has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated March 29, 1923 directed to G. M. Gest for the following:

Supply all labor and material required to construct a twenty-five duct line, Dwg. A-2116, from South 6th St. Sub-station, via So. 6th Street and Bedford Avenue, to the 14th Street Eastern Line, at North 7th Street, in accordance with specifications dated March 15, 1923

Bond of \$50,000 required.

Time of Completion—6 months from date of order.

Payment to be made in accordance with attached Schedule of Prices

together with the unit prices thereto attached and the plans and specifications made part thereof, which proposed purchasing agent's order has been caused to be designated as "Approval No. 344"; and

G. M. Gest.....	\$56,833.00
McElroy and Kerwin.....	62,320.55
Edwards and Flood.....	65,294.75
B. T. and J. J. Mack.....	67,247.50
N. W. Ryan.....	87,413.25
Thos. Crimmins Contracting Co.....	88,158.00
Carter Contracting Co., Inc.....	115,345.25

that the award is to the lowest bidder who is competent to perform the work; that the proposed duct line is to consist of 25 ducts and will extend from South 6th St. Sub-station near Wythe Avenue to the 14th Street-Eastern Line at Bedford Avenue; that the drawings and specifications are satisfactory; that the quantity and material is not unreasonable; that the prices quoted are reasonable and the best obtainable and recommend the approval of said proposed purchasing agent's order; and

Whereas, By indorsement dated April 13, 1923, the Auditor of Rapid Transit Costs has recommended that such work be classified as "Equipment of the Railroad."

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

524—R. T. 6481

Contract No. 4—Application by New York Consolidated Railroad Company for Approval of Price for Brake Shoes for Second Quarter of Year 1923—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Consolidated Railroad Company dated April 3, 1923, requesting approval of the price of \$65 per net ton F.O.B., Mahwah, New Jersey, to be paid in the second quarter of the year 1923 for furnishing brake shoes under the contract with the American Brake Shoe and Foundry Company for car brake shoes.

A report was presented from the Engineer of Equipment and Operation and the

Chief Engineer dated April 7, 1923, stating that the price is reasonable and recommending that the application be approved.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted on November 9, 1921, as amended by resolution adopted on November 22, 1921, pursuant to the provisions of the contract dated March 19, 1913 between the City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation consented to a proposed contract to be entered into between the Receiver of New York Consolidated Railroad Company (assignee of New York Municipal Railway Corporation of the maintenance and operating provisions of said Contract No. 4) with American Brake Shoe and Foundry Company for the purchase of car brake shoes in connection with the operation of the Railroad and Existing Railroads under said Contract No. 4, "the price of said shoes varying," provision being made in said proposed contract for revising the prices on the first day of January, April, July and October, the revised price to prevail for the succeeding three months, which resolution further provides that each new price fixed in accordance with the provisions of said proposed contract shall be submitted to this Commission for approval; and

Whereas, By communication dated April 3, 1923, the Receiver of New York Consolidated Railroad Company has requested the approval of this Commission to a price of \$65.00 per net ton, F.O.B., Mahwah, N. J., to be paid in the second quarter of the year 1923; and

Whereas, By communication dated April 7, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the said price of \$65.00 per ton for the second quarter of the year 1923 is reasonable in view of present material and labor costs and recommend that the said request be approved,

Resolved, That the fixation of the price of \$65.00 per net ton, F.O.B. Mahwah, N. J., as of April 1, 1923, for the supply of car brake shoes under said contract with American Brake Shoe and Foundry Company approved as aforesaid, to prevail during the second quarter of the year 1923 be and the same hereby is approved.

525—R. T. 7605

Routes Nos. 35 & 67—Report by Chief Engineer Submitting Schemes for Cross Passageway under Roadway at Fifth Avenue Station—Motion Disapproving Passageway and Authorizing Elimination of Stairway on North Side of 42nd Street Nearest Fifth Avenue—Motion Adopted

A report was presented from the Chief Engineer dated April 3, 1923, submitting alternative schemes for a cross passageway under the roadway to the northeast corner of 42nd Street and Sixth Avenue at the Fifth Avenue Station of the Queensboro Subway Extension, Routes Nos. 35 & 67, at estimated costs of \$92,000 and \$79,000.

Upon motion by Commissioner Harkness, which was duly seconded and adopted, it was directed that the passageway be disapproved and that the stairway on the north side of 42nd Street nearest Fifth Avenue be eliminated.

526—Case 2683

The Concourse Bus Line, Inc.—Application for Permission and Approval of Operation under Franchise Contract and for Certificate of Convenience and Necessity for Operation of Bus Lines in the Boroughs of Manhattan and The Bronx—Hearing Order with Notice Adopted

The Secretary presented a petition, dated April 14, 1923, of The Concourse Bus Line, Inc., by Emil Leindorf, President, asking for a certificate of public convenience

and necessity for the operation of stage or omnibus routes over the following described routes :

“110th Street and Mosholu Parkway Line.

Terminals: 110th Street and Fifth Avenue, Grand Boulevard and Concourse and Mosholu Parkway.

Route—Northbound—Fifth Avenue, 120th Street, Mount Morris Park West, 124th Street, Fifth Avenue, 136th Street (Manhattan), Madison Avenue Bridge, 138th Street (Bronx), Mott Avenue, Grand Boulevard and Concourse.

Southbound—Grand Boulevard and Concourse, Mott Avenue, 138th Street (Bronx), Madison Avenue Bridge, Fifth Avenue, 124th Street, Mount Morris Park West, 120th Street, Fifth Avenue.

“The Hub” Line.

Terminals—150th Street and Melrose Avenue, Grand Boulevard and Concourse and Mosholu Parkway.

Route—Northbound—Melrose Avenue, 151st Street, Courtlandt Avenue, 153rd Street, Mott Avenue, Grand Boulevard and Concourse.

Southbound—Grand Boulevard and Concourse, Mott Avenue, 153rd Street, Courtlandt Avenue, 150th Street.”

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2683, directing a hearing on May 2, 1923 at 2:30 P. M., with respect to said application and requiring publication of notice thereof.

527—R. T. 7570

Route No. 5, Section No. 15—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Agreement for Changes in Lavatories at 138th Street and Third Avenue and 149th Street and Mott Avenue Stations—Communication from Acting Corporation Counsel Returning Agreement Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 6, 1923, was ordered filed :

(Cal. No. 54)

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 19, 1922, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby approve of and consent to a proposed agreement with the Interborough Rapid Transit Company, as lessee, as “addition to construction” under Contract No. 3, for the performance of the work of constructing changes in the lavatories at the 138th street and 3d avenue and 149th street and Mott avenue stations of Lexington Avenue Branch of Seventh Avenue-Lexington Avenue Rapid Transit Railroad, as submitted by the Transit Commission to this Board under date of January 30, 1923.

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 6, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated April 12, 1923 from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned agreement, approved as to form, was also ordered filed.

528—R. T. 7653

Routes Nos. 4 and 36, Section No. 2—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Issue of Tax Notes in Sum of \$1,000 for Changes in Subway Structure at Northeast Corner of Broadway and West 32nd Street Due to Widening of West 32nd Street—Filed

The following certified copy of resolution adopted by the Board of Estimate and Apportionment on April 6, 1923, was ordered filed :

(Cal. No. 322)

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding one thousand dollars (\$1,000), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which to the amount of the par value thereof to be used for the changes in the subway structure incidental to the widening of West 32d street at the northeast corner of Broadway, Manhattan, under the jurisdiction of the President, Borough of Manhattan; said work to be performed under the supervision of the Transit Commission, and said appropriation to be disbursed upon vouchers, prepared by the Transit Commission and certified by the Borough President.

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 6, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Agreement "CG"—Statement as to Execution and Delivery of Original Contract for Concreting Voids under Platform of Eighth Street Station, Broadway-Fourth Avenue Line—Contract Filed

The Commission ordered filed an original contract dated April 2, 1923, between The City of New York, acting by this Commission, and Edwards & Flood, Inc., for concreting voids under the platform of the Eighth Street Station of the Broadway-Fourth Avenue Line, Agreement "CG", which contract had been executed on behalf of both parties and delivered on April 12, 1923.

530—R. T. 7419

Contracts Nos. 3 and 4—Notice by Chief Engineer of Commencement of Work for Completion of Built-in Newsstand Enclosures—Filed

A notice was ordered filed from the Chief Engineer dated April 11, 1923, advising of the commencement of work by Fox-Reynolds Company, Inc. on March 27, 1923, for the completion of built-in newsstand enclosures at stations of municipal rapid transit railroads.

531—R. T. 6616

Contract No. 2—Communication from Chief Engineer Transmitting Determination of Claims for Additional Work and Additional Materials on Subsection No. 3 and Additional Work and Additional Materials Shown by "C" Claims on Subsection No. 2-A—Filed

The following report from the Chief Engineer was ordered filed:

April 12, 1923.

To the TRANSIT COMMISSION

Contract No. 2, Determination of Claims for Additional Work and Additional Materials on Subsection 3, and Additional Work and Additional Materials shown by "C" Claims on Subsection 2-A.

Pursuant to the provisions of the contract dated July 21, 1902 between The City of New York acting by the Board of Rapid Transit Railroad Commissioners for The City of New York and Rapid Transit Subway Construction Company for the construction and operation of the Brooklyn-Manhattan Rapid Transit Railroad, known as Contract No. 2 and complying with the request contained in a letter from Rapid Transit Subway Construction Company to the Commission dated March 23, 1923, I made my determination in writing and in duplicate of the reasonable value of additional work done and additional materials furnished by the Contractor, the Rapid Transit Subway Construction Company, for that portion of the Railroad known as Subsection 2-A detailed and set forth in the "C" Claims as presented by the said Contractor

October 2, 1912 and for claims for additional work and materials on Subsection 3 as submitted on October 26, 1911 limiting my determination to additional work and additional material within the general purview of the rapid transit railroad as described in the routes and general plan in said Contract No. 2.

One duplicate of said determination is filed with your Commission as successor to the "Board" referred to in Contract No. 2.

ROBERT RIDGWAY,
Chief Engineer.

532

Jay Street Connecting Railroad—Resolution of Board of Estimate Granting Permission to Continue Use of Sidetrack on Plymouth Street—Filed

The Secretary presented a communication, dated April 13, 1923, from James Matthews, Assistant Secretary of the Board of Estimate and Apportionment, transmitting certified copy of resolution adopted by the Board on January 12, 1923, and approved by the Mayor on January 26, 1923, granting the Jay Street Connecting Railroad permission to continue to maintain and use an existing sidetrack on the north side of Plymouth Street, west of Washington Street, Brooklyn, N. Y., and further advising that the railroad company had accepted the consent as therein provided.

Thereupon, the above-mentioned papers were ordered filed.

533—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Submitting Copy of Contract for Construction of Chimney at 59th Street Power House—Filed

The Commission ordered filed a communication dated April 16, 1923 from the Interborough Rapid Transit Company transmitting a copy of a contract dated February 24, 1923, between the Interborough Rapid Transit Company and Alphons Custodis Chimney Construction Company for the construction of chimney No. 6 at the 59th Street Power House.

534

Lease—Proposed Rider Extending Term of Lease of Second Floor of Premises at No. 86 Fulton Street, Borough of Manhattan, for One Year from May 1, 1923—Approval Resolution

The following resolution was adopted:

Resolved, That the proposed rider dated April 13th, 1923, affixed to and extending the time under the lease dated May 5th, 1921, between James S. Segrave as landlord and the Transit Commission as tenant, of the second floor loft in the building located at No. 86 Fulton Street in the Borough of Manhattan, City of New York, for the carrying on of the business of a laboratory and for no other purpose, for a period of one year, from May 1st, 1923 to May 1st, 1924, upon the same terms and conditions contained in the same said lease, be and the same hereby is approved and that the Chairman and Secretary are authorized and directed to execute and deliver said rider for and on behalf of this Commission.

535

Employees' Resolution No. 138

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Frank Calabrese, junior assistant, at \$125.08 per month, to take effect April 16, 1923; Mary G. Cardile, stenographer, at \$90.00 per month, to take effect April

16, 1923; Martin C. Hunt, engineering inspector, at \$150.08 per month, to take effect April 16, 1923; Allen H. Tosh, engineering inspector, at \$150.08 per month, to take effect April 16, 1923.

Appointments under Rule VIII:4—Paul H. Borenstein, junior assistant, at \$125.08 per month, to take effect April 16, 1923; Alex M. Emerman, junior assistant, at \$125.08 per month, to take effect April 16, 1923; Alfred F. Geraci, junior assistant, at \$125.08 per month, to take effect April 11, 1923; Joseph Gladstein, draftsman, at \$150.08 per month, to take effect April 16, 1923; Peter J. Lauritzen, architectural draftsman, at \$150.08 per month, to take effect April 11, 1923; Benjamin I. Nelson, draftsman, at \$150.08 per month, to take effect April 16, 1923; Samuel A. Pickoff, draftsman, at \$150.08 per month, to take effect May 1, 1923; Stephen M. Poutier, draftsman, at \$150.08 per month, to take effect April 19, 1923; Harry Stern, junior clerk, at \$60.00 per month, to take effect April 12, 1923; Samuel J. Thier, junior assistant, at \$125.03 per month, to take effect April 12, 1923.

Resignations—Ralph H. Baxter, junior assistant, at \$125.08 per month, to take effect April 4, 1923; Samuel Chimes, draftsman, at \$150.08 per month, to take effect February 28, 1923; Louis J. Gardella, draftsman, at \$150.08 per month, to take effect April 9, 1923; Charles R. McConkey, junior engineer, at \$165.00 per month, to take effect April 5, 1923; David Margolis, junior assistant, at \$125.08 per month, to take effect April 16, 1923; Edward J. Politoske, junior assistant, at \$125.08 per month, to take effect April 11, 1923.

Change of Title—Paul S. L. Bolger, assistant engineer to engineer accountant at \$266.66 per month, to take effect May 1, 1923.

Leave of Absence with Pay—Lydia E. Kaufman, stenographer, from March 19, 1923, to March 31, 1923; Gertrude G. Kennedy, bookkeeper, from March 12, 1923, to March 17, 1923.

Leave of Absence without Pay—Benjamin Holand, junior electrical engineer, from March 16, 1923, to April 30, 1923; Lydia E. Kaufman, stenographer, from April 1, 1923, to December 31, 1923.

Death—Abraham S. Goldberg, junior engineer, \$180.03 per month, April 7, 1923.

536

Voucher Schedule No. 16

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted to the Comptroller of The City of New York for payment.
Vouchers Nos. 376-405, open market orders, \$1,135.77; Vouchers Nos. 210-228, miscellaneous bills, \$1,293.57;

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 94; Jacob Schlesinger, Inc.; final estimate for the completion of construction and station finish for Routes Nos. 5 and 20, to December, 1922 (R. T. 7525) \$3,362.86;

Voucher No. 95; B. T. & J. J. Mack, Inc.; approximate estimate No. 2 for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Rapid Transit Railroad, from March 16, 1923 to April 15, 1923. (R. T. 7587) \$2,990.28.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, April 19, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.
The following matters were presented and action taken as noted:

537—R. T. 5006

Agreement "CI"—Receipt of Bids for Borings on Sites of Proposed Coney Island Yard, Westchester Avenue Yard and Extension of Broadway-Fourth Avenue Line—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the making of borings on sites of the proposed Coney Island Yard, Westchester Avenue Yard and extension to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between Seventh Avenue and Central Park West had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

538—R. T. 7648

Agreement "CJ"—Receipt of Bids for Construction of Concrete and Steel Highway Bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the seven bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

539

Hearing

The following hearing was held:
11:15 A. M.; Case No. 2679; Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization. Chairman McAneny and Commissioners Harkness and O'Ryan presided. Hearing adjourned to April 24, 10 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, April 24, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

540—R. T. 7652

Route No. 45, Section No. 2—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Part of Nassau Street Line—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Streets (under Contract No. 4).

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal together with the Specifications and Contract Drawings for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Streets (under Contract No. 4), be and hereby are approved and adopted and that said Invitation to Contractors, be published in the CITY RECORD every day of publication continuously from and including April 27, 1923 to and including May 22, 1923, and on May 1, 1923 and May 8, 1923, in THE NEW YORK TRIBUNE and THE EVENING MAIL, daily newspapers published in the City of New York, and that such bids as shall be received shall, on the 22nd day of May, 1923, at eleven-thirty (11:30) o'clock a. m., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

541—R. T. 6998

Broadway Elevated Line—Draft Form of Contract for Construction of Station at Williamsburg Bridge Plaza—Resolution Directing Public Hearing be Held and Notice be Advertised

The following resolution was adopted:

Whereas, There is now submitted to the Commission a draft form of proposed contract for the reconstruction of a part of the Broadway-Fourth Avenue rapid transit railroad at Williamsburg Bridge Plaza, in the Borough of Brooklyn (under Contract No. 4);

Resolved, That before finally fixing the terms and conditions of said proposed contract for the reconstruction of a part of the Broadway-Fourth Avenue rapid transit railroad at Williamsburg Bridge Plaza, in the Borough of Brooklyn (under Contract No. 4), that a public hearing upon the proposed terms and conditions thereof shall be held on the 10th day of May, 1923, at the office of the Transit Commission at No. 49 Lafayette street, Borough of Manhattan, New York City, at 11:30 o'clock A. M., at which hearing citizens shall be entitled to appear and be heard; and that notice of such hearing shall be published in the CITY RECORD every day by publication continuously from and including April 26th to and including May 10, 1923, and on April 30th and May 7, 1923, in THE BROOKLYN CITIZEN and THE STANDARD UNION, daily newspapers published in the Borough of Brooklyn, City of New York, and that such notice shall state that copies of said draft of proposed contract may be obtained at the office of the Transit Commission on the payment of the fee of One (\$1.00) Dollar for each copy.

542

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, April 25, 1923.

543

Hearings

The following hearings were held:

10 A. M.; Case No. 2679; The Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization; adjourned by direction of the Commission to April 24th, 1923, at 2:30 P. M.

2:30 P. M.; Case No. 2679; The Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization; adjourned by direction of the Commission to April 25th, 1923, at 10:30 A. M.

546—R. T. 5006

Agreement "CI"—Report by Acting Chief Engineer as to Receipt of Bids for Making Test Borings at Sites of Proposed Corona and Westchester Storage Yards and Extension of Broadway-Fourth Avenue Line under Central Park and Recommendation for Award of Contract to Philip J. Healey at Bid Price of \$7,380—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

April 21, 1923.

TO: TRANSIT COMMISSION.

Award of Contract to Philip J. Healey for Agreement "CI"

On April 19, 1923, bids were received for work under Agreement "CI", borings on the sites of the proposed Coney Island Yard, Borough of Brooklyn and proposed Westchester Avenue Yard, Borough of Bronx and along the proposed extension to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between 7th Avenue and Central Park West, Borough of Manhattan. The following four (4) bids were received:

Name	Amount
Philip J. Healey	\$7,380.00
Joseph W. Edwards	10,087.50
Sprague & Henwood, Inc.	14,490.00
Pennsylvania Drilling Co.	17,700.00

The lowest bidder, Philip J. Healey has previously done similar work for the Commission. He had a contract for borings on the Flushing Extension, Route No. 52, which work was completed March 6, 1923, and carried out to our satisfaction, the final estimate amounting to \$2,854.48. Besides this work Philip J. Healey was the general manager for Patrick J. Healey who previously carried out successfully a number of boring contracts for the Dual Subway System. I have looked over this contractor's bid and find the prices to be reasonable.

Attached I send you copy of minutes of a conference held in the Chief Engineer's office April 20th, which contains a financial statement by the contractor.

Recommendation: I respectfully recommend from an engineering standpoint that the contract for work under Agreement "CI" borings for Broadway-Fourth Avenue subway extension via Central Park, Coney Island and Westchester Avenue Yards be awarded to the lowest bidder, Philip J. Healey at his bid price of \$7,380 and that a request be made on the Board of Estimate and Apportionment for an appropriation of this amount of which \$2,195 is to be charged to Contract No. 3 and \$5,185 to Contract No. 4.

SVERRE DAHM,
Acting Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract (Agreement "CI") for the work of making test borings on the sites of the proposed Coney Island Yard, Borough of Brooklyn, the proposed Westchester Avenue Yard, Borough of The Bronx, and along the proposed extension of the Broadway-Fourth Avenue Line under Central Park, Borough of Manhattan, was heretofore finally adopted and subsequent to advertisement duly made bids respectively totalling as follows were received on April 19, 1923:

Name	Amount
Philip J. Healey	\$7,380.00
Joseph W. Edwards	10,087.50
Sprague & Henwood, Inc.	14,490.00
Pennsylvania Drilling Co.	17,700.00

; and

Whereas, The Acting Chief Engineer of this Commission, by communication dated April 21, 1923, has reported that the amount of said low bid is reasonable and that the said Philip J. Healey is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment

for the sum of \$7,380, the amount estimated to be necessary to carry out said proposed contract on the part of the City,

Resolved, That the said report and recommendation of the Acting Chief Engineer be and the same hereby is approved; that the bid of Philip J. Healey be and the same hereby is accepted and that the said proposed contract for work under Agreement "CI", be and hereby is awarded to said Philip J. Healey, subject to its being consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$7,380, estimated to be necessary to meet the City's obligations under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 25, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract, Agreement "CI", to be entered into between The City of New York, acting by the Transit Commission, and Philip J. Healey, for the work of making test borings in the proposed Coney Island Line, in the Borough of Brooklyn; in the proposed Westchester Avenue Line, in the Borough of The Bronx, and along the proposed extension of the Broadway-Fourth Avenue Line in Central Park between 7th Avenue and Central Park West, Borough of Manhattan, together with a requisition upon your Honorable Board for the appropriation of the sum of Seven thousand three hundred eighty dollars (\$7,380), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on April 19, 1923, respectively totalling as follows:

Philip J. Healey	\$7,380.00
Joseph W. Edwards	10,087.50
Sprague & Henwood, Inc.	14,490.00
Pennsylvania Drilling Co.	17,700.00

The Acting Chief Engineer of this Commission in a communication dated April 21, 1923, reports that the bid of Philip J. Healey, the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said Philip J. Healey, subject to its being approved and consented to in form and substance, as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Seven thousand three hundred eighty dollars (\$7,380), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Seven thousand three hundred eighty dollars (\$7,380).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition to the extent of Two thousand one hundred ninety-five dollars (\$2,195), is a sub-requisition under and not in addition to the requisitions heretofore made by the predecessors of the Transit Commission for the purpose of carrying out the contract dated March 19, 1913, known as Contract No. 3, and to the extent of Five thousand one hundred eighty-five dollars (\$5,185), is a sub-requisition under and not in addition to the requisitions heretofore made by the predecessors of the Transit Commission for the purpose of carrying out the contract dated March 19, 1913, known as Contract No. 4, and the appropriations made in consequence thereof.

TRANSIT COMMISSION.

Agreement "CJ"—Report by Acting Chief Engineer as to Receipt of Bids for Construction of Highway Bridge Over Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, and Recommendation for Award of Contract to M. A. Charles at Bid Price of \$49,907.21—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$24,953.61 as City's Share

The following report was approved:

April 21, 1923.

To: TRANSIT COMMISSION.

Award of Contract to M. A. Charles for Agreement "CJ"

On April 19, 1923, the following bids were received for work under Agreement "CJ," construction of a concrete and steel highway bridge on Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn:

Name	Amount
M. A. Charles.....	\$49,907.21
P. T. Cox Contracting Co. Inc.....	57,334.25
B. T. & J. J. Mack, Inc.....	59,792.30
Jacob Schlesinger, Inc.....	63,066.25
Jobson-Gifford Co.	64,270.00
Ward & Tully, Inc.....	64,421.75
Norman A. Deiser.....	71,647.50

Our estimate for this work amounted to \$51,114.50.

M. A. Charles has not previously done any work for the Commission but has done considerable work for other City departments. Our inquiries indicate that his work has been done to the satisfaction of the different parties for whom he worked as a contractor.

From the information received I consider M. A. Charles qualified to carry out this contract satisfactorily. I have looked over his bid and find that the prices bid are reasonable.

Attached I send you copy of minutes of a conference held in the Chief Engineer's office April 20th and also copies of two letters containing statements in regard to the contractor's financial ability to carry out the work.

The cost of this work is to be distributed in the following manner: the City to contribute 50%, the Brooklyn Rapid Transit Company 25% and the South Brooklyn Railway Company 25%.

Recommendation: I respectfully recommend from an engineering standpoint that the contract for work under Agreement "CJ," construction of a concrete and steel highway bridge on Ninth Avenue between 37th and 38th Streets, Brooklyn, be awarded to the lowest bidder M. A. Charles at his bid price of \$49,907.21 and that a request be made on the Board of Estimate and Apportionment for an appropriation of one-half of this amount, namely, \$24,953.61, to be charged to Contract No. 4.

SVERRE DAHM,
Acting Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract (Agreement "CJ") for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets in the Borough of Brooklyn, was heretofore finally adopted and pursuant to advertisement duly made bids respectively totalling as follows were received on April 19, 1923:

M. A. Charles.....	\$49,907.21
P. T. Cox Contracting Co. Inc.....	57,334.25
B. T. & J. J. Mack, Inc.....	59,792.30
Jacob Schlesinger, Inc.....	63,066.25
Jobson-Gifford Co.	64,270.00
Ward & Tully, Inc.....	64,421.75
Norman A. Deiser.....	71,647.50

; and

Whereas, The Chief Engineer of this Commission by communication dated April 21, 1923 has reported that the amount of said low bid is reasonable and that the said M. A. Charles is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to him and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of one-half of the estimated cost, to wit, \$24,953.61, the amount estimated to be necessary to meet the obligations of the City under said proposed contract,

Resolved, That said report and recommendation be and the same hereby are approved; that the bid of M. A. Charles be and the same hereby is accepted and that the said proposed contract for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, be and hereby is awarded to the said M. A. Charles, subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$24,953.61 estimated to be necessary to meet the City's obligations under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 25, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

In connection with the prosecution of the work of construction pursuant to the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation known as Contract No. 4, certain work was done in excavating in the so-called 38th Street cut in the Borough of Brooklyn at and about Ninth Avenue, which resulted in creating an excavation for which no substitute was provided and depriving pedestrian and vehicular traffic of a means of access where formerly there was solid fill. In addition to the excavation incidental to the construction of the City's railroad certain additional excavation was made during the period from September, 1918 to April 1919 on behalf of the Federal Government in the operation of the South Brooklyn Railway Company's property.

Under date of October 20, 1922 the Chief Engineer of this Commission advised as follows:

"In my letter of December 14, 1921 to you concerning the above matter, reference was made to the necessity of determining the relative responsibility of the City and the South Brooklyn Railway Company for the construction of a bridge to carry 9th Avenue over the cut which intercepts 9th Avenue between 37th & 38th Sts.

You were also advised that Counsel, after considering the matter, suggested 'that the South Brooklyn Railway Company be notified to relocate its tracks, which will afford the City an opportunity to place the fill to the extent of the width of excavation necessitated by the City work and that it also be notified of the opinion of this department that it is obligated to provide a crossing over that portion of the excavation effected by the Federal Government.'

With your approval the following communication was therefore sent to the South Brooklyn Railway Company:

'Officials of Greenwood Cemetery have called attention to conditions now existing at 9th Avenue between 37th & 38th Streets Brooklyn, and have requested that provision be made as soon as possible for the restoration of a suitable roadway for vehicular traffic and pedestrians.

Before proceeding with this work, however, I desire to call your attention to the fact that during the period from September 1918 to April 1919 the original cut which was made for the deviation of the Culver Line tracks during the construction of the City's railroad was materially widened by the Federal Government in behalf of your company beyond the requirements for the City's work.

Counsel to this Commission has advised that the City is obligated to provide a crossing only insofar as the cut is the result of work performed by the Contractors for the City or in the necessary deviation of the tracks of the South Brooklyn Railroad Company, necessitated by or as a result of such work.

Counsel has further advised that the City is not obligated to provide a crossing over that portion of the excavation which was subsequently made on your behalf.

You are therefore requested at your own expense, either to remove your tracks from the cut or provide the necessary support to prevent the spreading over your tracks of the backfill which is to be placed by the City, to effect its obligation to restore that portion of the crossing for which it is responsible.

After considerable correspondence between the officials of the railroad company and ourselves relative to the proposed plans for the restoration of 9th Avenue over the cut, and to the proper distribution of cost thereof between the City and the railroad company, Mr. Menden, General Manager, for Lindley M. Garrison, Receiver of Brooklyn Rapid Transit Co., N. Y. Munc. Ry. Corp., and N. Y. Consolidated Railroad Co., in letter dated Sept. 19, 1922, stated that the Receiver of the Brooklyn Rapid Transit Company had approved the B. R. T. companies paying one half the cost of the bridge, the total cost of which is estimated to be about \$40,000.

Our estimate of the cost of restoring the avenue by placing fill and providing the necessary retaining walls on the lines of 9th Avenue to sustain this fill is about \$21,000.

In view of this and the desirability of getting this much needed improvement under way, it seems advisable to accept the company's offer to assume one half of the cost thereof.

Recommendation: It is therefore recommended that the City assume one half the cost of constructing a bridge to restore 9th Avenue between 37th & 38th Streets, Brooklyn and that the offer of Lindley M. Garrison, Receiver acting in behalf of the railroad companies affected thereby, to assume the other half of the cost, be accepted. It is furthermore suggested that a suitable agreement be prepared embodying the above division of cost between the City and the railroad companies."

Accordingly a proposed contract was prepared between The City of New York acting by the Transit Commission, Brooklyn Rapid Transit Company and South Brooklyn Railway Company for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets in the Borough of Brooklyn (Agreement "CJ") whereby the City assumes one-half of the cost under said contract, the Brooklyn Rapid Transit Company one quarter and the South Brooklyn Railway Company one quarter of such cost. The payments by the two railroad companies are made directly by them upon vouchers certified by the Engineer of the Transit Commission. Said proposed contract, after formal adoption was advertised for proposals and bids were received on April 19, 1923 respectively totalling as follows:

M. A. Charles	\$49,907.21
P. T. Cox Contracting Co. Inc.....	57,334.25
B. T. & J. J. Mack, Inc.....	59,792.30
Jacob Schlesinger, Inc.	63,066.25
Jobson-Gifford Co.	64,270.00
Ward & Tully, Inc.	64,421.75
Norman A. Deiser	71,647.50

The Chief Engineer of this Commission in a communication dated April 21, 1923 reports that the bid of M. A. Charles, the low bidder, is reasonable and that he is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said M. A. Charles, subject to its being approved and consented to in form and substance as required by law.

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, said proposed contract to be entered into with

the said M. A. Charles for the performance of such work, together with a requisition upon your Honorable Board for the appropriation of the sum of Twenty-four thousand, Nine hundred and fifty-three Dollars and Sixty-one cents (\$24,953.61) being one-half the estimated cost and being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Twenty-four thousand, Nine hundred and Fifty-three Dollars and Sixty-one cents (\$24,953.61) and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Twenty-four Thousand, Nine hundred and Fifty-three Dollars and Sixty-one cents (\$24,953.61).

Your Board is also requested to authorize pursuant to Section 45 of the Greater New York Charter the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made by the predecessors of the Transit Commission for the purpose of carrying out the contract dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation known as Contract No. 4 and the appropriations made by your Honorable Board in consequence thereof.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

548—R. T. 7177

Routes Nos. 36 & 37—Reports by Chief Engineer and Real Estate Clerk Recommending Purchase of Fill on Site of Proposed Corona Yard—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$75,000.

Reports were presented from the Chief Engineer dated April 12, 1923, and from the Real Estate Clerk dated April 19, 1923, recommending the purchase of the fill on the site of the proposed Corona Storage Yard amounting to approximately 250,000 cubic yards at a price of 30¢ per cubic yard.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission, by communication dated April 12, 1923, has reported, as more particularly therein set forth, with respect to the question of acquiring the fill on the Corona Yard Site of the yard for the Queensboro Municipal Rapid Transit Railroad, and has recommended the purchase thereof from the owner at the price of 30¢ per cubic yard; and

Whereas, The Real Estate Clerk, by communication dated April 19, 1923, has recommended the approval of said report of the Chief Engineer; and

Whereas, Counsel has prepared and submitted a proposed requisition upon the Board of Estimate and Apportionment, which will effect the recommendation aforesaid;

Resolved, That said reports and recommendations be and the same hereby are approved and that the requisition so submitted be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

April 25, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

In connection with the acquisition of the site known as the Corona Yard in the Borough of Queens, as a part performance of the obligations of The City of New York to construct additional municipal Rapid Transit Railroads, as more particularly required in the contract dated March 19, 1913 between The City of New York, acting

by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, the Transit Commission was informed by the Acting Corporation Counsel, under date of January 30, 1922, as follows:

"In the Rapid Transit condemnation proceeding, commonly known as Peartree Avenue Storage, Corona Meadows, Mr. Justice VanSiclen made, after a trial held by him, a tentative decree dated September 29, 1921, wherein the sum of \$270,000 is awarded to the Degnon Realty & Terminal Improvement Co. Inc. subject to certain mortgages.

The property taken for the storage yard consists of filled in meadow land generally lying east of Peartree Avenue and between Roosevelt Avenue and the Long Island Railroad. During the trial the owner urged that the fill above the established grades of the tentative city streets within the lines of said streets and the fill two feet below said established street grades on the rest of the premises was personal property which was not and could not be taken in the condemnation proceeding. This office contended that all the fill both above and below said grades was real property and was taken in the condemnation proceeding and that the city became seized of the title thereof on August 20, 1920, the day the order of condemnation was entered. Subsequently, upon the argument of the owner's objections to said tentative decree, the Court has held in the following opinion reported in the New York Law Journal under date of January 17, 1922, that the owner's contention as to the fill is correct.

'Matter of Transit Construction Comm'r (Peartree Ave., &c.)—The claimant herein was the owner of certain lands which the petitioner has acquired by condemnation for railroad purposes. The land taken was lowland filled in pursuant to a contract between the claimant and an allied company called the Degnon Contracting Company. This contract was made in 1914, and the work was going on in 1917 when the claimant and its contractor interchanged letters wherein the contractor to better serve its then present needs sought the right to store a quantity of excess fill upon a portion of the filled lands. This privilege was extended to it by the claimant on condition that all of said excess fill so stored would be removed. Later on the contract of 1914 was terminated by mutual consent by a writing which released and relinquished to the claimant all rights of the contractor to such stored excess fill. The claimant now contends that this course of conduct fixes the character of this stored excess fill as personal property and discloses an intention not to annex it to the freehold so that it will pass by condemnation. The petitioner contends that all rights thereto have been merged in the claimant; that the excess fill would have been used by the contractor to level the property up to the grade provided for by the contract and make up for settling and shrinkage; that the claimant has used this claimed excess fill as it has the rest of the property and in such a way as to stamp it all with the same measure, and that it would cost all or more than it is worth to remove the disputed property. What the parties have expressed in writing as to their plans and intentions seem clear enough, but just what their ultimate purposes were in doing so is not so clear. It is an easy matter to treat this filling material as personal property because it was unquestionably of that character only recently. What its ultimate destination was to be is problematical. That it has a value is beyond question. There is a considerable quantity of it and its value for some purpose is such that a decision as to its disposition is necessary. The weight of the facts favors the view that the disputed material is personal property and could not pass to the petitioner in this proceeding. (*Rider v. Stryker*, 63 N. Y. 136). If the applicant seeks to retain it, the same must be removed expeditiously and without interference with the uses to which the petitioner is about to put the condemned property. Only so much can be removed as would constitute excess over and above that necessary to bring the filling up to the grade provided for in the contract, taking into account both settling and shrinkage. The parties should arrange to bring on before the Court such proposals as they may have and settle the terms necessary to carry out this determination. The court is not inclined to change its ruling as to the easement owned by the New York & Queens County Railway, as it does not appear that the same is to be affected, and the corporation counsel's brief states positively that it is not affected in any way by the proceeding, and the court will deem that as authoritative statement in respect thereof.'

The decree to be signed and entered by the Court in the future will contain the terms whereby the Court's determination will be carried into effect and as appears from aforesaid opinion the Court has asked for proposals as to such terms from both sides.

* * * * *

If you care to retain this so-called excess fill this office will appeal, with quite some hope of success, to the Appellate Division, Second Department from that part of the final decree, wherein it is determined that the alleged excess fill is personal property and directs its removal."

and by communication dated December 7, 1922 from the Acting Corporation Counsel as follows:

"I beg to advise you that upon appeal taken by the City, the Appellate Division, Second Department, unanimously affirmed without opinion the final decree entered herein on February 21, 1922.

Both said Appellate Division and the Court of Appeals have denied applications made by the City for leave to appeal to the Court of Appeals from the order of affirmance made by said Appellate Division.

Therefore, the provisions contained in said affirmed decree should be complied with."

Thereafter, under date of February 2, 1923, the Acting Corporation Counsel transmitted a copy of an order entered in said proceeding on January 19, 1923, wherein it is provided as follows:

"Ordered that said motion be and the same is hereby granted and the time of the Degnon Realty & Terminal Improvement Company, claimant herein, to remove the excess ash fill from the land acquired in the proceeding as provided for in the said final decree be and the same is hereby extended from November 15, 1922 to November 1, 1923."

The Chief Engineer of this Commission, under date of April 12, 1923, has reported with respect to the subject of this fill in its relation to the construction of the Flushing Extension of the municipal rapid transit railroad in the locality in which the yard is situated, as follows:

"Under the Court's decision, the fill now on the Corona Yard Site has decreed to be the property of the Degnon Realty & Terminal Improvement Co. and this company was given until November 1, 1923 in which to remove it. The Queens Subway Apartment and Loft Building Corporation now claims the ownership of this fill. If this fill were removed it would be necessary to obtain other material to replace it with the loss of time incidental thereto. It is therefore desirable to retain the present fill which is composed largely of ashes if satisfactory terms can be arranged with the owner.

The Queens Subway Apartment and Loft Building Corporation by a letter dated April 11, 1923, of which a copy is enclosed, offered to sell this fill to the Commission at 30c. per cu. yd. It is estimated that the fill now in place amounts in round figures to 250,000 cu. yds. This estimate however is subject to change when a more careful estimate is made.

In a recent conference with Mr. M. J. Degnon and Mr. N. G. Degnon, representing the Queens Subway Apartment and Loft Building Corporation, they submitted an offer to sell the fill at 35c. per cu. yd. In their letter of April 11th, 1923, written subsequent to our conference, they reduced their price to 30c. per cu. yd.

In the contract with the Oakdale Contracting Company, Inc., for the subway portion of the Flushing Extension, Section 3, of Route 52, there is a provision that a part of the excavated material be placed on the site of the Corona Yard if so ordered by the engineer. The Contractor bid 25c. per cu. yard for the additional cost of placing this fill on the yard site. This contract however would provide probably less than one fifth of the amount that would be needed if the present fill were removed. Furthermore, as the owner of the fill has until November 1st, next, in which to remove it, we cannot make use of the provision of the Oakdale Contract until then. By that time, however, it is expected that most of the material available from the Oakdale Contract will have been disposed of in other ways, because we cannot hold back work under that contract until

next November. It would be necessary in that event to let another contract, for filling the yard site and if such a contract was ready for delivery by November 1st, 1923, it would probably take six months or more to do the filling, and the grading of the yard would not be ready, therefore, until May, 1924, or a year from the present time at the earliest.

An investigation has been made of the probable cost of supplying fill for the yard site in the event that the existing fill were removed, and it is apparent that the cost would be in excess of the 30 cents per cubic yard offered by the Queens Subway Apartment and Loft Building Corporation. In view of this and of the saving in time that would be effected by accepting the present offer, I am of the opinion that the offer of the Queens Subway Apartment and Loft Building Corpn. to sell the fill now on the yard site at 30 cents per cubic yard is advantageous to the City and should be accepted. It is estimated that the amount involved would be about \$75,000. Attention is called to the condition in the Corporation's letter of April 11, that 'we would have an additional length of time after Nov. 1st, 1923, for any time we would be delayed beyond April 20, 1923, in receiving an answer from you as to whether you desire us to leave the ashes in place or not.'"

The Real Estate Clerk of this Commission, in a report dated April 19, 1923, states as to the purchasing of said fill as follows:

"I think it may be shown that the ground rent and the delay in the completion of this yard which would result from permitting the owner of the surplus fill to take his time about removing it, is costing the City \$25,000 per annum at a minimum figure. Consequently, we must take into consideration, in considering the value of the surplus fill to us, the inadequacy of the supply at a lower figure for immediate use and the loss in ground rent and interest due to a further holding up of the work of completing this yard.

"The intrinsic value of the surplus fill, substantially in place but not graded, is not thirty cents per cubic yard in my estimation. Twenty cents per cubic yard would probably be a good figure; but, if we do not take this fill at thirty cents per cubic yard, it seems to me that it will eventually cost the City, because of existing conditions, probably over fifty cents per cubic yard.

"I am compelled to conclude therefore that it would be very good business for the City to purchase the existing fill at thirty cents per cubic yard."

The Commission is advised that because of the unique situation which results from the unusual relation of the fill to the fee, this subject matter is removed from the legal limitations with respect to the purchase of a general commodity in the open market. It is necessary to purchase this particular fill on this particular site to acquire for the City the benefits which have been described as attendant upon such transaction.

The Transit Commission has approved the reports and recommendations of its Chief Engineer and Real Estate Clerk and requests your Honorable Board to consent to the purchase of such personal property constituting the fill on the city-owned site comprising the Corona Yard of the Queensboro Rapid Transit Railroad from the owner of such fill, to wit, the Queens Subway Apartment and Loft Building Corporation, at the sum of 30c. per cubic yard or upon the estimated quantity of 250,000 cubic yards, a total estimated expenditure of \$75,000.

Requisition is accordingly made upon your Honorable Board for the appropriation of the sum of \$75,000 for said purpose, such requisition being a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out the contract dated March 19, 1913, known as Contract No. 3, and the appropriations made in consequence thereof.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

549—R. T. 6315, 5007

Contract No. 1—Certificate by Acting Chief Engineer of Completion of Work for Changes in Subway Structure at Park Avenue and 33rd Street and at St. Nicholas Avenue and 181st Street—Resolution Accepting Work and Directing that Certificate of Completion and Acceptance be Transmitted to Comptroller of City of New York and to President of Borough of Manhattan

The following certificate was approved:

April 18, 1923.

TO: TRANSIT COMMISSION:

Certificate of Completion: Changes to Subway Structures at Park Avenue & 33rd Street and St. Nicholas Avenue & 161st Street.

In connection with the agreement dated June 1, 1922 between the City of New York, acting by the Transit Commission, and Interborough Rapid Transit Company for changes to subway structure on the west side of Park Avenue and 33rd Street and changes to subway structure at St. Nicholas Avenue and 181st Street, under the jurisdiction of the President, Borough of Manhattan, I hereby certify that the work was completed in accordance with the provisions of said agreement. The cost of the work was \$14,033.74.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

SVERRE DAHM,
Acting Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The agreement dated June 1, 1922 between The City of New York acting by the Transit Commission and Interborough Rapid Transit Company providing for changes in the subway structure on the west side of Park Avenue and 33rd Street and at St. Nicholas Avenue and 181st Street in the Borough of Manhattan incidental to roadway changes under the jurisdiction of the President of Manhattan, requires acceptance of the work upon the completion thereof in accordance with said agreement; and

Whereas, The Acting Chief Engineer of this Commission by communication dated April 18, 1923 has certified that all the work required under said agreement was in all respects completed in accordance with the provisions thereof; that the total cost thereof was \$14,033.74 and recommends that such work so performed be accepted and that a certificate to such effect be transmitted to the Comptroller of The City of New York,

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York and to the President of the Borough of Manhattan.

550—R. T. 7457

Route No. 18—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Schedule Item for Painting Structural Steel Work under Contract for Enclosure to Inspection Shed at 180th Street Yard—Resolution Approving Schedule Item

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 13, 1923, was ordered filed:

(Cal. No. 205)

Whereas, The Board of Estimate and Apportionment on June 9, 1923, consented to a contract with the Rosenthal Engineering Contracting Company, Inc., for the construction of inspection shed enclosure for the White Plains Road Rapid Transit Railroad, Route No. 18 (180th street yard), and authorized an issue of corporate stock in the sum of two hundred and sixty-seven thousand seven hundred and seventy-eight dollars and eighty-five cents (\$267,778.85) to meet the obligations of the City under said contract, as a subauthorization against the funds heretofore authorized for Rapid Transit Contract No. 3; and

Whereas, Section 210 of said contract with the Rosenthal Engineering Contracting Co., Inc., provides that all exposed structural steel erected under other contracts and

which has already been painted a shop coat and a second coat shall be painted one coat of "K-1," but no provision was made in said contract for the payment for such painting; and

Whereas, The total quantity of steel to be so painted is approximately 92,000 square feet, which at the price of 6½ cents per square foot (the price submitted by the Rosenthal Engineering Contracting Co., Inc.), will amount to \$5,980 or in excess of the amount of \$5,000 which the third paragraph of Item 150, of said contract with the Rosenthal Engineering Contracting Co., Inc., states shall not be exceeded for any single order of work or materials unless the approval is obtained of the Board of Estimate and Apportionment; now therefore be it

Resolved, That the Board of Estimate and Apportionment (without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void), pursuant to the requisition of the Transit Commission to this Board, dated March 20, 1923, does hereby consent to the establishment by said Transit Commission, pursuant to the provisions of Item 150 of said contract with the Rosenthal Engineering Contracting Co., Inc., of a supplemental schedule item, reading as follows:

"Item 561-B—For painting with one coat of 'K-1' the exposed structural steel work erected under other contracts and which has already been painted a shop coat and second coat, the price of 6½ cents per square foot."

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 13, 1923.

JAMES MATTHEWS,
Assistant Secretary.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated June 26, 1922 between the City of New York acting by the Transit Commission and the Rosenthal Engineering and Contracting Corporation, for the construction of the Inspection Shed Enclosure at the 180th Street Yard, under Contract No. 3, having, subject to the approval of the Commission, agreed with the said Contractor on the following supplementary schedule item:

Item No. 561-B—For painting with one coat of "K-1" the exposed structural steel work erected under other contracts and which has already been painted a shop coat and second coat, the price of 6½ cents per square foot.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

551—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Submitting Understanding of Result of Conferences with Respect to Installation of Boilers at 59th Street Power House—Copy of Reply Advising of Approval—Approved

The following communication was presented:

INTERBOROUGH RAPID TRANSIT COMPANY
No. 165 Broadway,
New York.

April 20, 1923.

Dear Sir:

Referring to the increased boiler capacity at the 59th Street Power Plant proposed by this Company, which matter has been pending since the latter part of last year, and upon which many conferences have been held between the engineers of this Company and Dr. Lucke, your Consulting Engineer, together with Mr. Ridgway and other members of your staff, our understanding of the result of such conferences is as follows:

1. Boilers:

The Commission's engineers recommend approval of the general designs submitted by this Company as to boilers, stokers and superheaters, with the following exceptions:

The boilers to provide for a maximum pressure of 350 pounds, instead of 285 pounds, as recommended by the engineers of this Company. The Company accepts the recommendation. It is understood that it will increase the cost of the boilers approximately \$4,000 each to provide for this additional boiler pressure.

2. Delivery:

This Company will urge the Babcock & Wilcox Boiler Company to make earliest possible delivery on two boilers, and the Company will also make every possible effort to induce the Babcock & Wilcox Company to accept an order for a total of four boilers, the remaining two to be delivered not later than March 1st, 1924.

3. Superheaters:

It is our understanding that the engineers of the Commission have consented to the equipment of one of these boilers with the Foster Radiant Heat type of superheater, and that the other three boilers are to be equipped with the so-called "Inter-deck" type of superheaters.

4. Stokers:

The stokers for these boilers are to be constructed in accordance with drawings and specifications prepared by the engineers of this Company, as already approved by the engineers of the Commission.

Will you kindly cause this matter to be placed before the Commission with a view to having its confirmation reach this office as early as possible, so that orders to the manufacturers may be issued forthwith?

Very truly yours,

FRANK HEDLEY,
President and General Manager.

Mr. JAMES B. WALKER,
Secretary, TRANSIT COMMISSION,
State of New York,
49 Lafayette Street,
New York City.

Upon motion, duly seconded and adopted, the Secretary was authorized to forward a reply advising of the approval by the Commission of the above understanding.

552—R. T. 6694

Manhattan "L" Lines—Application by Interborough Rapid Transit Company for Extension of Time to June 15, 1923, within Which to Complete Plans, Specifications and Estimate of Cost for Installation of Signal System on One Mile of Local Track—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approved

An application was presented from the Interborough Rapid Transit Company dated April 16, 1923, requesting an extension of time to and including June 15, 1923, within which to complete plans, specifications and estimate of cost for installing a speed control system of signals with automatic stops on one mile of local track on the elevated railroads.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer dated April 21, 1923, transmitting a form of reply, granting such extension of time.

Upon motion, duly seconded and adopted, the Secretary was authorized to sign and forward the form of reply, granting the extension of time.

553—R. T. 6861

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of 67,000 Feet of Sector Cable for Substation No. 27—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated April 7, 1923, requesting approval of a proposed contract with the Standard

Underground Cable Company for the purchase of 67,000 feet of three conductor 0000 19,000 volt sector shape cable, at an estimated cost of \$110,811 for Substation No. 27.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer dated April 16, 1923, recommending that the contract be approved.

The following resolution was adopted:

Whereas, By resolution adopted March 20, 1923, this Commission, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, approved of the purchase by said Interborough Rapid Transit Company of 67,000 feet of 3 conductor 0000, 19000 volt sector shape cable from the Standard Underground Cable Company, at an estimated cost of \$110,811, to supply power to Substation No. 27 of the Railroad, as provided for in said Contract No. 3, such material to be classified as Equipment of the Railroad and such approval being given upon condition that the form of contract to be entered into by said Interborough Rapid Transit Company with Standard Underground Cable Company, to effect the approval therein given before execution and delivery thereof, be submitted to this Commission for approval; and

Whereas, In compliance with the provisions of said resolution Interborough Rapid Transit Company, by communication dated April 7, 1923, has submitted said proposed contract dated January 17, 1923, between said Interborough Rapid Transit Company and Standard Underground Cable Company for the purchase of said cable as approved aforesaid, which proposed contract the Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated April 16, 1923, reported and recommended approval thereof; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That the said proposed contract so submitted, together with the specifications made part thereof, be and the same hereby are approved and that said Interborough Rapid Transit Company be and hereby is authorized to execute and enter into said proposed contract.

554—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Three Sets of Machine Circuit Breakers for Substation No. 27—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated April 9, 1923 requesting approval of a proposed purchasing agent's order directed to the Westinghouse Electric & Manufacturing Company for three sets of Negative and Equalizer machine circuit breakers for Substation No. 27 at a cost of \$5,995.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer dated April 21, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the work be classified as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated April 9, 1923, requested the approval of this Commission to the issuance of a proposed purchasing agent's order

dated April 9, 1923, directed to Westinghouse Electric and Manufacturing Company for the following:

- 3 Sets Negative and Equalizer machine circuit breakers consisting of
 - 3 each 6000 Ampere, 650 volt, Type C.A. electrically operated circuit breakers, without overload or reverse current features.
 - 3 each 1000 Ampere, 650 volt, Type C.A. electrically operated circuit breakers. Each set to consist of one 6000 ampere and one 1000 ampere circuit breaker mounted on 1 black Monson slate panel, 32" x 45" x 2½".
 - 3 each 6000 Ampere, 650 volt, Type C.A. electrically operated, positive machine circuit breakers without overload or reverse current features. Each circuit breaker is to be mounted on a 24" x 45" x 2½" Black, Monson slate panel.
 - 3 each 6000 Ampere, 650 volt, Type C.A. hand operated positive switchboard circuit breakers, with reverse current but no overload features. Each circuit breaker is to be mounted on a 24" x 32" x 2½" Black Monson slate panel.

Price: \$5,995.00 for the lot.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 469"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated April 21, 1923, reported that the said circuit breakers are to be installed in Substation No. 27 of the Railroad as a part of Equipment for Initial Operation as provided for in said Contract No. 3; that no competitive bids were taken since the Interborough Company is using Westinghouse breakers exclusively; that the type and number of circuit breakers so proposed to be purchased and installed are proper; that the price is reasonable, and recommend the approval of said proposed purchasing agent's order; and

Whereas, By endorsement dated April 24, 1923 the Auditor of Rapid Transit Costs of this Commission has recommended classification for said material of Equipment of the Railroad.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Equipment of the Railroad as said terms are defined in said Contract No. 3.

555—R. T. 6597

Contract No. 4—Report by Engineer of Equipment and Operation and Chief Engineer as to Installation of Automatic Low Type Turnstile Control at Stations—Resolution Classifying Work and Assigning Work Order Numbers

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 23, 1923, with respect to the installation of automatic low type turnstile control installed at stations and proposed turnstiles to be installed.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, and pursuant also to the provisions of the certificates for elevated extensions and additional tracks allied with said Contract No. 4, the Transit Commission, by resolution adopted on August 10, 1922, approved of the installation of 96 automatic turnstiles (low type) at various stations of the Railroad and Existing Railroads as defined in said Contract No. 4, such work to be classified as Additional Equipment, but as to which this Commission did not assign a work order number; and

Whereas, By resolution adopted on October 3, 1922 this Commission approved a proposed purchasing agent's order for 100 similar turnstiles as Additional Equipment, and assigned thereto Work Order Nos. MBA-14 and MCR-7, no specific location as to the installation of such turnstiles having been designated; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated April 23, 1923, have reported that the installation of said turnstiles, pursuant to the authorizations aforesaid, have been made as follows:

and recommend that the Commission authorize and approve generally of the installation of automatic low type turnstile control at the stations of the Railroad and Existing Railroads, as defined in said Contract No. 4, upon the conditions hereinafter enumerated,

Resolved, That said report and recommendation be and the same hereby is approved; that this Commission, pursuant to the provisions of Article LXVIII and LXIX of said Contract No. 4, hereby authorizes as Additional Equipment of the Railroad, the Existing Railroads and/or the Elevated Extensions under said Contract No. 4 and Allied Certificates, the installation of automatic low type turnstile control on the stations of the Railroad, the Existing Railroads and Elevated Extensions, and hereby assigns the following work order numbers:

Classification	Work Order Number
Additional Equipment for the Railroad.....	MBA-21
Additions to Existing Railroads.....	MCA-23
Additions to Elevated Extensions.....	MKA-5

including the installation of additional turnstiles on stations of the Railroad, the Existing Railroads and Elevated Extensions where specific approval therefor has heretofore been given by this Commission, except that at stations where specific approval has already been given the work order number therefor, heretofore assigned, shall be applicable to any additional work at said stations performed pursuant to this general authorization, such approval and authorization hereby given to be subject to the following terms and conditions:

- (1) that the installation shall consist only of devices which have been specifically approved as to type by this Commission.

- (2) that the general and detail plans of the turnstiles, and the number and arrangement of turnstiles at each station shall receive the approval of the Chief Executive Officer or the Chief Engineer of this Commission in advance of installation.
- (3) that this Commission reserves the right to order the relocation or removal of any or all of the turnstiles, and the restoration of each station to its previous condition, whenever the judgment of this Commission indicates such relocation or removal to be warranted.

Staten Island Edison Corporation—Application for Approval of Acquisition of Capital Stock of Richmond Light and Railroad Company and Richmond Railways, Inc.—Opinion by Counsel—Approved

The Secretary presented two communications, dated March 29, 1923, from John M. Daly, addressed to Commissioner O'Ryan and Transit Commission, respectively, together with petition, dated March 8, 1923, of the Staten Island Edison Corporation, by J. H. Pardee, President, requesting the approval of the acquisition by said company of the capital stock of the Richmond Light and Railroad Company and the Richmond Railways, Inc. The Secretary also presented a report, dated April 16, 1923, by Assistant Counsel Stover, approved by Counsel to the Commission, recommending that the Commission refrain from consenting to the transfer of stock until the Staten Island Edison Corporation had acquired the electric plant and had clearly become an electrical corporation within the meaning of Section 54 of the Public Service Commission Law.

On motion of Commissioner O'Ryan the foregoing opinion and the recommendation therein contained were thereupon approved.

557—Case 2669

Staten Island Rapid Transit Railway Company and Staten Island Railway Company—Form of Annual Report for Year Ending December 31, 1922—Extension Order Adopted

The Secretary presented a communication, dated April 16, 1923, from the Staten Island Rapid Transit Railway Company and the Staten Island Railway Company, requesting an extension of time from April 10, 1923 to May 1, 1923, within which to file their annual reports for the year ending December 31, 1922.

The Secretary also presented a report, dated April 18, 1923, by H. S. Fischer, Statistician, recommending the granting of the desired extension of time, which said report was approved by the Chief, Bureau of Accounting & Valuations and the Acting Chief Executive Officer.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2669, granting the desired extension of time to May 1, 1923.

558—Case 2674

Brooklyn Eastern District Terminal—Application for Approval of Proceedings to Condemn Real Property at No. 80 Kent Avenue, Brooklyn—Discontinuance Order Adopted

The Secretary presented a communication, dated April 19, 1923, from Messrs. Parsons, Closson & McIlvaine, Attorneys for the Brooklyn Eastern District Terminal,

advising that a contract had been entered into on behalf of said company with the owners of property at No. 80 Kent Avenue, Brooklyn, and that it would be unnecessary for the Commission to issue a certificate of convenience in Case No. 2674.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2674, discontinuing the proceeding.

559—Case 2684

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which Cross Island Boulevard (Squire Street) Shall be Carried Across the Main Line Division of Railroad—Hearing Order with Notice Adopted

The Secretary presented a communication, dated April 17, 1923, from James Matthews, Assistant Secretary, Board of Estimate and Apportionment, transmitting certified copies of two resolutions adopted by the Board on April 6, 1923, approved by the Mayor on April 16, 1923, requesting the Commission to determine the method by which Cross Island Boulevard (Squire Street) should be carried across the Main Line Division of the Long Island Railroad Company, together with a map adopted by the Board showing the proposed changes.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2684, directing a hearing on May 18, 1923, at 10:30 A. M., with respect to the matter and directing publication of the notice thereof, and authorizing and designating George L. Lucas, Acting Chief Executive Officer, pursuant to Sections 8 and 11 of the Public Service Commission Law to conduct said hearing, to take the testimony therein and report same to the Commission with his opinion thereon for its decision and determination.

560—Case 2685

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which 211th Street (Bellaire Boulevard) Shall be Carried Across the Main Line Division of Railroad—Hearing Order with Notice Adopted

The Secretary presented a communication, dated April 17, 1923, from James Matthews, Assistant Secretary, Board of Estimate and Apportionment, transmitting certified copies of two resolutions adopted by the Board on April 6, 1923, approved by the Mayor on April 16, 1923, requesting the Commission to determine the method by which 211th Street (Bellaire Boulevard) should be carried across the Main Line Division of The Long Island Railroad Company, together with a map adopted by the Board showing the proposed changes.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2685, directing a hearing on May 21, 1923, at 10:30 A. M., with respect to the matter and directing publication of the notice thereof, and authorizing and designating George L. Lucas, Acting Chief Executive Officer, pursuant to Sections 8 and 11 of the Public Service Commission Law to conduct said hearing, to take the testimony therein and report same to the Commission with his opinion thereon for its decision and determination.

**New York & Queens County Railway Company, Lincoln C. Andrews, Receiver—
New Local Passenger Tariff No. 1 Showing Extension of College Point Line
through Junction Avenue—Reports by Chief of Transit Bureau and Counsel
Filed**

The Secretary presented a new tariff designated as Local Tariff Passenger Tariff No. 1, issued on April 12, 1923, by Lincoln C. Andrews, Receiver of New York & Queens County Railway Company, effective May 12, 1923, providing for the extension of the College Point Line through Junction Avenue from the intersection of Junction and Jackson Avenues, to the intersection of Junction and Roosevelt Avenues, in the Borough of Queens. The Secretary also presented a report, dated April 13, 1923, by the Chief of Transit Bureau, approved by the Acting Chief Executive Officer, recommending the filing of said tariff. The Secretary also presented a report, dated April 19, 1923, from Assistant Counsel Stover, approved by Counsel to the Commission, recommending the filing of said tariff as the purpose of its filing was to advise the public of the new operation.

Thereupon, the foregoing papers were ordered filed.

562—Case 2601

**New York Railways Company—Complaint of S. M. Jackson Jacobs Relative to
Failure of Sixth and Ninth Avenues Surface Lines to Transfer Northbound
at 53rd Street—Communication from Counsel Transmitting Check for \$10 Re-
ceived from the Attorneys for the Receiver in Payment of Motion Costs—
Communication Filed and Check Authorized Transmitted to City Chamber-
lain**

The Secretary presented a communication, dated April 19, 1923, from Counsel to the Commission, together with a communication dated April 18, 1923, from Winthrop & Stimson, Attorneys for the Receiver, New York Railways Company, transmitting check for \$10 motion costs under order of the Appellate Division of the Supreme Court, First District, on the denial of the Receiver's motion for certiorari order to review the Commission's Order requiring the exchange of transfers at 53rd Street northbound on the Sixth and Ninth Avenue surface lines.

Thereupon, the above-mentioned papers were ordered filed and the Auditor of the Commission authorized to transmit the check to the City Chamberlain.

563—R. T. 7654

**Routes Nos. 19 & 22, Section No. 2—Receipts from Corporation Counsel and
President of Borough of The Bronx for Map and Memorandum for Acquisi-
tion of Property for Site for Westchester Storage Yard—Filed**

The Commission ordered filed receipts from the Corporation Counsel and President of the Borough of The Bronx, dated April 19, 1923, for map and memorandum adopted by the Commission on April 18, 1923, for the institution of condemnation proceedings for the acquisition in fee of property between Westchester and Blondell Avenues, Eastchester Road, Haswell Street and Waters Avenue, Borough of The Bronx, necessary for a terminal storage yard and inspection shed.

PROCEEDINGS OF
TRANSIT COMMISSION

49 Lafayette Street
Borough of Manhattan, City of New York

Proceedings for Tuesday, May 1, 1923

Present: George McAncny, Chairman; LeRoy T. Harkness, Commissioner,
S. B. Walker, Secretary.

The following matters were presented and action taken as follows:

576—R. T. 7575

**Canal Street Loop—Draft Form of Contract for Construction of Additional En-
trances at Canal Street Station—Resolution Directing Public Hearing be
Held and Notice be Advertised.**

The following resolution was adopted:

Whereas, There is now submitted to the Commission a draft form of proposed
contract for the construction of additional entrances at the Canal Street Station
(Line);
Resolved, That before finally fixing the terms and conditions of proposed con-
tract for the construction of additional entrances at the Canal Street Station (Loop
Line) a public hearing upon the proposed terms and conditions thereof be held on
the 14th day of May, 1923, at the office of the Transit Commission, No. 49 Lafayette
Street, Borough of Manhattan, New York City, at 11:30 o'clock A. M., at which
hearing citizens shall be entitled to appear and be heard, and that notice of such
hearing shall be published in The City Record every day of publication continuously,
beginning and including May 3, 1923 to and including May 17, 1923, and on May 7, 1923
and on May 14, 1923, in The World and The Evening Post, daily newspapers published
in the City of New York, and that such notice shall state that copies of said draft form
of proposed contract may be obtained at the said office of the Transit Commission
upon payment of the fee of One Dollar (\$1.00) for each copy.

577—R. T. 7549, 7639

**Communication "CC"—Communication from Benedetto, Saussez & Bottino Advising
Failure to Comply with Contract Requirements with Respect to Furnish-
ing Security for Making Changes in Subway Structures so as to Permit the
Widening of East 60th Street Between Second and Fifth Avenues—Report
of Chief Engineer Recommending that Contractor be Declared in Default
and that Contract be Awarded to Jacob Schlesinger, Inc., Second Lowest
Bidder, at Bid Price of \$87,642.50—Approval Resolution—Requisition Upon
Board of Estimate and Apportionment for Appropriation of \$89,350.**

Communication was presented from Benedetto, Saussez & Bottino dated April
10, 1923, advising of their inability to furnish security in the sum of \$25,000 as
required under the proposed contract for making changes in the subway structures
in order to permit the widening of East 60th Street between Second and Fifth Avenues
in the communication "CC").

A report was presented from the Chief Engineer dated April 27, 1923, recommending that the contractor be declared in default; that the contract be awarded to Jacob Schlesinger, Inc., second lowest bidder at the bid price of \$87,642.50, and that a requisition be made upon the Board of Estimate and Apportionment for an appropriation of \$89,350.

The following resolution was adopted:

Whereas, Pursuant to a resolution adopted by this Commission on February 27, 1923, the Board of Estimate and Apportionment, by resolution adopted March 23, 1923, consented to the proposed contract between The City of New York, acting by this Commission, and Benedetto Saussez & Bottino for making changes in the subway structures necessitated by the widening of 60th street between Second and Fifth Avenues, in the Borough of Manhattan, the cost of such work to be expended from the authorization made by the said Board of Estimate and Apportionment by resolution adopted on July 19, 1922; and

Whereas, The Corporation Counsel approved said proposed contract (Agreement "CC") as to form and said proposed contract was thereafter delivered to the said contractors for execution and their compliance with the requirements thereof in respect of security, which contractors, by communication dated April 25, 1923, have notified this Commission of their inability to comply with the requirements of said proposed contract as to filing of security in the sum of \$25,000 and that it will be necessary for them to default under said contract; and

Whereas, The Chief Engineer of this Commission, by communication dated April 27, 1923, has reported with respect thereto and has recommended that after declaration of default the said proposed contract be awarded to the second low bidder of the proposals received for said proposed contract on February 26, 1923, to wit, Jacob Schlesinger, Inc., with their bid of \$87,642.50,

Resolved, That said report and recommendation be and the same hereby is approved; that the said Benedetto, Saussez & Bottino be and the same hereby are declared in default in respect of their proposal and contract for the performance of such work and that the certified check in the sum of \$1,000, deposited with their proposal therefor, be and the same hereby is forfeited to The City of New York.

Further Resolved, That the proposal of Jacob Schlesinger, Inc., for the performance of the work under said proposed contract be and the same hereby is accepted and that said proposed contract be and the same hereby is awarded to said Jacob Schlesinger, Inc., subject to its being consented to in form and substance as required by law and that said proposed contract, together with the requisition now submitted by Counsel, be transmitted to the Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

May 1, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board, on March 23, 1923, adopted the following resolution:

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated February 27, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to the contract with Benedetto Saussez and Bottino, for making changes in subway structures necessitated by the widening of 60th Street, between 2nd and 5th Avenues, Borough of Manhattan, at an estimated cost of sixty-two thousand dollars (\$62,000); the cost thereof to be charged to the tax note appropriation authorized by the Board of Estimate and Apportionment on July 19, 1922 (Code NPM-59, Reconstructing Gratings, Vault Lights, etc., along the Curb Line of 60th Street, Between 2d and 5th Avenues, to Permit of the Widening of the Roadway of the Street); all payments in connection with said contract to be made upon vouchers prepared by the Transit Commission and certified by the President of the Borough of Manhattan.

[May 1, 1923

after the said proposed contract referred to was transmitted to the Corporation, who approved it as to form, after which it was delivered to the contractor, Benedetto, Saussez and Bottino for execution and the requirements with the terms of its bid in respect of security which was required in the sum of Twenty-five thousand dollars (\$25,000).

The Chief Engineer of this Commission, in a communication dated April 27, 1923, approved and recommended with respect to this work, in view of the facts which developed subsequent to the action of your Honorable Board, as follows:

On February 27, 1923, the Commission approved my recommendation to award the contract for work under Agreement "CC," changes in subway structure on account of widening the roadway of East 60th Street, Borough of Manhattan, to Benedetto, Saussez & Bottino, the lowest bidder, at \$60,317 and to make a requisition on the Board of Estimate and Apportionment for consent to the proposed agreement and the utilization of \$62,000 of the appropriation of \$1,000,000 made by the Board of Estimate and Apportionment on July 19, 1922 for construction, under the jurisdiction of the President, Borough of Manhattan.

The Board of Estimate approved the award of this contract and consented to the utilization of the \$62,000 for the purpose of this agreement.

A letter dated April 25, 1923 has been received from Benedetto, Saussez & Bottino, copy of which is attached hereto, in which they say that they have not been able to place a bond for \$25,000 required under the proposed agreement.

As Benedetto, Saussez & Bottino are not able to comply with the requirements of the proposed agreement it seems advisable that the contract for the work of this agreement should be awarded to the second lowest bidder, Jacob Schlesinger, Inc. In my letter of February 27, 1923, recommending the award of this contract to Benedetto, Saussez and Bottino, I stated that the price bid by this firm was "uniformly low and considerably below our estimate." The bid by Jacob Schlesinger, Inc. amounting to \$87,642.50 I consider reasonable. This bid is about \$27,000 above the lowest bid, although considerably below our estimate. Jacob Schlesinger, Inc. has completed a contract for station finish, Broadway and Canal Street Stations, Routes Nos. 5 and 20 for the Commission amounting to about \$23,000 and is now carrying out a contract for second Addition to the 148th Street and Lenox Avenue Yard amounting to about \$313,000. The contract for which he was the lowest bidder was the contract for Inspection and Service Buildings, Jerome Avenue Yard, Route No. 16, which was awarded on April 18, 1923, and transmitted to the Board of Estimate on the same date for its approval. All of the work done for us by Jacob Schlesinger, Inc. has been very satisfactory and I consider it a good and responsible contractor.

If this contract were readvertised now it is probable that the bids would be lower than the bid of Jacob Schlesinger, Inc. of February 26, 1923 as prices for labor and material have gone up since that time. In answer to our inquiry, Jacob Schlesinger, Inc., stated that it was willing to stand by its last bid for the work.

In making a request for an appropriation for this work a certain amount should be added to the bid of Jacob Schlesinger, Inc. to cover work to be done by the Operating Company such as changes of lighting within emergency exits effected at cost to the contractor plus 5%, and a considerable amount of work to be done under Item 150 at cost plus 15%, such work consisting of changes in waterproofing, cutting of steel, changes in subsurface structures, and changes in emergency exit covers and ladders. The accurate cost of such work cannot be estimated at the present time, but it is thought that about \$1700 will cover it.

Recommendation: I respectfully recommend that the Commission declare Benedetto, Saussez & Bottino in default under their contract for work under Agreement "CC" and that a communication be sent to the Board of Estimate and Apportionment requesting that it rescind its action of March 23, 1923, approving the award of this contract to Benedetto, Saussez & Bottino, and consenting to utilization of \$62,000 of the appropriation of \$1,116,000 made by the Board of Estimate and Apportionment on July 19, 1922, and I further recommend that the contract for work under Agreement "CC," changes in subway structure on account of widening of roadway of East 60th Street, Borough of Manhattan, be awarded to Jacob Schlesinger, Inc., the second lowest bidder, at its bid figure of \$87,642.50 and that a requisition be made on the Board of

Estimate and Apportionment for consent to said proposed agreement and the utilization of \$89,350. of the appropriation of \$116,000 made by the Board of Estimate and Apportionment on July 19, 1922 aforesaid.

The Transit Commission has approved the foregoing report and recommendation, has declared the said contractors, Benedetto, Saussez & Bottino in default under its said contract and has forfeited the bid deposit of One thousand dollars (\$1,000), their certified check for said amount being transmitted simultaneously herewith to the Department of Finance.

The Transit Commission has accepted the proposal of the second low bidder of the bids received on February 26, 1923, for this proposed contract and has awarded said proposed contract to the said Jacob Schlesinger, Inc., subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to rescind the resolution of March 23, 1923, hereinbefore set forth and to consent to the proposed contract for the performance of the work of making changes in subway structures necessitated by the widening of 60th Street between Second and Fifth Avenues in the Borough of Manhattan, being entered into with Jacob Schlesinger, Inc. in accordance with their bid of Eighty-seven thousand six hundred and forty-two dollars and fifty cents (\$87,642.50) and to set aside from the appropriation of One hundred sixteen thousand dollars (\$116,000), made as aforesaid on July 19, 1922, the sum of Eighty-nine thousand three hundred fifty dollars (\$89,350) being the amount estimated to meet the City's obligations under said proposed contract.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

578—R. T. 7519

Contract No. 1—Certificate by Chief Engineer of Completion of Changes in Subway Structure so as to Provide for Rearrangement of Curb Lines at Northeast Corner of Columbus Circle and Broadway—Resolution Accepting Work and Directing that Certificate be Filed with Comptroller and President of Borough of Manhattan

The following certificate was approved:

April 28, 1923.

To: TRANSIT COMMISSION

Certificate of Completion—Changing subway structure at 59th Street

In connection with the agreement dated August 14, 1922 between the City of New York, acting by the Transit Commission, and Interborough Rapid Transit Company for changing the subway structure at 59th Street in order to make possible the rearrangement of the curb lines at the northeast corner of Columbus Circle and Broadway under the jurisdiction of the President, Borough of Manhattan, I hereby certify that the work was completed in accordance with the provisions of said agreement. The cost of the work was \$7,658.05.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission by communication dated April 28, 1923 has reported that all the work required under the agreement dated August 14, 1922 between The City of New York acting by the Transit Commission and Interborough Rapid Transit Company for changing the subway structure at 59th Street in order to make possible the rearrangement of the curb lines at the northeast corner of Columbus Circle and Broadway under the jurisdiction of the President of the Borough of Manhattan, has been in all respects completed in accordance with the provisions of said agreement; that the total cost of the work was \$7,658.05 and recommends that such work be accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York and to the President of the Borough of Manhattan,

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York and to the President of the Borough of Manhattan.

579—R. T. 7544

Fourth Avenue Subway—Report by Chief Engineer Recommending Release of Checks in Sum of \$742.63 Deposited by M. I. Sachs as Guarantee for Satisfactory Completion of Sidewalk Replacement on Fulton Street between Flatbush Avenue Extension and Hudson Avenue, Borough of Brooklyn—Approval Resolution

A report was presented from the Chief Engineer dated April 27, 1923, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of this Commission has, by communication dated April 27, 1923, reported and recommended as follows:

"Under the terms of the Agreement with M. I. Sachs for replacing the sidewalk on Fulton Street between Flatbush Avenue Extension and Hudson Avenue which Agreement was signed on November 14, 1922, the Contractor deposited as a guarantee for the satisfactory completion of the work two certified checks in the amount of \$742.63. The Agreement provided that this security should be returned to the Contractor upon the making of the final payment, which payment was to be made forty (40) days after the acceptance of the work on March 13, 1923. The forty (40) days having expired on April 23rd, it is therefore proper to return to the Contractor the security which he deposited.

Recommendation: I recommend that the certified checks in the amount of \$742.63 deposited by M. I. Sachs as a guarantee for the satisfactory completion of sidewalk replacement on Fulton Street between the Flatbush Avenue Extension and Hudson Avenue be released.

Resolved, That the said report and recommendation be and the same hereby is approved; that the Secretary of this Commission be and hereby is authorized and directed to take all action as is necessary to effect the approval of said report and recommendation herein given.

580—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Purchase of Parts for 100 Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated January 18, 1923, requesting approval of a proposed purchasing agent's order directed to National Pneumatic Company for the manufacture and delivery of certain parts to be installed on 100 new steel trailer cars at a total cost of \$43,590.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated March 17, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Transit Commission, on July 6, 1922, adopted an order approving Interborough Equipment Trust Series 'A' in respect of the Service Order "B" made by the Transit Commission on May 2, 1922 in Case No. 2627 and approved the petition of June 23, 1922 of Interborough Rapid Transit Company for the purchase of 100 trailer cars, subject to the terms and conditions set forth in said order so adopted July 6, 1922; and

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between the City of New York and said Interborough Rapid Transit Company, this Commission, by resolution adopted on August 8, 1922, assigned to the unit of purchasing and installation 100 steel trailer cars Work Order No. IBA-3; and

Whereas, Pursuant to the said Contract No. 3 and said order of July 6, 1922 and the

said proposed contract approved by said resolution of August 8, 1922 Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated January 18, 1923 directed to National Pneumatic Company for the manufacture and delivery of the following:

200	Controllers, trailer, car door unit, complete as per item 3, on Spec. 95-D and B/P 9895-A. Price: \$32.50 each.....	\$6,500.00
200	Switches, car door control cutout, complete as per item 8 on Spec. 95-D and B/P 9370-B. Price: \$50.90 each.....	10,180.00
200	Controllers, R. H. Master door, complete, as per item 12 on Spec. 95-D and B/P 9892-A. Price: \$30.00 each.....	6,000.00
200	Controllers, L. H. master door, complete, as per item 12 on Spec. 95-D and B/P 9893-A. Price: \$30.00 each.....	6,000.00
200	Cylinders, door lock, with magnet valve, complete as per item 13 on Spec. 95-D and B/P 9885-A. Price: \$22.50 each.....	4,500.00
400	Contacts, R.H. door sliding, complete as per item 14 on Spec. 95-D, and B/P 9886-A. Price: \$8.35 each.....	3,340.00
200	Contacts, L.H. door sliding, complete as per item 14 on Spec. 95-D, and B/P 9887-A. Price: \$8.35 each.....	1,670.00
200	Relays, door lock, complete, as per item 15 on Spec. 95-D. B/P 9890-A. Price: \$27.00 each.....	5,400.00

Total \$43,590.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 460"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated March 17, 1923 reported that such equipment is necessary for the completion of said 100 trailer cars and is according to the best engineering practice; that the prices are reasonable and the best obtainable and that the following bids were received for said material:

National Pneumatic Co.....	\$43,590
Columbia Machine Works & Malleable Iron Co.....	36,380
Westinghouse Electric & Mfg. Co.....	50,550
Consolidated Car Heating Co.....	No bid
General Electric Co.....	No bid

and recommend that said proposed purchasing agent's order be approved.

Resolved, That said report and recommendation be and the same hereby are approved and that pursuant to the provisions of said orders of July 6, 1922 and August 8, 1922 aforesaid and to the provisions of said Contract No. 3 this Commission do and hereby does approve said purchasing agent's order and that the Chairman of this Commission be and hereby is directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

581—R. T. 6761, 7224

Contract No. 3—Communication from Interborough Rapid Transit Company Requesting Approval of Purchase of Two Induced Draft Fans to be Installed in Connection with New Boilers for 59th Street Power House—Approved

The following communication was presented from the Interborough Rapid Transit Company and upon motion, duly seconded and adopted, the request was approved:

April 25th, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Dear Sirs:

As a part of the equipment of the four (4) new boilers which are about to be installed at the 59th Street Power Station, it will be necessary to purchase two (2) inducted draft fans.

We now have in operation at 59th Street sixteen (16) induced draft fans, two (2) of which were furnished by the B. F. Sturtevant Co. and have incorporated in them special features designed to eliminate cinders from the stack gases. The B. F. Sturtevant Co. make the only fan having such a feature. Our Engineers advise me

[May 1, 1923

the two (2) Sturtevant fans now in operation do eliminate approximately 70 per cent. of the cinders in the gases passing through them and they are of the opinion this type of fan should be installed in connection with the new boilers.

I approve of this recommendation, in view of the fact that there does not appear any other device available for the purposes which will suit our conditions, and the company is prepared to install these fans, notwithstanding that their cost is \$7,960 as compared with a cost of \$1,815, for a fan without the cinder eliminating device.

I would request, therefore, that you signify your approval of this course in connection with the preparation of the contracts.

Yours truly,
FRANK HEDLEY,
President and General Manager.

582

Transit Railroads—Communication from Board of Estimate and Apportionment Submitting Copy of Communication from Commissioner of Health with Respect to Overcrowding of Existing Transit Facilities—Copy of Reply Approved.

The Chairman presented the following communication from the Board of Estimate and Apportionment:

(Cal. No. 51)

April 20, 1923.

TRANSIT COMMISSION,
110 West 116th Street,
New York City.

I transmit herewith copy of a communication dated March 26, 1923, from the Commissioner of Health, stating that the overcrowding and congestion that result from the present transit facilities are factors in the spreading of disease and undoubtedly constitute a grave menace to the health of the community, and urging that steps be taken to remedy the existing conditions.

At the meeting of the Board of Estimate and Apportionment on April 20, 1923, the matter was referred to the Transit Commission.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

The following copy of the reply was approved:

April 30, 1923.

BOARD OF ESTIMATE AND APPOINTMENT,
110 West 116th Street,
New York City.

I am directed by the Transit Commission to acknowledge receipt of your letter of April 20th inst., signed by the Assistant Secretary of your Board, and transmitting herewith a communication dated March 26 from the Commissioner of Health, with respect to the overcrowding and congestion resulting from the failure to provide for the extension of existing rapid transit lines, or for the proper increase of transit equipment facilities.

I am
Very respectfully yours,
JAMES B. WALKER,
Secretary.

583—Case 1689

New York Railways Company—Receiver—Smoking on Low Level, Center Entrance Cars—Approval Order

The Secretary presented an application dated April 25, 1923, by the General Manager for the Receiver of the New York Railways Company, to be permitted

to allow smoking on the circular seat in the rear of low level center entrance cars and on one seat on each side of the car immediately in front of such circular seat for and during a period of not less than five months from May 1st during the time the windows of such low level center entrance cars are removed.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 1689 approving the application.

584—Case 1505

New York Consolidated Railroad Company et al.—Destination Signs on Cars in Service on Elevated Lines—Amendatory Order Adopted

The Secretary presented a report, dated April 23, 1923, from the Chief of the Transit Bureau, approved by the Acting Chief Executive Officer, recommending that the order in Case No. 1505 be amended in certain particulars.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 1505, reading as follows:

At a meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 1st day of May, 1923.

Present:

GEORGE McANENY, }
Chairman, } COMMISSIONERS
LE ROY T. HARKNESS, }

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of changes in the regulations, practices and service of New York Consolidated Railroad Company, Nassau Electric Railroad Company and South Brooklyn Railway Company.

CASE No. 1505
AMENDATORY ORDER

Destination signs in cars in service on elevated lines.

An order having been made in this case on July 30, 1914, and the New York Consolidated Railroad Company, the Nassau Electric Railroad Company, and the South Brooklyn Railway Company having made application for a modification of said order, and an order having been made on September 15, 1914 amending said order of July 30, 1914, and an order having been made on June 8, 1915 amending said order of July 30, 1914 as amended, and an order having been made June 22, 1915 further amending said order of July 30, 1914 as amended, and an order having been made on July 9, 1915 further amending said order of June 22, 1915 as amended, and it appearing that the New York Consolidated Railroad Company has succeeded to the operation of all service previously operated subject to this order by the Nassau Electric Railroad Company and by the South Brooklyn Railway Company:

Ordered, That said order of July 30, 1914 as amended by said order of September 15, 1914, and said order of June 8, 1915, and said order of June 22, 1915, and said order of July 9, 1915 be, and the same hereby is further amended as to the directory portion thereof, so as to read as follows:

Ordered, That all cars now equipped with holders for line or destination signs, and every motor car operated by said New York Consolidated Railroad Company or the Receiver thereof, shall display when in service proper line and destination signs, and that all trains composed of the old type elevated cars operated by said company of the Receiver thereof, shall also display when in service proper dash destination signs, and it is further ordered:

[May 1, 1923

1. Special trains, such as trains to baseball games, motordrome and places of like character carrying white flags, shall be exempt from requirements as to signs.

2. Trains or cars of the old elevated type diverted from one line to another for emergency or shop purposes shall not be required to display signs.

3. On Sundays and holidays, when the entire available equipment of the Southern Division is insufficient to care for the business on that division and it is necessary to operate therein trains or cars ordinarily operated on the Eastern Division, the cars or trains of the old elevated type so diverted shall not be required to carry signs.

4. When in an emergency it becomes necessary to turn back cars before trains reach their scheduled destination, it shall not be deemed a violation of this order if such cars or trains do not display proper destination signs, and further Ordered, That this order shall take effect forthwith, and that within days after service of this order, the New York Consolidated Railroad Company Receiver thereof, shall notify the Commission whether this order is accepted and to be obeyed.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

585—Cases 2182, 2218, 2306, 2662

Interborough Rapid Transit Company—Application for Authority to Issue Notes and Pledge Bonds—Communication from Frank Hedley, President and General Manager, Relative to New Equipment Trust Agreement and Lease—Communication Approving Changes

The Secretary presented the following communication, dated April 27, 1923, from Frank Hedley, President and General Manager of the Interborough Rapid Transit Company:

JAMES B. WALKER,
Secretary, TRANSIT COMMISSION,
110 West 42nd Street, New York City.

The Commission, on March 15, 1923, adopted an Order modifying its Order of March 15, 1922, approving the issuance of \$1,400,000 of Interborough Equipment Trust Certificates, Series "A." On March 19, 1923, Mr. Norton of this Company's law firm conferred with Chairman McAneny and advised him that it was proposed to execute and deliver a new Equipment Trust Agreement between Rapid Transit Construction Company, Vendor, The New York Trust Company, Trustee, and Interborough Rapid Transit Company, and a new Equipment Trust Lease between The New York Trust Company, Trustee, and Interborough Rapid Transit Company; each to be effective as of March 15, 1923 and each to be in substitution for the like indentures executed by the same parties dated July 15, 1922. It was pointed out to the Chairman that the purposes intended to be accomplished by the execution of the new documents

(a) A change of date in the Equipment Trust Certificate so as to make the date of their issue March 15, 1923, instead of November 15, 1922, with corresponding changes in maturity dates and in dividend dates; and

(b) The insertion of appropriate language permitting the Pullman Company, its nominee, to deposit with the Trustees (prior to the first delivery of any certificates) the sum of \$600,000, in cash, and thereupon to have delivered to it, or on its order, the \$600,000, principal amount of certificates which were originally intended to be reserved by the Trustee for delivery to the Pullman Company as means of partial payment, at the rate of \$6,000, per car, for each car body with such certificates delivered.

Chairman McAneny expresses his approval of these changes and of the business involved. New indentures have been executed and copies thereof filed in the office of the Secretary of State. I am informed that the Secretary of this Company is sending copies to you for your files, together with copies of satisfaction piece covering the same by The New Trust Company, covering the indentures of July 15, 1922, which have been filed in the office of the Secretary of State.

The specific changes made in the new indentures as compared with the indentures of July 15, 1922 are as follows:

1. Wherever necessary the dates of the indentures and dates of certificates, interest payments thereon and maturity thereof, have been changed to conform to the new situation.

Agreement reference being made to the agreement of July 15, 1922.

2. Page 1, line 10 from the bottom, "proposes to" has been changed to "has" and "enter" has been changed to "entered." Page 2, line 5 from the top, "or contracts" has been stricken out, and "provide" has been changed to "provides".

3. Page 3, lines 1, 2 and 3, the words "that as promptly as may be it will enter into the contract or contracts with the Pullman Company as herein above recited, and" have been stricken out.

4. Page 7, after the tenth line from the top the following has been inserted:

"The foregoing provisions of this Article contemplating the reservation by the Trustees of \$600,000. par value of the certificates herein provided for and the issuance and delivery of such reserved certificates to the Pullman Company in the manner and at the times above specified shall be inapplicable if, prior to the time of the first delivery of car bodies (including trucks therefor) by the Pullman Company, there shall have been deposited with the Trustee by or for said Pullman Company the sum of \$600,000. in cash. In the event that the Trustee shall have received in cash prior to such delivery the aggregate sum of \$1,866,250. the Trustee will thereupon issue certificates of the aggregate par value of \$1,400,000. of which \$600,000. par value shall be delivered upon and according to the order of the Pullman Company. Said \$600,000. shall be held by the Trustee in trust to be applied to the payment to the extent of such fund, of the cost of the construction and equipment of said cars. The payments herein provided to be made by the Trustee to the Pullman Company shall in such case be made in cash at the rate of not exceeding the sum of \$7,450. for each car body (including trucks therefor) instead of in certificates at the rate of \$6,000. and cash at the rate of not exceeding \$1,450 per car body (including trucks therefor)."

Lease, reference being made to the Lease of July 15, 1922.

5. Page 3, in the last two lines, and on page 4, in the first two lines, the following has been stricken out: "by the issue of the Trustee of \$600,000. par value of certificates and the payment by the Trustee of \$800,000. of cash deposited or caused to be deposited with it by the Vendor".

6. Page 9, 11th line from the top the word "from" between "and" and "the" has been changed to "for".

If your Commission deem it necessary to formally approve these changes, will you be good enough to have such approval evidenced by appropriate action.

Yours very truly,

(Signed) FRANK HEDLEY,
President and General Manager.

Thereupon, the changes referred to in the foregoing letter were approved and the said letter was ordered spread upon the minutes of the meeting.

586—Case 2679

Brooklyn Rapid Transit Railroad Company et al.—Application of Stockholders' Committee for Approval of Reorganization Plan—Supplemental Application No. 1 for Approval of Plan of Readjustment—Filed

The Secretary presented a communication, dated April 30, 1923, of the Committee under the Reorganization Plan of Stockholders of the Brooklyn Rapid Transit Company et al. asking for the approval of Supplemental Application No. 1, authorizing the reorganization of the New York Consolidated Railroad Company and the New York Municipal Railway Corporation, and further authorizing the amount of capitalization of the new rapid transit company; the issue of First and Refunding Mortgage Bonds not to exceed \$50,000,000 at any one time, to refund an equal principal amount of underlying

Mortgage Bonds of the Kings County Elevated Railroad Company; and further authorizing an issue of Refunding Mortgage Bonds limited to such total authorized amount at any one time outstanding as the Commission might determine; and further authorizing an issue of not exceeding 189,000 shares of common capital stock without interest or par value.

Whereupon the above mentioned Supplemental Application No. 1, was ordered filed in the Case No. 2679-A in Case No. 2679.

587—R. T. 6407, 7601, 7602, 7603

Route No. 52—Report by Chief Engineer Stating no Provision has Been Made for Gauntlet Track in Design of Structure for Flushing Extension—Filed

A report was ordered filed from the Chief Engineer, dated April 27, 1923, stating in accordance with oral instructions no provision has been made for gauntlet track in the design of the structure for the Flushing Extension and that contract drawings for the supply and erection of steel for Section No. 1 of Route No. 52 have been issued on such basis and that working drawings for Section No. 3 of Route No. 52 have also been issued on such basis.

588—R. T. 7191

Route No. 33, Section No. 3—Communication from Acting Corporation Counsel Transmitting an Original Deed of Grant and Release Involving the Fee of a Portion of Montague Street, Borough of Brooklyn—Filed

A communication was ordered filed from Arthur J. W. Hilly, Acting Corporation Counsel, transmitting an original deed of grant and release dated September 7, 1922, from the Brooklyn Trust Company to The City of New York involving the fee of a portion of Montague Street in connection with the construction of the Whitehall Street-Montague Street Line, which deed was recorded in the office of the Register of Deeds of Kings County, Liber 4195, Page 218 of Conveyances, Section No. 1, Block No. 244, on the 20th day of October, 1922.

589—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Submitting Copy of Contract for Construction of Foundations and Super-Structure for Substation No. 27—Filed

A communication was ordered filed from the Interborough Rapid Transit Company dated April 23, 1923, transmitting a copy of a contract dated March 5, 1923, with Charles A. Henderson for the construction of the foundations and super-structure, inclusive of the structural metal work for Substation No. 27, at No. 8909 Roosevelt Avenue, Elmhurst, Borough of Queens.

590

Employees' Resolution No. 140

On motion, duly seconded, the following resolution was unanimously adopted:
Resolved, That this Commission takes the following action with reference to the employees:

Appointments—Leon A. Humphrey, draftsman, at \$150.08 per month, to take effect May 1, 1923; Morris Roberts, draftsman, at \$150.08 per month, to take effect April 30, 1923; Lazarus Trommer, draftsman, at \$150.08 per month, to take effect May 1, 1923.

Appointments under Rule VIII:4—William J. Foster, junior assistant, at \$125.08 per month, to take effect April 25, 1923; Harry Garfinkel, draftsman, at \$150.08 per month, to take effect April 30, 1923; Hyman Needle, junior assistant, at \$125.08 per month, to take effect April 26, 1923; Louis Seufert, draftsman, at \$150.08 per month, to take effect April 30, 1923; David Stone, architectural draftsman, at \$150.08 per month, to take effect April 24, 1923.

Reinstatement under Rule XVI:1—Harry R. Gingher, inspector of steel, at \$200.00 per month, to take effect May 7, 1923.

Resignations—Henry Gewirtz, bookkeeper, at \$112.50 per month, to take effect April 30, 1923; James J. Kincaid, clerk, at \$128.08 per month, to take effect June 13, 1923; Meyer Loonin, draftsman, at \$150.08 per month, to take effect May 7, 1923; James C. Lovely, engineering inspector, at \$150.08 per month, to take effect April 24, 1923.

Termination of Appointments under Rule VIII:4—Fred Adinolfi, architectural draftsman, at \$150.08 per month, to take effect April 17, 1923; Leon A. Humphrey, draftsman, at \$150.08 per month, to take effect April 30, 1923.

Change of Item in Resolution of April 25, 1923, Concerning Walter F. Cudlipp and Lazarus Trommer, so as to Read as Follows (Termination of Appointments under Rule VIII:4)—Walter F. Cudlipp, draftsman, at \$150.08 per month, to take effect May 4, 1923; Lazarus Trommer, draftsman, at \$150.08 per month, to take effect April 30, 1923.

Leaves of Absence with Pay—Charles Lahr, junior engineer, from April 4, 1923, to April 11, 1923, from May 4, 1923 to May 11, 1923, and from June 4, 1923, to June 11, 1923; George Donnelly, transit inspector, from March 6, 1923, to April 1, 1923; Mildred Kaufman, accountant, from March 13, 1923, to March 16, 1923; Harriet Lynch, telephone operator, from April 10, 1923, to April 16, 1923; Mildred Shapiro, stenographer, from March 17, 1923, to April 2, 1923.

Leaves of Absence without Pay—Edna Holmgren, stenographer, from June 17, 1923, to August 26, 1923; Charles Lahr, junior engineer, from April 12, 1923, to May 3, 1923, from May 12, 1923, to June 3, 1923, and from June 12, 1923, to July 3, 1923.

591

Voucher Schedule No. 18

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 417-455, open market orders, \$3,296.99; Vouchers Nos. 232-241, miscellaneous bills, \$8,900.88.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 100, Interborough Rapid Transit Company; final estimate for changing the subway structure at 59th Street in order to rearrange curb line at Columbus Circle and Broadway to March 31, 1923 (R. T. 7519) \$356.96;

Voucher No. 101, Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 2 for the construction of foundations for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from March 21, 1923 to April 30, 1923 (R. T. 7589) \$20,944.89;

Voucher No. 102, Station Finish Corporation, Assignee; approximate estimate No. 9 for construction of station finish on Sections Nos. 3, 4, and 5 of Route No. 8, from April 1, 1923 to April 30, 1923 (R. T. 7516) \$12,744.17;

Voucher No. 103, Bradley Contracting Company; Certificate for construction of Section 11 of Route 5 of the Lexington Avenue Rapid Transit Railroad (R. T. 6211) \$23,832.53;

Voucher No. 104, Bradley Contracting Company; Certificate for the construction of Section 10 of Route No. 5 of the Lexington Avenue Rapid Transit Railroad (R. T. 6210) \$19,820.83;
 Voucher No. 105; Lindley M. Garrison, Receiver, New York Consolidated Railroad Company and New York Municipal Railway Corporation; approximate estimate No. 3 for installing tracks including special work at and near Queensboro Plaza station, from February 1, 1923 to February 28, 1923 (R. T. 7585) \$8,456.34.

592

Upon motion, duly seconded and adopted, the meeting was adjourned to Thursday, May 3, 1923.

 JAMES B. WALKER,
 Secretary.

Proceedings for Wednesday, May 2, 1923

593

Hearing

The following hearing was held:

2:45 P. M.; Case 2683; The Concourse Bus Line, Inc.; Application for permission and approval of operation under franchise contract and for certificate of convenience and necessity for the operation of bus lines, in the Boroughs of Manhattan and The Bronx.

Commissioner O'Ryan presided. Hearing closed.

 JAMES B. WALKER,
 Secretary.

Proceedings for Thursday, May 3, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

594—Case 2683

The Concourse Bus Line, Inc.—Application for Certificate of Convenience and Necessity for Operation of Bus Lines in the Boroughs of Manhattan and The Bronx—Opinion by Commissioner O'Ryan—Resolution Authorizing Order Granting Permission to Exercise Franchise and Execution of Certificate—Approved

The Secretary presented an Opinion by Commissioner O'Ryan in Case No. 2683, recommending the granting of the application of The Concourse Bus Line, Inc., for a certificate of public convenience and necessity for the operation of bus lines in the Boroughs of Manhattan and The Bronx.

Thereupon, the above mentioned Opinion in Case No. 2683, was approved and a resolution in Case No. 2683, was adopted, authorizing the execution of a certificate of

public convenience and necessity as asked, and the granting of permission to The Concourse Bus Line, Inc., to exercise the franchise granted to it by The City of New York, dated May 1, 1923.

Further, thereupon, the Commission adopted and ordered filed an Order in Case No. 2683, granting permission to The Concourse Bus Line, Inc., to exercise said franchise, dated May 1, 1923, over the streets, avenues and highways, in the Boroughs of Manhattan and The Bronx, therein described.

The Chairman and the Secretary of the Commission thereupon executed the certificate of public convenience and necessity as authorized by the foregoing resolution.

JAMES B. WALKER.
Secretary.

Proceedings for Friday, May 4, 1923

595

Hearing

The following hearing was held:

10:15 A. M.; Case 2679; Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization. Chairman McAneny and Commissioners Harkness and O'Ryan presided.

Adjourned to May 7, 1923, at 10:30 A. M.

Hearing

The following hearing was held:

10:30 A. M.; Case 2679; The Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization. Commissioners Harkness and O'Ryan presided. Adjourned to May 9, 1923 at 10 A. M.

597

Hearing

The following hearing was scheduled:

10:30 A. M.; Case 2682; Long Island Railroad Company; Application of The City of New York for a determination as to the manner in which two bridges carrying the main drive in Forest Park over the tracks of the Rockaway Beach Division and the Montauk Division shall be altered or changed.

Adjourned by direction of the Commission to May 14, 1923 at 10:30 A. M.

JAMES B. WALKER.
Secretary.

Proceedings for Tuesday, May 8, 1923

Present: George McAneny, Chairman, LeRoy T. Harkness, John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted.

598—R. T. 7601

Route No. 52, Section No. 1—Receipt of Bids for Furnishing and Erecting Structural Steel for Part of Flushing Extension—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for furnishing and erecting structural steel for Section No. 1 of Route No. 52, part of the Flushing Extension, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the seven bids received.

The bids were then referred to the Chief Engineer.

599—R. T. 7601

Route No. 52, Section No. 1—Resolution Authorizing Release of Checks to all but Lowest and Next to Lowest of Bidders for Furnishing and Erecting Structural Steel for Part of Flushing Route—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on May 8, 1923, for furnishing and erecting structural steel for Section No. 1 of Route No. 52, part of the Flushing Route, the Secretary be and he hereby is authorized and directed to return to all but the lowest and next to lowest of the bidders, the certified checks in the sum of Five thousand (\$5,000) Dollars, deposited with their bids.

600

Expenses—Resolution Authorizing Requisition upon Board of Estimate and Apportionment for Appropriation of \$1,000,000 for Expenses for Year Ending December 31, 1923—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Resolved, That the Chairman and the Secretary of the Transit Commission be, and they hereby are, authorized in the name and in behalf of said Commission to make a certificate to and a requisition on the Board of Estimate and Apportionment for the sum of One Million Dollars (\$1,000,000), in the following form, to wit:

"Requisition is hereby made upon you, pursuant to the provisions of Chapter 134 of the Laws of 1921, by the Transit Commission, for the sum of One Million Dollars (\$1,000,000), which sum said Transit Commission hereby certifies as necessary, on account, to properly enable it to do and perform, or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by said law.

"Appended hereto is a certified copy of a resolution of the Commission authorizing the execution of the certificate and requisition.

"In witness whereof, the Transit Commission has caused this requisition to be signed by its Chairman and its Secretary and its official seal to be hereto affixed this 8th day of May, 1923."

May 8, 1923]

436

The requisition upon the Board of Estimate and Apportionment was as follows:

May 8, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Requisition is hereby made upon you, pursuant to the provisions of Chapter 134 of the Laws of 1921, by the Transit Commission, for the sum of One Million Dollars (\$1,000,000), which sum said Transit Commission hereby certifies as necessary, on account, to properly enable it to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by said law.

Appended hereto is a certified copy of a resolution of the Commission authorizing the execution of the certificate and requisition.

In witness whereof, the Transit Commission has caused this requisition to be signed by its Chairman and its Secretary and its official seal to be hereto affixed this 8th day of May, 1923.

Very truly yours,

TRANSIT COMMISSION,

GEORGE McANENY,

Chairman.

Attest:

JAMES B. WALKER,
Secretary.

The communication to the Board of Estimate and Apportionment was as follows:

May 8, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, in pursuance of a resolution, adopted at its meeting of May 8, 1923, transmits to you herewith, and as a part hereof, a requisition in the sum of One Million Dollars (\$1,000,000), which is the amount requisite and necessary, on account, to enable the said Transit Commission to do and perform or cause to be done and performed, the duties prescribed for it by Chapter 134 of the Laws of 1921, and to provide, on account, for the expenses and compensation of the employees of the said Commission for the year ending December 31, 1923.

Such funds are necessary for the carrying on of the supervision of outstanding construction contracts and of contracts now before your Board for approval, the preparation of contract and detailed plans preliminary to the letting of contracts for the construction of the remaining portions of the lines embraced in the Dual Rapid Transit System, the legalization of additional rapid transit routes, the supervision of plans and contracts of the operating companies under the Dual System, the acquisition of real estate and other rights incident to rapid transit construction, the preparation, negotiation and installation of the statutory plan for the rehabilitation of transit facilities within the City, including the valuation and appraisal of all transit properties, the regulation of transit operation within the City and for the performance of other duties imposed on the Commission by statute.

While the duties imposed upon the Commission by statute are so varied that a precise determination of its financial need for the balance of the year cannot be made, nor an exact division of the amount now requisitioned as between construction, regulation and the development of the statutory plan of reorganization attempted, an approximation, figured as closely as possible, shows that of the amount requisitioned 80% will be expended upon the work incident to construction, 10% upon regulation and the duties incident thereto, and the remaining 10% on account of the plan of reorganization, including the appraisal and valuation of properties, legal expense, etc. The accounts of the Commission are kept in such manner that an exact distribution of expenditure as between the three divisions of its work referred to will be made and recorded as the year proceeds.

Very truly yours,

TRANSIT COMMISSION,

By GEORGE McANENY,

Chairman.

601—R. T. 7601

Route No. 52, Section No. 1—Report by Chief Engineer as to Receipt of Bids for Furnishing and Erecting Structural Steel for Part of Flushing Line and Recommendation for Award of Contract to McClintic-Marshall Company at Bid Price of \$679,838.80—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

May 8, 1923.

TO: TRANSIT COMMISSION.

Award of contract, Route No. 52, Section No. 1, Flushing Route, furnishing and erecting structural steel to McClintic-Marshall Co.

On May 8, 1923, the following seven (7) bids were received for work under contract for that portion of Flushing Route known as Section No. 1 of Route No. 52, for furnishing and erecting structural steel:

<i>Name</i>	<i>Address</i>	<i>Amount</i>
McClintic-Marshall Co.	50 Church St., N. Y. City	\$679,838.80
Post & McCord	161 Park Avenue, N. Y. City	698,010.00
The Phoenix Bridge Co.	30 Church Street, N. Y. City	705,330.00
The Jobson-Gifford Co.	30 East 42nd Street, N. Y. City	705,865.00
Bethlehem Steel Co. Inc.	25 Broadway, N. Y. City	741,320.00
Harris Structural Steel Co., Inc.	1480 Broadway, N. Y. City	752,895.00
Oakdale Contg. Co., Inc.	93 Amity St., Flushing, L. I. City	771,180.00

Our estimate for this work was \$654,205.

This is the same contract for which we previously received bids on December 14, 1922, and for which the lowest bidder at that time was the Phoenix Bridge Co., whose bid amounted to \$615,880. This bid was approved and submitted to the Board of Estimate on December 19, 1922. It was, however, returned by that Board to the Commission on January 5, 1923, and later the Phoenix Bridge Co. withdrew its bid. The bid by the McClintic-Marshall Co. is \$63,958.80 higher than the low bid received December 14, 1922. This difference, however, does not represent the entire difference in cost for doing the work as the quantities of steel contained in the last bid was 6,000 tons while the quantity of steel contained in the bid of December 14, 1922, was 7,050 tons. If the prices received in the bid today were applied to the quantities contained in the bid of December 14, 1922, the cost of the work based on these quantities would have been \$794,288.80. The difference between this amount and the amount of the last bid received at that time would be \$178,408.80, which really is the measure of the difference in cost between the two bids. The great difference in cost is due to the fact that the bid received today for steel, the main item in the contract, was \$109 per ton, whereas that received last December was \$84.40 per ton.

The reduction in quantity of steel is due to the elimination of two of the approach tracks of the proposed Corona Yard and the omission of any provision for gantry tracks.

The McClintic-Marshall Co., the lowest bidder, is one of the best known structural steel firms in the country—of a recognized high financial and technical standing. This Company has been awarded the contract for furnishing and erecting steel for Third Addition to Shops—Lenox Avenue and 148th Street Yard, which contract was delivered March 27, 1923. Due to the present conditions of the steel market I consider the prices in the McClintic-Marshall bid reasonable.

Attached I send you herewith copy of minutes of a conference with a representative of the McClintic-Marshall Co.

Recommendation: From an engineering standpoint I respectfully recommend that the contract for furnishing and erecting structural steel for that portion of the Flushing Route known as Section No. 1 of Route No. 52, be awarded to the lowest bidder, McClintic-Marshall Co., at its bid price of \$679,848.80, and that a requisition be made on

the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for furnishing and erecting structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, was heretofore finally adopted and subsequent to readvertisement duly made bids respectively totalling as follows were received on May 8, 1923:

McClintic-Marshall Company.....	\$679,838.80
Post & McCord.....	698,010.00
The Phoenix Bridge Company.....	705,330.00
The Jobson-Gifford Company.....	705,865.00
Bethlehem Steel Company, Inc.....	741,320.00
Harris Structural Steel Co., Inc.....	752,895.00
Oakdale Contracting Co., Inc.....	771,180.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated May 8, 1923, has reported that the amount of said low bid is reasonable and that the said McClintic-Marshall Company is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$679,838.80, the amount estimated to be necessary to carry out said proposed contract on the part of the City.

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of McClintic-Marshall Company be and the same hereby is accepted and that the said proposed contract for furnishing and erecting structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, be and hereby is awarded to said McClintic-Marshall Company, subject to its being consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$679,838.80, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

May 8, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The proposed contract for furnishing and erecting structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, was finally adopted November 28, 1922, and pursuant to public advertisement bids were received therefor on December 14, 1922, the low bidder being the Phoenix Bridge Company. Under date of December 19, 1922, the Transit Commission transmitted said proposed contract, together with a requisition upon your Honorable Board, for the appropriation of the amount of the low bid, to wit, the sum of Six hundred fifteen thousand eight hundred eighty dollars (\$615,880), having awarded said proposed contract to said low bidder subject to its being approved and consented to in form and substance as required by law. At the meeting of your Honorable Board on January 5, 1923, said proposed contract was referred back to the Transit Commission without action by your Board. Under date of January 29, 1923, the said Phoenix Bridge Company, exercising its right under the law, withdrew its bid.

The Transit Commission has readvertised said proposed contract upon the basis of reduced quantities and bids were received therefor on May 8, 1923, respectively totalling as follows:

McClintic-Marshall Company.....	\$679,838.80
Post & McCord.....	698,010.00

The Phoenix Bridge Company.....	705,330.00
The Jobson-Gifford Company.....	705,865.00
Bethlehem Steel Company, Inc.....	741,320.00
Harris Structural Steel Co., Inc.....	752,895.00
Oakdale Contracting Co., Inc.....	771,180.00

The Chief Engineer of this Commission, in a communication dated May 8, 1923, reports that the bid of McClintic-Marshall Company, the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said McClintic-Marshall Company, subject to its being approved and consented to in form and substance as required by law.

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, said proposed contract to be entered into between The City of New York, acting by the Transit Commission and said McClintic-Marshall Company, for furnishing and erecting structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, together with a requisition upon your Honorable Board for the appropriation of the sum of Six hundred seventy-nine thousand eight hundred thirty-eight dollars and eighty cents (\$679,838.80), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Six hundred seventy-nine thousand eight hundred thirty-eight dollars and eighty cents (\$679,838.80), and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Six hundred seventy-nine thousand eight hundred thirty-eight dollars and eighty cents (\$679,838.80).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made by the predecessors of the Transit Commission for the purpose of carrying out the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

602—R. T. 7638

Contract No. 3—Report by Chief Engineer Recommending Approval of Supplemental Unit Price for Concrete Wall in Place of Brick Wall Under Contract for Second Addition to Shops at Lenox Avenue and 148th Street—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated May 7, 1923, recommending the establishment of a supplemental schedule item of \$23.00 per cubic yard for construction of a 12-inch concrete wall in substitution for a brick wall under the contract with Jacob Schlesinger, Inc., for the construction of second addition to shops at the Lenox Avenue and 148th Street Yard.

The following resolution was adopted:

Whereas, the Chief Engineer of this Commission by communication dated May 7, 1923, has for the reasons herein more particularly set forth recommended the establishment of a supplemental unit price for a 12-inch concrete wall to be substituted for 12-inch brick wall in the construction of Second Addition to Shops at the Lenox Avenue and 148th Street Yard pursuant to the contract dated August 3, 1922, between The City

of New York, acting by this Commission and Jacob Schlesinger, Inc., for the performance of such work the estimated cost under such proposed supplemental unit price exceeding the limitation set forth in the third paragraph of Item 150 of said contract: and

Whereas, Counsel has prepared and submitted a proposed communication to the Board of Estimate and Apportionment requesting its consent as required by said contract to the establishment of said supplemental unit price,

Resolved, That said report and recommendation be and the same hereby is approved; that the said communication so submitted be and the same hereby is adopted and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

May 8, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Chief Engineer of this Commission in a communication dated May 7, 1923, has reported with respect to the work under the contract dated August 3, 1922, between The City of New York acting by the Transit Commission and Jacob Schlesinger, Inc., for the construction of Second Addition to Shops at the Lenox Avenue and 148th Street Yard as part of the Railroad described in the contract dated March 19, 1913, known as Contract No. 3, as follows:

"Jacob Schlesinger, Inc., Contractor for the Second Addition to Shops, Lenox Avenue and 148th Street Yard, advises under date of May 7, 1923, that there is great difficulty at present in obtaining good brick for the walls of the shops under this contract, and proposes to make an allowance of \$5. per cubic yard—from \$28. to \$23—if he will be permitted to substitute concrete for the 12-inch brick wall. A copy of the letter is attached.

There are about 830 cubic yards of 12-inch brick wall to be constructed under this contract. This reduction of \$5. per cubic yard would therefore mean a saving of about \$4,150. The Contractor requests the privilege, however, of using brick as originally contemplated if he is able to get satisfactory brick in sufficient quantities when wanted.

In his letter the Contractor advises that he would make no allowance if the 8-inch brick wall is changed to concrete on account of the comparatively greater cost of forms for such 8-inch wall. We have discussed this matter with him orally and he has stated that the second paragraph of his letter referring to the 8-inch wall need not to be considered.

This Contractor is the low bidder for the Jerome Avenue Inspection Shed. In that contract he bid \$30. per cubic yard for brick work and \$25. for concrete—a difference of \$5. per cubic yard—which is the same allowance that he proposes to make in the Second Addition to Shops.

The concrete is entirely satisfactory for our purpose and I consider the allowance of \$5. also satisfactory.

I would therefore

Recommend that the Commission approve the supplementary schedule Item No. 6 AA for 12-inch concrete walls in place with a neat, smooth, finished surface at \$23. per cubic yard, and that, as this item exceeds the limit fixed under item 150 the Board of Estimate be requested to concur in the establishment of this supplementary schedule item. Resolution is attached."

The resolution proposed to be adopted to effect such recommendation which has been approved by this Commission is as follows:

"Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated August 3, 1922, between the City of New York acting by the Transit Commission and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops at the Lenox Avenue Yard, under Contract No. 3, having, subject to the approval of the Commission, agreed with the said contractor on the following supplementary schedule item:

Item No. 6AA—For 12" concrete wall in place with a neat smooth finished surface at \$23.00 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved."

Item 150 of said contract provides in the third paragraph thereof as follows:

* * * "In the case of any single order of work or materials, or both, for a particular job or purpose where the lump sum price for such order to be agreed upon under the provisions of this paragraph or the estimated cost of such order according to the unit prices therefor to be agreed upon under the provisions of this paragraph shall exceed five thousand dollars (\$5,000), such agreement shall not be binding upon the City until the Board of Estimate and Apportionment shall approve or consent to such agreement or such lump sum price or such unit prices."

Inasmuch as the estimated cost under the proposed supplemental unit price exceeds the limitation set forth in Item 150 the consent of your Honorable Board to the establishment of said supplemental unit price is necessary.

Your Honorable Board is therefore requested to consent to the establishment of said supplemental price as hereinbefore set forth for the purposes herein referred to.

TRANSIT COMMISSION,

By GEORGE McANENY,

Chairman.

603—R. T. 7536

Route No. 16—Application by D. C. Serber, Second Lowest Bidder, for Release of Check Deposited with Bid for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard—Application Granted

An application dated May 1, 1923, was presented from D. C. Serber, second lowest bidder, requesting the release of the certified check in the sum of \$5,000 deposited with his bid of April 13, 1923, for the construction of an inspection shed and service buildings at the Jerome Avenue Yard. On motion, duly seconded and adopted, the application was granted.

Route No. 31—Report by Chief Engineer Recommending Extension of Time to April 28, 1923, within which to Complete Contract for Installation of Tracks and Construction of Concrete Inspection Pits at Livonia Avenue Yard—Approval Resolution

A report was presented from the Chief Engineer dated May 1, 1923, recommending that an extension of time be granted to B. T. & J. J. Mack from December 14, 1922, dated April 28, 1923, within which to complete all work under the contract for the installation of tracks and the construction of concrete inspection pits at the Livonia Avenue Yard.

The following resolution was adopted:

Whereas, The contract dated May 9, 1922 between The City of New York, acting by the Transit Commission, and B. T. and J. J. Mack, for the installation of tracks and construction of concrete inspection pits and other miscellaneous work at the Livonia Avenue Yard of the Eastern Parkway Rapid Transit Railroad, required, in accordance with the provisions of Article LXXIX thereof, the completion of all work thereunder on or before December 14, 1922; and

Whereas, The Chief Engineer of this Commission, by communication dated May 1, 1923, reports that all work under said contract was completed in all respects on or before April 8, 1923; that the delay in the completion of the work was attributable to the contractor's inability to obtain suitable hard coal cinders for ballast as required by

said contract, notwithstanding that it made every reasonable effort to procure proper cinders; that practically all the work contemplated by said contract was completed on time with the exception of final surfacing of a portion of the tracks which had to be postponed until the frost was out of the ground; that the operating company was not impeded in the installation of equipment by any of the delay under said contract and recommends that the time within which to complete all the work under said contract be extended to and including April 28, 1923,

Resolved, That said report and recommendation be and the same hereby is approved; that the time of B. T. and J. J. Mack within which to complete the work under said contract be and the same hereby is extended to and including April 28, 1923, provided, however, that this extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited as security for the faithful performance of said contract.

605—R. T. 6831

Routes Nos. 43 & 26—Communication from Counsel Submitting Proposed Agreement for Construction and Extension of Floor and Stairway No. 5 in Grand Central Terminal Building—Approval Resolution

A communication was presented from Counsel dated May 2, 1923, submitting a proposed agreement with the New York State Realty and Terminal Company, the New York Central Railroad Company, the New York, New Haven and Hartford Railroad Company, the City of New York, acting by the Transit Commission and the Interborough Rapid Transit Company for the construction of a portion of the main floor of the Grand Central Terminal building and subway stairway No. 5, at the Grand Central station of the Lexington Avenue Line.

The following resolution was adopted:

Whereas, Counsel, with his letter dated May 2, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, Interborough Rapid Transit Company, New York State Realty and Terminal Company, The New York Central Railroad Company and The New York, New Haven & Hartford Railroad Company for the construction of a portion of the main floor of the Grand Central Terminal Building, outside of easement lines, over the stairwell of Stairway No. 5, a subway entrance stairway and the maintenance of said stairway, a part of the Grand Central Station of the Lexington Avenue Line, a rapid transit railroad in the Borough of Manhattan, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

606—R. T. 7622

Contract No. 2—Communication from Counsel Submitting Proposed Agreement for Additional Show Windows and Entrance at Hoyt Street Station to Premises at No. 501 Fulton Street, Borough of Brooklyn—Approval Resolution

A communication was presented from Counsel, dated May 3, 1923, submitting a proposed agreement with "Martins" and the Interborough Rapid Transit Company providing for additional show windows and an entrance at the Hoyt Street Station of the Brooklyn-Manhattan Rapid Transit Railroad, to the premises at No. 501 Fulton Street, Borough of Brooklyn.

The following resolution was adopted:

Whereas, Counsel, with his letter dated May 3, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, Interborough Rapid Transit Company and "Martins," for the construction, maintenance and operation of additional show windows and an entrance to "Martins" store at No. 501 Fulton Street, Borough of Brooklyn, said show windows and entrance abutting upon the northerly platform of the Hoyt Street Station of the Brooklyn-Manhattan Rapid Transit Railroad and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York;

Whereas, The proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

607—R. T. 6080

Route No. 18—Application by Hugh B. Leeds for Permission to Occupy Vacant Property at Southeast Corner of East 180th Street and Bronx Park Avenue, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Hugh B. Leeds dated May 3, 1923, requesting permission to occupy the vacant property at the southeast corner of East 180th Street and Bronx Park Avenue, Borough of The Bronx, for a lunch wagon at a rental of \$25.00 per month beginning May 16, 1923, and \$35.00 per month beginning November 16, 1923.

A report was presented from the Real Estate Clerk dated May 4, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Hugh B. Leeds of No. 558 Mott Avenue, Borough of The Bronx, has by application dated May 3, 1923, requested permission to occupy a vacant rectangular area at the southeasterly corner of East 180th Street and Bronx Park Avenue, Borough of The Bronx, having a frontage of 20 feet on east 180th Street and 40 feet on Bronx Park Avenue, for a lunch wagon; agreeing to pay rent at the rate of \$25.00 per month beginning May 16, 1923, and \$35.00 per month beginning November 16, 1923; to deposit \$15.00 as security for the payment of water charges and to vacate on fifteen (15) days' notice; the said application containing other terms similar to those usually governing like concessions; and

Whereas, The Real Estate Clerk, under date of May 4, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be and he hereby is, authorized and directed to subscribe the approval of the Commission thereon.

608—R. T. 7267

Contract No. 3—Five Applications from Interborough Rapid Transit Company for Approval of Purchase of Insurance on 3,193 Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

Five applications were presented from the Interborough Rapid Transit Company, for the purchase of fire insurance on 3,193 subway and elevated cars in the amount of \$28,395,000. for a period of five years at a premium of \$196,360.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated April 28, 1923, recommending that the applications be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the cost be charged to operating expenses.

The following resolution was adopted, Commissioner Harkness not voting:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has submitted for the approval of this Commission applications for the purchase of insurance as follows:

Approval No.	Date Expires	Last Approval Date	Type of Cars	Insurance Per Car	Premium
398	Nov. 23, 1922	Dec. 19, 1917	Steel subway motors	\$10,000	\$3,000
473	May 1, 1923	July 16, 1918	Steel subway motors	10,000	24,480
474	Jan. 2, 1923	July 16, 1918	Steel subway motors	10,000	20,220
		Sept. 3, 1918	Steel subway trailers	7,500	6,300
475	Feb. 26, 1923	July 16, 1918	Copper sheathed motors	10,000	31,680
476	May 1, 1923	July 16, 1918	Copper sheathed motors	10,000	10,080
	May 1, 1923	July 16, 1918	Wooden motors	10,000	75,120
		July 16, 1918	Wooden trailers	5,000	25,480

; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer state that it is proposed that such insurance shall be for a period of five years from the date of expiration of each one of several policies of fire insurance in the amount of \$28,395,000 and inspection service on 3,193 cars, forming the greater portion of the cars belonging to the Railroad and Existing Railroads, as defined in said Contract No. 3; that the total premium is \$196,360; that the amount of insurance indicated is necessary and recommend that said five applications so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated May 4, 1923, has recommended the approval of said applications, the cost thereunder to be chargeable to operating expenses,

Resolved, That said reports and recommendations be and the same hereby are approved; that the applications aforesaid, so submitted, be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of each of said applications.

609—R. T. 6761

Contract No. 3—Applications by Interborough Rapid Transit Company for Approval of Two Proposed Purchasing Agent's Orders for Blowers to be Installed at 131st Street and Johnson Street Ventilating Plants—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

Applications were presented from the Interborough Rapid Transit Company dated April 16, 1923, requesting approval of two proposed purchasing agent's orders directed to the American Blower Company for installing blowers in the 131st Street ventilating chamber of the Lexington Avenue Line and in the Johnson Street ventilating chamber of the Clark Street tunnel, at a total cost of \$8,205.75.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 25, 1923, stating that the equipment is necessary and recom-

mending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment.

The following resolution was adopted:

Whereas, Pursuant to provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 Interborough Rapid Transit Company by communications dated April 16, 1923, has submitted for the approval of this Commission two proposed purchasing agent's orders both dated April 16, 1923, directed to American Blower Company for the manufacture and delivery in each case of

- 1—No. 12 double reversible inlet American Sirocco fans.
 - 2—50 H.P. 550/700 R.P.M. field controlled Sprague-G. E. 600 volts, D.C. motors.
 - 2—50 H.P. American High speed chain drives with casings.
- which proposed purchasing agent's orders have been caused to be designated as "Approval Nos. 471 and 472"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated April 25, 1923, reported that such Equipment is to be installed in the 131st Street fan chamber of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line and in the Johnson Street fan chamber of the Clark Street tunnel of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad as described in said Contract No. 3; that the total cost under both orders is \$8,205.75 which is reasonable; that the Equipment is necessary and is according to the latest engineering practice and recommend that the said proposed purchasing agent's orders so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated May 2, 1923, has recommended that said material be classified as Equipment of the Railroad as defined in said Contract No. 3.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's orders so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's orders, the cost of such Equipment to be classified as Equipment of the Railroad as defined in said Contract No. 3.

610—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Substitution of Certain Cars upon which Multiple Door Control Device is to be Installed—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Modification of Resolution Adopted on March 13, 1923—Modifying Resolution

An application was presented from the Interborough Rapid Transit Company dated April 19, 1923, advising that it had made a different selection of cars upon which multiple door control device is to be installed and requesting that the resolution adopted on March 13, 1923, be modified so as to provide for the substitution of car numbers.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 5, 1923, stating that the substitute cars are suitable for the installation of multiple door control and recommending that the resolution of March 13, 1923, be amended.

The following resolution was adopted:

Whereas, By resolution adopted March 13, 1923, this Commission pursuant to the certificate dated March 19, 1913, granted the Interborough Rapid Transit Company by the Public Service Commission for the First District, for certain elevated extensions and pursuant also to the provisions of a certain stipulation dated March 9, 1923, between the Interborough Rapid Transit Company and this Commission, this Commission ap-

proved the installation of a multiple door control (including car body changes) on certain elevated cars for use on the Manhattan Elevated Lines, specifically referring in said resolution in the fourth paragraph thereof to the particular cars upon which such device was to be installed; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that said Interborough Rapid Transit Company under date of April 19, 1923, advised that it had made a different selection of cars upon which said device was to be installed; that said substitute cars are suitable for said purpose and recommend that said resolution of March 13, 1923, be amended accordingly.

Resolved, That said report and recommendation be and the same hereby is approved; that the schedule made part of said fourth paragraph of said resolution of March 13, 1923, be and the same hereby is amended so as to read as follows:

Number of Cars	Name of Builder	Date Built	Car Nos.
<i>178 Motors for Western Division Service</i>			
119	Wason Mfg. Co.	1902-1903	172, 220, 221-227, 229-241, 1121-1129, 1131-1218
59	Wason Mfg. Co.	1903	1255-1291, 1293-1314
<i>97 Motors for Eastern Division Service</i>			
19	Barney & Smith	1910	1634-1652
18	Jewett Car Co.	1910	1654-1671
40	Jewett Car Co.	1911-12	1753-1792
20	Cincinnati Car Co.	1911	1793-1812
<i>190 Trailers for Eastern and Western Division Service</i>			
112	St. Louis Car Co.	1907-1908	1416-1458, 1460-1528
19	Wason Mfg. Co.	1909	1673-1685, 1687-1692
20	St. Louis Car Co.	1911	1693-1712
39	Wason Mfg. Co.	1911	1714-1752
	Total Motors		275
	Total trailers		190
	Total cars		465

Further Resolved, That said resolution except as herein amended, shall remain in all respects the same as adopted on March 13, 1923, aforesaid.

611—R. T. 6668, 6597

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Purchase of 25 Additional Automatic Low Type Turnstiles—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated April 6, 1923, requesting approval of the purchase of 25 additional standard automatic low type turnstiles under the purchasing agent's order directed to the Percy Machine Works, at a cost of \$6,250.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer dated April 19, 1923, stating that the machines are necessary and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work under Work Order Numbers heretofore assigned.

[May 8, 1923

The following resolution was adopted:

Whereas, By resolution adopted on October 3, 1922, this Commission approved, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, a proposed purchasing agent's order directed to Perey Machine Works for the manufacture and delivery of 100 electrically operated pre-payment coin boxes and passimeters; and

Whereas, This Commission, pursuant to the provisions of said Contract No. 4, has classified said work as Additional Equipment as defined in said contract and has heretofore assigned Work Order Numbers as follows:

For the Railroad.....MBA-14 and MBA-21
For the Existing Railroads.....MCA-23

; and

Whereas, By communication dated April 6, 1923, the General Manager for the Receiver of said New York Municipal Railway Corporation has requested the approval of this Commission to the purchase under said purchasing agent's order approved as aforesaid of 25 additional coin boxes and passimeters at a cost of \$6,250; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have reported that the machines are similar to those referred to in the purchasing agent's order approved by this Commission as aforesaid by resolution adopted October 3, 1922; that the additional machines are necessary for the installation of automatic control at various stations of the Railroad and Existing Railroads described in said Contract No. 4; that the price is reasonable and recommend that said proposal be approved; and

Whereas, By endorsement dated April 30, 1923, the Auditor of Rapid Transit Costs has recommended the classification under work order numbers heretofore assigned, as hereinbefore indicated,

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal of the Receiver of New York Municipal Railway Corporation to purchase said 25 additional standard automatic low type turnstiles, pursuant to the purchasing agent's order approved on October 3, 1922, be and the same hereby is approved.

612—R. T. 6779, 7659

Contract No. 1—Communication from Police Commissioner Requesting Removal of Kiosks on Broadway at North Side of Columbus Circle and at South Side of 72d Street—Referred to Commissioner O'Ryan

The following communication from the Police Commissioner was referred to Commissioner O'Ryan:

May 1st, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

It is respectfully asked that you cause the necessary action to be taken at this time for the removal of the subway kiosks located in the centre of the roadway at the following points in the Borough of Manhattan:

Broadway at north side of Columbus Circle.
Broadway at south side of 72nd Street.

These kiosks constitute a menace to the safety of pedestrians, as well as to the occupants and drivers of vehicles, and their removal is considered essential to the betterment of roadway conditions at the congested locations where they are now maintained.

Thanking you for favorable action in the matter, I am,

Very truly yours,

R. E. ENRIGHT,
Police Commissioner.

613—R. T. 6595

Contract No. 4—Statement from New York Consolidated Railroad Company of Results of Operation for Month of March, 1923, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

A communication dated May 7, 1923, from the New York Consolidated Railroad Company, by Howard Abel, Comptroller for Lindley M. Garrison, Receiver, submitting statements of Results of Operation for the month of March, 1923, for the period from August 4, 1913 to March 31, 1923, and the status of the Maintenance and Depreciation Funds, under Contract No. 4, was referred to the Chief Accountant.

614—Case 1505

New York Consolidated Railroad Company and Lindley M. Garrison, Receiver—Destination Signs in Cars of Elevated Trains—Extension Order Adopted

The Secretary presented a communication, dated May 5, 1923, from M. B. Hoffman, for Lindley M. Garrison, Receiver for the New York Consolidated Railroad Company and the New York Consolidated Railroad Company, by J. H. Bennington, Secretary, requesting an extension of time to May 15, 1923, within which to notify the Commission if the amendatory order in Case No. 1505, adopted May 1, 1923, amending previous orders therein relative to the requirement of destination signs on cars operated by the company was accepted and would be obeyed.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 1505, granting the desired extension of time to May 15, 1923.

615—S. P. 746

Union Railway Company of New York City—Application for Permission to Put Into Effect on Short Notice New Schedule Providing for Extension of Tremont Avenue Line and Discontinuance of Fort Schuyler Line—Special Permission No. 746 Approved

The Secretary presented a communication, dated May 7, 1923, from Union Railway Company of New York City by Garrow T. Gear, Secretary, requesting permission to put into effect on three days notice Revised Tariff Sheets providing for the extension of its Tremont Avenue Line from Westchester Avenue to Eastern Boulevard over the tracks of its Fort Schuyler Line, and the discontinuance of its Fort Schuyler Line. The Secretary also presented his report, dated May 8, 1923, advising that the proposed revised tariff sheets provide the same transfer privileges accorded the public under present operation and recommending the granting of the application.

Thereupon the Commission approved and ordered filed Special Permission No. 746, granting the permission requested and providing that same take effect nunc pro tunc as of May 2, 1923.

616

Eighth Avenue Railroad Company—The Ninth Avenue Railroad Company—Contracts with New York City Car Advertising Company for Advertising Privileges—Filed

The Secretary presented two contracts entered into between the Eighth Avenue Railroad Company and The Ninth Avenue Railroad Company respectively, dated

November 1, 1919, with the New York City Car Advertising Company, providing for certain advertising privileges for a term of ten years beginning November 1, 1919, and ending October 31, 1929.

Thereupon, the Commission ordered the above mentioned papers filed.

Order No. 22—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Railway Switch & Crossing Corporation for Supply of Special Work and Authorizing Appropriation of \$28,000—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 27, 1923, was ordered filed:

(Cal. No. 55)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 3, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with the Railway Switch & Crossing Corporation for the supply

of special work and track fittings (Order No. 22) for use in the construction of various parts of the dual system of the Municipal Rapid Transit Railroads at an estimated cost of twenty-eight thousand dollars (\$28,000); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-eight thousand dollars (\$28,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty-eight thousand dollars (\$28,000) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purpose of said contract; said issue of corporate stock to be charged, to the extent of twenty-four thousand four hundred dollars (\$24,400), as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriation subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to the extent of three thousand six hundred dollars (\$3,600), as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriation subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 27, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated May 8, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

624—R. T. 7640

Order No. 8—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Alfred R. Sax Lumber Company for Supply of Ties and Timber and Authorizing Appropriation of \$20,000—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 27, 1923, was ordered filed:

(Cal. No. 56)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 3, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with Alfred R. Sax Lumber Company for the supply of ties and timber (Order No. 8) for use in the construction of rapid transit railroads, at an estimated cost of twenty thousand dollars (\$20,000); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty thousand dollars (\$20,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty thousand dollars (\$20,000), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged, to the extent of ten thousand five hundred dollars (\$10,500), as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made

by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to the extent of nine thousand five hundred dollars (\$9,500), as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 27, 1923.

JAMES MATTHEWS,
Assistant Secretary.

625—R. T. 7642

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Fox-Reynolds Company, Inc., for Excavation and Construction of Retaining Wall at Lenox Avenue Yard and Authorizing Appropriation of \$79,781.50—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 27, 1923, was ordered filed:

(Cal. No. 57)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 3, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with Fox, Reynolds Company, Inc., for the excavation and the construction of a retaining wall at the Lenox Avenue Yard, 7th avenue, between 148th and 150th streets, Borough of Manhattan, at an estimated cost of seventy-nine thousand seven hundred and eighty-one dollars and fifty cents (\$79,781.50); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be seventy-nine thousand seven hundred and eighty-one dollars and fifty cents (\$79,781.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding seventy-nine thousand seven hundred and eighty-one dollars and fifty cents (\$79,781.50), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purpose of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

Routes Nos. 4 & 38, Section No. 6—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Additional Appropriation of \$162.50 for Extensions to Express Platform of Pennsylvania Station—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 27, 1923, was ordered filed:

(Cal. No. 58)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 10, 1923, the Board of Estimate and Apportionment does hereby consent to an appropriation to provide for the additional cost of constructing platform extensions at the northerly end of the express platform of the Pennsylvania Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line, as addition to construction under Contract No. 3; at an estimated cost to The City of New York of one hundred and sixty-two dollars and fifty cents (\$162.50), being one-half of the total estimated cost of three hundred and twenty-five dollars (\$325); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one hundred and sixty-two dollars and fifty cents (\$162.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one hundred and sixty-two dollars and fifty cents (\$162.50), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied in addition to the amount heretofore appropriated to the purposes of said work; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

Expenses—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$200,000 as Part of Expenses for Year Ending December 31, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on April 27, 1923, was ordered filed:

(Cal. No. 54)

Resolved, That the Board of Estimate and Apportionment, in accordance with the requisition of the Transit Commission, dated December 7, 1922, and pursuant to the provisions of chapter 134 of the Laws of 1921, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby authorizes an appropriation in the sum of two hundred thousand dollars (\$200,000), in addition to the amount heretofore appropriated, to properly enable the Transit Commission to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by the said law; and the Comptroller is hereby authorized, pursuant to law and the said requisition of the Transit Commission, to issue special revenue bonds of The City of New York to an amount not exceeding two hundred thousand dollars (\$200,000), redeemable from the tax levy of the year next succeeding the year of their issue, the proceeds to be used for the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, April 27, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Employees' Resolution No. 141

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII: 4—Louis H. Chouinard, junior assistant, at \$125.08 per month, to take effect May 14, 1923; William D. O'Driscoll, junior assistant, at \$125.08 per month, to take effect May 1, 1923; Jacob Simon, junior assistant, at \$125.08 per month, to take effect May 7, 1923; Georges Van der Bonn, draftsman, at \$150.08 per month, to take effect May 2, 1923.

Reinstatement under Rule XVI: 1—George Jacknowitz, junior assistant, at \$100.08 per month, to take effect May 7, 1923.

Rescission of Termination of Appointment under Rule VIII: 4—Fred Adinolfi, architectural draftsman, at \$150.08 per month, to take effect April 17, 1923.

Rescission of Appointment—Fred Adinolfi, architectural draftsman, at \$150.08 per month, to take effect March 19, 1923.

Resignations—George A. Coy, draftsman, at \$150.08 per month, to take effect April 24, 1923; William R. Crittenden, junior assistant, at \$125.08 per month, to take effect April 30, 1923; Percival P. Little, junior assistant, at \$152.50 per month, to take effect May 8, 1923; Oscar Reicher, junior engineer, at \$180.08 per month, to take effect May 9, 1923.

Promotion—Harry R. Gingher, inspector of steel, from \$200 to \$210 per month, to take effect May 7, 1923.

Change of Item in Resolution of May 1, 1923, Concerning Louis Seufert, so as to Read as Follows: (Appointment under Rule VIII: 4)—Louis Seufert, architectural draftsman, at \$150.08 per month, to take effect April 30, 1923.

Change of Item in Resolution of April 18, 1923, Concerning Samuel A. Pickoff, so as to Read as Follows: (Appointment under Rule VIII: 4)—Samuel A. Pickoff, draftsman, at \$150.08 per month, to take effect May 8, 1923.

Leaves of Absence with Pay—Charles Feddern, draftsman, from March 27, 1923, to April 9, 1923; Percy E. Lyon, assistant engineer, from April 9, 1923, to April 22, 1923; Viola V. Moran, junior statistical clerk, from April 25, 1923, to April 30, 1923; O. W. Schmidt, junior electrical engineer, from April 11, 1923, to April 24, 1923; Gussie Siebel, clerk, from May 16, 1923, to May 31, 1923; from June 16, 1923, to June 30, 1923; from July 16, 1923, to July 31, 1923.

Leaves of Absence without Pay—Gussie Siebel, clerk, from May 6, 1923, to May 15, 1923; from June 1, 1923, to June 15, 1923; from July 1, 1923, to July 15, 1923; Paul Solomon, junior assistant, from April 1, 1923, to April 24, 1923; Gussie Siebel, clerk, from August 1, 1923, to August 5, 1923.

Employees' Calendar No. 142

On motion duly seconded and unanimously adopted, the following communication to the Board of Estimate and Apportionment was approved:

"Rollin B. Vose, engineering inspector in this department and with service dating back to April 7, 1902, is a member of the New York City Employees' Retirement System, Registration No. 8997, and will become seventy years of age on July 17, 1923 on which date he would, in due course automatically be retired. Pursuant to the provisions of Chapter 69 of the Laws of 1923, he now requests that the period of such retirement be deferred for two years, or to July 17, 1925 and, deeming it to the public interest that Mr. Vose, who is physically fit for the satisfactory performance of his duties as engineering inspector and not in any way incapacitated, be so continued on active service, the Commission approves such application and requests that he be so continued for the two year period referred to."

Voucher Schedule No. 19

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted to the Comptroller of The City of New York for payment:

Vouchers Nos. 456-479, open market orders, \$3,526.82; Vouchers Nos. 242-264, miscellaneous bills, \$3,412.42.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Railroads for the Periods Indicated Below:

Voucher No. 106, Lindley M. Garrison, Receiver, New York Municipal Railway Corporation; approximate estimate No. 1 for lengthening platforms at the Canal Street station of the Broadway-Fourth Avenue Line, to March 31, 1923 (R. T. 7431) \$3,639.01;

Voucher No. 107, Michael Del Balso; approximate No. 4, for the installation of tracks, including the furnishing of part of the track materials, etc., Route 18, 239th Street Yard, from April 1, 1923 to April 30, 1923 (R. T. 7528) \$13,823.52;

Voucher No. 108; T. H. Reynolds Contracting Co., Inc., approximate estimate No. 5, for the installation of tracks, Sections Nos. 1-5, Route No. 8, from April 1, 1923 to April 30, 1923 (R. T. 7536) \$12,815.82;

Voucher No. 109; Frederick L. Cranford, Inc., approximate estimate No. 10 for the reconstruction of a part of Section No. 3 of Route No. 33, Lawrence Street station, from April 1, 1923, to April 30, 1923 (R. T. 7454) \$5,908.15;

Voucher No. 110; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 8 for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard, from April 1, 1923 to April 30, 1923 (R. T. 7457) \$20,081.72.

JAMES B. WALKER,
Secretary.

Route No. 70-A—Resolution Adopting Route and General Plan for Jackson Avenue, Newtown Creek and Manhattan Avenue Route—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

JACKSON AVENUE, NEWTOWN CREEK AND MANHATTAN AVENUE ROUTE.
(Route No. 70-A)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation

and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Boroughs of Queens and Brooklyn, the center line of which shall begin at a point in the Borough of Queens at the Plaza of the Queensboro Bridge at or near Jackson Avenue; thence curving southwesterly as an elevated railroad to a point in Jackson Avenue south of Queensboro Plaza; thence curving and extending still as an elevated railroad southwesterly along and over Jackson Avenue and private property to a point in Henry Street, west of Jackson Avenue; thence southwesterly over and across Henry Street, where the line begins to depress under ground; thence southwesterly along and over private property, Harris Avenue and private property as a viaduct or embankment and open cut structure to a point at or near Nott Avenue, where the line becomes a subway or tunnel; thence continuing southwesterly as a subway or tunnel across and under Nott Avenue to Jackson Avenue; thence along and under Jackson Avenue to a point at or near Vernon Avenue; thence southerly along and under Vernon Avenue to Newtown Creek; thence under Newtown Creek to Manhattan Avenue in the Borough of Brooklyn; thence southerly along and under Manhattan Avenue to a point at or near Clay Street where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by the special necessities of surface or sub-surface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks of the route from the point of beginning of the route at the Queensboro Plaza, where a connection may be made with the existing rapid transit railroads, to a point at or near Henry Street where the route will begin to depress under the ground shall be carried upon a viaduct or an elevated structure; the tracks from said point and extending thence southerly along and across private property, Harris Avenue and private property, to a point in Nott Avenue west of Jackson Avenue, where the route will become a subway or tunnel, shall be partly upon a viaduct or an embankment and partly in open-cut subway or tunnel; the tracks from said point shall continue in subway or tunnel to the end of the route.

The tracks shall be placed in general under or over the central part of the street so far as may be practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches and, if necessary, for the purpose of tunneling by the shield method, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require, but no part of the viaduct structure shall be within a distance of five (5) feet of the exterior lines or sides of any street along the route except at stations, station approaches, curves or at other points where special construction shall so require.

Where the tracks change from viaduct to tunnel the change shall be so made as to involve the use of the street surface to the least extent consistent with the proper gradient for the tracks.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the

clear, unless it shall be necessary to tunnel by the shield method, in which event the tracks may be placed in tubes which shall not exceed twenty (20) feet outside diameter; except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear or such diameter may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, unless it shall be necessary to tunnel by the shield method, in which event the tracks may be placed in tubes not exceeding twenty (20) feet outside diameter, as aforesaid; except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width or diameter may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

Viaducts shall be built with a width of not exceeding thirteen (13) feet for each track, and with an additional width of not exceeding three (3) feet on each side for outside footways, except that at stations, station approaches, switches, turnouts, curves and crossovers and at other points where special or local necessities or conditions or special construction shall so require, such width may be increased so far as necessary. The transverse girders may be extended and the supporting columns placed over such part of the streets or avenues of the route as may be necessary. Viaducts shall be built of metal or of masonry or of both.

The tracks on the elevated portion of the route, wherever constructed within a street, shall rest upon longitudinal and transverse girders supported by columns constructed at suitable intervals; but no portion of the said girders shall approach nearer than fourteen (14) feet to the surface of the roadway of the street, except that at stations and at other points where special or local necessities or conditions may exist, the bottom of the said girders may be not less than twelve (12) feet above the surface of the roadway.

The embankment and open-cut portion of the route shall be of masonry and steel or brick or fill, or such other construction as may be necessary, and this portion shall be built with a width of not exceeding thirteen (13) feet for each track in addition to the thickness of the necessary retaining walls and other special construction, excepting only that at curves or at other points where special or local necessities or conditions may require, such width may be increased so far as necessary.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railway.

Station and station entrances and exits may be built under or over the streets or through private property to be acquired for the purpose or both under or over streets and through private property as aforesaid. The streets under or over which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes,

wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction of the underground portions of the route shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels or upon the elevated structure or viaduct, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It is Further Resolved, That the map or drawing entitled "State of New York Transit Commission, Engineering Department, Route and General Plan, Route No. 70-A, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Boroughs of Queens and Brooklyn," dated May 12, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

May 15th, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under and in accordance with the provisions of the Rapid Transit Act (Chapter 4 of the Laws of 1891 as amended) the Transit Commission submits herewith for the approval of your Honorable Board and the approval of the Mayor of the City, a certified copy of a resolution adopted by it on May 15th, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad to be known as the Jackson Avenue, Newtown Creek and Manhattan Avenue Route (Route No. 70-A).

This route begins at a point in the Borough of Queens, at the Plaza of the Queensboro Bridge at or near Jackson Avenue, and extends thence southwesterly and southerly over, along and under Jackson Avenue, private property, Jackson Avenue, Vernon Avenue, Newtown Creek and Manhattan Avenue, in the Borough of Brooklyn, to a point at or near Clay Street, where a connection can conveniently be made with other proposed rapid transit railroads.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

Attest:

JAMES B. WALKER,
Secretary.

636—R. T. 7591

Route No. 70-B—Resolution Adopting Route and General Plan for Manhattan Avenue, Roebling Street and Bedford Avenue Route—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

MANHATTAN AVENUE, ROEBLING STREET AND BEDFORD AVENUE ROUTE.

Borough of Brooklyn.

(Route No. 70-B.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Brooklyn, the center line of which shall begin at a point in Manhattan Avenue at or near Clay Street; thence extending southerly as a subway or tunnel along and under Manhattan Avenue to a point at or near Driggs Avenue; thence curving southwesterly across and under McCarren Park to a point in Roebling Street at or near Union Avenue; thence extending southwesterly, along and under Roebling Street to a point at or near North 4th Street; thence across and under North 4th Street, Metropolitan Avenue and private property to a point in Roebling Street at or near Hope Street; thence continuing southerly along and under Roebling Street to a point at or near the Williamsburg Bridge Plaza; thence along and under the Williamsburg Bridge Plaza to a point in Roebling Street at or near Broadway; thence along and under Roebling Street to a point at or near Lee Avenue; thence southeasterly crossing along and under private property, Wilson Street, private property, Ross Street, private property, Rodney Street and private property to a point in Bedford Avenue at or near Keap Street; thence southeasterly along and under Bedford Avenue to a point at or near Halsey Street, where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other, and substantially on the same level except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within the street limits. Where the route changes direction, private property will be required as indicated in the foregoing descriptions.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or

other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAPS OR DRAWINGS

It is Further Resolved, That the four (4) maps or drawings entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 70-B, Manhattan Avenue, Roebling Street and Bedford Avenue Route, Borough of Brooklyn," and further marked "Key Map," and "Sheet No. 1," "Sheet No. 2," and "Sheet No. 3," respectively, all dated May 12, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby are adopted as showing the foregoing route and general plan for convenience merely and that said maps or drawings are not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

May 15, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on May 15th, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Brooklyn, City of New York, to be known as Manhattan Avenue, Roebling Street and Bedford Avenue Route (Route No. 70-B).

This route begins at a point in Manhattan Avenue at or near Clay Street, and extends thence southerly along and under Manhattan Avenue, McCarren Park, Roebling Street, private property, Roebling Street, Williamsburg Bridge Plaza, Roebling Street, private property, and Bedford Avenue to a point in Bedford Avenue at or near Halsey Street.

TRANSIT COMMISSION,

Route No. 70-C—Resolution Adopting Route and General Plan for Bedford Avenue, Fulton Street and Livingston Street Route—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

BEDFORD AVENUE, FULTON STREET AND LIVINGSTON STREET ROUTE.
Borough of Brooklyn.
(Route No. 70-C.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an

additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Brooklyn, the center line of which shall begin at a point in Bedford Avenue, at or near Hancock Street where a connection can conveniently be made with other proposed rapid transit railroads; thence curving southwesterly as a subway or tunnel under and across private property, Spencer Place and private property to a point in Fulton Street at or near Franklin Avenue; thence extending westerly and northwesterly under and along Fulton Street to a point at or near Fort Greene Place and Lafayette Avenue; thence curving westerly along and under Lafayette Avenue to a point in Lafayette Avenue at or near Ashland Place; thence extending across and under private property, Rockwell Place private property and Flatbush Avenue to a point in Livingston Street at or near Flatbush Avenue; thence northwesterly, along and under Livingston Street to a point in Livingston Street about 300 feet west of Flatbush Avenue, where a connection can conveniently be made with other proposed rapid transit railroads.

Also a branch beginning at a point under Fulton Street at or near Ft. Greene Place to connect with the existing Fourth Avenue Rapid Transit Railroad at or near Ashland Place. Two tracks of this branch shall continue under and along Fulton Street to a point in Fulton Street at or near Ashland Place, and a third track shall run under and along Lafayette Avenue, and under and across private property, Ashland Place and private property, to a point in Fulton Street at or near Rockwell Place.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire main route there shall be three (3) tracks. For the branch or spur there shall be three (3) tracks throughout.

The tracks shall be substantially parallel with each other, and on substantially the same level, except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within the street limits. Where the route changes direction, private property will be required as indicated in the foregoing descriptions.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each

track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair, or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "an Act to provide for rapid transit railroads in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It is Further Resolved, that the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 70-C, Bedford Avenue, Fulton Street and Livingston Street Route, Borough of Brooklyn," dated May 12, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

[May 15, 1923]

The communication to the Board of Estimate and Apportionment was as follows:

May 15, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on May 15, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Brooklyn, City of New York, to be known as Bedford Avenue, Fulton Street and Livingston Street Route (Route No. 70-C).

This route begins at a point in Bedford Avenue at or near Hancock Street, and extends thence southwesterly under and across private property, Spencer Place and private property to a point in Fulton Street at or near Franklin Avenue; thence westerly and northwesterly along and under Fulton Street to a point at or near Fort Greene Place and Lafayette Avenue; thence along, across and under Lafayette Avenue, private property, intervening streets and Livingston Street to a point about 300 feet west of Flatbush Avenue.

Also a branch beginning at a point under Fulton Street at or near Fort Greene Place to connect with the existing Fourth Avenue Rapid Transit Railroad at or near Ashland Place. Two tracks of this branch shall continue under and along Fulton Street to a point in Fulton Street at or near Ashland Place; and a third track shall run under and along Lafayette Avenue, and under and across private property, Ashland Place and private property, to a point in Fulton Street at or near Rockwell Place.

638—R. T. 7591

Route No. 70-D—Resolution Adopting Route and General Plan for Bedford Avenue Brighton Beach Railway Connection—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

BEDFORD AVENUE-BRIGHTON BEACH RAILWAY CONNECTION
(Route No. 70-D.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination.

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Brooklyn, the center line of which shall begin at a point in Bedford Avenue at or near Hancock Street where a connec-

tion can conveniently be made with other proposed rapid transit railroads; thence curving southerly and extending under and across private property, Fulton Street, private property, Brevoort Place, private property, Franklin Avenue, private property and Atlantic Avenue to the right of way of the Brighton Beach railway of the New York Consolidated Railroad Company; and under the said right of way and intervening streets to a point in the said right of way at or near Eastern Parkway, where a connection can conveniently be made with the existing rapid transit railroad.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire main route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or subsurface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel from the beginning of the route to a point at or near Park Place where it becomes open cut. From this point to the end of the route the tracks shall be in open cut structure.

The tracks shall be placed in general under the central part of the streets or right of way so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or right of way or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel on masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The open-cut portion of the route shall be of masonry and steel or brick or fill, or such other construction as may be necessary, and this portion shall be built with a width of not exceeding thirteen (13) feet for each track in addition to the thickness of the necessary retaining walls and other special construction, excepting only that at curves or at other points where special or local necessities or conditions may require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel or open cut structure, or there may be separate tunnels or open cut structure for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railroad.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting building at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OF DRAWING

It is Further Resolved, That the map or drawing entitled "State of New York Transit Commission, Engineering Department, Route and General Plan, Route No. 70-D, Bedford Avenue-Brighton Beach Railway Connection, Borough of Brooklyn," dated May 12, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

May 15, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on May 15, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Brooklyn, City of New York, to be known as Bedford Avenue-Brighton Beach Railway Connection (Route No. 70-D).

This route begins at a point at or near the intersection of Bedford Avenue and Hancock Street, in the Borough of Brooklyn, where a connection can conveniently be made with other proposed rapid transit railroads and extends thence southerly under and across private property, Fulton Street, private property, Brevoort Place,

private property, Franklin Avenue, private property and Atlantic Avenue to the right of way of the Brighton Beach railway of the New York Consolidated Railroad Company; and under the said right of way and intervening streets to a point at near Eastern Parkway, where a connection can conveniently be made with the existing rapid transit railroad.

TRANSIT COMMISSION,

By GEORGE McANENY,
Chairman.

Attest:

JAMES B. WALKER,
Secretary.

639—R. T. 7660

Route No. 78—Resolution Adopting Route and General Plan for Central Park West, Manhattan Avenue and St. Nicholas Avenue Route—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

CENTRAL PARK WEST, MANHATTAN AVENUE AND ST. NICHOLAS AVENUE ROUTE.
(Route No. 78.)

Whereas, The Transit Commission has determined that a rapid transit* railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, this Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point in Seventh Avenue at or near West 59th Street where a connection can conveniently be made with the existing rapid transit railroad; thence curving northwesterly and extending across and under West 59th Street and Central Park as a subway or tunnel to a point in Central Park West at or near West 64th Street; thence extending northerly along and under Central Park West to a point in Central Park West at or near West 109th Street; thence curving northwesterly across and under private property, West 110th Street and private property to a point in Manhattan Avenue at or about West 111th Street; thence extending northerly under and along Manhattan Avenue to West 124th Street and St. Nicholas Avenue and thence extending northerly under and along St. Nicholas Avenue to a point at or near West 162nd Street, where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For that part of route extending from 7th Avenue and West 59th Street to Central Park West and West 64th Street there shall be two (2) tracks. For the remainder of the route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or subsurface structures or other special or local necessities, and at curves and for the purpose of

avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads (and excepting also that along Central Park West, the structure may be constructed as a double-deck structure, for a part or the whole of the distance with two tracks above and two tracks below) any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of roadway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission, in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAPS OR DRAWINGS

It is Further Resolved, That the five (5) maps or drawings entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 78, Central Park West, Manhattan Avenue and St. Nicholas Avenue Route, Borough of Manhattan," and further marked "Key Map," and "Sheet No. 1," "Sheet No. 2," "Sheet No. 3," and "Sheet No. 4," respectively, all dated May 14, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby are adopted as showing the foregoing route and general plan for convenience merely and that said maps or drawings are not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

May 15, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on May 15, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as Central Park West, Manhattan Avenue and St. Nicholas Avenue Route (Route No. 78).

This route begins at a point at or near the intersection of Seventh Avenue and West 59th Street, in the Borough of Manhattan, where a connection can conveniently be made with the existing rapid transit railroad and extends thence across and under West 59th Street and the southwesterly corner of Central Park to Central Park West and 64th Street, thence extending northerly along and under Central Park West to West 110th Street; thence through West 110th Street to Manhattan Avenue; thence extending northerly along and under Manhattan Avenue and St. Nicholas Avenue to West 162d Street, where a connection can conveniently be made with other proposed rapid transit railroads.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

Attest:
JAMES B. WALKER,
Secretary.

640—R. T. 6610, 6950

Rapid Transit Railroads—Communication to Board of Estimate and Apportionment as to Need of Definite Program for Subway Construction and Offering to Cooperate on Plans for Future Routes—Approved

The following communication was approved:

May 15, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The need for agreement upon a definite and immediate program of subway construction is more pressingly urgent than ever. The new lines provided under the building program of 1913, nearly all of which have been completed are already saturated with traffic. Their present insufficiency is so much a matter of common knowledge, and the inconvenience and suffering of the passengers travelling in the rush hours are so acute and patent that neither argument nor proof need be offered upon this point. Whatever relief may be secured through the better equipment and closer operation of any of the existing lines, when that is possible, or through the extension of purely street surface facilities, will be quickly absorbed by the never ceasing growth in traffic. The present figures show that on the average 4,000 passengers are carried each day in excess of the number carried the day before, representing a growth of over 100,000,000 a year. The only effective way in which real and lasting relief may be given, and proper provision made for the future must come from the immediate and continuous building of new subways. To build a subway railroad takes nearly five years from the time the plans are initiated until the road is ready for operation. Conditions are acute now. It is staggering to consider what they will be five years from now.

Your Board during two years past has declined to approve or to advance any of the measures presented by the Transit Commission looking toward the initiation of new work. For five years, in fact, no start has been made on any measure of new work, with the single exception of the two mile extension of the Corona Route to Flushing.

In view of the increasing emergency, and of the joint responsibility of the state and city—which means the joint responsibility of the Transit Commission and the Board of Estimate—a responsibility that has existed for some time past, and is beyond the possibility of either body to alter at the present time, we urge that the way should now be cleared for joint constructive action. It is the earnest desire of the Transit Commission to secure such action, and the Commission, therefore, repeats the offers it has made in the past to co-operate with your honorable body to the fullest degree, and in the most cordial spirit.

PROGRAM OUTLINED

In May a year ago the Commission submitted to your Board a program of construction looking five years ahead, prepared by the same body of engineers under whose direction plans for the existing subways were made, and calling for a total expenditure of approximately \$225,000,000. The lines included in this program, each of which links with recapturable parts of the existing subway system, and each of which would give a material extension of service for the present five-cent fare and without additional charges, are as follows:

- (1) The Flushing extension.
- (2) An extension of the subway across 42nd Street, Manhattan, so as to connect with each of the present north and south subway lines and do away with the present shuttle service.
- (3) A line to Staten Island.
- (4) An extension of the present Fourth Avenue Subway in Brooklyn, from Eighty-sixth Street to Ninety-fifth Street, either independently or as part of the Staten Island Line.
- (5) The extension of the Broadway-Seventh Avenue Line from 59th Street, Manhattan, to Washington Heights.
- (6) The Brooklyn Crosstown Line from the Queensboro Plaza, to a point of connection with the Brighton Beach Line at or near Franklin Avenue and Fulton Street, Brooklyn.

- (7) A new subway and East River tunnel to connect the Fulton Street Elevated Line, Brooklyn, with the Broadway-Fourth Avenue Line at City Hall Station, Manhattan.
- (8) The completion of the Nassau Street Line in Manhattan as a part of a new loop to Brooklyn; and
- (9) A new trunk line to run from downtown Manhattan to Washington Heights following in the main Eighth and Amsterdam Avenues.

These lines, as we have stated, have been planned as the next logical extensions of the existing system, and as those best calculated, in the judgment of the engineers, to furnish the most substantial relief.

In September last, however, in a statement presented to the Board of Estimate, the Mayor proposed a five year program based upon a different arrangement of lines. Some of these were wholly feasible, though others appeared to be at variance with important engineering principles which the Commission, in proceeding with any plan of construction, would be obliged to regard. These proposals of the Mayor have not been presented to the Commission, and have not, therefore, as yet been the subject of conference or of joint consideration. The Commission, however, has at all times been prepared to give them its careful attention, and with whatever modification may have since been proposed, will gladly take them up in conference now if your Board so desires. It is prepared to accept any change in its own program that such examination may suggest, subject only to the basic principles:—

- (1) That each projected new line shall link with other existing lines as part of an operable system, thus extending and not restricting the length of ride and the number of transfers to be had for a single five cent fare; and
- (2) That in the layout of routes and in the arrangement of trackage facilities necessary engineering and operating requirements for the arrangement of central trunk lines, and for the outlying branches feeding into them, shall be properly regarded.

COORDINATION OF PROJECTS

In the Mayor's statement of last September five projects appear that agree, or can be made to agree, with similar projects in the Commission's plan. They are:

- (1) Extension from Corona to Flushing.
- (2) Extension of Fourth Avenue Subway in Brooklyn from 86th to 95th Streets.
- (3) Nassau Street line in Manhattan.
- (4) Crosstown Line in Brooklyn and Queens.
- (5) The extension of the Broadway Subway in Manhattan North from Seventh Avenue and 59th Street to Washington Heights.

The status of those projects is:

Within the year, the plans and designs for the extension of the Corona route to Flushing have been completed, contracts in part let, and work upon the subway section of this route actively commenced. The completed work will cost \$3,500,000.

Plans have been completed for the Bay Ridge extension from 86th to 95th Streets, in Brooklyn, and a contract for the entire length of this line let in December last. As your honorable board did not act upon this contract, the contractor withdrew his bid in March. If, however, it is your present desire that this extension go forward, the Commission is in a position to advertise without delay for new bids upon the present plans, and to start this work within the summer. The cost will be approximately \$1,850,000.

Plans for the first section of the Nassau Street Line have been completed and the advertisements for bids upon this are now running. The second Nassau Street section will be ready for advertisement the latter part of July. With prompt action this work, also, can be started during the summer. The cost of the entire Nassau Street route will be \$9,000,000.

The Transit Commission now asks that your Board take the necessary concurrent action to start two others of the projected lines; namely, the Crosstown Subway and the Washington Heights Extension, which are far more important in scope. In preparing these routes and general plans the Commission has revised its former plans so as to conform them substantially to those suggested by the Mayor. The detailed construction plans for these are still to be prepared, but cannot go forward until the routes themselves have had your formal approval.

BROOKLYN CROSSTOWN ROUTE

The plan for the Brooklyn Crosstown Line, as readopted, divides this line into four separate routes. One of these, the main route proceeding from Newtown Creek southerly to Fulton Street, Brooklyn, has been revised to agree with the corresponding route in the Mayor's plan. The route from Newtown Creek north to Queensboro Plaza is substantially identical, except that under the Commission's plan this will connect with both the Interborough and B. R. T. lines to Manhattan and to Corona and Astoria at the Plaza, and that the Mayor's plan for new construction does not go farther north than the Interborough Steinway Tunnel Line. The route the Commission now proposes from the intersection of Bedford Avenue and Fulton Street, South along Fulton Street to the present Fourth Avenue Subway at Ashland Place, will incidentally permit the eventual removal of the elevated tracks in Fulton Street and the construction of the badly needed "Ashland Place Connection."

The fourth route connects the Bedford Avenue and Fulton Street intersection to the south with the Brighton Beach Line, and would be serviceable for this purpose either now or at any future time if the Brighton Beach Line be excluded from the unified Brooklyn system and a new city line built to parallel it to Coney Island.

These routes are so adopted that the main route, which agrees with the Mayor's plan, can be approved at once leaving, if your board so desires, the approval of the connections for further consideration and discussion.

The cost of the Brooklyn Crosstown Line as herein presented would be \$68,000,000 if four tracks are laid throughout,—excepting on Fulton Street, where three would suffice,—or \$40,000,000 if two track construction is used throughout.

WASHINGTON HEIGHTS EXTENSION

The Commission's plan for the extension of the Broadway Subway from Seventh Avenue and 59th Street to Washington Heights as originally drawn and subsequently modified, included a turn under the angle of Central Park from 59th Street to 61st Street, thence up Central Park West and Seventh Avenue to St. Nicholas Avenue and thence to 162nd Street at Amsterdam Avenue. This extension was proposed as a two track line. The Mayor's corresponding plan carried a line up Central Park West to 72nd Street and thence into Amsterdam Avenue and north to the Heights. The Mayor's plan, however, has, we understand, been modified within the past several weeks. The route now drawn and to be submitted to your Board is a composite of the Commission's original plan and the Mayor's present plan, with which it may now be said to be identical. As submitted to you, it will run north on Central Park West from 61st or 64th Streets to 110th Street, and from that point follow Manhattan and St. Nicholas Avenues to West 162nd Street. It would carry two tracks on Central Park West, but makes provision for four tracks north of an appropriate point, two of which eventually would connect either with the Commission's proposed Eighth Avenue Line or with some analogous line from Washington Heights south, still to be agreed upon. The cost of the extension now proposed would be approximately \$45,000,000.

A new trunk line of enormous capacity from downtown to Washington Heights, running the full length of Manhattan, and serving various crosstown feeders, will remain an imperative necessity. That, in the judgment of the Commission, should proceed along Eighth and Amsterdam Avenues, and the modified plan for the Broadway-Washington Heights extension now submitted would not interfere with it.

The need for additional rapid transit facilities in the Borough of Queens is also very pressing, although in the judgment of the Commission not as acute as in Manhattan and Brooklyn. For this reason the Crosstown Subway and the Washington Heights Extension are given the right of way. The Commission's engineers are working on studies for a new rapid transit system in Queens, and the Commission expects to be able to transmit a proper route or routes therefor to your Board in the near future.

The description of the two routes now submitted, together with the plans of construction and other information, will be given in greater detail in the supplementary communications to follow.

NEW ROUTES APPROVED

The Commission, at a meeting held today, approved the layout covering the two routes aforesaid, and these will be forwarded tomorrow for the formal approval of your Board. The approval required at this stage, covers, of course, the choice of routes only, and does not involve any immediate appropriation of funds. It must be borne in mind, however, that the securing of consents of abutting property owners in each

case, in the manner required by law, will take some length of time; and, further, that the mere preparation of working plans for subways of these dimensions will consume from six months to a year. If, therefore, a start be made the present month upon the preliminaries incidental to either of these routes it will, nevertheless, be between next January and a year from the coming July before contracts can be let for either, and digging begun.

The five definite projects herein specifically referred to will cost, in all, for construction from \$100,000,000 to \$125,000,000, according to trackage allowances, and this undoubtedly would exhaust the full amount of funds the city will have available for subway purposes for a year ahead. The matter of the provision of funds whenever considered should in no degree interfere, for during the progress of any incidental discussion the engineers will be at work. In the meantime the preliminary approvals, as well as the preparation of working plans, should, for obvious reasons, be hastened to the utmost.

Questions of future operation, also, need cause no delay, as each of the lines now put forward will fit naturally in any operating system of the future, whether as extensions under existing operating contracts, or under direct municipal authority, or otherwise.

The Commission again urges that, in view of the extreme public need, the start upon substantial subway building as herein proposed be made with all speed. It again suggests that whatever differences of view may remain respecting other routes included in the five year program, or the engineering details of such routes, be taken up frankly and as promptly as your Board may desire, in conference.

Very respectfully,

TRANSIT COMMISSION,
GEORGE McANENY,
Chairman.

641—R. T. 7572

Agreement "BV"—Revised Form of Contract, Specifications, Invitation to Contractors, etc., for Miscellaneous Construction and Station Finish—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption, the proposed Invitation to Contractors, Information for Contractors, and Forms of Contract, Bond and Contractors Proposal, together with the Specifications and Contract Drawings for the miscellaneous construction and station finish on parts of the Broadway-Fourth Avenue, White Plains Road, Seventh Avenue-Lexington Avenue and Queensborough Subway Rapid Transit Railroads, in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens;

Resolved, That said Invitation to Contractors, Information for Contractors, and Forms of Contract, Bond and Contractors Proposal, together with the Specifications and Contract Drawings for the miscellaneous construction and station finish on parts of the Broadway-Fourth Avenue, White Plains Road, Seventh Avenue-Lexington Avenue, and Queensborough Subway Rapid Transit Railroads, in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, be and are hereby approved and adopted, and that said Invitation to Contractors be published in The City Record, every day of publication, continuously from and including May 17, 1923, to and including June 1, 1923, and on May 21, 1923 and May 28, 1923, in the Journal of Commerce and Brooklyn Daily Eagle, daily newspapers published in the City of New York, and that such bids as shall be received shall, on the 1st day of June, 1923, at eleven-thirty (11:30) o'clock A. M., or at a later date, to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

642—R. T. 7497

Route No. 31—Certificate by Chief Engineer of Completion of Contract for Installation of Tracks in Livonia Avenue Yard—Resolution Accepting Work and Directing that Certificate be Filed with Comptroller

The following certificate was approved:

May 12, 1923.

To: TRANSIT COMMISSION

Certificate of Completion: Installation of Tracks, Livonia Avenue Yard, Route 31

In connection with the contract dated May 9, 1923, between the City of New York and B. T. & J. J. Mack for installation of tracks in the Livonia Avenue Yard, Route 31, I hereby certify that all work was completed on April 28, 1923. The total cost of the work was \$88,196.26.

In accordance with the provisions of the contract all work should have been completed by December 14, 1922. The time for completion, however, was extended to April 28, 1923, by resolution of the Transit Commission adopted on May 8, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated May 9, 1922, between The City of New York, acting by the Transit Commission, and B. T. & J. J. Mack, for the installation of tracks in the Livonia Avenue Yard of the Eastern Parkway Rapid Transit Railroad (Route No. 31), required the completion of all work thereunder on or before December 14, 1922, which time was extended to and including April 28, 1923, by resolution of the Transit Commission adopted on May 8, 1923; and

Whereas, By communication dated May 12, 1923, the Chief Engineer of this Commission has reported that all the work required under said contract was in all respects completed on or before April 28, 1923; that the total cost therefor was \$88,196.26 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York;

Resolved, That said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

643—R. T. 7460

Agreement "AU"—Certificate by Chief Engineer of Completion of Contract for Miscellaneous Construction and Station Finish, Group I—Resolution Accepting Work and Directing that Certificate be Filed with Comptroller

The following certificate was approved:

May 12, 1923.

To: TRANSIT COMMISSION

Certificate of Completion—Agreement "AU"—Group I

In connection with the contract dated June 6, 1922, between the City of New York and Norman A. Deiser for miscellaneous construction and station finish work, Agreement "AU," Group I, I hereby certify that all work was completed on August 10, 1922. The total cost of the work was \$1,658.51.

In accordance with the provisions of the contract all work should have been completed by October 8, 1922. As all work was completed within the contract time, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated June 6, 1922, between The City of New York, acting by the Transit Commission and Norman A. Deiser for Miscellaneous Construction and Station Finish (Agreement "AU"), Group I, required the completion of all work thereunder on or before October 8, 1922; and

Whereas, The Chief Engineer of this Commission by communication dated May 12, 1923, has reported that all the work required under said contract was in all respects completed within the contract time or on or before August 10, 1922; that the total amount due therefore was \$1,658.51 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

Resolved, That said report and recommendation be and the same hereby is approved; that the work so performed be and hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

644—R. T. 7536

Route No. 8, Sections Nos. 1 to 5—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Furnishing Additional Ballast for Crossover East of First Avenue Station Under Contract for Installation of Tracks—Approval Resolution

A report was presented from the Chief Engineer dated May 14, 1923, recommending the establishment of a supplementary schedule item, as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item No. 3000 of the contract dated October 25, 1922, between The City of New York, acting by the Commission, and the T. H. Reynolds Contracting Company, Inc., for the installation of tracks for the 14th Street-Eastern Line, Route No. 8, Sections 1 to 5, inclusive, having, subject to the approval of the Commission, agreed with said contractor upon the following schedule item:

Item No. 1-X. For furnishing and placing additional Class "A" ballast between the tracks at the site of the proposed crossover east of the First Avenue Station and all work in connection therewith, for the sum of \$4.25 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

645—R. T. 5006

Agreement "CI"—Application by Joseph W. Edwards, Second Lowest Bidder, for Return of Security Deposited with Bid for Making Test Borings—Application Granted

An application dated May 11, 1923, was presented from Joseph W. Edwards, second lowest bidder, requesting the return of the security in the sum of \$300 deposited with his bid on April 19, 1923, for making test borings at sites of proposed Coney Island and Westchester Storage Yards and for extension of Seventh Avenue Subway Line under Central Park West, Agreement "CI."

Upon motion, duly seconded and adopted, the application was granted.

646—R. T. 7640

Order No. 8—Resolution Approving Surety Upon Bond in Sum of \$2,000 Deposited by Contractor for the Supply of Ties and Timber—Adopted

The following resolution was adopted:

Resolved, That the American Surety Company of New York be and hereby is approved as surety upon the bond in the sum of Two thousand dollars (\$2,000) deposited by Alfred R. Sax Lumber Company as security for the faithful performance of the contract for the supply of ties and timber, Order No. 8, for use in the construction of rapid transit railroads.

647—R. T. 7642

Agreement "CK"—Resolution Approving Sureties Upon Bond in Sum of \$10,000 Deposited by Contractor for Excavation and Construction of Retaining Wall at Lenox Avenue Yard—Adopted

The following resolution was adopted:

Resolved, That the Royal Indemnity Company and the Eagle Indemnity Company be and hereby are approved as sureties upon the bond in the sum of Ten thousand dollars (\$10,000) deposited by Fox-Reynolds Company, Inc., as security for the faithful performance of the contract for excavation and the construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue, between 148th and 150th Streets, Borough of Manhattan, each of said sureties being held and bound in the sum of Five thousand dollars (\$5,000).

648—R. T. 7638

Order No. 22—Resolution Approving Sureties Upon Bond in Sum of \$5,000, Deposited by Contractor for Supply of Special Work—Adopted

The following resolution was adopted:

Resolved, That the United States Guarantee Company and the Guarantee Company of North America be and hereby are approved as sureties upon the bond in the sum of Five thousand dollars (\$5,000) deposited by Railway Switch & Crossing Corp. as security for the faithful performance of the contract for the supply of special work and track fittings, Order No. 22, for use in various parts of the Dual System of Rapid Transit Railroads, each of said sureties being held and bound in the sum of Two thousand, five hundred dollars (\$2,500).

649—R. T. 6924

Routes Nos. 4 & 38, Section No. 6—Proposed Permit by Interborough Rapid Transit Company to Gilbur Corporation to Install Water Service Pipe Through Ventilator in Front of Premises at Northeast Corner of West 37th Street and Seventh Avenue—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Jarcho Bros., Inc., dated May 9, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company to the Gilbur Corporation to install a water service pipe through the subway ventilator of the Seventh Avenue Line, in front of the premises at the northeast corner of West 37th Street and Seventh Avenue.

A report was presented from the Chief Engineer, dated May 11, 1923, stating that the permit is satisfactory and recommending that it be approved.

The following resolution was adopted:

Whereas, By communication dated May 9, 1923, from Jarcho Bros., Inc., there has been submitted for the approval of this Commission a proposed permit dated May 2,

1923, proposed to be issued by Interborough Rapid Transit Company to Gilbur Corporation and accepted by said Gilbur Corporation under date of May 2, 1923, granting the right to install a 4-inch water service pipe through the ventilating chamber of the municipal rapid transit railroad under and along Seventh Avenue in the Borough of Manhattan, in front of the premises located on the northeast corner of 37th Street and Seventh Avenue; and

Whereas, The Chief Engineer of this Commission by communication dated May 11, 1923, has reported that said proposed permit has been examined and found to be satisfactory from an engineering standpoint; and

Whereas, The Counsel to this Commission has examined said proposed permit and finds no objection thereto,

Resolved, That said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

650—R. T. 6924

Route No. 5, Section No. 9—Proposed Permit by Interborough Rapid Transit Company to Consolidated Telegraph & Electrical Subway Company to Install Electric Service Connection Through Ventilator in Front of No. 1042 Lexington Avenue—Report by Chief Engineer Recommending Approval—Approval Resolution

A proposed permit was presented, issued by the Interborough Rapid Transit Company to the Consolidated Telegraph & Electrical Subway Company, to install an electric house service connection through the subway ventilator of the Lexington Avenue Line in front of the premises at No. 1042 Lexington Avenue.

A report was presented from the Chief Engineer dated May 10, 1923, stating that the permit is satisfactory and recommending that it be approved.

The following resolution was adopted:

Whereas, By communication dated April 30, 1923, E. S. Callahan, Chief Engineer of the Consolidated Telegraph & Electrical Subway Company, has submitted for the approval of this Commission a proposed permit dated April 18, 1923, proposed to be issued by Interborough Rapid Transit Company to, and accepted, under date of April 18, 1923, by Consolidated Telegraph & Electrical Subway Company, granting the right to cut through the ventilator of the municipal rapid transit railroad under and along Lexington Avenue, in the Borough of Manhattan, in front of the premises known as 1042 Lexington Avenue, for the purposes of installing an electric house service; and

Whereas, The Chief Engineer of this Commission, by communication dated May 10, 1923, has reported that said proposed permit has been examined and found to be satisfactory from an engineering standpoint and recommends its approval; and

Whereas, Counsel to the Commission has examined said proposed permit and finds no objection thereto,

Resolved, That the said proposed permit so submitted be and the same hereby is approved; that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission, made part of said proposed permit.

651—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Fire Brick for Additional Boilers at 59th Street Power House—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated April 16, 1923, requesting approval of a proposed purchasing agent's order directed

to the General Refractories Co., for furnishing fire brick to be used in lining the furnaces of the new boilers to be installed at the 59th Street power house, at a cost of \$3,312.00.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 5, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment and assigning Work Order No. IBA-7.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated April 16, 1923, has requested the approval of this Commission to the issuance of a purchasing agent's order dated April 16, 1923, directed to General Refractories Co. for the following:

72,000 "A" fire Brick
Price: \$46.00 Per M..... \$3,312.00
Delivery to begin July 1st, 1923, to our
59th Street and 11th Avenue Power Station

which proposed purchasing agent's order has been caused to be designated as Approval No. 477; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated May 5, 1923, reported that such material is to be used in lining the furnaces of the new boilers to be installed at the 59th Street Power House at a cost of \$3,312; that such work is part of the power plant addition authorized by this Commission; that the quantity of material is reasonable; that the price is satisfactory and recommend that the said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated May 9, 1923, has recommended that the cost of such material be classified as Additional Equipment of the Railroad and that Work Order No. IBA-7 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such material to be classified as Additional Equipment for the Railroad and to which this Commission assigns Work Order No. IBA-7.

652—R. T. 6969, 7235, 7354

Contract No. 3—Stipulation with Interborough Rapid Transit Company Extending Time to June 14, 1923, Within which to Agree Upon Successor to Hon. Luke D. Stapleton as Third Arbitrator in Proceedings with Respect to Operating Expenses and Classification and Amount of Depreciation—Approved

A stipulation was approved with the Interborough Rapid Transit Company dated May 4, 1923, extending to June 14, 1923, the time of the Commission and the Interborough Rapid Transit Company to agree upon the successor to the late Luke D. Stapleton, as the third arbitrator in the two pending arbitrations, the first having to do with objections dated November 24, 1920 and January 28, 1921, of the former Transit Construction Commissioner with respect to certain operating expenses and the second having to do with the classification and amount of depreciation and excess maintenance deductible under Contract No. 3 and the Extension Certificate to June 30, 1920.

653—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Form of Contract, Specifications, etc., for Manufacture and Erection of Steam Heating Systems for Inspection Sheds and Buildings in 180th Street and Livonia Avenue Yards—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated April 17, 1923, requesting approval of a form of contract, specifications, etc., for the manufacture and erection of steam heating systems for the inspection sheds and other buildings at the 180th Street and Livonia Avenue Yards.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 15, 1923, stating that the proposed heating plants are essential and that the estimated cost of \$75,000. is reasonable and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3, said Interborough Rapid Transit Company by communication dated April 17, 1923, has submitted for the approval of this Commission proposed Invitation to Contractors, and Forms of Contract, Bond, Contractor's Proposal and Specifications for the manufacture and erection of a steam heating system for the inspection shed, oil house, signal tower and crew room buildings in 180th Street and Livonia Avenue Yards of the Railroad defined in said contract and has also requested the inviting of bids from a select group of contractors in lieu of public advertisement; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated May 15, 1923, reported that the said proposed heating plants are essential and form part of the Equipment as defined in said Contract No. 3; that the form of Invitation to Contractors, Contract, Bond and Contractor's Proposal and Specifications so submitted are satisfactory from an engineering standpoint; that the cost of the proposed work in the 180th Street Yard is \$40,000 and that in the Livonia Avenue Yard \$35,000 and recommend that the said instrument so submitted be approved and that the said Interborough Rapid Transit Company be permitted to invite bids from the said select group of contractors as more particularly therein set forth; and

Whereas, The Auditor of Rapid Transit Costs has recommended Equipment of the Railroad as the proper classification of said work; and

Whereas, Counsel to the Commission has examined said Invitation to Contractors and Forms of Contract, Bond, Contractor's Proposal and Specifications so submitted and finds no objection thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said Invitation to Contractors, Forms of Contract, Bond, Contractor's Proposal and Specifications for the performance of said work be and the same hereby are approved and that said Interborough Rapid Transit Company be and hereby is authorized to invite bids from the list of contractors set forth in the engineer's report aforesaid in lieu of public advertising for bids for the performance of the work under the said form of contract hereby approved.

654—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Carload of Brick to be Used in Connection with Installation of New Boilers at 59th Street Power House—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated April 27, 1923, requesting approval of a proposed purchasing agent's order directed to the Celite Products Company for furnishing one carload of brick at an approximate cost of \$2,070 to be used in connection with the installation of new boilers at the 59th Street Power House.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated May 12, 1923, stating that the cost is reasonable and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment to be performed under Work Order No. IBA-7.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 said Interborough Rapid Transit Company by communication dated April 27, 1923, has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated April 27, 1923, directed to the Celite Products Company for the following:

- 1 Carload of Sil-o-Cel Brick, consisting of approx. 30 M. brick with sufficient clay for installing.
Price: \$69.00 Per M.
1% ten days.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 478"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated May 12, 1923, reported that said brick is to be used in connection with the installation of the two new Babcock and Wilcox boilers at the 59th Street power house as heretofore authorized to which work this Commission assigned Work Order No. IBA-7; that the approximate cost is \$2,070 which is reasonable; that no bids were received inasmuch as the material is a mineral which only said company can furnish and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated May 12, 1923, has recommended the approval of said purchasing agent's order and the classification of Additional Equipment for the Railroad under Work Order No. IBA-7 heretofore assigned as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

655—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Drip Pans Under Elevator Structure at East End of West 8th Street Station, Coney Island—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation, dated May 11, 1923, requesting approval of a proposed purchasing agent's order directed to Thomas Drysdale, Inc., for installing and painting drip pans under the elevator structure at the east end of the West 8th Street station, Coney Island, for the lump sum price of \$4,767.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 25, 1923, stating that the drip pans are necessary and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Reconstruction of Existing Railroads.

The following resolution was adopted:

Whereas, By resolution adopted November 22, 1922, this Commission approved a proposed agreement between the Prospect Park and Coney Island Railroad Company and New York Municipal Railway Corporation and Lindley M. Garrison as Receiver of said New York Municipal Railway Corporation providing for the conveyance of permanent easements for the construction, maintenance and operation of the elevated railroad structure known as the Culver Line connecting from Sheepshead Bay Road to the Coney Island Terminal under and in pursuance of the provisions of the contract dated March 19, 1913, between The City of New York and the said New York Municipal Railway Corporation, known as Contract No. 4 as part of the Reconstruction of Existing Railroads as defined in said Contract No. 4; and

Whereas, By communication dated May 3, 1923, the Receiver of said New York Municipal Railway Corporation has submitted for the approval of this Commission a proposed purchasing agent's order dated May 2, 1923, directed to Thomas Drysdale, Inc. for the following:

Furnish labor, material, etc. necessary to install and paint drip pans under the Elevated Railroad Structures at the east end of the West 8th Street Station, Coney Island, as indicated upon our Drawing C-5681, and as called for in our specifications dated April 17, 1923

For the lump sum price of..... \$4,767.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 346"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported by communication dated May 15, 1923, that the following bids were received for said work:

Thos. Drysdale, Inc.....	\$4,767
R. H. Brown	7,193
J. H. Duncan, Inc.....	8,450
A. J. Pratt	8,218
G. F. Driscoll Co.....	10,400
Rosenthal Engineering Contracting Co.....	No bid
Edwards & Flood	No bid
Necaro Co., Inc.	No bid

that the drip pans are necessary; that the prices are the best obtainable and are reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated May 15, 1923, has recommended the approval of said proposed purchasing agent's order as Reconstruction of Existing Railroads in accordance with the Commission's approval of November 22, 1922, aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

656—Gen. 1772, R. T. 6695

Contract No. 4—Application by New York Consolidated Railroad Company for Extension of Time to July 15, 1923, Within which to Complete Plans, Specifications and Estimate of Cost for Installation of Signal System on One Mile of Local Track—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approved

An application was presented from the New York Consolidated Railroad Company dated May 9, 1923, requesting an extension of time to and including July 15, 1923, within which to complete plans, specifications and estimate of cost for installing a speed control system of signals with automatic stops on one mile of local track on the elevated railroads.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 12, 1923, recommending that the extension of time be granted and transmitting a form of reply.

Upon motion duly seconded and adopted the Secretary was authorized to sign and forward the form of reply granting such extension of time.

657—R. T. 6998

Contract No. 4—Opinion by Commissioner O'Ryan Recommending Construction of Station at Williamsburg Bridge Plaza, Brooklyn, in Accordance with Site Proposed by Chief Engineer—Approved

An opinion was presented from Commissioner O'Ryan dated May 11, 1923, advising of his examination of the proposed sites for the construction of a station on the Broadway Elevated Line in the vicinity of Williamsburg Bridge Plaza, Borough of Brooklyn, and recommending approval of the station site at the Plaza as proposed by the Chief Engineer. Upon motion duly seconded and adopted the opinion was approved.

658—Gen. 3396

Rapid Transit Railroads—Reports by Committee on Toilet Improvements and Acting Chief Executive Officer Making Recommendations with Respect to Improvement of Toilet Conditions in Subway and Elevated Stations—Copy of Communication to Commissioner of Health—Approved

A report dated March 19, 1923, was presented from Dr. Edward Levy, Messrs. A. I. Raisman, C. M. Kendall, Albert Goertz, William L. Selmer, as Committee on Toilet Improvements, making recommendations for the improvement of toilet conditions in subway and elevated stations with respect to present and future work.

A report dated May 5, 1923, was presented from the Acting Chief Executive Officer, stating that the recommendations should be approved.

Upon motion, duly seconded and adopted, the reports and a copy of the following communication were approved:

May 15, 1923]

484

May 8, 1923.

DR. FRANK J. MONAGHAN,
Commissioner of Health,
New York City.

My dear Commissioner:

Some time ago I directed that an investigation be made of the toilet facilities in the subways, and am now in receipt of the enclosed report, made by a committee of members of the staff of the Commission, with Dr. Levy, the Commission's physician, acting as chairman.

As the matter of the installation and maintenance of toilet facilities on rapid transit lines may present questions in which your department is interested and has special knowledge, I would appreciate it—if it accords with your wishes—if you would have this report reviewed by your department and let the Commission have the benefit of its advice and suggestions.

Respectfully yours,

LEROY T. HARKNESS,
Commissioner.

659—R. T. 7005

Contract No. 4—Communication from New York Municipal Railway Corporation Requesting Approval of Arrangement for Furnishing Additional Power Required for Increased Train Operation—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuation Classifying Work and Assigning Work Order Numbers—Approval Resolution

A communication was presented from the New York Municipal Railway Corporation dated March 23, 1923, requesting approval of general arrangements for furnishing additional power required for increased train operation at an approximate cost of \$510,000.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 14, 1923, recommending that the application be approved with the understanding that purchasing agent's orders and contracts will be submitted for approval.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuation dated May 15, 1923, classifying the work and assigning Work Order Numbers.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, and pursuant also to the provisions of the certificate dated March 15, 1913, granted to The City of New York for certain elevated extensions known as the Extension Certificate, W. S. Menden as General Manager for Lindley M. Garrison, as Receiver of said New York Municipal Railway Corporation, has, by communication dated March 19, 1923, requested the approval of this Commission for certain plans showing Additions to substation and feeder equipment; and

Whereas, the Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated May 14, 1923, has stated that the plans propose the following:

1. The installation of four 2,000,000 c.m. feeder cables from Interborough Substation No. 13 to the Broadway-Fourth Avenue Subway at 53rd Street and Seventh Avenue.

2. The installation of a 2000 K.W. rotary converter and accessories in the Richmond Hill Substation.

3. The installation of a 4000 K.W. rotary converter and accessories in the Hudson Substation.

4. The construction of an addition to the Kings Highway Substation building. The installation of 2000 K.W. rotary converter and accessories in the substation, together with a duct line and other equipment necessary for the supply of power from the said substation to the Brighton Beach Line.

5. The location of a new substation for the Railroad at Avenue T adjacent to the Sea Beach Line, the acquisition of the necessary real estate, and the construction of the said substation complete with all equipment and necessary duct and feeder connections to the West End Line and the Culver Line of the Railroad and the Sea Beach Line of the Existing Railroads.

; that the additional equipment is necessary to provide for the increased loads expected during the coming winter and recommend that the said proposal and plans be approved; and

Whereas, The Auditor of Rapid Transit Costs has, by communication dated May 15, 1923, recommended the classification and assignment of the work order numbers as hereinafter indicated,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said plans and proposals so submitted be and the same hereby are approved upon condition that the work be classified as hereinafter indicated:

1. The installation of four 2,000,000 c.m. feeder cables from Interborough Substation No. 13 to the Broadway-Fourth Avenue Subway at 53rd Street and Seventh Avenue, which work is classified as Additional Equipment for the Railroad and as to which unit this Commission assigns Work Order No. MBA-22.

2. The installation of a 2000 K.W. rotary converter and accessories in the Richmond Hill Substation, which work is classified as Additions to Elevated Extensions and as to which unit this Commission assigns Work Order No. MEA-6.

3. The installation of a 4000 K.W. rotary converter and accessories in the Hudson Substation, which work is classified as Additions to Existing Railroads and as to which unit this Commission assigns Work Order No. MCA-24.

4. The construction of an addition to the Kings Highway Substation building. The installation of 2000 K.W. rotary converter and accessories in this substation, together with a duct line and other equipment necessary for the supply of power from the said substation to the Brighton Beach Line and the installation of an additional high tension cable, which work is classified as Additions to Existing Railroads and as to which unit this Commission assigns Work Order No. MCA-25, it being understood that the cost of the extension to the substation building for housing said equipment shall not be included in the cost of the work hereby approved.

5. The location of a new substation for the Railroad at Avenue T adjacent to the Sea Beach Line, the acquisition of the necessary real estate, and the construction of the said substation complete with all equipment and necessary duct and feeder connections to the West End Line and the Culver Line of the Railroad and the Sea Beach Line of the Existing Railroads, which work is classified as Additional Equipment for the Railroad and as to which unit this Commission assigns Work Order No. MBA-23, it being understood that the title to the real property owned by the New York Municipal Railway Corporation and upon which said substation is to be erected shall be transferred to The City of New York, in accordance with the provisions of said Contract No. 4, without profit of any kind to the said New York Municipal Railway Corporation.

The foregoing approvals are upon condition that the cost of taking down, transporting, reinstalling and reconstructing units and structures operated by the New York Consolidated Railroad Company, if any, in connection with any of the above work shall be charged to Maintenance under said Contract No. 4.

It is further understood that the foregoing approvals are upon the condition that the cost of taking down, transporting, reinstalling and reconstructing units and structures operated by the Brooklyn Rapid Transit Company, if any, shall be carried in the Brooklyn Rapid Transit Company's accounts under the so-called Power Agreement.

It is further understood that the foregoing approvals shall be without prejudice to the Commission's contention that the ten-year period of suspension of the obligation of New York Municipal Railway Corporation to install Equipment, including power facilities for the Railroad under said Contract No. 4 will expire on August 4, 1923, and that therefore the so-called Power Agreement will not have application thereafter.

660—R. T. 6416

Routes Nos. 36 and 37—Joint Application by Interborough Rapid Transit Company and New York Municipal Railway Corporation and New York Consolidated Railroad Company for Approval of Proposed Agreement for Joint Operation of Portions of Steinway Tunnel Line—Approval Resolution

A joint application was presented from the Interborough Rapid Transit Company and the New York Municipal Railway Corporation and New York Consolidated Railroad Company, dated May 14, 1923, requesting approval of a proposed agreement supplementing the Supplementary Agreement dated March 19, 1913 with respect to trackage rights and joint operation of portions of the Steinway Tunnel Line.

The following resolution was adopted:

Whereas, By communication dated May 14, 1923 Frank Hedley as President and General Manager of Interborough Rapid Transit Company and W. S. Menden as General Manager for the Receiver, of New York Municipal Railway Corporation and of New York Consolidated Railroad Company have, pursuant to the provisions of the contracts dated March 19, 1913 between The City of New York and said companies known respectively as Contract No. 3 and Contract No. 4, submitted for the approval of this Commission a proposed agreement between said Interborough Rapid Transit Company and said New York Municipal Railway Corporation and New York Consolidated Railroad Company and their respective receivers, supplementing the Supplementary Agreement dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, Interborough Rapid Transit Company and New York Municipal Railway Corporation with respect to the exercise of trackage rights and joint operation over subdivisions III, IV, and V of the Steinway Tunnel Line, as described in said contracts; and

Whereas, Said proposed Supplementary Agreement has been examined by the Engineer of Equipment and Operation, Auditor of Rapid Transit Costs and Counsel of this Commission, who find no objection thereto, and recommend the approval of said proposed agreement as so submitted upon the condition as hereinafter provided,

Resolved, That said proposed agreement, supplementing the Supplementary Agreement aforesaid, be and the same hereby is approved, provided, however, that the approval herein given or anything herein contained shall be not construed or deemed to be an admission that all the obligations of The City of New York under the said Contracts Nos. 3 and 4 in respect of the grant of trackage rights and joint operation over said subdivisions III, IV and V of the said Steinway Tunnel Line have not been in all respects fully completed and complied with.

661—Case 1689

Manhattan and Queens Traction Corporation—Application for Authority to Permit Smoking in Cars—Report by Chief of Transit Bureau—Order Suspending Order in Effect so as to Permit Smoking on Three Rear Seats of Cars While Windows are Open—Suspension Order Adopted

The Secretary presented an application, dated May 4, 1923, from B. W. Duncan, General Manager for Manhattan & Queens Traction Corporation, requesting that the Commission modify its Order in Case No. 1689, which prohibits smoking in certain types of cars, so as to permit smoking on the three rear seats of such cars while the windows

are open, together with a report thereon, dated May 11, 1923, from the Chief of Transit Bureau, recommending that the application be granted.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 1689, suspending the Order therein, adopted August 1, 1913, as amended September 16, 1913, so as to permit smoking as aforesaid until October 15, 1923.

662—Case 2686

Bush Terminal Railroad Company—Application for Permission to Exercise Right to Construct and Operate Additional Spur Track in 41st Street, Brooklyn—Hearing Order Adopted

The Secretary presented a petition, verified May 8, 1923, of the Bush Terminal Railroad Company, asking for permission to exercise the right to construct and operate an additional spur track in 41st Street, Brooklyn, authorized by resolution of the Board of Estimate and Apportionment on February 9, 1923, and approved by the Acting Mayor of The City of New York on February 19, 1923.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2686, directing a hearing on May 28, 1923 at 10:30 A. M., with respect to said application and further directing that notice of the hearing be given to The City of New York, the Bush Terminal Railroad Company, and to the Shipley Construction & Supply Company, and authorizing George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, to take the testimony therein and report same to the Commission together with his opinion thereon for its decision and determination.

663—Case 2625

Eighth Avenue Railroad Company—Application for Authority to Issue Bonds Secured by Real Estate Mortgage—Supplemental Petition of Company for Amendatory Order Authorizing Issuance of Bonds for \$900,000 Secured by Mortgage on Real Estate—Hearing Order Adopted

The Secretary presented a supplemental petition, dated May 10, 1923, of the Eighth Avenue Railroad Company, asking for permission to amend its previous petitions therein, dated December 1, 1921 and February 10, 1922, respectively, and authorizing it to issue its bond secured by mortgage in the sum of \$900,000 on certain parcels of real property.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2625, directing a hearing on said application on May 22, 1923 at 10:30 A. M., and authorizing and designating George O. Redington, Counsel to the Commission, to conduct said hearing, to take the testimony therein and report same to the Commission together with his opinion thereon for its decision and determination.

664

Investigation of Capital Additions—Report by Acting Chief Executive Officer Relative to Work of Commission Employees—Joint Report by Chief, Bureau of Accounting and Valuation and Engineer of Equipment and Operation—Reports Approved

The Secretary presented a report, dated May 5, 1923, by the Acting Chief Executive Officer advising that as a result of an examination into value of work of employees

of Commission engaged in investigation of capital additions, it was found that much of the work was more properly the function of the Public Service Commission and recommending that the records and statements concerning the investigation be retained in the files of the Commission and that the four employees then assigned to such work be assigned other duties in the Bureau of Equipment and Operation.

The Secretary also presented a joint report dated May 1, 1923, by the Engineer of Equipment and Operation and the Chief of Bureau of Accounting and Valuations concerning the matter.

Thereupon the above mentioned reports were approved.

665—Case 2661

Third Avenue Railway Company—Forms of Annual Report to be Filed by Common Carriers Within the Jurisdiction of the Commission other than Steam Railroad Corporations—Resolution Requiring Amendment of Annual Report Adopted

The Secretary presented a report, dated May 9, 1923, from H. S. Fischer, Statistician, approved by the Chief of the Bureau of Accounting and Valuations, advising that the Third Avenue Railway Company in its annual report to the Commission charged certain payments out of its gross receipts for the use of certain tracks on Fort George Avenue owned by The City of New York to the account, "Taxes Assignable to Street Railway Operations." The Secretary also presented a report, dated May 10, 1923, by Assistant Counsel Stover, approved by Counsel to the Commission advising that the payments should be reported by the Company as rentals and transmitting a proposed resolution for service on the Company.

Thereupon, the Commission adopted and ordered filed a resolution in Case No. 2661, in the following form:

Whereas, The Commission believes the annual report of the Third Avenue Railway Company for the year ended June 30, 1922, to be erroneous, in that it reports the annual payments made to The City of New York for the right to use the city-owned tracks on Fort George Avenue, in the Borough of Manhattan, City of New York, under the contract made and executed by and between The City of New York and the Third Avenue Railway Company on February 16, 1916, as taxes rather than as rentals, it is hereby

Resolved, That the said Third Avenue Railway Company be notified to amend its said annual report for the year ended June 30, 1922, by transferring the accruals and payments to The City of New York for the use of the tracks on Fort George Avenue, under the terms of the contract made and executed by and between The City of New York and the Third Avenue Railway Company on February 16, 1916, from the schedules of "Taxes" (520 A-D) on pages 58 and 59 to schedule 533, "Miscellaneous Rent Deductions" (922g) page 63 of said report and by making all other changes which may be necessary in order to bring the entries in said report into conformity with the classification of the accruals and payments under the said contract of February 16, 1916, as rentals and with the transfer directed above.

Further Resolved, That the said Third Avenue Railway Company make said amendments on or before the first day of June, 1923.

TRANSIT COMMISSION,
By JAMES B. WALKER,
Secretary.

666—S. P. 747

New York and Queens County Railway Company—Lincoln C. Andrews, Receiver—New Tariff Showing Operation Between Junction Avenue and Sanford and Parsons Avenues, Flushing—S. P. No. 747 Approved

The Secretary presented a petition, verified May 12, 1923, of Lincoln C. Andrews, Receiver of the New York and Queens County Railway Company, asking for permission to put into effect after publication new tariff showing change in Local Passenger Tariff No. 1, Original Sheet No. 7, so as to provide operation from 1:00 A. M. to 5:00 A. M., instead of during the entire 24 hours of the day on that portion of the company's railroad operated between Junction Avenue and Sanford and Parsons Avenues, Flushing. The Secretary also presented reports, dated May 2, and May 4, 1923, by the Chief of the Transit Bureau, and an Opinion, dated May 9, 1923, by Assistant Counsel Stover, approved by Counsel to the Commission with respect to the matter. The Secretary also represented his report, dated May 14, 1923, recommending that the application be granted as it was simply for the purpose of correcting an error as to the time of the service referred to which was not discovered by the Receiver at the time the original tariff sheet was presented.

Thereupon, the Commission approved and ordered filed Special Permission No. 747, granting the desired permission.

667—Cases 2182, 2218, 2306, 2627, 2662

Interborough Rapid Transit Company—Application for Authority to Issue Notes and Pledge Bonds—Communication from Company Transmitting Copy Equipment Trust Agreement, Lease Agreement and Statement of Satisfaction of Prior Equipment Trust Agreement—Filed

The Secretary presented a communication, dated May 3, 1923, from H. M. Fisher, Secretary of the Interborough Rapid Transit Company, transmitting for filing, printed copy of Equipment Trust Agreement, dated March 15, 1923, entered into by the Company with the Rapid Transit Subway Construction Company, Vendor, and The New York Trust Company, Trustee, together with Lease Agreement annexed thereto, dated the same date, entered into with The New York Trust Company, and a copy of statement of satisfaction of the Equipment Trust Agreement, dated July 15, 1922.

Thereupon, the above mentioned papers were ordered filed.

668—Case 2669

Annual Reports—Report by Chief of Bureau of Accounting and Valuations as to Filing of Annual Reports—Filed

The Secretary presented a report, dated May 11, 1923, by the Chief of Bureau of Accounting and Valuations, approved by the Acting Chief Executive Officer, advising that annual reports had been filed with the Commission pursuant to the Order in Case No. 2669, by all Steam Railroad Corporations subject to the jurisdiction of the Commission.

Thereupon, the above mentioned report was ordered filed.

669—R. T. 6616

Contract No. 2—Communication from Chief Engineer Transmitting Determination of Value of Work and Materials Omitted by Reason of Agreement for Change in Alignment at Borough Hall Station—Filed

The following communication from the Chief Engineer was ordered filed:

May 12, 1923.

To TRANSIT COMMISSION,

Contract No. 2—Determination of value of work and materials omitted by reason of the modifying agreement dated January 26, 1905.

Pursuant to the provisions of the contract dated July 21, 1902, between the City of New York, acting by the Board of Rapid Transit Railroad Commissioners for the City of New York and Rapid Transit Subway Construction Company, for the construction and operation of the Brooklyn-Manhattan Rapid Transit Railroad, known as Contract No. 2, and complying with the request contained in a letter from the Rapid Transit Subway Construction Company to the Commission dated March 23, 1923, I have made my determination in writing and in duplicate of the reasonable value of work and materials omitted from Contract No. 2, by reason of the modifying agreement dated January 26, 1905.

One duplicate of said determination is filed with your Commission as successor to the "Board" referred to in Contract No. 2.

ROBERT RIDGWAY,
Chief Engineer.

670—R. T. 7118, 7103

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$750 for Driving Test Piles at Lenox Avenue and 148th Street Yard—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 4, 1923, was ordered filed:

(Cal. No. 42)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 10, 1923, the Board of Estimate and Apportionment does hereby consent to and authorize an appropriation of seven hundred and fifty dollars (\$750) for driving test piles as a part of the construction of the Lenox Avenue and 148th Street Yard (under Contract No. 3), *said work to be performed by the Department of Docks*; without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be seven hundred and fifty dollars (\$750); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding seven hundred and fifty dollars (\$750), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said work; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 4, 1923.

JAMES MATTHEWS,
Assistant Secretary.

671—R. T. 7449

Routes Nos. 4 & 38, Section No. 6-A—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$109.46 as City's Share of Additional Cost of Installing Experimental Control Railing at Times Square Station—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 4, 1923, was ordered filed:

(Cal. No. 43)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 10, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and authorize an appropriation of one hundred and nine dollars and forty-six cents (\$109.46) for meeting the City's share of the additional cost of installing, as an experiment, a section of control railing at the Times Square Station of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad in order to permit of the quicker loading and unloading of passengers and a shorter stop at said station, the total additional cost of which experimental railing is two hundred and eighteen dollars and ninety-one cents (\$218.91); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be one hundred and nine dollars and forty-six cents (\$109.46); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding one hundred and nine dollars and forty-six cents (\$109.46), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied, in addition to the amount heretofore authorized, to the purposes of said installation; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 4, 1923.

JAMES MATTHEWS,
Assistant Secretary.

672—R. T. 7647

Routes Nos. 4 & 38, Section No. 5—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Issue of \$3,000 Tax Notes for Altering Subway Structure at Northeast Corner of Seventh Avenue and West 30th Street to Permit Widening of Roadway—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 4, 1923, was ordered filed:

(Cal. No. 44)

Resolved, By the Board of Estimate and Apportionment, that pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding three thousand dollars (\$3,000), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which, to the amount of the par value thereof to be used for altering the subway structure at the northeast corner of 7th avenue and 30th street, in order to allow for the widening of the roadway at that location, under the jurisdiction of the President, Borough of Manhattan; said work to be performed under the supervision of the Transit Commission, in accordance with plans prepared, and to be paid for upon vouchers prepared and submitted by the Transit Commission and endorsed by the President of the Borough of Manhattan.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 4, 1923.

JAMES MATTHEWS,
Assistant Secretary.

673—R. T. 7617

Route No. 16—Communication from Acting Corporation Counsel Returning Approved as to Form Proposed Agreement for Additional Station Facilities at 161st Street Station—Filed

A communication was ordered filed from Arthur J. W. Hilly, Acting Corporation Counsel, dated May 10, 1923, returning approved as to form a proposed agreement between the City of New York, Interborough Rapid Transit Company, and American League Baseball Club of New York, Inc., for the construction of additional station facilities at the 161st Street Station of the Jerome Avenue Line.

674—R. T. 7642

Agreement "CK"—Statement as to Execution and Delivery of Original Contract for Excavation and Construction of Retaining Wall at Lenox Avenue Yard—Contract Filed

An original contract was ordered filed, dated May 10, 1923, between the City of New York, acting by the Transit Commission and Fox, Reynolds Company, Inc., for excavation and construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue, between 148th and 150th Streets, Borough of Manhattan (Agreement "CK"), which contract had been executed on behalf of both parties and delivered on May 14, 1922.

675—R. T. 7638

Order No. 22—Statement as to Execution and Delivery of Original Contract for Supply of Special Work and Track Fittings—Contract Filed

The Commission ordered filed an original contract dated May 10, 1923, between The City of New York, acting by the Transit Commission and the Railway Switch & Crossing Corp. for the supply of special work and track fittings, Order No. 22, for use in the construction of various parts of the Rapid Transit Railroads, which contract had been executed on behalf of both parties and delivered on May 15, 1923.

676—R. T. 7479

Route No. 5, Section No. 15—Communication from Counsel Transmitting Original Mortgage in Sum of \$37,725 as Balance of Purchase Price for Property Sold at Public Auction at Southwest Corner of East 138th Street and Mott Avenue—Filed

A communication was ordered filed from Counsel dated May 11, 1923, transmitting an original mortgage dated March 16, 1923, from the Consolidated Parking Company, Inc., to the City of New York in the amount of \$37,725, as the balance of the purchase price for the property sold at public auction at the southwest corner of East 138th Street and Mott Avenue, Borough of The Bronx, which mortgage was recorded in the office of the Register of the County of The Bronx on March 23, 1923, in Liber 670 of Mortgages, at Page 294, and is indexed in Section 9 under Block 2339 on the Land Map of the County of The Bronx.

677—R. T. 6482

Route No. 26—Letter from Counsel Transmitting Original Recorded Agreement for Entrance to Jackson Avenue Station at Northeast Corner of Vernon Avenue and Fourth Street, Borough of Queens—Filed

A letter was ordered filed from Counsel dated May 8, 1923, transmitting an original agreement dated September 25, 1922, with Lawrence Laudisi for the construction of a stairway to the Jackson Avenue Station of the Steinway Tunnel Line through the premises at the northeast corner of Vernon Avenue and Fourth Street, Borough of Queens, which agreement was recorded in the office of the Clerk of Queens County on February 8, 1923, in Liber 2478, Page 452, Block 378 of Conveyances.

678

Employees' Resolution No. 143

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Edward A. Lanigan, inspector of equipment, at \$125.08 per month, to take effect May 14, 1923; Harry Lebedun, draftsman, at \$150.08 per month, to take effect May 14, 1923; Ellis Metzner, junior assistant, at \$125.08 per month, to take effect May 8, 1923.

Appointments under Rule VIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect May 14, 1923; Clarence Leader, draftsman, at \$150.08 per month, to take effect May 14, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect May 14, 1923; William H. Snow, engineering inspector, at \$150.08 per month, to take effect May 10, 1923; Robert J. Stimpfle, draftsman, at \$150.08 per month, to take effect May 11, 1923.

Appointment under Rule V:4—Ellen Hewith, janitress, at \$15.00 per month, to take effect May 16, 1923.

Appointment under Rule VIII:6—Fred Adinolfi, architectural draftsman, at \$150.08 per month, to take effect March 19, 1923.

Appointments under Rule XIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect February 13, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect March 6, 1923.

Resignations—G. Wallace Callahan, draftsman, at \$150.08 per month, to take effect April 14, 1923; Frank J. Campbell, inspector of equipment, at \$162.50 per month, to take effect May 21, 1923; Elton R. DeShaw, architectural draftsman, at \$150.08 per month, to take effect May 12, 1923; Albert Matter, junior engineer, at \$180.08 per month, to take effect May 26, 1923; J. S. Parker, draftsman, at \$150.08 per month, to take effect May 7, 1923; Louis Seufert, architectural draftsman, at \$150.08 per month, to take effect May 15, 1923; Ira B. Thomson, draftsman, at \$150.08 per month, to take effect May 19, 1923.

Rescission of Appointments under Rule VIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect February 13, 1923; Edward Schafer, engineering inspector, at \$150.08 per month to take effect March 6, 1923.

Rescission of Termination of Appointments under Rule VIII:4—Thomas A. Anderson, engineering inspector, at 150.08 per month, to take effect March 21, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect March 21, 1923.

Termination of Appointment under Rule VIII:4—Peter J. Lauritzen, architectural draftsman, at \$150.08 per month, to take effect May 15, 1923.

Termination of Appointment under Rule VIII:6—Fred Adinolfi, architectural draftsman, at \$150.08 per month, to take effect April 15, 1923.

Termination of Appointments under Rule XIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect March 21, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect March 21, 1923.

Leave of Absence with Pay—Joseph S. Harris, junior engineer, from April 6, 1923, to May 5, 1923.

Voucher Schedule No. 20

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 480-526, open market orders, \$2,317.64; Vouchers Nos. 265-280, miscellaneous bills, \$729.58; Voucher No. 10, special payroll, \$1,250.00; Vouchers Nos. 85-95, City payrolls, \$86,792.67; Voucher No. CM-9, State payrolls, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 113, Powers-Kennedy Contracting Corporation; approximate estimate No. 11 for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67, from April 1, 1923 to April 30, 1923 (R. T. 7584), \$87,171.21;

Voucher No. 114, Joslin Construction Co., Inc.; approximate estimate No. 9, for the reconstruction of a part of Route No. 26, Jackson Avenue station, from April 1, 1923, to April 30, 1923 (R. T. 7556), \$12,199.20;

Voucher No. 115, Holbrook, Cabot & Rollins Corporation; approximate estimate No. 11, for the construction of a new entrance to the 168th Street station, Manhattan-Bronx Railroad, from April 1, 1923, to April 30, 1923 (R. T. 6114), \$6,600.04;

Voucher No. 116, Gustin-Morris Contracting Corporation; approximate estimate No. 1, for the construction of Foundations, Route No. 52, Section No. 1, from March 23, 1923, to April 30, 1923 (R. T. 7670), \$3,710.04;

Voucher No. 117; Slatery Engineering & Construction Co., Inc.; approximate estimate No. 6 for the construction of additional approach work on track, Lenox Avenue and 148th Street Yard, under Contract No. 3 (R. T. 7366) \$22,997.50;

Voucher No. 118; John Pollock; approximate estimate No. 4, for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Railroad from April 1, 1923, to May 10, 1923 (R. T. 7609), \$1,573.25;

Voucher No. 120; B. T. & J. J. Mack; final estimate for installing tracks in the Livonia Avenue Yard, Route No. 31, to April 28, 1923 (R. T. 7497) \$10,006.76;

Voucher No. 122, Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 12 for the construction of inspection shed inclosure at Livonia Avenue Yard, Route No. 31, from March 1, 1923 to April 30, 1923 (R. T. 7520) \$5,627.27;

Voucher No. 123, Lindley M. Garrison, as Receiver of New York Consolidated Railroad Company, and New York Consolidated Railroad Company; approximate estimate No. 1 for distributing and installing covers, frames and asbestos lumber panels for low bench duct manholes, Contract No. 4, from November 20, 1922 to February 28, 1923 (R. T. 7596) \$1,259.23;

Voucher No. 124; George Colon & Company; approximate estimate No. 11, for the construction of Union Square Passageway connecting station, Routes Nos. 5 and 8, from April 1, 1923 to April 30, 1923 (R. T. 7513) \$1,677.85.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, May 22, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

685—R. T. 7652**Route No. 45, Section No. 2—Receipt of Bids for Construction of Part of Broad Street and Nassau Street Route—Referred to Chief Engineer.**

Commissioner Harkness stated that the time within which to receive bids for the construction of Section No. 2 of Route No. 45, part of the Broad Street, Nassau Street Route, had elapsed at 11:30 A. M., and directed the Assistant Secretary to open the sealed box which had been provided for the deposit of said bids and read the bids received. The Assistant Secretary presented the proper affidavits of publication and opened the box and read the three bids received. The bids were then referred to the Chief Engineer.

686—R. T. 7522**Agreement "CM"—Form of Contract, Specifications, Invitation to Contractors, etc., for Modification of Railroad Structure East of Boulevard to Allow Raising of Street Grades in Borough of Queens—Resolution Directing Advertisement for Bids**

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the Proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractors' Proposal, together with the Specifications and contract drawings for the modification of railroad structure east of Boulevard to allow raising of street grades, in the Borough of Queens, (Route No. 61);

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractors' Proposal together with the Specifications and contract drawings for the modification of railroad structure east of Boulevard to allow raising of street grades, in the Borough of Queens, (Route No. 61), be and are hereby approved and adopted, and that said Invitation to Contractors be published in The City Record every day of publication continuously from and including May 24, 1923 to and including June 7, 1923, and on May 28, 1923 and June 4, 1923, in Long Island Daily Press and Daily Long Island Farmer and The New York Herald, daily newspapers published in the City of New York, and that such bids as shall be received shall on the 7th day of June, 1923 at eleven-thirty (11:30) o'clock A. M., or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

687—R. T. 7146**Route No. 31—Resolution Declaring Ready for Use Portion of Inspection Shed at Livonia Avenue Yard**

The following resolution was adopted:

Resolved, That, under and in pursuance of the provisions of the contract known as Contract No. 3 dated March 19, 1913, made between the City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, this Commission hereby declares the following portions of the Railroad described in said Contract No. 3, being the facilities in the Livonia Avenue Yard, located between New Lots Avenue, Linwood Street, Stanley Avenue and Elton Street, at the terminus of the Livonia Avenue Branch of the Eastern Parkway Line, as de-

scribed in said Contract No. 3 to be ready for use and operation at 12:01 o'clock A. M. on May 22, 1923.

All of that portion of the inspection shed building below the railroad level including the facilities therein.

688

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, May 23, 1923, at 11:00 A. M.

689

Hearing

The following hearing was held:

10:40 A. M.; Case 2625; Eighth Avenue Railroad Company; Authorization to issue bonds secured by mortgage of two parcels of its real property to the amount of \$1,200,000. George O. Redington, Counsel, presided. Hearing closed.

Route No. 45, Section No. 2—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest of Bidders—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on May 22, 1923, for the construction of Section No. 2 of Route No. 45, Broad and Nassau Streets Line, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders, the certified checks in the sum of Seventy-five thousand (\$75,000) dollars each, deposited with their bids.

693—R. T. 7529

Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Renewal of Requisition Upon Board of Estimate and Apportionment for Appropriation of \$3,240.00 as City's Share for Changing Type of Smoke Flue at Stations on Culver and New Utrecht Avenue Lines—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated April 25, 1923, recommending the renewal of the requisition

submitted to the Board of Estimate and Apportionment, as authorized by the resolution adopted on July 12, 1921, requesting an appropriation of \$3,240.00, as the City's share for changing the type of smoke flue at the stations on the Culver and New Utrecht Avenue Lines.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of Bureau of Accounting and Valuations dated May 10, 1923, classifying that portion of the cost of the work, which is a betterment, as an Addition to the Railroad and that the remainder of the cost be charged to Maintenance.

The following resolution was adopted.

Whereas, This Commission, by resolution adopted July 12, 1921, directed pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, said New York Municipal Railway Corporation, as Lessee under the provisions of said Contract No. 4 and particularly Article LXVIII thereof, to install as Additions to Construction under said contract the direct type of smoke flue at the stations on the Culver Line and the New Utrecht Avenue portion of the Broadway-Fourth Avenue Line described in said Contract No. 4, as more particularly set forth, and made requisition upon the Board of Estimate and Apportionment for the appropriation of \$3,240, estimated to meet the City's obligations in connection therewith; and

Whereas, The Board of Estimate and Apportionment, by action taken at its meeting of February 3, 1922, referred said action back to this Commission without taking action thereon; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated April 25, 1923, reported and recommended that the said matter be advanced and that the requisition aforesaid be renewed; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have reported with respect to the classification of said work; and

Whereas, Counsel has prepared and submitted a proposed requisition, which will effect such recommendation.

Resolved, That said reports and recommendations be and the same hereby are approved and that the requisition in the form so submitted be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment,

Further Resolved, That said resolution of July 12, 1921, aforesaid be and the same hereby is in all respects reaffirmed and readopted.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

May 23, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under date of July 13, 1921 the Transit Commission made the following requisition upon your Honorable Board:

"The contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, provides in Article LXVIII thereof that Additions may be ordered to be installed on the Railroad as defined in said contract and more particularly prescribed as follows:

"If the direction shall have reference to Equipment or operation or to the construction of Additions to the Existing Railroads the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to the construction of Additions to the Railroad the cost of complying therewith shall be borne by the City and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the commission or directly by the Lessee as the Commission may elect.

If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or additions (other than Additions to the Railroad) to be made at the expense of the Lessee.

The Engineer of Equipment and Operation and the Chief Engineer of this Commission in a communication dated June 30, 1921 have reported, with respect to the necessity of a change in the type of smoke flues for the heaters installed at stations on the Municipal Elevated Rapid Transit Railroads and particularly on the Culver Line and the New Utrecht Avenue portion of the Broadway-Fourth Avenue Line as described in said Contract No. 4 and state in part as follows:

'The present smoke flues at these stations have a long and tortuous run, which causes a heavy deposit of soot, thereby reducing the effective draft, and requiring considerable labor for frequent cleaning. The New York Municipal Railway Company has developed a type of flue which has a much direct run, and reduces the possibility of an accumulation of soot. This direct type of flue has been installed at twenty locations on the Jamaica Ave. line of the New York Municipal Railway Corporation, where the original flues were similar to those now installed on the Culver Line and New Utrecht Ave. Line, and has been found to be a decided improvement over the original type.'

This Commission has considered said report and has reached the conclusion that the changes therein recommended are desirable and has approved the same.

It is proposed to provide for the installation of the New type of flue at the stations of the Culver Line and the New Utrecht Avenue portion of the Broadway-Fourth Avenue Line by crediting the estimated cost of the material for the old flues, to wit, Two Thousand One Hundred Sixty Dollars (\$2,160) against the estimated cost of the material for the new flues, to wit, Five Thousand Four Hundred Dollars (\$5,400) leaving an estimated balance to be expended by the City in the installation of the new type of flue of Three Thousand Two Hundred Forty Dollars (\$3,240). The Lessee or its Receiver is to install the new flues as a part of maintenance under the contract, and the Commission has directed the Lessee by the provisions of an order, a certified copy of which is transmitted herewith, to proceed with the work as an Addition to Construction under the provisions of Contract No. 4 above quoted. It will however be necessary to procure the City's share before it can be expected the company will proceed with the work.

Requisition is accordingly made upon your Honorable Board for an appropriation in the sum of Three Thousand Two Hundred Forty Dollars (\$3,240) being the amount of the estimated cost to the City of installing the new type of smoke flue on the stations of the Culver Line and the New Utrecht Avenue portion of the Broadway-Fourth Avenue Line as described in said Contract No. 4.

This requisition is a sub-requisition under the authorizations heretofore made for the purpose of carrying out said Contract No. 4."

Your Honorable Board, at its meeting of February 3, 1922 (Cal. No. 76) referred said matter back to this Commission without taking action thereon.

The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated April 25, 1923, have reported with respect to the subject of said requisition in part as follows:

"I am of opinion that this matter should be advanced and see nothing to change my previous recommendation that that portion of the cost of the new flues which is equal to the cost of the old flues (excluding the installation thereof) is properly chargeable as a Replacement.

Returned herewith is the original of the above mentioned letter of April 16th.
Recommendation—From an engineering standpoint, I recommend that smoke flues of the direct type should be provided at stations on the Culver and West End lines under Contract No. 4 and that this matter be referred to the Accounting Dept., so that some agreement may be arrived at whereby the work may be done."

The Transit Commission has approved said report and recommendation and renews the foregoing requisition upon your Honorable Board for the appropriation

of the sum of Three thousand two hundred forty dollars (\$3,240) for the purpose therein set forth.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

694—R. T. 7652

Route No. 45, Section No. 2—Report by Chief Engineer as to Receipt of Bids for Construction of Part of Broad Street-Nassau Street Line and Recommendation for Award of Contract to Patrick McGovern, Inc., at Bid Price of \$5,976,085.50—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

The following report was approved:

May 23, 1923.

To: TRANSIT COMMISSION.

Award of Contract for Nassau Street Subway, Route No. 45, Section No. 2, to Patrick McGovern, Inc.

On May 22, 1923, the following bids were received for work under contract for Route No. 45, Section No. 2, Nassau Street Subway:

Name	Amount
Patrick McGovern, Inc.....	\$5,976,085.50
Fredk. L. Cranford, Inc.....	6,221,543.50
Spencer, White & Prentis Co.....	8,844,025.00

Our estimate for this work was \$5,341,892.

Patrick McGovern, Inc., the lowest bidder, has had a number of important subway contracts for the Commission. It was the contractor for Section No. 9 of Route No. 5, Lexington Avenue Subway, amounting to \$2,323,596.44, 60th Street Tunnel under East River, Route No. 61, amounting to \$4,232,438.51 and for the completion of Section No. 2 of Route No. 8, 14th St.-Eastern Subway, amounting to \$3,155,442.29. All of this work has been carried out to our satisfaction. Patrick McGovern, Inc. at the present time has a number of contracts for other City departments. It is the contractor for the Jamaica Bay Boulevard which contract amounts to about \$3,000,000; has work from the Sewer Department in Manhattan amounting to about \$1,000,000, and contracts for two shafts for the Staten Island Tunnel now being built by the Board of Estimate and Apportionment amounting to about \$1,200,000. Patrick McGovern, Inc. is a contractor of exceptional ability and high standing.

Attached I send you a copy of minutes of a conference held in my office with Mr. Patrick McGovern and Mr. E. D. Hubbert, of Patrick McGovern, Inc., in which is contained a financial statement of the corporation.

The unit prices given in McGovern's bid is somewhat higher than our estimate, but under present conditions with the uncertainty in the labor and material markets I do not consider the prices unreasonable.

Recommendation: From an engineering standpoint I recommend that the work under contract for Route No. 45, Section No. 2, Nassau Street Subway, be awarded to the lowest bidder, Patrick McGovern, Inc., at its bid figure of \$5,976,085.50 and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Streets (under Contract No. 4) was heretofore finally adopted on April 24, 1923 and subsequent to advertisement duly made bids respectively totalling as follows were received on May 22, 1923:

Patrick McGovern, Inc.....	\$5,976,085.50
Fredk. L. Cranford, Inc.....	6,221,543.50
Spencer, White & Prentis Co.....	8,844,025.00

; and

[May 23, 1923

Whereas, The Chief Engineer of this Commission by communication dated May 23, 1923 has reported that the amount of said low bid is reasonable and that the said Patrick McGovern is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to the said Patrick McGovern, Inc. and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$5,976,085.50 the amount estimated to be necessary to carry out said proposed contract on the part of the City.

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby is approved; that the said bid of Patrick McGovern, Inc. be and the same hereby is accepted and that the said proposed contract for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Streets (under Contract No. 4) be and hereby is awarded to said Patrick McGovern, Inc. subject to its being consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$5,976,085.50 estimated to be necessary to meet the City's obligations under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

May 23, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921 transmits herewith for the consent of your Honorable Board as required by law a proposed contract to be entered into between The City of New York acting by the Transit Commission and Patrick McGovern, Inc., for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Street (under Contract No. 4), together with a requisition upon your Honorable Board for the appropriation of the sum of Five Million, Nine hundred and Seventy-six thousand, Eighty-five Dollars and Fifty cents (\$5,976,085.50), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

The Transit Commission has publicly advertised said proposed contract and bids were received therefor on May 22, 1923, respectively totalling as follows:

Patrick McGovern, Inc.....	\$5,976,085.50
Fred L. Cranford, Inc.....	6,221,543.50
Spencer, White & Prentis Co.....	8,844,025.00

The Chief Engineer of this Commission in a communication dated May 23, 1923 has reported that the said bid of Patrick McGovern, the low bidder, is reasonable and that said company is competent and financially capable of carrying out the provisions of said proposed contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said Patrick McGovern, Inc. subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit: the sum of Five Million, Nine hundred and Seventy-six Thousand, Eighty-five Dollars and Fifty cents (\$5,976,085.50) and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit: the sum of Five Million, Nine hundred and Seventy-six Thousand, Eighty-five Dollars and Fifty cents (\$5,976,085.50).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made by the predecessors of the Transit Commission for the purpose of carrying out the contract dated

March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

695—R. T. 6699

Contract No. 3—Communication from Interborough Rapid Transit Company Agreeing to Finish Concrete Floor and Furnish Floor Plates in Connection with Installation of Escalator at Borough Hall Station—Report by Chief Engineer Recommending Approval—Approval Resolution

A communication was presented from the Interborough Rapid Transit Company dated May 2, 1923, agreeing to finish the concrete floor and furnish the necessary floor plates at the top and bottom landings in connection with the installation of an escalator at the Borough Hall Station as a charge to contribution to Cost of Construction under Contract No. 3.

A report was presented from the Chief Engineer dated May 10, 1923, recommending that the proposal be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Construction of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3, said Interborough Rapid Transit Company is installing an escalator at the Borough Hall Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3 pursuant to the requirements of this Commission and the provisions of said Contract No. 3; and

Whereas, Questions have arisen as to the respective obligations of the City and Interborough Rapid Transit Company in respect to the completion of certain details in and about the installation of said escalator; and

Whereas, The Interborough Rapid Transit Company by communication dated May 2, 1923 from Frank Hedley its President and General Manager has, following conferences between the representatives of said parties, agreed to finish the concrete floor and furnish and install the necessary floor plates at the top and bottom landings in connection with the installation of said escalator all as more particularly shown upon the plans therefor, as a part of Construction as defined in said Contract No. 3, the cost thereof to be charged to the contribution of said Interborough Rapid Transit Company to the Cost of Construction as provided for in said Contract No. 3; and

Whereas, The Chief Engineer of this Commission by communication dated May 10, 1923 has recommended that the proposal of the Interborough Rapid Transit Company in this connection be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated May 14, 1923 concurs in the classification of such work as Construction of the Railroad,

Resolved, That the said proposal and recommendation be and the same hereby are approved; that Interborough Rapid Transit Company be and hereby is directed and authorized to perform the work of finishing the concrete floor and furnishing and installing the necessary floor plates at the top and bottom landings necessary to the installation of the escalator at the Borough Hall Station aforesaid, such work to be classified as Construction of the Railroad and the cost thereof to be charged to the contribution of the Interborough Rapid Transit Company to the Cost of Construction under and in accordance with the provisions of said Contract No. 3.

696—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Installation of Two Rotary Converters with Transformers for Substations Nos. 11 and 12—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order Number—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated April 9, 1923, requesting approval of a proposed contract with the Westinghouse Electric & Manufacturing Company for furnishing and installing two 4000 K.W. rotary converters with transformers for Substations Nos. 11 and 12, at an approximate cost of \$96,000.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 15, 1923, stating that the estimated cost is reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated May 18, 1923, classifying the work as Additional Equipment, and assigning Work Order No. IBA-7 thereto.

The following resolution was adopted:

Whereas, By resolution adopted by this Commission on September 7, 1922, the application of Interborough Rapid Transit Company, for the approval of an expenditure of approximately \$262,260, for the installation of Additional Equipment, as described in the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, was approved and to which this Commission assigned, by resolution adopted November 14, 1922, Work Order No. IBA-7; and

Whereas, By communication dated April 9, 1923, said Interborough Rapid Transit Company, pursuant to said authority, has requested the approval of this Commission to the execution of a proposed contract dated February 28, 1923, with the Westinghouse Electric & Manufacturing Company for furnishing and installing two 4,000 K.W. Rotary converters with transformers for subway division substations No. 11 and No. 12, in the Borough of Manhattan; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated May 15, 1923, reported that the approximate cost of such work is \$96,000; that the following bids were received for such work:

Westinghouse Electric & Mfg. Co.....	\$96,000
General Electric Co.....	102,000

; that the estimated cost is reasonable; that the said units are necessary and recommend the approval of said proposed contract and the authorization requested by said Interborough Rapid Transit Company to execute the same, subject to the conditions hereinafter set forth; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated May 18, 1923, recommended that the cost of such units be classified as Additional Equipment for the Railroad under Work Order No. IBA-7, assigned as aforesaid; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed contract dated February 28, 1923, between Interborough Rapid Transit Company and Westinghouse Electric & Manufacturing Company, be and the same hereby is approved, the cost thereunder to be charged to said Work Order No. IBA-7 assigned as aforesaid, provided, however, that the foregoing approval

is upon condition that the said proposed contract, before execution and delivery thereof, shall be changed in the following respect:

(a) Page 2, Section 2, Line 5, March 10, 1913 should read March 19, 1913.

697—R. T. 7224

Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Modification of Resolution Adopted on September 7, 1922, so as to Remove Limitation of Expenditure for Furnishing Additional Power Required to Operate Increased Train Service—Approval Resolution

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 21, 1923, recommending that the resolution adopted on September 7, 1922, approving an expenditure of approximately \$262,260, by the Interborough Rapid Transit Company for providing additional power required to operate increased train service, be modified so as to remove the limitation of the fixed expenditure.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, the Transit Commission, by action taken on September 7, 1922 approved the proposal dated August 3, 1922 of said Interborough Rapid Transit Company to make numerous changes in the power house, substations, distribution system, etc. of the Railroad as described in said Contract No. 3, including the purchase of additional materials, for the purpose of providing additional power for increased demands necessitated by the operation of a greater number of cars, the said action of the Commission being predicated upon the report, dated August 25, 1922, of the Engineer of Equipment and Operation and the Chief Engineer of this Commission who estimated the cost of such changes at approximately \$600,000, the greater part of such expenditures to be classified as Additional Equipment under said Contract No. 3; and

Whereas, The approval of this Commission of September 7, 1922 aforesaid limited such approval to an expenditure of approximately \$262,260 for said purposes; and

Whereas, It appears that the original estimated cost of the various units proposed to be installed for said purpose exceeded said limitation and the various units approved heretofore by this Commission have exceeded said limitation; and

Whereas, By communication dated May 21, 1923, the said Engineer of Equipment and Operation and the Chief Engineer of this Commission, for the reasons therein more particularly set forth, have recommended that the said limitation be excised from the approval of September 7, 1922 aforesaid,

Resolved, That said report and recommendation be and the same hereby are approved; that the said approval of September 7, 1922 be and the same hereby is modified by striking therefrom the said limitation of expenditure, it being understood that the said approval of September 7, 1922, as modified herein, shall be confined to the units of equipment necessary to effect the said proposal of Interborough Rapid Transit Company, dated August 3, 1922, subject to the approval of the Chief Engineer of this Commission as to the necessity and estimated cost of each such unit.

698—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Two Motors to Connect with Forced Draft Fans for New Boilers at 59th Street Power House—Report by Consulting Engineer Recommending Approval—Approval Resolution.

An application was presented by the Interborough Rapid Transit Company, dated May 2, 1923, requesting approval of a proposed purchasing agent's order directed to the General Electric Company for furnishing and installing two motors at a cost of

\$5,904 to be used in connection with forced draft fans for the new boilers to be installed at the 59th Street Power Station.

A report was presented from the Consulting Engineer, Charles E. Lucke, dated May 18, 1923, stating that the type of motor is satisfactory and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment, to be performed under Work Order IBA-7 heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted by this Commission on November 7, 1922, the application of the Interborough Rapid Transit Company for the approval of an expenditure of approximately \$262,260 for the installation of Additional Equipment as described in the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, was approved and to which this Commission assigned, by resolution adopted November 14, 1922, Work Order No. IBA-7; and

Whereas, By communication dated May 2, 1923, said Interborough Rapid Transit Company has submitted, for the approval of this Commission, proposed purchasing agent's order dated May 2, 1923, directed to General Electric Company for the following:

- 2—Type I, frame 16, 4 pole 250 H.P. 750 R.P.M. form M, 440 volt, 50° C, 3 phase, 25 cycle, slip ring, induction motors arranged DS-2 with base suitable for direct connection to forced draft fans.
- 2—CR-3204—T-155-A drum controllers
- 2—Starting and speed regulating resistors
- 2—Primary switchboard panels as per G. E. Co. Spec., attached to their quotation No. NY 44894, dated March 5, 1923.

Price: \$2,952.00 each Total: \$5,904.00

which purchasing agent's order has been caused to be designated as "Approval No. 483" and

Whereas, The Consulting Engineer, Charles E. Lucke, by communication dated May 18, 1923, reported that the following bids were received for said work:

Westinghouse Electric & Manufacturing Co.....	\$3,000.00 each
Allis Chalmers Manufacturing Co.....	3,035.00 each
Wagner Electric Manufacturing Co.....	Did not bid

; that the type of motor is satisfactory and the bid reasonable and recommends the approval of said proposed purchasing agent's order; and

Whereas the Auditor of Rapid Transit Costs, by endorsement dated May 21, 1923, has recommended the classification for said work to be Additional Equipment for the Railroad under Work Order No. IBA-7, assigned as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved, that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the said work to be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 assigned as aforesaid.

699—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of Four Stokers to Be Installed Under the New Boilers at 59th Street Power House—Report by Consulting Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order Number—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated May 11, 1923, requesting approval of a proposed contract with the American

Engineering Company for the purchase and installation of four stokers under the new boilers at the 59th Street Power House at an approximate cost of \$49,191.

A report was presented from Charles E. Lucke, Consulting Engineer, recommending that the company be authorized to enter into the contract.

A report was presented from the Auditor of Rapid Transit Costs and Chief of the Bureau of Accounting and Valuations dated May 19, 1923, classifying the work as Additional Equipment and assigning Work Order No. IBA-7 thereto.

The following resolution was adopted.

Whereas, By resolution adopted by this Commission on September 7, 1922, the application of Interborough Rapid Transit Company, for the approval of an expenditure of approximately \$262,260., for the installation of Additional Equipment as described in Contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, was approved and to which this Commission assigned, by resolution adopted November 14, 1922, Work Order No. IBA-7; and

Whereas, By communication dated May 11, 1923, Interborough Rapid Transit Company pursuant to said authority has requested the approval of this Commission to the approval of a contract dated December 13, 1922 for the purchase and installation of four stokers to be installed under the new boilers at the 59th Street Power House at a cost of approximately \$49,191; and

Whereas, By communication dated May 16, 1923, Charles E. Lucke, Consulting Engineer, has recommended the approval of said proposed contract and that Interborough Rapid Transit Company, be authorized to enter into the same with American Engineering Company for the reasons therein more particularly set forth; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of Bureau of Accounting and Valuations by communication dated May 19, 1923, has recommended that the cost of such units be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 assigned as aforesaid; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said contract so submitted be and the same hereby is approved and that Interborough Rapid Transit Company be and hereby is authorized to enter into the same, the cost thereof to be classified as Additional Equipment for the Railroad and charged to Work Order No. IBA-7.

700—R. T. 7007

Contract No. 3—Communication from Interborough Rapid Transit Company Requesting Approval of Substitution of Car No. 3758 for Car No. 3815 Upon Which Multiple Door Control Device Is to Be Installed—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Resolution Modifying Resolution of December 19, 1922

A communication was presented from the Interborough Rapid Transit Company dated May 8, 1923, requesting approval of the substitution of car No. 3758 for car No. 3815 upon which multiple door control device is to be installed.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 15, 1923, recommending that the resolution, adopted on December 19, 1922, be modified so as to provide for such substitution.

The following resolution was adopted:

Whereas, By resolution adopted December 19, 1922, this Commission, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, approved of the installation of a multiple door control on 396 additional subway high voltage cars, such

work to be performed as an Addition pursuant to the provisions of Articles LXX and LXXI of said Contract No. 3; and

Whereas, Said resolution specifically sets forth the cars, indicated by numbers, upon which said device was to be installed, included among which are Cars Nos. 3759-3859; and

Whereas, By communication dated May 15, 1923, the Engineer of Equipment and Operation and the Chief Engineer have advised this Commission that Interborough Rapid Transit Company, by communication dated May 8, 1923, has informed this Commission that it has substituted Car No. 3758 for Car No. 3815 and has suggested that the approval of the resolution of December 19, 1922 be modified accordingly.

Resolved, That said resolution of December 19, 1922, be and the same hereby is modified by striking from the third paragraph thereof the numbers and figures 3759-3859 and by substituting in place thereof the following numbers and figures: 3758-3814, 3816-3859.

701—R. T. 7267

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of Fire Insurance on 100 Steel Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated May 7, 1923, requesting approval of the purchase of fire insurance in the sum of \$1,475,000, and inspection service for a period of five years upon 100 steel trailer cars at a premium of \$5,900.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated May 16, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the cost as Operating Expense.

The following resolution was adopted, Commissioner Harkness not voting:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 said Interborough Rapid Transit Company by communication dated May 7, 1923, has submitted for the approval of this Commission its proposal to purchase fire insurance in the amount of \$1,475,000 and inspection service for a period of five years from May 7, 1923, upon the 100 steel trailer cars as authorized by this Commission by resolution adopted August 8, 1922, which proposal is as follows:

“The Interborough Rapid Transit Company requests approval to purchase as a charge against Operation, Contract No. 3, fire insurance on new steel Subway trailer cars in the sum of \$15,000 each on Nos. 5303 to 5377 inclusive, and \$14,000 each on Nos. 5378 to 5402 inclusive, for a period of five years.

The net cost of the insurance will be \$60 per car for the five-year term or \$12 per car per year, for car Nos. 5303 to 5377 inclusive, and \$56 per car for the five year term or \$11.20 per car per year for car Nos. 5378 to 5402 incl.”

and has been caused to be designated as “Approval No. 480”; and

Whereas, By communication dated May 15, 1923 the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that said insurance will provide fire prevention and inspection service without extra charge; that the insurance represents approximately 80% of the cost of the cars which is reasonable; that the rate is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated May 18, 1923, has recommended the expense of purchasing said insurance be classified as Operating Expense,

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal submitted by said Interborough Rapid Transit Company be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed order.

702—R. T. 6889

Contract No. 3—Report by Chief Engineer Requesting Advice and Policy as to Provision for Ventilating Equipment in Shallow Portions of Subway—Resolution Directing Chief Engineer to Order Full Compliance with Requirements of Contract

A report was presented from the Chief Engineer dated May 12, 1923, as described below:

The following resolution was adopted:

Whereas, By communication dated May 12, 1923, the Chief Engineer of this Commission has reported with respect to the installation of ventilating equipment pursuant to the provisions of contract dated March 19, 1913, known as Contract No. 3, as follows:

“For some time, this department has been impressing upon the Interborough Company the need of providing ventilating equipment for the land portions of the subways constructed under the provisions of Contract No. 3. The representatives of the company have continually contested the necessity of providing a complete ventilating equipment, but after numerous conferences a decision has been reached as to the type of installation suitable for deep level portions of these lines and the installation of such ventilating equipment in the Lexington Avenue subway is in progress.

The company has been urged both formally and informally to complete plans and begin the installation of ventilating equipment in the shallow portions of the subways, but its representatives have objected most strenuously to the provision of ventilating equipment for such shallow subways. I believe that ventilating equipment should be provided, as a general rule, at all ventilating chambers constructed in the subways, but in view of the attitude of the company's representatives and having in mind the high cost of such ventilating equipment which will be many hundreds of thousands of dollars, I should like to be advised before we continue our efforts in this matter any further if it is the policy of the Commission that the provision of ventilating equipment in the shallow portions of the land subways under Contract No. 3 should be pressed at this time. This question does not arise in connection with Contract No. 4 lines as we are now considering plans submitted by Mr. Menden for ventilating equipment for a portion of the Broadway Subway.”

Resolved, That the Chief Engineer of this Commission be and hereby is advised and directed to order full compliance with all requirements of said Contract No. 3 in respect to full and complete installation of all units of Equipment for the complete ventilation of all portions of the Railroad described in said Contract No. 3.

703—R. T. 6695

Route No. 8—Report by Engineer of Equipment and Operation and Chief Engineer Stating that Complete Automatic Block Signal System Will Not Be Provided Except in Tunnel and Other Points Requiring Special Protection Unless Otherwise Instructed—Approved.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 19, 1923, stating that unless otherwise ordered, he will make no provision in the plans for the signal equipment to be installed in the subway portion of the Fourteenth Street-Eastern Line for complete automatic block signal system except in the under-river portion, at curves and other points requiring special protection. In this respect they will conform to the signal protection provided in subways now operated. Upon motion, duly seconded and adopted, the report by the Chief Engineer was approved, subject to further investigation by him as to the necessity for a complete signal system.

704—R. T. 7663

Route No. 52, Section No. 3—Resolution Adopting Map and Memorandum for Acquisition of Two Parcels of Land on Amity Street Between Lawrence and Main Streets, Borough of Queens and Directing Corporation Counsel to Institute Condemnation Proceedings—Adopted

The following resolution was adopted:

Whereas, This Commission has caused three similar maps or plans to be made of certain property fronting on Amity Street between Lawrence and Main Streets, in the Borough of Queens, which is required for the construction, maintenance and operation of a municipal rapid transit railroad to be constructed and operated as an extension to the system provided for under a contract dated March 19, 1913, made by The City of New York, acting by the Public Service Commission for the First District, with Interborough Rapid Transit Company, known as Contract No. 3, and a contract dated March 19, 1913, made by The City of New York, acting by the Public Service Commission for the First District, with New York Municipal Railway Corporation, known as Contract No. 4, which said map or plan is entitled "State of New York, Transit Commission, Engineering Department, Route No. 52, Section No. 3, Map of Property to be Acquired for the Construction and Operation of a Portion of the Flushing Route," dated May 9, 1923, signed by Robt. Ridgway, Chief Engineer, and bearing the designation File No. 4503, Drg. No. 30, which certain property is indicated on said map or plan as Parcels Nos. 1 and 2; and

Whereas, This Commission has caused a memorandum to be made accompanying said map or plan and to be deemed part thereof, indicating the particular estate or estates, rights, terms, privileges, franchises or easements to be acquired or extinguished for the purposes of such construction, maintenance and operation in relation to the property described upon said map or plan; and

Whereas, This Commission deems it necessary to acquire said property described in said memorandum and on said map or plan in fee simple absolute, free from all liens and encumbrances, for the purpose of constructing and operating such municipal rapid transit railroad, free of interference or right of interference;

Resolved, That the said map or plan and accompanying memorandum be, and hereby are, approved and adopted; that a certificate of such approval and adoption be written upon said map or plan and memorandum and signed by the members of this Commission adopting and approving the same, and that one copy of said map or plan and accompanying memorandum be filed in the office of the President of the Borough of Queens, there to remain as a public record; that two sets of the map or plan and accompanying memorandum be transmitted to the Corporation Counsel of the City of New York, together with a certified copy of this resolution, and that such Corporation Counsel be, and he hereby is, directed to take legal proceedings to acquire for The City of New York the property described in said memorandum and on said map or plan; and it is

Further Resolved, That a copy of said map or plan and accompanying memorandum be filed in the office of this Commission.

The memorandum referred to above was as follows:

STATE OF NEW YORK
TRANSIT COMMISSION

MEMORANDUM

INDICATING THE PARTICULAR ESTATE OR ESTATES, RIGHTS, TERMS, PRIVILEGES, FRANCHISES OR EASEMENTS TO BE ACQUIRED OR EXTINGUISHED BY THE CITY OF NEW YORK FOR THE PURPOSES OF THE RAPID TRANSIT ACT, BEING CHAPTER 4 OF THE LAWS OF 1891 AS AMENDED, IN RELATION TO EACH AND EVERY PIECE OR PARCEL OF PROPERTY DESCRIBED UPON THE MAP OR PLAN ACCOMPANYING THIS MEMORANDUM AND OF WHICH THIS MEMORANDUM IS TO BE DEEMED PART.

THE CITY OF NEW YORK IS TO ACQUIRE WHEREVER THE SAME HAS NOT BEEN HERETOFORE ACQUIRED BY THE CITY OF NEW YORK AN ESTATE IN FEE SIMPLE ABSOLUTE FREE FROM ALL LIENS AND ENCUMBRANCES, AND ANY AND ALL RIGHTS, TERMS, INTERESTS, PRIVILEGES, FRANCHISES AND EASEMENTS, WHETHER OF OWNERS, ABUTTERS OR OTHERS, in and

to all those certain lots, pieces or parcels of land, with the buildings and improvements thereon, and any and all rights and emoluments pertaining thereto and in and to the bed of any street, road or avenue upon or proposed in front of or adjoining the said property, together with the easements pertinent thereto, shown upon the map or plan accompanying this memorandum and of which this memorandum is to be deemed part and designated therein as Parcels 1 and 2 situate, lying and being in the Borough of Queens, in the County of Queens, in the City and State of New York, and bounded and described as follows:

Parcel No. 1: Beginning at a point in the southerly line of Amity Street distant four hundred thirty-six and twenty-three one-hundredths (436.23) feet eastwardly from the corner formed by the intersection of the southerly line of Amity Street and the easterly line of Lawrence Street measured along the southerly line of Amity Street; running thence westwardly along the southerly line of Amity Street seventy-five and five one-hundredths (75.05) feet; thence southwardly along a course making on the easterly side thereof an angle of eighty-seven degrees, forty minutes and forty-five seconds ($87^{\circ} 40' 45''$) with the course last above described ninety-four and eighty-three one-hundredths (94.83) feet; thence eastwardly along a course at right angles with the course last above described seventy-four and ninety-eight one-hundredths (74.98) feet; thence northwardly ninety-one and seventy-nine one-hundredths (91.79) feet to the point or place of beginning.

Parcel No. 2: Beginning at a point in the northerly line of Amity Street distant six hundred twenty-six and forty one-hundredths (626.40) feet eastwardly from the corner formed by the intersection of the northerly line of Amity Street and the easterly line of Lawrence Street measured along the northerly line of Amity Street; running thence eastwardly along the northerly line of Amity Street twenty-five (25) feet; thence northwardly along a course making on the easterly side thereof an angle of ninety degrees, sixteen minutes and nineteen seconds ($90^{\circ} 16' 19''$) with the northerly line of Amity Street seventy-six and sixty-one one-hundredths (76.61) feet; thence westwardly along a course making on the southerly side thereof an angle of ninety-one degrees, thirty minutes and thirty seconds ($91^{\circ} 30' 30''$) with the course last above described twenty-five and one one-hundredth (25.01) feet; thence southwardly seventy-seven and fifteen one-hundredths (77.15) feet to the point or place of beginning.

The map or plan above mentioned accompanying this memorandum and of which this memorandum is to be deemed a part consists of one sheet having thereon a certificate of approval and adoption by the Transit Commission and bearing the seal of the Transit Commission and being entitled "State of New York Transit Commission Engineering Department Route No. 52 Section No. 3 Map of Property to be Acquired for the Construction and Operation of a Portion of the Flushing Route," dated May 9, 1923, signed by Robt. Ridgway, Chief Engineer, and numbered File No. 4503, Drg. No. 30.

The said estate in fee simple absolute in said parcels of property above described is required for the construction, maintenance and operation in perpetuity, free of interference and right of interference of a certain municipal rapid transit railroad known as the Flushing Route, adopted by the Public Service Commission for the First District on June 3, 1913, approved by the Board of Estimate and Apportionment of The City of New York on June 12, 1913, and by the Mayor of said City on June 17, 1913, to be operated as an extension of the existing municipal rapid transit railroad system under two separate contracts, both dated March 19, 1913, by the said City acting by said Commission with Interborough Rapid Transit Company and with New York Municipal Railway Corporation, and known respectively as Contract No. 3 and Contract No. 4.

This certifies that this memorandum and the map or plan accompanying the same were approved and adopted by the Transit Commission this 23rd day of May, 1923.

TRANSIT COMMISSION,

By GEORGE McANENY,

Chairman.

LEROY T. HARKNESS,

Commissioner.

JOHN F. O'RYAN,

Commissioner.

(L. S.)

JAMES B. WALKER,
Secretary.

705—R. T. 6924

Route No. 12, Section No. 1-A—Communication from New York Consolidated Railroad Company Submitting Proposed Permit to be Issued to Brooklyn Edison Company, Inc., to Install Electric Service Pipe Through Subway Ventilator in Front of Premises at No. 97 St. Felix Street, Brooklyn—Report by Chief Engineer Recommending Approval—Approval Resolution

A communication was presented from the New York Consolidated Railroad Company dated May 14, 1923, submitting for approval a proposed permit to be issued to the Brooklyn Edison Company, Inc., to install an electric service pipe through the subway ventilator in front of the premises at No. 97 St. Felix Street, Borough of Brooklyn.

A report was presented from the Chief Engineer, dated May 19, 1923, stating that the permit is satisfactory and recommending that it be approved.

The following resolution was adopted:

Whereas, By communication dated May 14, 1923, Lindley M. Garrison as Receiver of New York Consolidated Railroad Company has pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 4, submitted for the approval of this Commission a proposed permit dated May 14, 1923 proposed to be issued to Brooklyn Edison Company, Inc., granting the right to install a two and one-half inch electric service pipe through the ventilator of the municipal rapid transit railroad in front of the premises known as No. 97 St. Felix Street in the Borough of Brooklyn, City of New York; and

Whereas, The Chief Engineer of this Commission by communication dated May 19, 1923 has reported that he has examined said proposed permit and finds it satisfactory from an engineering standpoint and recommends its approval; and

Whereas, Counsel has examined said proposed permit and finds no objection thereto and recommends its approval,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed permit so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said permit.

706—R. T. 6080

Route No. 5, Section No. 15—Report by Real Estate Clerk Recommending Consent to Issuance of License to Peter Schneider to Maintain Stands Adjoining Property at Southeasterly Corner of East 157th Street and River Avenue, Borough of the Bronx—Approval Resolution

A report was presented from the Real Estate Clerk dated May 21, 1923, recommending approval of consent to the issuance of a license by the Department of Licenses to Peter Schneider to maintain one or more stands adjoining the building lines of the property at the southeasterly corner of East 157th Street and River Avenue, Borough of The Bronx.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of May 21, 1923, has recommended that the Secretary be authorized to execute, on behalf of the Commission, an owner's consent to the issuance by the Department of Licenses of The City of New York of one or more licenses to maintain stands adjoining the property at the southeasterly corner of East 157th Street and River Avenue, Borough of The Bronx, by Peter Schneider, a direct tenant of the Commission on such premises, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, authorize and direct the Secretary to execute in its behalf an owner's consent to the issuance by the Department of Licenses of The City of New York a license to the maintenance of stands adjoining the premises as aforesaid.

707—R. T. 6458

Contract No. 1—Report by Chief Engineer Recommending that no Additional Stairway be Built at 96th Street Station on West Side Subway Unless Same May be Located in Parkway in Middle of Street—Referred Back to Chief Engineer

A report was presented from the Chief Engineer dated April 24, 1923, referring to the resolution adopted by the Board of Estimate and Apportionment on April 6, 1923, which referred back to the Commission a proposed agreement for an additional stairway at the 96th Street Station of the West Side subway with the request that a plan be submitted showing an entrance within the curb line instead of from the park area in the middle of the street. The report by the Chief Engineer recommended that no additional stairway be built at the present time unless the same may be located in the parkway in the middle of Broadway.

Upon motion duly seconded and adopted the matter was referred back to the Chief Engineer to confer with the Police Commissioner, President of the Borough of Manhattan and the Commissioner of Parks.

708

Staten Island Edison Corporation—Application for Consent to Acquire Capital Stock of Richmond Light and Railroad Company and Richmond Railways, Inc.—Communication from Attorneys for Company Transmitting Proposed Form of Order—Opinion by Counsel—Reply by Secretary Approved

The Secretary presented a communication, dated May 29, 1923, from Messrs. Travis, Spencer & Hopkins, Attorneys for the Staten Island Edison Corporation, transmitting a proposed order authorizing the purchase by the Staten Island Edison Corporation of the capital stock of the Richmond Light and Railroad Company and the Richmond Railways, Inc. The Secretary also presented an opinion, dated May 14, 1923, by Assistant Counsel Stover, recommending that no action be taken by the Commission until the transfer of the electrical franchises and works of the Richmond Light and Railroad Company to the Staten Island Edison Corporation had been approved by the Public Service Commission and until the stock of the Richmond Railways, Inc., had been issued to the Richmond Light and Railroad Company. The Secretary also presented a copy of his reply, dated May 16, 1923, to Messrs. Travis, Spence & Hopkins, advising that action upon their request would be deferred until action had been taken by the Public Service Commission consenting to the transfer of the electrical franchises and works of the Richmond Light and Railroad Company.

Thereupon, the above mentioned opinion by Counsel and reply by the Secretary to the Commission were approved.

709—R. T. 7648

Order No. 8—Statement as to Execution and Delivery of Original Contract for Supply of Ties and Timber—Contract Filed

The Commission ordered filed an original contract dated May 11, 1923, between The City of New York, acting by the Transit Commission and Alfred R. Sax Lumber Company for furnishing ties and timber, Order No. 8, which contract had been executed on behalf of both parties and delivered on May 18, 1923.

710—R. T. 7636

Route No. 16—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Jacob Schlesinger, Inc., for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard and Authorizing Appropriation of \$369,402.40—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 11, 1923, was ordered filed:

(Cal. No. 72)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 18, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with Jacob Schlesinger, Inc., for the construction of inspection shed and service buildings at the Jerome Avenue Yard Route No. 16, at an estimated cost of three hundred and sixty-nine thousand four hundred and two dollars and forty cents (\$369,402.40); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three hundred and sixty-nine thousand four hundred and two dollars and forty cents (\$369,402.40); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated April 18, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding three hundred and sixty-nine thousand four hundred and two dollars and forty cents (\$369,402.40), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock (*instead of being charged as a subauthorization* against the general appropriations for Contract No. 3 as requested in said requisition of the Transit Commission), to be in *addition* to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 11, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated May 17, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel returning the above mentioned contract approved as to form was also ordered filed.

711—R. T. 7657

Contract No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Agreement for Installation of Exit Turnstile at South End of Northbound Platform of Prospect Avenue Station—Communication from Acting Corporation Counsel Returning Agreement Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 11, 1923, was ordered filed:

(Cal. No. 71)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 18, 1923, the Board of Estimate and Apportionment does hereby consent to the agreement with the Interborough Rapid Transit Company, lessee, for the purpose of carrying out the work of installing an exit turnstile at the south end of the north-bound platform of the Prospect Avenue Station of the Manhattan-Bronx Rapid Transit Railroad, at an estimated cost to The City of New York of three hundred dollars (\$300), that sum being one-half of the total estimated cost of six hundred dollars (\$600), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three hundred dollars (\$300); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding three hundred dollars (\$300), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said agreement; said issue of corporate stock to be charged as a sub-authorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 11, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication from Arthur J. W. Hilly, Acting Corporation Counsel, dated May 18, 1923, returning the above agreement, approved as to form, was ordered filed:

712—R. T. 6334

Contract No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$600.00 as City's Share of Cost for Reconstruction of Entrance to Dyckman Street Station—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 11, 1923, was ordered filed:

(Cal. No. 69)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 25, 1922, the Board of Estimate and Apportionment does hereby consent to and authorize an appropriation of six hundred dollars (\$600), to provide for the City's share of the cost of the reconstruction of the entrance to the Dyckman Street Station of the Manhattan-Bronx Rapid Transit Railroad as "addition to construction" under Contract No. 3 (*instead of an appropriation of twelve hundred dollars (\$1,200) for extra work under Contract No. 1, as requested by the Transit Commission*); said sum of six hundred dollars (\$600) being one-half of the total estimated cost of twelve hundred dollars (\$1,200) for said work, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe

[May 23, 1923

that the limit to the proceeds of corporate stock available for said purpose shall be six hundred dollars (\$600); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding six hundred dollars (\$600), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said "addition to construction" under Contract No. 3; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 11, 1923.

JAMES MATTHEWS,
Assistant Secretary.

713—R. T. 7564, 7611

**Contract No. 3—Communication from Board of Estimate and Apportionment
Submitting Copy of Opinion by Corporation Counsel with Respect to Sub-
mission of Supplementary Agreements for "Additions to Construction"—
Filed**

The following communication from the Board of Estimate and Apportionment was ordered filed:

May 18, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

Referring to your communication dated February 27, 1923, relative to the requirement by this Board of an additional supplementary agreement with respect to "Additions to Construction" under Contract No. 3, I am forwarding herewith for your information, a copy of an opinion by the Corporation Counsel with respect to this question.

At the meeting of the Board of Estimate and Apportionment on May 18, 1923, your communication of February 27, 1923, was placed on file, and the Secretary was directed to forward to you a copy of the enclosed opinion of the Corporation Counsel.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

The enclosure referred to in the above communication was as follows:

April 13, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Sirs:

I have your communication of March 31, 1923, signed by James Matthews, Assistant Secretary, and reading as follows:

"Enclosed please find copy of a communication dated February 27, 1923, from the Transit Commission, stating that the requirement by the Board of an additional or supplementary agreement with respect to 'Additions to Construction' under Contract No. 3, merely repeats in contracted form the more elaborate and detailed particulars of said contract and creates an advantage for the lessee, inasmuch as it affords an opportunity for contesting the form and contents of the agreement and a basis for refusing to execute same, as not required by Contract No. 3, that the great advantage to the City by reason of the contract provisions with respect to 'Additions to Construction' is thus defeated, and in the opinion of the Commission the requirement with respect to agreements providing for the construction 'Additions to Construction' under Contract No. 3, in those

cases where the lease is required to do the work should be withdrawn. A copy of a report prepared in this office relative to the matter is also enclosed.

At the meeting of the Committee of the Whole on March 28, 1923 (Cal. No. T-9) this matter was laid over for one month and referred to the Corporation Counsel for an opinion on the question raised by the Transit Commission."

The policy of requiring supplemental agreements in writing for the construction of Additions to Construction of the rapid transit railroads under the provisions of Subway Contract No. 3 was adopted by your Board as the course to be pursued under the provisions of Articles LXX and LXXI of the subway contract. Your Board had the authority to do this, in the exercise of discretion, whenever the expense incurred for such construction required "to carry it out the authorization by the local authority of corporate stock or bonds of the city in addition to the corporate stock or bonds required to carry out such existing contracts."

Upon being requested so to do, a form of supplemental agreement was approved by this department, and construction work on additions to the rapid transit railroads has been carried on under such form of supplemental agreement.

I have to advise you, however, that your Board may, whenever proper occasion arises therefor on representations made by the Transit Commission, dispense with such supplemental agreement and permit the work required to be done, under the supervision and direction of the Transit Commission, directly by the lessee as that Commission may prescribe. Of course, the whole matter is one of policy which will be determined by the Board of Estimate and Apportionment as occasions arise and under the particular facts and circumstances pertaining thereto.

Respectfully yours,
GEO. P. NICHOLSON,
Corporation Counsel.

714—R. T. 7038

Route No. 50—Communication from Acting Corporation Counsel Transmitting Original Deed of Release for Easements in Front of Premises at No. 27 Ely Avenue, Borough of Queens—Filed

A communication was ordered filed from Arthur J. W. Hilly, Acting Corporation Counsel, dated May 18, 1923, transmitting an original recorded deed of release, dated July 28, 1922, from Andrew Hayslip, Sr., et al. conveying to The City of New York certain easements acquired in front of the premises at No. 27 Ely Avenue, Borough of Queens, which document was recorded in the office of the Clerk of Queens County on January 31, 1923, on Page 49 of Liber No. 2477 of Conveyances, and is indexed under Section No. 2, Block No. 39, on the land map of the County of Queens.

715—R. T. 7497

Route No. 31—Consents of Contractor and Sureties to Resolution Extending Time to April 28, 1923, Within which to Complete Contract for Installation of Tracks and Construction of Concrete Inspection Pits at Livonia Avenue Yard—Filed

Consents were ordered filed from B. T. & J. J. Mack and sureties upon the bond deposited by the contractor to the resolution of the Commission adopted on May 8, 1923, extending the time of the contractor to and including April 28, 1923, within which to complete the work for the installation of tracks and the construction of concrete inspection pits and other miscellaneous work at the Livonia Avenue Yard, Route No. 31.

716—R. T. 7479

Route No. 5, Section No. 15—Receipt from Department of Finance for Check in Sum of \$3,450.00 as Balance of Purchase Price of Property Sold at Public Auction Between Walton and Gerard Avenues, North of East 146th Street, Borough of The Bronx—Filed

The following receipt was ordered filed:

May 11, 1923.

CHARLES L. CRAIG,
Comptroller.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE
BUREAU OF ACCOUNTANCY
DIVISION OF RECEIPTS

Received from Transit Commission check of John A. McCarthy for Three thousand four hundred fifty 00/100 Dollars (\$3,450.00).

Particulars:

Balance of purchase price of Plot No. VIII between Walton and Gerard Avenues, 105 feet north of East 146th Street, Borough of The Bronx, sold at public auction on January 16, 1923.

For Comptroller
H. H. RATHYEN,
Auditor of Receipts.

717

Fees Received During April, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of April, 1923, fees, etc., to the amount of \$7,851.21 and refunds of rental from rapid transit real estate to the amount of \$3,903.60 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$7,851.21 to be accredited to the General Fund of The City of New York, and the sum of \$3,903.60 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

Employees' Resolution No. 144

(28)

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—Max Nachamis, stenographer, at \$90.00 per month, to take effect May 17, 1923.

Appointments under Rule VIII:4—Leo Blankman, draftsman, at \$150.08 per month, to take effect May 16, 1923; Jacob D. Mednick, draftsman, at \$150.08 per month, to take effect May 21, 1923; Morris Nagin, junior assistant, at \$125.08 per month, to take effect May 21, 1923; Lloyd B. Nicholson, draftsman, at \$150.08 per month, to take effect May 28, 1923; Abraham Skeer, junior assistant, at \$125.08 per month, to take effect May 21, 1923.

Appointments under Rule VIII:9—James W. Carew, engineering inspector, at \$150.08 per month, to take effect June 20, 1923; Thomas F. Corcoran, junior assistant, at \$125.08 per month, to take effect June 19, 1923.

Reinstatement under Rule XVI:1—W. J. Huber, inspector of steel, at \$175.00 per month, to take effect May 23, 1923.

Rescission of Appointment under Rule VIII:4—Louis H. Chouinard, junior assistant, at \$125.08 per month, to take effect May 14, 1923.

Resignations—Alex M. Emerman, junior assistant, at \$125.08 per month, to take effect May 16, 1923; Thomas Ogilby, junior electrical engineer, at \$152.50 per month, to take effect June 9, 1923; Joseph R. Rosenfeld, junior electrical engineer, at \$162.50 per month, to take effect June 19, 1923.

Termination of Appointments under Rule VIII:4—James W. Carew, engineering inspector, at \$150.08 per month, to take effect June 19, 1923; Thomas F. Corcoran, junior assistant, at \$125.08 per month, to take effect June 18, 1923.

Change of Item in Resolution of May 15, 1923, Concerning Ellen Hewith, so as to Read as Follows: (Appointment under Rule V:4)—Ellen Hewith, janitress, at \$15.00 per month, to take effect May 2, 1923.

Change of Item in Resolution of May 15, 1923, Concerning Ira B. Thomson, so as to Read as Follows: (Resignation)—Ira B. Thomson, draftsman, at \$150.08 per month, to take effect May 12, 1923.

Leave of Absence with Pay—Richard A. Berry, assistant engineer, from November 14, 1922, to November 16, 1923.

Leave of Absence without Pay—Anna Friedberg, stenographer, from May 13, 1923, to September 3, 1923.

719

Voucher Schedule No. 21

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 281-286, miscellaneous bills, \$4,721.27.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 125, B. T. & J. J. Mack, Inc.; approximate estimate No. 3 for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Rapid Transit Railroads, from April 16, 1923 to May 15, 1923 (R. T. 7587), \$2,514.98;

Voucher No. 126, Charles H. Brown & Son, Assignee; approximate estimate No. 15 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from April 16, 1923 to May 15, 1923 (R. T. 7539), \$11,084.45;

Voucher No. 127, Jacob Schlesinger, Inc.; approximate estimate No. 10, for the construction of a second addition to shops at the 148th Street and Lenox Avenue Yard, under Contract No. 3, from April 16, 1923 to May 15, 1923 (R. T. 7368), \$2,918.25;

Voucher No. 128, Lindley M. Garrison, Receiver, New York Municipal Railway Corporation; approximate estimate No. 2 for lengthening platforms at Canal Street station of the Centre Street Loop of the Broadway-Fourth Avenue Line, from April 1, 1923 to April 30, 1923 (R. T. 7431), \$5,055.37.

720

Hearing

The following hearing was held:

2 P. M.; Case 2679; Brooklyn Rapid Transit Company; Application of the Stockholders' Committee for approval of Plan of Reorganization. Chairman McAneny and Commissioner Harkness presided. Adjourned to May 28, 1923 at 2:30 P. M.

—
JAMES B. WALKER,
Secretary.

Proceedings for Monday, May 28, 1923

721

Hearings

The following hearings were held:

11 A. M.; Case 2686; Bush Terminal Railroad Company; Application for permission under Section 53 of the Public Service Commission Law to exercise the right to construct and operate an additional spur track in 41st Street, Borough of Brooklyn. George L. Lucas, Acting Chief Executive Officer, presided. Hearing closed.

2:40 P. M.; Case 2679; Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization. Chairman McAneny and Commissioners Harkness and O'Ryan presided. Adjourned to May 31, 1923 at 11:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, May 29, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

722—R. T. 7636

Route No. 16—Resolution Approving Sureties Upon Bond in Sum of \$50,000 Deposited by Contractor as Security for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard—Adopted.

The following resolution was adopted:

Resolved, That the Globe Indemnity Company, Continental Casualty Company, Maryland Casualty Company and Standard Accident Insurance Company be and hereby are approved as sureties upon the bond in the sum of Fifty thousand (\$50,000) dollars, deposited by Jacob Schlesinger, Inc., as security for the faithful performance of the contract for the construction of an inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16, each of said sureties being held and bound in the sum of Twelve thousand five hundred (\$12,500) dollars.

723—R. T. 7639

Agreement "CC"—Resolution Approving Sureties Upon Bond in Sum of \$25,000 Deposited by Contractor as Security for Changes in Subway Structure to Permit Widening of East 60th Street—Adopted.

The following resolution was adopted:

Resolved, That the Globe Indemnity Company and Continental Casualty Company be and hereby are approved as sureties upon the bond in the sum of Twenty-five thousand (\$25,000) dollars, deposited by Jacob Schlesinger, Inc., as security for the faithful performance of the contract for making changes in the subway structure, Routes Nos. 4 & 36, Section No. 5, so as to permit the widening of East 60th Street, between Second and Fifth Avenues, Borough of Manhattan, Agreement "CC," each of said sureties being held and bound in the sum of Twelve thousand five hundred (\$12,500) dollars.

734—R. T. 5006

Agreement "CI"—Resolution Approving Sureties Upon Bond in Sum of \$1,000 Deposited by Contractor for Making Borings at Sites of Proposed Storage Yards and Extension of Seventh Avenue Line—Adopted

The following resolution was adopted:

Resolved, That the United States Fidelity and Guaranty Company and Globe Indemnity Company be and hereby are approved as sureties upon the bond in the sum of One thousand (\$1,000) dollars, deposited by Philip J. Healey as security for the faithful performance of the contract for making borings on sites of the proposed Coney Island and Westchester Avenue storage yards and along the proposed extension of the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park, Agreement "CI," each of said sureties being held and bound in the sum of Five hundred (\$500) dollars.

725—R. T. 7516

Route No. 8, Sections Nos. 3, 4 and 5—Report by Chief Engineer Recommending Approval of Lump Sum Price of \$628.83 for Furnishing and Installing Additional Floor Drains in Toilet Rooms Under Contract for Construction of Station Finish—Approval Resolution

A report was presented from the Chief Engineer dated May 24, 1923, recommending the approval of a lump sum price as described below and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated May 16, 1922, between the City of New York, acting by the Transit Commission, and the Station Finish Corporation, for the completion of construction of station finish for a part of the Fourteenth Street-Eastern Rapid Transit Railroad, known as Route 8, Sections 3, 4 and 5, having, subject to the approval of the Commission, agreed with the said contractor on the following schedule item:

Item No. 547-P—For furnishing and installing piping system connecting additional floor drains in toilet rooms and making consequent changes and other changes in the rough plumbing work all as indicated on the working drawings and as per the direction of the Engineer, the lump sum of..... \$628.83

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

726—R. T. 7369

Route No. 8—Stipulation with New York Municipal Railway Corporation and New York Consolidated Railroad Company as to Equipment and operation of Completed Portion of Fourteenth Street-Eastern Line—Approval Resolution

The following resolution was adopted:

Whereas, By communication dated February 2, 1923, this Commission pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation known as Contract No. 4 and particularly Article LII thereof, declared that portion of the Fourteenth Street-Eastern Line between its westerly terminus at or about Sixth Avenue and West 14th Street in the Borough of Manhattan at a point in the Borough of Brooklyn at or about the intersection of Bushwick Avenue and Montrose Avenue to be ready for Equipment as defined in said Contract No. 4, and directed the Receiver of said New York Municipal Railway Corporation to forthwith commence and expeditiously complete the installation of all Equipment necessary for operation of such portion of said line as more particularly in said communication set forth; and

Whereas, Questions of dispute have arisen between this Commission and the Receiver of said New York Municipal Railway Corporation and the Receiver of New York Consolidated Railroad Company, the assignee of the operating provisions under

said Contract No. 4 as to the legal and contractual authority and power of the Commission to make such declaration or to require the operation of said portion of said line after completion the said Receiver and said corporations denying that the Commission has such authority and the Commission contending that it has such authority; and

Whereas, To avoid controversy and obviate delay the parties have agreed upon a form of stipulation which has been executed by the Receiver of the New York Municipal Railway Corporation and the Receiver of the New York Consolidated Railroad Company and by said corporations respectively whereby the questions in dispute are held in abeyance, the said Receivers and said corporations agreeing to equip said portion of said line and to operate the same without thereby prejudicing their claim and contentions aforesaid; and

Whereas, By order dated May 23, 1923 entered in the District Court of the United States for the Southern District of New York said Receivers by order made by Hon. J. M. Mayer, U. S. C. J. have been authorized to enter into said proposed stipulation; and

Whereas, Counsel has examined said proposed stipulation and recommends the approval thereof,

Resolved, That the stipulation so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver the same.

727—R. T. 6515

Routes Nos. 4 & 38, Section No. 5—Proposed Agreement with Interborough Rapid Transit Company for Alterations in Subway Structure at Northeast Corner of Seventh Avenue and West 30th Street so as to Permit Widening of Roadway on West 30th Street, Borough of Manhattan—Approval Resolution.

The following resolution was adopted:

Whereas, By resolution adopted on May 4, 1923, the Board of Estimate and Apportionment of The City of New York, appropriated the sum of three thousand dollars (\$3,000.) to be used for the necessary alterations in the Municipal Rapid Transit Railroad structure at the northeast corner of Seventh Avenue and Thirtieth Street in the Borough of Manhattan, City of New York, made necessary by the proposed widening of the roadway at West Thirtieth Street at that point, the work to be performed by the operating company under the supervision of the Transit Commission all as more particularly provided in said resolution; and

Whereas, The Transit Commission has agreed to direct and superintend the performance of such work and Counsel has accordingly prepared and submitted a proposed agreement between The City of New York acting by this Commission and said Interborough Rapid Transit Company as contractor for the performance of the work and directing the necessary changes in the subway structure at the northeast corner of Thirtieth Street and Seventh Avenue, in the Borough of Manhattan and has recommended the approval thereof,

Resolved, That said proposed agreement so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver the same for and on behalf of this Commission.

728—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Cable for Connecting Ventilating Equipment in 74th Street Fan Chamber to Substation No. 42—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated May 18, 1923, requesting approval of a proposed purchasing agent's order directed

to Bishop Gutta-Percha Company for furnishing cable for connecting the ventilating equipment in the 74th Street and Lexington Avenue fan chamber to Substation No. 42, at a total cost of \$2,544.21.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated May 8, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated May 18, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated May 18, 1923, directed to Bishop Gutta-Percha Company for the following:

Item 1. 4,860 ft. 1 cond. 4/0 R.I.L.C. 650 V Cable as per Spec. No. 2, Issue No. 4, on reels as follows:		
R. T. pc. No.	Length	
5279	1426 ft.	
5280	1846 ft.	
5281	1588 ft.	
Price: \$429.00 per M. ft.....		\$2,084.94
Item 2. 4,860 ft. 1 cond. No. 10 stranded R.I.L.C. 650 V cable as per Spec. No. 2, Issue No. 4, on reels as follows:		
R. T. pc. No.	Length	
5282	2344 ft.	
5283	2516 ft.	
Price: \$94.50 per M. ft.....		459 27
Total		\$2,544.21
Item 1 to be delivered July 1st, 1923.		
Item 2 to be delivered June 15th, 1923.		

which proposed purchasing agent's order has been caused to be designated as "Approval No. 484"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated May 8, 1923, reported that the following bids were received for such work:

	Price per 1000 ft.	
	Item 1	Item 2
Bishop Gutta-Percha Co.....	\$429.00	\$94.50
Standard Underground Cable Co.....	429.80	115.30
American Steel & Wire Company.....	431.40	109.40
Okonite Company	472.00	125.00

; that the cable is necessary for connecting the ventilating equipment in the 74th Street and Lexington Avenue fan chamber to Substation No. 42 at 150 East 57th Street; that the price is reasonable and the best obtainable; that the successful bidder is a reliable manufacturing company and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated May 29, 1923, has recommended that the said material be classified as Equipment of the Railroad, as described in said Contract No. 3,

Resolved, That the said proposed purchasing agent's order so submitted be and the same hereby is approved; that the said report and recommendation of the Chief Engineer be and the same hereby is approved, such material to be classified as Equipment of the Railroad as described in said Contract No. 3 and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order

729—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Station and Tunnel Lighting Control Panels for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated May 4, 1923, requesting approval of a proposed purchasing agent's order directed to the General Electric Company for furnishing 23 station and panel lighting control panels for the Fourteenth Street-Eastern Line, at a cost of \$5,750.00.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer dated May 4, 1923, stating that the material is necessary and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation has by communication dated May 4, 1923, requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated May 4, 1923, directed to General Electric Company for the following:

23 Station and Tunnel Lighting Control Panels, as follows:

4 Panels—Dwg. A-2209-1	
10 Panels	2180
1 Panel	2181
4 Panels	2182
3 Panels	2183
1 Panel	2183, except that framework is to be same height as that shown on Dwg. A-2180, and wall braces to be supplied.

\$5,750.00 Lot
Delivered.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 347"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated May 24, 1923, reported that said material should be used for station and tunnel lighting control for the 14th Street-Eastern Line of the Railroad, described in said Contract No. 4; that the following bids were received for such material:

General Electric Co.....	\$5,750
Westinghouse Electric & Mfg. Co.....	6,000
* Sundh Electric Co.....	5,859
Cutter Elec. & Mfg. Co.....	No bid

* Did not conform to specifications, quoted on slate instead of marble panels.

; that such material is necessary; that the prices are the best obtainable and reasonable; that the specifications are satisfactory from an engineering standpoint and recommend the approval of said proposed purchasing agent's order; and

Whereas, By endorsement dated May 29, 1923, the Auditor of Rapid Transit Costs has recommended that said material be classified as Equipment of the Railroad as described in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that said proposed purchasing agent's order so submitted be and the same

hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, said material to be classified as Equipment of the Railroad as described in said Contract No. 4.

730—Case 2612

Pennsylvania Tunnel & Terminal Railroad Company, Pennsylvania Railroad Company—Application for Approval of Extension of Operating Agreement with Pennsylvania Railroad Company—Approval Order Adopted

The Secretary presented a petition, dated and verified May 17, 1923, of the Pennsylvania Tunnel & Terminal Railroad Company, asking for the approval of an agreement made and entered into May 10, 1923, between the Pennsylvania Tunnel & Terminal Railroad Company and the Pennsylvania Railroad Company, extending to March 31, 1924, a certain agreement, dated September 14, 1917, between said companies providing for the operation of the railroad and appurtenances of the Pennsylvania Tunnel & Terminal Railroad Company by the Pennsylvania Railroad Company, as Agent.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2612, approving the above mentioned agreement extending the time of the agreement, dated September 14, 1917, to March 31, 1924, on the condition that the extension should not be construed as in any way affecting the legal obligation of the Pennsylvania Tunnel & Terminal Railroad Company to the City of New York, the State of New York, or to the public.

731—Case 2684

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which Cross Island Boulevard (Squire Street) Shall Be Carried Across the Main Line of Railroad—Report and Opinion by Acting Chief Executive Officer—Order Directing Elimination Adopted

The Secretary presented a report and opinion, dated May 25, 1923, by the Acting Chief Executive Officer recommending that Cross Island Boulevard (Squire Street) be carried across the Main Line of the Long Island Railroad Company under the railroad, the latter to be constructed by raising the tracks from their present elevation to the elevation aforesaid and that the street be graded in accordance with the lines and grades shown on a map bearing the signature of the President of the Borough of Queens, entitled Map No. 1115, and dated December 20, 1922, and providing that the plans and specifications of contract, if any, be submitted to the Commission for approval.

Thereupon, the above mentioned Opinion in Case No. 2684 was approved and an Order in Case No. 2684 adopted in accordance with the recommendations contained in the aforesaid Opinion and requiring that within five days the company should notify the Commission whether the Order was accepted and would be obeyed.

732—Case 2685**The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which 211th Street (Bellaire Boulevard) Shall Be Carried Across the Main Line of Railroad—Report and Opinion by Acting Chief Executive Officer—Order Directing Elimination Adopted**

The Secretary presented a report and opinion, dated May 25, 1923, by the Acting Chief Executive Officer recommending that 211th Street (Bellaire Boulevard) be carried across the Main Line of the Long Island Railroad Company under the railroad, the latter to be constructed by raising the tracks from their present elevation to the elevation aforesaid and that the street be graded in accordance with the lines and grades shown on a map bearing the signature of the President of the Borough of Queens, entitled Map No. 1114, and dated December 21, 1922, and providing that the plans and specifications of contract, if any, be submitted to the Commission for approval.

Thereupon, the above mentioned Opinion was approved and an Order in Case No. 2685 adopted in accordance with the recommendations contained in the aforesaid Opinion and requiring that within five days the company should notify the Commission whether the Order was accepted and would be obeyed.

733—Case 2687**Nassau Bus Line, Inc.—Application for Certificate of Convenience and Necessity for the Operation of a Stage Route by Motor Buses Between Beach 20th Street and Coronado Beach, Borough of Queens—Hearing Order Adopted**

The Secretary presented a communication, dated May 24, 1923, from the Nassau Bus Line, Inc., by P. M. Weidmann, President and General Manager, asking for a certificate of convenience and necessity for the operation of a stage route by motor buses between Beach 20th Street and Coronado Beach, in the Borough of Queens.

Thereupon, the Commission adopted and ordered filed an Order in Case No. 2687, directing a hearing on June 11, 1923 at 10:30 o'clock in the forenoon with respect to the matter.

734—Case 2625**Eighth Avenue Railroad Company—Application for Authority to Issue Bonds Secured by Real Estate Mortgage—Supplemental Petition of Company Showing Method of Disposition of \$100,000 Additional Mortgage—Referred to Counsel**

The Secretary presented a supplemental petition, dated May 25, 1923, of the Eighth Avenue Railroad Company, showing how the \$100,000 bond and mortgage additional to the \$800,000 bond and mortgage already authorized was to be consolidated with the larger bond and mortgage in connection with the proceeding pending before the Commission in Case No. 2625.

Thereupon, the above mentioned papers were referred to Counsel to the Commission

735—S. P. 748

The Nassau Electric Railroad Company, Receiver—Operation of Church Avenue Line Without Transfers—Special Permission No. 748 Approved

The Secretary presented a communication, dated May 28, 1923, from M. B. Hoffman, for Lindley M. Garrison, Receiver, of The Nassau Electric Railroad Company, advising that under Chapter 747 of the Laws of 1923 in effect May 24, 1923, the Transit Commission was authorized to extend for a further period of one year the operation of the Church Avenue Line without issuing, receiving or exchanging transfers and requesting that the Commission permit The Nassau Electric Railroad Company and its Receiver to so operate the said line. The Secretary also presented his report, dated May 29, 1923, advising that similar action had been taken by the Commission last year and recommending the granting of the application.

Thereupon, the Commission approved Special Permission No. 748, granting permission to The Nassau Electric Railroad Company and Lindley M. Garrison, its Receiver, to operate for a period of one year beginning May 24, 1923, the Church Avenue Line of the Company without issuing, receiving or exchanging transfers and to continue in effect the schedules then on file with the Commission indicating such operation and providing that the Order take effect May 24, 1923, and requiring that within five days after receipt of the Order, the Company and the Receiver should notify the Commission whether the terms thereof would be accepted and obeyed.

736—Case 2601

New York Railways Company—Receiver—Complaint of S. M. Jackson Jacobs Relative to Failure of Sixth and Ninth Avenue Surface Lines to Transfer Northbound at 53d Street—Letter from Counsel Transmitting Notice of Motion, Affidavit and Brief of Receiver for Leave to Appeal to the Court of Appeals and Commission's Brief in Opposition—Filed

The Secretary presented a communication, dated May 22, 1923, from Assistant Counsel Stover, approved by Counsel to the Commission, transmitting notice of motion, affidavit and brief of Job E. Hedges, as Receiver of the New York Railways Company, for leave to appeal to the Court of Appeals from the decision of the Appellate Division, First Department, which confirmed an Order made by the Commission in Case No. 2601 on July 12, 1921, directing the Receiver to honor transfers issued by The Ninth Avenue Railroad Company and presented at Seventh Avenue and 53rd Street, together with brief in opposition in behalf of the Commission advising that the papers were submitted to the Court on May 21, 1923.

Thereupon, the above mentioned papers were ordered filed.

737—R. T. 7522

Agreement "CM"—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Issue of \$40,000 Tax Notes to be Used for Reconstructing Retaining Wall on Both Sides of 60th Street Tunnel at North Jane Street, Borough of Queens so as to Permit Change in Street Grades—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 18, 1923, was ordered filed:

(Cal. No. 65)

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding forty thousand dollars (\$40,000), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which to the amount of the par value thereof to be used for reconstructing the retaining wall on both sides of the 60th Street Tunnel of the Brooklyn Rapid Transit Railroad Company at North Jane street, Borough of Queens, under the jurisdiction of the President, Borough of Queens; such work to be performed under the supervision of the Transit Commission and the fund to be expended by the Borough President upon vouchers to be prepared by said Transit Commission.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 18, 1923.

JAMES MATTHEWS,
Assistant Secretary.

738—R. T. 5006

Agreement "CI"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with Philip J. Healey for Making Borings and Authorizing Appropriation of \$7,380—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Communications and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 18, 1923, was ordered filed:

(Cal. No. 66)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 25, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with Philip J. Healy, for the work of making test borings in the proposed Coney Island Line, in the Borough of Brooklyn; in the proposed Westchester Line, in the Borough of The Bronx, and along the proposed extension of the Broadway-Fourth Avenue Line in Central Park between 7th avenue and Central Park West, Borough of Manhattan (Agreement "CI"), at an estimated cost of seven thousand three hundred and eighty dollars (\$7,380); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be seven thousand and three hundred and eighty dollars (\$7,380); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding seven thousand three hundred and eighty dollars (\$7,380), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged, to the extent of two thousand one hundred and ninety-five dollars* (\$2,195), as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to the extent of five thousand one hundred and eighty-five dollars (\$5,185), as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 18, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated May 24, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

The original contract dated May 28, 1923, with Philip J. Healey, which contract had been executed and delivered on May 29, 1923, was ordered filed.

739—R. T. 7639

Agreement "CC"—Certified Copies of Resolutions of Board of Estimate and Apportionment Rescinding Resolution Adopted on March 23, 1923, Consenting to Contract with Benedetto, Saussez and Bottino for Changes in Subway Structure Due to Widening of East 60th Street and Consenting to Contract with Jacob Schlesinger, Inc., Second Lowest Bidder, and Authorizing Appropriation of \$89,350—Statement as to Execution and Delivery of Original Contract—Resolutions and Contract Filed.

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on May 18, 1923, were ordered filed:

(Cal. No. 67-A)

Resolved, That, pursuant to a resolution adopted by the Transit Commission May 1, 1923, the resolution adopted by the Board of Estimate and Apportionment, on March 23, 1923 (pursuant to a requisition of the Transit Commission, dated February 27, 1923), consenting to a contract with Benedetto, Saussez and Bottino for making changes in the subway structures necessitated by the widening of 60th street between 2d and 5th avenues, Borough of Manhattan, the cost thereof to be charged to the fund, Code NPM-59, be and the same is hereby *rescinded*.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 18, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 67-B)

Resolved, That, pursuant to the resolution of the Transit Commission to this Board, dated May 1, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to the contract with Jacob Schlesinger, Inc., for making changes in subway structures necessitated by the widening of 60th street between 2d and 5th avenues, Borough of Manhattan, at an estimated cost of eighty-nine thousand three hundred and fifty dollars (\$89,350), the cost thereof to be charged to the tax notes appropriation authorized by the Board of Estimate and Apportionment on July 19, 1922 (Code NPM-59, Reconstructing Gratings, Vault Lights, Etc., Along the Curb Line of 60th Street, between 2d and 5th Avenues, to Permit of the Widening of the Roadway of the Street); all payments in connection with said contract to be made upon vouchers prepared and submitted by the Transit Commission and approved by the President of the Borough of Manhattan.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 18, 1923.

JAMES MATTHEWS,
Assistant Secretary.

An original contract was ordered filed, dated May 23, 1923, between the City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for making changes in the subway structure so as to permit the widening of the roadway of East 60th Street; Agreement "CC," which contract had been executed on behalf of both parties and delivered on May 25, 1923.

740—R. T. 7636

Route No. 16—Statement as to Execution and Delivery of Original Contract for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard—Contract Filed

An original contract was ordered filed, dated May 23, 1923, between the City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for the construction of an inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16, which contract had been executed on behalf of both parties and delivered on May 24, 1923.

741—R. T. 7663

Route No. 52, Section No. 3—Receipts from Corporation Counsel and President of Borough of Queens for Map and Memorandum for Condemnation Proceedings to Acquire Property on Amity Street Between Lawrence and Main Streets, Borough of Queens—Filed

Original receipts were ordered filed, one from the Office of the Corporation Counsel dated May 24, 1923, and one from the President of the Borough of Queens dated May 25, 1923, for originals of map and memorandum adopted by the Commission on May 23, 1923, showing certain property fronting on Amity Street between Lawrence and Main Streets, Borough of Queens, Route No. 52, Section No. 3, to be acquired in fee by condemnation for the construction, maintenance and operation of a portion of the Flushing Route.

742

Employees' Resolution No. 145

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Amedeo Carmina, engineering inspector, at \$150.08 per month, to take effect May 22, 1923; Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect May 28, 1923; Nathan Stern, junior assistant, at \$125.08 per month, to take effect May 23, 1923.

Resignations—Max Marcus, junior assistant, at \$137.50 per month, to take effect June 18, 1923; Oscar Mulford, junior assistant, at \$125.08 per month, to take effect May 31, 1923; Albert H. Silsby, engineering inspector, at \$125.00 per month, to take effect June 8, 1923.

Rescission of Appointment under Rule VIII:4—Lloyd B. Nicholson, draftsman, at \$150.08 per month, to take effect May 28, 1923.

Rescission of Appointment under Rule VIII:9—Thomas F. Corcoran, junior assistant, at \$125.08 per month, to take effect June 19, 1923.

Change of Item in Resolution of May 8, 1923, Concerning Gussie Siebel, so as to Read as Follows: (Leave of absence with pay)—Gussie Siebel, clerk, from May 6, 1923 to May 20, 1923.

Change of Item in Resolution of May 23, 1923, Concerning Thomas F. Corcoran, so as to Read as Follows: (Termination of appointment under Rule VIII:4)—Thomas F. Corcoran, junior assistant, at \$125.08 per month, to take effect May 26, 1923.

Rescission of Leave of Absence with Pay—Gussie Siebel, clerk, from June 16, 1923, to June 30, 1923; from July 16, 1923, to July 31, 1923.

Rescission of Leave of Absence without Pay—Gussie Siebel, clerk, from May 6, 1923, to May 15, 1923; from June 1, 1923, to June 15, 1923; from July 1, 1923, to July 15, 1923; from August 1, 1923, to August 5, 1923.

Leave of Absence with Pay—John J. Devery, engineering inspector, from March 16, 1923, to April 16, 1923; John S. Dougherty, junior clerk, from May 9, 1923, to May 14, 1923; Mildred Kaufman, accountant, from April 28, 1923, to May 1, 1923; P. Liberman, junior engineer, from April 30, 1923, to May 10, 1923.

Death—Gussie Siebel, clerk, at \$66.66 per month; May 22, 1923.

743

Employees' Resolution No. 146

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That the action of Clarence J. Shearn, Counsel to the Commission, in employing Severance Johnson as special investigator for the period from June 1, 1922 to December 31, 1922, at a compensation of \$100 per week, plus expenses, when employed be, and hereby is, in all respects approved, confirmed and ratified; and be it further

Resolved, That the employment of said Severance Johnson as such special investigator for a total of sixteen weeks and three days during such period, at a total compensation of \$1650, is approved, confirmed and ratified; and be it further

Resolved, That the allowance to said Severance Johnson, in the sum of \$180.03, covering necessary expenses incurred by him, is approved, confirmed and ratified; and be it further

Resolved, That said Clarence J. Shearn, Special Counsel to the Commission, be reimbursed, in the total sum of \$1,830.03, covering moneys paid by him to said Severance Johnson for services and expenses as above detailed.

744

Voucher Schedule No. 22

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York as the vouchers may direct.

Vouchers Nos. 527-564; open market orders, \$2,755.31; Vouchers Nos. 287-294, miscellaneous bills, \$370.20; Vouchers Nos. 96-107, City payrolls, \$87,782.02; Vouchers Nos. CM 10 and 11, State payrolls, \$4,041.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 130; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 3 for the construction of foundations for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from April 21, 1923 to May 20, 1923 (R. T. 7589) \$25,066.61;

Voucher No. 131, Alfred R. Sax Lumber Co.; approximate estimate No. 8 for supply of ties and timber, Order No. 7, from April 1, 1923 to May 15, 1923 (R. T. 7496) \$13,781.09.

745

Upon motion duly seconded and adopted, the meeting was adjourned to Monday, June 4, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, May 31, 1923

746

Hearing

The following hearing was held:

11:30 A. M.; Case 2679; Brooklyn Rapid Transit Company; Application of Stockholders' Committee for approval of Plan of Reorganization. Chairman McAneny and Commissioners Harkness and O'Ryan presided. Adjourned subject to call.

JAMES B. WALKER,
Secretary.

PROCEEDINGS OF
TRANSIT COMMISSION
49 Lafayette Street,
Borough of Manhattan, City of New York.

Proceedings for Friday, June 1, 1923.

Present: John F. O'Ryan, Commissioner; James B. Walker, Secretary.
The following matter was presented and action taken as noted:

747—R. T. 7572

Agreement "BV"—Receipt of Bids for Miscellaneous Construction and Station Finish—Referred to Chief Engineer

Commissioner O'Ryan stated that the time within which to receive bids for miscellaneous construction and station finish for rapid transit railroads in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids, and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the two bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, June 4, 1923.

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

748—Case 2679

Brooklyn Rapid Transit Company—Application of Stockholders' Committee for Approval of Plan of Reorganization—Opinion—Order Approving Merger and Authorizing Execution of Certificate of Merger—Order Approving Plan of Reorganization of Brooklyn Rapid Transit Company and Authorizing Issuance of Securities Thereunder—Opinion Approved and Orders Adopted

Commissioner Harkness presented an Opinion in Case No. 2679, in the matter of the application of the Committee of Stockholders under the Reorganization Plan for the approval of Plan and Agreement for the reorganization of the Brooklyn Rapid Transit Company and its rapid transit and surface railroad subsidiary companies, and

for the approval of the merger of the New York Municipal Railway Corporation into the New York Consolidated Railroad Company.

Chairman McAneny and Commissioner O'Ryan both announced their concurrence in said Opinion. Commissioner O'Ryan then moved that the Opinion submitted by Commissioner Harkness be approved and adopted as the Opinion of the Commission. This motion was carried by unanimous vote. On motion of Commissioner O'Ryan, duly seconded and carried by unanimous vote, the Commission adopted an Order in Case No. 2679, approving the merger of the New York Municipal Railway Corporation into the New York Consolidated Railroad Company, and authorizing the Chairman and the Secretary to execute the certificate of such merger.

Further, on motion of Commissioner O'Ryan, duly seconded and unanimously carried, the Commission adopted an Order in Case No. 2679, approving Plan of Reorganization of the Brooklyn Rapid Transit Company in conformity with the recommendations contained in said Opinion. The Opinion of the Commission, the Order approving the merger, the certificate of merger, and the Order approving Plan of Reorganization of the Brooklyn Rapid Transit Company were respectively as follows:

STATE OF NEW YORK
TRANSIT COMMISSION

IN THE MATTER
of the

Application of the Committee under the Reorganization Plan for the approval of Plan and Agreement for the Reorganization of BROOKLYN RAPID TRANSIT COMPANY and RAPID TRANSIT RAILROAD and SURFACE RAILROAD SUBSIDIARY COMPANIES.

CASE No. 2679

IN THE MATTER
of the

Application of the Committee under the Reorganization Plan for the approval of Plan and Agreement for the Reorganization of BROOKLYN RAPID TRANSIT COMPANY and RAPID TRANSIT RAILROAD and SURFACE RAILROAD SUBSIDIARY COMPANIES

SUPPLEMENTAL APPLICATIONS Nos. 1 AND 2.

and

For the approval of the merger of NEW YORK CONSOLIDATED RAILROAD COMPANY and NEW YORK MUNICIPAL RAILWAY CORPORATION.

HARKNESS, Commissioner:

This is a proceeding under the Public Service Commission Law, for the authorization by the Transit Commission of the reorganization of certain corporations; and of their capitalization.

On March 23, 1923, application was made to the Commission by the Committee to effect the reorganization of the Brooklyn Rapid Transit Company and its rapid transit railroad and surface railroad subsidiary companies under a Plan and Agreement of Reorganization, dated March 15, 1923, for the formal approval of the parts of the Plan for the consummation of which, under the laws of the State of New York, the approval of the Commission is required. From the application it appeared that the Plan (a copy of which was annexed) had been formally adopted or approved by the committees representing the several classes of bonds, notes, stock and other securities

of the Brooklyn Rapid Transit Company and its subsidiary companies which were to be dealt with under the Plan, except the committee representing the First Consolidated Mortgage 4% Fifty year Gold Bonds of The Coney Island and Brooklyn Railroad Company.

By order dated March 27, 1923, the Commission directed that a hearing be held on said application on April 11, 1923, and that notice of the hearing be given by publication.

On April 30, 1923, the Committee under the Reorganization Plan submitted to the Commission their Supplemental Application No. 1, which submitted the plan dated April 26, 1923, for the reorganization of the New York Consolidated Railroad Company and the New York Municipal Railway Corporation (the rapid transit railroad subsidiary companies of the Brooklyn Rapid Transit Company) and prayed for an order authorizing the reorganization of those two companies in accordance with and as provided for in the Plan of Readjustment of April 26, 1923, and authorizing the amount of capitalization of the new rapid transit company as set forth in said Plan of Readjustment. Later the Committee submitted Supplemental Application No. 2 and prayed for an order authorizing the merger of New York Consolidated Railroad Company and New York Municipal Railway Corporation.

CAUSES LEADING TO RECEIVERSHIP

The Brooklyn Rapid Transit Company was formed in 1896 under the business corporations law of the State and owned controlling or complete interests in the several railroad companies operating rapid transit and surface railroads principally in the Borough of Brooklyn. Although its beginning was marked by inflation and speculation, the growth of business and, on the whole, conservative management gradually put the company in a strong financial condition. The great increase in the cost of labor and materials during and following the war with the restrictions to a fixed rate of fare swiftly turned surpluses into deficits.

In so far as this affected only operating receipts and expenses, the experience of the B. R. T. was similar to that of public utilities generally. But, in addition, the company at this time of special stress was overwhelmingly burdened by the necessity for carrying and extending the enormous capital expenditures involved in its part of the Dual System rapid transit expansion initiated in 1913. It had approximately \$60,000,000 of this new capital represented by short term notes, with the obligation to provide many millions more. The new lines as they went into operation were affected not only by war time costs but, being new lines, required time to develop full traffic. The extended system, therefore, was in a very poor position to earn the heavy interest charges on the new investment. This short term financing and the necessity for large further borrowings on the one hand, with greatly diminished net earning capacity on the other, finally produced the inevitable result—a receivership. This receivership has now continued for about four and a half years and, as is common to receiverships, has been marked by disintegration, by restricted capital expenditures and improvements and for its earlier period by greatly restricted service.

Foreclosure decrees have been entered in the receivership proceedings and the assets of the Brooklyn Rapid Transit Company (the holding company) have been sold at public auctions: The sale of the assets of New York Consolidated Railroad Company (the rapid transit operating company) and New York Municipal Railway Corporation (the rapid transit constructing company) have been advertised for sale, but the sale has been adjourned pending the decision in this proceeding.

A new company has been incorporated to succeed the Brooklyn Rapid Transit Company, and it is proposed to merge the New York Consolidated R. R. Co. and New York Municipal Railway Corporation.

Counsel for the petitioners, while reserving the point that the reorganization of the B. R. T. holding company was a matter of law without the jurisdiction of the Transit Commission, has nevertheless submitted proof on that reorganization as well as on that of the operating companies. In this opinion I shall consider and submit my conclusions upon the basis of the entire reorganization.

PRESENT CAPITALIZATION

Ignoring a few subsidiaries, unimportant to this decision, the B. R. T. system is made up of the following companies, with the indicated bonds, notes and capital stock outstanding in the hands of the public:

	Bonds & Notes	Annual Charges	Capital Stock
Brooklyn Rapid Transit Co.....	\$68,114,700	\$4,516,479	\$74,422,959
New York Consol. R. R. Co.....	} 24,933,000	1,176,850	683,184
New York Municipal Ry. Corp.....			
Nassau Electric R. R. Co.....	13,571,000	575,180	105,225
Coney Island & Bkn. R. R. Co.....	5,474,000	238,840	297,400
Bkn., Queens Co. & Suburban R. R. Co.....	4,531,000	226,550
Brooklyn Heights R. R. Co.....	250,000	12,500
Totals	\$116,873,700	\$6,746,399	\$75,508,768

During the receivership \$18,000,000 of receiver's certificates were sold, which have been reduced out of earnings to a present total of approximately \$12,000,000. These, with outstanding bank loans and car lease warrants, add \$15,922,044 to the debt and, including total sinking fund charges for 1922, an added annual charge of \$1,336,322.

In addition, there are outstanding and pledged under mortgage \$36,000,000 of 6% inter-company certificates of indebtedness, with an annual charge of \$2,160,000.

Finally, the interest on bonds and notes unpaid to July 1, 1923, amounts to \$27,142,923. This is on the basis of simple interest.

Summarizing the present condition, there is a total of capital stock and borrowings amounting to \$208,304,512. If the accrued interest be considered as a debt, this sum will be increased to \$235,447,435, and if the certificates of indebtedness be included, will be further increased to a grand total of \$271,447,435. On this figure, including 6% on the certificates of indebtedness, the annual charges amount to a grand total of \$10,242,721.

PROPOSED CAPITALIZATION

Under the reorganization it is proposed to issue \$92,697,207 of new 6% bonds and to reinstate and assume \$46,512,000 of existing underlying bonds. This would make a total funded debt of \$139,209,207, with an annual interest charge of \$7,679,402. This annual cost will be increased by sinking fund charges on the new 6% bonds, to begin not later than January 1, 1927, which will add in the neighborhood of \$600,000 a year.

The proposed capital stock issues are to consist of \$23,955,407 of non par value cumulative preferred stock (with the right in liquidation to participate to the extent of \$100 per share) and 766,530 shares of no par value common stock. There must also be considered (unless and until exchanged for new securities) \$1,085,809 par value of stock of New York Consolidated, Nassau Electric and Coney Island & Brooklyn Railroad Companies now held by the public.

This would make a total of funded debt and preferred stock of \$164,250,423, and in addition 766,530 shares of no par value common stock. The plan contemplates an eventual issue of not to exceed 850,000 shares of no par value common stock, but present necessity has been shown for only 766,530 shares, and further issues up to the total of 850,000 shares will be decided upon specific future applications. Similarly, consideration is given only to issues of other stock and bonds presently to be issued and leaves further issues to future consideration.

Through the exceptionally heavy payment required of stockholders—amounting to \$35 per share, new money to the extent of about \$26,000,000 will be raised. The larger part of this will naturally be exhausted in the payment of claims (receiver's certificates, note and bond holders, tort creditors, reorganization expenses, etc.), but \$5,000,000 is to be reserved for rapid transit improvements and the balance for working capital. This reserve for rapid transit improvements and for working capital is not represented by bonds or notes, and therefore to that extent strengthens the new company.

Aside from a comparison of the dollars and cents of the old and new issues, there should be noted the unfortunate rigidity of the old B. R. T. financial structure. Two old mortgages were outstanding,—the 5% and the refunding 4%—which were a prior lien on much of the company properties. Bonds under these mortgages have not been marketable for years, and their existence has greatly handicapped the provision of new money and forced recourse to various expedients, some harmful,—including that of issuing inter-company certificates of indebtedness. Under foreclosure these old mort-

gages have been wiped out and proper flexibility in financing may be secured through new mortgages.

It should also be kept in mind that a great part of the B. R. T. debt was incurred for the new rapid transit lines. In 1913 the City of New York did not have sufficient debt-incurring capacity to finance the entire project. The B. R. T. contributed to the cost of construction and paid the entire cost of the equipment. To a very considerable extent, having in mind the provisions of the contracts, this represented an indirect method of borrowing by the city. Through this method the city's subway properties have been greatly extended, and the public has had a great measure of relief that otherwise it could not get. The bond proceeds have been expended under public supervision and direction. For these reasons the Transit Commissioners have taken the position that there existed a very special, and the strongest kind of a moral obligation on the part of public officials to safeguard this investment. With principal and accrued, unpaid interest, this rapid transit participation now amounts to \$80,369,995, and its adjustment absorbs \$65,687,270 of the new bond issue and \$10,551,866 of the new preferred stock issue.

REORGANIZATION OF RAPID TRANSIT COMPANIES

As stated above, it is proposed to merge New York Consolidated Railroad Company and New York Municipal Railway Corporation. The matter of merger by itself does not require comment except to state that the reduction in the number of operating companies is in accord with sound public policy.

The reorganization of the finances of the two rapid transit companies is important and is so intertwined with that of the B. R. T. that they must all be considered together. Except for some comparatively small outside interests, the financing of the operating companies is not additional to that of the B. R. T., but is a subsidiary duplication. For example, the B. R. T. issued its notes to finance the 1913 rapid transit expansion, but these notes were secured by the Municipal Corporation's mortgage and guaranteed by the Consolidated Company.

The total debt of these rapid transit companies, including interest unpaid and accrued to July 1, 1923, is \$132,882,467. The capital stock outstanding of the Consolidated Company is \$18,900,000, made up of \$13,900,000 common and \$5,000,000 preferred. The total capitalization and debt is therefore \$151,782,467, with an annual fixed charge of \$5,919,557.

Against this it is proposed to continue the underlying bonds of the Kings County Elevated R. R. Co. (\$7,000,000 at 4%) and the Brooklyn Union Elevated R. R. Co. (\$15,967,000 at 5%), and to issue \$93,508,500 of New Rapid Transit Refunding Mortgage 5% Series A Bonds or a total funded debt of \$116,475,500, with an annual interest charge of \$5,753,775. The \$18,900,000 of preferred and common stock is to be displaced by an issue of 189,000 shares of no par value stock.

In addition to the refunding mortgage provision is made for a new mortgage for \$50,000,000 that shall be a first lien on all the operating companies' property, subject only to the outstanding, underlying Kings County El. and Brooklyn Union El. bonds. None of these new bonds are to be issued in the reorganization, but they are to be used for financing future rapid transit improvements.

SURFACE LINES

The surface lines are not reorganized, but their bonds are to be reinstated. The Brooklyn City R. R. Co., formerly leased and operated as part of the B. R. T. system, is not included, but the plan of readjustment contemplates its eventual acquisition.

It has been necessary thus at length to set forth the exceedingly complicated financial situation involved in this proceeding. Even this, however, merely briefly summarizes the mass of details and complexities incident to adjusting claims under thirteen or more mortgages, stock interests, tort and contract creditors' claims and the like. The way is now cleared to consider the benefits claimed for the plan and the objections urged against its approval.

BENEFITS OF PLAN

1. *Termination of Receiverships.* It does not need argument to show that while at times receiverships are necessary, their continuance is fraught with loss to all concerned. And, in the case of public utilities, this loss falls heavily on the public itself

because not only is service bound to be impaired by insolvency, but improvements and additions must be curtailed or prevented. By extreme efforts, \$18,000,000 of receiver's certificates were floated to finance improvements. But this was only part of what was needed on an intensively operated railroad system serving a rapidly growing population. As a specific illustration, the Commission has been embarrassed for months through the inability of the receiver to finance the purchase of more cars. The simple truth of the matter was that the money wasn't on hand, and couldn't be raised. Under the reorganization, \$5,000,000 cash and a \$50,000,000 prior lien mortgage to take care of future needs are provided for rapid transit capital expenditures.

2. *Long Time Financing.* The whole B. R. T. subway financing was based upon the issuance of nearly \$60,000,000 six year, six per cent. notes, which during the war were replaced by 3-year seven per cent. notes. A company with such a disproportionate issue of short-time securities outstanding is bound to be in a precarious position. This condition is remedied and the situation safeguarded by refunding these notes into long term bonds carrying 6% interest.

With this long term financing goes another benefit already referred to. The old B. R. T. 4's and 5's are eliminated and their throttling effect done away with.

3. *Payment of Debts.* (a) *Receiver's certificates and accrued interest.* Receiver's certificates aggregating \$12,000,000 and now carrying 8% interest are paid off. Unpaid and accrued interest amounting to \$27,000,000 is paid in part and the balance adjusted, thus clearing the way to paying current bond interest. (b) *Tort and contract creditors.* Claims of tort creditors estimated at \$2,200,000 are to be paid in cash in full. Claims of general contract creditors amounting to \$1,600,000 are to be adjusted.

One of the striking features of this reorganization is the payment in full of the tort creditors, most of them sufferers from the Malbone Street catastrophe. Under the usual application of the law, tort creditors are wiped out in foreclosures and full loss thrown on a class of the community usually least able to bear it. It is not so in this case—they are to be paid in full. That is fine, human application of the power of a Federal Judge in a Receivership, and full credit therefor must go to Judge Mayer for his initial insistence on this course and to the several prior lien committees who acquiesced and co-operated.

4. *Provision of new money.* As already pointed out, stockholders are to supply \$26,000,000 of new money for the purposes of the reorganization, of which \$5,000,000 is to go for rapid transit needs, and the balance after paying claims and expenses to provide additional working capital. This, with the new \$50,000,000 prior lien mortgage, should put the new company in a strong financial condition especially on the rapid transit side.

5. *Public Participation.* A voting trust agreement, put in evidence, provides for three representatives of the public on the board of directors. This is valuable as affording the presentation of the public point of view directly to the directorate and thereby increasing public confidence in the company and its policies.

6. *Further readjustment.* This readjustment and the settlement of the legal questions that have abounded during the receivership paves the way for pressing to a conclusion the Commission's plan for the readjustment of all the transit lines in the City.

7. *Bettered Service and Restoration of Transfers.* Over and above all from the standpoint of the riding public, is the opportunity the reorganization gives for bettered service and the restoration of transfers as and when net earnings increase. The extreme difficulty of operating under a receivership has already been referred to. Blood cannot be gotten out of a stone, nor can the best results be gotten out of an insolvent company. With the formation of a strong company with new capital and with attention concentrated on operation, and not distracted by a continuous law suit, there is the machinery and the means to get results. The strength of the new company under wise management should steadily increase, and as it increases its power and that of the Commission to insure improvements in service will likewise increase.

OBJECTIONS TO THE PLAN

Although a few scattering objections to the heavy assessment have come from stockholders in the form of letters, the only responsible opposition to the plan has been presented by the Law Department of The City of New York. So far as security-holders are concerned, the evidence indicates a remarkably large proportion of approvals for all outstanding issues.

The opposition of the City has covered a wide range in the hearings which have extended over six weeks, during which over 1,500 pages of testimony were taken, but can be grouped and considered under a few main divisions; viz.:

1. Opposition to a holding company.
2. Failure to consolidate the surface line properties.
3. The contract with the City (Contract No. 4).
4. Alleged lack of sufficient margin of receipts over expenditures.
5. Valuations.

OPPOSITION TO A HOLDING COMPANY

The line of objection at first seemed to be against any holding company at all, but it was pointed out to the Corporation Counsel that the relations with the City on rapid transit matters made it inadvisable to merge rapid transit and surface line operation in one company. It was then urged at very considerable length that, in any event, the holding company should be one organized under the railroad law. As I understand it, this point was based on two propositions: (a) that the operating activities of the B. R. T. in the past have made it a public service corporation, and therefore subject to the Commission; and (b) that the company could legally be formed under the railroad law and that the Commission should require this to be done, so that the new company would be under its jurisdiction.

(a) On the first proposition, considerable testimony was introduced to show the activity of the former B. R. T. company in maintenance work and power production. This evidence clearly showed that the old company had overstepped the proper function of a holding company, which is primarily and almost solely one of finance. But, granting all that, I am unable to follow the conclusion sought to be drawn that this action on its part changed a business corporation into a railroad corporation. The statutes of the State indicate how the several classes of corporations may be formed, and the status of a corporation as a corporation is fixed and decided by those laws and not by its activities. For example, a railroad corporation in certain cases may have and exercise the power of eminent domain. But not a business corporation, no matter what its activities. It may be that these operating activities of the B. R. T. subjected it as a business corporation in respect to those activities to regulation under the Public Service Commission Law. That question I do not consider necessary to a decision of this case. As a practical matter of late years there has been a general disposition on the part of the B. R. T. management to comply even as a holding company with public service regulation.

(b) A railroad corporation undoubtedly could be formed to supplant the B. R. T., but I do not believe it can be formed to succeed the B. R. T. under Sections 9 and 10 of the Stock Corporation Law, which specifically cover reorganizations. Under Section 9 the new corporation can succeed to only such corporate "rights, privileges and franchises" as belong to or were vested in the old corporation. These are, of course, "rights, privileges and franchises" of a business corporation. It would seem to me to inescapably follow that the new corporation must be a business corporation.

The provision of Section 9, under which the new corporation acquires its corporate franchises, is as follows:

"Such corporation (that is, the new corporation) shall be vested with and be entitled to exercise and enjoy, all the rights, privileges and franchises, which at the time of such sale belonged to, or were vested in the corporation last owning the property sold, or its receiver, and shall be subject to all the provisions, duties and liabilities imposed by law on that corporation" (that is, the old company).

The conclusion that the intent of the statute is to continue in the new corporation the attributes of the old corporation without addition or subtraction is strengthened by a number of detail requirements of the statute itself. For example, Section 9 provides that the incorporators filing the certificate must be "not less than the number required by law for an incorporation for similar purposes," that is, similar to the purposes for which the old corporation was organized. In other words, if the old corporation was a business corporation only, it would not be necessary to have the certificate executed by more than three persons, as that is the minimum number required by law for the incorporation of a business corporation. But if the old company was a railroad corporation there would have to be at least fifteen individuals signing the reorganization certificate, as that is the minimum number required by law

for the incorporation of a railroad company. Section 9 also requires the certificate or reorganization to state the law under which the old company was organized, the purpose being apparent to couple up in this manner the rights, privileges and franchises of the new company with those of the old company. The same section also requires that the certificate or reorganization shall state the number of directors who shall manage the affairs of the new company which shall be "not less nor more than the number required by law for the old corporation," again indicating the obvious intent of the statute that the new corporation should in all respects be similar to the old. In *People ex rel. Third Avenue Railroad Company v. Public Service Commission*, 145 App. Div., 336, the Court said by Ingraham, J.:

"Sections 9 and 10 of the Stock Corporation Law, to which attention has been called, provide a system by which the readjustment of the respective interests in the property and franchises of a corporation which have been sold by virtue of a mortgage or deed of trust or a judgment or decree of a court of competent jurisdiction may be carried out. They expressly allow the creditors, mortgagees and stockholders of a corporation owning property and franchises to purchase at the foreclosure sale and to organize a corporation to carry out the objects for which the corporation was originally organized. The statute expressly gives to such creditors, mortgagees and stockholders or any of them the right to become a corporation; to make an agreement among themselves for such reorganization and readjustment; to acquire the property and franchises which have thus been sold, and to issue its bonds and stock in conformity with the provisions of the plan or agreement under which the property was purchased at the foreclosure sale."

In the opinion of Mr. Justice Clarke in the same case it is stated (Page 330):

"It is true in a certain sense that the Third Avenue Railroad Company formed as a result of the reorganization plan and under the reorganization statute is a new corporation; but it is a new corporation based upon the former corporation, depending for its existence upon the provisions of the reorganization statute and embodying in itself as the very reason for its being the reorganization agreement of the affairs of its immediate predecessor."

While I cannot agree with the legal conclusions urged by the Corporation Counsel, I am in accord with the principle underlying them. All companies dealing with public utilities—holding companies or otherwise—should be subject to regulation under the Public Service Commission Law. In the course of his testimony, Mr. Gerhard M. Dahl, a member of the Reorganization Committee, stated very clearly his view that holding companies were necessary and beneficial, but that they should be confined to their proper function—that of aiding the financing of the operations of the subsidiary companies—and should abstain from operating. That is the policy the Commission believes and expects will be followed. Furthermore, Mr. Dahl while on the stand agreed with my criticism of the practice of issuing inter-company certificates of indebtedness.

If this be, as I believe, the policy of the new company, there should be little in its transactions that would not be within the Commission's jurisdiction, for its major financing will be dependent upon cooperative action by one or more of the subsidiary companies, which clearly are within Commission control. Furthermore, the point of view of the reorganizers is indicated by their willingness to have three public representatives on the board of directors. I anticipate and expect that the policy of the new company will be one of cordial cooperation with the public authorities with the earnest desire to forward the time of better service, through concord, and not to obstruct it through conflict. Certainly, I am not going to assume the contrary.

During the discussion of these matters I had it in mind to ask the applicant to expressly agree that the new company should be under the jurisdiction of the Commission. Further reflection convinced me that in addition to probably being unnecessary the exaction of such an agreement might be unfair. Companies subjected by statute to regulation have the right to review by certiorari. I am inclined to believe that if a company subjected itself to regulation by agreement, and then in any given case were aggrieved by a decision of the Commission, a review might be precluded on the ground that it was not within the statute.

The Corporation Counsel has earnestly argued the question of whether legally a successor business corporation could hold more than ten per cent. of the securities of an operating company. The old B. R. T. company owned practically all the stock issues of its subsidiaries, and those stock holdings constituted its main assets. In the

light of the opinion in the *Third Avenue* case, *supra*, and despite subsequent amendments, I am convinced that a successor corporation succeeds to the right to hold securities owned by its predecessor. The right so to hold such securities is a property right, and in my judgment it would take an explicit provision of statute to prevent stockholders in a reorganization carrying that right over into a new corporation, whether organized under the business corporation law or otherwise.

I have considered this question of a holding company at length because it constituted an important part of the objections urged by the Corporation Counsel. Underlying the whole question, however, is this fundamental point: The Legislature has failed to put holding companies, organized under the business corporations laws, within the jurisdiction of the commissions. This, I think, should be done. If difficulties should be encountered in securing proper cooperation by the new management, recourse can and properly should be had to legislation. All the discussion and argument in this case, however, makes very clear to me the proposition that it is not the function of legislative agencies to supply a deficiency in legislative provision.

2. *Failure to Consolidate the Surface Line Companies.* The point was strongly urged that the several surface line companies be consolidated, so that there be one rapid transit operator and one surface line operator. I have strong sympathy with that view, and was disappointed in my first study of the plan that more had not been accomplished in the direction of consolidation. The explanation of the applicant, however, is entirely reasonable. With all the varied security holdings it was a herculean task to secure this reorganization, and if full consolidation had been attempted now the attendant complexities and difficulties might have defeated or inordinately delayed the present plan. The Commission is strongly of the view that as soon as the new company is organized active steps should be taken to consolidate the various surface line and miscellaneous companies, both because in and of itself it is a proper policy and because it will forward the work of the Commission in carrying forward its plans for the larger consolidations.

Of even greater moment is the absence from this reorganization of the Brooklyn City Railroad Company. The Brooklyn City Company owns the heart of the surface railway system in Brooklyn, and prior to the receivership its lines were operated under lease as part of the B. R. T. system. During the receivership the lease was abrogated, and the Brooklyn City lines went back to separate company operation. This was unfortunate for the riding public, because of the cutting off of transfers and the flexibility of service that have become in the course of over twenty years almost a necessity. The testimony showed that negotiations for the acquisition of the Brooklyn City properties had been instituted, but had so far failed of success. The Commission—without legal power to force two parties to reach an agreement when their minds do not meet—must take this situation as it is. Nevertheless, it is very much to the public interest that the negotiations be resumed, and the Commission will be ready at any time to use its good offices in any way that may help toward a successful conclusion.

3. *The Contract with the City.* The Corporation Counsel expresses the fear that the refinancing involved in the plan of readjustment would adversely affect rights of the City under Contract No. 4. I can see no basis for such a fear. On the contrary, the provision for long term financing on a conservative basis should react to the large benefit of both the City and the Company. Nevertheless, to avoid any such question, the order submitted herewith provides that it is without prejudice to any rights, obligations, claims or liabilities, whether accrued or to accrue, of The City of New York or of any other party in interest under or in connection with the contract.

The second point urged by the Corporation Counsel under this head relates to the provision of Contract No. 4 covering the suspension of the construction of power houses and sub-stations. This provision reads:

“Article XXXVIII. The construction or completion of the power house or power houses and sub-stations, or of any one or more of them, for generation or furnishing of motive power may, with the consent of the Commission, be suspended during a period of ten (10) years from the date when any part of the Railroad shall be declared by the Commission to be completed and ready for operation; provided that during such period there shall, when required, be available for use, in lieu of such power house or power houses and sub-stations, motive power furnished to the Lessee under and pursuant to the terms of a

contract or contracts for the purchase of power, which contract or contracts shall, as to the parties thereto, the sureties thereon and the terms thereof, be first approved by the Commission. In case of the expiration or termination of this contract as hereinafter provided, any sub-contract for the furnishing of power may be terminated or taken over by the City without making any allowance or paying any amount to the Lessee for or on account of any unexpired term of such sub-contract."

The Corporation Counsel claims that the ten years' suspension above provided for expires in August of this year, and that after such expiration there will be a default under the contract, and that because of such default and possible termination of the contract, the new company will be deprived of one of its most valuable assets. Counsel for the applicant, on the other hand, does not concede the correctness of the contention that the date of such expiration is next August, and points out that the plan under consideration expressly contemplates and makes provision for turning the existing power house and sub-stations owned by the company over to the city, and in that way comply with the company's obligations under the contract.

I shall not attempt in this proceeding to determine the question as to the date when such suspension expires. There are other considerations that I believe remove any substantial fear of the loss that is suggested.

In the first place, with an existing power house and sub-stations substantially sufficient, it would be an economic absurdity to attempt to duplicate them. I cannot believe that any public official, however ill-advised, would embark on such a course just to make a company spend money, because the waste of money that would be involved, in the last analysis, would react so strongly against the City and the riding public. Furthermore, the plan clearly shows on its face the desire and intention to vest title to the power plant and sub-stations in the City. With this, it is fair to assume, will also go the willingness and desire to make any improvements or readjustments that may be necessary or reasonable. In the light of the economic absurdity of attempting to duplicate existing facilities, and the willingness and desire to turn over these properties to the City, I cannot conceive of a court declaring a default on a contract of such magnitude as this one on a question so largely technical. The obvious thing to do is, as soon as the new company is properly functioning, to take up and press to a conclusion the adjustment of this matter and the transfer of the title of the power house and sub-station property to the City.

There is, however, another consideration that is determinative on the question raised by the Corporation Counsel, and that is furnished by the default provisions of Contract No. 4. The contract provides in Article XVI that in case of default the City may take over the operation of the railroad, but with the important qualification that it must continue to pay the interest and sinking fund charges on the company bonds secured by a pledge of the contract, and, furthermore, if the contract should be declared terminated, the city is required to pay to the lessee any part of the cost of construction borne by it, together with the cost of equipment—in the latter case deducting the amount of damages. It is clear, therefore, that even though there should be a default the bondholders' interest and security cannot be wiped out.

4. *Alleged Lack of Sufficient Margin of Receipts Over Expenditures.* The evidence indicates that the earnings of the B. R. T. system for the fiscal year ending June 30, 1922, applicable to the payment of fixed charges and dividends amounted to \$11,151,366. Evidence was also presented to the effect that the placing in operation of the Nassau Street Line and the Fourteenth Street-Eastern Line would increase the above figure by a million dollars. This figure I disregard as being a mere estimate at present and because at best the Nassau Street Line cannot go into operation for five years. It is, however, proper to keep in mind that the earning capacity of the system will be strengthened when these lines do go into operation. For purposes of this decision I, therefore, confine myself to the actual earnings for the fiscal year ending June 30, 1922.

The annual interest on the underlying bonds undisturbed or reinstated amounts to \$2,117,570. Deducting this from the figure of \$11,151,366 will give the amount available to meet the new financing; viz., \$9,033,796.

One year's interest on the new 6% bonds amounts to \$5,561,832, deducting which would leave a balance of \$3,471,964.

It has been claimed that the annual sinking fund charge of \$617,981 should also

be deducted. For the purposes of the consideration of this objection I do not agree with this claim, because the sinking fund deduction is not required before January 1, 1927.

In some of the discussion during the hearings the dividend of 6% on the new preferred stock, amounting to \$1,437,324, has also been deducted which would leave a balance of \$2,034,640. This deduction, for the purpose of discussing this objection, I also reject, because a dividend is not a fixed charge and can only be considered after all necessary operating expenses and fixed charges are provided for. So that the proper figure to consider is the one of \$3,471,964.

The main point of attack was that there was not a sufficient margin of profit to cover possibly increased operating expenditures due to present rising costs. Various prognostications were made of possible increases in the cost of materials and labor. (On the other hand, in connection with valuation, the Corporation Counsel introduced charts indicating the drop in costs after the Civil War, and his witness, former Commissioner Maltbie, stated that all our past experience indicated that after a war the price level dropped until it was generally lower than the pre-war prices.) It seems to me that a margin in excess of \$3,000,000 is sufficient. We can readily conceive of happenings that might operate to wipe this out, but if in starting an enterprise counsel were only taken of fears nothing would be accomplished. So far as one can judge of what is fairly to be expected, the proof indicates an entirely reasonable margin.

It is also urged that this margin would greatly be reduced if the company were compelled to provide what the Corporation Counsel claimed to be the standard of service required by the contract with the City and by provisions of law. This claim that the company has not been living up to its obligations is a contention unsupported by evidence. On the other hand, the reports to the Commission by its inspectors show that the company is and has been in good faith living up to the service orders of the Commission.

Criticism is also levelled at the lack of provision for adequate depreciation reserves. On this I expressed from the bench my own opinion that the depreciation deductions under Contract No. 4 were not large enough, but were at a lower figure than would ordinarily obtain because of financial straits of the company. The era of high costs and the accumulation of deferred maintenance have stripped the surface line companies of depreciation reserves. In the past the troubles of many utility companies throughout the country could directly be traced to the failure to accumulate such funds. The new company should profit by this past experience, and as rapidly as may be fortify itself in this regard. The date for beginning the accumulation of the sinking fund is put off until not later than January 1, 1927, and although there may theoretically be a distinction between sinking funds and depreciation funds in respect of deferred payments, it seems to me that, under all the circumstances, the new management is entitled to at least a year's grace in order to get the new company well started. I therefore do not make any deduction from the figure of present earnings to cover depreciation, but leave that to future action, with this plain intimation of the Commission's point of view in the matter of depreciation reserves.

5. *Valuations.* The strongest attack has been levelled against the valuations presented to justify the proposed capitalization.

Counsel for the applicant introduced in evidence reports made by the Valuation Bureau of the Commission in connection with the valuation made as part of the Commission's plan for City-wide reorganization. Reports of the Valuation Bureau were presented over a year ago and were subjected to intensive examination and analysis in the course of a public investigation extending over a number of months. The Commission has not rendered its decision on these valuations so that they must be taken for what they are—reports to it by its Bureau of Valuations.

The valuations were made on several different bases, but I shall confine my consideration to the two that mainly occupied attention during this proceeding; viz., (1) Original cost (with present day prices for land, rights of way and materials and supplies) less the amount necessary to put the property in first-class operating condition; and (2) Reproduction cost based on prices prevailing in the first half of 1921, less depreciation, figured on the straight-line basis. (For convenience, I shall use the terms "Original Cost," "Conditioning Cost," "1921 Cost" and "Depreciation.")

ORIGINAL COST AS OF DECEMBER 31, 1922

Physical Property

Operating property	\$159,388,374
Non-operating property	5,924,891
Materials and supplies	1,859,158
Rolling stock not used in operation.....	1,880,100
	\$169,052,523

Total physical property\$169,052,523
 The amount allowed for conditioning was \$4,059,934, which would reduce the original cost estimate to a net of \$164,992,589.

It is not altogether accurate to say that this deduction is entirely on a cost-to-condition basis, since \$82,600,000 of the total value is on the subway account, on which the deduction, amounting to \$1,330,536, is computed on the straight-line depreciation basis, in accordance with a formula laid down by former Construction Commissioner Delaney.

The gross 1921 cost figure is \$249,927,252, from which is deducted depreciation computed on a straight-line basis amounting to \$65,810,574, leaving a net reproduction cost estimate of \$184,116,678.

In addition, the books of the company indicate assets other than physical property amounting to \$34,235,293.64. An examination of these items leads me to believe that of this amount at least \$11,989,033.25 constitutes sound, realizable assets. The remaining items undoubtedly have substantial value, but their nature is such that I have deemed it better to exclude them in considering this point.

Out of the \$26,000,000 to be paid in by the old stockholders, \$5,000,000 is to be reserved for new rapid transit expenditures, and the balance of such payment, after payment of claims in and expenses of the reorganization, is to go to furnish additional working capital. The amount of such balance is uncertain, so consideration of it is excluded, but the \$5,000,000 for new capital purposes is properly includible.

The above figures of cost of physical property should therefore be increased in each case by \$16,989,033.25, which would make the net original cost figure \$181,981,622 and the net 1921 cost figure \$201,105,711.

The present capitalization to be considered in connection with these figures is \$164,250,423, plus 766,530 shares of no par value common stock.

New York Consolidated Railroad Company and New York Municipal Railway Corporation Valuations.

Valuations on a similar basis were also presented with relation to New York Consolidated Railroad Company and New York Municipal Railway Corporation. The original cost estimate as of December 31, 1922, is as follows:

Operative property	\$111,134,060
Non-operative property	1,389,151
	\$112,523,211

From this \$1,666,836 is deducted as a conditioning cost, making a net original cost figure of \$110,856,375. As explained above, deduction is made from the valuation on the Contract No. 4 subway properties on the basis of the Delaney depreciation formula.

The 1921 reproduction cost estimate for these properties is \$156,296,659, from which is deducted depreciation amounting to \$31,771,724 which would leave a net figure of \$124,524,935.

As in the case of the B. R. T. System as a whole, additions should be made to these figures to cover other assets. On the figure of \$11,989,033.25 included for the system the portion properly allocated to the rapid transit company is \$4,738,977.28.

In addition, the \$5,000,000 contributed by the stockholders goes to the rapid transit account, so that the physical cost figures should be increased by \$9,738,977.28.

This would make the total on the original cost basis \$120,595,352.28 and on the 1921 reproduction cost \$134,263,912.28.

Against this there is proposed a capitalization of \$116,475,500, plus 189,000 shares of no par value stock.

During the course of these hearings an important decision was handed down by the United States Supreme Court (May 21, 1923) in *Missouri ex rel. Southwestern Bell Telephone Company vs. Public Service Commission of Missouri, etc.* The gist

of this decision would seem to be set forth in the following quotation from the majority opinion:

"It is impossible to ascertain what will amount to a fair return on properties devoted to public service without giving consideration to the cost of labor, supplies, etc., at the time the investigation is made. An honest and intelligent forecast of probable future values made upon a view of all the relevant circumstances, is essential. If the highly important element of present costs is wholly disregarded such a forecast becomes impossible. Estimates for tomorrow cannot ignore prices of today."

Much as I am predisposed to original costs or prudent investment as the more certain and, in the long run, better basis for determining values, this decision is the law of the land and must be followed by this and other commissions. It does not, of course, mean allowing in full at present day prices, because in the case referred to the Supreme Court did not allow the full present-day reproduction cost set forth in the record in that case. It does mean, however, that consideration cannot be restricted solely to original costs.

The Corporation Counsel seemingly accepted the estimate of gross original cost. In any event, no substantial criticism was made of that figure. The main point of objection, as indicated by counsel on cross-examination and as brought out by the City's witnesses, was that the deduction of amounts necessary to put the property in first-class operating condition was not sufficient, but that the deduction should be made on the basis of straight-line depreciation. I have considered various incidental objections as to the character and condition of car barns, etc., and of the lack, in some of the exhibits presented by the applicant, of figures for depreciation or conditioning non-operating property. These matters, however, are not of sufficient moment substantially to affect the main question.

The main issue is conditioning costs versus straight-line depreciation.

Straight-line depreciation may best be explained by a concrete illustration: Assume a building worth \$100,000, with an estimate life of fifty years. Under this theory \$2,000 of the life of this building would expire every year, and therefore the amount of the deduction is found by multiplying this assumed annual depreciation by the number of years the property is in service. Thus, if it were in service 25 years, \$50,000, or 50% of its value, would be gone.

On the other hand, the conditioning theory is based upon considering the property as a going concern, with its value not so much as a congeries of parts, but as an operating whole. Experience shows that sums of money—far less than those assumed by theoretical depreciation—can generally put a property in condition to render the service for which it is intended, and thereby in a position to earn substantially the full amount upon the investment originally made.

The difficulty in determining valuations of public utilities in large part comes from extreme positions taken by the parties to a controversy. No single method can be applied with justice in all cases, and one theory or one method may have to be modified to meet varying conditions. In actual business affairs property is valued and bought and sold upon the application of common sense and business judgment, and not by rigid, hard and fast theories. It should always be kept in mind that a theory like a hobby can be ridden to death.

In the study of this case I have examined and analyzed a mass of figures dealing with original cost and 1921 costs of power houses, cars and other properties and contrasting conditioning and depreciation estimates. After studying this detailed data, and the arguments urged in support of the several theories, I have come to the conclusion that no good purpose could be served by attempting to decide this branch of the case on any such narrow consideration of details. The recent decision of the Supreme Court lays down a rule that must be followed. It would seem that in a capitalization or rate case a commission is debarred from deciding solely on original cost. It therefore amounts to this: If the Commission should accept the contention of the Corporation Counsel, first using original cost and deducting depreciation, it would then have to add a substantial additional allowance in order to give "consideration to the cost of labor, supplies, etc., at the time the investigation is made." In my judgment the net result in this case would be to deduct a certain sum on one side and add probably an increased sum on the other side.

The Commission is not required in a proceeding such as this to fix the value of

the property in dollars and cents. Under the statutes it is required to ascertain whether the proposed capitalization is within the fair value of the property. Under all the circumstances of this case, I conclude that, viewing the matter broadly, consideration of present prices would compel the fixing of a value at least equal to the original, less conditioning, cost in evidence in this proceeding.

I therefore conclude and recommend that this reorganization be approved, and that the authorization of the Commission be given as asked in the three pending applications.

The hearings should be continued to consider supplemental applications for the approval of mortgages and the like.

Forms of orders carrying this recommendation into effect are submitted herewith.

(Signed) LE ROY T. HARKNESS,
Commissioner.

Dated, New York, June 4, 1923.

CERTIFICATE OF MERGER
of
NEW YORK MUNICIPAL RAILWAY CORPORATION
into
NEW YORK CONSOLIDATED RAILROAD COMPANY.

New York Consolidated Railroad Company, pursuant to the provisions of section 15 of the Stock Corporation Law of the State of New York, and pursuant to the provisions of section 149 of the Railroad Law of said State, hereby certifies, under its common or corporate seal, as follows:

First: That New York Consolidated Railroad Company is a domestic stock corporation organized and existing under the Railroad Law of the State of New York, formed through the consolidation of the capital stock, franchises and property of Brooklyn Union Elevated Railroad Company, Sea Beach Railway Company and Canarsie Railroad Company, and that the agreement of consolidation, dated October 22, 1912, under which New York Consolidated Railroad Company was formed and is organized and exists, was duly filed and recorded in the office of the Secretary of State of the State of New York on November 30, 1912, and in the office of the Clerk of Kings County, in said State, on the same date.

Second: That on and prior to May 25, 1923, New York Municipal Railway Corporation was also a domestic stock corporation organized and existing under the Railroad Law of the State of New York and Chapter 4 of the Laws of 1891 of said State, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," and the acts amendatory thereof and supplemental thereto, and that its certificate of incorporation was duly filed and recorded in the office of the Secretary of State of the State of New York on September 27, 1912, and in the office of the Clerk of Kings County, in said State, on the same date.

Third: That on May 25, 1923, New York Consolidated Railroad Company, being the lessee of the road of New York Municipal Railway Corporation, had acquired and lawfully owned all the capital stock of said New York Municipal Railway Corporation; that on said date the board of directors of New York Consolidated Railroad Company, by resolutions duly adopted at a meeting of said board duly and regularly called and held on said date, determined to and did merge said New York Municipal Railway Corporation and directed that a certificate of ownership of such stock and of the adoption of such resolutions to merge said corporation be made, executed and filed in the office of the Secretary of State of the State of New York and in the office of the Clerk of Kings County in said State; that the resolutions so adopted by said board of directors were as follows:

Whereas, New York Municipal Railway Corporation, a domestic stock corporation organized and existing under the Railroad Law of the State of New York and Chapter 4, of the Laws of 1891 of said State, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," and the acts amendatory thereof and supplemental thereto, was organized for, and is engaged in, business similar or incidental to that of New York Consolidated Railroad Company, a domestic stock corporation

organized and existing under the Railroad Law of said State, and New York Consolidated Railroad Company is the lessee of the road of said New York Municipal Railway Corporation; and

Whereas, New York Consolidated Railroad Company, being the lessee of the road of the said New York Municipal Railway Corporation, has acquired and now lawfully owns all the capital stock of said New York Municipal Railway Corporation, and desires to merge the said corporation and to acquire and become and be possessed of all the estate, property, rights, privileges and franchises of said corporation, to the end that they shall vest in and be held and enjoyed by New York Consolidated Railroad Company as fully and entirely and without change or diminution as the same were before held and enjoyed by said corporation, and be managed and controlled by the board of directors of New York Consolidated Railroad Company and in its name, but without prejudice to any liabilities of said New York Municipal Railway Corporation or the rights of any creditors thereof:

Resolved, That, subject to the permission and approval of the Transit Commission of the State of New York, New York Consolidated Railroad Company merge and it hereby does merge said New York Municipal Railway Corporation; and further

Resolved, That the officers of New York Consolidated Railroad Company be, and they hereby are, respectively authorized and directed to make and execute, under the common or corporate seal of New York Consolidated Railroad Company, a certificate of such ownership and of the adoption of these resolutions by the board of directors of New York Consolidated Railroad Company to merge said New York Municipal Railway Corporation, and upon obtaining such permission and approval of said Transit Commission, to file such certificate in the office of the Secretary of State of the State of New York and a duplicate or certified copy thereof in the office of the Clerk of Kings County, in said State; and further

Resolved, That the officers of New York Consolidated Railroad Company be, and they hereby are, respectively authorized and directed to make and prosecute any and all such applications before said Transit Commission and to do any and all such other and further acts and deeds as in their discretion shall be necessary or convenient and proper to carry out and effectuate the purposes and intent of the foregoing resolutions.

In Witness Whereof, New York Consolidated Railroad Company has caused these presents to be signed in its behalf by its President or a Vice-President, and its common or corporate seal to be hereunto affixed, attested by its Secretary or an Assistant Secretary, this 26th day of May, 1923.

NEW YORK CONSOLIDATED RAILROAD COMPANY,

By GEORGE B. GALLAGHER,
Vice-President.

(Corporate Seal)

Attest:

J. H. BENNINGTON,
Secretary.

State of New York, }
County of Kings, } ss.:

On the 26th day of May, 1923, before me personally came George B. Gallagher, to me known, who being by me duly sworn, did depose and say that he resides in Borough of Brooklyn, State of New York; that he is the Vice-President of New York Consolidated Railroad Company, the corporation described in and which executed the above instrument; that he knows the seal of said corporation; that the seal affixed to said instrument is such corporate seal; that it was so affixed by order of the board of directors of said corporation, and that he signed his name thereto by like order.

(Notary Seal)

H. R. PORRS,

Notary Public, Kings Co. No. 45,
Certificate filed Kings Co. Reg. No.
4044, Queens Co. Cl'k No. 816, New
York Co. Cl'k No. 90, Reg. No.
4110. Term expires March 30, 1924.

PERMISSION AND APPROVAL

of

TRANSIT COMMISSION

Pursuant to authority upon it conferred by Chapter 48 and Chapter 49 of the Consolidated Laws of the State of New York, and the acts amendatory thereof and

supplemental thereto, the Transit Commission of the State of New York, by order duly made and adopted at a meeting held June 4, 1923, has permitted and approved and does hereby permit and approve the merger of New York Municipal Railway Corporation into New York Consolidated Railroad Company, the certificate for which merger is hereto annexed, upon the terms and conditions of such merger and the mode of carrying the same into effect as prescribed in said certificate.

In Witness Whereof, the said Transit Commission of the State of New York has caused these presents to be executed by its Chairman and its Secretary under its official seal, this 4th day of June, 1923.

TRANSIT COMMISSION OF THE STATE OF NEW YORK,
By GEORGE McANENY,
Chairman.

(SEAL)
Attest:

JAMES B. WALKER,
Secretary.

At a Meeting of the Transit Commission held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City of
New York, on the 4th day of June, 1923.

Present:

GEORGE McANENY, }
Chairman. } Commissioners.
LE ROY T. HARKNESS }
JOHN F. O'RYAN }

IN THE MATTER
of the

Application of the Committee under the Reorganization
Plan for the approval of Plan and Agreement for
the Reorganization of BROOKLYN RAPID TRANSIT
COMPANY and RAPID TRANSIT RAILROAD and SURFACE
RAILROAD SUBSIDIARY COMPANIES.

CASE No. 2679.

IN THE MATTER
of the

Application of NEW YORK CONSOLIDATED RAILROAD
COMPANY for permission and approval of the merger
of NEW YORK MUNICIPAL RAILWAY CORPORATION
into NEW YORK CONSOLIDATED RAILROAD COMPANY.

ORDER PERMITTING AND AP-
PROVING MERGER.

NEW YORK CONSOLIDATED RAILROAD COMPANY having applied to the Commission by application dated and verified May 26, 1923, for permission and approval of the merger of NEW YORK MUNICIPAL RAILWAY CORPORATION into NEW YORK CONSOLIDATED RAILROAD COMPANY upon the terms and conditions of such merger and the mode of carrying the same into effect as prescribed in the certificate of merger, a copy of which is annexed to said application, and a hearing having been duly had on said application and due deliberation having been had, it is

Ordered, That, pursuant to authority upon it conferred by Chapter 48 and Chapter 49 of the Consolidated Laws of the State of New York, and by the acts amendatory thereof and supplemental thereto, the Commission hereby permits and approves the merger of NEW YORK MUNICIPAL RAILWAY CORPORATION into NEW YORK CONSOLIDATED RAILROAD COMPANY, upon the terms and conditions of such merger and the mode of carrying the same into effect as prescribed in the certificate of merger, a copy of which is annexed to the application herein; and it is

Further Ordered, That the Chairman and the Secretary of the Commission be and they hereby are authorized and directed to make and execute, under the official seal of the Commission, a certificate of its permission and approval of such merger in substantially the following form:

“PERMISSION AND APPROVAL
of
TRANSIT COMMISSION

Pursuant to authority upon it conferred by Chapter 48 and Chapter 49 of the Consolidated Laws of the State of New York, and the acts amendatory thereof and supplemental thereto, the Transit Commission of the State of New York, by order duly made and adopted at a meeting held June 4, 1923, has permitted and approved and does hereby permit and approve the merger of New YORK MUNICIPAL RAILWAY CORPORATION into NEW YORK CONSOLIDATED RAILROAD COMPANY, the certificate for which merger is hereto annexed, upon the terms and conditions of such merger and the mode of carrying the same into effect as prescribed in said certificate.

In Witness Whereof, the said Transit Commission of the State of New York has caused these presents to be executed by its Chairman and its Secretary under its official seal, this 4th day of June, 1923.

TRANSIT COMMISSION OF THE STATE OF
NEW YORK

By.....
Chairman.

Attest:

.....
Secretary.”

BY THE TRANSIT COMMISSION
JAMES B. WALKER,
Secretary.

At a Meeting of the Transit Commission held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City of
New York, on the 4th day of June, 1923.

IN THE MATTER
of the
Application of the Committee under the Reorganization
Plan for the approval of Plan and Agreement for
the Reorganization of BROOKLYN RAPID TRANSIT
COMPANY and RAPID TRANSIT RAILROAD and SURFACE
RAILROAD SUBSIDIARY COMPANIES.

CASE No. 2679.

IN THE MATTER
of the
Application of the Committee under the Reorganization
Plan for the approval of Plan and Agreement for
the Reorganization of BROOKLYN RAPID TRANSIT
COMPANY and RAPID TRANSIT RAILROAD and SURFACE
RAILROAD SUBSIDIARY COMPANIES.

SUPPLEMENTAL APPLICATION
No. 1—REORGANIZATION
OF NEW YORK CONSOLI-
DATED RAILROAD COMPANY
AND NEW YORK MUNICI-
PAL RAILWAY CORPORA-
TION.

1. Albert H. Wiggin, Charles A. Boody, Gerhard M. Dahl, Frederick H. Ecker, Charles Hayden, Seward Prosser and Frederick Strauss, acting as the Committee (hereinafter referred to as the Committee) to effect the reorganization of Brooklyn Rapid Transit Company and its rapid transit railroad and surface railroad subsidiary companies under a certain Plan and Agreement of Reorganization dated March 15, 1923 (hereinafter referred to as the Plan and Agreement of Reorganization), having here-

tofore, on or about March 23, 1923, by application dated and filed on said date in the above entitled proceeding, submitted to the Commission said Plan and Agreement of Reorganization and requested the authorization by the Commission of such parts of said Plan and Agreement of Reorganization as, under the laws of the State of New York, require its authorization for the consummation thereof; and

2. The Committee heretofore, on or about April 30, 1923, by supplemental application dated and filed on said date in the above entitled proceeding, (1) having submitted to the Commission a certain Plan of Readjustment dated April 26, 1923 (hereinafter referred to as the Plan of Readjustment), adopted and promulgated by the Committee as provided in Section 10 of the Stock Corporation Law of the State of New York and pursuant to the authority conferred upon it by said Plan and Agreement of Reorganization, providing for the reorganization of New York Municipal Railway Corporation (hereinafter referred to as the Railway Corporation) and New York Consolidated Railroad Company (hereinafter referred to as the Consolidated Company) and their properties and for or in anticipation of the readjustment of the respective interests therein of the creditors, mortgagees and stockholders of and holders of claims against said corporations, and for the representation of such interests in the bonds or stock of the new corporation to be formed as contemplated by said Plan of Readjustment and as provided for in Sections 9 and 10 of the Stock Corporation Law, and (2) having applied for an order authorizing the reorganization of said Railway Corporation and said Consolidated Company in accordance with and as provided for in said Plan of Readjustment and authorizing the amount of capitalization of the new corporation in such reorganization as in said Plan of Readjustment set forth, pursuant to and as provided for in Section 55a of the Public Service Commission Law of the State of New York; and

3. The Committee having heretofore filed with the Commission, in the above entitled proceeding, copies of the offers dated April 5, 1923, made by said Committee pursuant to and in accordance with said Plan and Agreement of Reorganization to the holders of general unsecured contract claims against said Brooklyn Rapid Transit Company, said Railway Corporation and said Consolidated Company, for the readjustment of their said claims against said respective corporations in accordance with the terms of said offers; and

4. The Committee having heretofore filed with the Commission, in the above entitled proceeding, a copy of the offer dated April 30, 1923, made by said Committee pursuant to and in accordance with said Plan and Agreement of Reorganization, conferring upon the holders of preferred or common stock of said Consolidated Company (or of Brooklyn Union Elevated Railroad Company) the option, in lieu of readjusting their interests upon the payment of an assessment of \$100 per share for preferred stock and \$105 per share for common stock under said Plan of Readjustment, to exchange their stock, without the payment of any assessment, for preferred and common stock of the new corporation organized or to be organized in said reorganization to succeed said Brooklyn Rapid Transit Company, on the basis set forth in said offer; and

5. Hearings having been duly had on said applications as supplemented by said offers, after due publication of the time, place and purposes thereof, counsel for the Committee being heard in support of said application and the Corporation Counsel of the City of New York in opposition thereto, and due deliberation having been had, it appearing and the Commission finding:

(a) That the holders of substantially more than a majority in amount of the stock of said Brooklyn Rapid Transit Company, and of its several issues of secured bonds and notes outstanding, and the holders of substantially more than a majority in amount of the general unsecured claims against said corporation, have heretofore assented to said Plan and Agreement of Reorganization, in the manner therein provided:

(b) That the holders of substantially all of the stock of said Consolidated Company and of the First Mortgage 5% Sinking Fund Gold Bonds, Series A, of said Railway Corporation (assumed and guaranteed by said Consolidated Company), and the holders of substantially all of the general unsecured claims against said corporation, have assented to said Plan of Readjustment, in the manner therein provided, and that all the stock of said Railway Corporation is or at the time of the merger of said corporation into said Consolidated Company was owned by said Consolidated Company;

(c) That, as provided in said Plan and Agreement of Reorganization, the new corporation formed or intended to be formed in such reorganization to acquire title to and take and possess the property and franchises of said Brooklyn Rapid Transit Company and of its Receiver, and to be vested with and entitled to exercise and enjoy all the rights, privileges and franchises of said Brooklyn Rapid Transit Company or its Receiver, pursuant to Sections 9 and 10 of the Stock Corporation Law of the State of New York, is to have an authorized issue of bonds to be known as its Rapid Transit Security Sinking Fund Gold Bonds issuable in series to an aggregate principal amount not exceeding \$250,000,000 at any one time outstanding, and an authorized issue of 1,200,000 shares of capital stock without nominal or par value, of which 350,000 shares are to be preferred stock and 850,000 shares are to be common stock, and that such new corporation is to issue in the reorganization, in respect of said property and franchises so to be acquired and cash to be received by it as provided in said Plan and Agreement of Reorganization, bonds and stock as follows:

\$92,698,000 principal amount of its Rapid Transit Security 6% Sinking Fund Gold Bonds, Series A, dated as of July 2, 1923, payable July 1, 1968, and otherwise as provided in said Plan and Agreement of Reorganization;

239,556 shares of preferred stock (Series A) without nominal or par value, entitled to dividends at the rate of \$6 per share per annum, but no more, cumulative without interest from and after July 1, 1926, and redeemable in whole or in part at \$100 per share and all arrears of cumulative dividends;

766,350 shares of common stock without nominal or par value;

Such additional amounts of said Rapid Transit Security 6% Sinking Fund Gold Bonds, Series A, and such additional number of shares of preferred stock (Series A) and common stock, as may be required by the Committee to enable it to comply with offers heretofore made as aforesaid to holders of general unsecured contract claims and to holders of preferred stock or common stock of said Consolidated Company or of said Brooklyn Union Elevated Railroad Company.

(d) That, as provided in said Plan of Readjustment, the new corporation intended to be formed in such reorganization to acquire title to and to take and possess the property and franchises, and to be vested with and entitled to exercise and enjoy the rights, privileges and franchises of said Consolidated Company (including the property, franchises, rights and privileges of or belonging to said Railway Corporation at the time of the merger thereof into said Consolidated Company) and of the Receiver of said corporations, pursuant to Sections 9 and 10 of the Stock Corporation Law of the State of New York, is to have an authorized issue of bonds to be known as its First and Refunding Mortgage Bonds issuable in series to an aggregate principal amount not exceeding \$73,000,000 at any one time outstanding, an authorized issue of bonds to be known as its Refunding Mortgage Bonds issuable in series to an aggregate principal amount not exceeding \$300,000,000 at any one time outstanding, and an authorized capital stock not exceeding 189,000 shares of common stock without nominal or par value; and said new corporation is to issue in the reorganization, in respect of said property and franchises so to be acquired and cash to be received by it, Refunding Mortgage Bonds and capital stock not exceeding

\$93,508,500 principal amount of Refunding Mortgage 5% Sinking Fund Gold Bonds, Series A, dated as of July 2, 1923, payable July 1, 1968, redeemable at 107½% of the principal amount thereof, and otherwise as provided in said Plan of Readjustment;

189,000 shares of common stock, without nominal or par value.

(e) That the amount of capitalization upon the reorganization of said Brooklyn Rapid Transit Company, as provided in said Plan and Agreement of Reorganization as supplemented by said offers, including therein all stocks and bonds and other evidence of indebtedness, will not exceed the fair value of the property involved, taking into consideration its original cost of construction, duplication cost, present condition, earning power at reasonable rates and all other relevant matters and the additional sums to be actually paid in cash, with due allowance for discount of bonds;

(f) That the amount of capitalization upon the reorganization of said Railway Corporation and said Consolidated Company, as provided in said Plan of Readjustment, including therein all stocks and bonds and other evidence of indebtedness; will not

exceed the fair value of the property involved, taking into consideration its original cost of construction, duplication cost, present condition, earning power at reasonable rates and all other relevant matters and the additional sums to be actually paid in cash, with due allowance for discount of bonds;

(g) That provision is made in said Plan and Agreement of Reorganization, and is to be effectuated in the reorganization, for the representation of the public authorities on the board of directors of the new corporation formed or intended to be formed to succeed said Brooklyn Rapid Transit Company; and

(h) That it is to the public interest that the receiverships of said Brooklyn Rapid Transit Company and of its rapid transit railroad and surface railroad subsidiary companies in receivership be terminated and that the properties and franchises involved in said reorganizations be returned to their owners in solvent condition;

SECTION I.

Ordered, That the reorganization of said Brooklyn Rapid Transit Company as provided in said Plan and Agreement of Reorganization dated March 15, 1923, as supplemented by offers heretofore made by the Committee, pursuant to the provisions thereof, and the capitalization of the new corporation formed or intended to be formed upon such reorganization as provided in said Plan and Agreement of Reorganization consisting of bonds and stock to be issued in the reorganization as stated in paragraph (c) are authorized, and that said new corporation, upon acquiring in such reorganization the shares of preferred stock and common stock of said Consolidated Company owned by said Brooklyn Rapid Transit Company, namely, 47,854.8539 shares of the total 50,000 shares of preferred stock and 131,800.3063 shares of the total 139,000 shares of common stock outstanding, is authorized pursuant to Section 54 of the Public Service Commission Law of the State of New York, as a corporation holding a majority of the capital stock of said Consolidated Company, to acquire and hold all or any part of the remainder of the capital stock of said Consolidated Company and to issue in exchange therefor its own preferred and common stock on the basis set forth in said offer dated April 30, 1923, namely, for each share of preferred stock of the Consolidated Company one-half a share of preferred stock (Series A) and one-half share of common stock of said new corporation, and for each share of common stock of the Consolidated Company two-fifths of a share of preferred stock (Series A) and three-fifths of a share of common stock of said new corporation;

SECTION II.

Further Ordered, That the reorganization of said Railway Corporation and said Consolidated Company as provided in said Plan of Readjustment dated April 26, 1923, and the capitalization of the new corporation intended to be formed upon such reorganization as provided in said Plan of Readjustment consisting of bonds and stock to be issued in the reorganization as stated in paragraph (d), are authorized; and the Chairman and the Secretary of the Commission are authorized and directed to endorse upon or attach to the certificate of incorporation of the new corporation so intended to be formed in such reorganization, in substantially the form of the proposed certificate of incorporation submitted to the Commission and filed in this proceeding, a certificate of such authorization of the Commission, under its official seal, in substantially the following form:

"CERTIFICATE OF AUTHORIZATION
of
TRANSIT COMMISSION

This is to certify that, pursuant to authority upon it conferred by Chapter 48 of the Consolidated Laws of the State of New York, and the acts amendatory thereof and supplemental thereto, the Transit Commission of the State of New York, by order duly made and adopted at a meeting held June , 1923, has authorized and does hereby authorize the reorganization of New York Consolidated Railroad Company and New York Municipal Railway Corporation, as provided in the Plan of Readjustment dated April 26, 1923, referred to in the Certificate of Incorporation hereto annexed, which is hereby approved, and has authorized and does hereby authorize the capitalization of the new corporation intended to be formed by the filing of said certificate, as provided in said Plan of Readjustment.

[June 5, 1923

In Witness Whereof, The said Transit Commission of the State of New York has caused these presents to be executed by its Chairman and its Secretary, under its official seal, this day of June, 1923.

TRANSIT COMMISSION OF THE STATE
OF NEW YORK,

By.....
Chairman.

Attest:

.....
Secretary."

SECTION III.

Further Ordered, That this order is made, and the authorization of the reorganization of said Railway Corporation and said Consolidated Company as hereinabove provided is granted, without prejudice to any rights, obligations, claims or liabilities, whether accrued or to accrue, of The City of New York or of any other party in interest, under or in connection with the certain contract dated March 19, 1913, entered into between The City of New York acting by the former Public Service Commission for the First District, and said Railway Corporation, known as Contract No. 4, or under or in connection with either of the certain certificates bearing the same date, granted by said Public Service Commission to said Railway Corporation and accepted by it, relating respectively to the construction, equipment and operation of elevated extensions and additional tracks.

SECTION IV.

Further Ordered, That this proceeding is continued to hear and consider intervening petition or petitions of said new corporation intended to be formed in the reorganization of said Railway Corporation and said Consolidated Company, in respect of the issuance by it of stock, mortgages and bonds as provided in said Plan of Readjustment, and for such other and further order or orders as the Commission in its discretion may deem necessary or proper in the premises.

By THE TRANSIT COMMISSION,
JAMES B. WALKER,
Secretary.

749

Upon motion duly seconded and adopted the meeting was adjourned to Tuesday, June 5, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, June 5, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

750—R. T. 7653

Agreement "CN"—Form of Contract, Specifications, Invitation to Contractors, etc., for Changes in Subway Structure Due to Widening of West 32nd Street and Construction of Ventilation Flue at West 32nd Street and Broadway—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors, and forms of contract, bond and Contractors' proposal, together with the specifications and

contract drawings for making changes in the subway structure at Broadway, incidental to the widening of West 32nd Street, and the construction of a ventilation flue at West 32nd Street and Broadway, Routes Nos. 4 and 36, Section 2, Borough of Manhattan, Agreement "CN".

Resolved, That the said Invitation to Contractors, Information for Contractors and forms of contract, bond and contractors' proposal, together with the specifications and contract drawings for making changes in the subway structure at Broadway, incidental to the widening of West 32nd Street, and the construction of a ventilation flue at West 32nd Street and Broadway, Routes Nos. 4 and 36, Section 2, Borough of Manhattan, Agreement "CN", be and hereby are approved and adopted and that the said Invitation to Contractors be published in THE CITY RECORD, every day of publication continuously from and including June 7, 1923 to and including June 21, 1923, and on June 11, 1923 and June 18, 1923, in THE NEW YORK TIMES and THE SUN and THE GLOBE, daily newspapers published in The City of New York, and that such bids as shall be received shall on the 21st day of June, 1923, at eleven-thirty (11:30) o'clock A. M., or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

751—R. T. 7665

Routes Nos. 36 & 37, Section No. 1—Form of Contract, Specifications, Invitation to Contractors, etc., for Installation of Switchback Track and Miscellaneous Work East of Queensboro Plaza Station—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors, and forms of contract, bond and contractors' proposal, together with the specifications and contract drawings for installing tracks, including the furnishing of some of the necessary materials for a switchback track and the approaches thereto and other miscellaneous track work east of Queensboro Plaza Station, Corona Branch, Queensboro Subway Rapid Transit Railroad, Routes Nos. 36 and 37, Section 1, in the Borough of Queens;

Resolved, That said Invitation to Contractors, Information for Contractors, and forms of contract, bond and contractors' proposal, together with the specifications and contract drawings for installing tracks, including the furnishing of some of the necessary materials for a switchback track and the approaches thereto and other miscellaneous track work east of Queensboro Plaza Station, Corona Branch, Queensboro Subway Rapid Transit Railroad, Routes Nos. 36 and 37, Section 1, in the Borough of Queens, be and are hereby approved and adopted, and that said Invitation to Contractors be published in THE CITY RECORD, every day of publication continuously from and including June 7, 1923 to and including June 20, 1923, and on June 11, 1923 and June 18, 1923 in THE MORNING TELEGRAPH and THE EVENING TELEGRAM, daily newspapers published in The City of New York, and that such bids, as shall be received shall, on the 20th day of June, 1923, at eleven-thirty (11:30) o'clock A. M., or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

752—R. T. 7572

Agreement "BV"—Report by Chief Engineer as to Receipt of Bids for Miscellaneous Construction and Station Finish and Recommendation for Award of Contract to D. C. Serber at Bid Price of \$15,020—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

June 4, 1923.

TO: THE TRANSIT COMMISSION

Award of Contract, Agreement "BV" to D. C. Serber, Low Bidder.

On June 1, 1923, the following bids were received for work under Agreement "BV", (Revised), for Miscellaneous Construction and Station Finish for Rapid Transit Railroads in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens:

D. C. Serber.....	451 West 16th Street, N. Y. C....	\$15,020.00
Hamme & Jackson, Inc..	1014 East 14th St., Brooklyn.....	19,265.00

Our estimate for this work was \$11,928.

This agreement "BV" is the same as was referred back to the Transit Commission by the Board of Estimate and Apportionment on July 19, 1922, with certain revisions to meet objections raised by that Board. Some items have been omitted, amongst them, installing of bluestone curb at Hugh J. Grant Circle to which the Board objected.

D. C. Serber, the lowest bidder, has done considerable work previously for the Commission. He was the principal member of Serber-Stander Company, Inc., which Corporation had the contract for station finish on Route 5, Sections 1 to 4, comprising all stations on the Municipal Railway Corporations Broadway Line from Rector Street to 14th Street Stations, inclusive, this contract amounting to about \$344,700. It also had the contract for station finish on Routes 4 & 36 and Route 20, 23rd Street and 28th Street Stations on Broadway, and Broadway Station on Canal Street. This contract amounted to about \$149,300. D. C. Serber was the Contractor for completion of station finish on the Brooklyn-Manhattan Loop Line and 4th Avenue Subway, which amounted to about \$69,100. Besides this, D. C. Serber has had a number of smaller contracts for the Commission and its predecessors and his work has been done to our satisfaction.

I have looked into the bid prices of D. C. Serber and find them reasonable under present conditions of the labor and material market, although uniformly a little higher than our estimate.

Attached I send you minutes of a conference held in my office June 2nd with Mr. D. C. Serber, which includes his financial statement as of June 1st. I also send, for your information, twelve (12) blue-prints of the summation of bids received.

Recommendation: I recommend that the contract for work under Agreement "BV", (Revised), for Miscellaneous Construction and Station Finish for Rapid Transit Railroads in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, be awarded to the lowest bidder, D. C. Serber, at his bid figure of \$15,020, and that a request be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged as follows:

Contract No. 3.....	\$12,270.00
Contract No. 4.....	2,750.00

ROBT. RINGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for Miscellaneous Construction and Station Finish for Rapid Transit Railroads in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, was heretofore finally adopted and subsequent to advertisement duly made, bids respectively totalling as follows were received on June 1, 1923:

D. C. Serber	\$15,020.00
Hamme & Jackson, Inc.....	19,265.00

; and

Whereas, The Chief Engineer of this Department, by communication dated June 4, 1923, has reported that the amount of said bid is reasonable and that the said D. C. Serber, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$15,020, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of D. C. Serber submitted as aforesaid be and the same hereby is accepted and the said proposed contract for Miscellaneous Construction and Station Finish for Rapid Transit Railroads in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens be and the same hereby is awarded to said D. C. Serber, subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$15,020, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 5, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and D. C. Serber for Miscellaneous Construction and Station Finish for Rapid Transit Railroads in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, together with a requisition upon your Honorable Board for the appropriation of the sum of Fifteen thousand twenty dollars (\$15,020), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on June 1, 1923, respectively totalling as follows:

D. C. Serber.....	\$15,020.00
Hamm & Jackson, Inc.....	19,265.00

The Chief Engineer of this Department, in a communication dated June 4, 1923, reports that the bid of D. C. Serber, the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said D. C. Serber, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Fifteen thousand twenty dollars (\$15,020), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Fifteen thousand twenty dollars (\$15,020).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition, to the extent of Twelve thousand two hundred seventy dollars (\$12,270) is a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and the appropriations made by your Board thereunder and to the extent of Two thousand seven hundred fifty dollars (\$2,750) is a subrequisition under and not in addition to the requisition heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, and the appropriations made thereunder by your Honorable Board.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

753—R. T. 6881

Order No. 3—Report by Chief Engineer Recommending Readjustment of Appropriations and Requisition for \$15.21 Additional Under Contract for Hauling and Storing Treated Ties—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated June 2, 1923, recommending that a request be made to the Board of Estimate and Apportionment for a readjustment of the appropriations made under Contracts Nos. 3 and 4 for hauling and storing

treated ties and that a request be made for an additional appropriation of \$15.21, chargeable to Contract No. 4.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment of the City of New York, by resolutions adopted on November 22, 1918 and April 25, 1919, consented to the proposed contract between The City of New York and John C. Orr Company, for continued storage, hauling, loading and unloading of treated ties and timber required in the installation of tracks in municipal rapid transit railroads to be constructed pursuant to the contracts dated March 19, 1913, known respectively as Contract No. 3 and Contract No. 4, and said Board, as in said resolutions more particularly set forth, appropriated the money estimated to be necessary to meet the obligations of the City under said proposed contract; and

Whereas, The Chief Engineer of this Commission, by communication dated June 2, 1923, has reported with respect to the performance of the work under said contract and as to the necessity for a readjustment of the appropriations made as aforesaid by said Board in respect of their charges against said Contracts Nos. 3 and 4; and

Whereas, Counsel to the Commission has prepared and submitted a proposed communication and requisition upon the Board of Estimate and Apportionment, which will effect the recommendation of the Chief Engineer in regard thereto, and has recommended the approval thereof,

Resolved, That said report and recommendation be and the same hereby is approved; that the said communication and requisition so submitted be and the same hereby are approved and that they be transmitted to said Board of Estimate and Apportionment of the City of New York.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 5, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board, on November 22, 1918, adopted the following resolution:

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended by chapter 625 of the Laws of 1917; the provisions of section 45 of the Greater New York Charter, and the requisition of the Public Service Commission for the First District, duly made by said Commission on October 25, 1918, the Board of Estimate and Apportionment does hereby consent to the contract proposed to be entered into between The City of New York, acting by said Commission, and the John C. Orr Company, for the continued storage, hauling, loading and unloading of treated ties and timber needed in the installation of tracks for rapid transit railroads to be constructed under Contracts Nos. 3 and 4, at an estimated cost of three thousand two hundred dollars (\$3,200); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three thousand two hundred dollars (\$3,200); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding three thousand two hundred dollars (\$3,200), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value of the stock to be applied to the purposes of the contract with the John C. Orr Company, as set forth in this resolution, and more particularly described in the requisition of the Public Service Commission to this Board dated October 25, 1918; one thousand six hundred dollars (\$1,600) of said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board on March 18, 1913, and the supplemental general appropriations subsequently made thereto for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 3; and one thousand six hundred dollars (\$1,600) of said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made

by the Board on March 18, 1913, and the supplemental general appropriations subsequently made thereto for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 4.

and on April 25, 1919, with respect to the same subject matter, adopted the following resolution:

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891 as amended by chapter 625 of the Laws of 1917; the provisions of section 45 of the Greater New York Charter, and the requisition of the Public Service Commission for the First District of April 2, 1919, the Board of Estimate and Apportionment does hereby consent to an additional appropriation of two thousand six hundred dollars (\$2,600), requested by the Commission for the purpose of carrying out the contract between the City of New York, acting by said Commission, and the John C. Orr Company, for the continued storage, hauling, loading and unloading of treated ties and timber, Order No. 3, for use in the installation of tracks on rapid transit railroads, which contract was authorized by the Board of Estimate and Apportionment on November 22, 1918, at a total estimated cost of three thousand two hundred dollars (\$3,200); and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be two thousand six hundred dollars (\$2,600); and be it further

Resolved, That the Comptroller be and he is hereby authorized and requested to issue corporate stock of the City of New York to an amount not exceeding two thousand six hundred dollars (\$2,600), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe; the proceeds to the amount of the par value of the stock to be applied to the purposes of the contract with John C. Orr Company, as set forth in this resolution and more particularly described in the requisition of the Public Service Commission to this Board, dated April 2, 1919; two hundred dollars (\$200) of said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 3; and two thousand four hundred dollars (\$2,400) of said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under rapid transit Contract No. 4.

The Chief Engineer of this Commission, by communication dated June 2, 1923, has reported with respect to the work under said contract as follows:

All of the work under the contract dated December 20, 1918 with the John C. Orr Company for storing and hauling treated ties has been performed. It will be necessary, however, before a final estimate can be rendered to have the present appropriations redistributed as to Contract No. 3 and Contract No. 4 and a small additional amount of money made available. This is due to the long period of time over which this contract has run and also to the fact that it has not been always possible to accurately forecast the actual use of materials on Contract No. 3 and Contract No. 4, lines or the duration of the storage periods.

On November 22, 1918, the Board of Estimate and Apportionment set aside \$3200. divided \$1600. to Contract No. 3 and \$1600. to Contract No. 4. On April 25, 1919 it set aside \$2600. additional divided \$200. to Contract No. 3 and \$2400 to Contract No. 4. The totals to date are therefore \$1800. to Contract No. 3 and \$4000. to Contract No. 4.

If the Board of Estimate and Apportionment comply with the following recommendation, it will permit us to render a final estimate without further transfer of funds and with no unexpended balances.

Recommendation: That of the above mentioned \$1800. now set aside for Contract No. 3 and the sum of \$269.38 be transferred to Contract No. 4 and that an additional sum of \$15.21 be appropriated chargeable to Contract No. 4.

Your Honorable Board is accordingly requested to amend said resolution of your Board so as to rescind that portion of the moneys appropriated as aforesaid and charged

to the authorizations made for Contract No. 3 to the extent of Two hundred sixty-nine dollars and thirty-eight cents (\$269.38) and to return said sum to the general appropriation for said Contract No. 3.

Your Board is also requested to appropriate for the purposes of said contract, in so far as it affects Contract No. 4, the additional sum of Two hundred eighty-four dollars and fifty-nine cents (\$284.59) and to make said additional sum a further sub-authorization against the appropriations heretofore made by your Honorable Board for the purposes of carrying out said Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

754—R. T. 7496

Order No. 7—Report by Chief Engineer Recommending Readjustment of Appropriation for Supply of Ties and Timber—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated May 29, 1923, recommending that a request be made to the Board of Estimate and Apportionment for a readjustment of the appropriation of \$95,500 for the supply of ties and timber, Order No. 7, so as to make available the sum of \$74,600, chargeable to Contract No. 3, and the sum of \$20,900 chargeable to Contract No. 4.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment, by resolution adopted April 28, 1922, consented to the proposed contract between The City of New York, acting by this Commission, and Alfred R. Sax Lumber Company for the supply of Ties and Timber (Order No. 7) for use in the construction of municipal rapid transit railroads, and appropriated for said purpose the sum of \$95,500, making \$72,000 thereof a subauthorization against the appropriations made for Contract No. 3 and \$23,500 thereof as a subauthorization against the appropriations theretofore made for the purposes of Contract No. 4; and

Whereas, The Chief Engineer of this Commission, by communication dated May 29, 1923, has recommended that the Board of Estimate and Apportionment be requested to readjust the total appropriation of \$95,500 made as aforesaid, so as to make \$74,600 thereof chargeable to Contract No. 3 and \$20,900 thereof chargeable to Contract No. 4, for the reasons as more particularly set forth in his said communication; and

Whereas, Counsel has prepared and submitted a proposed requisition upon the Board of Estimate and Apportionment, which will effect the recommendation of the Chief Engineer aforesaid,

Resolved, That the said report and recommendation be and the same hereby is approved and that the requisition and communication in the form so submitted by Counsel to carry out said recommendation be and the same hereby are approved, and that they be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 5, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board, on April 28, 1922, adopted the following resolution:

(Cal. No. 170-A)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated May 26, 1921, the Board of Estimate and Apportionment does hereby consent to the contract with Alfred R. Sax Lumber Company for supply of ties and timber (Order No. 7) for use in the construction of municipal rapid transit railroads, at an estimated cost of ninety-five thousand five hundred

dollars (\$95,500), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be ninety-five thousand five hundred dollars (\$95,500); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding ninety-five thousand five hundred dollars (\$95,500) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged to the amount of seventy-two thousand dollars (\$72,000) as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to the amount of twenty-three thousand five hundred dollars (\$23,500) as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

The Chief Engineer of this Commission, by communication dated May 29, 1923, has reported with respect to the appropriation made as aforesaid as follows:

"On April 28, 1922, the Board of Estimate & Apportionment set aside \$95,500 for carrying on the contract for the supply of ties and timber, Order No. 7 with Alfred R. Sax Lumber Co. From estimates then made as to the probable use of this material the appropriation was divided \$72,000 to Contract #3 and \$23,500 to Contract #4.

The materials have all been delivered and in accordance with their final distribution, it is necessary before a final estimate can be rendered to have \$2,600 transferred to Contract #3 from that portion of the appropriation now set aside for Contract #4. This is due principally to the fact that a quantity of untreated ties was originally charged to Contract #4 in anticipation of using them on the 14th Street-Eastern Subway, but plans were subsequently changed so as to call for the use of treated ties, and part of the resultant surplus of untreated ties was diverted to Contract #3 lines. This adjustment of the appropriation will have to be made before a final estimate can be forwarded under the contract for the supply of ties and timber, Order No. 7.

Recommendation: That the Board of Estimate & Apportionment be requested to readjust the appropriation of \$95,500 made by them on April 28, 1922 so as to make \$74,600 available under Contract #3 and \$20,900 available under Contract #4."

The Transit Commission has approved said report and recommendation and for the reasons therein set forth your Honorable Board is accordingly requested to modify said resolution of April 28, 1922 so as to rescind the authorization of Twenty-three thousand five hundred dollars (\$23,500) to the extent of Two thousand six hundred dollars (\$2,600) and to return said amount to the general appropriation made for the purposes of said Contract No. 4 and to appropriate as an additional authorization under the appropriations heretofore made for the purposes of Contract No. 3 the additional sum of Two thousand six hundred dollars (\$2,600), so that the total appropriation of Ninety-five thousand five hundred dollars (\$95,500), made pursuant to the said resolution of April 28, 1922, will be readjusted to make the subauthorization against the appropriations made for said Contract No. 3, Seventy-four thousand six hundred dollars (\$74,600) and the subauthorization against the appropriations made for said Contract No. 4 Twenty thousand nine hundred dollars (\$20,900).

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

755—R. T. 7496

Order No. 7—Report by Chief Engineer Recommending Extension of Time to May 12, 1923, within Which to Complete Delivery of Ties and Timber—Approval Resolution

A report was presented from the Chief Engineer, dated June 2, 1923, recommending that an extension of time be granted to Alfred R. Sax Lumber Company, to and including May 12, 1923, within which to complete the delivery of untreated ties and timber, Order No. 7.

The following resolution was adopted:

Whereas, The contract dated May 9, 1922, between The City of New York acting by the Transit Commission and Alfred R. Sax Lumber Company for the supply of ties and timber (Order No. 7) requires, pursuant to stipulation made part thereof that all the work required thereunder shall in all respects be completed on or before January 1, 1923; and

Whereas, The Chief Engineer of this Commission by communication, dated June 2, 1923, has recommended for the reasons therein more particularly set forth that the said time be extended to and including May 12, 1923,

Resolved, That said recommendation be and the same hereby is approved and that the time within which to complete the delivery of materials under said contract aforesaid be and the same hereby is extended to and including May 12, 1923.

756—R. T. 7007

Contract No. 3—Reports by Engineer of Equipment and Operation and Chief Engineer Recommending Modification of Resolution of December 19, 1922, Approving Installation of Multiple Door Control on 396 Subway Cars so as to Substitute Numbers of Certain Cars upon Which Device Is to be Installed—Approval Resolution

Reports were presented from the Engineer of Equipment and Operation and the Chief Engineer, dated May 28, 1923, and May 31, 1923, recommending that the resolution adopted on December 19, 1922, approving the installation of multiple door control on 396 high voltage subway cars be modified so as to substitute the numbers of certain cars upon which such device is to be installed.

The following resolution was adopted:

Whereas, By resolution adopted December 19, 1922, this Commission approved the application of Interborough Rapid Transit Company, pursuant to the provisions of the contract dated March 19, 1913, known as Contract No. 3, for the installation of a multiple door control on 396 additional subway high voltage cars, such work to be performed as an Addition, pursuant to the provisions of Articles LXX and LXXI of Contract No. 3, and assigned thereto Work Order No. ICqA-1, said resolution specifically indicating the cars upon which said device would, pursuant to said approval, be installed; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communications dated May 28, 1923, and May 31, 1923, reported as follows:

"The Commission under date of December 19, 1922, approved the installation of multiple door control on 396 high voltage control cars forming part of Equipment under Contracts No. 1 and 2. Under date of May 15, 1923, I have been advised that the company has made a different selection of cars upon which this door control is to be installed. Accordingly, I suggest that the approval resolutions hitherto adopted be changed by substituting in place of cars Nos. 3915, 4399, 4410, cars Nos. 3757, 4383, 4384."

"The Commission under date of December 19, 1922, approved the installation of multiple door control on 396 high voltage control cars forming part

of Equipment under Contracts No. 1 and 2. Under date of May 28, 1923, I have been advised that the company has made a different selection of cars upon which this door control is to be installed. Accordingly, I suggest that the approval resolutions hitherto adopted be changed by substituting in place of car No. 4483, car No. 4410."

Resolved, That said reports and recommendations be and the same hereby are approved and that said resolution of December 19, 1922, aforesaid as heretofore modified be further modified so as to effect the said recommendations hereinbefore in this resolution set forth.

757—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchasing Agent's Order for Purchase of 5,000 Tons of Open Hearth Steel Rails—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated April 12, 1923, requesting approval of a purchasing agent's order directed to the Bethlehem Steel Company, Inc., for furnishing 5,000 tons of open hearth 100 pound steel rails at a cost of \$221,000.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer, dated June 5, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Operating Materials and Supplies.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3, said Interborough Rapid Transit Company by communication, dated April 12, 1923, has submitted for the approval of this Commission proposed purchasing agent's order, dated April 12, 1923, directed to Bethlehem Steel Company, Inc., for the following:

2,500 tons open hearth steel rails, I. R. T. 1909 standard 100 lb. section, as shown on drawing No. 8761.

2,500 tons open hearth steel rails, A. R. A. type "B" standard 100-lb. section, as shown unguarded on drawing No. 15090.

The above rails to be manufactured in accordance with I. R. T. Co's specifications, dated March 8, 1923, with the following modifications:

"If the best piece breaks under the 15-ft. drop without showing physical defect, but a test piece similar in all respects fails to break under a 10-ft. drop, the heat will not be rejected in this test."

Price: \$44.20 per gross ton, f. o. b. cars, Steelton, Pa. and f. o. b. cars, Lackawanna, New York: Total.....\$221,000.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 470"; and

Whereas, By communication, dated May 21, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the specifications (originally submitted with said proposed purchasing agent's order) under which said material was to be manufactured have been examined and were found not satisfactory and by supplemental communication, dated June 5, 1923, reports that at a conference between representatives of said Interborough Rapid Transit Company and this Commission it was agreed that said objectionable specifications be modified so that the carbon content of said material would for minimum be 78 per cent. and maximum 93 per cent. and average not less than 85 per cent. and upon such understanding now recommends that said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement, dated June 9, 1923, has recommended that such material be classified as Operating Materials and Supplies, as defined in said contract,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved upon the understanding that said change in the specifications as required by the engineer be made before delivery thereof and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval made part of said proposed purchasing agent's order.

758—Case 2679

Brooklyn Rapid Transit Company et al.—Application of Stockholders' Committee for Approval of Reorganization Plan—Designation by Commission of Three Directors of Brooklyn-Manhattan Transit Corporation

The Chairman stated that, pursuant to the Voting Trust Agreement offered in evidence in Case No. 2679, with respect to the Plan of Reorganization of the Brooklyn Rapid Transit Company and its rapid transit and surface railroad subsidiary companies, the Commission was empowered to nominate three directors to the Board of Directors of the Brooklyn-Manhattan Transit Corporation.

On motion of Commissioner Harkness, duly seconded and carried, the following resolution in Case No. 2679 was unanimously adopted:

"Whereas, In pursuance of a Voting Trust Agreement offered in evidence in Case No. 2679, with respect to the Plan of Reorganization of the Brooklyn Rapid Transit Company and its rapid transit and surface railroad subsidiary companies, the Commission was empowered to nominate three directors to the Board of Directors of the Brooklyn-Manhattan Transit Corporation, now, therefore,

Resolved, In consideration of the premises, the Transit Commission hereby nominates as directors and as representatives of the public of the City of New York, upon the Board of Directors of the Brooklyn-Manhattan Transit Corporation, the following persons: Travis H. Whitney of No. 212 Columbia Heights, Brooklyn, N. Y.; Alfred E. Marling of No. 35 West 47th Street, New York City; and Robert Alfred Shaw of No. 343 Carlton Avenue, Brooklyn, N. Y.

Further Resolved, That the Secretary of the Transit Commission be and he is hereby authorized to notify said persons of their nomination and the Voting Trustees under said Voting Trust Agreement and the Brooklyn-Manhattan Transit Corporation of the same."

759—Case 2686

Bush Terminal Railroad Company—Application for Permission to Exercise Franchise and to Construct and Operate Additional Spur Track in 41st Street, Brooklyn—Report and Opinion by Acting Chief Executive Officer—Final Order and Determination Granting Application—Opinion Approved—Order Adopted

The Secretary presented a report and opinion, dated June 4, 1923, by George L. Lucas, Acting Chief Executive Officer, recommending the granting of the application of the Bush Terminal Railroad Company for permission to exercise the right to construct and operate an additional spur track in 41st Street, in the Borough of Brooklyn.

Thereupon, the above mentioned Report and Opinion was unanimously approved and an Order in Case No. 2686 was adopted granting permission to the Bush Terminal Railroad Company to exercise the right to construct and operate in the Borough of Brooklyn, an additional spur track to extend from a connection with an existing spur track in 41st Street, at a point on the easterly side of Second Avenue and running thence

easterly along 41st Street to a point 197 feet east of Second Avenue where it would enter the property of the Shipley Construction & Supply Company on the northerly side of 41st Street, in accordance with the consent granted to the Bush Terminal Railroad Company by resolution of the Board of Estimate and Apportionment adopted February 9, 1923, and the plan attached to and forming part of the resolution, and further directing that the Order should take effect at once.

760

Bureau of Explosives—Application of B. W. Dunn, Agent, Requesting Omnibus Order Covering Inter-State Traffic for Transportation of Explosives—Report by Counsel Approved—Letter Granting Permission Authorized

The Secretary presented a communication, dated May 9, 1923, from B. W. Dunn, Agent of the Bureau of Explosives, requesting that the Commission make an omnibus order permitting the publication and filing on one day's notice of schedules for the transportation of explosives and other dangerous articles. The Secretary also presented a report, dated May 24, 1923, by Assistant Counsel Cooke, recommending the granting of the application by formal letter.

Thereupon, the above mentioned report was approved and a communication to Mr. Dunn authorized granting the permission, making certain conditions as to the filing of supplements and changes.

761—R. T. 7468

Agreement "CJ"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with M. A. Charles for Construction of Bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, and Authorizing Appropriation of \$24,953.61 as City's Share—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on May 25, 1923, was ordered filed:

(Cal. No. 58)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 25, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with M. A. Charles for the construction of a concrete and steel highway bridge at 9th avenue between 37th and 38th streets, in the Borough of Brooklyn (Agreement "CJ"), at an estimated cost to The City of New York of twenty-four thousand nine hundred and fifty-three dollars and sixty-one cents (\$24,953.61), said sum being one-half of the total estimated cost of said work, namely, forty-nine thousand nine hundred and seven dollars and twenty-one cents (\$49,907.21); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-four thousand nine hundred and fifty-three dollars and sixty-one cents (\$24,953.61); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty-four thousand nine hundred and fifty-three dollars and sixty-one cents (\$24,953.61), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto,

for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, May 25, 1923.

JAMES MATTHEWS,
Assistant Secretary.

762—R. T. 7642

Agreement "CK"—Notice by Chief Engineer of Commencement of Work for Excavation and Construction of Retaining Wall at Lenox Avenue Yard—Filed

The Commission ordered filed a notice from the Chief Engineer dated June 1, 1923, advising of the commencement of work by Fox, Reynolds Company, Inc., on May 23, 1923, for excavation and construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue between 148th and 150th Streets (Agreement "CK").

763—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Submitting List of Sub-stionment Consenting to Establishment of Supplementary Schedule Item for The following report by the Chief Engineer was ordered filed:

May 29, 1923.

TO TRANSIT COMMISSION:

List of Sub-Contracts.

I submit, as follows, a list of sub-contracts, approved by this Department during the month of April.

Route No.	Section No.	Contractor.	Sub-contractor	Date of Approval	Materials.
8	6-A-1	Frederick L. Cranford, Inc.	Kalman Steel Co.	4/ 5/23	Reinforcing rods and bars, T. C. Inspected.
18	239th St. Yard, Installation of tracks (including furnishing part of track materials and construction of drainage system and concrete inspection pits).	Michael Del Balso.	Slattery Engineering & Construction Co.	4/26/23	Special track work parts furnished by Wm. Wharton, Jr., & Co., Inc.
26	Jackson Ave. Station Reconstruction.	Joslin Construction Co.	Cole - Duncan Boiler Works, Inc.	4/12/23	Anchors and bolts for reinforcement of roof.
52	Sec. 3.	Oakdale Contracting Co.	American Bridge Co.	4/ 7/23	Structural steel.
			Kalman Steel Co.	4/ 7/23	Reinforcing rods and bars, T. C. Inspected.
			Lehigh Cement Co.	4/ 7/23	Cement, T. C. Inspected.
	Additional Approach Track, 148th St. and Lenox Ave. Yard.	Slattery Engineering & Construction Co.	Goodwin - Gallagher Sand & Gravel Corp.	4/10/23	Sand and gravel, T. C. Inspected.
	Second Addition to Shops, 148th St. and Lenox Ave. Yard.	Jacob Schlesinger, Inc.	The Oltmer Iron Works.	4/17/23	Paint furnished by Debevoise Paint Co.

Route No.	Section No.	Contractor.	Sub-contractor	Date of Approval	Materials.
Third Addition to Shops, Lenox Ave. and 148th St. Yard—Constructing Foundations.		Rosenthal Engineering Contracting Co.	New York Trap Rock Co.	4/12/23	Broken stone.
Lengthening Platforms of Canal St. Station, Center St. Loop.		New York Municipal Railway Corp.	Concrete Steel Co.	4/ 5/23	Reinforcing rods.
			American Bridge Co.	4/ 5/23	Structural steel. T. C. Inspected
Contract No. 1, 168th St. Station.		Holbrook, Cabot & Rollins Corp.	J. F. Kane Co.	4/ 5/23	cement.
			John F. Mahoney, Inc.	4/ 7/23	Plastering.
			Knoburn Products Corp.	4/11/23	Kalamein work.
			D. M. McLaury Tile Co.	4/16/23	Placing of tile and mosaic.
Newsstand Enclosures, Contracts Nos. 3 and 4.		Fox, Reynolds Co., Inc.	Ofen - Porzellan Fabrik.	4/23/23	Tile.
			Youngstown Sheet & Tube Co.	4/26/23	Metal known as "Copperoid."

ROBERT RIDGWAY,
Chief Engineer.

764

Accumulation of Records—Report by Secretary Relative to Reports Filed by Street Railroad Companies as to Cars Turned Back Before Reaching Destination—Referred to Counsel

The Secretary presented his report, dated March 14, 1923, relative to the accumulation of reports filed by street railroad corporations as to cars turned back before reaching their destination.

Thereupon the above mentioned report was referred to Counsel to the Commission.

765

Employees' Calendar No. 147

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—A. James Jacobs, junior assistant, at \$125.08 per month, to take effect June 4, 1923.

Appointment under Rule VIII:4—Samuel Axelrod, junior assistant, at \$125.08 per month, to take effect June 4, 1923; Roland J. McAuliffe, engineering inspector, at \$150.08 per month, to take effect May 29, 1923; Rueben Rubin, draftsman, at \$150.08 per month, to take effect June 1, 1923; Bernard J. Sullivan, junior assistant, at \$125.08 per month, to take effect June 5, 1923; Irving Troemel, junior assistant, at \$125.08 per month, to take effect June 1, 1923.

Appointment under Rule XVIII—John McCarthy, chauffeur, at \$30.00 per week, to take effect June 4, 1923.

Resignations—Louis Altschuler, junior assistant, at \$125.08 per month, to take effect May 29, 1923; Paul H. Borenstein, junior assistant, at \$125.08 per month, to take effect May 31, 1923; John Crawford, junior assistant, at \$125.08 per month, to take effect June 2, 1923; Charles A. Hughes, junior assistant, at \$137.50 per month, to take

effect June 20, 1923; George Wagner, junior electrical engineer, at \$150.00 per month, to take effect June 15, 1923.

Leave of Absence with Pay—David Apter, draftsman, from May 1, 1923, to June 30, 1923.

Voucher Schedule No. 23

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 295-296, miscellaneous bills, \$2,104.17.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 132, Fox Reynolds Co., Inc.; approximate estimate No. 1, for the completion of newsstand enclosures at stations of the Municipal Rapid Transit Railroads, under Contracts Nos. 3 and 4, from March 29, 1923 to May 25, 1923 (R. T. 7419) \$1,474.65;

Voucher No. 133, Station Finish Corporation, Assignee; approximate estimate No. 10 for the construction of station finish on Sections Nos. 3, 4, and 5 of Route No. 8, from May 1, 1923 to May 31, 1923 (R. T. 7516) \$14,806.95;

Voucher No. 134, Rosenthal Engineering Contracting Company, Inc.; supplementary approximate estimate No. 4 for the construction of inspection shed enclosure at Livonia Avenue Yard, Route No. 31, from November 15, 1922 to May 25, 1923 (R. T. 7520) \$1,925.48;

Voucher No. 135, Michael Del Balso; approximate estimate No. 5 for the installation of tracks, including furnishing of part of the track materials and the construction of drainage system and concrete inspection pits, for a portion of the White Plains Road Line, Route No. 18, 239th St. Yard, from May 1, 1923 to May 31, 1923 (R. T. 7528) \$28,778.45;

Voucher No. 136, T. H. Reynolds Contracting Co., Inc.; approximate estimate No. 6 for installation of tracks in Sections Nos. 1 to 5, inclusive, Route No. 8, from May 1, 1923 to May 31, 1923 (R. T. 7536) \$15,649.47.

767

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, June 13, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, June 7, 1923

Present: John F. O'Ryan, Commissioner; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

768—R. T. 7522

Agreement "CM"—Receipt of Bids for Changes in Railroad Structure to Permit Raising of Grade of North Jane Street—Referred to Chief Engineer

Commissioner O'Ryan stated that the time within which to receive bids for changes in the railroad structure of the 60th Street Tunnel east of the Boulevard so as to allow the raising of the street grade on North Jane Street, Borough of Queens, had elapsed

at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

 JAMES B. WALKER,
 Secretary.

Rapid Transit Railroads—Certified Copy of Resolution of Board of Estimate and Apportionment Approving Certain Tentative Subway Routes—Copy of Reply Approved

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 1, 1923, was presented:

Resolved, That, pursuant to the recommendations of His Honor, the Mayor contained in a communication to this Board, dated May 8, 1923, with respect to the modification of several subway routes as embodied in "Mayor Hylan's Plan for New

City-owned and City-operated Rapid Transit Routes," dated September 6, 1922, the Board of Estimate and Apportionment does hereby approve the following tentative subway routes classified as Group I:

Group I.

- Route 1. (a) Construct two (2) track extension from 59th Street and 7th Avenue in northwesterly direction through Central Park to a point in Central Park West between 61st Street and 62d Street, thence four (4) tracks north on Central Park West to 110th Street, thence west on 110th Street to Manhattan Avenue, thence north on Manhattan Avenue to St. Nicholas Avenue at 124th Street, thence north on St. Nicholas Avenue to 162d Street, thence three (3) tracks north on St. Nicholas Avenue to 168th Street, thence on Broadway to Dyckman Street.
 (b) Construct a two (2) track spur at 61st Street and Central Park West to provide a connection with the proposed Group II line on Tenth Avenue from 103d Street to the Battery.
- Route 10. Construct two track subway from Hunterspoint Avenue station of the Queensboro line to Jackson Avenue, Borden Avenue, Front Street under Newtown Creek through private property to Manhattan Avenue. Four track subway from this point (2 track loop) through Manhattan Avenue to Roebing Street, to Taylor Street, to Bedford Avenue, to Lafayette Avenue. From this point two tracks continue on Bedford Avenue to Fulton Street, through Brevoort Place and Franklin Avenue (with transfer connection at Franklin Avenue and Eastern Parkway) to intersection of Franklin and Flatbush Avenues, connecting with No. 13; other two tracks run west from Bedford Avenue into four track Lafayette Avenue Subway (No. 11).
- Route 11. Construct four track subway from Washington Street and Myrtle Avenue running through Myrtle Avenue to and through Ft. Green Park and Ft. Green Place to Lafayette Avenue, to Bedford Avenue; continuing three tracks on Lafayette Avenue to Broadway. (Two of these four tracks from Bedford and Lafayette avenues to Myrtle Avenue and Washington Street are included in No. 10.) Two tracks from Myrtle Avenue and Washington Street to Tillary Street; under Brooklyn Bridge property to Fulton Street, tunnel to Dover Street, Manhattan; under Brooklyn Bridge property to Park Row, connecting with First Avenue (Manhattan) subway. Transfer connection at Washington and Concord Streets to Hicks Street subway and at Washington Street and Myrtle Avenue to Court Street and Borough Hall stations of "recaptured" subways; and at Myrtle Avenue and Flatbush Avenue extension to Myrtle Avenue station of "recaptured" subway.
- Route 12. Construct three track subway through Utica Avenue from Eastern Parkway subway to Flatlands Avenue (spur tracks from Eastern Parkway already laid).
- Route 14. Extend Nostrand Avenue subway from Nostrand and Flatbush Avenues through Flatbush Avenue to Jamaica Bay (Concourse station at Flatbush and Nostrand Avenues with No. 13).
- Route 16. Construct three (3) track subway from intersection of the Culver line at Fort Hamilton Parkway through Fort Hamilton Parkway and Prospect Avenue to Fourth Avenue, thence under the Gowanus Canal to Lorraine Street, to Hicks Street, to Atlantic Avenue, with tunnel to connect with 10th Avenue, Manhattan, subway at the Battery. Also loop through State, Clinton, Pineapple and Hicks Streets in Brooklyn.
- Route 3. Construct two (2) track Nassau-Broad Street subway from City Hall to Old Slip, connecting with tunnel to Montague Street, Brooklyn, as concluding part of Centre Street Loop, as provided in dual contracts.
- Route 22. Extend present Corona Line from Alburdis Avenue to Main Street, Flushing, crossing Flushing Creek by bridge into subway, the bridge also to accommodate vehicular and pedestrian traffic.
- Route 18. Extend Fourth Avenue subway from 86th Street to 96th Street (Brooklyn).

June 13, 1923]

570

Route 20. Construct two (2) track subway from Fourth Avenue at 67th Street to connect with tunnel now under construction to Staten Island.

A true copy of resolution adopted by the Board of Estimate and Apportionment June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A copy of the following reply was approved:

June 12, 1923.

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK,
Municipal Building, New York City.

Sirs:

The Transit Commission is in receipt of your communication, dated June 5, 1923, transmitting for its consideration certified copy of a resolution adopted by your Honorable Board on June 1,

"approving certain tentative subway routes classified as Group 1 in communication dated September 6, 1922, as amended by communication dated May 8, 1923, from His Honor, the Mayor, with respect to 'Mayor Hylan's Plan for New City-owned and City-operated Rapid Transit Routes.'"

Your letter transmits also copies of the communications referred to, dated September 6, 1922, and May 8, 1923, in which the routes in question are definitely listed.

The routes embodied in your resolution of June 1 divide into two classes (1) those that have been legally and formally adopted through previous concurrent action of the Board of Estimate and the transit authorities; and (2) those that have not as yet been legally and formally adopted. Legal adoption, based upon the concurrent action of the Board of Estimate and validated by the acceptance of the proportion of abutting property owners fixed by statute, or in lieu thereof, the approval of the Appellate Division of the Supreme Court, must of course be accomplished before the actual construction of lines can proceed in any case.

The Routes filed in Subdivision (1) as aforesaid, are as follows, the route number indicated in the Resolution of your Board being used for convenience and clarity:

"Route 3. Construction two (2) track Nassau-Broad Street subway from City Hall to Old Slip, connecting with tunnel to Montague Street, Brooklyn, as concluding part of Center Street Loop, as provided in dual contracts."

This route, covering the Nassau Street Line, as described in Contract No. 4, was adopted some years ago. The line itself is the last of those the city contracted to build as part of the Dual Plan to be put under construction. A proposed contract for the construction of a portion of this line, Route No. 45, Section No. 2, is now pending before your Board upon a conditional award made by this Commission to the low bidder after public advertisement. The proposed contract for the remaining section, which will take less time to build, will be advertised during July of this year. No time will be lost by the Commission in pressing this entire work to conclusion.

"Route 22. Extend present Corona Line from Alburdis Avenue to Main Street, Flushing, crossing Flushing Creek by bridge into subway, the bridge also to accommodate vehicular and pedestrian traffic."

This route also was legally established some years ago and the contracts for the work have all been approved by your Board, with the exception of one which is now before the Corporation Counsel for approval as to form, have been executed and construction thereunder begun. The work of constructing the bridge over the Flushing River, a connecting link in the line, will by resolution of your Board adopted June 1, 1923, be carried out by the Department of Plant and Structures.

"Route 18. Extend Fourth Avenue subway from 86th Street to 96th Street (Brooklyn)."

This extension, which will carry the Fourth Avenue Subway to Fort Hamilton, was also validated some years ago. Your Honorable Board will recall that in the Commission's letter of May 15, 1923, it was stated with respect to the actual construction work of this extension as follows:

"Plans have been completed for the Bay Ridge extension from 86th to 95th Streets, in Brooklyn, and a contract for the entire length of this line let in December last. As your honorable board did not act upon this contract, the contractor withdrew his bid in March. If, however, it is your present desire that this extension go forward, the Commission is in a position to advertise without delay for new bids upon the present plans, and to start this work within the summer. The cost will be approximately \$1,850,000."

The remaining routes referred to in the Resolution of your Honorable Board fall either wholly or in part within Subdivision (2), where legal and formal validation through your action is still required.

It is assumed that all of the routes included in the "Group 1" of the resolution of your Honorable Board not as yet validated, are submitted to the Transit Commission in pursuance of the provisions of Section 4 of the Rapid Transit Act, which provides in part as follows:

"The public service commission of the first district upon its own motion may proceed, from time to time, to consider and determine whether it is for the interest of the public and of a city having over one million of inhabitants, according to the last preceding national or state census that a rapid transit railroad or railroads for the conveyance and transportation of persons and property should be established therein, and upon the request in writing of the local authorities of any such city at any time, the said commission shall proceed forthwith to consider and determine the same questions and in each case the said commission shall conduct such an inquest and investigation as may be deemed necessary in the premises."

The attention of your Honorable Board is respectfully called to the fact that the Commission has already made the statutory inquest and investigation and given consideration to and made a formal determination as to routes practically identical with Route No. 1 and Route No. 10, covered by your resolution, being the so-called "Brooklyn Crosstown Route" and the extension of the Broadway-Manhattan Subway north through Central Park West to Washington Heights, and that these routes so adopted by the Commission are now pending before your Board, having been submitted pursuant to the provisions of the said Rapid Transit Act. Each of these is covered by your resolution of approval of June 1 and the Commission assumes, therefore, that the formal approval necessary upon your part, will follow and that the work of preparing plans for construction upon both these lines may thereupon proceed.

As to the remaining routes the Commission will at a very early date take steps to comply with the provisions of the Rapid Transit Act above cited, and throughout such consideration will welcome the co-operation of the Conference Committee representing your Board, for the appointment of which provision was also made at your meeting of June 1.

Very Respectfully,
 TRANSIT COMMISSION,
 GEORGE McANENY,
 Chairman.

772—R. T. 7522

Agreement "CM"—Report by Chief Engineer as to Receipt of Bids for Changes in Railroad Structure so as to Permit Raising of Grade of North Jane Street and Recommendation for Award of Contract to Hamme & Jackson, Inc., at Bid Price of \$37,735—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

June 8, 1923.

TO TRANSIT COMMISSION.

Award of Contract for Agreement "CM", Route 61, to Hamme & Jackson, Inc., lowest bidder.

On June 7th, the following bids were received for work under Agreement "CM":
 Route 61, Modification of Railroad Structure east of Boulevard to Allow Raising of Street Grades, Borough of Queens:

Hamme & Jackson, Inc.....	\$37,735.00
Contractors' Service Corporation.....	43,695.00
D. C. Serber	52,000.00
M. A. Charles	52,685.00

Our estimate for this work amounted to \$38,125. This is the work for which the Board of Estimate, on May 18, 1923, appropriated \$40,000, the work to be "under the jurisdiction of the President, Borough of Queens; such work to be performed under the supervision of the Transit Commission and the fund to be expended by the Borough President upon vouchers to be prepared by said Transit Commission."

The bid of Hamme & Jackson, Inc., is very close to our estimate and the prices are reasonable under present conditions. The low bidder has successfully completed work for the Commission under Agreement "BQ", Route 61, Alteration of Emergency Exits and Stopping Leaks in Manhattan and Blackwell's Island Shafts. The amount of that contract was about \$19,800. That work was carried out successfully to our satisfaction.

Attached, I send you copies of minutes of a conference held in my office today which includes a financial statement by the Corporation.
